Applicant proposes to construct and operate facilities consisting of a four-inch line extending from Tennessee Gas' transmission pipeline at a point south of Dickson, Tennessee near its crossing of State Highway No. 48 thence northwest along county roads to U. S. Highway No. 70; thence west along said Highway No. 70 to McEwen and Waverly. From Waverly a two-inch line will follow the said highway to New Johnsonville. At the corporate limits of the municipalities to be served, regulating stations will be built and within the service areas will be laid distribution lines to supply present and future potential customers. Customers adjacent to the larger lines will be served directly from transmission facilities.

The estimated total cost of the project is $736,900, which will be financed by Applicant through the sale of revenue bonds. The estimated annual and peak day gas requirements in Mcf for the first 3 years of operations are as follows:

Year	Annual	Peak day
1	94,767	1,211
2	117,076	1,515
3	131,214	1,715

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 8, 1957.

[SEAL] J. H. GUTRIDE,
Secretary.

FOREST OIL CORP.

NOTICE CONSOLIDATING PROCEEDINGS FOR PURPOSES OF HEARING AND FIXING DATE OF HEARING

FEBRUARY 19, 1957.

By order issued October 19, 1955, in Docket No. G-9509, and by order issued November 2, 1955, in Docket No. G-9592, the Commission suspended and deferred the use of certain increased rates for sales of natural gas by Forest Oil Corporation to United Fuel Gas Company, pending a hearing upon a date to be fixed by notice from the Secretary, concerning the lawfulness of the proposed increased rates.

It is appropriate and in the public interest that the proceedings in Docket Nos. G-9509 and G-9592 be consolidated for purposes of hearing.

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 4, 5, 14, 15 and 16, and the Commission's rules of practice and procedure, a hearing will be held commencing on March 25, 1957, at 10 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in these consolidated proceedings.

Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

[SEAL] J. H. GUTRIDE,
Secretary.

[Docket No. G-9553 etc.]

H. L. HUNT

NOTICE CONSOLIDATING PROCEEDINGS FOR PURPOSES OF HEARING AND FIXING DATE OF HEARING

FEBRUARY 19, 1957.

In the matters of H. L. Hunt; Docket No. G-9553, Docket No. G-11038, Docket No. G-11069.

By order issued September 30, 1955, in Docket No. G-9553, and by orders issued August 13, 1956, in Docket Nos. G-11038 and G-11069, the Commission suspended and deferred the use of certain increased rates for sales of natural gas by H. L. Hunt to Texas Eastern Transmission Corporation, pending a hearing upon a date to be fixed by notice from the Secretary, concerning the lawfulness of the proposed increased rates.

It is appropriate and in the public interest that the proceedings in Docket Nos. G-9553, G-11038, and G-11069 be consolidated for purposes of hearing.

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 4, 5, 14, 15 and 16, and the Commission's rules of practice and procedure, a hearing will be held commencing on March 25, 1957, at 10 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in these consolidated proceedings.

Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

[Docket No. G-9557 etc.]

SUN OIL CO.

NOTICE CONSOLIDATING PROCEEDINGS FOR PURPOSES OF HEARING AND FIXING DATE OF HEARING

FEBRUARY 19, 1957.

In the matters of Sun Oil Company; Docket Nos. G-9557, G-9647, G-11287, G-11288, G-11354 and G-11513.

By order issued October 28, 1955, in Docket No. G-9557, by order issued November 15, 1955, in Docket No. G-9647, by orders issued October 26, 1956, in Docket Nos. G-11287 and G-11288, by order issued October 31, 1956, in Docket No. G-11354, and by order issued November 23, 1956, in Docket No. G-11513, the Commission suspended and deferred the use of certain increased rates for sales of natural gas by Sun Oil Company to United Fuel Gas Company, Texas Eastern Transmission Company, Texas Gas Pipe Line Corporation and Standard Oil Company of Texas, pending a hearing upon a date to be fixed by notice from the Secretary, concerning the lawfulness of the proposed increased rates.

It is appropriate and in the public interest that the proceedings in Docket Nos. G-9557, G-9647, G-11287, G-11288, G-11354, and G-11513 be consolidated for purposes of hearing.

Take notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Natural Gas Act, particularly sections 4, 5, 14, 15 and 16, and the Commission's rules of practice and procedure, a hearing will be held commencing on March 25, 1957, at 10 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented in these consolidated proceedings.

Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Secretary.

[F. R. Doc. 57-1432; Filed, Feb. 25, 1957; 8:48 a. m.]

[Docket No. G-3501]

PHILLIPS PETROLEUM CO.

NOTICE OF APPLICATION AND DATE OF HEARING

FEBRUARY 19, 1957.

Take notice that Phillips Petroleum Company (Applicant), a Delaware corporation with its principal place of business in Bartlesville, Oklahoma, filed on September 27, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing Applicant to continue the sale of natural gas in interstate commerce from the production of its Plymouth Lease in the West Nueces Bay Field, Nueces County, Texas, to United Gas Pipe Line Company for resale, all as more fully represented in the application which is on file with the Commission and open to public inspection.

By an amendment filed on August 29, 1955, to the aforesaid application, Applicant seeks authorization, pursuant to section 7 (b) of the act, to abandon the aforesaid service. The request for such authorization is contained in a letter from Applicant dated August 26, 1955 which was filed on August 29, 1955, as indicated. A certificate of public convenience and necessity has not been issued to date authorizing the aforesaid sale.

In support thereof, Applicant states that its FPC Gas Rate Schedule No. 169 provides in part that all the gas shall be delivered thereunder at a pressure sufficient to enter United's gathering line against the varying working pressures maintained therein and that the well-head pressure of the Plymouth No. 1 well declined continuously until the point was reached that such well was no longer able to produce into United's system and therefore the well was plugged and abandoned on May 5, 1955.

This matter is one that should be disposed of promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 28, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 12, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1438; Filed, Feb. 25, 1957; 8:48 a. m.]

[Docket No. G-9525]

DAVIS-KELLY OIL CO.

NOTICE OF APPLICATION AND DATE OF HEARING

FEBRUARY 19, 1957.

Take notice that Davis-Kelly Oil Company (Applicant), a partnership with its principal place of business in Morgantown, West Virginia, filed on October 21, 1955, an application for permission to abondon service, pursuant to section 7 (b) of the Natural Gas Act, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant seeks to abandon the sale of natural gas in interstate commerce to

Hope Natural Gas Company for resale. Such sale was authorized, from production by Applicant on certain acreage located in the Grant District, Ritchie County, West Virginia, by the Commission's order issued July 13, 1955, in Docket No. G–5569.

Applicant states that the sale was for the life of the well or as long as gas was produced in paying or marketable quantities; that the volume of gas available for delivery has declined to the point where it is no longer economically feasible to continue the operation; that the volume of gas delivered during the last month of operation was 5 Mcf; that Hope is willing to terminate this sale; and that Applicant and Hope have entered into a Cancellation Agreement dated September 26, 1955, providing for the termination of this sale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 28, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure here provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 12, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Secretary.

[F. R. Doc. 57–1439; Filed, Feb. 25, 1957; 8:49 a. m.]

[Docket No. G–10015]

F. KIRK JOHNSON

NOTICE OF APPLICATION AND DATE OF HEARING

FEBRUARY 19, 1957.

Take notice that F. Kirk Johnson (Applicant), an individual with his principal place of business in Fort Worth, Texas, filed on February 28, 1956, an application for permission to abandon service pursuant to section 7 (b) of the Natural Gas Act, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant seeks to abandon the sale of natural gas in interstate commerce to Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska) for resale. Such sale of natural gas was authorized pursuant to section 7 (c) of the Natural Gas Act from production from a State Lease located in Frenchman's Creek Field, Logan County, Colorado, by order of the Commission issued March 14, 1955, in Docket No. G–4123.

Applicant states that the only producing well on the aforesaid lease is unable to deliver natural gas against the pressure of Kansas-Nebraska's pipeline system; that this well was making in excess of 5,000 gallons of water and only 50 Mcf of gas per day on its last test; and that the revenues from the sale of such gas is less than the operating expenses incurred in the production thereof.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 28, 1957, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 12, 1957. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24NY–3842].

HAPPY DOLLAR CO.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

FEBRUARY 19, 1957.

I. Richard Culver Ott as "The Happy Dollar Company", a proposed limited partnership to be formed in the State of New York, having filed with the Commission on November 8, 1954, a Notification on Form 1–A which was thereafter amended, relating to a proposed offering of pre-formation limited partnership interests in an amount not to exceed $250,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A, promulgated thereunder; and

II. The Commission having been advised that the terms and conditions of said Regulation A have not been complied with in that the issuer has failed to file Form 2–A reports of sales, as required by Rule 224 of Regulation A;

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 57–1426; Filed, Feb. 25, 1957; 8:46 a. m.]

[File No. 70–3559]

INDIANA & MICHIGAN ELECTRIC CO.

NOTICE OF FILING REGARDING THE ISSUANCE OF SHORT TERM NOTES TO BANKS

FEBRUARY 19, 1957.

Notice is hereby given that Indiana & Michigan Electric Company ("Indiana"), a public-utility subsidiary of American Gas and Electric Company, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") and has designated section 6 (b) of the act and Rule U-50 (a) (2) promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to the application on file in the offices of the Commission for a statement of the transactions therein proposed which are summarized as follows:

Indiana has established a line of credit with each of the following banking institutions under which it proposes to borrow from time to time prior to December 31, 1957 not in excess of $16,500,000:

Irving Trust Company, New York, N. Y.	$3,250,000
Mellon National Bank & Trust Co., Pittsburgh, Pa.	3,250,000
Guaranty Trust Co. of New York, New York, N. Y.	3,250,000
First National City Bank of New York, New York, N. Y.	$2,000,000
Manufacturers Trust Co., New York, N. Y.	2,000,000
Continental Illinois National Bank & Trust Co. of Chicago, Chicago, Ill.	1,000,000
Bankers Trust Co., New York, N. Y.	875,000
The Hanover Bank, New York, N. Y.	875,000
	16,500,000

Of the $16,500,000 proposed to be borrowed, Indiana has, as of December 31, 1956, borrowed $5,000,000 and has issued its notes in evidence thereof. This amount and additional borrowings of $5,700,000 will be exempted from the provisions of section 6 (a) by the first sentence of section 6 (b) of the act.

Indiana now requests approval for additional borrowings under the above line of credit in an amount not to exceed $5,800,000, such borrowings to be evidenced by notes to be dated as of the date of such borrowings and to mature not more than 270 days after the date of issuance. The notes are to bear interest at the then current prime rate, which is presently 4 percent per annum, and may be prepaid from time to time, in whole or in part, without premium.

The proceeds from the issuance of the notes will be used by Indiana to pay part of the costs of its construction program which, it is presently estimated will amount to $35,000,000 in 1957. All of Indiana's notes payable to banks outstanding at the time of its next permanent financing will be paid off from the proceeds of such financing which is presently expected to be effected prior to December 31, 1957.

It is estimated that the expenses to be incurred by Indiana will not exceed $1,000, exclusive of the issuance taxes which may be paid to the State of Indiana. No fees, commissions or other expenses are to be paid except that routine services incident to the proposed transactions will be performed by the service company of the American system.

The application states that the proposed transaction will be expressly authorized by the Public Service Commission of Indiana in which State Indiana is organized and doing business. No other State commission and no Federal commission other than this Commission has jurisdiction over the proposed transaction.

Notice is further given that any person may, not later than March 6, 1957 at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said filing which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application, as filed or as it may hereinafter be amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

TITLE 3—THE PRESIDENT

PROCLAMATION 3170

PAN AMERICAN DAY AND PAN AMERICAN WEEK, 1957

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS on April 14, 1890, the American Republics founded a bureau for inter-American cooperation which now, as the Pan American Union, is an organ and the general secretariat of the Organization of American States; and

WHEREAS the twenty-one Republics of the Western Hemisphere will celebrate April 14, 1957, the sixty-seventh anniversary of that historic action, as Pan American Day, at the end of a week of commemorative ceremonies; and

WHEREAS the American Republics continue to work together harmoniously in furtherance of their mutual objective of making the Organization of American States an increasingly effective instrument of Hemispheric solidarity; and

WHEREAS they also continue steadfast in their common determination to maintain their freedom and safeguard their peace through active participation in this Organization, which embodies our inter-American system of cooperation:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby proclaim Sunday, April 14, 1957, as Pan American Day, and the period from April 8 to April 14, 1957, as Pan American Week; and I invite the Governors of the States, Territories, and possessions of the United States of America and the Governor of the Commonwealth of Puerto Rico to issue similar proclamations.

I also urge all our citizens and all interested organizations to join in appropriate observance of Pan American Day and Pan American Week, in testimony of the steadfast friendship which unites the people of the United States with the people of the other American Republics.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this twenty-first day of February in the year of our Lord nineteen hundred and fifty-seven, and of the Independence of the United States of America the one hundred and eighty-first.

[SEAL]

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

EXECUTIVE ORDER 10700

FURTHER PROVIDING FOR THE OPERATIONS COORDINATING BOARD

By virtue of the authority vested in me by the Constitution and statutes, and as President of the United States, it is hereby ordered as follows:

SECTION 1. (a) In order to assist in the effective coordination among certain agencies of certain functions relating to the national security and to provide for the integrated implementation of national security policies by the said agencies, there is hereby established within the structure of the National Security Council the Operations Coordinating Board, hereinafter referred to as the Board, which shall report to the National Security Council.

(b) The Board shall have as members the following: (1) the Under Secretary of State, who shall represent the Secretary of State, (2) the Deputy Secretary of Defense, who shall represent the Secretary of Defense, (3) the Director of Central Intelligence, (4) the Director of the United States Information Agency, (5) the Director of the International Cooperation Administration, and (6) one or more representatives of the President to be designated by the President. The Board shall have a chairman and a vice chairman, each of whom shall be designated by the President from among its members. Each head of agency referred to in items 1 to 5, inclusive, in this subsection may provide for an alternate

member who shall serve as a member of the Board in lieu of the regular member representing the agency concerned whenever such regular member is, for reasons beyond his control, unable to attend any meeting of the Board.

(c) The head of any agency (other than any agency represented under section 1 (b) hereof) to which the President from time to time assigns responsibilities for the implementation of national security policies shall assign a representative to serve on the Board when the Board is dealing with subjects bearing directly upon the responsibilities of such head. Each such representative shall be an Under Secretary or corresponding official. Each such head may provide for an alternate representative of his agency who shall attend any meeting of the Board, requiring representation of such agency, in lieu of the representative when the latter is, for reasons beyond his control, unable to attend.

(d) Any alternate member of the Board serving under section 1 (b) of this order, and any representative or alternate representative serving under section 1 (c) of this order, shall, while so serving, have in all respects the same status on the Board as the members of the Board provided for in section 1 (b) hereof.

SEC. 2. The President having approved any national security policy after receiving the advice of the National Security Council thereon, the Board shall (1) whenever the President shall hereafter so direct, advise with the agencies concerned as to (a) their detailed operational planning responsibilities respecting such policy, (b) the coordination of the interdepartmental aspects of the detailed operational plans developed by the agencies to carry out such policy, (c) the timely and coordinated execution of such policy and plans, and (d) the execution of each security action or project so that it shall make its full contribution to the attainment of national security objectives and to the particular climate of opinion the United States is seeking to achieve in the world, and (2) initiate new proposals for action within the framework of national security policies in response to opportunity and changes in the situation. The Board shall perform such other advisory functions as the President may assign to it and shall from time to time make reports to the National Security Council with respect to the carrying out of this order.

SEC. 3. Subject to the provisions of section 101 (c) of the National Security Act of 1947, as amended (50 U. S. C. 402 (c)):

(a) (1) The Board shall have, within the staff of the National Security Council, such staff as may be necessary to assist the Board in the performance of its functions, (2) the said staff of the Board shall be headed by an Executive Officer of the Board, and (3) employees of agencies may, consonant with law, be detailed to the aforesaid staff of the Board.

(b) Members of the staff of the Operations Coordinating Board provided for in Executive Order No. 10483, as amended, who are immediately prior to the taking effect of this order receiving compensation directly out of funds available to the said Board shall be transferred to the staff of the Board referred to in paragraph (a) of this section as of the effective date of this order. The said transfers shall be accomplished in consonance with applicable law, including the last proviso of section 12 of the Veterans Preference Act of 1944, as amended (5 U. S. C. 861).

(c) Appropriate arrangements may be made for the detail to the staff of the Board referred to in paragraph (a) of this section of employees of agencies who are immediately prior to the taking effect of the provisions of this order detailed to the staff of the Operations Coordinating Board provided for in Executive Order No. 10483, as amended.

SEC. 4. As used herein, the word "agency" may be construed to mean any instrumentality of the executive branch of the Government, including any executive department.

SEC. 5. Nothing in this order shall be construed either to confer upon the Board any function with respect to internal security or to abrogate or restrict in any manner any function vested by law in, or assigned pursuant to law to, any agency or head of agency (including the Office of Defense Mobilization and the Director of the Office of Defense Mobilization).

SEC. 6. This order supersedes Executive Order No. 10483 of September 2, 1953, and provisions amendatory thereof contained in other Executive orders (including, to the extent that it relates to the Operations Coordinating Board provided for in Executive Order No. 10483, the proviso of section 303 (b) of Executive Order No. 10610 of May 9, 1955). Subject to the provisions of this order (including the limitations imposed by section 3 hereof), the Board may be deemed to be a continuation of the Operations Coordinating Board provided for in Executive Order No. 10483, as amended.

SEC. 7. The foregoing provisions of this order shall become effective on July 1, 1957, except that if funds appropriated for the National Security Council shall not have become available on that date for the support of the Board in consonance with this order, the said provisions shall become effective on such later date as funds so appropriated become so available.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
February 25, 1957.

RULES AND REGULATIONS

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

[Reg. D]

PART 204—RESERVES OF MEMBER BANKS

CLASSIFICATION OF RESERVE CITIES

1. Effective March 1, 1957, § 204.52 is amended to read as follows:

§ 204.52 *Classification of reserve cities.* Acting in accordance with § 204.51, and pursuant to authority conferred upon it by section 11 (e) of the Federal Reserve Act and other provisions of that act, the Board of Governors has taken the following actions to become effective March 1, 1957:

(a) The City of Washington, D. C., and every city except New York and Chicago in which there is situated a Federal Reserve Bank or a branch of a Federal Reserve Bank are hereby continued as reserve cities.

(b) The following cities fall within the scope of paragraph (b) (2) of § 204.51 based upon official call reports of condition in the two-year period ending on June 30, 1956, and, therefore, such cities, in addition to the reserve cities classified as such under paragraph (a) of this section, are hereby continued as reserve cities:

Milwaukee, Wisconsin; Fort Worth, Texas; Indianapolis, Indiana; St. Paul, Minnesota; National City (National Stock Yards), Illinois; Tulsa, Oklahoma; Des Moines, Iowa; and Columbus, Ohio.

(c) The following cities do not fall within the scope of paragraph (b) (2) of § 204.51 based upon official call reports of condition in the two-year period ending June 30, 1956, but a written request for the continuance of each such city as a reserve city was received by the Federal Reserve Bank of the district in which the city is located on or before February 15, 1957, from every member bank having its head office or a branch in such city (exclusive of any member bank in an outlying district in such city permitted by the Board to maintain reduced reserves), together with a certified copy of a resolution of the board of directors of such member bank duly authorizing such request; and, accordingly, in accordance with paragraph (b) (3) of § 204.51, the following cities, in addition to the reserve cities classified as such under paragraphs (a) and (b) of this section, are hereby continued as reserve cities:

Wichita, Kansas; Kansas City, Kansas; Toledo, Ohio; Topeka, Kansas; and Pueblo, Colorado.

(d) The following cities do not fall within the scope of paragraph (b) (2) of § 204.51 based upon official call reports of condition in the two-year period ending June 30, 1956, and written requests for their continuance as reserve cities were not received from all member banks in such cities; and, accordingly, the designation of such cities as reserve cities is hereby terminated:

Cedar Rapids, Iowa, and Sioux City, Iowa.

(e) The Board has deferred, pending further consideration and for a period not exceeding three months from March 1, 1957, the question whether the city of Miami, Florida, will be designated as a reserve city in accordance with § 204.51.

2. The notice and public procedure described in sections 4 (a) and 4 (b) of the Administrative Procedure Act and the prior publication described in section 4 (c) of such act are impracticable, unnecessary and contrary to the public interest in connection with this action for the reasons and good cause found as stated in § 262.2 (e) of the Board's rules of procedure (Part 262), and especially because such notice, procedure and prior publication would serve no useful purpose.

(Sec. 11 (1), 38 Stat. 262; 12 U. S. C. 248 (1). Interprets or applies secs. 11, 19, 38 Stat. 261, 270, as amended; 12 U. S. C. 248 (c), (e), 461, 462, 462a–1, 462b, 464, 465)

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Civil Air Regs., Amdt. 20–2]

PART 20—PILOT AND INSTRUCTOR CERTIFICATES

EXTENSION OF MANDATORY COMPLIANCE DATE

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 19th day of February 1957.

On August 23, 1956, the Civil Aeronautics Board adopted a revision of Part 20 of the Civil Air Regulations which contains major changes in the requirements for the issuance of student, private, and commercial pilot certificates, and for aircraft, instrument, and instructor ratings. Section 20.2 provides for optional compliance with revised Part 20 until March 1, 1957. At the time of the adoption of the revised part, it was considered that the March 1, 1957, mandatory compliance date would provide sufficient time to enable implementation. However, it has become apparent that unforeseen difficulties in preparing the necessary implementing procedures and instructions make it extremely doubtful that such materials will be available in time for publication in the FEDERAL REGISTER to become effective by March 1, 1957.

In view of the foregoing, the Board is postponing the mandatory compliance date of revised Part 20 to September 1, 1957.

Since this amendment extends the date for compliance and imposes no additional burden on any person, notice and public procedure hereon are unnecessary, and the amendment may be made effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 20 of the Civil Air Regulations (14 CFR Part 20, as amended) effective February 19, 1957.

By amending § 20.2 by deleting the words "March 1, 1957" and inserting in lieu thereof the words "September 1, 1957."

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies secs. 601, 602, 52 Stat. 1007, 1008; 49 U. S. C. 551, 552)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 57–1474; Filed, Feb. 26, 1957; 8:56 a. m.]

[Civil Air Regs., Amdt. 60–3]

PART 60—AIR TRAFFIC RULES

COMMUNICATION RULES IN HIGH DENSITY AIR TRAFFIC ZONES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 20th day of February 1957.

On February 6, 1957, the Civil Aeronautics Board adopted Amendment 60–2 which amended § 60.18 of Part 60 of the Civil Air Regulations so as to delegate to the Administrator authority to permit him to designate "high density air traffic zones" within which speed limit and communication rules would become applicable.

With respect to the two-way radio communication requirement, the Board found it advisable to require communication from aircraft engaged in VFR flight only when the pilot intended to take off or land at or fly within the traffic pattern of a designated airport within the high density zone. This intent is clearly outlined in the preamble of Amendment 60–2.

It was also the Board's intent to provide an exception to this rule for aircraft not equipped with two-way radio so that they could operate to and from such a designated high density airport if prior authorization from the airport traffic control tower had been obtained. It appears, however, that the language of the provision in § 60.18 (f) (2) may be construed to require communication from aircraft operating at airports within the zone other than those designated as high density airports.

In order to eliminate ambiguity and make the proviso consistent with the communication rule and the Board's intent, it is considered appropriate to substitute language which clearly relates the proviso to a designated high density airport within the zone.

Since this amendment is of a clarifying nature and does not impose any additional burden on any person, the Board finds that notice and public procedure hereon are unnecessary, and the amendment may be made effective with less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 60 of the Civil Air Regulations (14 CFR Part 60, as amended) effective March 15, 1957.

By amending § 60.18 (f) (2) to read as follows:

§ 60.18. *Operation on and in the vicinity of an airport.* • • •

(f) *High density air traffic zone.* • • •

(2) *Communication requirements.* No person shall take off or land an aircraft at or enter the traffic pattern of a designated high density airport unless radio communication with the appropriate air traffic control facility has been established: *Provided,* That an aircraft not equipped with functioning two-way radio may take off or land at or enter the traffic pattern of such designated airport if prior authorization from the appropriate airport traffic control tower has been given.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

Effective: March 15, 1957.

Adopted: February 20, 1957.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 57–1475; Filed, Feb. 26, 1957; 8:56 a. m.]

[Civil Air Regs., Amdt. 60–4]

PART 60—AIR TRAFFIC RULES

PILOT VIGILANCE AND RESTRICTIONS ON FLIGHT TESTING

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 20th day of February 1957.

Part 60 of the Civil Air Regulations sets forth the air traffic rules which are applicable to all aircraft. These rules contain provisions prohibiting both civil and military aircraft from being flown in any unusual maneuvers over congested areas or on civil airways and prescribe certain minimum altitudes for the protection of persons or property on the ground. On February 5, 1957, the Board adopted Civil Air Regulations Amendment 60–1 which added specific provisions dealing with flight testing of aircraft. Section 60.24 of this amendment prohibited the flight testing of aircraft unless such flight test is conducted (1) over open water or sparsely populated areas having light air traffic and approved by the Administrator, or (2) within a flight test area designated by the Administrator. This section also provided that all flight tests are to be conducted in accordance with traffic rules which the Administrator may from time to time prescribe. Amendment 60–1 was to become effective February 20, 1957.

Within the past few days the Board has received complaints from representatives of aircraft manufacturers concerning certain provisions contained in Amendment 60–1. In particular, certain manufacturers have complained that no flight test areas within which flight tests may be conducted in accordance with the provision of § 60.24 have been approved or designated by the Administrator in the Los Angeles area and, accordingly, all flight test activity would be halted in this area on the effective date of this rule. Accordingly, the manufacturers recommend the amendment of Part 60 to eliminate the requirement that flight test areas be approved by the Administrator. Other recommendations have also been made to clarify the provisions of Amendment 60–1. In view of the fact that the largest and most active aircraft manufacturing establishments are located in the Los Angeles area, the absence of approved or designated flight test areas assumes a significance of tremendous proportions. No useful purpose would be served by delineating herein all of the arguments which have been presented to the Board concerning the difficulties experienced in the establishment of flight test areas. It suffices to state that coordination between users of the airspace involved in the Los Angeles area has proved to be especially difficult.

Although the Board, at the time it adopted Amendment 60–1, was concerned with the burden which would fall upon the Administrator in requiring flight test areas to be approved or designated by him, the Administrator assured the Board that the implementation of the program envisioned in this amendment was within the capabilities of the Civil Aeronautics Administration. He continues to hold this view.

The need for complete coordination in the interest of safety of the many conflicting requirements for the use of airspace is apparent. In view of the Administrator's responsibilities with respect to the designation of airspace for special purposes, and in view of the Administrator's assurances with respect to the capabilities of the Civil Aeronautics Administration to effect such coordination, the Board determined that a requirement for approval or designation of test areas was justified. Information received to date indicates that the exercise of this authority by the Administrator in an area such as Los Angeles is fraught with complexity and controversy of a magnitude which might not have been fully appreciated. Clearly, so far as the Los Angeles area is concerned, additional time is required to resolve conflicts in airspace requirements of the many users of airspace in their several high priority operations. The information available to the Board at this time, however, is not sufficient to permit us to conclude that the supervisory role of the Administrator in this matter should not be continued. The Board is advised, for instance, that approval or designation of flight test areas has been carried out effectively in all other areas of the country.

In view of the foregoing, it appears necessary to amend Part 60 further to provide that approval by the Administrator of flight test areas shall not be required before April 15, 1957. However, the prohibition against the conduct of flight tests except over open water or sparsely populated areas having light air traffic shall continue in effect after February 20, 1957. This amendment will provide the Administrator additional time to effect the necessary coordination with aircraft operators and other governmental agencies. In this connection, it is emphasized that this regulation requires the Administrator to approve areas for both civil and military test flights. Because of the complexity and the importance of this problem, the sincere and effective collaboration on the part of all interests, civil and military, is urgently required.

The Board has requested the comment of interested persons with respect to the substance of Amendment 60–1 on or before March 22, 1957. At that time the Board will consider all suggestions which have been received for the modification of the flight test rules of Part 60. With the exception of the requirement for the approval or designation of flight test areas, it does not appear that matters of clarification which have been brought to our attention are so urgent as to require disposition at this time.

For the reasons stated above, the Board finds that notice and public procedure hereon are impracticable and contrary to the public interest, and that good cause exists for making this amendment effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 60 of the Civil Air Regulations (14 CFR Part 60, as amended) effective February 20, 1957, as follows:

Section 60.24 shall be effective on and after February 20, 1957, except that portion of this section which reads "and approved by the Administrator" shall be effective on April 15, 1957.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended, sec. 4, 60 Stat. 238; 49 U. S. C. 551, 5 U. S. C. 1003)

Effective: February 20, 1957.

Adopted: February 20, 1957.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 57–1476; Filed, Feb. 26, 1957; 8:56 a. m.]

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 186]

PART 608—RESTRICTED AREAS

PINECASTLE, FLORIDA, AREA; ALTERATION

The restricted area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

In § 608.18, the Pinecastle, Florida, area (R–165 and R–340 formerly D–165 and D–340, respectively), published on November 6, 1954 in 19 F. R. 7225 is amended by changing the "Controlling Agency" column to read: "Commander, Fleet Air, Jacksonville, Florida".

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on March 14, 1957.

[SEAL] JAMES T. PYLE,
Administrator of Civil Aeronautics.

[F. R. Doc. 57–1443; Filed, Feb. 26, 1957; 8:45 a. m.]

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

Subchapter D—Multifamily and Group Housing Insurance

PART 232—MULTIFAMILY HOUSING INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING MULTIFAMILY HOUSING

REQUIRED SUPERVISION OF PRIVATE MORTGAGORS

In § 232.19, paragraph (g) is amended to read as follows:

§ 232.19 *Required supervision of private mortgagors.* • • •

(g) *Mortgagor's equity investment.* Unless it can be established to the satisfaction of the Commissioner, prior to the final endorsement of the mortgage for insurance, that the mortgagor has an investment in the project, represented by cash expenditures, in an amount equal to 3 percent of the total cost of the project as certified by the mortgagor and approved by the Commissioner, there shall be deposited in a special fund an amount equal to the difference between such 3 percent and the amount of any such investment for necessary expenses incident to the completion of the project. Disbursements from any such fund, prior to three years from the date of the final or initial-final endorsement of the mortgage for insurance, may be made only with the prior written approval of the Commissioner.

(Sec. 211, 52 Stat. 23; 12 U. S. C. 1715b. Interprets or applies sec. 207, 52 Stat. 16, as amended; 12 U. S. C. 1713)

Issued at Washington, D. C., February 18, 1957.

NORMAN P. MASON,
Federal Housing Commissioner.

TITLE 50—WILDLIFE

Chapter II—Alaska Game Commission

PART 161—GUIDES

REVOCATION OF PART

Basis and purpose. It having been determined by the Alaska Game Commission that the provisions of Part 161, Title 50, Code of Federal Regulations, governing the employment of hunting guides by nonresidents and aliens and prescribing qualifications for guide licenses, no longer effectually serve the purposes for which they were adopted, and cannot be made fully effective within the limitations of applicable law, the said Part 161 is revoked, effective immediately upon publication of this document in the FEDERAL REGISTER.

(Sec. 10, 43 Stat. 744, as amended; 48 U. S. C. 199)

Issued at Juneau, Alaska, and dated February 19, 1957.

THE ALASKA GAME COMMISSION,
[SEAL] FORBES L. BAKER, *Chairman.*
CLARENCE J. RHODES, *Executive Officer.*

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 902]

[Docket No. AO-293]

HANDLING OF MILK IN WASHINGTON, D. C., MARKETING AREA

NOTICE OF HEARING ON PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the opening of public hearing to be held in the Cameo Room, second floor of Presidential Arms, 1320 G Street, NW., Washington, D. C., beginning at 10:00 a. m., e. s. t., on April 8, 1957. The public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the handling of milk in the Washington, D. C., marketing area and to the issuance of a marketing agreement and order regulating the handling of milk in such marketing area.

The hearing on the proposed marketing agreement and proposed order is to determine whether, (1) the handling of milk in the area proposed to be regulated is in the current of interstate or foreign commerce, (2) the issuance of a marketing agreement or order regulating the handling of milk in the area is justified, and (3) the provisions specified in the proposals or some other provisions, appropriate to the terms of the Agricultural Marketing Agreement Act, will best tend to effecuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended. The proposals set forth below have not received the approval of the Secretary of Agriculture and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the proposals and any modifications thereof.

Proposal No. 1: The following marketing agreement and order has been proposed by Maryland and Virginia Milk Producers Association, Inc.:

DEFINITIONS

SECTION 1. *General.* (a) "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

(b) "Metropolitan Washington Marketing Area" also referred to as the "marketing area," means the territory of the District of Columbia and the counties of Maryland south of a line beginning at the point of entry of the Monocacy River into the Potomac River and the Montgomery County line follow the Montgomery County line northeastward and thence southeastward along the Patuxent River to the northwestern limits of the town of Laurel, follow the western and southern limits of the town of Laurel again to the Patuxent River, follow the Patuxent River southward to Route 214; from this point follow Route 214 to Davidsonville; turn right at Davidsonville on Route 424 and follow to Route 2; from this point follow a line directly eastward to the Chsapeake Bay. The counties in whole or in part south of this line are Montgomery, Prince Georges, Anne Arundel, Charles, Calvert and St. Marys in Maryland. In addition to these counties the following area in Virginia shall constitute a part of the area: Beginning at the junction of the westerly boundary of the Fairfax County Line and the Potomac River; thence southwesterly along the said county line to its junction with Route 50; thence southeasterly on Route 50 to its junction with Road 656; thence southerly on Road 656 to its junction with Route 29; thence from this point in a straight line southeasterly to the junction of Roads 655 and 620; thence easterly on Road 620 to its junction with Route 123; thence southerly on Route 123 to Road 636; thence from this point in a straight line southwesterly from the junction of Road 636 and Route 123 to the junction of Roads 641 and 642 in Prince William County; thence southeasterly along Road 642 to Road 640; thence northeasterly along Road 640 to Road 639; thence easterly along Road 639 to Route 123; thence southeasterly along Route 123 to Route 1; thence cross Route 1 and continue southeasterly along Road 637 to Dawson Beach; thence in a straight line due east to the Potomac River; thence up said river to its junction with the western boundary of the Fairfax County line, the point of beginning.

(c) "Month" means a calendar month.

(d) "Delivery period" means the current marketing period from the first to the last day of each month, both inclusive.

(e) "Producer plant test" means the weighted average butterfat test of all producer milk, received at a pool milk plant during a delivery period, as determined by the market administrator.

(f) "Health Department permit" means a permit issued by the applicable health department for the farm milk production or plant disposition of milk or fluid consumption within the marketing area.

(g) "Weighted average premium" means the result obtained by dividing the total pounds of producer milk delivered at a handler's plant into the total money for premiums which has been arrived at by multiplying each individual producer's total deliveries by the applicable premium rate pursuant to section 55.

(h) "Finished product test" means the average of not less than sixteen separate butterfat tests taken by the market administrator of each milk product processed and/or handled by a handler and any such additional tests as may be acceptable to the market administrator or his designated agent in each delivery period.

SEC. 2. *Persons.* (a) "Person" means any individual, partnership, corporation, association, or any other business unit.

(b) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

(c) "Market Administrator" means the agency which is described in section 10.

(d) "Dairy farmer" means any person who delivers milk of his own production to a plant.

(e) "Producer" means any dairy farmer, irrespective of whether such dairy farmer is also a handler, who produces milk under an individual health department permit issued by the applicable health department in the area as a result of a farm inspection, whose milk is moved directly from his farm to a pool plant either in individual cans, or by "bulk tank" pick-up provided each such "pick-up" can be individually identified. The term shall also include a dairy farmer with respect to his operation of a farm from which milk is ordinarily delivered to a handler's pool plant, but whose milk is diverted to another plant for the account of a handler.

(f) "Handler" means any person who, in a given month, operates a pool plant, or engages in the handling of milk or other fluid milk products which are received at any plants from which fluid milk products are disposed of directly or indirectly in the marketing area.

(g) "Pool-handler" means any handler who receives milk from producers, including his own production, at a pool plant; except as provided in paragraph (i) of this section.

(h) "Buyer-handler" means any handler who operates a bottling or processing plant from which Class I or Class II milk is disposed of in the marketing area or who distributes Class I or Class II milk in the marketing area, and whose entire supply of fluid milk products is received from other handlers.

(i) "Producer-handler" means any person who is both a handler and a dairy farmer, who receives no milk from other dairy farmers, and distributes not more than 3,000 gallons as Class I or Class II milk within the marketing area in any calendar month.

(j) "Association of producers" means any cooperative marketing association which the Secretary determines to be qualified pursuant to the act of Congress of February 18, 1922, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

SEC. 3. *Plants.* (a) "Plant" means the land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, handling, or processing of milk or milk products.

(b) "City plant" means any plant which is located within five miles of the marketing area.

(c) "Country plant" mean any plant which is located beyond five miles of the marketing area.

(d) "Pool plant" means any plant which in a given month meets the requirements set forth in Section 30 for being considered a pool plant.

(e) "Regulated plant" means any pool plant, or any plant operated by a handler in his capacity as a buyer-handler or producer-handler; and any city plant operated by an association of producers.

(f) "Receiving plant" means any plant which is currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly in cans from dairy farmers, and for washing and sterilizing such cans; or which is currently used for receiving milk directly from dairy farmers by tank truck; and at which are currently maintained weight sheets or other records of the individual farmers' deliveries.

SEC. 4. *Milk and milk products.* (a) "Milk" means the commodity received from a dairy farmer at a plant as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least 1 percent but less than 18 percent; frozen milk; reconstituted milk; and 50 percent of the quantity, by weight of "half and half."

(b) "Cream" means that portion of milk, containing not less than 18 percent of butterfat, which rises to the surface of milk on standing, or is separated from it by centrifugal force. The term also includes sour cream; frozen cream; milk and cream mixtures containing 18 percent or more of butterfat; and 50 percent of the quantity, by weight, of "half and half."

(c) "Half and half" means any fluid milk product, except concentrated milk, the butterfat content of which has been adjusted to at least 10 percent but less than 18 percent.

(d) "Skim milk" means that fluid milk product of milk which remains after the removal of cream, and which contains less than 1 percent of butterfat.

(e) "Fluid milk products" means milk, flavored milk, cream, skim milk, flavored skim milk, cultured skim milk, buttermilk, and concentrated milk, either individually or collectively.

(f) "Pool milk" means milk, including milk products derived therefrom, which a handler has received as milk from producers.

(g) "Outside milk" means:

(1) All milk received from dairy farmers who are not producers;

(2) All fluid milk products, received at a regulated plant from an unregulated plant, up to the total quantity of non-pool milk received at an unregulated plant;

(3) All fluid milk products, after subtracting receipts of the same form of fluid milk products from regulated plants, which are disposed of to consumers in the marketing area from an unregulated plant, without its intermediate movement to another plant.

(h) "Concentrated milk" means the concentrated, unsterilized milk product, resembling plain condensed milk, which is disposed of to consumers for human consumption in fluid form.

MARKET ADMINISTRATOR

SEC. 10. *Designation of Market Administrator.* The agency for the administration of this part shall be a market administrator who shall be a person selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

SEC. 11. *Powers of Market Administrator.* The Market Administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To make rules and regulations to effectuate its terms and provisions;

(c) To receive, investigate; and report to the Secretary complaints of violations of its terms and provisions; and

(d) To recommend to the Secretary amendments to it.

SEC. 12. *Duties of Market Administrator.* The Market Administrator, in addition to the duties described in other sections of this part, shall:

(a) Within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond conditioned upon the faithful performance of his duties, in an amount and with sureties thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to exercise his powers and perform his duties;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by section 60, the cost of his bond, his own compensation, and all other expenses necessarily incurred in the maintenance and functioning of his office;

(e) Keep such books and records as will clearly reflect the transactions provided for in this order and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within fifteen days after the date upon which he is required to perform such acts, has not made reports pursuant to section 35 or made payments pursuant to section 55;

(g) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this part;

(h) On or before the 12th day after each delivery period, report to each cooperative association, which so requests, the percentage of producer milk delivered by members of such association which was used in each class by each handler receiving such milk. For the purpose of this report the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler.

(i) Check the weight and butterfat test of milk received from producers by each handler each month and report the results to producers or to their cooperative association which makes payment for milk direct to its members. The market administrator may designate an independent agency to check the weight and butterfat test of such receipts by handlers.

CLASSIFICATION

SEC. 15. *Milk to be classified.* All milk and milk products received by each handler shall be classified as Class I milk, Class II milk, or Class III milk. Subject to sections 16 and 17, the classes of utilization shall be as follows:

(a) *Class I milk.* All fluid milk products which are disposed of for human consumption as milk, flavored milk, skim milk, flavored skim milk, cultured skim milk, buttermilk, all milk used to produce concentrated milk and all milk not accounted for in Class II and Class III; and any plant loss pursuant to section 25; and plus or minus any inventory change as the case may be.

(b) *Class II milk.* All fluid milk products which are used in the manufacture of, or disposed of in, bread or bakery products at a bona fide bakery plant,

cottage cheese, pot or baker's cheese, eggnog, cream for fluid consumption and aerated whips; and any plant loss pursuant to section 25.

(c) *Class III milk.* All fluid milk products used or disposed of as ice cream and similar frozen dairy products and mixes, butter, roller or spray non-fat dry milk solids, condensed milk, condensed skim milk, or cheese other than cottage, pot or baker's cheese and any plant loss pursuant to section 25.

SEC. 16. *Transfers.* Fluid milk products moved to another plant from a pool plant shall be classified as follows:

(a) If moved to another regulated plant, they shall be classified as Class I milk up to the total quantity of fluid milk products utilized as Class I milk at the plant to which they were moved. Any excess shall be assigned to the next available lower class.

(b) If moved to an unregulated plant, they shall be classified as Class I milk up to the total quantity of fluid milk products utilized as Class I milk at such plant, and any excess shall be assigned to the next available lower class, unless the following conditions are met:

(1) The transferring handler claims (Class II or) Class III utilization in a product specified in section 15;

(2) The association of producers responsible for marketing the milk which is so transferred has authorized the lower classification by notice given to the market administrator and to the transferring handler at least 24 hours after such transfer;

(3) The operator of the unregulated plant keeps adequate books and records showing the utilization of all fluid milk products received at such plant and the market administrator is permitted to examine such books and records for the purpose of verification; and

(4) The Class I milk, as defined pursuant to section 15 in such unregulated plant does not exceed the receipts of milk during the month from dairy farmers, who the market administrator determines, constitute the regular source of supply for such plant: *Provided*, That any Class I milk in excess of receipts from such dairy farmers shall be assigned to the milk so transferred or diverted.

SEC. 17. *Responsibility of handlers and re-classification of milk.* (a) In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives the milk from producers or who causes the milk to be transferred to an unregulated plant, to account for the milk and to prove that such milk should not be classified as Class I milk.

(b) Any milk or milk products shall be re-classified if verification by the market administrator discloses that the original classification was incorrect.

SEC. 20. *Assignment of receipts to classes*—(a) *Pool milk.* (1) Milk received either directly from producers or from another pool plant shall first be assigned to Class I milk.

(2) Milk received in excess of such Class I utilization shall be assigned to Class II milk.

(3) Milk received in excess of Class I and Class II utilization shall be assigned to Class III milk.

(b) *Outside milk.* Outside milk shall first be assigned to Class III milk and then in sequence to Class II milk and to Class I milk.

SEC. 25. *Computation of milk in each class.* For each delivery period the market administrator shall correct for mathematical errors the report submitted by each handler and compute from the corrected report the amount of Class I milk, Class II milk and Class III milk as follows:

(a) Determine the total pounds of milk to be accounted for by adding into one sum the total pounds of milk received from producers and the handlers own farm production and the total pounds of milk and milk products received as outside milk, the total pounds of milk or milk products received from other pool plants and any plant gain determined pursuant to paragraph (e) of this section.

(b) Determine the total pounds of Class I milk as follows:

(1) Convert to pounds each of the products classified as Class I pursuant to section 15 (a),

(2) Multiply the weight of the products computed each by its average finished product butterfat test computed pursuant to Section 1, add together the resulting amounts and divide by the producer plant test.

(3) Add to the resulting amount any amount by which the sum of the quantities computed pursuant to subparagraph (1) of this paragraph exceeds the amount computed pursuant to subparagraph (2) of this paragraph,

(4) Add to this amount any amount computed pursuant to paragraph (e) of this section,

(5) Add to this amount any milk not accounted for in paragraphs (c) and (d) of this section.

(c) Determine the total pounds of Class II milk as follows:

(1) Convert to pounds each of the products classified as Class II pursuant to section 15 (b) and multiply the results obtained each by its average finished product butterfat test, and together the resulting amounts, and divide by the producer plant test,

(2) Add to the resulting amount any amount by which the total product pounds of cream disposed of for consumption as fluid cream and the pounds of cream and skim milk disposed of in cottage, pot or baker's cheese exceeds the amount computed pursuant to subparagraph (1) of this paragraph,

(3) Add any amount computed pursuant to paragraph (e) of this section,

(4) Subtract any amount by which that amount when added to the amount of Class I milk determined pursuant to paragraph (b) of this section exceeds the total pounds of milk received computed pursuant to paragraph (a) of this section.

(d) Determine the total pounds of Class III milk as follows:

(1) Multiply the weight of each of the products of Class III milk by its average butterfat test computed pursuant to section 1, add together the resulting amounts, and divide by the producer plant test,

(2) Add to this amount any amount by which the total product pounds of milk, skim milk, and cream disposed of in Class III products exceeds the amount computed pursuant to subparagraph (1) of this paragraph,

(3) Add any amount computed pursuant to paragraph (e) of this section,

(4) Subtract any amount by which that amount when added to the amount of Class I milk determined pursuant to paragraph (b) of this section and Class II milk determined pursuant to paragraph (c) of this section exceeds the total pounds of milk received computed pursuant to paragraph (a) of this section.

(e) Determine the total pounds of plant loss or plant gain as follows:

(1) Add together the pounds of butterfat contained in Class I, Class II, and Class III milk,

(2) Subtract the total pounds of butterfat thus computed from the total pounds of butterfat received,

(3) Should the result computed pursuant to subparagraph (2) of this paragraph determine that subparagraph (1) of this paragraph be greater than the total pounds of butterfat received, divide this excess by the plant test and add the resulting amount to producer receipts determined pursuant to paragraph (a) of this section and add the excess butterfat determined in subparagraph (2) of this paragraph to the total butterfat receipts as determined in paragraph (a) of this section,

(4) Should the result computed pursuant to subparagraph (2) of this paragraph determine that (1) of this section be less than the total pounds of butterfat received, divide the difference in butterfat pounds by the producer plant test and add to each class as determined in paragraphs (b), (c) and (d) of this section the percentage of this difference in a ratio that each class of milk is to the total of all classes.

SEC. 30. *Determination of pool plant status.* Each receiving plant which is approved by the applicable health department in the area for the sale of milk as fluid milk in the marketing area shall be a pool plant during each month in which it meets the following requirements:

(a) Each city receiving plant shall be a pool plant in each month in which at least 10 percent of its total receipts of fluid milk products is disposed of as Class I milk in the marketing area, or in which it is operated by an association of producers.

(b) Each country receiving plant shall be a pool plant in any month in which more than 10 percent of its total receipts of fluid milk products is disposed of as Class I milk in the marketing area.

(c) Any country plant which is a pool plant continuously in each of the months of October through March shall be a pool plant continuously for the following months of April through September, regardless of the quantity then disposed of in the marketing area, if the handler's written request for pool plant status for such six months' period is received by the market administrator before April 1 of that year. Changes in the identity of the handler operating the plant shall not affect the application of this paragraph.

(d) Each of a handler's plants which is a non-pool receiving plant during any of the months of October through March shall not be a pool plant in any of the following months of April through September in which it is operated by the same handler, an affiliate of the handler, or any person who controls or is controlled by the handler, unless its operation during October through March was in the handler's capacity as a producer-handler.

(e) Each plant which is operated as the plant of a producer-handler shall be a non-pool plant in any month in which it is so operated.

SEC. 35. *Reports of handlers*—(a) *Reports of pool handlers.* On or before the 8th day after the end of each month each pool handler shall, with respect to the fluid milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(1) The receipts of milk at each pool plant from producers, including the quantity, if any, of his own production,

(2) The receipts of fluid milk products at each plant from any other handler,

(3) The receipts of outside milk at each plant,

(4) The respective quantities which were sold, distributed, or used, including sales to other handlers, classified pursuant to section 15.

(b) *Reports of non-pool handlers.* Each non-pool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of that month.

(c) *Reports regarding individual producers.* Within 20 days after a producer moves from one farm to another, or starts or resumes deliveries to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the health department permit number, the date on which the change took place, and the farm and plant locations involved, except where such producer is a member of a cooperative association. In that instance the handler shall only report to the market administrator the name of the producer and the name of the cooperative association.

(d) *Reports of payments to producers.* Each pool handler shall submit to the market administrator, within 20 days after the end of the month, his producer payroll for such month, which shall show for each producer;

(1) The daily and total pounds of milk delivered with the average butterfat test and premium rate,

(2) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved. Except that handlers who make payments direct to a cooperative association may submit a copy of their settlement with the association in lieu of the above.

(e) *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movement, and disposition of milk and milk products during the month, and the quantities of milk and milk products on hand at the end of the month.

(f) *Verification of reports.* For the purpose of ascertaining the accuracy of any report made to the market administrator as required by this section or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(1) Verify the information contained in reports submitted in accordance with this section,

(2) Weight, sample, and test milk and milk products,

(3) Make such examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this paragraph.

(g) *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of not less than 3 years to begin at the end of the calendar month to which such books and records pertain. Any handler shall notify the market administrator at least 30 days in advance of his intention to destroy any such records after the three-year period has expired.

(h) *Reports to cooperative associations of producers.* (1) Within 5 days after the end of each delivery period, each handler purchasing milk from a cooperative association of producers, for which such cooperative association collects payment, shall report at each plant, on individual forms acceptable to the cooperative association, for each producer of the cooperative association as follows:

(i) The name, address and code number, if any,

(ii) The individual daily receipts in pounds,

(iii) The average butterfat test,

(iv) The farm and cattle score,

(v) The total pounds of the individual producers in each butterfat test and in each farm and cattle score classification.

(2) Within 8 days after the end of each delivery period, each handler purchasing milk from a cooperative association of producers, for which such cooperative association collects payment, shall report on forms acceptable to such cooperative association:

(i) The utilization and finished product butterfat tests of all producer milk received from the association,

(ii) The receipts, utilization and butterfat tests of all milk and milk products received from other handlers,

(iii) The receipts, utilization and butterfat tests of all other milk and milk products received from all sources other than the association,

(iv) The plant loss or plant gain at each plant,

(v) If the handler so elects he may submit a copy of his report to the market administrator as specified in paragraph (a) of this section.

(i) *Bulk tank records and reporting.* If milk is purchased by a handler from a cooperative association by bulk tank, rather than on an individual producer basis, the following procedure shall be followed:

(1) Each individual bulk tanker shall be identified and weighed on an approved scale and the official record of the weight retained for audit by the market administrator.

(2) A butterfat sample of each individual bulk tanker shall be taken in a manner satisfactory to the market administrator and a part of that sample shall be retained three days for check tests by the market administrator. Any differences or disputes with respect to butterfat tests shall be referred to the market administrator, whose decision will be final.

(3) The handler will collect from each bulk tank driver individual farm tank tickets, showing the name of the producer, the date of pick-up, the measurement of milk in the tank and any other information pertinent and required in order to record properly the amount of milk shipped by each individual producer whose milk is collected in the bulk tank.

(4) The handler shall make this information available to the cooperative association in order that proper accounting can be made to individual shippers on the bulk tanker. The market administrator shall set up such rules and procedures as he deems necessary to account properly for this method of handling milk from producers and his decision shall be final.

SEC. 45. *Determination of class prices.* Each handler shall pay not less than the following basic prices per hundredweight of 3.5 percent milk, subject to adjustments pursuant to provisions of section 55 for milk received from producers and association of producers at a pool plant.

(a) *Basic Class I price.* The basic Class I price shall be determined as follows:

(1) Using the Wholesale Commodity Price Index as reported by the Bureau of Labor Statistics (1947–1949=100) determine the moving average for the six available months prior to the month for the delivery period the price is applicable.

(2) Upon determination of this index the following price schedule shall be used to determine the applicable basic Class I price:

When the index is within:	*The basic Class I price shall be*
132–146	$6.91
117–131	6.51
101–116	6.11
86–100	5.71
72–85	5.31
55–71	4.91

If the index is less than 71 or more than 146 the basic Class I price shall be determined by extending the table at the indicated rate of extension.

(3) In the event the index would indicate the movement from a higher bracket to a lower bracket during any of the months of July through December the price that prevailed in June shall be in effect, or should the index indicate a higher price for any of the months of January through June the price that prevailed in December shall be in effect.

(4) This method of determination of the basic Class I price shall be effective for a period of 18 months from the date this order becomes effective.

(b) *Basic Class II price.* The basic price for Class II milk shall be the sum of the respective values of butterfat and skim milk calculated as follows:

(1) *Butterfat.* Add all weekly quotations (using the midpoint of any weekly range as one quotation) per 40-quart can of 40 percent sweet cream approved for Pennsylvania and New Jersey in the Philadelphia, Pennsylvania, market, as reported each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract $1.00, divide by 33.48, multiply by 3.5.

(2) *Skim milk.* The weighted average selling price, wholesale, at manufacturers' plants, of all spray and roller dried non-fat milk solids for human consumption, as published by the United States Department of Agriculture for the previous month, shall be used in determining the skim value as follows:

Quotation per pound:	Class II skim value
$0.065 or below	-------
$0.066 to $0.075	$0.07½
$0.076 to $0.085	.15
$0.086 to $0.095	.22½
$0.096 to $0.105	.30
$0.106 to $0.115	.37½
$0.116 to $0.125	.45
$0.126 to $0.135	.52½
$0.136 to $0.145	.60
$0.146 to $0.155	.67½
$0.156 to $0.165	.75
$0.166 to $0.175	.82½
$0.176 to $0.185	.90
$0.186 to $0.195	.97½

(c) *Class III price.* The Class III price shall be the sum of the respective values of butterfat and skim milk calculated as follows:

(1) *Butterfat.* Add all weekly quotations (using the midpoint of any weekly range as one quotation) per 40-quart can of 40 percent sweet cream approved for Pennsylvania and New Jersey, and Pennsylvania only, in the Philadelphia, Pennsylvania, market, as reported each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract $2.00, divide by 33.48, multiply by 3.5.

(2) *Skim milk.* The weighted average selling price, wholesale, at manufacturers' plants, of all spray and roller dried non-fat milk solids for human consumption, as published by the United States Department of Agriculture for the previous month, shall be used in determining the skim value as follows:

Quotation per pound:	Class III skim value
$0.105 or below	-------
$0.106 to $0.115	$0.07½
$0.116 to $0.125	.15
$0.126 to $0.135	$0.22½
$0.136 to $0.145	.30
$0.146 to $0.155	.37½
$0.156 to $0.165	.45
$0.166 to $0.175	.52½
$0.176 to $0.185	.60
$0.186 to $0.195	.67½

(d) *Location adjustment to handlers.* For milk which is received from producers at a country plant and classified as Class I and/or Class II milk the price shall be the price effective pursuant to section 45 (a) and (b) less the differential set forth in paragraph (e) of section 55.

SEC. 50. *Determination and announcement of uniform prices*—(a) *Computation of net value of milk used by each pool handler.* For each month, the market administrator shall compute in the following manner, the net value of milk which is sold, distributed, or used by each pool handler:

(1) From the handler's total quantity of milk classified pursuant to section 15, subtract all receipts from other pool handlers;

(2) Multiply the remaining quantities of milk in each class by the prices applicable pursuant to section 45;

(3) Add together the resulting value of each class;

(4) Subtract the value obtained by multiplying the quantity of outside milk by the price applicable to paragraph (c) of section 45;

(5) Subtract any amount applicable pursuant to section 55;

(6) Add the value of premiums pursuant to section 55 determined by multiplying the weighted average premium by the total of the Class I and Class II milk pursuant to paragraphs (b) and (c) of section 25;

(7) For the purpose of calculating the pool value of milk for each handler, the market administrator shall convert all receipts not used in computing the producer plant test to milk equivalent at the producer plant test. Any average or shortage, over or under the actual product pounds shall be added or subtracted, as the case may be, from the computation of pool value, by multiplying the difference by the skim value per hundredweight of the class in which actually utilized.

(b) *Computation of the uniform price.* (1) Combine into one total the respective net values of milk, computed pursuant to paragraph (a) of this section, and payments required pursuant to section 55 for each handler from whom the market administrator has received at his office, prior to the 10th day after the end of such month, the reports for such month and the payments required pursuant to section 55 for the preceding month;

(2) Add the amount of unreserved cash in the producer settlement fund;

(3) Subtract the total of all premiums computed pursuant to section 55;

(4) Add or subtract as the case may be, the total value of the butterfat differential applicable pursuant to section 55;

(5) Add the total value of location adjustments determined pursuant to paragraph (d) of section 45;

(6) Divide by the total quantity of pool milk for which a value is determined pursuant to subparagraph (1) of this paragraph; and

(7) Subtract not less than 2 cents nor more than 4 cents for the purpose of retaining a cash balance in connection with the payments set forth in section 55. This result, which is the minimum price for milk containing 3.5 percent butterfat received from producers at city plants, shall be known as the uniform price.

(c) *Seasonal adjustment fund.* The market administrator shall establish and maintain a separate fund known as the seasonal adjustment fund into which he shall deposit all payments made by handlers pursuant to (1) of this paragraph and out of which he shall make all payments pursuant to (2) of this paragraph: *Provided*, That payments due any handler shall be offset by payments due from such handler.

(1) Payments to the fund: On or before the 15th day after the end of each delivery period for April and May, each handler shall deduct from the uniform price announced by the market administrator for each of the months of April and May and shall pay to the market administrator for the account of the seasonal adjustment fund an amount of money equal to 45 cents times the hundredweight of milk received from producers in each of these months.

(2) On or before the 12th day after the end of the delivery periods of July and September, the market administrator shall compute and announce an individual pay-back month seasonal adjustment fund rate by dividing the total monies paid into the fund by two and dividing the two equal amounts by the pounds of producer milk delivered in July and in September which will establish the pay-back rate for each of the two months. On or before the 15th day after the end of the delivery periods of July and September, the market administrator shall pay out of the seasonal adjustment fund to each cooperative association an amount equal to the applicable rate computed pursuant to this paragraph times the hundredweight of milk delivered to handlers during the delivery period by such association of producers who have given authority to such cooperative association to receive payment for their milk, and to each handler, an amount equal to the applicable rate computed pursuant to this paragraph times the hundredweight of milk received during the delivery period from producers other than those producers for whom a cooperative association receives payment.

SEC. 55. *Payment for milk*—(a) *Time and method of payments.* On or before the 14th day after the end of each delivery period, each handler shall make payment for milk delivered by producers to such handler, or milk from producers for which such handler is responsible pursuant to section 17, during each delivery period as follows:

(1) To each producer at not less than the uniform price per hundredweight computed pursuant to section 50 for that quantity of milk received from such producer, or

(2) To a cooperative association for milk which is caused to be delivered to a handler from producers and for which such cooperative association collects payments, a total amount equal to not less than the sum of the individual payments otherwise payable to such producers pursuant to subparagraph (1) of this paragraph.

(b) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the producer-settlement fund into which he shall deposit all payments made by handlers pursuant to (1) and (2) of this paragraph and out of which he shall make all payments to handlers pursuant to subparagraphs (1) and (2) of this paragraph.

(1) *Payments to the producer-settlement fund.* On or before the 15th day after the end of each delivery period, each handler shall pay to the market administrator the amount by which the total value of the milk received by him pursuant to paragraph (a) of section 50 is greater than the sum of the minimum payments required to be made to producers pursuant to paragraph (a) of this section.

(2) *Payments out of the producer-settlement fund.* On or before the 17th day after the end of each delivery period, the market administrator shall pay to each handler for payment to producers, the amount, if any, by which the total value of milk received by such handler pursuant to paragraph (a) of section 50 is less than the sum of minimum payments required to be made pursuant to paragraph (a) of this section. If, at such time, the balance in the producer-settlement fund is insufficient to make all payments required by this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

(c) *Butterfat content of milk received from producers.* In making payment to each producer pursuant to paragraph (a) of this section, each handler shall add to, or subtract from the price, as the case may be, 8 cents per hundredweight for each one-tenth of one percent of butterfat content above or below 3.5 percent. The butterfat content of milk received from producers shall be determined by taking the average of not less than five separate butterfat tests made from fresh samples during the period beginning on the 25th day of the preceding month and ending on the 24th day of the current month; except as provided for bulk tank shippers pursuant to section 35, where it will be the responsibility of the cooperative association to establish the butterfat tests of each individual producer involved. The butterfat content of outside milk shall be determined at the plant where it is received.

(d) *Premiums to be paid by handlers.* In making payments pursuant to this section, handlers shall pay the applicable premium rates set forth in this paragraph for each producer's deliveries on that quantity of milk received from each producer which represented such producer's proportionate share of all producer milk classified as Class I and Class II. The premium rates referred to in this paragraph shall be determined from the following schedule with respect to the cattle scores and farm scores recorded for each producer by the respective health departments issuing permits to sell milk to handlers in the marketing area:

Farm score	With cattle score under 95	With cattle score 95 or over, but under 98	With cattle score 98 or over
	Per hundredweight	*Per hundredweight*	*Per hundredweight*
Under 80	$0.00	$0.00	$0.00
80.0–84.9	.00	.03	.09
85.0–89.9	.02	.08	.14
90.0–94.9	.08	.14	.20
95.0–97.9	.20	.26	.32
Over 97.9	.31	.37	.43

If more than one score has been reported during any month, the simple average of the scores so reported shall be used. Producers who are subject to health department regulations which do not provide for a farm and cattle scoring system shall be considered as having a score of 98 for the purpose of applying premiums under the above schedule.

(e) *Location adjustments to producers.* In making payments pursuant to this section, handlers may deduct 13 cents per hundredweight with respect to milk received from producers at a country plant which has pool plant status pursuant to section 30 (b) and is located more than 35 miles from the milestone in the District of Columbia and 1½ cents additional for each 10 miles in excess of 35 miles from that milestone: *Provided*, That handlers may make such deduction on milk received at such plant by transfer of a truck route to such plant from another pool plant during the first four full delivery periods after such transfer, only if such milk was transferred from a plant at which a similar or greater deduction was permitted. If such milk was transferred from a plant at which no deduction or a smaller deduction was permitted, the smaller deduction or no deduction, as the case may be, must be used in computing payments until four full delivery periods have elapsed from the time of transfer.

(f) *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to or from the producer settlement fund, the market administrator shall debit the handlers' producer settlement fund account for any unpaid amount. Whenever verification discloses that payment is due from the marekt administrator to any handler, the market administrator shall credit the handler's producer settlement fund account for any such amount.

SEC. 60. *Expense of administration.* As his pro rata share of the expense of the administration of this part, each handler shall pay to the market administrator on or before the 18th day after the end of each delivery period an amount equal to 2 cents per hundredweight with respect to all milk received by him from all sources except milk received from other handlers, or produced by him, during such delivery period, or such lesser amount, as may be determined by the market administrator, subject to review by the Secreary.

SEC. 61. *Marketing services.* In making payments to producers each handler shall deduct not less than 3 cents nor more than 5 cents per hundredweight, with respect to all milk delivered by each producer who is not a member of an association of producers and shall pay such deductions to the market administrator on or before the 18th day after the end of each delivery period. Such monies shall be expended by the market administrator only in providing for market information to, or for verification of weights, samples, and tests of milk delivered by such producers. The market administrator may contract with an association of producers for the furnishing of the whole or any part of such services to, or with respect to the milk delivered by such producers.

SEC. 62. *Suits by market administrator.* The market administrator may maintain a suit in his own name against any handler for the selection of such handler's pro rata share of the expense of administration of this part.

SEC. 65. *Effective time, suspension, or termination*—(a) *Effective Time.* The provision of this part, or any amendment to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to paragraph (b) of this section.

(b) *Suspension or termination.* The Secretary may suspend or terminate this part or any provision of this part whenever he finds that this part or any provision of this part obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

SEC. 66. *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions of this part, there are obligations arising under this part, the final accrual or ascertainment of which required further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate. The market administrator, or such other person as the Secretary may designate, shall:

(a) Continue in such capacity until removed by the Secretary.

(b) From time to time, account for all receipts and disbursements, and when so directed by the Secretary shall deliver all funds on hand, together with the

books and records of the market administrator or such person, to such person as the Secretary shall direct.

(c) If so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such persons pursuant thereto.

SEC. 67. *Liquidation after suspension or termination.* Upon suspension or termination of any or all provisions of this part, the market administrator or such person as the Secretary shall designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

SEC. 68. *Miscellaneous*—(a) *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States or name any bureau or division of the United States Department of Agriculture to act as his agent or representative in connection with any of the provisions hereof.

(b) *Liability.* The liability of handlers hereunder is several and not joint and no handler shall be liable for the default of any other handler.

(c) *Counterparts of marketing order.* This marketing order may be executed in multiple counterparts, and when one counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument, as if all such signatures were obtained in one original.

Proposal No. 2: The following marketing agreement and order has been proposed by Chestnut Farms Division, National Dairy Products Corporation:

SEC. 1. *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and reenacted and amended by the Agricultural Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

SEC. 2. *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

SEC. 3. *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency as may be authorized by act of Congress or by Executive order to perform the price reporting functions of the United States Department of Agriculture.

SEC. 4. *Person.* "Person" means any individual, partnership, corporation, association or any other business unit.

SEC. 5. *Metropolitan Washington Marketing Area.* "Metropolitan Washington Marketing Area", hereinafter called the "Marketing Area", means the City of Washington, District of Columbia; and the territory geographically included within the boundary lines of the counties of Arlington, Fairfax, Prince William, Acconack, Northampton, and the City of Alexandria, all in the State of Virginia; and the counties of Prince Georges, (except the town of Laurel), Charles, St. Marys, Calvert, Montgomery, Talbot, Dorchester, Wicomico, Worcester and Somerset, all in the State of Maryland.

SEC. 6. *Association of producers.* "Association of producers" means any cooperative marketing association of producers which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act", and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

SEC. 7. *Producer-handler.* "Producer-handler" means any person who produces and packages milk from his own farm production, and distributes all or a portion of such milk, not in excess of 25,000 lbs. in any calendar month, within the marketing area, but receives no milk from producers, and receives no milk from other sources than handlers operating pool plants.

SEC. 8. *Approved plant.* "Approved plant" means any milk plant:

(a) Which receives milk from producers who produce milk under dairy farm permits issued by an appropriate health authority duly authorized to administer regulations governing the quality of milk disposed of in the marketing area, or from an approved plant as defined in paragraph (b) of this section, and which is approved by such appropriate health authority for the processing or packaging of milk and from which Class I milk or cream for fluid consumption, concentrated milk for fluid use or eggnog is disposed of during the month in the marketing area on routes or through plant stores located in the marketing area, or

(b) A plant which receives milk from producers who produce milk under dairy farm permits issued by an appropriate health authority duly authorized to administer regulations governing the quality of milk disposed of in the marketing area, which plant is approved by such health authority to furnish milk to an approved plant defined in paragraph (a) of this section, and from which plant milk or cream is shipped during the month to an approved plant described in paragraph (a) of this section.

SEC. 9. *Pool plant.* "Pool plant" means an approved plant which during the current or preceding delivery period.

(a) Disposes of as Class I milk, cream for fluid consumption, concentrated milk for fluid use, and eggnog in the marketing area an amount exceeding 25,000 pounds, or 10 percent of such plant's total receipts of milk from dairy farms and bulk milk or cream from other approved plants, whichever is greater, and also

(b) During the same delivery period disposes of, as Class I milk, cream for fluid consumption, concentrated milk for fluid use, and eggnog in total same amount equal to not less than the applicable percentage of such receipts as follows:

(i) October through March, 50 percent.

(ii) April through September, 40 percent.

Provided, That in the case of a handler who also operates approved plants of the type described in paragraph (a) of section 8 and of the type described in paragraph (b) of that section, the combined receipts and distribution of the multiple plant operation will be applied to the qualification standards of this section for the purpose of determining pool plant status of each such individual plants.

SEC. 10. *Nonpool plant.* "Nonpool plant" means any milk receiving, manufacturing, processing or bottling plant other than a pool plant.

SEC. 11. *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of an approved plant;

(b) A producer-handler;

(c) A cooperative association with respect to milk diverted for its account pursuant to section 12.

SEC. 12. *Producer.* "Producer" means any person except a producer-handler who produces milk under a dairy farm inspection permit issued to such person by an appropriate health authority having jurisdiction in the marketing area which milk is received at a pool plant: *Provided,* That if such milk is diverted for his account by a handler from a pool plant to a nonpool plant (a) any day during the months of April through September, or (b) on not more than 10 days during the month in any of the other months of the year, the milk so diverted shall be deemed to have been received by the diverting handler at his pool plant.

SEC. 13. *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk (a) received at a pool plant directly from producers or associations of producers, or (b) diverted from a pool plant to a nonpool plant in accordance with the conditions set forth in section 12.

SEC. 14. *Other source milk.* "Other source milk" means all skim milk and butterfat received in any form from a producer-handler and from a source other than producers or pool plants, except the receipt of any non-fluid milk products which are not reprocessed or converted to another product in the plant during the month.

MARKET ADMINISTRATOR

SEC. 20. *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

SEC. 21. *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

SEC. 22. *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by section 88, (1) the cost of his bond and of the bonds of his employees, (2) his own compensation and (3) all other expenses, except those incurred under section 87, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose at his discretion to handlers and producers, unless otherwise directed by the Secretary the name of any person who, after the day upon which he is required to perform such acts, has not made (1) reports pursuant to section 30 or (2) payments pursuant to section 80 and section 84;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Prepare and make available for the benefit of producers, consumers, and handlers such general statistics and information concerning the operation hereof as are necessary and essential to the proper functioning of this part;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(j) On or before the date specified, publicly announce and notify each handler in writing of the following: (1) On or before the 5th day of each month, the Class I price, and the Class I butterfat differential, both for the current month; (2) on or before the 5th day of each month, the Class II price and the Class III price and the Class II and Class III butterfat differentials, both for the preceding month; and (3) on or before the 10th day after the end of each month, the uniform price, and the producer butterfat differential for the preceding month.

REPORTS, RECORDS AND FACILITIES

SEC. 30. *Reports and receipts of utilization.* On or before the 10th day after the end of each month each handler, except a producer-handler, shall report for each of his approved plants for such month to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in producer milk;

(b) The quantities of skim milk and butterfat contained in fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) The quantities of skim milk and butterfat contained in producer milk diverted to nonpool plants pursuant to Section 11;

(e) Inventories of fluid milk products on hand at the beginning and end of the month; and

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

Provided; That any handler may at his option elect to make reports for two accounting periods within the calendar month, for as many as three such months during a calendar year period, provided that the shorter of the two such periods during any such month shall not be less than seven days. With respect to such reports that the handler elects to make for two periods during one calendar month, the handler, on or before the tenth day after the end of each part month accounting period, shall report to the market administrator in the detail and on the form prescribed by the market administrator for each of his approved plants for such two part month periods, as follows:

(a) The quantities of skim milk and butterfat contained in producer milk;

(b) The quantities of skim milk and butterfat contained in fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) The quantities of skim milk and butterfat contained in producer milk diverted to nonpool plants pursuant to section 11;

(e) Inventories of fluid milk products on hand at the end of each such part month accounting period; and

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

SEC. 31. *Other reports.* Each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 20th day after the end of the month for each of his pool plants his producer payroll for such month which shall show for each producer: (i) The total pounds of milk received from such producer or cooperative association, (ii) the days in which milk was received from such producer, if less than a full month, (iii) the average butterfat content of such milk, and (iv) the net amount of such handler's payment to each producer or cooperative association, together with the price paid and the amount and nature of any deductions;

(2) On or before the first day other source milk is received in the form of milk, fluid skim milk or cream at its pool plant, his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such products; and

(3) Such other information with respect to his utilization of butterfat and skim milk necessary and essential to the proper functioning of this part, as is prescribed by the administrator.

SEC. 32. *Records and facilities.* Each handler shall keep accurate records of receipts of utilization of skim milk and butterfat and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to (a) verify the receipts and utilization of all skim milk and butterfat and, in case of errors or omissions, ascertain the correct figures; (b) weigh; sample and test butterfat content of all milk and milk products handled; (c) verify payments to producers; and (d) make such examinations of operations, equipment, and facilities, as are necessary and essential to the proper administration of this part or any amendments thereto.

SEC. 33. *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided,* That if within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8 (c) (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

SEC. 40. *Skim milk and butterfat to be classified.* All skim milk and butterfat which is received within the month

or within each of the two part month accounting periods elected, as the case may be, by a handler and which is required to be reported pursuant to section 30 shall be classified by the market administrator pursuant to the provisions of section 31 through section 36.

SEC. 41. *Classes of utilization.* Subject to the conditions set forth in sections 43 through 44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat disposed of for human consumption as milk, flavored milk, skim milk, flavored skim milk, cultured skim milk, buttermilk, milk in half and half, and all milk not accounted for in Class II and Class III; in inventory of fluid milk products; and shrinkage allocated to Class I pursuant to section 42;

(b) *Class II Milk.* Class II milk shall be all skim milk and butterfat used to produce, or disposed of in, concentrated milk for fluid use, cottage cheese, pot or baker's cheese, eggnog, cream for fluid consumption and in half and half, sour cream, and aerated whips; and any shrinkage allocated to Class II pursuant to section 42;

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat used to produce or disposed of as ice cream and similar frozen dairy products and mixes, butter, roller or spray milk powder products, condensed milk, condensed skim milk, bread or bakery products at a bona fide bakery plant, cheese other than cottage, pot or baker's cheese, livestock feed, skim milk and butterfat dumped after prior notification to the market administrator and opportunity for verification by the market administrator; and shrinkage allocated to Class III pursuant to section 42.

SEC. 42. *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler;

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat contained in producer milk and other source milk;

(c) Classify in Class III milk the skim milk and butterfat so prorated to other source milk; and

(d) Classify in Class III milk all the skim milk and butterfat in shrinkage prorated to producer milk, but not to exceed 2 percent of the receipts of skim milk and butterfat, respectively, in producer milk. Classify that quantity of shrinkage prorated to producer milk, in excess of 2 percent, among the Class I milk, Class II milk and Class III milk according to the total quantities of milk and skim milk classified in such classes.

SEC. 43. *Responsibility of handlers and reclassification of milk.* All skim milk and butterfat shall be classified as Class I milk, unless the handler who first received such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified as Class II or Class III.

SEC. 44. *Transfers.* (a) Skim milk and butterfat when transferred or diverted by a handler from a pool plant to a pool plant of another handler (except a producer-handler) in the form of a fluid milk product shall be classified as Class I milk unless the operators of both plants claim utilization thereof in Class II milk or Class III milk in their reports submitted pursuant to section 30 but in no event shall the amount so assigned to Class II and Class III milk exceed the total use in such classes, respectively, by the transferee-handler: And provided, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I milk utilization to the producer milk of both handlers.

(b) As Class I milk if transferred to a producer-handler in the form of a fluid milk product.

(c) As Class I milk if diverted or transferred in the form of a fluid milk product to a nonpool plant except that of a producer-handler, unless (1) the handler claims Class II or Class III utilization in his report submitted pursuant to section 30, (2) the operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (3) not less than an equivalent amount of skim milk and butterfat was actually utilized in such plant during the month in the use indicated in such report: *Provided,* That if upon inspection of the records of such plant it is found that an equivalent amount of skim milk and butterfat was not actually used in such indicated use the remaining pounds shall be classified as Class I milk.

SEC. 45. *Computation of skim milk and butterfat in each class.* For each month or part month accounting period, as the case may be, the market administrator shall correct for mathematical and other obvious errors the monthly report submitted for the pool plant(s) of each handler pursuant to Section 30 and compute the total pounds of skim milk and butterfat, respectively, in Class I milk, Class II milk and Class III milk for such handler.

SEC. 46. *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations for the pool plant(s) of each handler for each accounting period shall be the pounds in such class allocated to producer milk received by such handler:

(1) Subtract from the total pounds of skim milk in Class II and Class III milk the pounds of skim milk in shrinkage assigned to Class II and Class III, respectively, pursuant to section 42 (d);

(2) Subtract from the pounds of skim milk remaining in each class, in series beginning with the lowest price classification, the pounds of skim milk in other source milk received from a plant(s) other than one at which the handling of milk is fully subject to another marketing agreement or order issued pursuant to the act;

(3) Subtract from the pounds of skim milk remaining in Class II and Class III in series beginning with Class III an amount equal to such remainder, or the pounds obtained by multiplying by 0.10 the pounds of skim milk in producer milk received by the handler, whichever is less;

(4) Subtract from the pounds of skim milk remaining in each class, in series beginning with the lowest priced classification, the pounds of skim milk in other source milk received from a plant(s) at which the handling of milk is fully subject to another marketing agreement or order issued pursuant to the act;

(5) Add to the pounds of skim milk in Class II and Class III milk the pounds of skim milk subtracted pursuant to subparagraph (3) of this paragraph;

(6) Subtract from the remaining pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the accounting period: *Provided,* That if the pounds of skim milk in such inventory are greater than the remaining pounds of skim milk in Class I milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class II and Class III, in series, beginning with Class II milk;

(7) Subtract from the remaining pounds of skim milk in each class the pounds of skim milk received from the pool plants of other handlers in such classes pursuant to section 44;

(8) Add to the remaining pounds of skim milk in the specified class the pounds subtracted pursuant to subparagraph (1) of this paragraph; and

(9) If the remaining pounds of skim milk in all classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in each class in series beginning with the lowest price classification.

(b) Butterfat should be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section.

(c) Add the pounds of skim milk and the pounds of butterfat allocated to the producer milk in each class, respectively, as computed pursuant to paragraphs (a) and (b) of this section, and determine the percentage of butterfat in each class.

DETERMINATION OF CLASS PRICES

SEC. 50. *Basic formula price to be used in determining Class I price.* The basic formula price for each delivery period to be used in determining the Class I price shall be the higher of the prices computed pursuant to paragraphs (a), (b) and (c) of this section, rounded to the nearest cent.

(a) Determine the arithmetic average of the basic or field prices paid or to be paid per hundredweight of milk of 3.5 percent butterfat content received from farmers during the delivery period at the following plants or places for which prices have been reported to the market administrator or the Department of Agriculture:

Concern and location
Borden Co., Mount Pleasant, Mich.
Carnation Co., Sparta, Mich.
Pet Milk Co., Wayland, Mich.
Pet Milk Co., Coopersville, Mich.
Borden Co., Orfordville, Wis.
Borden Co., New London, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Oconomowoc, Wis.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Belleville, Wis.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(b) The price per hundredweight computed by the market administrator by adding together the plus amounts calculated pursuant to subparagraphs (1) and (2) of this paragraph;

(1) Multiply by 3.5 the simple average, as computed by the market administrator, of the daily wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk creamery butter per pound at Chicago, as reported by the United States Department of Agriculture during the month for which payment is to be made, and add 20 percent thereof;

(2) From the simple average as computed by the market administrator, of the weighted average of carlot prices per pound for non-fat dry milk solids, spray and roller process, respectively, for human consumption f. o. b. manufacturing plants in the Chicago area, as published for the period for the 26th of the immediately preceding month to the 25th day of the current month by the United States Department of Agriculture, deduct 5.5 cents and multiply the result by 8.2.

(c) The price per hundredweight computed as follows:

(1) Multiply by 6 the average wholesale price per pound of 92-score butter at Chicago as reported by the Department of Agriculture for the month;

(2) Add an amount equal to 2.4 times the average weekly prevailing price per pound of "Twins" during the month of the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided,* That if the price of "Twins" is not quoted on the Wisconsin Cheese Exchange the weekly prevailing price per pound of "Cheddars" shall be used.

SEC. 51. *Class prices.* Subject to the provisions of section 52 the class prices per hundredweight for the month shall be as follows:

(a) *Class I milk price.* The price per hundredweight for Class I milk for the month shall be the amount set forth below for such month opposite the price range within which the basic formula price for the preceding month falls:

Basic formula price range (dollars per hundredweight):	Amount per hundredweight
2.00 but not more than 2.199	------
2.20 but not more than 2.399	------
2.40 but not more than 2.599	------
2.60 but not more than 2.799	------
2.80 but not more than 2.999	------
3.00 but not more than 3.199	------
3.20 but not more than 3.399	------
3.40 but not more than 3.599	------
3.60 but not more than 3.799	------
3.80 but not more than 3.999	------
and for each additional 20 cents or fraction thereof an additional 20 cents.	

(b) *Class II milk price.* The price per hundredweight for Class II milk shall be the sum of the respective values of skim milk and butterfat calculated as follows:

(1) *Butterfat.* Add all weekly quotations (using the midpoint of any weekly range as one quotation) per 40-quart can of 40 percent sweet cream approved for Pennsylvania and New Jersey in the Philadelphia, Pennsylvania, market, as reported each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract $1.00, divide by 33.48, multiply by 3.5.

(2) *Skim milk.* The weighted average selling price, wholesale, at manufacturers' plants, of all spray and roller dried non-fat milk solids for human consumption, as published by the United States Department of Agriculture for the previous month, shall be used in determining the skim value as follows:

Quotation per pound:	Class II skim value
$0.065 or below	------
$0.066 to $0.075	$0.07½
$0.076 to $0.085	.15
$0.086 to $0.095	.22½
$0.096 to $0.105	.30
$0.106 to $0.115	.37½
$0.116 to $0.125	.45
$0.126 to $0.135	.52½
$0.136 to $0.145	.60
$0.146 to $0.155	.67½
$0.156 to $0.165	.75
$0.166 to $0.175	.82½
$0.176 to $0.185	.90
$0.186 to $0.195	.97½

(c) *Class III milk price.* The price per hundredweight for Class III milk shall be the sum of the respective values of skim milk and butterfat calculated as follows:

(1) *Butterfat.* Add all weekly quotations (using the midpoint of any weekly range as one quotation) per 40-quart can of 40 percent sweet cream approved for Pennsylvania and New Jersey, and Pennsylvania only, in the Philadelphia market, as reported each week ending within the month by the United States Department of Agriculture, divide by the number of quotations, subtract $2.00, divide by 33.48, multiply by 3.5.

(2) *Skim milk.* The weighted average selling price, wholesale, at manufacturers' plants, of all spray and roller dried non-fat milk solids for human consumption, as published by the United States Department of Agriculture for the previous month, shall be used in determining the skim value as follows:

Quotation per pound:	Class III skim value
$0.105 or below	------
$0.106 to $0.115	$0.07½
$0.116 to $0.125	.15
$0.126 to $0.135	.22½
$0.136 to $0.145	.30
$0.146 to $0.155	.37½
$0.156 to $0.165	.45
$0.166 to $0.175	.52½
$0.176 to $0.185	.60
$0.186 to $0.195	.67½

SEC. 52. *Location differential to handlers.* With respect to skim milk and butterfat contained in milk received from producers at a pool plant located more than 35 to 45 miles from the milestone in the District of Columbia, which is classified as Class I milk, Class II milk and Class III milk, the class prices shall be reduced 17 cents per hundredweight and for each additional 10 miles in excess of 45 miles the prices shall be reduced an additional cent.

SEC. 53. *Butterfat differential.* (a) The Class I price shall be subject to a butterfat differential of 8 cents for each one tenth of one percent variation above or below 3.5 percent butterfat.

(b) The Class II price shall be subject to a butterfat differential for each one-tenth of one percent variation above or below 3.5 percent butterfat, calculated as follows: Divide the butterfat value determined pursuant to section 51 (b) (1) by 35.

(c) The Class III price shall be subject to a butterfat differential for each one-tenth of one percent variation above or below 3.5 percent butterfat calculated as follows: Divide the butterfat value determined pursuant to section 51 (c) (1) by 35.

APPLICATION OF PROVISIONS

SEC. 60. *Producer-handlers.* Sections 40 through 46, 50 through 53, 60 through 62, 70 through 73, 80 through 88 shall not apply to a producer-handler.

SEC. 61. *Handlers operating nonpool plants.* Sections 42 through 46; 50 through 52; 70 through 73; 80 through 83; 87 through 88 shall not apply to a handler in his capacity as the operator of a non-pool plant, except that such handler shall pay to the market administrator on or before the 12th day after the end of each month for deposit into the Producer-Settlement Fund:

(a) An amount of money computed by multiplying the hundredweight of Class I milk disposed of from his nonpool plant (except any nonpool plant subject to the classification and pricing provisions of another order issued pursuant to the act) during the month to retail or wholesale outlets in the marketing area (including deliveries by vendors or sales through plant stores) by a rate of payment equal to the difference between the Class I price and the Class III price.

(b) An amount of money computed by multiplying the hundredweight of Class II milk disposed of from his nonpool plant (except any nonpool plant subject to the classification and pricing provisions of another order issued pursuant to the act) during the month to retail or wholesale outlets in the marketing area (including deliveries by vendors or sales through plant stores) by a rate equal to the difference between the Class II price and the Class III price.

SEC. 62. *Plants subject to other orders.* In the case of any plant from which the Secretary determines a greater volume of Class I milk is disposed of in another marketing area regulated by another order or a marketing agreement issued pursuant to the act, than in the Metropolitan Washington Marketing Area, the provisions of this subpart shall not apply except the handler operating such plant shall, with respect to his total receipts of skim milk and butterfat at such plant, make reports to the market administrator at such time and in such manner as the market administrator

may require and allow verification of such reports by the market administrator.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

SEC. 70. *Net obligation of each handler.* The net obligation of each handler for milk received during each month from producers shall be a sum of money computed by the market administrator as follows:

(a) Multiply the quantity of producer milk in each class computed pursuant to section 46 by the applicable class price;

(b) Add together the resulting amount;

(c) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to section 46 by the applicable class prices; and

(d) During any delivery period in which the total receipts from all producers is more than 110 percent of the total Class I and Class II utilization at all pool plants, add an amount computed by multiplying the pounds of skim milk and butterfat subtracted from Class I milk pursuant to section 46 (a) (2), and the corresponding paragraph (b) of this section by a rate equal to the difference between the Class I price and the Class III price.

SEC. 71. *Computation of uniform price.* For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content received from producers as follows:

(a) Combine into one total the net obligations computed for all handlers who made the reports prescribed in section 30 for the month and who were not in default of payments pursuant to section 84 for the preceding month;

(b) Add an amount equivalent to the total deductions made pursuant to section 82.

(c) Subtract, if the average butterfat content of producer milk included in these computations is greater than 3.5 percent, or add, if such average butterfat content is less than 3.5 percent an amount computed by multiplying the amount by which the average butterfat content of such milk varies from 3.5 percent by the butterfat differential computed pursuant to section 81 and multiply the resulting figure by the total hundredweight of such milk;

(d) Subtract for each of the months of April and May an amount computed by multiplying the total hundredweight of producer milk included in these computations by 45 cents per hundredweight;

(e) Add an amount representing the cash balance on hand in the Producer-Settlement Fund, less the total amount of contingent obligations to handlers pursuant to section 85 (a), and less the aggregate of the amounts held pursuant to paragraph (c) of this section for payment pursuant to section 85 (b);

(f) Divide the resulting total by the total hundredweight of producer milk included in these computations; and

(g) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (e) of this section. The resulting figure shall be the uniform price for milk of 3.5 percent butterfat received from producers at a handler's pool plant.

PAYMENTS

SEC. 80. *Time and method of payment.* On or before the 15th day after the end of each month, each handler shall pay to each producer or cooperative association from whom he received milk during the month an amount of money representing not less than the total value of such producer milk at the uniform price per hundredweight, subject to the producer butterfat and location differentials, computed pursuant to section 81 and section 82, and less deductions authorized by such producer, and less deductions for marketing services: *Provided*, That, if by such date the handler has not received full payment for such month pursuant to section 85, he may reduce uniformly per hundredweight for all producers his payments pursuant to this section by an amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment to producers to whom it is due on or before the date for making payments pursuant to this section next following that on which such balance of payment is received from the market administrator.

SEC. 81. *Producer butterfat differential.* If any handler has received from any producer, during the month, milk having an average butterfat content other than 3.5 percent, such handler, in making payments pursuant to section 80, shall add to the uniform price for such producer for each one-tenth of one percent of average butterfat content in milk above 3.5 percent not less than, or shall deduct from the uniform price for such producer for each one-tenth of one percent of average butterfat content in milk below 3.5 percent not more than ____ cents per hundredweight.

SEC. 82. *Location differential to producers.* In making payments to producers pursuant to section 80 a handler shall deduct from the uniform price, with respect to all milk physically received from farms, from producers or associations of producers, at a pool plant located 35 to 45 miles from the milestone in the District of Columbia, 17 cents per hundredweight, and for such plants within each additional 10 miles in excess of 45 miles, an additional one cent.

SEC. 83. *Producer-Settlement Fund.* The market administrator shall establish and maintain a separate fund known as the "Producer-Settlement Fund" into which he shall deposit all payments made by handlers pursuant to sections 61, 84, and 86, and out of which he shall make all payments pursuant to sections 85 and 86.

SEC. 84. *Payments to the Producer-Settlement Fund.* On or before the 13th day after the end of each month, each pool plant handler shall pay to the market administrator any amount by which the net obligation of such handler pursuant to section 70 is greater than an amount computed by multiplying the hundredweight of milk received by him from producers during the month by the uniform price adjusted for the producer butterfat and location differentials.

SEC. 85. *Payments out of the Producer-Settlement Fund.* (a) On or before the 14th day after the end of each month, the market administrator shall pay to each handler for payment to producers any amount by which the net obligation of such handler pursuant to section 70 is less than an amount computed by multiplying the hundredweight of milk received by him from producers during the month by the uniform price adjusted for the producer butterfat and location differentials: *Provided*, That if the balance in the Producer-Settlement Fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

(b) On or before the 14th day after the end of each of the months of July and September, the market administrator shall pay out of the Producer-Settlement Fund to each producer from whom milk was received by all handlers during the month an amount computed as follows: Divide one-half of the aggregate amount held pursuant to section 71 (c) by the hundredweight of milk received from producers by all handlers during the month and multiplying the resulting amount (computed to the nearest cent per hundredweight) by the milk received from such producers during the month: *Provided*, That the payments under this paragraph to any producer who has given authority to a cooperative association to receive payment for his milk shall be distributed to such cooperative association if the cooperative association requests receipt of such payments.

SEC. 86. *Adjustment of accounts.* Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the Producer-Settlement Fund, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever such verification discloses that payment is due from the market administrator, pursuant to section 85, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification of the market administrator of the payment by a handler to any producer for milk received by such handler discloses payment of less than is required by section 80, the handler shall pay any amount so due not later than the time of making payments to producers next following such disclosure.

SEC. 87. *Marketing services.* Each handler making payments to producers pursuant to section 80 shall deduct ____ cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from producers, excepting such handler's own farm production, during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of such month. Such moneys shall be used by the market administrator to verify weights, samples and tests of milk received by handlers from such producers during the delivery period, and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an employee of the United States responsible to him.

SEC. 88. *Expense of administration.* As his pro rata share of the expense of administration of this part, each handler shall pay to the market administrator, on or before the 15th day after the end of each delivery period, ____ cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to receipts, during the delivery period of all milk from any source classified as Class I or Class II milk.

SEC. 89. *Termination of obligations.* The provisions of this section shall apply to any obligations under this subpart for the payment of money irrespective of when such obligation arose.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer(s) or cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or wilful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

SEC. 90. *Effective time.* The provisions of this subpart, or any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated, pursuant to section 91.

SEC. 91. *Suspension or termination.* Any or all provisions of this subpart, or any amendment to this subpart, shall be suspended or terminated as to any or all handlers after such reasonable notice as the Secretary may give, and shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

SEC. 92. *Continuing power and duty.* (a) If upon the suspension or termination of any or all provisions of this subpart, there are any obligations arising under this subpart the final accrual or ascertainment of which requires further acts by any handler, by the market administrator or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate, shall (1) continue in such capacity until discharged, (2) from time to time account for all receipts and disbursements and, if so directed by the Secretary, deliver all funds or property on hand, together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct, and (3) if so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant to this subpart.

SEC. 93. *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this subpart, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid and owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this subpart, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

SEC. 100. *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

SEC. 101. *Separability of provisions.* If any provision of this subpart, or its application to any person, or circumstances, is held invalid, the application of such provision and of the remaining provisions of this subpart to other persons or circumstances shall not be affected thereby.

Proposal No. 3: Proposed by Harvey Dairy, Inc.:

DEFINITIONS

Metropolitan Washington Marketing Area. "Metropolitan Washington Marketing Area" hereinafter called "the marketing area," means the territory of the District of Columbia and all or that part of the following counties: Washington County, Frederick County, Howard County, Montgomery County, Prince Georges County, Anne Arundel County, Calvert County, Charles County, St. Marys County in Maryland, that lie southeast, south, and southwest of a line beginning at the point where the Shepherdstown bridge passes over the Potomac River and enters Washington County, Maryland. Follow Maryland Route 34 northeast to Boonsboro, Maryland. Turn right on Alternate U. S. 40 and go southeast through Frederick, Maryland on Alternate U. S. 40 to Ridgeville, Maryland. Thence, south on Maryland Route 27 to where it crosses the Patuxent River. Follow the Patuxent River southeast to its intersection with U. S. Route 29. Then go northeast on U. S. Route 29 to Clarksville, Maryland. Thence southeast on Maryland Route 32 to its intersection with U. S. Route 1. Go north on U. S. Route 1 to Waterloo, Maryland. Thence go southeast on Maryland Route 175 to its intersection with U. S. Route 301. Thence go southwest on U. S. Route 301 to its intersection with Maryland Route 424 at Conways, Maryland. Thence southeast on Maryland Route 424 to its intersection with Maryland Route 2 at Davidsonville, Maryland; from this point follow a line directly eastward to the Chesapeake Bay. In addition the marketing area should

also include the territory in the State of Virginia as set forth in proposal No. 1 submitted by the Maryland and Virginia Milk Producers Association, Inc.

Proposal No. 4: Proposed by Highs Dairy Products Corporation:

Provide that any marketing area covering the Washington, D. C., market include the City of Frederick, Maryland.

Copies of this notice of hearing may be procured from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: February 21, 1957, at Washington, D. C.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

MILK IN NEW YORK METROPOLITAN MARKETING AREA AND IN NORTHERN NEW JERSEY

NOTICE OF RECONVENING OF HEARING

The public hearing held pursuant to the notice of hearing issued on May 18, 1956 (21 F. R. 3527), and supplemental notices issued on May 29, 1956 (21 F. R. 3799), and on August 29, 1956 (21 F. R. 6680), on proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area and on a proposed marketing agreement and order regulating the handling of milk in Northern New Jersey was recessed by the Hearing Examiner on January 7, 1957, to reconvene at a date, time and place to be later announced by the issuance of a public notice in accordance with the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR Part 900).

Accordingly, notice is hereby given that such public hearing will be reconvened at the Commodore Hotel in New York City at 10:00 a. m., e. s. t., on March 5, 1957.

Issued this 21st day of February 1957.

[SEAL] G. OSMOND HYDE,
Hearing Examiner.

[AO-291]

WATERMELONS GROWN IN FLORIDA, GEORGIA, AND SOUTH CAROLINA

NOTICE OF HEARING WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and in accordance with the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR 900.0 et seq.), notice is hereby given of a public hearing to be held at the George Washington Hotel, Jacksonville, Florida, starting at 9:30 a. m., e. s. t., April 22, 1957, with respect to a proposed marketing agreement and order authorizing regulation of the handling of watermelons grown in all counties in the State of Florida lying east of the Apalachicola River; all counties in the State of Georgia; and all counties in the State of South Carolina. The proposed marketing agreement and order have not received the approval of the Secretary of Agriculture.

The public hearing is for the purpose of receiving evidence with respect to economic and marketing conditions which relate to the provisions of a marketing agreement and order hereinafter set forth, or appropriate modifications thereof.

Growers and shippers in the States of Florida, Georgia, and South Carolina, as represented by the Watermelon Growers and Shippers Association and others, requested a hearing on the following proposed marketing agreement and order authorizing regulation of the handling of watermelons in the proposed production area.

DEFINITIONS

§ 1021.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States Department of Agriculture to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 1021.2 *Act.* "Act means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

§ 1021.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 1021.4 *Production area.* "Production area" means all counties in the State of Florida lying east of the Apalachicola River; all counties in the State of Georgia; and all counties in the State of South Carolina.

§ 1021.5 *Watermelons.* "Watermelons" means all varieties of watermelons grown within the production area.

§ 1021.6 *Handler.* "Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of watermelons owned by another person) who handles watermelons or causes watermelons to be handled.

§ 1021.7 *Handle.* "Handle" or "ship" means to transport, sell, or in any other way to place, or have placed, watermelons in the current of commerce within the production area or between the production area and any point outside thereof. The term "handle" or "ship" does not include the sale of unharvested watermelons.

§ 1021.8 *Producer.* "Producer" means any person engaged in a proprietary capacity in the production of watermelons for market.

§ 1021.9 *Eligible producer.* "Eligible producer" means any person who is a producer only or both a producer and handler of watermelons for market, but whose handling of watermelons produced by others constitutes less than 25 percent of the total number of watermelons handled by such person during the preceding fiscal period.

§ 1021.10 *Eligible handler.* "Eligible handler" means any person who is a handler only or any person who is both a handler and a producer of watermelons for market, but whose handling of watermelons produced by others constitutes at least 25 percent of the total number of watermelons handled by such person during the preceding fiscal period.

§ 1021.11 *Grading.* "Grading" is synonymous with "preparation for market" and means the sorting or separation of watermelons into grades and maturities for market purposes.

§ 1021.12 *Grade.* "Grade" means any one of the established grades of watermelons as defined and set forth in the United States Standards for Watermelons issued by the United States Department of Agriculture (§§ 51.1970 through 51.1981 of this title) or amendments thereto, or modifications thereof, or variations based thereon, recommended by the committee and approved by the Secretary.

§ 1021.13 *Maturity.* "Maturity" means various degrees of ripeness for watermelons as established by the committee with the approval of the Secretary.

§ 1021.14 *Varieties.* "Varieties" means and includes all classifications or subdivisions of watermelons according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture.

§ 1021.15 *Committee.* "Committee" means the Southeastern Watermelon Committee, established pursuant to § 1021.22.

§ 1021.16 *Fiscal period.* "Fiscal period" means the period beginning January 1 and ending December 31 following.

§ 1021.17 *District.* "District" means each one of the geographic divisions of the production area initially established pursuant to § 1021.24 or as reestablished pursuant to § 1021.25.

§ 1021.18 *Export.* "Export" means shipment of watermelons beyond the boundaries of continental United States.

COMMITTEE

§ 1021.22 *Establishment and membership.* (a) The Southeastern Watermelon Committee, consisting of 12 members, of whom eight shall be producers and four shall be handlers, is hereby established. For each member of the committee there shall be an alternate who shall have the same qualifications as the member.

(b) Each person selected as a producer member or alternate shall be an individual who is an eligible producer in, and a resident of, the district from which selected.

(c) Each person selected as a handler member or alternate shall be an individual who is an eligible handler in, and a resident of, the production area within the State from which selected.

§ 1021.23 *Term of office.* (a) The term of office of committee members and their respective alternates shall be for one year and shall begin as of January 1 and end as of December 31.

(b) Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during such term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 1021.24 *Districts.* For the purpose of determining the basis for selecting committee members the following districts of the production area are hereby initially established:

District No. 1—South Florida. The Counties of Manatee, Hardee, Highlands, Okeechobee, Indian River, and all counties lying south thereof in the State of Florida;

District No. 2—Leesburg Area. The Counties of Brevard, Citrus, Hernando, Hillsborough, Lake, Orange, Osceola, Pasco, Pinellas, Polk, Seminole, Sumter, and that portion of Marion County lying south of Florida State Road No. 40.

District No. 3—Gainesville Area. The Counties of Alachua, Bradford, Clay, Dixie, Flagler, Gilchrist, Levy, Putnam, St. Johns, Union, Volusia, and that portion of Marion County lying north of Florida State Road No. 40.

District No. 4—Live Oak Area. All the remaining counties in the State of Florida lying east of the Apalachicola River not included in Districts 1, 2, and 3;

District No. 5—South Georgia. The Counties of Clay, Calhoun, Dougherty, Worth, Turner, Ben Hill, Coffee, Bacon, Pierce, Brantley, Glynn, and all counties lying south thereof in the State of Georgia.

District No. 6—Middle and North Georgia. All counties in the State of Georgia not included in District No. 5;

District No. 7—Allendale Area. The Counties of Aiken, Bamberg, Barnwell, Charleston, Dorchester, and all counties lying south thereof in the State of South Carolina;

District No. 8—Pageland Area. All the remaining counties in the State of South Carolina not included in District No. 7.

§ 1021.25 *Redistricting.* The committee may recommend, and pursuant thereto, the Secretary may approve, the reapportionment of members among districts, and the reestablishment of districts within the production area. In recommending any such changes, the committee shall give consideration to: (a) Shifts in watermelon acreage within districts and within the production area during recent years; (b) the importance of new production in its relation to existing districts; (c) the equitable relationship of committee membership and districts; (d) economies to result for producers in promoting efficient administration due to redistricting or reapportionment of members within districts; and (e) other relevant factors. No change in districting or in apportionment of members within districts may become effective within less than 30 days prior to the date on which terms of office begin each year and no recommendations for such redistricting or reapportionment may be made less than six months prior to such date.

§ 1021.26 *Selection.* The Secretary shall select initially one producer member of the committee, with his respective alternate, from each district; two handler members, with their respective alternates, from the State of Florida; and one handler member, with his respective alternate, from each of the States of Georgia and South Carolina.

§ 1021.27 *Nomination.* The Secretary may select committee members and alternates from nominations which may be made in the following manner:

(a) A meeting or meetings of producers shall be held in each district and a meeting or meetings of handlers shall be held within the production area in each State to nominate committee members and alternates. For nominations to the initial committee the meetings may be sponsored by the United States Department of Agriculture or by any agency or group requested to do so by such department. For nominations for succeeding members and alternates on the committee, the committee shall hold such meetings or cause them to be held prior to November 15 of each year, after the effective date of this subpart;

(b) At each such meeting at least two nominees shall be designated for each position as member and for each position as alternate member on the committee and eligible voters at such meetings may ballot to indicate the ranking of their choice for each nominee;

(c) Nominations for committee members and alternates shall be supplied to the Secretary in such manner and form as he may prescribe, not later than December 15 of each year;

(d) Only eligible producers may participate in designating nominees for producer members and alternates and only eligible handlers may participate in designating nominees for handler members and alternates on the committee. In the event a person is engaged in producing watermelons in more than one district or in handling watermelons within the production area in more than one State, such person shall elect the district or State within which he may participate as aforesaid in designating nominees; and

(e) Regardless of the number of districts or States within the production area in which a person produces or handles watermelons, each such eligible person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for committee members and alternates. An eligible voter's privilege of casting only one vote as aforesaid shall be construed to permit a voter to cast one vote for each position to be filled in the respective district in which he elects to vote.

§ 1021.28 *Failure to nominate.* If nominations are not made within the time and in the manner specified in § 1021.27, the Secretary may, without regard to nominations, select the committee members and alternates, which selection shall be on the basis of the representation provided for in §§ 1021.24 through 1021.26.

§ 1021.29 *Acceptance.* Any person selected as a committee member or alternate shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 1021.30 *Vacancies.* To fill committee vacancies, the Secretary may select such members or alternates from unselected nominees on the current nominee list from the district or State involved, or from nominations made in the manner specified in § 1021.27. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, which selection shall be made on the basis of the representation provided for in §§ 1021.24 through 1021.26.

§ 1021.31 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate during such member's absence. In the event of death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for the unexpired term of said member is selected and has qualified.

§ 1021.32 *Procedure.* (a) Nine members of the committee shall be necessary to constitute a quorum and seven concurring votes shall be required to pass any motion or approve any committee action.

(b) The committee may provide for meeting by telephone, telegraph, or other means of communication, and any vote cast at such meeting shall be promptly confirmed in writing: *Provided,* That when any assembled meeting is held, all votes shall be cast in person.

§ 1021.33 *Expenses and compensation.* Committee members and alternates shall be reimbursed for expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under this subpart, and may receive compensation at a rate to be determined by the committee, which rate shall not exceed $10.00 for each full day spent in attending meetings of the committee.

§ 1021.34 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 1021.35 *Duties.* It shall be the duty of the committee:

(a) As soon as practical after the beginning of each term of office to meet and organize, to select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(b) To act as intermediary between the Secretary and any producer or handler;

(c) To furnish to the Secretary information as to its activities including a copy of the minutes of each meeting, and any other available information as he may request;

(d) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(e) To investigate from time to time and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to watermelons;

(f) To prepare a marketing policy;

(g) To recommend marketing regulations to the Secretary;

(h) To recommend rules and procedures, for, and to make determinations in connection with, issuance of certificates of privilege or exemption or both;

(i) To investigate claims for exemption;

(j) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative. Minutes of each committee meeting shall be reported promptly to the Secretary;

(k) At the beginning of each fiscal period, to prepare a budget of its anticipated expenses for such fiscal period, together with a report thereon;

(l) To cause the books of the committee to be audited by a competent accountant at least once each fiscal period, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part. A copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers; and

(m) To consult, cooperate, and exchange information with other marketing agreement committees and other individuals or agencies in connection with all proper committee activities and objectives under this part.

EXPENSES AND ASSESSMENTS

§ 1021.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses upon the basis of a fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of watermelons under regulation handled by him as the first handler thereof during a fiscal period and the total quantity of watermelons handled by all handlers as first handlers thereof during such fiscal period.

§ 1021.41 *Budget.* At the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 1021.42 *Assessments.* (a) The funds to cover the committee's expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who first handles watermelons shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of the committee's expenses. In order to provide funds to carry out the functions of the committee, handlers may make advance payment of assessments.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee's recommendations and other available information.

(c) At any time during, or subsequent to, a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all watermelons which were regulated under this part and which were handled by the first handler thereof during such fiscal period.

(d) The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

§ 1021.43 *Accounting.* (a) All funds received by the committee pursuant to the provisions of this subpart shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member of the committee or alternate, he shall account to his successor, the committee, or to the person designated by the Secretary, for all receipts, disbursements, funds and property (including but not being limited to books and other records) pertaining to the committee's activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, committee, or designated person, the right to all of such property and funds and all claims vested in such person.

(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect and, if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

§ 1021.44 *Refunds.* At the end of each fiscal period, monies arising from the excess of assessments collected over expenses shall be accounted for as follows:

(a) Each handler entitled to a proportionate refund of such excess assessments at the end of a fiscal period shall be credited with such refund against the operations of the following fiscal period unless he demands payment thereof, in which event such proportionate refund shall be paid to him; or

(b) (1) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that some of the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for the committee operations during such period may be carried over into following periods as a reserve. Such reserve may be used to cover the necessary expenses of liquidation in the event of termination of this part. The reserve may also be used by the committee to finance its operations during any fiscal period prior to the time that assessment income is sufficient to cover expenses or when adverse crop conditions result in insufficient revenue to otherwise maintain the committee and its staff on a reasonable basis—but any reserve funds so used shall be returned to the reserve account as soon as assessment income becomes available for this purpose.

(2) Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be returned to the extent practical to the persons from whom such funds were collected. Any residual funds which cannot be so distributed to handlers shall be disposed of in such manner as the Secretary may determine to be appropriate.

RESEARCH AND DEVELOPMENT

§ 1021.48 *Research and development.* The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution and consumption of watermelons. The expenses of such projects shall be paid from funds collected pursuant to § 1021.42.

REGULATION

§ 1021.50 *Marketing policy.* Prior to or at the same time as initial recommendations are made pursuant to § 1021.51, the committee shall submit to the Secretary a report setting forth the marketing policy it deems desirable for the industry to follow in shipping watermelons from the production area during the ensuing season. Additional reports shall be submitted from time to time if it is deemed advisable by the committee to adopt a new marketing policy because of changes in the demand and supply situation with respect to watermelons. The committee shall publicly announce the submission of each such marketing policy report and copies thereof shall be available at the committee's office for inspection by any producer or any handler. In determining each such marketing policy the committee shall give due consideration to the following:

(a) Market prices of watermelons, including prices by grades and quality in wholesale shipping units;

(b) Supply of watermelons by grade and quality in the production area, and in other production areas.

(c) Watermelons on hand in the terminal markets as manifested by supplies en route or on track at the principal markets;

(d) Trend and level of consumer income;

(e) Marketing conditions affecting watermelon prices; and

(f) Other relevant factors.

§ 1021.51 *Recommendations for regulations.* The committee, upon complying with the requirements of § 1021.50, may recommend regulations to the Secretary whenever it finds that such regulations as are provided for in this subpart will tend to effectuate the declared policies of the act.

§ 1021.52 *Issuance of regulations—(a) Cull regulation.* As soon as practical after the issuance of this subpart, the Secretary, upon committee recommendation, or other available information, shall issue a regulation requiring that no person shall handle watermelons unless such watermelons are (1) mature, and (2) free from whiteheart: *Provided,* That (i) not more than a total of five percent, by count, of the watermelons in the shipment may be watermelons that are not mature, (ii) not more than a total of ten percent, by count, of the watermelons in the shipment (including the watermelons that are not mature) may be watermelons that are not free from whiteheart, and (iii) not more than a total of one percent, by count, of the watermelons in the shipment may be watermelons that are not free from decay.

(b) *Other grade regulations.* In addition to the above cull regulation, the Secretary may limit by regulation the handling of watermelons whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such regulation may:

(1) Limit, in any or all portions of the production area, the handling of particular grades, or qualities, of any or all varieties of watermelons during any period; or

(2) Limit the handling of particular grades, or qualities, of watermelons differently, for different varieties, for different stages of maturity, for different portions of the production area, for different markets, for different purposes specified in § 1021.54, or any combination of the foregoing, during any period; or

(3) Limit the shipment of watermelons by establishing, in terms of grades, minimum standards of quality and maturity.

(c) During the period from January 1 through May 10 of each year no grade regulation imposing minimum quality restrictions higher than the requirements of paragraph (a) of this section shall be made effective unless the Producer Member from District 1, South Florida, concurs in the committee recommendation therefor.

(d) During the period from May 11 through December 31 of each year, no grade regulation may be made effective which prohibits the shipment of watermelons grading better than U. S. No. 1 with a total tolerance of 15 percent for all defects, of which (1) not more than a total of five percent, by count, of the watermelons in the shipment may be watermelons that are not mature, (2) not more than a total of ten percent, by count, of the watermelons in the shipment (including the watermelons that are not mature) may be watermelons that are not free from whiteheart, and (3) not more than a total of one percent, by count, of the watermelons in the shipment may be watermelons that are not free from decay.

(e) The Secretary may suspend or terminate regulations issued pursuant to this section, limiting the shipment of watermelons from any district or districts of the production area, whenever he determines from recommendations of the committee or from other available information, that the handling of watermelons from such district or districts is virtually complete for the then current season and that subsequent shipments from such district or districts during such season will not be of sufficient volume to warrant continued regulation for the remainder of such season.

(f) The Secretary shall notify the committee of any such regulation, suspension, or termination, and the committee shall give reasonable notice thereof to handlers.

§ 1021.53 *Minimum quantities.* The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, minimum quantities below which handling will be free from regulations issued or effective pursuant to §§ 1021.42, 1021.52, 1021.54, or 1021.60, or any combination thereof.

§ 1021.54 *Handling for special purposes.* Upon the basis of recommendations and information submitted by the committee, or other available information, the Secretary, whenever he finds that it will tend to effectuate the declared policy of the act, shall modify, suspend, or terminate regulations issued pursuant to §§ 1021.42, 1021.52, 1021.53, or 1021.60, or any combination thereof, in order to facilitate shipments of watermelons for the following purposes:

(a) Shipments of watermelons within the production area for the purpose of having such watermelons graded or inspected in the production area;

(b) Shipments of watermelons to auctions within the production area;

(c) Shipments of watermelons for the purpose of having such watermelons manufactured or converted into specified products or by-products;

(d) Shipments of watermelons for seed;

(e) For other purposes which the Secretary may specify.

§ 1021.56 *Safeguards.* (a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent watermelons handled pursuant to § 1021.53 or § 1021.54 from entering channels of trade for other than the specific purpose authorized therefor, and rules governing the issuance and the contents of Certificates of Privilege, if such certificates are prescribed as safeguards by the committee. Such safeguards may include requirements that:

(1) Handlers shall file applications with the committee to handle watermelons pursuant to §§ 1021.53 and 1021.54; or

(2) Handlers shall obtain inspection provided by § 1021.60, or pay the assessment levied pursuant to § 1021.42, or both, in connection with shipments made under § 1021.54.

(3) Handlers shall obtain Certificates of Privilege from the committee for handling of watermelons affected or to be affected under the provisions of §§ 1021.53 and 1021.54.

(b) The committee may rescind or deny Certificates of Privilege to any handler if proof is obtained that watermelons handled by him for the purposes stated in §§ 1021.53 and 1021.54 were handled contrary to the provisions of this part.

(c) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of watermelons covered by such applications, the number of such applications denied and certificates granted, the quantity of watermelons handled under duly issued certificates, and such other information as may be requested.

INSPECTION

§ 1021.60 *Inspection and certification.* (a) During any period in which handling of watermelons is regulated pursuant to §§ 1021.42, 1021.52, or 1021.54, or any combination thereof, no handler shall handle watermelons unless such water-

melons are inspected by an authorized representative of the Federal or Federal-State Inspection Service, or such other inspection service as the Secretary shall designate, except when relieved from such requirements pursuant to § 1021.53, or § 1021.54, or both.

(b) The Secretary, pursuant to committee recommendations or other available information, may establish central points within each local producing section at which inspection of watermelons can be provided. Such points shall be based on customary location of inspection points for watermelons transported by rail or by truck, or both, during specific periods of the season, the reasonable convenience of such points to watermelon producers and handlers, the volume of watermelons available for inspection at such points during specified periods in each such locality, the availability of inspectors, and such other relevant factors as the committee, with the approval of the Secretary, may determine. Persons handling watermelons hereunder shall bring such watermelons to central points within each local producing section for inspection and make such watermelons available for inspection.

(c) The committee may recommend and the Secretary may require that any watermelons transported by motor vehicle or by other means shall be accompanied by a copy of the inspection certificate issued thereon, which certificate shall be surrendered to such authority as may be designated.

(d) The committee may recommend and the Secretary may require that all watermelons inspected in accordance with this section be individually stamped, branded, or marked in some other manner for easy identification of those watermelons which have passed inspection and are covered by an inspection certificate.

(e) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(f) Regrading, resorting, or commingling any lot of watermelons shall invalidate any prior inspection certificates insofar as the requirements of this section are concerned. No handler shall handle watermelons after they have been regraded, resorted, commingled, or in any way further prepared for market, unless each lot of such watermelons is inspected by an authorized representative of the Federal or Federal-State Inspection Service, or such other inspection service as the Secretary shall designate. The committee, with approval of the Secretary, may provide for waiving inspection requirements on any watermelons in circumstances where it appears reasonably certain that, after regrading, resorting, or commingling such watermelons meet the applicable quality and other standards then in effect.

EXEMPTIONS

§ 1021.70 *Procedure.* The committee may adopt, with approval of the Secretary, the procedures pursuant to which certificates of exemption will be issued to producers or handlers.

§ 1021.71 *Granting exemptions.* The committee shall issue certificates of exemption to any producer who applies for such exemption and furnishes adequate evidence to the committee that: (a) By reason of a regulation issued pursuant to § 1021.52 he will be prevented from handling as large a proportion of his production as the average proportion of production handled during the entire season, or such portion thereof as may be determined by the committee, by all producers in said applicant's immediate production area and that (b) the grade, size, or quality of the applicant's watermelons have been adversely affected by acts beyond the applicant's control and beyond reasonable expectation. Each certificate shall permit the producer to handle the amount of watermelons specified thereon. Such certificate shall be transferred with such watermelons at time of transportation or sale.

§ 1021.72 *Investigation.* The committee shall be permitted at any time to make a thorough investigation of any producer's or handler's claim pertaining to exemptions.

§ 1021.73 *Appeal.* If any applicant for exemption certificates is dissatisfied with the determination by the committee with respect to his application, said applicant may file an appeal with the committee. The appeal must be taken promptly after such determination by the committee. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a determination concerning the application, which determination shall be final. The committee shall notify the appellant of the final determination, and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

§ 1021.74 *Records.* (a) The committee shall maintain a record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the quantity of watermelons covered by such exemption certificates, a record of the amount of watermelons handled under exemption certificates, a record of appeals for reconsideration of applications, and such other information as may be requested by the Secretary. Periodic reports on such records shall be compiled and issued by the committee upon request of the Secretary.

(b) The Secretary shall have the right to modify, change, alter, or rescind any procedure and any exemptions granted pursuant to §§ 1021.70, 1021.71, 1021.72, or 1021.73, or any combination thereof.

REPORTS

§ 1021.80 *Reports.* Upon the request of the committee, made with approval of the Secretary, each handler shall furnish to the committee in such manner and at such time as it may prescribe, reports and other information as may be necessary for the committee to perform its duties under this part. In this connection:

(a) Such reports may include, but are not necessarily limited to, the following: (1) The quantities of watermelons received by a handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such watermelons; and (4) identification of the inspection certificates and the exemption certificates, if any, pursuant to which the watermelons were handled, together with the destination of each exempted disposition and of all watermelons handled pursuant to §§ 1021.53 and 1021.54.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers is authorized, subject to prohibition of disclosure of individual handlers' identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the watermelons received and disposed of by such handler as may be necessary to verify the reports he submits to the committee pursuant to this section.

MISCELLANEOUS PROVISIONS

§ 1021.81 *Compliance.* Except as provided in this subpart, no handler shall handle watermelons, the handling of which has been prohibited by the Secretary in accordance with provisions of this subpart, or the rules and regulations thereunder, and no handler shall handle watermelons except in conformity to the provisions of this subpart.

§ 1021.82 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 1021.83 *Effective time.* The provisions of this subpart, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ 1021.84 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers, who during a representative period, have been engaged in the production of watermelons for market: *Provided*, That such majority has, during such representative period, produced for market more than fifty percent of the volume of such watermelons produced for market.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 1021.85 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart the then functioning members of the committee shall continue as joint trustees for the purpose of liquidating the affairs of the committee of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 1021.86 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulations issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

§ 1021.87 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the United States, or name any agency in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 1021.88 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 1021.89 *Personal liability.* No member or alternate of the committee nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, agent, or employee, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 1021.90 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 1021.91 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 1021.92 *Amendments.* Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

§ 1021.93 *Counterparts.* This agreement may be executed in multiple counterparts and when one counterpart is signed by the Secretary all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.[1]

§ 1021.94 *Additional parties.* After the effective date hereof, any handler who has not previously executed this agreement may become a party hereto if a counterpart hereof is executed by him and delivered to the Secretary. This agreement shall take effect as to such new contracting party at the time such counterpart is delivered to the Secretary, and the benefits, privileges, and immunities conferred by this agreement shall then be effective as to such new contracting party.[1]

[1] Applicable only to the proposed marketing agreement.

§ 1021.95 *Order with marketing agreement.* Each signatory handler favors and approves the issuance of an order, by the Secretary, regulating the handling of watermelons in the same manner as is provided for in this agreement; and each signatory handler hereby requests the Secretary to issue, pursuant to the act, such an order.[1]

Copies of this notice of hearing may be procured from the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., or may be there inspected.

Dated: February 20, 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

DEPARTMENT OF COMMERCE

Federal Maritime Board

[46 CFR Part 235]

[Docket No. 789]

FILING OF FREIGHT RATES IN FOREIGN IMPORT COMMERCE OF THE UNITED STATES

NOTICE OF ORAL ARGUMENT

Whereas, by notice in this proceeding, appearing in the FEDERAL REGISTER of March 15, 1956 (21 F. R. 1656) the Board announced that it had instituted an investigation with respect to the issuance of a proposed rule requiring the filing with the Board of schedules, and all amendments thereto, of all inbound rates, charges, rules, regulations, and practices established, observed, and assessed by all common carriers by water subject to the Shipping Act, 1916, as amended (46 U. S. C. 801 et seq.), and engaged in the foreign import commerce of the United States, including all of its Districts, Territories; and possessions and all persons interested in the proposed rule were given an opportunity to file written statements and comments as to when such schedules should be filed, and

Whereas, by notice appearing in the FEDERAL REGISTER of October 20, 1956 (21 F. R. 8088), the Board, having considered comments received pursuant to the above notice, published the proposed rule in order to give interested persons an opportunity to file written comments and statements with respect to such rule, and

Whereas, consideration has been given to the comments received, including those in which a request was made for a hearing or oral argument,

Now therefore, notice is hereby given that oral argument will be heard by the Board, on March 19, 1957, beginning at 9:30 a. m., in Room 4519 New G. A. O. Building, 441 G Street NW., Washington, D. C., with respect to (1) whether the Board has statutory authority to issue the proposed rule, and (2) any other

question germane to such rule and/or the issuance thereof, on which interested parties may desire to be heard.

All respondents in this proceeding are requested to notify the Secretary, Federal Maritime Board, Washington 25, D. C., immediately whether they will participate in the oral argument and, if so, the amount of time desired for argument.

Dated: February 25, 1957.

By order of the Federal Maritime Board.

JAMES L. PIMPER,
Secretary.

[F. R. Doc. 57-1514; Filed, Feb. 25, 1957; 4:22 p. m.]

INTERSTATE COMMERCE COMMISSION

[49 CFR Parts 72, 73, 74, 77, 78]

[Notice 29; Docket No. 3666]

TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

NOTICE OF PROPOSED RULE MAKING

JANUARY 25, 1957.

The Commission is in receipt of applications for early amendment of the above-entitled regulations insofar as they apply to shippers in the preparation of articles for transportation, and to all carriers by rail and highway. The proposed amendments and the reasons therefor are set forth below.

Application for these amendments ordinarily would be considered at our next hearing in this docket. It appears, however, that the proposed amendments have been the subject of exchanges and study by interested parties, in which substantial agreement has been reached. In view thereof no oral hearing is contemplated at this time.

Any party desiring to make representations in favor of or against the proposed amendments may do so through the submission of written data, views, or arguments. The original and five copies of such submission may be filed with the Commission on or before February 26, 1957. The proposed amendments are subject to change or changes that may be made as a result of such submissions.

Notice to the general public will be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection, and by filing a copy of the notice with the Director, Division of the Federal Register.

(62 Stat. 738, 18 U. S. C. 831-835; 49 Stat. 546, 52 Stat. 1237, 54 Stat. 921, 49 U. S. C. 304)

By the Commision, Division 3.

[SEAL] HAROLD D. McCOY,
Secretary.

PART 72—COMMODITY LIST OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 71-78 OF THIS CHAPTER

Amend § 72.5 Commodity List (15 F. R. 8266, 8267, 8269, 8272, Dec. 2, 1950) (21 F. R. 7596, Oct. 4, 1956) as follows:

§ 72.5 *List of explosives and other dangerous articles.* (a) • • •

Article	Classed as—	Exemptions and packing (see sec.)	Label required if not exempt	Maximum quantity in 1 outside container by rail express
Change				
Copper arsenite, solid (Scheele's green, cupric green, copper orthoarsenite, Swedish green).	Pois. B	73.364, 73.365	Poison	200 pounds.
Sparklers. See Common fireworks.				
Vinyl chloride, inhibited	F. G	73.302, 73.308, 73.314, 73.315.	Red Gas	300 pounds.
Add				
Dimethylhydrazine, unsymmetrical	F. L	No exemption, 73.145	Red	5 pints.
Explosive cartridges	Expl. A	No exemption, 73.56		Not accepted.
Nitric oxide	Pois. A	No exemption, 73.337	Poison Gas	Not accepted.

PART 73—SHIPPERS

SUBPART A—PREPARATION OF ARTICLES FOR TRANSPORTATION BY CARRIERS BY RAIL FREIGHT, RAIL EXPRESS, HIGHWAY, OR WATER

In § 73.31 amend paragraph (a) table; add footnote 11 to paragraph (a) table; add spec. 109A100AL-W to table 1 to paragraph (g) (9) (21 F. R. 4562, 4563, June 26, 1956) to read as follows:

§ 73.31 *Qualification, maintenance, and use of tank cars.* (a) • • •

Where these regulations call for specifications Nos.—	These specification containers may also be used subject to the provisions of the following notes—
103 [6] [8] [11] and 103-W [6] [8] [11]	ARA-II [1] [6] [11] III [6] [8] [11] and IV.[6] [8]
103A [6] [11] and 103A-W [6] [11]	ARA-II [1] [6] [11] and III.[6] [8] [11]
103B [6] [11] and 103B-W [6] [11]	ARA-II [6] [11] and III [6] [11] rubber lined.
103C-W	103C.[9]
103D-W, 103E-W, 103A-N-W	See Note 10.
104 [6] [8] [11] and 104-W [6] [8] [11]	ARA-IV [6] [8] [11]
105A100 and 105A100-W	104A [7] and 104A-W.[7]
105A100-AL-W	104A-AL-W.[7]
105A300-W	ARA-V,[3] ICC-105 [3] and 105A300.[3]
105A400-W	105A400.
105A500-W	105A500.
105A600-W	105A600.
106A500 and 106A500-X	ICC-27 tanks mounted on a car and classified as multiunit tank prior to October 1, 1930.[4]
106A800 and 106A800-X	None.
106A800NCI	None.
107A • • •	None.

• • • • • • • • •

[11] Cars built prior to August 31, 1956, equipped with safety vents having frangible rupture discs of 30 p. s. i. may be used. Cars equipped with 30 p. s. i. safety vents may be continued in service but these safety vents may be reset to 45 p. s. i. by changing the frangible disc to one of that rating.

• • • • • • • • •

SUBPART B—EXPLOSIVES; DEFINITIONS AND PREPARATION

1. In § 73.53 add paragraph (w) (15 F. R. 8286, Dec. 2, 1950) to read as follows:

§ 73.53 *Definition of class A explosives.* • • •

(w) *Explosive cartridges.* Explosive cartridges are military devices, other than ammunition for cannon without projectiles, consisting of a metal, fiber, or composition casing containing more than 180 grains of a class A explosive Type I as defined herein and fitted with an igniter, primer, or other ignition device.

2. In § 73.56 amend the heading; amend paragraphs (a), (b), and (f) (15 F. R. 8286, Dec. 2, 1950) (21 F. R. 7598, Oct. 4, 1956) to read as follows:

§ 73.56 *Ammunition, projectiles, grenades, bombs, mines, explosive cartridges, and torpedoes.* (a) Detonating fuzes, tracer fuzes, explosive or ignition devices, bouchons, or fuze parts with explosives contained therein must not be assembled in explosive projectiles, grenades, explosive bombs, explosive mines, explosive cartridges, or explosive torpedoes, or included in the same outside package with them unless shipped by, for, or to the Departments of the Army, Navy, and Air Force of the United States Government or unless of a type approved by the Bureau of Explosives.

(b) Explosive projectiles, explosive torpedoes, explosive mines, explosive bombs, explosive cartridges, or explosive grenades, except as provided in paragraph (c) of this section, must be packed and properly secured in strong wooden or metal boxes.

• • • • • •

(f) Each exterior package or projectile, bomb, or mine must be plainly marked "explosive projectiles," "explosive torpedo," "explosive mine," "explosive bomb," "hand grenades," "rifle grenades," or "explosive cartridges," as the case may be, except that each device need not be so marked when palletized and the palletized units are plainly marked and shipped as carload or truckload shipments.

3. In § 73.65 amend paragraph (e) (3) (19 F. R. 8525, Dec. 14, 1954) to read as follows:

§ 73.65 *High explosives with no liquid explosive ingredient nor any chlorate.* • • •

(e) • • •

(3) Spec. 5B (§ 78.82 of this chapter) metal barrels or drums or Spec. 21A or 21B (§ 78.222 or § 78.223 of this chapter) fiber drums. Authorized only for cyclotrimethylenetrinitramine wet with not less than 10 pounds of water to each 90 pounds of dry material in inside containers which must be bags made of at least 10-ounce cotton duck, rubber or rubberized cloth and securely closed. The dry weight of cyclotrimethylenetrinitramine in one container must not exceed 300 pounds. These bags containing the cyclotrimethylenetrinitramine must then be placed in a rubber bag, rubberized cloth bag or bag made of suitable watertight material which must be securely closed and then placed in the drum. If shipment of cyclotrimethylenetrinitramine is to take place at a time freezing weather is to be anticipated, it must be wet with a mixture of denatured ethyl alcohol or other suitable anti-freeze and water of such proportions that freezing will not occur in transit.

4. In § 73.69 amend paragraph (c) (20 F. R. 4414, June 23, 1955) to read as follows:

§ 73.69 *Detonating fuzes, class A, with or without radioactive components, detonating fuze parts containing an explosive, boosters, bursters, or supplementary charges.* • • •

(c) Each outside package must be plainly marked "DETONATING FUZES, CLASS A EXPLOSIVES—HANDLE CAREFULLY—DO NOT STORE OR LOAD WITH ANY HIGH EXPLOSIVES," or "DETONATING FUZES, CLASS A EXPLOSIVES, RADIOACTIVE—HANDLE CAREFULLY—DO NOT STORE OR LOAD WITH ANY HIGH EXPLOSIVES," or "BOOSTERS (EXPLOSIVE)—HANDLE CAREFULLY," or "BURSTERS (EXPLOSIVE)—HANDLE CAREFULLY," or "SUPPLEMENTARY CHARGES (EXPLOSIVE)—HANDLE CAREFULLY," as the case may be.

• • • • • •

5. In § 73.77 amend paragraph (c) (15 F. R. 8292, Dec. 2, 1950) to read as follows:

§ 73.77 *Pentaerythrite tetranitrate.* • • •

(c) Sufficient outage in outside container must be allowed to prevent rupturing of container in freezing weather, or a mixture of denatured ethyl alcohol or other suitable anti-freeze and water may be used to prevent freezing in transit.

• • • • • •

6. In § 73.79 amend paragraph (c) (21 F. R. 3009, May 5, 1956) to read as follows:

§ 73.79 *Jet thrust units (jato), explosive, class A or igniters jet thrust (jato), explosive, Class A.* • • •

(c) Each outside package must be plainly marked "JET THRUST UNITS, CLASS A EXPLOSIVES" or "IGNITERS, JET THRUST, CLASS A EXPLOSIVES."

• • • • • •

7. In § 73.92 amend the heading, and introductory text of paragraph (a); amend paragraph (c) (21 F. R. 3009, May 5, 1956) to read as follows:

§ 73.92 *Jet thrust units (jato), class B, igniters, jet thrust (jato), class B, or starter cartridges, jet engine, class B.* (a) Jet thrust units (jato), class B, must not be shipped with igniters assembled therein unless shipped by, for, or to the Departments of the Army, Navy, and Air Force of the United States Government. Jet thrust units (jato), class B, igniters, jet thrust (jato), class B, or starter cartridges, jet engine, class B, must be packed in outside containers complying with the following specifications:

• • • • • •

(c) Each outside package must be plainly marked "JET THRUST UNITS, CLASS B EXPLOSIVES," "IGNITERS, JET THRUST, CLASS B EXPLOSIVES," or "STARTER CARTRIDGES, JET ENGINE, CLASS B EXPLOSIVES."

• • • • • •

8. In § 73.100 amend paragraph (r) (8) (18 F. R. 3134, June 2, 1953) (49 CFR 1950 Rev., 1955 Supp., 73.100) to read as follows:

§ 73.100 *Definitions of class C explosives.* • • •

(r) • • •

(8) Dipped sticks, the pyrotechnic composition of which contains any chlorate or perchlorate shall not exceed 5 grams. Sparklers, the composition of which does not exceed 100 grams each and which contain no magnesium or magnesium and a chlorate or perchlorate, are not subject to the regulations in Parts 71-78 and 197 of this chapter.

• • • • • •

9. In § 73.108 amend the introductory text of paragraph (a); amend paragraph (a) (2) (21 F. R. 7599, Oct. 4, 1956) (15 F. R. 8297, Dec. 2, 1950) to read as follows:

§ 73.108 *Common fireworks, signal flares, hand signal devices, railway or highway fusees, smoke signals, smoke candles, smoke pots, and very signal cartridges.* (a) Common fireworks, signal flares, hand signal devices, railway or highway fusees, smoke signals, smoke candles, smoke pots, and very signal cartridges, unless otherwise specifically provided for, must be securely packed in containers complying with the following specifications:

• • • • • •

(2) Spec. 15A, 15B, 16A, or 19A (§§ 78.168, 78.169, 78.185, or 78.190 of this chapter). Wooden boxes. Gross weight not to exceed 100 pounds, except gross weight of 500 pounds is authorized for very signal cartridges only.

• • • • • •

10. In § 73.113 amend paragraph (c) (20 F. R. 4414, June 23, 1955) to read as follows:

§ 73.113 *Detonating fuzes, class C.* • • •

(c) Each outside package must be plainly marked "DETONATING FUZES, CLASS C EXPLOSIVES—HANDLE CAREFULLY."

SUBPART C—FLAMMABLE LIQUIDS; DEFINITION AND PREPARATION

1. In § 73.115 amend paragraph (a) (21 F. R. 7599, Oct. 4, 1956) to read as follows:

§ 73.115 *Flammable liquids; definition.* (a) A flammable liquid for the purpose of Parts 71-78 of this chapter is any liquid which gives off flammable vapors (as determined by flash point from Tangliabue's open-cup tester, as used for test of burning oils) at or below a temperature of 80° F.

• • • • • •

2. In § 73.118 amend paragraphs (a) and (b) (21 F. R. 4431, 4432, June 23, 1956) to read as follows:

§ 73.118 *Exemptions for flammable liquids.* (a) Flammable liquids, except those enumerated in paragraph (c) of this section, in inside metal containers not over 1 quart capacity each, packed in strong outside containers, except as otherwise provided, are exempt from specification packaging, marking, and labeling requirements, except that marking name of contents on outside container is required for shipments via carrier by water. Shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817, and Part 197 of this chapter.

(b) Flammable liquids, except those enumerated in paragraph (c) of this section, in inside containers having a capacity not over 1 pint or 1-6 ounces by weight each, packed in strong outside containers, are exempt from specification packaging, marking, and labeling requirements, except that marking name of contents on outside container is required for shipments via carrier by water. Shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817, and Part 197 of this chapter.

• • • • • •

SUBPART D—FLAMMABLE SOLIDS AND OXIDIZING MATERIALS; DEFINITION AND PREPARATION

1. In § 73.176 amend paragraph (g) (21 F. R. 364, Jan. 19, 1956) to read as follows:

§ 73.176 *Matches.* • • •

(g) Matches, strike-on-box, book, and card packed in outside fiberboard or wooden boxes are not subject to the regulations in Parts 71–78 and 197 of this chapter.

(1) Matches, strike-on-box, book, and card may be packed in the same outside container with nonflammable articles when packed in outside fiberboard or wooden boxes. Such matches must be compactly packed in tightly closed inside containers or securely wrapped so as to prevent accidental ignition. When so packed, they are exempt from specification packaging, marking, and labeling requirements except when for transportation by carrier by water each outside container shall be marked "BOOK MATCHES," "STRIKE-ON-BOX MATCHES," or "CARD MATCHES," as the case may be. Shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817, and Part 197 of this chapter.

2. Amend entire § 73.229 (20 F. R. 950, Feb. 15, 1955) (21 F. R. 365, Jan. 19, 1956) to read as follows:

§ 73.229 *Chlorate and borate mixtures or chlorate and magnesium chloride mixtures.* (a) Chlorate and borate mixtures or chlorate and magnesium chloride mixtures containing mere than 50 percent chlorate and no other hazardous additives must be packed as follows:

(1) As prescribed in § 73.163.

(b) Chlorate and borate mixtures or chlorate and magnesium chloride mixtures containing no other hazardous additives and containing less than 50 percent chlorate are exempt from specification packaging, marking, and labeling requirements when offered for transportation by rail freight or highway and packed as follows; shipments for transportation by highway carriers are exempt also from Part 77 of this chapter, except § 77.817, and Part 197 of this chapter:

(1) Tight metal or fiber drums.

(2) Wooden boxes with tight inside metal containers.

(3) Multi-wall paper bags, net weight not over 50 pounds, moisture proof and sift proof, and having a strength capable of withstanding four 4-foot drops onto solid concrete.

(c) Chlorate and borate mixtures or chlorate and magnesium chloride mixtures containing 28 percent or less chlorate and no other hazardous additives, are not subject to the regulations in Parts 71–78 and 197 of this chapter.

3. In § 73.233 add paragraph (a) (4) (17 F. R. 9837, Nov. 1, 1952) to read as follows:

§ 73.233 *Nickel catalyst, finely divided, activated or spent.* (a) • • •

(4) Spec. 17H, 37A, or 37B (§ 78.118, § 78.131, or § 78.132 of this chapter). Metal drums (single-trip).

SUBPART E—ACIDS AND OTHER CORROSIVE LIQUIDS; DEFINITION AND PREPARATION

1. In § 73.247 amend paragraph (a) (6) (21 F. R. 7601, Oct. 4, 1956) to read as follows:

§ 73.247 *Acetyl chloride, antimony pentachloride, benzoyl chloride, benzyl chloride, chromyl chloride, pyro sulfuryl chloride, silicon chloride, sulfur chloride (mono and di), sulfuryl chloride, thionyl chloride, tin tetrachloride (anhydrous), and titanium tetrachloride.* (a) • • •

(6) Spec. 103A, 103A–W, 105A300–W, 105A400–W, 105A500–W, or 105A600–W (§ 78.266, § 78.281, § 78.286, § 78.287, § 78.288, or § 78.289 of this chapter) tank cars, except that for tin tetrachloride (anhydrous) spec. 105A300–W, 105A400–W, 105A500–W, or 105A600–W tank cars must be used. Benzyl chloride must be stabilized when loaded in unlined tanks.

• • • • • •

2. In § 73.264 amend paragraph (a) (7); amend paragraph (b) (2) (15 F. R. 8317, Dec. 2, 1950) (21 F. R. 7601, Oct. 4, 1956) to read as follows:

§ 73.264 *Hydrofluoric acid.* (a) • • •

(7) Spec. 5A (§ 78.81 of this chapter). Unlined metal barrels or drums which have been subjected to adequate passification of neutralization process (see Note 1). Authorized only for acid of not less than 60 percent and not more than 80 percent strength and all containers must be filled to not over 80 percent of capacity at 68° F. If containers are washed out with water, they must be repassified before reshipment. (See Notes 1, 2, 3, 4 and 5.)

Notes remain the same.

• • • • • •

(b) • • •

(2) Spec. 105A300–W, 105A400–W, 105,[1] 105A500–W, or ARA–V[1] (§§ 78.286, 78.287, 78.288 of this chapter), tank cars, equipped with special valves and appurtenances approved for this particular service. Filling density must not exceed 90 percent of the pounds water weight capacity of the tank.

• • • • • •

3. In § 73.266 add paragraph (c) (7) (15 F. R. 8318, Dec. 2, 1950) to read as follows:

§ 73.266 *Hydrogen peroxide solution in water.* • • •

(c) • • •

(7) Spec. 6J (§ 78.100 of this chapter). Steel barrels or drums having inside spec. 2S (§ 78.35 of this chapter) polyethylene drums. Gross weight restriction indicated by the gross weight embossment in the steel barrel or drum is waived.

• • • • • •

4. In § 73.271 add paragraph (a) (10); amend paragraph (b) (15 F. R. 8321, Dec. 2, 1950) (16 F. R. 11779, Nov. 21, 1951) to read as follows:

§ 73.271 *Phosphorus, oxychloride, phosphorus trichloride, and thiophosphoryl chloride.* (a) • • •

(10) Spec. 103E–W (§ 78.298 of this chapter). Tank cars made from type 316 stainless steel. Authorized for phosphorus trichloride and thiophosphoryl chloride only.

(b) Phosphorus trichloride and thiophosphoryl chloride may also be shipped in metal barrels or drums, Spec. 5A or 5C (§ 78.81 or § 78.83 of this chapter).

• • • • • •

5. In § 73.272 amend the introductory text of paragraph (f); add paragraph (f) (2) (15 F. R. 8321, Dec. 2, 1950) to read as follows:

§ 73.272 *Sulfuric acid.* • • •

(f) For sulfuric acid of concentrations not to exceed 95 percent (approximately 1.835 specific gravity) (66° Baumé):

• • • • • •

(2) Spec. 1F or 1G (§ 78.10 or § 78.11 of this chapter). Polyethylene carboys in wooden boxes, plywood drums or boxes.

• • • • • •

6. In § 73.289 amend paragraph (a) (2) (21 F. R. 7601, Oct. 4, 1956) to read as follows:

§ 73.289 *Formic acid and formic acid solutions.* (a) • • •

(2) Spec. 103C–W or 103E–W (§ 78.283 or § 78.298 of this chapter). Tank cars. Spec. 103E–W tanks must be of type 316 stainless steel and must be stenciled "FOR FORMIC ACID ONLY."

• • • • • •

SUBPART F—COMPRESSED GASES; DEFINITION AND PREPARATION

1. In § 73.302 amend paragraph (a) (3) (20 F. R. 8102, Oct. 28, 1955) to read as follows:

§ 73.302 *Exemptions for compressed gases.* (a) • • •

(3) Inside nonrefillable metal containers charged with a solution of materials and compressed gas or gases, of capacity not exceeding 32 cubic inches. Contents of the container must be nonpoisonous and if flammable as provided in § 73.300 (b) (2), (3), and (4), the flash point, as determined by Bureau of Explosives' Method, must be not less than 20° F. Pressure in the container must not exceed 75 pounds per square inch absolute at 70° F. and the liquid content of the material and gas must not completely fill the container at 130° F. However, if the pressure exceeds 55 pounds per square inch absolute at 70° F., a spec. 2P (§ 78.33 of this chapter) container must be used. Each completed container filled for shipment must have been heated until content reached a minimum temperature of 130° F. without evidence of leakage, distortion, or other defect.

• • • • • •

2. In § 73.306 amend paragraph (b) (1); cancel paragraphs (b) (2), and entire paragraph (d) (20 F. R. 8103, Oct. 28, 1955) (21 F. R. 3011, May 5, 1956) (21 F. R. 7602, Oct. 4, 1956) (21 F. R. 4433, June 23, 1956) (19 F. R. 1279, Mar. 6, 1954) to read as follows:

§ 73.306 *Liquefied gases, except acetylene in solution.* • • •

(b) • • •

(1) Spec. 2P (§ 78.33 of this chapter), inside metal containers equipped with safety devices of a type approved by the Bureau of Explosives and packed in strong wooden or fiber boxes of such design as to protect valves from injury or accidental functioning under conditions incident to transportation. Pressure in the container must not exceed 85 pounds per square inch absolute at 70° F. Each completed metal container filled for shipment must be heated until content reaches a minimum temperature of 130° F., without evidence of leakage, distortion or other defect. Each outside shipping container must be plainly marked "Inside containers comply with prescribed specifications."

(2) [Cancelled.]

• • • • • •

(d) [Cancelled.]

3. In § 73.312 amend paragraphs (a) (1) and (7) (19 F. R. 6269, Sept. 29, 1954) (21 F. R. 7602, 7603, Oct. 4, 1956) to read as follows:

§ 73.312 *Liquefied petroleum gas.* (a) • • •

(1) Spec. 3,[1] 3A, 3AA, 3B, 3E, 4, 4A, 4B, 4BA, 4B240X[1] (see Appendix A to Subpart C of Part 78), 4B240FLW, 4B240ET, 4E, or 9, 25,[1] 26,[1] 38,[1] or 41 (§ 78.36, § 78.37, § 78.38, § 78.42, § 78.48, § 78.49, § 78.50, § 78.51, § 78.54, § 78.55, § 78.68, § 78.63, or § 78.67 of this chapter). Cylinders authorized under § 73.34 (a) to (e) may be used.

No change in Note 1.

• • • • • •

(7) Spec. 2P (§ 78.33 of this chapter). Inside metal containers packed in strong wooden or fiber boxes of such design as to protect valves from injury or accidental functioning under conditions incident to transportation. Authorized for liquefied petroleum gas with a gas pressure not over 45 pounds per square inch gauge at 70° F. and 105 pounds per square inch gauge at 130° F. Containers must be equipped with safety devices which will prevent rupture of the containers and dangerous projection of the closing devices when the containers are exposed to the action of fire. Each completed container filled for shipment must have been heated until contents reached a minimum temperature of 130° F., without evidence of leakage, distortion, or other defect. Each outside shipping container must be plainly marked "Inside containers comply with prescribed specifications."

• • • • • •

4. In § 73.314 amend paragraph (a) and the entire table thereto; amend Notes 8, 11, 12, and 18 to paragraph (a) table; add Note 20 to paragraph (a) table; amend paragraph (b) (19 F. R. 8528, Dec. 14, 1954) (21 F. R. 4565, June 26, 1956) (21 F. R. 7602, Oct. 4, 1956) (20 F. R. 4417, June 23, 1955) (21 F. R. 9357, Nov. 30, 1956) (16 F. R. 9377, Sept. 15, 1951) (19 F. R. 3261, June 3, 1954) to read as follows:

§ 73.314 *Compressed gases in tank cars.* (a) Compressed gases must not be shipped in tank cars except as provided in paragraphs (b) to (f) of this section, § 73.432, and in the following table:

Kind of gas	Maximum permitted filling density Note 1 (percent)	Required type of tank car, Note 2
Anhydrous ammonia	50	ICC–106A500, 106A500X, Note 12.
	57	ICC–105A300–W.
Argon	Note 5	ICC–107A.
Butadiene (pressure not exceeding 75 pounds per square inch at 105° F.), inhibited.	Notes 3 and 6	ICC–106A500, 106A500X.
		ICC–105A100, 105A100–W, Note 9.
Carbon dioxide, liquefied	Note 10	ICC–105A500–W, 105A600–W, Note 11.
Chlorine	125	ICC–106A500, 106A500X, Note 12.
	125	ICC–105A300–W, Notes 8 and 18.
Crude nitrogen fertilizer solution	Note 6	ICC–106A500, 106A500X.
		ICC–105A100AL–W, 105A300–W, 109A100AL–W, Note 5.
Dichlorodifluoromethane	119	ICC–106A500, 106A500X, 110A500–W, Notes 12 and 19.
	125	ICC–105A300–W.
Dichlorodifluoromethane and difluoroethane mixture (constant boiling mixture).	Note 6	ICC–106A500, 106A500X, Note 12.
		ICC–110A500–W.
		ICC–105A300–W.
Dichlorodifluoromethane-dichlorotetrafluoroethane mixture.	119	ICC–106A500, 106A500X, 110A500–W, Notes 12 and 19.
	125	ICC–105A300–W.
Dichlorodifluoromethane - monochlorodifluoromethane mixture.	119	ICC–106A500, 106A500X, 110A500–W, Notes 12 and 19.
	125	ICC–105A300–W.
Dichlorodifluoromethane - monofluorotrichloromethane mixture.	Note 16	ICC–106A500, 106A500X, 110A500–W, Note 12.
		ICC–105A300–W.
Dichlorodifluoromethane - trichloromonofluoromethane-monochlorodifluoromethane mixture.	119	ICC–106A500, 106A500X, 110A500–W, Notes 12 and 19.
	125	ICC–105A300–W.
Dichlorodifluoromethane-trichlorotrifluoroethane mixture.	119	ICC–106A500, 106A500X, 110A500–W, Notes 12 and 19.
	125	ICC–105A300–W.
Difluoroethane	79	ICC–106A500, 106A500X, 110A500–W, Note 12.
Difluoromonochloroethane	100	ICC–106A500, 106A500X, 110A500–W, Note 12.
Dimethylamine, anhydrous	59	ICC–106A500, 106A500X.

Nitrogen	Note 5	ICC–107A.
Nitrogen fertilizer solution	Note 6	ICC–106A500, 106A500X.
		ICC–105A100AL–W, 105A300–W, 109A100AL–W, Note 5.
Nitrogen fertilizer solution (pressure not exceeding 75 pounds per square inch at 105° F.).	Note 6	ICC–105A100AL–W.
Nitrosyl chloride	110	ICC–106A800NCI, Notes 12 and 17.
	124	ICC–105A300–W, Note 15.
Oxygen	Note 5	ICC–107A.
Refrigerant gas, n. o. s.	Note 16	ICC–106A500, 106A500X, Notes 12 and 19.
		ICC–110A500–W, Note 19.
		ICC–105A300–W, Note 19.
Sulfur dioxide	125	ICC–106A500, 106A500X, 110A500–W, Note 12.
		ICC–105A300–W.
Trifluorochloroethylene	115	ICC–106A500, 106A500X, Note 12.
	118	ICC–110A500–W.
Trimethylamine, anhydrous	120	ICC–105A300–W, Note 9.
	57	ICC–106A500, 106A500X.
Vinyl chloride, inhibited (see Note 14)	59	ICC–105A300–W, Note 9.
	84	ICC–106A500, 106A500X, Note 12.
Vinyl methyl ether, inhibited (see Note 14)	57	ICC–105A300–W, Note 9.
	68	ICC–105A100, 105A100–W, 105A300–W, Note 9.

• • • • • •

NOTE 8: For tank cars of other than ICC–106A (§ 78.275 of this chapter) type, used for shipping chlorine, tests prescribed in § 73.31 must be made at intervals of 2 years or

[1] Use of existing tank cars authorized, but new construction not authorized.

[1] Use of existing cylinders authorized, but new construction not authorized.

less and interior pipes of liquid discharge valves must be equipped with check valves of approved design.

• • • • • •

NOTE 11: Before an ICC–105A500W or ICC–105A600W (§§ 78.288 or 78.289 of this chapter) tank car may be used for the transportation of liquefied carbon dioxide, the following requirements must be met: Tank must be lagged with an approved insulation material of a thickness so that the thermal conductance is not more than 0.03 B. t. u. per square foot per degree F. differential in temperature per hour; except that the insulation thickness directly over the center sills may be reduced to give a thermal conductance not exceeding 0.04 B. t. u. per square foot, per degree F. differential in temperature per hour; this reduction is to permit an anchorage which must not exceed seven (7) inches from top of center sills to bottom of tank. Tank must be equipped with one safety valve of approved design set to open at a pressure not exceeding three-fourths of the test pressure of the tank and one frangible disc device of approved design set to function at a pressure less than the test pressure of the tank. The discharge capacity of each of these safety devices must be sufficient to prevent building up of pressure in tank in excess of three-fourths of the test pressure of the tank. Tank must be equipped with two (2) pressure-regulating valves of approved design, set to open at a pressure not to exceed 350 pounds per square inch or seven-tenths of the test pressure of the tank. Each regulating valve and safety device must have its final discharge piped to the outside of the protective housing.

NOTE 12: Tanks complying with specification 106A500 or 106A500X (§ 78.275 of this chapter) containing chlorine, anhydrous ammonia, sulfur dioxide, methyl chloride, methyl mercaptan, dichlorodifluoromethane, monochlorodifluoromethane, monochlorotetrafluorpethane, vinyl chloride, inhibited, difluoroethane, difluoromonochloroethane, dispersant gas, n. o. s., refrigerant gas, n. o. s., dichlorodifluoromethane and difluoroethane mixture (constant boiling mixture), dichlorodifluoromethane-monofluorotrichloromethane mixture, trifluorochloroethylene, dichlorodifluoromethane-dichlorotetrafluoroethane mixture, dichlorodifluoromethane-trichlorotrifluoroethane mixture, dichlorodifluoromethang-monochlorodifluoromethane mixture, or dichlorodifluoromethane-trichloromonofluoromethane-monochlorodifluoromethane mixture; tanks complying with specification 110A500W (§ 78.293 of this chapter), containing dichlorodifluoromethane, monochlorodifluoromethane, dichlorodifluoromethane-monofluorotrichloromethane mixture, dichlorodifluoromethane-dichlorotetrafluoroethane mixture, dichlorodifluoromethane-trichlorotrifluoroethane mixture, dichlorodifluoromethane-monochlorodifluoromethane mixture, dichlorodifluoromethane-trichloromonofluoromethane-monochlorodifluoromethane mixture, dispersant gas, n. o. s., or refrigerant gas, n. o. s.; tanks complying with specification 106A800 or 106A800X (§ 78.276 of this chapter), containing hydrogen sulfide; or tanks complying with specification 106A800NCI (§ 78.295 of this chapter), containing nitrosyl chloride, may be transported on trucks or semi-trailers only, when securely chocked or clamped thereon to prevent shifting, and provided adequate facilities are present for handling tanks where transfer in transit is necessary. See § 74.560 of this chapter, for rail freight-motor vehicle shipments.

• • • • • •

NOTE 18: The maximum quantity of liquefied chlorine gas loaded into tanks mounted on one car structure must not exceed 60,000 pounds. *Provided*, That for single-unit tank car tanks having water weight capacities not less than 86,240 pounds nor over 90,640 pounds, lagged with 4 inches of corkboard, equipped with one or more safety valves set to open at a pressure of 225 pounds per square inch, the total discharge capacity of which must be sufficient to prevent building up of pressure in the tank in excess of 225 pounds per square inch, tank jackets stenciled ICC–105A300W (§ 78.286 of this chapter) and in all other respects constructed and maintained in full compliance with I. C. C. shipping container specification 105A500W (§ 78.288 of this chapter), the quantity of gas loaded into such tanks must be not more than 110,000 pounds nor less than 107,800 pounds.

• • • • • • •

NOTE 20: Container shall not be equipped with safety devices of any description.

(b) The gas pressure at 105° F. in any lagged tank of tank cars of specs. 105A100, 105A100–W, 105A100AL–W, 105A300AL–W, 105A300–W, 105A400–W, 105A500–W, 105A600–W, 109A100AL–W (§§ 78.270, 78.285, 78.294, 78.300, 78.286, 78.287, 78.288, 78.289, 78.302 of this chapter), and at 130° F. in any unlagged tank of tank cars of specs. 106A500, 106A500X, 106A800, 106A800X, and 110A500–W (§§ 78.275, 78.276, and 78.293 of this chapter) must not exceed three-fourths times the prescribed retest pressure of the tank. The gas pressure at 130° F. in any unlagged tank of tank cars of the 107A (§ 78.277 of this chapter) series must not exceed seven-tenths of the marked test pressure of the tank.

No change in Note 1.

• • • • • •

5. In § 73.315 amend paragraph (a) (1) table; amend paragraph (h) table; amend paragraph (i) (2) table (18 F. R. 6780, Oct. 27, 1953) (21 F. R. 3012, May 5, 1956) as follows:

§ 73.315 *Compressed gases in cargo tanks and portable tank containers.*

(a) • • •

(1) • • •

Kind of gas	Maximum permitted filling density		Specification container required	
	Percent by weight (see Note 1)	Percent by volume (see par. (f) of this section)	Type (see Note 2)	Minimum design working pressure (p. s. i. g.)
Add				
Vinyl chloride, inhibited	84	See Note 7	MC-330	250

(h) • • •

Kind of gas	Permitted gauging device
Add	
Vinyl chloride, inhibited	None

(i) • • •

(2) • • •

Add	
Vinyl chloride, inhibited	250

• • • • • •

SUBPART G—POISONOUS ARTICLES; DEFINITION AND PREPARATION

1. Add § 73.337 (15 F. R. 8334, Dec. 2, 1950) to read as follows:

§ 73.337 *Nitric oxide.* (a) Nitric oxide must be packed in specification containers as follows:

(1) Spec. 3A, 3AA, or 3E1800 (§ 78.36, § 78.37, or § 78.42 of this chapter) cylinders designed and marked for a service pressure of 1800 pounds per square inch, or higher, charged to a pressure of not more than 750 pounds per square inch at 70° F. Cylinders must be equipped with a valve of stainless steel and valve seat of material which will not be deteriorated by contact with nitric oxide or nitrogen dioxide. Containers or valves must not be equipped with safety devices of any type. Valve outlets must be sealed by a solid threaded cap or plug and an inert gasketing material.

(2) Spec. 3E1800 (§ 78.42 of this chapter) cylinders must be packed in strong wooden boxes of such design as to protect valves from injury or accidental functioning under conditions incident to transportation. Each outside shipping container must be plainly marked "inside containers comply with prescribed specifications".

(3) Spec. 3A and 3AA (§§ 78.36 and 78.37 of this chapter) cylinders must have their valves protected by metal caps securely attached to the cylinders and of sufficient strength to protect the valves from injury during transit, or by packing in strong wooden boxes of such design as to protect valves from injury or accidental functioning under conditions incident to transportation. Each outside shipping container must be plainly marked "inside containers comply with prescribed specifications".

• • • • • •

2. In § 73.347 add paragraph (a) (7) (15 F. R. 8335, Dec. 2, 1950) to read as follows:

§ 73.347 *Aniline oil.* (a) • • •

(7) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes with metal inside containers not over 1 gallon capacity each; not to contain more than 4 such inside containers if their capacity is greater than 5 pints each.

• • • • • •

3. In § 73.377 add paragraph (g), and (h) (21 F. R. 3013, May 5, 1956) to read as follows:

§ 73.377 *Hexaethyl tetraphosphate mixtures, methyl parathion mixtures, parathion mixtures, tetraethyl dithio pyrophosphate mixtures, and tetraethyl pyrophosphate mixtures, dry.* • • •

(g) Dry mixtures containing more than 2 percent but not exceeding 15 percent by weight of hexaethyl tetraphosphate, methyl parathion, parathion, tetraethyl dithio pyrophosphate, or tetraethyl pyrophosphate, and in which the liquid is absorbed in an inert material, in addition to containers prescribed in paragraphs (a) and (b) of this section, may be packed in specification containers as follows:

(1) Spec. 44B (§ 78.236 of this chapter). Multi-wall paper bags with inside paper bags, spec. 2D (§ 78.23 of this chapter), not over 5 pounds capacity each. Net weight of material in outside container not over 30 pounds each.

(h) Dry mixtures containing more than 2 percent but not exceeding 5 percent by weight of hexaethyl tetraphosphate, methyl parathion, parathion, tetraethyl dithio pyrophosphate, or tetraethyl pyrophosphate, and in which the liquid is absorbed in an inert material, in addition to containers prescribed in paragraphs (a), (b), and (g) of this section, may be packed in specification containers as follows:

(1) Spec. 44D (§ 78.238 of this chapter). Multi-wall paper bags not over 50 pounds net weight each.

4. In § 73.393 amend paragraph (i) (15 F. R. 8340, Dec. 2, 1950) to read as follows:

§ 73.393 *Packing and shielding.* • • •

(i) Liquid radioactive materials Groups I, II or III must, in addition, be packed in tight glass, earthenware, or other suitable inside containers. The inside containers must be surrounded on all sides by an absorbent material sufficient to absorb the entire liquid contents and of such nature that its efficiency will not be impaired by chemical reaction with the contents. Where use of shielding is necessary to reduce radiation to limits prescribed by this section, the absorbent cushioning material must be placed within the shield. If the container is packed in a metal container specification 2R (§ 78.34 of this chapter) or other container approved by the Bureau of Explosives, the absorbent cushioning is not required.

SUBPART I—SHIPPING INSTRUCTIONS

In § 73.430 amend paragraph (a); add paragraph (d) (15 F. R. 8343, 8344, Dec. 2, 1950) to read as follows:

§ 73.430 *Certificate.* (a) The shipper offering for transportation by carriers by rail freight, highway, water, or air, any class A or class B explosive and blasting caps or electric blasting caps in any quantity, and any flammable liquid, flammable solid, oxidizing material, corrosive liquid, compressed gas, or poison, requiring labels, or carloads or truckloads requiring placards, as prescribed by Parts 71–78 of this chapter, must show on the shipping order, bill of lading, or other shipping paper, in the lower left-hand corner, the following certificate over the written or stamped facsimile signature of the shipper or his duly authorized agent:

This is to certify that the above named articles are properly described, and are packed and marked and are in proper condition for transportation according to the regulations prescribed by the Interstate Commerce Commission.

• • • • • •

(d) In lieu of certificate described in paragraph (a) of this section, shipping papers for bulk shipments made in containers owned or controlled by the carrier may have at the option of the shipper the following certificate over the written or stamped facsimile signature of the shipper or his duly authorized agent:

This is to certify that the above named articles are properly described and are in proper condition for transportation according to the regulations prescribed by the Interstate Commerce Commission;

and the following certificate over the written or stamped facsimile signature of the carrier or his duly authorized agent:

This is to certify that the above named articles are properly marked and are transported in a proper container which is in proper condition for transportation according to regulations prescribed by the Interstate Commerce Commission.

PART 74—CARRIERS BY RAIL FREIGHT

SUBPART A—LOADING, UNLOADING, PLACARDING AND HANDLING CARS; LOADING PACKAGES INTO CARS

1. In § 74.526 add paragraph (o) (5) (15 F. R. 8346, Dec. 2, 1950) to read as follows:

§ 74.526 *Loading explosives into cars.* • • •

(o) • • •

(5) Truck body or trailer shall not be equipped with fuel tanks, lighted heaters, or any automatic heating or refrigerating apparatus.

2. In § 74.529 amend paragraph (b) (20 F. R. 8106, Oct. 28, 1955) to read as follows:

§ 74.529 *Cars for class B, explosives.* • • •

(b) Shipments of class B explosives (see §§ 73.88 to 73.94 of this chapter) must be loaded in a closed car or container car which is in good condition, into which sparks cannot enter, and with roof not in danger of taking fire through unprotected decayed wood. These cars do not require the car certificate but must have attached to both sides and both ends the "DANGEROUS" placard prescribed by § 74.552, and the doors if not tight must be stripped to prevent entrance of sparks.

• • • • • •

SUBPART B—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

In § 74.538 paragraph (a) chart, amend item 2 in vertical and horizontal columns; amend footnote e to paragraph (a) chart (21 F. R. 9359, 9360, Nov. 30, 1956) to read as follows:

§ 74.538 *Loading and storage chart of explosives and other dangerous articles.*

(a) • • •

"2" Propellant explosives, class B, jet thrust units (jato) class B, igniters, jet thrust (jato), class B, or starter cartridges, jet engine, class B

• • • • • •

• Does not include nitro carbo nitrate which may be loaded, transported or stored with high explosives or with blasting caps or electric blasting caps, and detonating primers.

• • • • • •

SUBPART E—HANDLING BY CARRIERS BY RAIL FREIGHT

In § 74.589 amend paragraphs (h) (8) and (j) (8) to read as follows:

§ 74.589 *Handling cars.* • • •

(h) • • •

(8) Open-top car when any of the lading protrudes beyond the car ends or when any of the lading extending above the car ends is liable to shift so as to protrude beyond the car ends.

• • • • • •

(j) • • •

(8) Open-top car when any of the lading protrudes beyond the car ends or when any of the lading extending above the car ends is liable to shift so as to protrude beyond the car ends.

• • • • • •

PART 77—SHIPMENTS MADE BY WAY OF COMMON CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

SUBPART A—GENERAL INFORMATION AND REGULATIONS

1. In § 77.819 add paragraph (c) (15 F. R. 8863, Dec. 2, 1950) to read as follows:

§ 77.819 *Certificate.* • • •

(c) In lieu of certificate described in paragraph (a) of this section, shipping papers for shipments made in containers owned or controlled by the carrier may have at the option of the shipper the following certificate over the written or stamped facsimile signature of the shipper or his duly authorized agent:

This is to certify that the above named articles are properly described and are in proper condition for transportation according to the regulations of the Interstate Commerce Commission.

2. In § 77.820 amend paragraph (a) (21 F. R. 9361, Nov. 30, 1956) to read as follows:

§ 77.820 *Waybills, manifests, etc.* (a) The waybill, manifest, dispatch, memorandum receipt, bill of lading, transfer sheet, or interchange record, when prepared for shipments and used for transferring such shipments to a connecting carrier, must properly describe the articles by name as shown in § 72.5 of this chapter, and show the color or kind of label applied. (See § 77.817.)

SUBPART B—LOADING AND UNLOADING

1. In § 77.834 amend paragraph (g) (15 F. R. 8364, Dec. 2, 1950) to read as follows:

§ 77.834 *General requirements.* • • •

(g) *Prevent relative motion between containers.* Containers of explosives, flammable liquids, flammable solids, oxidizing materials, corrosive liquids, acids, compressed gases, and poisonous liquids or gases, must be so braced as to prevent motion thereof relative to the vehicle while in transit. Containers having valves or other fittings must be so loaded that there will be the minimum likelihood of damage thereto during transportation.

• • • • •

2. In § 77.835 amend paragraph (e) (15 F. R. 8365, Dec. 2, 1950) to read as follows:

§ 77.835 *Explosives.* • • •

(e) *No sharp projections inside truck body or trailer.* No truck body or trailer, transporting any kind of explosive, shall have on the interior of the body in which the explosives are contained, any inwardly projecting bolts, screws, nails, or other inwardly projecting parts likely to produce damage to any package or container of explosives during the loading or unloading process or in transit, nor shall any truck body or trailer be equipped with fuel tanks, lighted heaters, or any automatic heating or refrigerating apparatus.

• • • • •

3. In § 77.838 amend paragraph (f) (21 F. R. 4434, June 23, 1956) to read as follows:

§ 77.838 *Flammable solids and oxidizing materials.* • • •

(f) Nitrates listed in § 73.182 (b) of this chapter, must be loaded in closed or open type motor vehicles which must be swept clean and be free of any projections capable of injuring bags when so packaged. When shipped in open type motor vehicles the lading must be suitably covered. Ammonium nitrate, ammonium nitrate (organic coating), ammonium nitrate fertilizer, containing 90 percent or more ammonium nitrate with no organic coating, and guanidine nitrate must not be loaded in all metal vehicles, other than those of aluminum or aluminum alloys, of the closed type. (See § 77.823 (a) (4) and (5).)

4. In § 77.840 amend paragraph (c) (21 F. R. 7604, Oct. 4, 1956) to read as follows:

§ 77.840 *Compressed gases.* • • •

(c) Tanks complying with specification 106A500 or 106A500X (§ 78.275 of this chapter) containing chlorine, anhydrous ammonia, sulfur dioxide, methyl chloride, methyl mercaptan, dichlorodifluoromethane, monochlorodifluoromethane, monochlorotetrafluoroethane, vinyl chloride, inhibited, difluoroethane, difluoromonochloroethane, dispersant gas, n. o. s., refrigerant gas, n. o. s., dichlorodifluoremethane and difluoroethane mixture (constant boiling mixture), dichlorodifluoromethane-monofluorotrichloromethane mixture, trifluorochloroethylene, dichlorodifluoromethane - dichlorotetrafluoroethane mixture, dichlorodifluoromethane-trichlorotrifluoroethane mixture, dichlorodifluoromethane - monochlorodifluoromethane mixture, or dichlorodifluoromethane - trichloromonofluoromethane-monochlorodifluoromethane mixture; tanks complying with specification 110A 500W (§ 78.293 of this chapter), containing dichlorodifluoromethane, monochlorodifluoromethane - monofluorotrichloromethane mixture, dichlorodifluoromethane-dichlorotetrafluoroethane mixture, dichlorodifluoromethane-trichlorotrifluoroethane mixture, dichlorodifluoromethane-monochlorodifluoromethane mixture, dichlorodifluoromethane-trichlorofluoromethane mixture, dispersant gas, n. o. s., or refrigerant gas, n. o. s.; tanks complying with specification 106A800 or 106A800X (§ 78.276 of this chapter), containing hydrogen sulfide; or tanks complying with specification 106A800 NCI (§ 78.295 of this chapter, containing nitrosyl chloride, may be transported on trucks or semi-trailers only, when securely chocked or clamped thereon to prevent shifting, and provided adequate facilities are present for handling tanks where transfer in transit is necessary. See § 74.560 (b) (1) of this chapter.

• • • • • •

SUBPART C—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

In § 77.848 paragraph (a) chart, amend item 2 in vertical and horizontal columns; amend footnote e to paragraph (a) chart (21 F. R. 9362, 9363, Nov. 30, 1956) to read as follows:

§ 77.848 *Loading and storage chart of explosives and other dangerous articles.*

(a) • • •

"2" Propellant explosives, class B, jet thrust units (jato) class B, igniters, jet thrust (jato), class B, or starter cartridges, jet engine, class B

• • • • • •

• Does not include nitro carbo nitrate which may be loaded, transported or stored with high explosives or with blasting caps or electric blasting caps, and detonating primers.

• • • • •

PART 78—SHIPPING CONTAINER SPECIFICATIONS

SUBPART A—SPECIFICATIONS FOR CARBOYS, JUGS IN TUBS, AND RUBBER DRUMS

1. § 78.1–9 amend Note 1 to paragraph (b) (2) (18 F. R. 5274, Sept. 1, 1953) to read as follows:

§ 78.1 *Specification 1A; boxed carboys.*

§ 78.1–9 *Tests.* • • •
(b) • • •
(2) • • •

NOTE 1: In instances where 99 or less carboys are in service during either 6-month period of the year it shall be acceptable to test 10 percent of the total but not less than 3 carboys on both the side and bottom swing. If this provision is used, the report of test results must so state.

2. In § 78.3–9 amend Note 1 to paragraph (b) (2) (18 F. R. 5274, Sept. 1, 1953) to read as follows:

§ 78.3 *Specification 1C; carboys in kegs.*

§ 78.3–9 *Tests.* • • •
(b) • • •
(2) • • •

NOTE 1: In instances where 99 or less carboys are in service during either 6-month period of the year it shall be acceptable to test 10 percent of the total but not less than 3 carboys on both the side and bottom swing. If this provision is used, the report of test results must so state.

• • • • • •

3. In § 78.4–8 amend Note 1 to paragraph (b) (2) (18 F. R. 5274, Sept. 1, 1953) to read as follows:

§ 78.4 *Specification 1D; boxed glass carboys.*

§ 78.4–8 *Tests.* • • •
(b) • • •
(2) • • •

NOTE 1: In instances where 99 or less carboys are in service during either 6-month period of the year it shall be acceptable to test 10 percent of the total but not less than 3 carboys on both the side and bottom swing. If this provision is used, the report of test results must so state.

• • • • • •

4. In § 78.6–10 amend Note 1 to paragraph (b) (2) (18 F. R. 5274, Sept. 1, 1953) to read as follows:

§ 78.6 *Specification 1EX; glass carboys in plywood drums.*

§ 78.6–10 *Tests.* • • •
(b) • • •
(2) • • •

NOTE 1: In instances where 99 or less carboys are in service during either 6-month period of the year it shall be acceptable to test 10 percent of the total but not less than 3 carboys on both the side and bottom swing. If this provision is used, the report of test results must so state.

• • • • • •

5. In § 78.7–8 amend Note 1 to paragraph (b) (2) (18 F. R. 5274, Sept. 1, 1953) to read as follows:

§ 78.7 *Specification 1E; glass carboys in plywood drums.*

§ 78.7–8 *Tests.* • • •
(b) • • •
(2) • • •

NOTE 1: In instances where 99 or less carboys are in service during either 6-month period of the year it shall be acceptable to test 10 percent of the total but not less than 3 carboys on both the side and bottom swing. If this provision is used, the report of test results must so state.

• • • • • •

SUBPART C—SPECIFICATIONS FOR CYLINDERS

1. In § 78.36–16 amend paragraph (c) (1) (15 F. R. 8382, Dec. 2, 1950) to read as follows:

§ 78.36 *Specification 3A; seamless steel cylinders.*

§ 78.36–16 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

2. In § 78.37–16 amend paragraph (c) (1) (15 F. R. 8385, Dec. 2, 1950) to read as follows:

§ 78.37 *Specification 3AA; seamless steel cylinders, made of definitely prescribed steels.*

§ 78.37–16 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

3. In § 78.38–16 amend paragraph (c) (1) (15 F. R. 8387, Dec. 2, 1950) to read as follows:

§ 78.38 *Specification 3B; seamless steel cylinders.*

§ 78.38–16 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

4. In § 78.39–16 amend paragraph (c) (1) (F. R. 8389, Dec. 2, 1950) to read as follows:

§ 78.39 *Specification 3BN; seamless nickel cylinders.*

§ 78.39–16 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

5. In § 78.40–16 amend paragraph (c) (1) (15 F. R. 8391, Dec. 2, 1950) to read as follows:

§ 78.40 *Specification 3C; seamless steel cylinders.*

§ 78.40–16 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

6. § 78.41–16 amend paragraph (c) (1) (15 F. R. 8394, Dec. 2, 1950) to read as follows:

§ 78.41 *Specification 3D; seamless steel cylinders.*

§ 78.41–16 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

7. In § 78.48–16 amend paragraph (c) (1) (15 F. R. 8397, Dec. 2, 1950) to read as follows:

§ 78.43 *Specification 3A480X; seamless steel cylinders.*

§ 78.43–16 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

8. In § 78.48–16 amend paragraph (c) (1) (15 F. R. 8399, Dec. 2, 1950) to read as follows:

§ 78.48 *Specification 4; forge welded steel cylinders.*

§ 78.48–16 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

9. In § 78.49–16 amend paragraph (c) (1) (15 F. R. 8402, Dec. 2, 1950) to read as follows:

§ 78.49 *Specification 4A; forge welded steel cylinders.*

§ 78.49–16 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

10. In § 78.50–16 amend paragraph (c) (1) (15 F. R. 8404, Dec. 2, 1950) to read as follows:

§ 78.50 *Specification 4B; welded and brazed steel cylinders.*

TABLE I—AUTHORIZED MATERIALS

Designation	Chemical analysis—limits in percent					
	1315[24]	HIS[24]	MAY[24]	NAX-1[24]	COR[24]	NAX-2[24]
Carbon	0.10/0.20	0.12 max	0.12 max	0.20 max	0.12 max	0.20 max.
Manganese	1.10/1.65	0.50/0.90	0.50/1.00	0.45/0.75	0.20/0.50	0.50/1.00.
Phosphorus	0.045 max	0.05/0.12	0.12 max	0.045 max	0.07/0.15	0.045 max.
Sulfur	0.05 max	0.05 max	0.05 max	0.05 max	0.09 max	0.045 max.
Silicon	0.15/0.35	0.15 max	0.10/0.50	0.50/0.90	0.25/0.75	0.50/0.90.
Chromium			0.40/1.00	0.45/0.70	0.50/1.25	
Molybdenum		0.08/0.18				
Zirconium				0.05/0.25		0.04/0.15.
Nickel		0.45/0.75	0.50/1.00		0.55 max	0.50/1.00.
Copper	0.40 max	0.95/1.30	0.20/0.50		0.25/0.55	0.25 max.
Aluminum		0.12/0.27				
Heat treatment authorized	(1)	(1)	(1)	(1)	(2)	(2)
Maximum stress	35,000	35,000	35,000	35,000	35,000	35,000.

Designation	SCX[24]	4017[24]	OTY[24][3]	RDT[24][3]	YOL[24][3]
Carbon	0.20 max	0.13/0.20	0.15 max	0.12 max	0.15 max.
Manganese	0.60/1.00	0.75/1.10	0.90/1.40	0.50/1.00	0.30/0.60.
Phosphorus	0.045 max	0.04 max	0.09/0.135	0.040 max	0.04 max.
Sulfur	0.045 max	0.04 max	0.04 max	0.050 max	0.05 max.
Silicon	0.15/0.30	0.25/0.35	0.10 max		
Chromium	0.15/0.50				
Molybdenum	0.15/0.35	0.25/0.35		0.10/0.20	
Zirconium					
Nickel				0.50/1.20	1.50/2.00.
Copper	0.20/0.50		0.30/0.70	0.50/1.00	0.75/1.25.
Aluminum					
Heat treatment authorized	(1)	(1)	(1)	(1)	(1)
Maximum stress	35,000	35,000	35,000	35,000	35,000.

No change in Notes.

• • • • • •

12. In § 78.52–16 amend paragraph (c) (1) (15 F. R. 8410, Dec. 2, 1950) to read as follows:

§ 78.52 *Specification 4C; welded and brazed steel cylinders.*

§ 78.52–16 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

13. In § 78.53–9 amend paragraph (b); in § 78.53–15 amend paragraph (e) (1) (15 F. R. 8412, 8413, Dec. 2, 1950) to read as follows:

§ 78.50–16 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

11. In § 78.51–15 amend paragraph (c) (1); in § 78.51–20 amend paragraph (a) and table I thereto (15 F. R. 8406, 8407, Dec. 2, 1950) (20 F. R. 954, Feb. 15, 1955) to read as follows:

§ 78.51 *Specification 4BA; welded or brazed steel cylinders made of definitely prescribed steels.*

§ 78.51–15 *Physical test.* • • •
(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • • •

§ 78.51–20 *Authorized steel.* (a) Open hearth or electric steel of uniform quantity. The following chemical analyses are authorized. (See footnote 1):

§ 78.53 *Specification 4D; inside containers, welded steel for aircraft use.*

§ 78.53–9 *Wall thickness.* • • •

(b) Calculation for a sphere must be made by the formula:

$$S = \frac{PD}{4tE}$$

where

S = wall stress in pounds per square inch;
P = test pressure prescribed for water jacket test, i. e., at least two times service pressure, in pounds per square inch;
D = outside diameter in inches;
t = minimum wall thickness in inches;
E = 0.85 (provides 85 percent weld efficiency factor which must be applied in the girth weld area and heat affected zones which zone shall extend a distance of 6 times wall thickness from center line of weld);
E = 1.0 (for all other areas).

• • • • • •

§ 78.53–15 *Physical test and specimens for spheres and cylinders.* • • •

(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • •

14. In § 78.54–15 amend paragraph (c) (1) (15 F. R. 8415, Dec. 2, 1950) to read as follows:

§ 78.54 *Specification 4B240–FLW; welded or welded and brazed cylinders with fusion-welded longitudinal seam.*

§ 78.54–15 *Physical test.* • • •

(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • •

15. In § 78.55–14 amend entire paragraph (d); in § 78.55–16 amend paragraph (c) (1) (15 F. R. 8418, Dec. 2, 1950) to read as follows:

§ 78.55 *Specification 4B240ET; welded and brazed cylinders made from electric resistance welded tubing.*

§ 78.55–14 *Hydrostatic test.* • • •

(d) Cylinders must be tested as follows:

(1) At least one cylinder selected at random out of each lot of 200 or less shall be tested as outlined in paragraphs (a), (b), and (c) of this section to at least two times service pressure.

(2) All cylinders not tested as outlined in subparagraph (1) of this paragraph must be examined under pressure of at least two times service pressure and show no defect.

• • • • •

§ 78.55–16 *Physical test.* • • •

(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • •

16. In § 78.56–15 amend paragraph (c) (1) (19 F. R. 1282, Mar. 6, 1954) to read as follows:

§ 78.56 *Specification 4AA480; welded steel cylinders made of definitely prescribed steels.*

§ 78.56–15 *Physical test.* • • •

(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • •

17. In § 78.58–18 amend paragraph (e) (1) (21 F. R. 7609, Oct. 4, 1956) to read as follows:

§ 78.58 *Specification 4DA; inside containers, welded steel for aircraft use.*

§ 78.58–18 *Physical test and specimens for spheres and cylinders.* • • •

(e) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extention under load" method as prescribed in ASTM Standard E8–54T.

• • • • •

18. In § 78.59–14 amend paragraph (c) (1) (15 F. R. 8420, Dec. 2, 1950) to read as follows:

§ 78.59 *Specification 8; steel cylinders with approved porous filling for acetylene.*

§ 78.59–14 *Physical test.* • • •

(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • •

19. In § 78.60–16 amend paragraph (c) (1) (15 F. R. 8423, Dec. 2, 1950) to read as follows:

§ 78.60 *Specification 8AL; steel cylinders with approved porous filling for acetylene.*

§ 78.60–16 *Physical test.* • • •

(c) • • •

(1) The yield strength shall be determined by either the "offset" method or the "extension under load" method as prescribed in ASTM Standard E8–54T.

• • • • •

20. §§ 78.68 to 78.68–20 to read as follows:

§ 78.68 *Specification 4E; welded aluminum cylinders.*

§ 78.68–1 *Compliance.* (a) Required in all details.

§ 78.68–2 *Type, size and service pressure*—(a) *Type and size.* Must be welded seamless drawn shells, not more than two shells, with center circumferential weld; not over 1,000 pounds water capacity (nominal); longitudinal welded seam not authorized. Cylinders or shells closed in by spinning process not authorized.

(b) *Service pressure.*[1] At least 225 to not over 500 pounds per square inch.

§ 78.68–3 *Inspection by whom and where.* (a) By competent inspector; chemical analyses and tests as specified to be made within limits of the United States. Interested inspectors are authorized.

§ 78.68–4 *Duties of inspector.* (a) Inspect all material and reject any material not complying with requirements.

(b) Verify chemical analysis of each lot of material by analysis or by obtaining certified analysis: *Provided,* That a certificate from the manufacturer thereof, giving sufficient data to indicate compliance with requirements, is acceptable when verified by check analysis of samples taken from one aluminum cylinder out of each lot of 200 or less.

(c) Verify compliance of cylinders with all requirements including markings; inspect inside before closing in both ends; verify properties as proper; obtain samples for all tests and check chemical analysis; witness all tests; verify threads by gauge; report volumetric capacity, tare weight (see report form) and wall thickness as approved.

(d) Render complete report (§ 78.68–20) to purchaser; cylinder manufacturer; and the Bureau of Explosives.

§ 78.68–5 *Aluminum.* (a) Shall be of uniform quality. The following chemical analyses are authorized:

TABLE I—AUTHORIZED MATERIALS

Designation	Chemical analysis—limits in percent 5154 [1]
Iron plus silicon	0.45 maximum.
Copper	0.10 maximum.
Manganese	0.10 maximum.
Magnesium	3.1/3.9.
Chromium	0.15/0.35.
Zinc	0.20 maximum.
Titanium	0.20 maximum.
Others, each	0.05 maximum.
Others, total	0.15 maximum.
Aluminum	Remainder.

[1] Analysis shall regularly be made only for the elements specifically mentioned above. If, however, the presence of other elements is indicated in the course of routine analysis, further analysis should be made to determine conformance with the limits specified for other elements.

§ 78.68–6 *Identification of material.* (a) Required; any suitable method that will identify the alloy and manufacturer's lot number.

§ 78.68–7 *Defects.* (a) Material with seams, cracks, laminations or other injurious defects not authorized.

§ 78.68–8 *Manufacture.* (a) By best processes and methods; dirt and foreign particles to be removed as necessary to afford proper inspection; no defect acceptable that is likely to weaken the finished cylinder appreciably; reasonably smooth and uniform surface finish required; all welding must be by the gas shielded arc process.

§ 78.68–9 *Welding.* (a) The attachment to the tops and bottoms only of cylinders by welding of neckrings or flanges, footrings, handles, bosses and pads and valve protection rings is authorized: *Provided,* That such attachments and the portion of the cylinder to which it is attached are made of weldable aluminum alloys.

§ 78.68–10 *Wall thickness.* (a) The minimum wall thickness of the cylinder shall be 0.140 inch. In any case, the minimum wall thickness shall be such that calculated wall stress at twice service pressure shall not exceed the lesser value of either of the following:

(1) 20,000 pounds per square inch.

(2) One-half of the minimum tensile strength of the material as required in § 78.68–15.

(b) Calculation must be made by the formula:

$$S=\frac{P(1.3D^2+0.4d^2)}{D^2-d^2}$$

where

S = wall stress in pounds per square inch;
P = minimum test pressure prescribed for water jacket test;
D = outside diameter in inches;
d = inside diameter in inches.

(c) Minimum thickness of heads and bottoms shall not be less than the minimum required thickness of the side wall.

§ 78.68–11 *Opening in cylinder.* (a) All openings must be in the heads or bases.

(b) Each opening in cylinders, except those for safety devices, must be provided with a fitting, boss, or pad, securely attached to cylinder by welding by inert gas shielded arc process or by threads. If threads are used, they must comply with the following:

(1) Threads must be clean-cut, even, without checks and cut to gauge.

(2) Taper threads to be of length not less than as specified for American Standard taper pipe threads.

(3) Straight threads, having at least 4 engaged threads, to have tight fit and calculated shear strength at least 10 times the test pressure of the cylinder; gaskets required, adequate to prevent leakage.

(c) Closure of fitting, boss, or pad must be adequate to prevent leakage.

§ 78.68–12 *Safety devices and protection for valves, safety devices, and other connections if applied.* (a) Must be as required by the Interstate Commerce Commission regulations that apply (See §§ 73.34 (f), 73.124 (a), and 73.301 (f) of this chapter).

§ 78.68–13 *Hydrostatic test.* (a) Each cylinder by water-jacket, or other suitable method, operated so as to obtain accurate data. Pressure gauge must permit reading to accuracy of .1 percent. Expansion gauge must permit reading of total expansion to accuracy either of 1 percent or 0.1 cubic centimeter.

(b) Pressure of 2 times service pressure must be maintained for 30 seconds and sufficiently longer to insure complete expansion. Any internal pressure applied previous to the official test must not exceed 90 percent of the test pressure. If, due to failure of the test apparatus, the test pressure cannot be maintained, the test may be repeated at a pressure increased to 10 percent.

(c) Permanent volumetric expansion must not exceed 12 percent of total volumetric expansion at test pressure.

(d) One finished cylinder selected at random out of each lot of 1,000 shall be hydrostatically tested to destruction. Failure shall occur in the side wall and shall not occur at a pressure less than 4 times the service pressure. Inability to meet these requirements shall result in rejection of the lot.

§ 78.68–14 *Flattening test.* (a) Flattening test required between knife edges, wedge shaped, 60° angle, rounded to ½ inch radius; on one section of a cylinder taken at random out of each lot of 200 or less, after hydrostatic test. Sample must show no evidence of cracking when flattened to 6 times wall thickness.

§ 78.68–15 *Physical test.* (a) To determine yield strength, tensile strength, elongation, and reduction of area of material. Required on 2 specimens cut from one cylinder or part thereof taken at random out of each lot of 200 or less.

(b) Specimens must be: Gauge length 8 inches with width not over 1½ inches; or gauge length 2 inches with width not over 1½ inches. The specimen, exclusive of grip ends, must not be flattened. Grip ends may be flattened to within 1 inch of each end of the reduced section. When size of cylinder does not permit securing straight specimens, the specimens may be taken in any location or direction and may be straightened or flattened cold, by pressure only, not by blows; when specimens are so taken and prepared, the inspector's report must show in connection with record of physical test detailed information in regard to such specimens. Heating of specimen for any purpose is not authorized.

(c) The yield strength in tension shall be the stress corresponding to a permanent strain of 0.2 percent of the gauge length.

(1) The yield strength shall be determined by the "offset" method as prescribed in ASTM Standard E8–54T.

(2) Cross-head speed of the testing machine shall not exceed ⅛ inch per minute during yield strength determination.

§ 78.68–16 *Acceptable results for physical tests.* (a) Elongation at least 7 percent for 2 inch gauge length; yield strength not over 80 percent of tensile strength.

§ 78.68–17 *Weld tests.* (a) Reduced section tensile test. A specimen shall be cut from the cylinder used for the physical tests specified in § 78.68–15. Specimen shall be taken across the seam, edges shall be parallel for a distance of approximately 2 inches on either side of the weld. The specimen must be fractured in tension. The apparent breaking stress calculated on the minimum wall thickness must be at least equal to 2 times the stress calculated under § 78.68–10 (b), and in addition must have an actual breaking stress of at least 30,000 pounds per square inch. Should this specimen fail to meet the requirements, specimens may be taken from 2 additional cylinders from the same lot and tested. If either of the latter specimens fails to meet requirements, the entire lot represented shall be rejected.

(b) Guided bend test. A bend test specimen shall be cut from the cylinder used for the physical tests specified in § 78.68–15. Specimen shall be taken across the seam, shall be 1½ inches wide, edges shall be parallel and rounded with a file, and back-up strip, if used, shall be removed by machining. The specimen shall be bent to refusal in the guided bend test jig illustrated in § 78.51–22. The root of the weld (inside surface of the cylinder) shall be located away from the ram of the jig. No specimen shall show a crack or other open defect exceeding ⅛ inch in any direction upon completion of the test. Should this specimen fail to meet the requirements, specimens may be taken from each of 2 additional cylinders from the same lot and tested. If either of the latter specimens fails to meet requirements, the entire lot represented shall be rejected.

§ 78.68–18 *Rejected cylinders.* (a) Repair of welded seams is authorized. Acceptable cylinders must pass all prescribed tests.

§ 78.68–19 *Marking.* (a) Marking on each cylinder by stamping plainly and permanently on shoulder, top head, neck or valve protection collar which may be permanently attached to the cylinder and forming an integral part thereof, as follows:

(1) ICC–4E followed by the service pressure (for example, ICC–4E240).

(2) A serial number and an identifying symbol (letters); location of symbol to be just below the serial number. The symbol and numbers must be those of the purchaser, user, or maker. The symbol must be registered with the Bureau of Explosives.

(3) Inspector's official mark, near serial number; date of test (such as 5–50 for May 1950), so placed that date of subsequent test can be easily added.

(4) Size of marks. Shall be at least ¼ inch high.

§ 78.68–20 *Inspector's report.* (a) Required to be clear, legible, and in following form:

(Place) _____
(Date) _____

Gas cylinders

Manufactured for _____ Company
Location at _____
Manufactured by _____ Company
Location at _____
Consigned to _____ Company
Location at _____
Quantity _____
Size ____ inches outside diameter by ____ inches long
Marks stamped into the shoulder of the cylinder are:
Specification ICC _____
Serial numbers _____ to _____ inclusive.
Inspector's mark _____
Identifying symbol (registered) _____
Test date _____
Tare weights (yes or no) _____
Other marks (if any) _____
These cylinders were made by process of _____
_____
The _____ permitted in
(neckrings, footrings, etc.)
§ 78.68–9 were attached by process of _____
_____
The material used was identified by the following _____
numbers _____
The material used was verified as to chemical analysis and record thereof is attached hereto.
All material, such as aluminum plate, was inspected before manufacture and the drawn cylinder shells were inspected before final fabrication and found free from seams, cracks, laminations and other defects which might prove injurious to the strength of the cylinder; the processes of manufacture were found to be efficient and satisfactory.
The cylinder walls were measured and the minimum thickness noted was _____ inch. The outside diameter was determined by a close approximation to be _____ inches. The wall stress was calculated to be _____ pounds per square inch under an internal pressure of _____ pounds per square inch.
Hydrostatic tests, flattening tests, tensile tests of material and other tests as prescribed in Specification ICC–4E were made in the presence of the inspector and all material and cylinders accepted were found to be in

[1] The "service pressure" limits the use of the cylinder. It is shown by marks on cylinders; for example ICC–4E240 indicates the service pressure as 240 pounds per square inch.

compliance with the requirements of that specification. Records thereof are attached hereto.

I hereby certify that all of these cylinders proved satisfactory in every way and comply with the requirements of Interstate Commerce Commission specification No. 4E except as follows:

RECORD OF HYDROSTATIC TESTS ON CYLINDERS

Numbered _____ to _____ inclusive.
Size _____ inches outside diameter by _____ inches long
Made by _____ Company
For _____ Company

Serial numbers of cylinders tested arranged numerically	Actual test pressure (pounds per square inch)	Total expansion (cubic centimeters) [1]	Permanent expansion (cubic centimeters) [1]	Percent ratio of permanent expansion to total expansion [1]	Tare weight (pounds) [2]	Volumetric capacity [3]

NOTE: When specifications require test for only 1 out of each lot of 200 or less cylinders, the check on the others must be indicated by a notation hereon reading, "Each cylinder was subjected to a pressure of _____ pounds per square inch and showed no defect."

[1] If the tests are made by a method involving the measurement of the amount of liquid forced into the cylinder by the test pressure, then the basic data, on which the calculations are made, such as the pump factors, temperature of liquid, coefficient of compressibility of liquid, etc., must also be given.

[2] Do not include removable cap but state whether with or without valve. These weights must be accurate to a tolerance of 1 percent.

[3] Report approximate maximum and minimum volumetric capacity for the lot.

SUBPART D—SPECIFICATIONS FOR METAL BARRELS, DRUMS, KEGS, CASES, TRUNKS AND BOXES

1. Cancel entire § 78.80–4; in § 78.80–7 paragraph (a) table, amend the 3d column heading; add paragraph (b) to § 78.80–7 (15 F. R. 8432, Dec. 2, 1950) to read as follows:

§ 78.80 Specification 5; steel barrels or drums.

§ 78.80–4 [Canceled]

§ 78.80–7 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
13	0.0897	0.0817
14	.0747	.0677
16	.0598	.0533
18	.0478	.0428
20	.0359	.0324
22	.0299	.0269
24	.0239	.0209

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

2. Cancel entire § 78.81–4; in § 78.81–7 paragraph (a) table, amend the 3d column heading; add paragraph (b) to § 78.81–7 (15 F. R. 8433, Dec. 2, 1950) to read as follows:

§ 78.81 Specification 5A; steel barrels or drums.

§ 78.81–4 [Canceled]

§ 78.81–7 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
12	0.1046	0.0946
13	.0897	.0817
14	.0747	.0677
16	.0598	.0533

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

3. Cancel entire § 78.82–4; in § 78.82–7 paragraph (a) table, amend the 3d column heading; add paragraph (b) to § 78.82–7 (15 F. R. 8434, Dec. 2, 1950) to read as follows:

§ 78.82 Specification 5B; steel barrels or drums.

§ 78.82–4 [Canceled]

§ 78.82–7 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
13	0.0897	0.0817
14	.0747	.0677
16	.0598	.0533
18	.0478	.0428
20	.0359	.0324
22	.0299	.0269
24	.0239	.0209

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

4. Cancel entire § 78.83–4; in § 78.83–7 paragraph (a) table, amend the 3d column heading; add paragraph (b) to

§ 78.83–7 (15 F. R. 8435, Dec. 2, 1950) (18 F. R. 5274, Sept. 1, 1953) to read as follows:

§ 78.83 Specification 5C; steel barrels or drums.

§ 78.83–4 [Canceled]

§ 78.83–7 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
13	0.0897	0.0817
14	.0747	.0677
16	.0598	.0533
18	.0478	.0428
20	.0359	.0324

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

5. Cancel entire § 78.84–4; in § 78.84–7 paragraph (a) table, amend the 3d column heading; add paragraph (b) to § 78.84–7 (15 F. R. 8436, Dec. 2, 1950) to read as follows:

§ 78–84 Specification 5D; steel barrels or drums, lined.

§ 78.84–4 [Canceled]

§ 78.84–7 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
12	0.1046	0.0946
13	.0897	.0817
14	.0747	.0677
16	.0598	.0533

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

6. Cancel entire § 78.85–4; in § 78.85–7 amend paragraph (a) (15 F. R. 8436, 8437, Dec. 2, 1950) to read as follows:

§ 78.85 Specification 5F; steel drums.

§ 78.85–4 [Canceled]

§ 78.85–7 *Gauge and thickness of sheets.* (a) Body and heads shall be of uncoated steel sheets having nominal thickness of 0.0747 inch and minimum thickness of 0.0677 inch, which sheets shall be designated 14 gauge.

7. Cancel entire § 78.87–4; in § 78.87–7 paragraph (a) table, amend the 3d column heading; in § 78.87–7 amend paragraph (b), and add paragraph (c) (15 F. R. 8438, Dec. 2, 1950) to read as follows:

§ 78.87 Specification 5H; steel barrels or drums, lead lined.

§ 78.87–4 [Canceled]

§ 78.87–7 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
12	0.1046	0.0946
13	.0897	.0817
14	.0747	.0677
16	.0598	.0533

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

(c) Lining required: Of lead, at least 3/32" thick, completely bonded to the steel.

8. Cancel entire § 78.89–4; in § 78.89–6 paragraph (a) table, amend the 3d column heading; add paragraph (b) to § 78.89–6 (15 F. R. 8440, Dec. 2, 1950) to read as follows:

§ 78.89 Specification 5L; steel barrels.

§ 78.89–4 [Canceled]

§ 78.89–6 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
12	0.1046	0.0946
13	.0897	.0817
14	.0747	.0677
16	.0598	.0533

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

(c) *Lining.* Required; of aluminum 99 percent pure; thickness 0.12"; all seams welded. It shall have reasonably good fit in outside drum and be arranged so that extensive movement therein will be prevented.

10. Cancel entire § 78.92–4; amend entire § 78.92–6 (15 F. R. 8442, Dec. 2, 1950) to read as follows:

§ 78.92 Specification 5P; lagged steel drums.

§ 78.92–4 [Canceled]

§ 78.92–6 *Parts and dimensions.* (a) Parts and dimensions as follows:

(1) Steel sheets used for body and head sheets for inside drum must have nominal thickness of at least 0.0747 inch and minimum thickness of 0.0677 inch, uncoated sheets, which shall be designated 14 gauge.

(2) Steel sheets used for body sheets for outside shell must have nominal thickness of at least 0.1046 inch and minimum thickness of 0.0946 inch, uncoated sheets, which shall be designated 12 gauge.

(3) Steel sheets used for head sheets for outside shell must have nominal thickness of at least 0.0747 inch and minimum thickness of 0.0677 inch, uncoated sheets, which shall be designated 12 gauge.

11. Cancel entire § 78.97–4; in § 78.97–5 paragraph (a) table, amend the 4th column heading; add paragraph (b) to § 78.97–5 (15 F. R. 8442, Dec. 2, 1950) to read as follows:

§ 78.97 Specification 6A; steel barrels or drums.

§ 78.97–4 [Canceled]

§ 78.97–5 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
12	0.1046	0.0946
13	.0897	.0817
14	.0747	.0677
16	.0598	.0533

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

12. Cancel entire § 78.98–4; in § 78.98–5 paragraph (a) table, amend the 4th column heading; add paragraph (b) to

§ 78.98–5 (15 F. R. 8443, Dec. 2, 1950) to read as follows:

§ 78.98 *Specification 6B; steel barrels or drums.*

§ 78.98–4 [Canceled]

§ 78.98–5 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
12	0.1046	0.0946
13	.0897	.0817
14	.0747	.0677
15	.0673	.0603
16	.0598	.0533
18	.0478	.0428

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

13. Cancel entire § 78.99–4; in § 78.99–5 paragraph (a) table, amend the 4th column heading; add paragraph (b) to § 78.99–5 (15 F. R. 8444, Dec. 2, 1950) to read as follows:

§ 78.99 *Specification 6C; steel barrels or drums.*

§ 78.99–4 [Canceled]

§ 78.99–5 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
14	0.0747	0.0677
15	.0673	.0603
16	.0598	.0533
18	.0478	.0428
20	.0359	.0324
22	.0299	.0269

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

14. Cancel entire § 78.100–4; in § 78.100–5 paragraph (a) table, amend the 4th column heading; add paragraph (b) to § 78.100–5 (15 F. R. 8444, 8445, Dec. 2, 1950) to read as follows:

§ 78.100 *Specification 6J; steel barrels and drums.*

§ 78.100–4 [Canceled]

§ 78.100–5 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
15	0.0673	0.0603
16	.0598	.0533
18	.0478	.0428
19	.0418	.0378

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

Marked capacity not over (gallons)	Authorized gross weight (pounds)	Type of container	Minimum thickness, uncoated sheets (gauge)		Rolling hoops		
			Body sheet	Head sheet	Type	Minimum	
						Size (gauge or inch)	Weight (pounds per foot)
55	480	Straight side	18	18	I-bar [1]	¾ x 1¾	1.35

[1] Rolled or swedged-in hoops permitted.

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
18	0.0478	0.0428

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

16. Cancel entire § 78.115–4; in § 78.115–3 paragraph (a) table, amend the 3d column heading; add paragraph (b) to § 78.115–6 (15 F. R. 8447, Dec. 2, 1950) (19 F. R. 6274, Sept. 29, 1954) to read as follows:

§ 78.115 *Specification 17C; steel drums.*

§ 78.115–4 [Canceled]

§ 78.115–6 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
16	0.0598	0.0533
18	.0478	.0428
20	.0359	.0324
24	.0239	.0209

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

17. Cancel entire § 78.116–4; in § 78.116–6 paragraph (a) table, amend the 3d column heading; add paragraph (b) to § 78.116–6 (15 F. R. 8448, Dec. 2, 1950) to read as follows:

§ 78.116 *Specification 17E; steel drums.*

15. Cancel entire § 78.101–4; in § 78.101–5 amend the entire table in paragraph (a); add paragraph (b) to § 78.101–5 (15 F. R. 8445, Dec. 2, 1950) (21 F. R. 675, Jan. 31, 1956) to read as follows:

§ 78.101 *Specification 6K; steel barrels or drums.*

§ 78.101–4 [Canceled]

§ 78.101–5 *Parts and dimensions.* (a) • • •

§ 78.116–4 [Canceled]

§ 78.116–6 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
18	0.0478	0.0428
19	.0418	.0378
20	.0359	.0324
22	.0299	.0269
24	.0239	.0209

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

18. Cancel entire § 78.117–4; in § 78.117–6 amend paragraph (a); in § 78.117–7 paragraph (a) table, amend the 3d column heading; add paragraph (b) to § 78.117–7 (15 F. R. 8449, Dec. 2, 1950) (21 F. R. 7610, Oct. 4, 1956) to read as follows:

§ 78.117 *Specification 17F; steel drums.*

§ 78.117–4 [Canceled]

§ 78.117–6 *Chime reinforcement.* (a) Chime reinforcement required to be not less than 12 gauge (see § 78.117–7 (b)).

§ 78.117–7 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
12	0.1046	0.0946
16	.0598	.0533

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

19. Cancel entire § 78.118–4; in § 78.118–6 paragraph (a) table, amend the 3d column heading; add paragraph (b) to § 78.118–6 (15 F. R. 8450, Dec. 2, 1950) to read as follows:

§ 78.118 *Specification 17H; steel drums.*

§ 78.118–4 [Canceled]

§ 78.118–6 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)		
Body sheet	Head sheet	Removable head sheet

• • • • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
14	0.0747	0.0677
16	.0598	.0533
18	.0478	.0428
20	.0359	.0324
24	.0239	.0209

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

20. Cancel entire § 78.119–4; in § 78.119–6 amend paragraph (a) and table (15 F. R. 8450, 8451, Dec. 2, 1950) to read as follows:

§ 78.119 *Specification 17X; steel barrels or drums.*

§ 78.119–4 [Canceled]

§ 78.119–6 *Parts and dimensions.* (a) Parts and dimensions as follows:

Marked capacity not over (gallons)	30	55.
Type of container	Straight side	Straight side.
Minimum thickness, uncoated sheets [1]	Body sheet: 19 [2]	Body sheet: 18 [3].
Gauge	Head sheet: 19 [2]	Head sheet: 18 [3].
Type of rolling hoops	Rolled or swedged in hoops	Rolled or swedged in hoops.

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.
[2] 19 gauge steel shall have nominal thickness of 0.0418 inch and minimum thickness of 0.0378 inch.
[3] 18 gauge steel shall have nominal thickness of 0.0478 inch and minimum thickness of 0.0428 inch.

21. Cancel entire § 78.130–4; in § 78.130–5 paragraph (a) table, amend the 5th column heading; add paragraph (b) to § 78.130–5 (15 F. R. 8454, Dec. 2, 1950) (17 F. R. 4298, May 10, 1952) to read as follows:

§ 78.130 *Specification 37K; steel drums.*

§ 78.130–4 [Canceled]

§ 78.130–5 *Parts and dimensions.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet	Head sheet

• • • • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
22	0.0299	0.0269

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

22. Cancel entire § 78.131–4; in § 78.131–6 paragraph (a) table, amend the 4th column heading; add paragraph (b) to § 78.131–6 (20 F. R. 4419, June 23, 1955) (21 F. R. 9363, Nov. 30, 1956) to read as follows:

§ 78.131 *Specification 37A; steel drums.*

§ 78.131–4 [Canceled]

§ 78.131–6 *Capacities, weights, type, and gauges.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet [2]	Head sheet

• • • • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
22	0.0299	0.0269
24	.0239	.0209
26	.0179	.0159

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

23. Cancel entire § 78.132–4; in § 78.132–6 paragraph (a) table, amend the 4th column heading; add paragraph (b) to § 78.132–6 (20 F. R. 4420, June 23, 1955) to read as follows:

§ 78.132 *Specification 37B; steel drums.*

§ 78.132–4 [Canceled]

§ 78.132–6 *Capacities, weights, type, and gauges.* (a) • • •

Minimum thickness, uncoated sheets (gauge)	
Body sheet [1]	Head sheet

• • • • • • •

(b) Steel sheets of specified gauges shall comply with the following:

Gauge No.	Nominal thickness [1] (inch)	Minimum thickness [1] (inch)
22	0.0299	0.0269
24	.0239	.0209
26	.0179	.0159
28	.0149	.0129

[1] Thickness shall be measured at any point on the sheet not less than ⅜ inch from an edge.

SUBPART E—SPECIFICATIONS FOR WOODEN BARRELS, KEGS, BOXES, KITS, AND DRUMS

In § 78.168–3 amend paragraph (a) (15 F. R. 8460, Dec. 2, 1950) to read as follows:

§ 78.168 *Specification 15A; wooden boxes, nailed.*

§ 78.168–3 *Ends.* (a) One-piece, or equivalent (see § 78.168–5), or cleated as prescribed; joints tongued, grooved, and glued. Style 1 or style 6 boxes may have milled depressions in each end of box for hand-holds, of not more than ⅜ inch in depth and not exceeding one-third of the width of the box, only when ends are of lumber at least ¾ inch in thickness.

SUBPART F—SPECIFICATIONS FOR FIBERBOARD BOXES, DRUMS, AND MAILING TUBES

1. § 78.206–7 add paragraph (b); in § 78.206–17 amend the introductory text of paragraph (a), and add paragraph (a) (3) (15 F. R. 8477, Dec. 2, 1950) (18 F. R. 5277, Sept. 1, 1953) to read as follows:

§ 78.206 *Specification 12C; fiberboard boxes.*

§ 78.206–7 *Tape.* • • •

(b) Tape for closure of slotted containers complying with the following requirements is authorized when applied as prescribed in § 78.206–17 (a) (3):

(1) Tape must be not less than 3 inches wide and shall be made of two sheets of 100 percent sulfate Kraft each not less than 30 pounds basis weight, reinforced with glass, sisal, or rayon fiber, combined with a laminant of asphalt or other material not affected by temperature extremes any more than would standard 180° to 200° softening point asphalt.

(2) Tape must be reinforced by lengthwise fibers spaced not more than an average of ½ inch apart, and by crosswise fibers spaced not less than an average of 2 per inch except that when a diamond pattern is employed for crosswise reinforcement, the spacing between the parallel sides of the diamond measured in the machine direction must be not more than 1 inch.

(3) Glass or sisal reinforced tape must have a minimum tensile strength in the machine direction of 75 pounds per inch of width and a minimum tensile strength in the cross direction of 45 pounds per inch of width; rayon reinforced tape must have a minimum tensile strength in the machine direction of 57 pounds per inch of width and a minimum tensile strength in the cross direction of 27

pounds per inch of width with elongation not exceeding 15 percent. Tensile tests on the finished product shall be made on a 3-inch width sample.

§ 78.206–17 *Closing for shipment.* (a) Slotted container, by coating with adhesive the entire contact surfaces of closing flaps and fill-in pieces, or as prescribed in subparagraph (1), (2), or (3) of this paragraph.

• • • • •

(3) For slotted containers only, reinforced tape complying with the requirements of § 78.206–7 (b) is authorized for application over the center seam only. Tape must extend over the ends of box not less than 2½ inches.

• • • • •

2. In § 78.207–6 add paragraph (b); in § 78.207–17 amend the introductory text of paragraph (a), and add paragraph (a) (3) (15 F. R. 8478, Dec. 2, 1950) (18 F. R. 5277, Sept. 1, 1953) to read as follows:

§ 78.207 *Specifications 12D; fiberboard boxes.*

§ 78.207–6 *Tape.* • • •

(b) Tape for closure of slotted containers complying with the following requirements is authorized when applied as prescribed in § 78.207–17 (a) (3):

(1) Tape must be not less than 3 inches wide and shall be made of two sheets of 100 percent sulfate Kraft each not less than 30 pounds basis weight, reinforced with glass, sisal, or rayon fiber, combined with a laminant of asphalt or other material not affected by temperature extremes any more than would standard 180° to 200° softening point asphalt.

(2) Tape must be reinforced by lengthwise fibers spaced not more than an average of ½ inch apart, and by crosswise fibers spaced not less than an average of 2 per inch except that when a diamond pattern is employed for crosswise reinforcement, the spacing between the parallel sides of the diamond measured in the machine direction must be not more than 1 inch.

(3) Glass or sisal reinforced tape must have a minimum tensile strength in the machine direction of 75 pounds per inch of width and a minimum tensile strength in the cross direction of 45 pounds per inch of width; rayon reinforced tape must have a minimum tensile strength in the machine direction of 57 pounds per inch of width and a minimum tensile strength in the cross direction of 27 pounds per inch of width with elongation not exceeding 15 percent. Tensile tests on the finished product shall be made on a 3-inch width sample.

§ 78.207–17 *Closing for shipment.* (a) Slotted container, by coating with adhesive the entire contact surfaces of closing flaps and fill-in pieces, or as prescribed in subparagraphs (1), (2), or (3) of this paragraph.

• • • • •

(3) For slotted containers only, reinforced tape complying with the requirements of § 78.207–6 (b) is authorized for application over the center seam only. Tape must extend over the ends of box not less than 2½ inches.

• • • • •

SUBPART I—SPECIFICATIONS FOR TANK CARS

1. Amend the heading of § 78.283–8 (21 F. R. 4593, June 26, 1956) to read as follows:

§ 78.283 *Specification ICC–103C–W; fusion-welded alloy steel tanks to be mounted on or forming part of a car.*

§ 78.283–8 *Manway flange, safety valve flange, and sump flange or other attachments.* • • •

2. In § 78.288–13 amend paragraph (c) (21 F. R. 4603, June 26, 1956) to read as follows:

§ 78.288 *Specification ICC–105A–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.*

§ 78.288–13 *Safety valves.* • • •

(c) Tanks for use in the transportation of liquefied carbon dioxide must be equipped with one safety valve of approved design set to open at a pressure not exceeding 375 pounds per square inch and one frangible disc device of approved design set to function at a pressure less than the test pressure of the tank. The discharge capacity of each of these safety devices must be sufficient to prevent building up of pressure in tank in excess of 375 pounds per square inch. Tanks must also be equipped with two pressure-regulating valves of approved design, set to open at a pressure not to exceed 350 p. s. i. or seven-tenths of the test pressure of the tank. Each regulating valve and safety device must have its final discharge piped to the outside of the protective housing.

3. In § 78.289–13 amend paragraph (c) (21 F. R. 4605, June 26, 1956) to read as follows:

§ 78.289 *Specification ICC–105A600–W; lagged fusion-welded steel tanks to be mounted on or forming part of a car.*

§ 78.289–13 *Safety valves.* • • •

(c) Tanks for use in the transportation of liquefied carbon dioxide must be equipped with one safety valve of approved design set to open at a pressure not exceeding 450 pounds per square inch and one frangible disc device of approved design set to function at a pressure less than the test pressure of the tank. The discharge capacity of each of these safety devices must be sufficient to prevent building up of pressure in tank in excess of 450 pounds per square inch. Tanks must also be equipped with two pressure-regulating valves of approved design, set to open at a pressure not to exceed 350 p. s. i. or seven-tenths of the test pressure of the tank. Each regulating valve and safety device must have its final discharge piped to the outside of the protective housing.

4. Add §§ 78.302 to 78.302–20 to read as follows:

§ 78.302 *Specification ICC–109A100–AL–W; fusion-welded aluminum tanks to be mounted on or forming part of a car.* (a) Wherever the word "approved" is used in this specification it means approval by the Association of American Railroads Committee on Tank Cars as prescribed in § 78.259 (a), (b), (c) and (d).

§ 78.302–1 *Type.* (a) Tanks built under this specification must be cylindrical with heads designed convex outward. The tank must be provided with a manway nozzle and cover on top of the tank of sufficient diameter to permit access to the interior of the tank and to provide for the proper mounting of venting, loading, unloading, sampling and safety valves, gauging device, thermometer well and a protective housing on the cover.

§ 78.302–2 *Lagging.* (a) Not a specification requirement. If applied, the tank shell and manway nozzle must be lagged with an approved insulation material. The entire insulation must be covered with a metal jacket not less than ⅛ inch in thickness and efficiently flashed around all openings so as to be weather tight.

(b) Before lagging is applied, the tank surface and the inside surface of the metal jacket shall be given a protective coating.

§ 78.302–3 *Bursting pressure.* (a) The calculated bursting pressure, based on the lowest tensile strength of the plate and the efficiency of the longitudinal welded joint, must be at least 495 pounds per square inch.

§ 78.302–4 *Thickness of plates.* (a) The wall thickness in the cylindrical portion of the tank must be calculated by the following formula:

where

$$t = \frac{Pd}{2SE}$$

t = thickness in inches of thinnest plate;
P = calculated bursting pressure pounds per square inch;
d = inside diameter in inches;
S = minimum ultimate tensile strength in pounds per square inch as follows:
ASTM B–178 Alloy 996A = 9,500 psi.
ASTM B–178 Alloy 990A = 11,000 psi.
ASTM B–178 Alloy M1A = 14,000 psi.
ASTM B–178 Alloy GR20A = 25,000 psi.
ASTM B–178 Alloy GS11A = 24,000 psi.
ASTM B–178 Alloy GR40A = 30,000 psi.
E = efficiency of longitudinal welded joint = 90 percent.

(b) The minimum width of bottom sheet of tank must be 60 inches measured on the arc, but in all cases the width must be sufficient to bring the entire width of the longitudinal welded joint, including welds, above the cradle.

(c) The thickness of an ellipsoidal head (see § 78.302–7 (b)) shall be determined by the following formula:

$$t = \frac{Pd}{2SE}$$

where

t = thickness of plate in inches;
P = calculated bursting pressure, pounds per square inch;
d = inside diameter in inches;
S = minimum ultimate tensile strength in pounds per square inch (see paragraph (a) of this section);
E = efficiency of welded joint to shell = 100 percent.

(d) Minimum thickness of plates and heads shall not be less than ⅜ inch.

§ 78.302–5 *Manway nozzle opening.* (a) Opening in tank for manway nozzle must be reinforced in an approved manner.

§ 78.302–6 *Material.* (a) All plates for tank and manway nozzle must be made of an aluminum alloy to an approved specification and be suitable for fusion-welding and not subject to rapid deterioration by the lading.

(b) Aluminum alloy castings used for fittings or attachment to tank must be made of material to an approved specification.

(c) All external projections which may be in contact with the lading must be made of material specified herein.

§ 78.302–7 *Tank heads.* (a) Tank heads must be of approved contour and must be ellipsoidal for pressure on the concave side.

(b) Ellipsoidal tank head shall be an ellipsoid of revolution in which the major axis shall equal the diameter of the shell and the minor axis shall be ½ of the major axis.

§ 78.302–8 *Welding.* (a) All joints must be fusion-welded by a process which investigation and laboratory tests by the Mechanical Division of the Association of American Railroads have proved will produce satisfactory results. Fusion-welding to be performed by fabricators certified by Association of American Railroads as qualified to meet the requirements of this specification. All joints must be fabricated by means of fusion-welding in accordance with the requirements of A. A. R. Welding Code Appendix W.

§ 78.302–9 *Stress relieving.* (a) Not a specification requirement.

§ 78.302–10 *Tank mounting.* (a) The manner in which the tank is supported on and securely attached to the car structure must be approved.

(b) The use of rivets as a means of securing anchor to the tank is prohibited.

§ 78.302–11 *Manway nozzle, cover and protective housing.* (a) Manway nozzle must be of cast, forged or fabricated aluminum alloy at least 18 inches inside diameter. Manway nozzle must be of an approved design and attached to tank by fusion-welding. Fusion-welding for securing this attachment in place must be of the double welded butt joint type or double full-fillet lap joint type.

(b) Manway cover must be of forged or rolled aluminum alloy at least 2½ inches thick, or other approved material at least 2¼ inches thick, machined to approved dimensions. Manway cover must be attached to nozzle by through bolts not entering tank.

(c) The shearing value of the bolts attaching protective housing to manway cover must not exceed 70 percent of shearing value of bolts attaching manway cover to manway nozzle.

(d) All joints between manway cover and manway nozzle, and between manway cover and valves or other appurtenances mounted thereon, must be made tight against vapor pressure.

(e) Protective housing of cast or fabricated steel, or other approved materials, must be bolted to manway cover. Housing must be equipped with a suitable metal cover that can be securely closed. Housing cover must have suitable stop to prevent cover striking loading or unloading connections and be hinged on one side only with approved riveted pin or rod with nuts and cotters. Openings in wall of housing must be equipped with screw plugs or other closures.

§ 78.302–12 *Venting, loading and unloading, gauging and sampling devices.* (a) Venting, loading and unloading valves must be of approved type, made of metal not subject to rapid deterioration by the lading, and must withstand a pressure of 100 pounds per square inch without leakage. The valves must be directly bolted to seatings on manway cover. Pipe connections of valves must be closed with approved screw plugs chained or otherwise fastened to prevent misplacement.

(b) Interior pipes of the loading and unloading valves, sampling valve and gauging device may be equipped with excess flow valves of an approved design.

(c) Gauging device, sampling valve and thermometer well are not specification requirements. When used, they must be of approved design, made of metal not subject to rapid deterioration by the lading, and must withstand a pressure of 100 pounds per square inch without leakage. Interior pipe of thermometer well must be anchored in an approved manner to prevent breakage due to vibration. The thermometer well must be closed by an approved valve attached close to the manway cover and closed by a screw plug. Other approved arrangements that permit testing thermometer well for leaks without complete removal of the closure may be used.

§ 78.302–13 *Bottom outlets.* (a) Bottom outlet for discharge of lading is prohibited, but tank may be equipped with a bottom washout of metal not subject to rapid deterioration by the lading, which must be of approved construction complying with the following requirements:

(1) The extreme projection of the bottom washout must be at least 12 inches above top of rail.

(2) Bottom washout nozzle must be of cast, forged or fabricated metal of good weldable quality in conjunction with the metal of the tank, and must be applied by welding.

(3) The bottom washout must be designed and constructed with a double closure each capable of withstanding 100 pounds per square inch test pressure and 75 pounds per square inch working pressure without leakage. The inside or top closure must be such that loss of lading will not occur should the nozzle be broken, and preferably should consist of a plug with a tapered seat so that any tank pressure will effect tight closure independent of means of securing the plug. The outside or bottom closure must be a flange with a test plug not larger than ¾ inch pipe plug. Flange and plug must be chained to prevent loss.

(4) For bottom washout nozzles that project 6 inches or more from shell of tank, a "V" groove must be cut (not cast) in the upper part of the bottom washout nozzle at a point immediately below the lowest part of inside closure seat to a depth that will leave thickness of nozzle wall at the root of the "V" not over ⅜ inch. Where bottom washout nozzle is not a single piece, arrangement must be made to provide the equivalent of the breakage groove.

(5) The opening in the tank bottom for the bottom washout nozzle must be reinforced in an approved manner, and the washout nozzle must be of a thickness to insure that accidental breakage will occur at or below the "V" groove.

(6) The closure plug must not project below the "V" groove in the washout nozzle. The closure plug and seat must be readily accessible for repairs, including grinding.

(7) Joints between closures and their seats may be gasketed with suitable material.

§ 78.302–14 *Safety valves.* (a) The tank must be equipped with one or more safety valves of approved design, made of metal not subject to rapid deterioration by lading and mounted on manway cover. The total valve discharge capacity must be sufficient to prevent building up of pressure in tank in excess of 75 pounds per square inch.

(b) The safety valves must be set to open at a pressure not exceeding 75 pounds per square inch. (For tolerance see § 78.302–18 (a)).

§ 78.302–15 *Fixtures, reinforcements and attachments not otherwise specified.* (a) All attachments to tank and nozzle must be applied by approved means. Heater systems may be applied to exterior of tank by tank bands or other approved method.

§ 78.302–16 *Closures for openings.* (a) Plugs must be of approved type, with standard pipe thread, and of metal not subject to rapid deterioration by the lading.

§ 78.302–17 *Tests of tanks.* (a) Each tank must be tested, after anchorage is applied and before the tank lagging is applied, by completely filling tank and manway nozzle with water or other liquid of similar viscosity, having a temperature which must not exceed 100 degrees Fahrenheit during test, and applying pressure for at least 10 minutes without leakage or evidence of distress.

(b) Calking of welded joints to stop leaks developed during the foregoing tests is prohibited. Repairs in welded joints must be made as prescribed in § 78.302–8 (a).

(c) Tests of exterior heater systems are not a specification requirement.

§ 78.302–18 *Tests of safety valves.* (a) Each valve must be tested by air or gas before being put into service. The valve must open at a pressure not exceeding 75 pounds per square inch and be vapor tight at 60 pounds per square inch which limiting pressures must not be affected by any auxiliary closure or other combination.

§ 78.302–19 *Marking.* (a) Each tank must be marked, thus certifying that the tank complies with all the requirements of this specification. These marks must be as follows:

(1) ICC–109A100AL–W and specification number of material used in tank shell and manway nozzle in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal near the center of both outside heads of the tank by the tank builder. ICC109A100AL–W must also be stenciled on the tank, or jacket if lagged, in letters and figures at least 2 inches high by the party assembling the completed car.

(2) Initials of tank builder and date of original test of tank in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (1) of this paragraph.

(3) Initials of company and date of additional tests performed by the party assembling the completed car, in those cases where the tank builder does not complete the fabrication of tank, in letters and figures at least ⅜ inch high stamped plainly and permanently into the metal immediately below the stamped marks specified in subparagraph (2) of this paragraph by the party assembling the completed car. These marks must also be stenciled on the tank, or jacket if lagged, in letters and figures at least 2 inches high immediately below the stenciled mark specified in subparagraph (1) of this paragraph by the party assembling the completed car.

(4) Date on which the tank was last tested, pressure to which tested, place where test was made and by whom, stenciled on the tank, or jacket if lagged.

(5) Date on which the safety valves were last tested, pressure to which tested, place where test was made and by whom, stenciled on the tank, or jacket if lagged.

(6) When a tank car and its appurtenances are designed and authorized for the transportation of a particular commodity only, the name of that commodity followed by the word "only", or such other wording as may be required to indicate the limits of usage of the car, must be stenciled on each side of the tank, or jacket if lagged, in letters at least 1 inch high, immediately above the stenciled mark specified in subparagraph (1) of this paragraph.

(7) Water capacity of the tank in pounds stamped plainly and permanently in letters and figures at least ⅜ inch high into the metal of the tank immediately below the mark specified in subparagraph (3) of this paragraph. This mark must also be stenciled on the tank, or jacket if lagged, immediately below the dome platform and either directly behind or within 3 feet of the right or left side of the ladder on each side of the tank, in letters and figures at least 2 inches high as follows:

WATER CAPACITY
000000 POUNDS

§ 78.302–20 *Reports.* (a) Before a tank car is placed in service, the party assembling the completed car must furnish to car owner, Bureau of Explosives, and the Secretary, Mechanical Division, Association of American Railroads, a report in approved form certifying that the tank and its equipment comply with all the requirements of this specification. In case of welded repairs to, alterations of or additions to tanks or equipment from original design and construction, all of which must be approved, there must be furnished to the same parties, a report in detail of the welded repairs, alterations or additions made to each tank covered by a particular application, showing the initials and numbers of each tank involved. Reports of retests must be rendered to the Bureau of Explosives and car owner.

SUBPART J—SPECIFICATIONS FOR CONTAINERS FOR MOTOR VEHICLE TRANSPORTATION

1. In § 78.325–14 amend paragraph (b) (20 F. R. 8114, Oct. 28, 1955) to read as follows:

§ 78.325 *Specification MC 304 for cargo tanks for the transportation of flammable liquids and poisonous liquids class B having Reid (ASTM D–323) vapor pressures of 18 pounds per square inch absolute at 100°F.*

§ 78.325–14 *Safety devices.* • • •

(b) *Relief valve capacity.* The required safety relief valves shall be set to close after discharge at a pressure not lower than 25 pounds per square inch gauge (25 psig), and remain closed at all lesser pressures, provided that this requirement shall not be so construed as to forbid the use of vacuum relief valves or of combination safety relief and vacuum relief valves. At a pressure not exceeding 30 pounds per square inch gauge (30 psig) they shall have a discharge capacity not less than that of an unobstructed opening of one square inch (1 sq. in.) for each 35 square feet (35 sq. ft.) of exterior area of the tank or compartment to which they are connected, provided that two or more such valves may be used on the same tank or compartment to obtain the discharge capacity herein required.

• • • • •

2. In § 78.331–12 amend paragraph (b) (18 F. R. 6784, Oct. 27, 1953) to read as follows:

§ 78.331 *Specification MC 311; cargo tanks.*

§ 78.331–12 *Venting, gauging, loading, and air-inlet devices.* • • •

(b) *Gauging, loading and air-inlet devices.* Gauging, loading, and air-inlet devices, including their valves, shall be provided with adequate means for their secure closure, and means shall also be provided for the closing of pipe connections of valves.

Section, Paragraph, and Reason for Amendment

72.5; (a) chart; Provides additions and amendments to keep commodity list on a current basis.

73.31; (a) table, footnote 11; To permit the use of 30 pound safety vents on certain tank cars.

73.31; (g) (9) table 1; To provide for the retesting of spec. 109A100AL–W tank car.

73.53; (w); To define explosive cartridges.

73.56; (a), (b), and (f); To provide for the transportation of explosive cartridges.

73.65; (e) (3); To provide for the use of anti-freeze agents other than alcohol for shipments of cyclotrimethylenetrinitramine.

73.69; (c); To make marking requirements consistent with proper shipping name.

73.77; (c); To provide for the use of anti-freeze agents other than alcohol for shipments of pentaerythrite tetranitrate.

73.79; (c); To make marking requirements consistent with proper shipping name.

73.92; (a); To provide for the transportation of starter cartridges, jet engine.

73.92; (c); To make marking requirements consistent with proper shipping name; to provide marking requirements for starter cartridges, jet engine.

73.100; (r) (8); To exempt sparklers, of certain composition, from the regulations.

73.108; (a) and (a) (2); To clarify the packaging requirements applicable to class C explosives, and to authorize a gross weight of 500 pounds for shipments of Very signal cartridges.

73.113; (c); To make marking requirements consistent with proper shipping name.

73.115; (a); To omit reference to flammable compressed gas within the definition of a flammable liquid.

73.118; (a), (b); To delete reference to pressurized flammable liquids, and to provide exemptions for flammable liquids by rail express.

73.176; (g); Clarifies the exemptions applicable to shipments of certain type matches.

73.229; entire section; Clarifies the packaging requirements for chlorate and borate mixtures or chlorate and magnesium chloride mixtures; provides a manufacturing tolerance for these materials by increasing to 28 percent the maximum percentage exempted from the regulations.

73.233; (a) (4); To authorize specs. 17H, 37A, or 37B drums for the transportation of nickel catalyst.

73.247; (a) (6); To authorize additional tank cars for the transportation of certain corrosive liquids.

73.264; (a) (7); To include reference to note 5.

73.264; (b) (2); To authorize spec. 105A400–W tank car for the transportation of hydrofluoric acid.

73.266; (c) (7); To authorize spec. 2S container inside spec. 6J steel barrel or drum for the transportation of hydrogen peroxide solution in water.

73.271; (a) (10), (b); To authorize spec. 103E–W tank car, and spec. 5C metal barrel or drum for the transportation of phosphorus trichloride and thiophosphoryl chloride.

73.272; (f); Percentage of sulfuric acid is increased to permit a tolerance in concentrations.

73.272; (f) (2); To authorize specs. 1F or 1G polyethylene carboys for the transportation of sulfuric acid.

73.289; (a) (2); To require 103E–W tank cars be made of type 316 stainless steel; to remove the stenciling requirement restricting 103C–W tank car to formic acid only.

73.302; (a) (3); To exempt shipments of a solution of materials and compressed gas or gases from certain requirements of the regulations.

73.306; (b) (1); This paragraph amends the former provisions of (b) (1) which have been included in 73.302 (a) (3).

73.306; (b) (2); The provisions of (b) (2) have been inserted in (b) (1).

73.306; (d); These requirements are canceled in view of the amendment to 73.302 (a) (3).

73.312; (a) (1); To authorize spec. 4E aluminum cylinder, for the transportation of liquefied petroleum gas.

73.312; (a) (7); To provide additional packaging requirements for liquefied petroleum gas in spec. 2P containers.

73.314; (a); Eliminates reference to paragraph (g) which was previously canceled.

73.314; (a) table; Deletes reference to obsolete tank car specifications; requires tank cars transporting liquefied flammable gases to have interior pipes of loading and unloading valves equipped with excess flow valves of approved design; subjects shipments of methyl mercaptan to notes 12 and 20; authorizes specs. 106A500 and 106A500X ton containers for the transportation of butadiene; authorizes specs. 105A100AL–W and 109A100AL–W for certain commodities.

73.314; (a) note 8; Corrects reference to proper section which prescribes tests for tank cars.

73.314; (a) note 11; Deletes reference to obsolete tank car specifications; authorizes a set-to-discharge pressure increase of pressure regulating valves.

73.314; (a) note 12; To authorize the motor vehicle transportation of methyl mercaptan in spec. 106A500 or 106A500X steel tanks.

73.314; (a) note 18; Deletes reference to obsolete tank car specifications.

73.314; (a) note 20; To prohibit safety devices of any description on 106A500 or 106A500X tanks transporting methyl mercaptan.

73.314; (b); To provide maximum pressure limitations for specs. 105A100AL–W and 105A300AL–W tank cars.

73.315; (a) (1) table, (h) table, (i) (2) table; To provide for the transportation of vinyl chloride, inhibited in MC 390 cargo tanks.

73.337; entire section; To provide for the transportation of nitric oxide.

73.347; (a) (7); To authorize spec. 12B fiberboard box as outside container for the transportation of aniline oil.

73.377; (g); To authorize spec. 44B multiwall paper bags for specific concentrations of certain class B poisons, dry mixture.

73.377; (h); To authorize spec. 44D multiwall paper bags for specific concentrations of certain class B poisons, dry mixture.

73.393; (i); To clarify packing requirements for certain liquid radioactive materials when shielding is necessary.

73.430; (a), (d); To provide optional certificate to cover shipments made in cargo tanks or other containers not owned or controlled by the shipper.

74.526; (o) (5); To prohibit fuel tanks, lighted heaters, or any automatic heating or refrigerating apparatus on any truck body or trailer containing class A explosives.

74.529; (b); To authorize the use of container cars for the transportation of class B explosives.

74.538; (a) chart; To correct a typographical error; to clarify that nitro carbo nitrate may be loaded or stored with electric blasting caps.

74.589; (h) (8), (j) (8); To permit handling open-top cars with commodities which will not shift beyond car ends, next to cars of explosives.

77.819; (c) To provide optional certificate to cover shipments made in cargo tanks or other containers not owned or controlled by the shipper.

77.820; (a); To make consistent with similar provisions of the regulations.

77.834; (g); To require that containers of explosives as well as all other dangerous articles, must be so braced as to prevent motion thereof, within the vehicle.

77.835; (e); To prohibit the loading of explosives in any truck body or trailer equipped with fuel tanks, lighted heaters, or any automatic heating or refrigerating apparatus.

77.838; (f); To authorize the shipment of certain nitrates in all-metal vehicles made of aluminum or aluminum alloys.

77.840; (c); To authorize the motor vehicle transportation of methyl mercaptan in spec. 106A500 or 106A500X steel tanks.

77.848; (a) chart; To correct a typographical error; to clarify that nitro carbo nitrate may be loaded or stored with electric blasting caps.

78.1–9; (b) (2) note 1; To require the test of spec. 1A carboys on both the side and bottom swing.

78.3–9; (b) (2) note 1; To require the test of spec. 1C carboys on both the side and bottom swing.

78.4–8; (b) (2) note 1; To require the test of spec. 1D carboys on both the side and bottom swing.

78.6–10; (b) (2) note 1; To require the test of spec. 1EX carboys on both the side and bottom swing.

78.7–8; (b) (2) note 1; To require the test of spec. 1E carboys on both the side and bottom swing.

78.36–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 3A cylinder.

78.37–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 3AA cylinder.

78.38–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 3B cylinder.

78.39–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 3BN cylinder.

78.40–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 3C cylinder.

78.41–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 3D cylinder.

78.43–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 3A480X cylinder.

78.48–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 4 cylinder.

78.49–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 4A cylinder.

78.50–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 4B cylinder.

78.51–15; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 4BA cylinder.

78.51–20; (a) and table I; To provide for the use of a new alloy steel in spec. 4BA cylinder.

78.52–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 4C cylinder.

78.53–9; (b); To make the requirements relating to wall thickness for spec. 4D cylinder consistent with spec. 4DA cylinder.

78.53–15; (e) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 4D cylinder.

78.54–15; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 4B240FLW cylinder.

78.55–14; (d); To reduce the test pressure to twice the service pressure when spec. 4B240ET cylinder is tested in accordance with the modified test.

78.55–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 4B240ET cylinder.

78.56–15; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 4AA480 cylinder.

78.58–18; (e) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 4DA cylinder.

78.59–14; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 8 cylinder.

78.60–16; (c) (1); To refer to current ASTM standard for the determination of the yield strength of material in spec. 8AL cylinder.

78.68; entire section; To provide for the construction of new spec. 4E aluminum cylinder.

78.80–4; entire section—78.80–7; (a) table, (b); To bring the table of gauges for spec. 5 drum into conformity with commercial practices.

78.81–4; entire section—78.81–7; (a) table, (b); To bring the table of gauges for spec. 5A drum into conformity with commercial practices.

78.82–4; entire section—78.82–7; (a) table, (b); To bring the table of gauges for spec. 5B drum into conformity with commercial practices.

78.83–4; entire section—78.83–7; (a) table, (b); To bring the table of gauges for spec. 5C drum into conformity with commercial practices.

78.84–4; entire section—78.84–7; (a) table, (b); To bring the table of gauges for spec. 5D drum into conformity with commercial practices.

78.85–4; entire section—78.85–7; (a); To bring gauge requirements for spec. 5F drum into conformity with commercial practices.

78.87–4; entire section—78.87–7; (a) table, (b), (c); To bring the table of gauges for spec. 5H drum into conformity with commercial practices.

78.89–4; entire section—78.89–6; (a) table, (b); To bring the table of gauges for spec. 5L drum into conformity with commercial practices.

78.91–4; entire section—78.91–7; (a) table, (b), (c); To bring the table of gauges for spec. 5X drum into conformity with commercial practices.

78.92–4; entire section—78.92–6; entire section; To bring gauge requirements for spec. 5P drum into conformity with commercial practices.

78.97–4; entire section—78.97–5; (a) table, (b); To bring the table of gauges for spec. 6A drum into conformity with commercial practices.

78.98–4; entire section—78.98–5; (a) table, (b); To bring the table of gauges for spec. 6B drum into conformity with commercial practices.

78.99–4; entire section—78.99–5; (a) table, (b); To bring the table of gauges for spec. 6C drum into conformity with commercial practices.

78.100–4; entire section—78.100–5; (a) table, (b); To bring the table of gauges for spec. 6J drum into conformity with commercial practices.

78.101–4; entire section—78.101–5(a) table, (b); To bring the table of gauges for spec. 6K drum into conformity with commercial practices.

78.115–4; entire section—78.115–6; (a) table, (b); To bring the table of gauges for spec. 17C drum into conformity with commercial practices.

78.116–4; entire section—78.116–6; (a) table, (b); To bring the table of gauges for spec. 17E drum into conformity with commercial practices.

78.117–4; entire section—78.117–6; (a)—78.117–7; (a) table, (b); To bring the table of gauges for spec. 17F drum into conformity with commercial practices.

78.118–4; entire section—78.118–6; (a) table, (b); To bring the table of gauges for spec. 17H drum into conformity with commercial practices.

78.119–4; entire section—78.119–6; (a) table; To bring the table of gauges for spec. 17X drum into conformity with commercial practices.

78.130–4; entire section—78.130–5; (a) table, (b); To bring the table of gauges for spec. 37K drum into conformity with commercial practices.

78.131–4; entire section—78.131–6; (a) table, (b); To bring the table of gauges for spec. 37A drum into conformity with commercial practices.

78.132–4; entire section—78.132–6; (a) table, (b); To bring the table of gauges for spec. 37B drum into conformity with commercial practices.

78.168–3; (a); To provide for milled handholds in spec. 15A wooden box.

78.206–7; (b)—78.206–17; (a), (a) (3); To authorize a reinforced tape closure method for spec. 12C fiberboard box.

78.207–6; (b)—78.207–17; (a), (a) (3); To authorize a reinforced tape closure method for spec. 12D fiberboard box.

78.283–8; heading; To correct a typographical error.

78.288–13; (c); To authorize a set-to-discharge pressure increase of spec. 105A500–W tank cars in liquefied carbon dioxide service.

78.289–13; (c); To authorize a set-to-discharge pressure increase of spec. 105A600–W tank cars in liquefied carbon dioxide service.

78.302; entire section; To provide for the construction of new spec. 109A100AL–W tank car.

78.325–14; (b); To authorize a tolerance increase permitted on safety relief valves for spec. MC 304 cargo tank.

78.331–12; (b); To clarify that means shall be provided for the closing of pipe connections of valves.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 19]

[Docket No. 11895]

CITIZENS RADIO SERVICE

EXTENSION OF TIME FOR FILING COMMENTS

In the matter of amendment of Part 19, Citizens Radio Service, to delete the note in § 19.12.

The Commission having under consideration the petition dated February 14, 1957, filed by Kaar Engineering Corporation in the above-entitled proceeding, requesting an extension of time in which to file comments directed to the Commission's notice of proposed rule making in this Docket;

It appearing, that licensees in the Citizens Radio Service being individuals not organized nationally and thus without formal representation so that all persons interested in this service did not obtain knowledge of the rule making proposal within the time allowed for comment;

It further appearing, that the extension of time would permit development of additional data and that the public interest would be served by an extension;

It is ordered, pursuant to section 0.291 (b) (4), that the time for filing comments in the above-entitled proceeding is hereby extended from January 24, 1957 to March 8, 1957, and that reply comments may be filed within ten days from the extended closing date for original comments.

Adopted: February 19, 1957.

Released: February 19, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

FLORIDA

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LAND

FEBRUARY 21, 1957.

1. Plat of Dependent Resurvey and Extension Survey to include certain lands which were erroneously omitted from the original survey will be officially filed in the Eastern States Land Office, Washington 25, D. C., effective 10:00 a. m., on April 2, 1957, as described below:

TALLAHASSEE MERIDIAN, FLORIDA

T. 3 S., R. 16 W.,
Sec. 11, Lots 1, 2, 3, 4, 5;
Sec. 12, Lot 3;
Sec. 14, Lots 4, 5, 6.

2. The plat represents a retracement and reestablishment of the original subdivisional lines designated to restore all corners on the boundaries of sections 11, 12, 13 and 14 in their original location according to the best available evidence, and the extension survey of lands in sections 11, 12 and 14, which were erroneously omitted from the original survey and not shown upon the plat approved May 22, 1849. The unlotted portion of section 11, as shown on the original plat, is designated as Lot 5, containing 1.57 acres.

3. According to the field notes and as shown by the plat, Lots 1, 3, 4, 5, section 11, Lot 3 section 12, Lots 4, 5, 6, section 14, are principally swamp and only subject to selection by the State of Florida under its swamp land grant.

4. No application may be allowed for Lot 2 section 11, under the homestead or small tract or any other nonmineral public land law unless the land has been classified or valuable or suitable for such type of application or shall be so classified upon consideration of an application.

5. At the hour specified on the above-mentioned effective date, Lot 2 section 11, shall become subject to application, petition, location or selection, under applicable laws, subject to valid existing rights, the provisions of existing withdrawals and the 91 day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

6. Inquiries relating to the land should be addressed to the Acting Manager, Eastern States Land Office, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

H. K. SCHOLL,
Acting Manager.

ALASKA

AMENDMENT OF NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LAND FOR BUREAU OF PUBLIC ROADS

Notice of the proposed withdrawal and reservation of lands for the Bureau of Public Roads in the Fairbanks, Alaska area, was published in the FEDERAL REGISTER, December 6, 1956, Volume 21, No. 236, page 9683. The area embraced by this application which is identified by the serial number, Fairbanks 013138, has been amended to read as follows:

HARDING LAKE AREA

U. S. Survey No. 2285.

Containing 12.00 acres.

L. T. MAIN,
Acting Operations Supervisor.

[F. R. Doc. 57–1447; Filed, Feb. 26, 1957; 8:47 a. m.]

ALASKA

AMENDMENT OF NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LAND FOR BUREAU OF RECLAMATION

Notice of the proposed withdrawal and reservation of lands for the Bureau of Reclamation in the Anchorage, Alaska area, was published in the FEDERAL REGISTER, May 10, 1956, Volume 21, No. 91, page 3127. The area embraced by this application, which is identified by the serial number, Anchorage 031529, has been amended to read as follows:

TRACT B

Tract of land near the Gold Creek Station of the Alaska Railroad, described as follows:

Beginning at a point on the southeasterly boundary line of the 200 foot right-of-way of the Alaska Railroad which point lies S. 63° 52' 30" E., 100 feet from the centerline of the main tract at survey station 11,902 plus 70.9;

Thence N. 26° 07' 30" E., 400.0 feet parallel to, and 100.0 feet from the center line of the main tract to the true point of beginning;

Thence southwesterly identical with the southeasterly boundary line of said right-of-way 500 feet;

Thence southeasterly at right angles to the right-of-way boundary 435 feet;

Thence northeasterly parallel with the right-of-way boundary 500 feet;

Thence northwesterly at right angles to the right-of-way boundary 435 feet to the point of beginning.

Containing approximately 5.0 acres.

L. T. MAIN,
Acting Operations Supervisor.

[F. R. Doc. 57–1448; Filed, Feb. 26, 1957; 8:47 a. m.]

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The U. S. Forest Service has filed an application, Serial No. Anchorage 029820, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including mining and mineral leasing. The applicant desires the land for administrative site purposes.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

JUNEAU SUB-PORT AREA

Beginning at a point N. 49° 00' W., approximately 27.3 feet of Corner No. 15 of P. L. O. 657 on the northwesterly boundary of Executive Order No. 9173 at the intersection with line 14–15 of P. L. O. 657;

Thence along the boundary of P. L. O. 657, N. 49° 00' W. 322.3 feet;

Thence N. 48° 43' E., 163.0 feet;

Thence S. 45° 36' E., 216.0 feet;

Thence S. 44° 24' W., 104.1 feet;

Thence S. 49° 00' E., 91.3 feet to an intersection with the northwesterly boundary of Executive Order No. 9173;

Thence along the northwesterly boundary of Executive Order No. 9173, S. 41° 17' W., 44.8 feet to the Point of Beginning.

Containing 0.89 acres, more or less.

L. T. MAIN,
Acting Operations Supervisor.

[74548]

ILLINOIS

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

FEBRUARY 20, 1957.

1. Plat of survey of the land described below, accepted November 9, 1956, will be officially filed in the Eastern States Land Office, Bureau of Land Management, Washington 25, D. C., effective at 10:00 a. m., on April 1, 1957.

THIRD PRINCIPAL MERIDIAN, ILLINOIS

T. 19 N., R. 7 W.,
Sec. 1, Lot 1.

Containing 47.82 acres.

2. The plat represents the survey of the former island area in the Sangamon River which was not included in the original survey of the township which is represented on the plat of survey approved April 12, 1823.

3. No application may be allowed under the homestead or small tract or any other nonmineral public land laws unless the land has been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

4. At the hour specified on the above-mentioned effective date, the land shall become subject to application, petition, location, or selection, under applicable laws, subject to valid existing rights, the provisions of existing withdrawals and the 91 day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended.

All inquiries relating to the land should be addressed to the Acting Manager, Eastern States Land Office, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

H. K. SCHOLL,
Acting Manager.

DEPARTMENT OF COMMERCE

Bureau of Foreign Commerce

KARL-HEINZ SPAETH AND RALUX GESELLSCHAFT FUER ELEKTROTECHNIK, MBH

ORDER DENYING EXPORT PRIVILEGES FOR AN INDEFINITE PERIOD

In the matter of Karl-Heinz Spaeth and Ralux Gesellschaft fuer Elektrotechnik, mbH; Roemerstrasse 6, Munich 23, Germany; respondents.

The respondents, Karl-Heinz Spaeth and Ralux Gesellschaft fuer Elektrotechnik mbH, are the subjects of an investigation concerning alleged false representations made to induce the exportation of electronic tubes from the United States and the possible transshipment thereof from a port of intermediate destination; and the Agent in Charge, Investigation Staff, Bureau of Foreign Commerce, has applied for an order denying to the respondents all export privileges for an indefinite period by reason of their alleged failure and refusal to respond to written interrogatories duly served on them. The application was made pursuant to § 382.15 of the Export Regulations (15 CFR, Chapter III, Subchapter B), and, in accordance with the practice thereunder, was referred to the Compliance Commissioner of the Bureau of Foreign Commerce who, after considering evidence in support thereof, has recommended that it be granted.

Now, upon receipt of the Compliance Commissioner's recommendation, after reviewing and considering the evidence submitted in support of the application, being of the opinion that there is reasonable ground to believe that the respondents have ordered and caused to be exported from the United States electronic tubes licensed for exportation to Western Germany and that such tubes were diverted to a destination other than Western Germany and finding further that interrogatories were duly served on the respondents and that they, without reasonable cause and without adequate explanation, have failed and refused to answer or furnish written information and documents in response to those interrogatories; and, having concluded (a) that this order is reasonable and necessary to protect the public interest and to achieve effective enforcement of the Export Control Act of 1949, as amended, and (b) that it is advisable that persons in the United States and in other parts of the world be informed by publication of this order of the provisions hereafter set forth so that the respondents may be prevented from receiving and transshipping commodities exported from the United States; *It is hereby ordered:*

(1) All outstanding validated export licenses in which the respondents appear or participate as purchaser, intermediate or ultimate consignee, or otherwise, are hereby revoked and shall be returned forthwith to the Bureau of Foreign Commerce for cancellation;

(2) The respondents, their successors or assigns, directors, officers, partners, representatives, agents, and employees, are hereby denied all privileges of participating directly or indirectly in any manner, form, or capacity in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada. Without limitation of the generality of the foregoing, participation in an exportation shall include and prohibit said respondents' and such other persons' and firms' participation (a) as a party or as a representative of a party to any validated export license application; (b) in the obtaining or using of any validated or general export license or other export control document; (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported from the United States; and (d) in the financing, forwarding, transporting, or other servicing of exports from the United States;

(3) This denial of export privileges shall apply not only to the respondents, but also to any person, firm, corporation, or business organization with which they now or hereafter may be related by ownership, control, position of responsibility, or other connection in the conduct of trade involving exports from the United States or services connected therewith;

(4) This order shall be published in the FEDERAL REGISTER, shall be effective forthwith and shall remain in effect until the respondents satisfactorily answer or

furnish written information or documents in response to the interrogatories heretofore served on them or give adequate reason for their failure or refusal to respond, except insofar as this order may be amended or modified hereafter in accordance with the Export Regulations;

(5) No person, firm, corporation, or other business organization, within the United States or elsewhere, and whether or not engaged in trade relating to exports from the United States, shall, without prior disclosure of the facts to, and specific authorization from, the Bureau of Foreign Commerce, directly or indirectly in any manner, form, or capacity (a) apply for, obtain, transfer, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation of commodities from the United States, or (b) order, receive, buy, use, dispose of, finance, transport, forward, or otherwise service or participate in an exportation from the United States, or in a reexportation of any commodity exported from the United States, with respect to which any of the persons or companies within the scope of paragraphs (2) and (3) hereof have any interest or participation of any kind or nature, direct or indirect.

(6) A certified copy of this order shall be served on the respondents by registered mail.

(7) In accordance with the provisions of § 382.11 (c) of the Export Regulations, the respondents may move, at any time prior to the entry of a final order of suspension, to vacate or modify this indefinite denial order by filing an appropriate application therefor, supported by evidence, with the Compliance Commissioner and they may request oral hearing thereon, which, if requested, will be held before the Compliance Commissioner at Washington, D. C. at the earliest possible date.

Dated: February 21, 1957.

JOHN C. BORTON,
Director,
Office of Export Supply.

Federal Maritime Board

[Docket No. S-57, Sub. No. 2]

STATES MARINE LINES

NOTICE OF EXPANDED HEARING

The public hearing currently being held upon the application of the States Marine Corporation and States Marine Corporation of Delaware (trading as States Marine Lines) for operating-differential subsidy and for written permission under section 805 (a) of the Merchant Marine Act, 1936, as amended, to carry domestic intercoastal cargoes, is hereby expanded to consider an amendment to the application seeking written permission under said section 805 (a) for applicant's subsidiary, Isthmian Lines, Inc., to carry cargoes between United States Atlantic and Gulf ports and Hawaii.

Evidence will be received relevant to whether the applicant or a predecessor in interest was in bona fide operation as a common carrier by water in the domestic intercoastal service described above in 1935 over the routes for which application is made and has so operated since that time, except as to interruptions to service over which the applicant or its predecessor in interest had no control, and if not (a) whether granting such application will result in unfair competition to any person, firm or corporation operating exclusively in the coastwise or intercoastal service or (b) would be prejudicial to the objects and policy of the said act.

All persons (including individuals, corporations, associations, firms, partnerships, and public bodies) desiring to intervene in this proceeding are requested to notify the Secretary of the Board accordingly, and should promptly file petitions to intervene in accordance with the Board's rules of practice and procedure.

Dated: February 21, 1957.

By order of the Federal Maritime Board.

GEO A. VIEHMANN,
Assistant Secretary.

J. R. MICHELS, JR., AND LORETZ & CO.

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15, Shipping Act, 1916 (39 Stat. 733; 46 U. S. C. 814):

Agreement No. 8188 between J. R. Michels, Jr., Houston, Texas; and Loretz & Company, Los Anglees, California, is a cooperative working arrangement between the parties under which they perform freight forwarding services for each other.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement, and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: February 21, 1957.

By order of the Federal Maritime Board.

GEO. A. VIEHMANN,
Assistant Secretary.

[F. R. Doc. 57-1464; Filed, Feb. 26, 1957; 8:54 a. m.]

CITY OF OAKLAND, CALIF. AND ENCINAL TERMINALS

NOTICE OF AGREEMENT FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 46 U. S. C. 814):

Agreement No. 8155-1, between the City of Oakland, California, and Encinal Terminals, modifying Agreement No. 8155, to provide that the final detailed physical inventory of cargo on terminal property leased to Encinal under said agreement shall be taken at the earliest practicable date, but in no event later than June 1, 1957, unless said date shall be extended by mutual agreement.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: February 20, 1957.

By order of the Federal Maritime Board.

GEO. A. VIEHMANN,
Assistant Secretary.

CIVIL AERONAUTICS BOARD

[Docket No. 7912]

FREE BAGGAGE ALLOWANCES AND EXCESS BAGGAGE CHARGES

NOTICE OF POSTPONEMENT OF HEARING

In the matter of an investigation to determine whether the baggage provisions contained in Rule 16 on 20th Revised Page 30, 35th Revised Page 31, 17th Revised Page 32, 24th Revised Page 33, 2d Revised Page 34-B and 15th Revised Page 35 and excess baggage charges shown in Rule 19 on 4th Revised Page 37 and 4th Revised Page 38 of Agent J. B. Walker's C. A. B. No. 27, including subsequent revisions and reissues thereof, are, or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful provisions and charges.

Notice is hereby given that the hearing in the above-entitled proceeding heretofore assigned for March 5, 1957, has been postponed and will be held on March 19, 1957, at 10:00 a. m. (eastern standard time) in Room E-224, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Leslie G. Donahue.

Dated at Washington, D. C., February 21, 1957.

FEDERAL POWER COMMISSION

[Docket Nos. G-9611, G-9612, G-11355, G-11356]

SOUTHWEST GAS PRODUCING CO., INC., ET AL.

NOTICE CONSOLIDATING PROCEEDINGS FOR PURPOSES OF HEARING AND FIXING DATE OF HEARING

FEBRUARY 20, 1957.

By orders issued November 2, 1955, in Docket Nos. G-9611 and G-9612, and October 31, 1956, in Docket Nos. G-11355 and G-11356, the Commission suspended and deferred the use of certain increased rates for sales of natural gas by Southwest Gas Producing Company, Inc., et al. to Texas Eastern Transmission Corporation, pending a hearing upon a date to be fixed by notice from the Secretary, concerning the lawfulness of the proposed increased rates.

It is appropriate and in the public interest that the proceedings in Dockets Nos. G-9611, G-9612, G-11355 and G-11356 be consolidated for purposes of hearing.

Take notice that, pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 4, 5, 14, 15 and 16 and the Commission's rules of practice and procedure, a public hearing will be held, commencing on April 1, 1957, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, N. W., Washington, D. C., concerning the matters involved and the issues presented in these consolidated proceedings.

Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice 158]

MOTOR CARRIER APPLICATIONS

FEBRUARY 21, 1957.

The following applications are governed by the Interstate Commerce Commission's special rules governing notice

of filing of applications by motor carriers of property or passengers and by brokers under sections 206, 209, and 211 of the Interstate Commerce Act and certain other procedural matters with respect thereto. (FEDERAL REGISTER, Volume 21, pages 7339, 7340, § 1.241 (49 CFR 1.241), September 26, 1956.)

All hearings will be called at 9:30 o'clock a. m., United States standard time, unless otherwise specified.

APPLICATIONS ASSIGNED FOR ORAL HEARING OR PRE-HEARING CONFERENCE

MOTOR CARRIERS OF PROPERTY

No. MC 2130 (Sub No. 49) and (Sub No. 50) Correction, COUCH MOTOR LINES, INC., Shreveport, La., published in the November 15, 1956, and the February 13, 1957, issues of the FEDERAL REGISTER, respectively, the notices of filing referred to above indicated that applicant is authorized to conduct operations in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, New York, North Carolina, South Carolina, Tennessee, and Virginia. This portion of the notices was incorrect. Applicant is authorized to conduct operations only in Alabama, Arkansas, Louisiana, Mississippi, and Tennessee.

No. MC 7663 (Sub No. 2), filed September 12, 1956. LAPP EXPRESS CO., INC., 410 East Center St., Medina, N. Y. Applicant's attorney: Samuel V. Gianniny, 25 Exchange St., Rochester 14, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: (1) *Navy Night Drift Signals, Class B Explosives;* (2) *Navy Depth Charge Markers (Calcium Phosphide), Class C Explosives;* (3) *Army Ordnance Time Fuse, Class C Explosives*, from the town of Murray, Orleans County, N. Y. to railhead in Village of Holley, Town of Murray, Orleans County, N. Y. and to motor carriers' freight terminals in Rochester and Buffalo, N. Y. Issues originally published in FEDERAL REGISTER of September 26, 1956, as above.

HEARING: March 22, 1957, at 45 Broadway, New York, N. Y., before Examiner Howard Hosmer.

No. MC 14021 (Sub No. 3), (Correction) MIDWEST TRANSFER COMPANY OF ILLINOIS, a corporation, 7000 South Pulaski Road, Chicago 29, Ill., published on page 915, issue of February 13, 1957. The docket number was in error. The correct docket number is *MC 114021 (Sub No. 3)*.

No. MC 19227 (Sub No. 59), filed December 31, 1956, LEONARD BROS. TRANSFER & STORAGE CO., INC., 2595 Northwest 20th St., Miami 42, Fla. Applicant's representative: John W. Carlisle, 422 Perry-Brooks Bldg., Austin 1, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *Commodities which because of size or weight require the use of special equipment*, between points in Florida, Alabama and Georgia on the one hand, and, on the other, points in Arizona, California, New Mexico, Oklahoma and Colorado. Applicant is authorized to transport similar commodities in the States of Florida, Alabama, Georgia, South Carolina, Connecticut, Delaware, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin and the District of Columbia.

HEARING: April 15, 1957, at the Federal Building, Los Angeles, Calif., before Examiner F. Roy Linn.

No. MC 19227 (Sub No. 60), filed December 31, 1956, LEONARD BROS. TRANSFER & STORAGE CO., INC., 2595 Northwest 20th St., Miami 42, Fla. Applicant's representative: John W. Carlisle, 422 Perry-Brooks Bldg., Austin 1, Tex. For authority to operate as a *common carrier*, over irregular routes, transporting: *Commodities which because of size or weight require the use of special equipment*, between points in Texas on the one hand, and, on the other, points in Arizona and California. Applicant is authorized to transport similar commodities in the states of Florida, Alabama, Georgia, South Carolina, Connecticut, Delaware, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin and the District of Columbia.

HEARING: April 10, 1957, at the Federal Building, Los Angeles, Calif., before Examiner F. Roy Linn.

No. MC 30837 (Sub No. 213), filed December 13, 1956, KENOSHA AUTO TRANSPORT CORPORATION, 4519—76th St., Kenosha, Wis. Applicant's representative: Lyle DeVuyst, Traffic Manager, Kenosha Auto Transport Corporation, P. O. Box 351, 4519—76th St., Kenosha, Wis. For authority to operate as a *common carrier*, over irregular routes, transporting: *Parts* and *equipment* for self-propelled street sweepers or street cleaning equipment, from Pomona, Calif., to Chicago, Ill., and Newark, N. J., restricted to shipments of parts and equipment moving with shipments of set-up self-propelled street sweepers.

HEARING: April 2, 1957, at the Federal Bldg., Los Angeles, Calif., before Examiner F. Roy Linn.

No. MC 30837 (Sub No. 216), filed February 8, 1957, KENOSHA AUTO TRANSPORT CORPORATION, 4519—76th St., Kenosha, Wis. Applicant's attorney: Paul F. Sullivan, Sundial House, 1821 Jefferson Place, Washington 6, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Motor vehicles* (not including trailers), in initial movements, by driveaway and truckaway methods, from Baltimore, Md., to points in Delaware, Massachusetts, New Jersey, New York, North Carolina, Ohio, Pennsylvania, West Virginia, Virginia and the District of Columbia. Applicant is authorized to conduct operations throughout the United States.

HEARING: April 2, 1957, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Bertram E. Stillwell.

No. MC 30837 (Sub No. 217), filed February 8, 1957, KENOSHA AUTO TRANSPORT CORPORATION, 4519—76th St., Kenosha, Wis. Applicant's attorney: Paul F. Sullivan, Sundial House, 1821 Jefferson Place, Washington 6, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Motor vehicles* (not including trailers), in initial movements, by driveaway and truckaway methods, from North Tarrytown, N. Y., to points in Alabama, Delaware, Indiana, Kentucky, Maine, Massachusetts, Mississippi, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee and West Virginia. Applicant is authorized to conduct operations throughout the United States.

HEARING: April 2, 1957, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Bertram E. Stillwell.

No. MC 36509 (Sub No. 12), filed February 4, 1957, LOOMIS ARMORED CAR SERVICE, INC., 55 Battery Street, Seattle, Wash. Applicant's attorney: George H. Hart, Central Building, Seattle 4, Wash. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Silver bars*, in armored car service, from Selby, Calif., to Oakland and San Francisco, Calif.

HEARING: April 23, 1957, in Room 226, Old Mint Bldg., Fifth and Mission Sts., San Francisco, Calif., before Joint Board No. 75, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 40007 (Sub No. 49), filed January 14, 1957, RELIABLE TRANSPORTATION COMPANY, a corporation, 4317 Sheila Street, Los Angeles 22, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Sulphuric acid, off-color sulphuric acid*, and *impure sulphuric acid*, in bulk, in tank vehicles, from El Segundo, Calif., to Miami, Ariz., and *contaminated shipments* of the above-described commodities, on return. Applicant is authorized to transport similar commodities in California and Nevada.

HEARING: April 4, 1957, at the Federal Bldg., Los Angeles, Calif., before Joint Board No. 47, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 65451 (Sub No. 16), filed November 19, 1956, ALABAMA FREIGHT LINES, a Corporation, 546 West Madison Street, Phoenix, Ariz. Applicant's attorney: James F. Haythornewhite, Luhrs Tower, Phoenix, Ariz. For authority to operate as a *common carrier*, over irregular routes transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods, as defined by the Commission, commodities in bulk, and commodities requiring special equipment, between the Glen Canyon Dam Site located on the Colorado River approximately 15 miles upstream from Marble Canyon, Ariz., near the Utah-Arizona State line, points within 10 miles thereof, townsite and construction sites and supply points located at points on access roads thereto, all of said points in Arizona, on the one hand, and, on the other, points in Arizona, New Mexico, and Texas, which carrier is authorized to serve in regular route operations in Certificates in Nos. MC 65451, MC 65451 (Sub No. 1), MC 65451 (Sub No. 3), MC 65451 (Sub No. 4), MC 65451 (Sub No. 5), and MC 65451 (Sub No. 11). Applicant is authorized to conduct operations in Arizona, New Mexico, and Texas.

HEARING: April 1, 1957, at the Arizona Corporation Commission, Phoenix, Ariz., before Examiner F. Roy Linn.

No. MC 67500 (Sub No. 3), filed January 11, 1957, NEMIAH GOLDSTEIN AND BERNARD GOLDSTEIN, doing business as BLUE RIDGE TRUCKING COMPANY, 101 S. Lexington Street, Biltmore, N. C. Applicant's attorneys: Williams and Williams, Jackson Bldg., Asheville, N. C. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, serving the off-route points of Cedar Mountain, Rich Mountain, High Falls and Cascade Lake, N. C., in connection with applicant's authorized regular route operations over U. S. Highway 64. Applicant is authorized to transport similar commodities in North Carolina.

HEARING: April 5, 1957, at the Battery Park Hotel, Asheville, N. C., before Joint Board No. 103.

No. MC 106009 (Sub No. 5), filed February 6, 1957, JOHN AUSTIN EMORY, doing business as CAUSTIC SODA TRANSPORTATION COMPANY, 43 Eola Ave., West Asheville, N. C. Applicant's attorney: Robert R. Williams, Jr., Jackson Bldg., Asheville, N. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Liquid caustic soda*, in bulk, in tank vehicles, from Canton, N. C., to Columbia, S. C. Applicant has regular route authority to transport the same commodity between Canton, N. C., and Lyman, S. C.

HEARING: April 14, 1957, at 10:00 o'clock a. m., United States Standard Time, at the Battery Park Hotel, Asheville, N. C., before Joint Board No. 2.

No. MC 106965 (Sub No. 99), filed February 5, 1957, M. I. O'BOYLE AND SON, INC., doing business as O'BOYLE TANK LINES, 817 Michigan Avenue, N. E., Washington, D. C. Applicant's attorney: Dale C. Dillon, 1825 Jefferson Pl., N. W., Washington 6, D. C. For authority to operate as a *common carrier*, over irregular routes, transporting: *Syrups*, in bulk, in tank vehicles, from Jersey City, N. J., to points in Alabama, Delaware, Florida, Georgia, Indiana, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia and the District of Columbia. Applicant is authorized to transport the above-described commodity in Delaware, Maryland, North Carolina, Ohio, Pennsylvania, Virginia, West Virginia, and the District of Columbia.

HEARING: April 1, 1957, at the Offices of the Interstate Commerce Commission, Washington, D. C., before Examiner Paul Coyle.

No. MC 107227 (Sub No. 44), filed January 14, 1957, INSURED TRANSPORTERS, INC., 251 Park Street, San Leandro, Calif. Applicant's attorney: John G. Lyons, Mills Tower, San Francisco 4, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Trailers*, except those designed to be drawn by passenger automobiles, in secondary movements, in truckaway service, moving entirely off their own wheels, from Redwood City, Calif., to points in the United States, and *damaged shipments* of the above-described units on return.

HEARING: April 22, 1957, in Room 226, Old Mint Building, Fifth and Missions Sts., San Francisco, Calif., before Examiner F. Roy Linn.

No. MC 108941 (Sub No. 39), filed December 31, 1956, F. N. RUMBLEY COMPANY, a corporation, 2100 South Van Ness Ave., Fresno, Calif. Applicant's attorney: John G. Lyons, Mills Tower Bldg., San Francisco 4, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Anhydrous Ammonia*, in tank vehicles, from points in California to points in Arizona, Nevada, and Oregon, and ports of entry in California located on the International Boundary between the United States and Mexico. Applicant is authorized to transport the above commodity (when it is a liquid petroleum gas) in a portion of the territory involved in this application, but no duplicating authority is sought.

HEARING: April 3, 1957, at the Federal Building, Los Angeles, Calif., before Examiner F. Roy Linn.

No. MC 109835 (Sub No. 5), filed February 11, 1957, BURKS MOTOR FREIGHT LINES, INCORPORATED, 218 Miller St., P. O. Box 1028, Little Rock, Ark. Applicant's attorneys: John Paul Jones, 1012 Edway Bldg., Memphis 3, Tenn., and Thomas L. Robinson, Columbian Mutual Tower Bldg., Memphis, Tenn. For authority to operate as a *common carrier*, over regular routes; transporting: *General commodities, including Class A and B explosives, commodities of unusual value, commodities in bulk, and commodities requiring special equipment*, but excluding household goods as defined by the Commission, (1) between Little Rock, Ark., and Pine Bluff, Ark., from Little Rock over U. S. Highway 65 to Pine Bluff, and return over the same route; (2) between Hazen, Ark., and Pine Bluff, Ark., from Hazen over U. S. Highway 70 to the junction of U. S. Highway 70 and Arkansas Highway 11, thence over Arkansas Highway 11 to Stuttgart, thence over U. S. Highway 79 to Pine Bluff, and return over the same route. Service from Hazen, Ark., over U. S. Highway 70 to the junction of U. S. Highway 70 and Arkansas Highway 11 is for operating convenience only; (3) between Pine Bluff, Ark., and Grand Lake, Ark., (unincorporated), from Pine Bluff, over U. S. Highway 65 to Grand Lake, and return over the same route; (4) between Pine Bluff, Ark., and Warren, Ark., from Pine Bluff over Arkansas Highway 15 to Warren, and return over the same route; (5) between Warren, Ark., and Monticello, Ark., from Warren over Arkansas Highway 4 to Monticello, and return over the same route; (6) between Pine Bluff, Ark., and West Monroe, La., from Pine Bluff over U. S. Highway 65 to junction of U. S. Highway 65 and Arkansas Highway 81, thence over Arkansas Highway 81 to the junction of Arkansas Highway 81 and the Arkansas-Louisiana State line, thence over Louisiana Highway 139 to the junction of Louisiana Highway 139 and U. S. Highway 80, thence over U. S. Highway 80 to West Monroe, and return over the same route. Service from Pine Bluff, Ark., over U. S. Highway 65 to junction of U. S. Highway 65 and Arkansas Highway 81 is for operating convenience only; (7) between McGehee, Ark., and Monroe, La., from McGehee over Arkansas Highway 4 to junction of Arkansas Highway 4 and U. S. Highway 65, which is south of McGehee, thence over U. S. Highway 65 to junction of U. S. Highway 65 and U. S. Highway 165, thence over U. S. Highway 165 to Monroe, and return over the same route. Service over U. S. Highway 65 between the junction of Arkansas Highway 4 and U. S. Highway 65, and junction of U. S. Highway 65, and U. S. Highway 165, is for operating convenience only; (8) between Greenville, Miss., and Bastrop, La., from Greenville over U. S. Highway 82 to Lake Village, thence over U. S. Highway 82 to Crossett, thence over Arkansas Highway 133 to the junction of Arkansas Highway 133 and Arkansas-Louisiana State line, thence over Louisiana Highway 142 to junction of Louisiana Highway 142 and Louisiana Highway 139, thence over Louisiana Highway 139 to Bastrop, and return over the same route. Service over Arkansas Highway 81 between Hamburg, Arkansas and junction of Arkansas Highway 81 and U. S. Highway 82, and service over Louisiana Highway 139 from junction of Louisiana Highway 142 and Louisiana Highway 139 to Bastrop, La., is for operating convenience only; (9) between Sterlington, La., and junction of U. S. Highway 165 and Louisiana Highway 2, from Sterlington over Louisiana Highway 2 to junction Louisiana Highway 2 and U. S. Highway 165, and return over the same route; (10) between Sterlington, La., and junction U. S. Highway 165 and Louisiana Highway 134, for operating convenience only, from Sterlington, La., over Louisiana Highway 553 to junction of Louisiana Highway 553 and Louisiana Highway 134, thence over Louisiana Highway 134 to junction of Louisiana Highway 134 and U. S. Highway 165, and return over the same route. Service authorized here will be for operating convenience only; (11) between Sterlington, La., and junction of U. S. Highway 165 and Louisiana Highway 553, from Sterlington, over Louisiana Highway 553 to junction of U. S. Highway 165 and Louisiana Highway 553, and return over the same route; Service is to be authorized to and from all intermediate points on the above specified routes.

NOTE: Applicant states that the above operating authority substantially duplicates, with some exceptions, the authority which applicant has operated since on or about March 18, 1948 by lease from Strickland Transportation Co., Inc., lessor, pursuant to order of the Commission dated March 18, 1948 in Docket MC-FC 31502. Said operating authority is a portion of the service authorized in Certificate No. MC 59639,

dated June 2, 1947 to Strickland Transportation Co., Inc. Applicant is authorized to transport similar commodities in the States of Arkansas, Louisiana and Mississippi.

HEARING: April 3, 1957, at the Arkansas Public Service Commission, Little Rock, Ark., before Joint Board No. 218.

No. MC 112196 (Sub No. 12), filed December 21, 1956, GEORGE R. MALLORY, doing business as MALLORY TRUCKING COMPANY, P. O. Box 412, Highway 99 and Hunts Lane, Colton, Calif. Applicant's attorney: Bruce R. Geernaert, 100 Bush Street, San Francisco 4, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Cement*, in bulk, from Oro Grande and Crestmore, Calif., and points within five (5) miles of each, to points in Mohave, Yuma, Pima, Pinal, Maricopa, and Yavapai Counties, Ariz. Applicant is authorized to conduct operations in Arizona and California.

NOTE: Applicant is authorized to transport Cement in bulk, from Crestmore and Oro Grande, Calif., to Yuma, Ariz. Duplication with present authority to be eliminated.

HEARING: April 4, 1957, at the Federal Building, Los Angeles, Calif., before Joint Board No. 47, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 114921 (Sub No. 1), filed January 7, 1957, (MRS.) FRANK MURPHY, doing business as MURPHY TRANSPORTATION, 423 South Hewitt St., Los Angeles, Calif. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (and other exceptions as more fully described in the application), (1) between Los Angeles, Calif., (points in Los Angeles area more fully described in application) and the international boundary line between the United States and Mexico near San Ysidro, from Los Angeles over U. S. Highway 101 to San Diego, thence over U. S. Highway 101 to the international boundary line between the United States and Mexico, and return over the same route, serving all intermediate and off-route points on and within 5 miles of either side of U. S. Highway 101, including the points of La Jolla, Pacific Beach, Mission Beach, Ocean Beach and Point Loma; (2) between Los Angeles, Calif., (points in Los Angeles area more fully described in application) and the international boundary line between the United States and Mexico near San Ysidro, from Los Angeles over U. S. Highway 101 to San Diego, thence via ferry from San Diego to North Island, thence over California Highway 75 to the junction of U. S. Highway 101, thence over U. S. Highway 101 to the international boundary line between the United States and Mexico and return over the same route, serving all intermediate and off-route points on and within 5 miles of either side of U. S. Highway 101 and California Highway 75, including the points of North Island, Coronado and Silver Strand; (3) between Los Angeles, Calif., (points in Los Angeles area more fully described in application) and San Diego, Calif., from Los Angeles over U. S. Highway 101 to junction of California Highway 78, thence over California Highway 78 to the junction of U. S. Highway 395, thence over U. S. Highway 395 to San Diego, and return over the same route, serving all intermediate and off-route points on and within 5 miles of either side of U. S. Highways 101 and 395 and California Highway 78. Applicant is authorized to transport similar commodities in California.

HEARING: April 8, 1957, at the Federal Building, Los Angeles, Calif., before Joint Board No. 75, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 115841 (Sub No. 15), filed February 1, 1957, COLONIAL REFRIGERATED TRANSPORTATION, INC., 1201 First Ave., North, Birmingham, Ala. Applicant's attorney: Bennett T. Waites, Jr., 531 Frank Nelson Bldg., Birmingham 3, Ala. For authority to operate as a *common carrier*, over irregular routes, transporting: *Commodities requiring refrigeration in transit* and having prior movement by rail or motor vehicle in interstate commerce, in pool car distribution, between points in Alabama. Applicant is authorized to conduct operations in Alabama, Florida, North Carolina, Delaware, Maryland, Virginia, Georgia, Mississippi, South Carolina, Tennessee, New York, New Jersey, Louisiana, Connecticut, Illinois, Indiana, Kentucky, Maine, Massachusetts, Michigan, Ohio, Pennsylvania, Rhode Island, West Virginia, Wisconsin, and the District of Columbia.

HEARING: April 9, 1957, at the Hotel Thomas Jefferson, Birmingham, Ala., before Joint Board No. 100.

No. MC 116084 (Sub No. 2), filed January 28, 1957, CAPITOL TANK LINE, INC., 3743 East Florence Avenue, Bell, Calif. Applicant's representative: Ivan McWhinney, 639 South Spring Street, Los Angeles 14, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum* and *petroleum products*, in bulk, in tank vehicles, between points in Los Angeles County, Calif. and points in Arizona.

HEARING: April 5, 1957, at the Federal Bldg., Los Angeles, Calif., before Joint Board No. 47, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 116316, filed November 19, 1956, ARMORED MOTOR SERVICE OF ARIZONA, INCORPORATED, 527 East Portland, Phoenix, Ariz. Applicant's attorney: Yale McFate, 702 Mayer-Heard Bldg., Phoenix, Ariz. For authority to operate as a *common carrier*, over irregular routes, transporting: *Coin, currency, securities* and *valuables*, in armored and/or armed guard car service, between points in Arizona.

NOTE: Applicant's second proviso authority in name of individual (MC 99537), has been canceled and superseded by new second proviso filing in name of corporation (MC 116316 Sub No. 1); if and when BMC 78 application is granted, corporation will request dismissal of any second proviso authority held by it.

HEARING: April 1, 1957, at the Arizona Corporation Commission, Phoenix, Ariz., before Joint Board No. 240, or, if the Joint Board waives its right to participate, before Examiner F. Roy Linn.

No. MC 116318 (Sub No. 2), filed January 28, 1957, RAYMOND C. MARONEY, doing business as DECORATOR DELIVERY SERVICE, 1111 North Olive Drive, Los Angeles, Calif. For authority to operate as a *common carrier*, over irregular routes, transporting: *New furniture parts* and *new furniture*, in blanket wrap packing, between Venice, Calif., and Zeeland, Mich.

HEARING: April 2, 1957, at the Federal Bldg., Los Angeles, Calif., before Examiner F. Roy Linn.

No. MC 116440, filed February 11, 1957, VAN-PAK, INC., 3401 Harding Road, Des Moines, Iowa. Applicant's attorney: Stephen Robinson, 1020 Savings & Loan Bldg., Des Moines 9, Iowa. For authority to operate as a *common carrier*, over irregular routes, transporting: *Household goods*, as defined by the Commission, in specially constructed container or parts in specially constructed semi-trailers, between points in the United States.

PRE-HEARING CONFERENCE: March 20, 1957, at the Offices of the Interstate Commerce Commission, Washington, D. C., with Examiner Allan E. Borroughs presiding. At the pre-hearing conference it is contemplated that the following matters will be discussed: (1) The issues in the proceeding; (2) The general character of the evidence to be offered by the applicant and protestants; (3) The number of witnesses to be presented and the time required for such presentation by both the applicant and protestants; (4) The time and place at which the hearing or hearings shall be held; and (5) Any other matter by which the hearing and further handling of the application can be expedited or simplified, or the Commission's handling thereof aided.

MOTOR CARRIERS OF PASSENGERS

Operating rights sought to be transferred: Operations under the Second Proviso of section 206 (a) (1) of the Interstate Commerce Act, in the State of New York, covering the transportation of *general commodities*, without exceptions, as a *common carrier* over regular routes between Niagara Falls and Buffalo, between Buffalo and Salamanca, between Jamestown and Binghamton, between Binghamton and Bloomingburg, between Bloomingburg and Newburgh, between Newburgh and Beacon, between Beacon and the junction of New York Highway 9D and U. S. Highway 9, between the junction of New York Highway 9D and U. S. Highway 9 and New York City, between Buffalo and Hamburg, between Hamburg and Salamanca, between Buffalo and East Aurora, between East Aurora and Olean, between the junction of New York Highway 16 and New York Highway 39 and Arcade, between Arcade and Caneadea, between Caneadea and Wellsville, between the junction of New York Highway 16 and New York Highway 408 and Garwoods, between Garwoods and Arkport, between Arkport and Andover, between Dayton and Conewango, between Conwango and the junction of New York Highway 241 and New York Highway 17, between Hornell and Painted Post, and between Hornell and the junction of New York Highway 21 and New York Highway 17, serving certain intermediate and off-route points. Vendee is authorized to operate as a *common carrier* in New York, Pennsylvania and New Jersey. Application has not been filed for temporary authority under section 210 (a) (b).

NOTE: MC 80413 Sub 6, filed February 11, 1957, is a matter directly related.

No. MC–F 6514. Authority sought for purchase by RINGLE TRUCK LINES, INC., 601 South Grand Avenue, Fowler, Ind., of a portion of the operating rights of MELVIN TRUCKING CO., 1818 South Washington Street, Peoria, Ill., and for acquisition by GLEN RINGLE, also of Fowler, of control of such rights through the purchase. Applicants' attorneys: Axelrod, Goodman & Steiner, 39 South La Salle Street, Chicago 3, Ill., and Robert C. Smith, 512 Illinois Bldg., Indianapolis 4, Ind. Operating rights sought to be transferred: *Dump truck bodies and parts thereof*, and *road building equipment*, as a *common carrier* over irregular routes from Streator, Ill., to St. Louis, Mo., and Indianapolis, Ind.; dump truck bodies, *hydraulic hoists and parts thereof*, and *snow plows and parts thereof*, from Streator, Ill., to Fort Wayne, Ind., Omaha, Nebr., Kansas City, Mo., Minneapolis and St. Paul, Minn., Janesville, Wis., and Cincinnati, Columbus, Toledo, Cleveland, Springfield, and Barnesville, Ohio; *glass containers, glass container caps, corrugated cardboard, fibreboard sheets*, and *containers* and *wooden boxes*, used by glass manufacturing plants, from Streator, Ill., to Kansas City, Kans., Omaha, Nebr., certain points in Wisconsin, certain points in Missouri and certain points in Iowa, from Alton, Ill., to Kansas City, Kans., Kansas City and St. Joseph, Mo., Omaha, Nebr., certain points in Wisconsin and points in Iowa, and from Gas City, Ind., to Kansas City, Kans., Omaha, Nebr., and certain points in Missouri; *glass containers, and glass container caps*, from Muncie, Ind., to Kansas City, Kans., Omaha, Nebr., certain points in Wisconsin, certain points in Missouri, and points in Iowa, from Hillsboro, Ill., to Kansas City, Kans., Omaha, Nebr., points in Illinois and Iowa, certain points in Wisconsin and certain points in Missouri, and from Hillsboro, Ill., to points in Lake County, Ind., moving through Cook or Will Counties, Ill.; *glass and glassware*, from Streator and Alton, Ill., to Milwaukee and Waukesha, Wis.; *glass products*, and incidental thereto, *materials, machinery, equipment*, and *supplies*, used by a glass manufacturing plant, from Streator, Ill., to Hannibal and Cape Girardeau, Mo., certain points in Illinois and certain points in Indiana, from Gas City, Terre Haute and Evansville, Ind., to St. Louis, Hannibal, and Cape Girardeau, Mo., and points in Indiana and Illinois, from Streator, Ill., Gas City, Terre Haute and Evansville, Ind., to certain points in Kentucky and certain points in Iowa, between Streator, Ill., on the one hand, and, on the other, Gas City, Terre Haute, and Evansville, Ind., between Gas City, Ind., on the one hand, and, on the other, Terre Haute and Evansville, Ind., and between Milwaukee, Wis., and Rock Island, Ill. Vendee is authorized to operate as a *contract carrier* in Indiana, Illinois, Ohio, Kentucky, Iowa, Missouri, West Virginia, Wisconsin, Pennsylvania, Nebraska, Tennessee, Alabama, Michigan, Arkansas, Kansas, Minnesota and Mississippi. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6516. Authority sought for purchase by STAR WEST CARTAGE CO., INC., 430 East Wacker Drive, Chicago, Ill., of the operating rights of THE CLOUD EXPRESS COMPANY, 4341 South Emerald Avenue, Chicago, Ill., and for acquisition by GEORGE NELSON, ANTON P. NELSON and CHARLES NELSON, all of Chicago, of control of such rights through the purchase. Applicants' representative: Anton P. Nelson, 430 East Wacker Drive, Chicago, Ill. Operating rights sought to be transferred: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and, in connection therewith, *equipment, materials*, and *supplies* used in the conduct of such business, as a *contract carrier* over irregular routes between certain points in Illinois, Indiana, Michigan, and Wisconsin. Vendee is authorized to operate as a *contract carrier* in Illinois and Indiana. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6517. Authority sought for purchase by CONSOLIDATED FREIGHTWAYS, INC., 2029 N. W. Quimby Street, Portland, Oreg., of the operating rights and property of ARIZONA EXPRESS, INC., 56 East Fifth Street, Tucson, Ariz. Applicants' attorney: Donald A. Schafer, 803 Public Service Bldg., Portland 4, Orgg. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over regular routes including routes between Phoenix, Ariz., and Mammoth, Ariz., between Tucson, Ariz., and Mammoth, Ariz., between Oracle Junction, Ariz., and Kelvin, Ariz., between Douglas, Ariz., and Cochise, Ariz., between Cochise, Ariz., and Willcox, Ariz., and between Los Angeles, Calif., and Tucson, Ariz., serving certain intermediate and off-route points; alternate routes for operating convenience only between Gila Bend and Phoenix, Ariz., and between junction Arizona Highways 87 and 387 and junction Arizona Highways 187 and 84. Vendee is authorized to operate as a *common carrier* in Oregon, Washington, California, Idaho, Utah, Montana, North Dakota, Minnesota, Michigan, Wisconsin, Arizona, Nevada, Illinois, Wyoming and Iowa. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6518. Authority sought for purchase by J AND L LINES, INC., P. O. Box 611, Winchester, Va., of the operating rights and property of JEFFERSON FREIGHT LINES, INC., 612 East Cork Street, Winchester, Va., and LAMBERT TRANSFER CO., INC., P. O. Box 611, Winchester, Va., and for acquisition by EARL HAINES, also of Winchester, of control of such rights and property through the purchase. Applicants' attorney: S. Harrison Kahn, 726–734 Investment Bldg., 1511 K Street, N. W., Washington 5, D. C. Operating rights sought to be transferred: (JEFFERSON FREIGHT LINES, INC.) *Fresh meats* and *packinghouse products*, as a *common carrier* over regular routes, between Baltimore, Md., and Harpers Ferry, W. Va., serving certain intermediate and off-route points; *general commodities*, with certain exceptions excluding household goods and including commodities in bulk, over irregular routes, from Baltimore, Md., to Winchester, Va.; *general commodities*, with certain exceptions including household goods and commodities in bulk, from Baltimore, Md., to Broadway, Bridgewater, Elkton, Harrisonburg, and Timberville, Va.; *general commodities*, with certain exceptions excluding commodities in bulk and including household goods, between points in Berkeley County, W. Va., on the one hand, and, on the other, points in Frederick County, Va.; *household goods*, as defined by the Commission, between certain points in Virginia, on the one hand, and, on the other, points in West Virginia, Maryland, Delaware, Pennsylvania, New York, and the District of Columbia; *fruit products, pickles, sauerkraut, ice, spray materials, fertilizer, corn, shelled corn, feed, seed, cottonseed meal, peanut meal, livestock, coal, fresh product, fertilizer, spraying materials, fruit, barrel staves, sugar, malt beverages, roofing* in rolls, *glass containers, onions, vinegar, wool, hides, tin cans, canned goods, oils, greases, bottles, glasses, prune juice, supercell, insecticides, fungicides, feed materials, flour, machinery, lumber, tombstone material, butter, eggs, cornmeal, poultry*, and *petroleum products, in containers*, from, to or between points and areas, varying with the commodity transported, in Maryland, West Virginia, Virginia, Pennsylvania, New York, South Carolina, North Carolina, Ohio, Delaware, New Jersey, and the District of Columbia; (LAMBERT TRANSFER CO., INC.) *general commodities*, with certain exceptions including household goods and excluding commodities in bulk, as a *common carrier* over regular routes between Harrisonburg, Va., and Baltimore, Md., serving certain intermediate and off-route points; *general commodities*, with certain exceptions including household goods and commodities in bulk, between Winchester, Va., and Falls Church, Va., serving certain intermediate and off-route points; several alternate routes for operating convenience only; *oils and greases*, over irregular routes, from Marcus Hook and Philadelphia, Pa., to Woodstock, Mt. Jackson, Harrisonburg, and The Plains, Va.; *linoleum and congoleum floor coverings, felt bases*, and *cement*, from Marcus Hook, Pa., to Woodstock, Va.; *livestock*, from certain points in Virginia to Baltimore, Frederick, and Westminster, Md., and West Chester, Pottstown, York Springs, and Spring City, Pa.; *apples* and *peaches*, from certain points in Virginia to Washington, D. C., Baltimore, Md., Philadelphia, Pa., and New York, N. Y.; *canned goods*, from Westminster and Frederick, Md., to Woodstock, Va.; *coal*, from Tower City, Minersville, and Williamstown, Pa., to Woodstock, Maurertown, Mt. Jackson, New Market, and Edinburg, Va. Vendee holds no authority from the Interstate Commerce Commisiosn. Application has been filed for temporary authority under section 210a (b).

No. MC–F 6519. Authority sought for purchase by BARBER TRANSPORTATION CO., 321 Sixth Street, Rapid City, S. Dak., of the operating rights and property of LEMMON MOTOR EXPRESS, INC., Lemmon, S. Dak., and for acquisition by MILO H. BARBER, also of Rapid City, of control of such rights and property through the purchase. Applicants' attorneys: Lee Reeder and Wentworth E. Griffin, Suite 1010, 1012 Baltimore Bldg., Kansas City, Mo. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over a regular route between Lemmon, S. Dak., and St. Paul, Minn., serving the intermediate point of Minneapolis, Minn.; *household goods*, as defined by the Commission, over irregular routes between Lemmon, S. Dak., on the one hand, and, on the other, points in Minnesota. Vendee is authorized to operate as a *common carrier* in South Dakota, Wyoming, Illinois and Iowa. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6520. Authority sought for purchase by MOORE'S TRUCKING CO., Stelton Road, New Market, N. J., of the operating rights of SHEPHARD WAREHOUSES, INC., 667 Washington Street, New York, N. Y., and for acquisition by LILLIAN MOORE, also of New Market, of control of such rights through the purchase. Applicant's attorney: Martin Werner, 295 Madison Avenue, New York 17, New York, N. Y. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over irregular routes between points in New York, New Jersey and Connecticut within 35 miles of New York, N. Y., including New York, N. Y. Vendee is authorized to operate as a *common carrier* in New Jersey, New York and Pennsylvania. Application has not been filed for temporary authority under section 210a (b).

No. MC–F 6521. Authority sought for purchase by OLD COLONY TRANSPORTATION CO., INC., 56 Prospect Street, New Bedford, Mass., of the operating rights of LINCOLN MOTOR EXPRESS, INC., (PHILIP STROME, RECEIVER), 73 Washington Street, Salem, Mass., and for acquisition by GEORGE VIGEANT, also of New Bedford, of control of such rights through the purchase. Applicants' representative: George Vigeant, Jr., Vice-President, Old Colony Transportation Co., Inc., 56 Prospect Street, New Bedford, Mass. Operating rights sought to be transferred: *General commodities*, with certain exceptions including household goods and commodities in bulk, as a *common carrier* over regular routes between Boston, Mass., and Beverly, Mass., serving all intermediate and certain off-route points; *groceries, meats*, and *agricultural commodities*, between

Revere, Mass., and Lynn, Mass., and between Salem, Mass., and Beverly, Mass., serving all intermediate points. Vendee is authorized to operate as a *common carrier* in Massachusetts, Rhode Island, New York, New Jersey and Connecticut. Application has been filed for temporary authority under section 210a (b).

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-2235]

OPERATOR CONSOLIDATED MINES CO.

ORDER AND NOTICE OF HEARING

FEBRUARY 18, 1957.

I. Operator Consolidated Mines Company (hereinafter called "registrant"), a corporation organized and incorporated under the laws of the State of Nevada, filed an application for registration of its common stock, ten cents ($.10) par value, with the San Francisco Mining Exchange ("the Exchange") on October 25, 1935, on Form 10, pursuant to section 12 of the Securities Exchange Act of 1934 ("the 1934 act") and the rules and regulations adopted by the Commission thereunder, and filed a duplicate original Form 10 with the Commission. The registration of such securities on the Exchange became effective on June 1, 1936.

II. On January 10, 1957, registrant filed with the Commission a current report on Form 8-K, pursuant to section 13 of the 1934 act, for the month of December, 1956. The Commission has reason to believe that the Form 8-K so filed was false and misleading in the following regards:

1. In claiming an exemption from registration under the Securities Act of 1933 ("the 1933 act") for the issuance and sale to California Uranium Mines, Inc. ("California Uranium") of 1,360,000 shares of registrant's common stock, pursuant to an agreement of lease and option of November 27, 1956 which provided for the transfer to registrant by Ajax Tungsten Corporation ("Ajax") of certain interests in various mining claims and equipment in the New Coso Mining District, Inyo County, California. In this regard registrant falsely stated that 1,133,840 shares of said total shares had previously been registered with the Commission under the 1933 act and omitted to state that a public distribution of some or all of said total shares was intended to be made without registration, in violation of the 1933 act.

2. In representing that the property acquired by registrant from Ajax under the agreement was more than adequate consideration for said 1,360,000 shares valued at par, issued by registrant to California Uranium, but also representing that the only consideration to be received by Ajax as seller of the property was $65,000 in cash and minimum monthly production royalties. In this regard the only disclosed consideration paid by California Uranium for said 1,360,000 shares was $15,000 paid by California Uranium to Ajax as a down payment on the said $65,000 to be paid to Ajax on registrant's behalf.

3. In representing that there was no existing or prior relationship whatsoever with registrant between California Uranium or Ajax, directly or indirectly, other than that Archie B. Meiklejohn is Secretary of both registrant and California Uranium.

III. *It is ordered*, That a public hearing, pursuant to section 19 (a) (2) of the 1934 act, be held at 10:00 a. m., P. s. t., on Wednesday, March 13, 1957, at the offices of the Los Angeles Branch office of the Commission, Room 1737, U. S. Post Office and Court House, Los Angeles, California, to determine whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the common stock of registrant on the San Francisco Mining Exchange for failure to comply with section 13 of the act and the rules and regulations adopted thereunder, as set forth in paragraph II above.

It is further ordered, That Mr. William W. Swift is hereby designated and assigned as Hearing Officer in this proceeding and is authorized to exercise the powers and perform the duties specified in the rules of practice of the Commission and any other duties which he may be authorized to perform in accordance with law.

Notice of such hearing is hereby given to registrant, the San Francisco Mining Exchange and to any other person or persons whose participation in such proceeding may be necessary or appropriate in the public interest or for the protection of investors. Any such further persons desiring to be heard in such proceeding should file with the Hearing Officer or the Secretary of the Commission on or before March 6, 1957, his application therefor as provided by the rules of practice of the Commission, setting forth therein any of the above matters or issues of fact or law upon which he desires to be heard and any additional issues he deems raised by the aforesaid order.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 57-1460; Filed, Feb. 26, 1957; 8:52 a. m.]

[File No. 70-3541]

AMERICAN NATURAL GAS CO. AND MICHIGAN CONSOLIDATED GAS CO.

ORDER AUTHORIZING ISSUE AND SALE OF COMMON STOCK BY PARENT COMPANY PURSUANT TO UNDERWRITTEN RIGHTS OFFERING, AND CHARTER AMENDMENT BY SUBSIDIARY, AND ISSUE AND SALE OF COMMON STOCK BY SUCH SUBSIDIARY TO PARENT COMPANY

FEBRUARY 20, 1957.

American Natural Gas Company ("American Natural"), a registered holding company, and its subsidiary Michigan Consolidated Gas Company ("Michigan Consolidated") have filed a joint application-declaration and amendments thereto pursuant to sections 6 (a), 6 (b), 7, 10, and 12 (c) of the Public Utility Holding Company Act of 1935 ("act") and Rules U-42 and U-50 thereunder, regarding the following proposed transactions:

I. *American Natural issue of common stock.* On or about February 27, 1957, American Natural proposes to issue to holders of its 4,421,132 outstanding shares of common stock (par value $25 per share) transferable warrants, expiring on or about March 14, 1957, to purchase 442,114 additional shares of its common stock. The warrants will evidence a number of rights equal to the number of shares outstanding, and 10 rights will be required to purchase each share of the additional common stock. The company has arranged for its New York transfer agent, without charge to stockholders, to take orders (subject to the agent's ability to find a seller or purchaser, as the case may be) to buy sufficient rights (not exceeding 9) to permit the holder to purchase one or more full shares, or to sell rights (not exceeding 9) not required to complete a subscription.

Each holder of outstanding shares of American Natural's common stock will also be given the privilege of subscribing at the subscription price for any number of shares of the additional common stock not purchased through the exercise of rights, subject to allotment if sufficient shares are not available to meet the demand. Allotments will be made proportionately to the number of rights exercised, not to the number of shares requested.

Prior to any offering to holders of outstanding shares of its common stock, American Natural proposes, in accordance with the competitive bidding requirements of Rule U-50, publicly to invite bids for the purchase of such shares of additional common stock as shall not be purchased through the exercise of rights or under the conditional purchase privilege.

The price at which the additional common stock will be offered to holders of American Natural common stock, and to be paid by the successful bidders for the unsubscribed shares, will be determined by the company at least 24 hours prior to the time for submission of bids. Such price will be not more than the last reported sale price of American Natural common stock on the New York Stock Exchange at the time the price is so determined, and not less than such last reported sale price less 15 percent.

American Natural may stabilize the price of its common stock for the purpose of facilitating the offering. Such stabilizing transactions, if any, will be effected by the purchase of common stock on the stock exchanges where it is listed or traded, in the open market or otherwise. Such stabilizing activities, if any, will not begin prior to one day before determination of the subscription price, and may be terminated at any time, and in any case not later than one hour after the time fixed for the acceptance of a bid for the purchase of unsubscribed stock. In connection with such stabilizing transactions American Natural will at no time acquire a long position in shares of its common stock in excess of 10 percent of the number of additional shares of common stock being offered. American Natural proposes to sell any shares acquired in stabilizing transactions in ordinary brokerage transactions on the New York Stock Exchange.

II. *Michigan Consolidated amendment of charter and issue of common stock.* Michigan Consolidated, which now has outstanding 5,477,000 shares of 5,500,000 authorized shares of common stock (par value $14 per share), proposes to increase its authorized common stock to 7,700,000 shares by amendment to its Certificate of Incorporation, pursuant to the general corporate laws of the State of Michigan.

Thereafter, Michigan Consolidated proposes to issue and sell to American Natural, and the latter proposes to buy, 1,786,000 shares of Michigan Consolidated's common stock for $25,004,000 in cash, representing the aggregate par value thereof. Funds for this purpose will be provided through the sale by American Natural of the additional shares of its common stock, as aforesaid.

Michigan Consolidated further proposes to pay to American Natural a special cash dividend of $4,998,000 out of its retained earnings (amounting to $9,975,456 at September 30, 1956), and to issue and sell to American Natural, and the latter proposes to buy, an additional 357,600 shares of common stock of Michigan Consolidated for $4,998,000 in cash.

The sale to American Natural of the 1,786,000 additional shares of its common stock for $25,004,000 in cash will provide Michigan Consolidated with funds to repay or reduce short-term loans incurred for construction purposes and to pay construction costs. The payment by Michigan Consolidated to American Natural of the $4,998,000 cash dividend and the concurrent reinvestment of the same amount by American Natural in 357,000 additional shares of Michigan Consolidated's common stock will have the effect of converting this portion of Michigan Consolidated's retained earnings into common stock, assuring a larger permanent common equity for the latter company.

Michigan Consolidated states that during the spring or early summer of 1957 it proposes to issue and sell (pursuant to a later filing with this Commission) from $25,000,000 to $30,000,000 of bonds, the proceeds to be used for construction purposes and to repay any short-term loans then outstanding.

Michigan Public Service Commission, the regulatory commission of the State in which Michigan Consolidated is organized and doing business, has authorized the amendment of the company's charter and its issuance and sale to American Natural of 2,143,000 additional shares of its common stock as herein proposed.

The fees and expenses to be incurred by American Natural in connection with the proposed transactions are estimated at $202,000, including fees for professional services as follows: Accounting, $32,000; legal, $22,000; engineering, $7,500. The fees and expenses to be incurred by Michigan Consolidated are estimated at $82,000, including fees for professional services as follows: Legal, $2,000. The fee of Brown, Wood, Fuller, Caldwell & Ivey, counsel for the prospective underwriters, is estimated at $8,500, and it will be payable by the successful bidders in the event of acceptance of a bid for the underwriting. Supporting data have been filed with respect to the fees of the professional claimants, and the amounts do not apepar to be unreasonable.

Due notice having been given of the filing of said application-declaration (Holding Company Act Release No. 13338), and a hearing not having been requested of or ordered by the Commission; and the Commission finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the application-declaration, as amended, be granted and permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said application-declaration as amended be, and hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rules U-50 and U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 57-1461; Filed, Feb. 26, 1957; 8:52 a. m.]

[File No. 70-3553]

GENERAL PUBLIC UTILITIES CORP.

NOTICE OF FILING REGARDING PROPOSAL TO ISSUE AND SELL ADDITIONAL SHARES OF COMMON STOCK THROUGH SUBSCRIPTION WARRANTS

FEBRUARY 20, 1957.

Notice is hereby given that General Public Utilities Corporation ("GPU"), a registered holding company, has filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), an application-declaration regarding a proposal to issue and sell through subscription warrants 646,850 additional shares of its authorized but unissued common stock. Applicant-declarant has designated sections 6 (a), 7 and 12 (c) of the act, and Rules U-42 and U-50 promulgated thereunder, as applicable to the proposed transactions.

All interested persons are referred to the application-declaration on file at the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

GPU proposes to offer to the holders of its outstanding common stock rights to subscribe for additional shares of GPU common stock at the rate of one additional share of common stock for each fifteen shares of GPU common stock held of record, at a price which will be not more than the closing price on the New York Stock Exchange on the day prior to the record date and not less than 85 percent thereof. The subscription period will expire approximately 18 days

after the final date of the mailing of the subscription warrants.

In lieu of issuing rights to record holders of less than fifteen shares, GPU will purchase such rights for cash and remit such cash to said record holders. In addition, GPU will, upon request of initial record holders of warrants, purchase such number of the rights represented thereby as such holders do not desire to exercise. Holders of rights in excess of fifteen but not exactly divisable by fifteen may, upon subscribing for the maximum number of whole shares covered by such rights, subscribe for one additional share without furnishing additional rights, subject to availability to GPU of such additional shares. If additional shares are not available GPU will purchase the excess rights. During the subscription period, and for not more than thirty business days thereafter, stockholders and warrant holders will have the privilege of purchasing from GPU unsubscribed shares to the extent such shares are available for such purpose, at the prevailing market price but not less than the subscription price.

The rights offering will not be underwritten, but GPU will utilize the services of security dealers to solicit the exercise by initial record holders of rights, and to participate in the disposition of shares, if any, not subscribed or otherwise disposed of by GPU under the terms of the rights offering. The price or prices at which such sale of unsubscribed shares will be effected through security dealers will be fixed by GPU at not higher than prevailing market prices plus 30 cents per share, and not less than the subscription price. Fees for the services of security dealers in connection with the rights offering will be fixed by GPU.

In connection with the rights offering GPU may effect stabilization transactions in its common stock or rights, but at no time will GPU acquire a net long position exceeding 64,685 shares.

The net proceeds realized by GPU from the sale of the additional common stock will be applied (a) to repay GPU's outstanding bank loans and (b) to the making of additional investments in GPU's domestic subsidiary companies, or to the reimbursement of GPU's treasury for such investments theretofore made, and for other corporate purposes.

The fees and expenses (other than security dealers' fees) to be incurred by GPU in connection with the proposed transactions are estimated at an aggregate of $190,000, including counsel fees—$15,000; depository agent's fees and expenses—$35,000; clearing agent's fees and expenses—$7,000; accountant's fees—$7,000; and registrar's fees $1,500.

GPU requests that the Commission grant an exemption from the competitive bidding requirements of Rule U-50 to the extent such rule may be applicable to the sale of unsubscribed shares.

The application-declaration states that no State or Federal regulatory body, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than March 6, 1957, request of this Commission in writing that a hearing be held in respect of such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the application-declaration which he desires to controvert; or he may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the application-declaration as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 thereof, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File Nos. 54-219 and 59-13]

STANDARD SHARES, INC.

ORDER GRANTING REQUEST FOR EXTENSION OF TIME TO CARRY OUT PROVISION OF PLAN

FEBRUARY 20, 1957.

On February 16, 1956, the Commission approved a plan filed by Standard Shares, Inc. ("Shares"), a registered holding company which was formerly named Standard Power & Light Corporation and which is in process of transformation into an investment company, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("act"), which plan proposes, among other things, the disposition of Shares' holdings of common stock of Duquesne Light Company ("Duquesne") to less than 5 percent of the number of shares of such stock outstanding. One of the steps of such disposition is the reduction of such holdings by not less than 100,000 shares by March 12, 1957. (Holding Company Act Release No. 13101). On March 13, 1956, the United States District Court for the District of Delaware approved the Commission's Findings and Opinion and Order on said plan and ordered the enforcement and the carrying out of the terms and provisions of said plan.

In its order of February 16, 1956, the Commission reserved jurisdiction with respect to "entertaining of such further proceedings, entering of such further orders and the taking of such further action as the Commission may deem to be necessary or appropriate in connection with said plan, as amended, transactions a part of or incidental thereto, and the consummation thereof, as may be deemed to be necessary or appropriate to effectuate the requirements of section 11 (b) of the act." In its order of March 13, 1956, the United States District Court for the District of Delaware reserved jurisdiction "to entertain such further proceedings, to make such further findings, to enter such supplemental orders and decrees, to take such further action, and to grant such other and further relief as it may deem appropriate in connection with the Plan, the transactions incident thereto, and the consummation thereof, including the review, if application therefor is duly made, of subsequent orders of the Commission relating to the Plan."

Shares holds 321,000 shares of Duquesne stock of which about 150,000 shares are low cost tax basis shares and expects during April or May, 1957, to acquire 246,500 additional shares of which at least 100,000 shares are to be low cost tax basis shares. Shares states that it has found it impracticable to sell the entire 100,000 shares of low cost tax basis stock except by means of a secondary distribution and registration under the Securities Act of 1933. However, in view of the anticipated acquisition by Shares of the 246,500 additional shares of Duquesne stock, Shares now desires to dispose of approximately 250,000 shares of low cost tax basis Duquesne stock, as promptly as practicable. It, therefore, requests approval of an amendment to its plan extending the time to July 1, 1957, in which it is required to dispose of at least 100,000 shares of Duquesne stock, or such later date as the Commission may fix upon subsequent application. Such extension of time will permit the disposition by Shares of 250,000 shares of Duquesne common stock by means of one secondary distribution and one registration statement under the Securities Act of 1933 and will also permit Shares to retain the Duquesne common stock with a high cost tax basis, a feature asserted to be essential to its long range investment company program.

The Commission having considered the entire record in connection with said request by Shares for an extension of time to comply with its order of February 16, 1956 and finding that the applicable provisions of the act and the rules promulgated thereunder are satisfied and deeming it appropriate in the public interest and in the interest of investors to approve said application to amend said plan of Shares:

It is ordered, Pursuant to section 11 (e) and other applicable provisions of the act, that said application to amend said plan be, and the same hereby is, approved, subject to the condition that this order shall not be operative to authorize the requested extension of time for compliance with said order of this Commission until said Court, upon application thereto, enters an order granting such extension of time.

It is further ordered, That jurisdiction be, and it hereby is, reserved to entertain such further proceedings, enter such further orders and to take such further action in connection with said plan, as amended, transactions a part of or incidental thereto, and the consummation thereof, as may be deemed to be necessary or appropriate to effectuate the requirements of section 11 (b) of the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

Subchapter B—Trade Practice Conference Rules

[File No. 21-479]

PART 25—COMBINATION STORM WINDOW AND DOOR INDUSTRY

PROMULGATION OF TRADE PRACTICE RULES

Due proceedings having been held under the trade practice conference procedure in pursuance of the act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission:

It is now ordered, That the trade practice rules as hereinafter set forth, together with the industry commitee provision which follows said rules, which have been approved by the Commission in this proceeding, be promulgated as of February 28, 1957.

Statement by the Commission. Trade practice rules for the Combination Storm Window and Door Industry, as hereinafter set forth, are promulgated by the Federal Trade Commission under its trade practice conference procedure.

The industry for which these rules are established is composed of persons, firms, corporations, and organizations engaged in the manufacture, sale, or distribution of combination storm windows and doors (see definition of "Industry Products" preceding the rules). According to available information, the aggregate annual sales of industry products at factory level approximate $200,000,000.

Primary objectives of the rules are the maintenance of free and fair competition and the elimination and prevention of unfair methods of competition, unfair acts or practices, and other trade abuses. The rules are to be applied to such end and to the exclusion of any acts or practices which suppress competition or otherwise restrain trade.

Proceedings for the establishment of rules were instituted pursuant to an industry application. A general trade practice conference was held in New York City on April 24, 1956, at which rules were proposed for Commission consideration. Thereafter, a draft of proposed rules, which included a proposed industry committee provision, was published by the Commission and made available to all industry members and other interested or affected parties upon public notice whereby they were afforded opportunity to present their views, including such pertinent information, suggestions, amendments, or objections as they desired to offer, and to be heard in the premises. Pursuant to such notice a public hearing was held in Washington, D. C., on November 2, 1956, and all matters there presented, or otherwise received in the proceeding were duly considered.

Thereafter, and upon full consideration of the entire matter, final action was taken by the Commission whereby it approved the rules and the industry committee provision as hereinafter set forth.

Such rules become operative thirty (30) days from the date of promulgation.

The rules. These rules promulgated by the Commission are designed to foster and promote the maintenance of fair competitive conditions in the interest of protecting industry, trade, and the public. It is to this end, and to the exclusion of any act or practice which fixes or controls prices through combination or agreement, or which unreasonably restrains trade or suppresses competition, or otherwise unlawfully injures, destroys, or prevents competition, that the rules are to be applied.

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

AUTHORITY: §§ 25.0 to 25.201 issued under sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45.

General statement. The unfair trade practices embraced in the rules herein are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices, prohibited under laws administered by the Federal Trade Commission, and appropriate proceedings in the public interest will be taken by the Commission to prevent the use, by any person, partnership, corporation, or other organization subject to its jurisdiction, of such unlawful practices in commerce.

§ 25.0 *Definitions:* As used in this part, the terms "industry member" and "industry products" shall have the following meanings, respectively:

(a) *Industry member.* Any person, firm, corporation, or organization engaged in the manufacture, sale, or distribution of industry products as hereinafter defined.

(b) *Industry products.* Industry products consist of combination storm windows and doors. The storm windows are designed for permanent attachment and are either the self-storing type or the interchangeable type. The windows basically consist of a frame with channels, and glass (or other transparent material) inserts and screen inserts. The storm doors basically consist of a frame and glass (or other transparent material) inserts and screen inserts.

§ 25.1 *Deception (general).* (a) In the sale, offering for sale, or distribution of industry products, it is an unfair trade practice for any industry member to make any representation which, directly or by implication, or through failure adequately to disclose additional relevant information, has the capacity and tendency to deceive purchasers or prospective purchasers in any material respect, including, but not limited to, representations relating to construction, design, model, origin, manufacture, quality, strength, utility, durability, or life expectance, of such products, or the benefits to be derived from the use thereof, or with respect to the need for repair or maintenance of such products or any service or services to be supplied to purchasers or prospective purchasers of the products.

(b) Among the practices inhibited by this section are the following:

(1) Representing that savings in fuel, or reduction in heat loss, will result from the use of storm windows or doors, when such representation is false or misleading in any material respect.

(2) Representing or implying contrary to fact that a building equipped with combination storm windows and/or doors affords positive protection against prowlers, burglars, or other individuals unlawfully attempting entry into such building.

(3) Representing or implying that combination storm windows or doors will not shrink, rot, rust, warp, twist, sag, or otherwise become unserviceable, when such is not the fact.

(4) Representing or implying that the metal portions of storm windows and/or doors are made of "aircraft aluminum," or are of extruded metal, when such is not the fact.

(c) The inhibitions of this section are applicable with respect to every species of advertisement or form of representation, whether in a newspaper or other periodical, telephone directory, sales catalog, sales promotional literature, radio or television broadcast, or other media, or whether in the form of a mark, tag, or label on, affixed to, or accompanying, the product. [Rule 1]

§ 25.2 *Bait advertising.* It is an unfair trade practice for an industry member to offer for sale any industry product when the offer is not a bona fide effort to sell the product so offered.

NOTE: In determining whether there has been a violation of this section, consideration will be given to acts or practices indicating that the offer was not made in good faith for the purpose of selling the advertised product, but was made for the purpose of contacting prospective purchasers and selling them a product or products other than the products offered. Among acts or practices which will be considered in making that determination are the following:

(a) The creation, through the initial offer or advertisement, of a false impression of the grade, quality, make, value, currency of model, size, usability, or origin of the product offered.

(b) The refusal to show, demonstrate, or sell the product offered in accordance with the terms of the offer.

(c) The disparagement, by acts or words, of the product offered.

(d) The showing, demonstrating, and in the event of sale, the delivery, of a product which is unusable or impractical for the purpose represented or implied in the offer.

(e) The refusal, in the event of sale of the product offered, to deliver such product to the buyer within a reasonable time thereafter.

(f) The failure to have available a quantity of the advertised product sufficient to meet reasonably anticipated demands.

It is not necessary that each act or practice set forth be present in order to establish that a particular offer is violative of this section.

[Rule 2]

§ 25.3 *Deceptive pricing.* (a) It is an unfair trade practice for any member of the industry to represent or imply, in advertising or otherwise, that an industry product may be purchased for a specified price when such is not the fact; or that an industry product is being offered for sale at a reduced price when such is not the fact; or otherwise to deceive purchasers or prospective purchasers with respect to the price of products offered for sale.

(b) Among the practices inhibited by this section are:

(1) Representing or implying that a stated price is for a complete functional combination storm window or door when in fact the product so priced is deficient as to parts necessary and usual to the proper functioning and appearance of such combination storm window or door (such as hinges, glass, screening, frames, etc.).

(2) Representing or implying that the price of combination storm windows or doors includes certain services, such as installation, adjustments, weather stripping, etc., or includes parts or accessories such as door closers, grilles, etc., when such is not the fact.

(3) Representing or implying that the selling price of any combination storm window or door has been reduced from what is in fact a fictitious price, or that such price is a reduced or special price when it is in fact the regular selling price of such combination storm window or door, or when over a substantial period of time the alleged "reduced" or "special" price has been the price at which such products customarily have been sold.

(4) Representing or implying that prices applicable only to certain sizes of combination storm windows or doors apply to other or all sizes of such windows or doors.

(5) Making or publishing any false, misleading, or deceptive representation

concerning installment sales contracts to be used in the sale of industry products, the terms or conditions of such contracts, the down payment to be required, the rate of interest or financing cost to be charged, or respecting any other matters relative to such contracts.

(6) Representing or implying, contrary to fact, that combination storm windows or doors may be purchased at factory prices ("factory to you," etc.).

(b) It is also an unfair trade practice to sell, or offer for sale, any combination storm window or door at a price less than the cost thereof to the seller as a "loss leader," used in inducing, and sold only in combination with, the purchase of other merchandise and/or services on which the seller recoups such loss, when this practice has the capacity and tendency or effect of misleading or deceiving the purchasing public. [Rule 3]

§ 25.4 *Guarantees, warranties, etc.* (a) It is an unfair trade practice to represent, in advertising or otherwise, that any industry product is "guaranteed" unless the nature and extent of such guarantee is conjunctively disclosed and without deceptively minimizing the terms and conditions relating to the obligations of the guarantor.

(b) It is also an unfair trade practice to use, or cause to be used, any guarantee in which the obligations of the guarantor are impracticable of fulfillment, or in respect to which the guarantor fails or refuses to observe his liabilities thereunder.

(c) This section shall be applicable not only to guarantees but also to warranties, to purported guarantees and warranties, and to any promise or representation in the nature of a guarantee or warranty. [Rule 4]

§ 25.5 *Use of the word "free."* In connection with the sale, offering for sale, or distribution of industry products, it is an unfair trade practice to use the word "free," or any other word or words of similar import, in advertisements or in other offers to the public, as descriptive of an article of merchandise, or service, which is not an unconditional gift, under the following circumstances:

(a) When all the conditions, obligations, or other prerequisites to the receipt and retention of the "free" article of merchandise or service offered are not clearly and conspicuously set forth at the outset so as to leave no reasonable probability that the terms of the offer will be misunderstood; and, regardless of such disclosure:

(b) When, with respect to any article of merchandise required to be purchased in order to obtain the "free" article or service, the offerer (1) increases the ordinary and usual price of such article of merchandise, or (2) reduces its quality, or (3) reduces the quantity or size thereof.

NOTE: The disclosure required by paragraph (a) of this section shall appear in close conjunction with the word "free" (or other word or words of similar import) wherever such word first appears in each advertisement or offer. A disclosure in the form of a footnote, to which reference is made by use of an asterisk or other symbol placed next to the word "free," will not be regarded as compliance.

[Rule 5]

§ 25.6 *Deceptive testimonials or depictions.* It is an unfair trade practice for a member of the industry to use any testimonial of a user of any industry product or of any other person, or to use any picture or depiction thereof, which is false or which has the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers. [Rule 6]

§ 25.7 *Misrepresenting products as conforming to standard.* It is an unfair trade practice to represent, through advertising or otherwise, that any product of the industry conforms to any standard recognized in or applicable to the industry, when such is not the fact. [Rule 7]

§ 25.8 *Deceptive use of seals.* In the sale, offering for sale, or distribution of industry products, it is an unfair trade practice for any industry member to use a seal or insignia of any organization without the authorization of that organization, or to use any seal or insignia which is of such form or design, or contains such wording, as to simulate the seals or insignia which are issued by an organization for use with respect to other products, when the use thereof has the capacity and tendency or effect of deceiving purchasers or prospective purchasers.

NOTE: Seals of approval used by industry members should identify the organization issuing and/or authorizing the use of the seal. Such seal should be based on adequate inspection and tests of the industry member's products and not otherwise contravene the provisions of § 25.1 relating to deception generally.

[Rule 8]

§ 25.9 *Misrepresentation as to character of business.* It is an unfair trade practice for any industry member, in the course of or in connection with the sale of industry products, to represent, directly or indirectly, that he is a manufacturer of industry products, unless he owns and operates or directly controls a factory wherein such products are made, or in any other manner to misrepresent the character, extent, or type of his business. [Rule 9]

§ 25.10 *Deceptive use of trade or corporate names, trade-marks, etc.* The use of any trade name, corporate name, trade-mark, or other trade designation which has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public as to the character, name, nature, or origin of any product of the industry, or of any material used therein, or which is false or misleading in any other material respect, is an unfair trade practice. [Rule 10]

§ 25.11 *Substitution of products.* It is an unfair trade practice to make an unauthorized substitution of products, where such substitution has the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public, by—

(a) Shipping, delivering, or installing industry products which do not conform to samples submitted, to specifications upon which the sale is consummated, or to representations made prior to securing the order, without advising the purchaser of the substitution and obtaining his consent thereto prior to making shipment or delivery; or

(b) Falsely representing the reason for making a substitution. [Rule 11]

§ 25.12 *Misuse of terms "custom built," "made-to-order," etc.* In the sale, offering for sale, or distribution of combination storm windows or doors, it is an unfair trade practice to use the terms "custom built," "made-to-order," or any other words or terms of similar import, as descriptive of any combination storm window or door which has not been made in accordance with specifications as to the size, quality, composition, etc., supplied by or on behalf of the consumer-purchaser prior to the manufacture or assembly of the industry product, as distinguished from a combination storm window or door which is a ready-made or stock product. [Rule 12]

§ 25.13 *Defamation of competitors or false disparagement of their products.* The defamation of competitors by falsely imputing to them dishonorable conduct, inability to perform contracts, questionable credit standing, or by other false representations, or the false disparagement of competitors' products in any respect, or of their business methods, selling prices, values, credit terms, policies, or services, is an unfair trade practice. [Rule 13]

§ 25.14 *Imitation of trade-marks, trade names, etc.* The imitation or simulation of trade-marks, trade names, brands, or labels of competitors, with the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers, is an unfair trade practice. [Rule 14]

§ 25.15 *Coercing purchase of one product as a prerequisite to the purchase of other products.* The practice of coercing the purchase of one or more products as a prerequisite to the purchase of one or more other products, where the effect may be substantially to lessen competition or tend to create a monopoly or unreasonably to restrain trade, is an unfair trade practice. [Rule 15]

§ 25.16 *Procurement of competitors' confidential information.* It is an unfair trade practice for any member of the industry to obtain information concerning the business of a competitor by bribery of an employee or agent of such competitor, by false or misleading statements or representations, by the impersonation of one in authority, or by any other unfair means, and to use the information so obtained so as to injure said competitor in his business or to suppress competition or unreasonably restrain trade. [Rule 16]

§ 25.17 *Unfair threats of infringement suits.* The circulation of threats of suit for infringement of patents or trade-marks among customers or prospective customers of competitors, not made in good faith but for the purpose or with the effect of thereby harassing or intimidating such customers or prospective customers, or of unduly hampering, injuring, or pejudicing competitors in their business, is an unfair trade practice. [Rule 17]

§ 25.18 *Inducing breach of contract.* (a) Knowingly inducing or attempting to induce the breach of existing lawful contracts between competitors and their customers or their suppliers, or interfering with or obstructing the performance of any such contractual duties or services, under any circumstance having the capacity and tendency or effect of substantially injuring or lessening present or potential competition, is an unfair trade practice.

(b) Nothing in this section is intended to imply that it is improper to solicit the business of a customer of a competing industry member; nor is the section to be construed as in anywise authorizing any agreement, understanding, or planned common course of action by two or more industry members not to solicit business from the customers of either of them, or from customers of any other industry member. [Rule 18]

§ 25.19 *Commercial bribery.* It is an unfair trade practice for a member of the industry, directly or indirectly, to give, or offer to give, or permit or cause to be given, money or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, employees, or representatives of competitors' customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by such industry member or the maker of such gift or offer, or to influence such employers or principals to refrain from dealing in the products of competitors or from dealing or contracting to deal with competitors. [Rule 19]

§ 25.20 *Prohibited forms of trade restraints (unlawful price fixing, etc.)* [1]

[1] The inhibitions of this section are subject to Public Law 542, approved July 14, 1952, 66 Stat. 632 (the McGuire Act) which provides that with respect to a commodity which bears, or the label or container of which bears, the trade-mark, brand, or name of the producer or distributor of such commodity and which is in free and open competition with commodities of the same general class produced or distributed by others, a seller of such a commodity may enter into a contract or agreement with a buyer thereof which establishes a minimum or stipulated price at which such commodity may be resold by such buyer when such contract or agreement is lawful as applied to intrastate transactions under the laws of the State, Territory, or territorial jurisdiction in which the resale is to be made or to which the commodity is to be transported for such resale, and when such contract or agreement is not between manufacturers, or between wholesalers, or between brokers, or between factors, or between retailers, or between persons, firms, or corporations in competition with each other.

It is an unfair trade practice for any member of the industry, either directly or indirectly, to engage in any planned common course of action, or to enter into or take part in any understanding, agreement, combination, or conspiracy, with one or more members of the industry, or with any other person or persons, to fix or maintain the price of any goods or otherwise unlawfully to restrain trade; or to use any form of threat, intimidation, or coercion to induce any member of the industry or other person or persons to engage in any such planned common course of action, or to become a party to any such understanding, agreement, combination, or conspiracy. [Rule 20]

§ 25.21 *Exclusive deals.*[2] It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to lease or make a sale or contract for sale of any industry product, for use, consumption, or resale within any place under the jurisdiction of the United States, or fix a price charged therefor, or discount from, or rebate upon, such price, on the condition, agreement, or understanding that the lessee or purchaser thereof shall not use or deal in the goods of a competitor or competitors of the lessor or seller, where the effect of such lease, sale or contract for sale, or such condition, agreement, or understanding, may be to substantially lessen competition or tend to create a monopoly in any line of commerce. [Rule 21]

§ 25.22 *Prohibited discrimination* [1]—(a) *Prohibited discriminatory prices, rebates, refunds, discounts, credits, etc., which effect unlawful price discrimination.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to grant or allow, secretly or openly, directly or indirectly, any rebate, refund, discount, credit, or other form of price differential, where such rebate, refund, discount, credit, or other form of price differential, effects a discrimination in price between different purchasers of goods of like grade and quality, where either or any of the purchases involved therein are in commerce, and where the effect thereof may be substantially to lessen competition or tend to create a monopoly in any line of commerce, or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them: *Provided, however:*

[2] As used in this section, the word "commerce" means "trade or commerce among the several States and with foreign nations, or between the District of Columbia or any Territory of the United States and any State, Territory, or foreign nation, or between any insular possessions or other places under the jurisdiction of the United States, or between any such possession or place and any State or Territory of the United States or the District of Columbia or any foreign nation, or within the District of Columbia or any Territory or any insular possession or other place under the jurisdiction of the United States."

(1) That the goods involved in any such transaction are sold for use, consumption, or resale within any place under the jurisdiction of the United States, and are not purchased by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit, as supplies for their own use;

(2) That nothing contained in this paragraph shall prevent differentials which make only due allowance for differences in the cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered;

NOTE: Cost justification under the above proviso depends upon net savings in cost based on all facts relevant to the transactions under the terms of sub-paragraph (2) of this paragraph. For example, if a seller regularly grants a discount based upon the purchase of a specified quantity by a single order for a single delivery, and this discount is justified by cost differences, it does not follow that the same discount can be cost justified if granted to a purchaser of the same quantity by multiple orders for multiple deliveries.

(3) That nothing contained in this section shall prevent persons engaged in selling goods, wares, or merchandise in commerce from selecting their own customers in bona fide transactions and not in restraint of trade;

(4) That nothing contained in this paragraph shall prevent price changes from time to time where made in response to changing conditions affecting the market for or the marketability of the goods concerned, such as but not limited to obsolescence of seasonal goods, actual or imminent deterioration of perishable goods, distress sales under court process, or sales in good faith in discontinuance of business in the goods concerned;

(5) That nothing contained in this section shall prevent the meeting in good faith of an equally low price of a competitor, or the services or facilities furnished by a competitor.

NOTE: In complaint proceedings, justification of price differentials under subparagraphs (2), (4) and (5) of this paragraph of this section is a matter of affirmative defense to be established by the person or concern charged with price discrimination.

(b) *Examples of price differential practices.* The following are examples of price differential practices to be considered as subject to the prohibitions of paragraph (a) of this section when involving goods of like grade and quality which are sold for use, consumption, or resale within any place under the jurisdiction of the United States, and which are not purchased by schools, colleges, universities, public libraries, churches, hospitals, and charitable institutions not operated for profit, as supplies for their own use, and when—

(1) The commerce requirements specified in paragraph (a) of this section are present; and

(2) The price differential has a reasonable probability of substantially lessening competition or tending to create a monopoly in any line of commerce, or

of injuring, destroying, or preventing competition with the industry member or with the customer receiving the benefit of the price differential, or with customers of either of them; and

(3) The price differential is not justified by cost savings (see subparagraph (2) of paragraph (a) of this section); and

(4) The price differential is not made in response to changing conditions affecting the market for or the marketability of the goods concerned (see subparagraph (4) of paragraph (a) of this section); and

(5) The lower price was not made to meet in good faith an equally low price of a competitor (see subparagraph (5) of paragraph (a) of this section).

Example No. 1. At the end of a given period an industry member grants a discount to a customer equivalent to a fixed percentage of the total of the customer's purchases during such period and fails to grant such discount to other customers under like conditions.

Example No. 2. An industry member sells goods to one or more of his customers at a higher price than he charges other customers for like merchandise. It is immaterial whether or not such discrimination is accomplished by misrepresentation as to the grade and quality of the products sold.

(c) *Prohibited brokerage and commissions.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, to pay or grant, or to receive or accept, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, except for services rendered in connection with the sale or purchase of goods, wares, or merchandise, either to the other party to such transaction or to an agent, representative, or other intermediary therein where such intermediary is acting in fact for or in behalf, or is subject to the direct or indirect control, of any party to such transaction other than the person by whom such compensation is so granted or paid.

(d) *Prohibited advertising or promotional allowances, etc.* It is an unfair trade practice for any member of the industry engaged in commerce to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of a customer of such member in the course of such commerce as compensation or in consideration for any services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products or commodities manufactured, sold, or offered for sale by such member, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products or commodities.

(e) *Prohibited discriminatory services or facilities.* It is an unfair trade practice for any member of the idustry engaged in commerce to discriminate in favor of one purchaser against another purchaser or purchasers of a commodity bought for resale, with or without processing, by contracting to furnish or furnishing, or by contributing to the furnishing of, any services or facilities connected with the processing, handling, sale, or offering for sale of such commodity so purchased upon terms not accorded to all competing purchasers on proportionally equal terms.

(f) *Inducing or receiving an illegal discrimination in price.* It is an unfair trade practice for any member of the industry engaged in commerce, in the course of such commerce, knowingly to induce or receive a discrimination in price which is prohibited by the foregoing provisions of this section.

NOTE: Paragraph (f) of this section is a restatement of section 2 (f) of the Clayton Act as amended. In a complaint proceeding under this section of said act, in order to make out a prima facie violation, the Commission must show that the favored buyer induced or received the lower price knowing, or knowing facts from which he should have known, that such price was violative of section 2 (a) of said act and not justified under subparagraphs (2), (4) or (5) of paragraph (a) of this section. When, in any such proceeding, the issue is limited to the question of whether the price differential involved made only due allowance for differences in cost of manufacture, sale, or delivery resulting from the differing methods or quantities in which the goods were sold and delivered, the Commission may establish a prima facie case in a number of ways, including:

(1) By showing that the buyer paying the lower price knew that the methods by, and quantities in, which the goods were sold and delivered to him by the seller were the same as in the case of the competing buyer or buyers paying the higher price or prices; or

(2) By showing, when there is a difference in the methods or quantities in which the goods were sold and delivered by the seller to the buyer than in the case of the competing buyer or buyers paying the higher price or prices, that the buyer paying the lower prices knew the nature and extent of such differences and knew or should have known that they could not have resulted in sufficient cost savings of the kind and character specified as to justify the price differential.

(g) *Purchases by U. S. Government—Applicability of Robinson-Patman Anti-discrimination Act to same.* In an opinion submitted to the Secretary of War under date of December 28, 1936, the U. S. Attorney General advised that the Robinson-Patman Antidiscrimination Act "is not applicable to Government contracts for supplies." (38 Opinions, Attorney General 539.)

§ 25.201 *Industry committee.* The provisions of § 16.1 of this subchapter shall be applicable to an industry committee established under this part.

Promulgated by the Federal Trade Commission February 28, 1957.

[SEAL] ROBERT M. PARRISH, *Secretary.*

TITLE 7—AGRICULTURE

Chapter VII—Commodity Stabilization Service (Farm Marketing Quotas and Acreage Allotments), Department of Agriculture

PART 730—RICE

SUBPART—REGULATIONS FOR ESTABLISHMENT OF FARM ACREAGE ALLOTMENTS AND NORMAL YIELDS FOR 1957 CROP OF RICE

Correction

In Federal Register Document 57-8944, published at page 8423 of the issue for November 3, 1956, the introductory text of § 730.818 should be corrected by changing the word "now" to read "new".

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 997—FILBERTS GROWN IN OREGON AND WASHINGTON

ADMINISTRATION RULE FOR OBTAINING CANDIDATES IN CONJUNCTION WITH NOMINATION ELECTIONS FOR CERTAIN MEMBERS AND ALTERNATE MEMBERS OF FILBERT CONTROL BOARD

Notice of a proposed administrative rule setting forth an alternative method of obtaining candidates for positions on the Filbert Control Board was published in the FEDERAL REGISTER issue of February 9, 1957 (22 F. R. 849). The said Filbert Control Board is the administrative agency for the operation of Marketing Agreement No. 115, as amended, and Marketing Order No. 97, as amended (7 CFR Part 997) regulating the handling of filberts grown in Oregon and Washington, effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

In said notice, an opportunity was afforded interested persons to submit written data, views, or arguments relating thereto. No such written communications were received within the period set forth.

Therefore, after consideration of all relevant matters, it is hereby ordered that, on and after the date of publication of this document in the FEDERAL REGISTER, the following administrative rule shall be in effect:

§ 997.432 *Nominations.* Whenever petitions submitted pursuant to § 997.32 (b) fail to result in the submission of at least twice as many names as there are positions to be filled, the Board shall request all County Agricultural Agents in filbert producing counties which produced an average of at least 10 percent of the total production in the area of production during the preceding fiscal year, to recommend a qualified grower for each position to be included on the ballot.

It is hereby found and determined that delaying the effective date of this order later than the date of its publication in the FEDERAL REGISTER is impracticable, unnecessary, and contrary to the public interest (see 5 U. S. C. 1001 et seq.) because the alternate procedure established hereby will be needed to obtain an adequate number of candidates for positions on the Filbert Control Board, a nominee for each position must be elected by growers from among such candidates and submitted to the Secretary by March 20 each year, and the time available on and after the publication of this order in the FEDERAL REGISTER will be necessary to enable nominations to be obtained and submitted to the Secretary by such date.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: February 25, 1957.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator, Marketing Services.*

[F. R. Doc. 57-1528; Filed, Feb. 27, 1957; 8:58 a. m.]

[Lime Order 3, Amdt. 5]

PART 1001—LIMES GROWN IN FLORIDA

QUALITY AND SIZE REGULATION

Findings. (1) Pursuant to the marketing agreement and Order No. 101 (7 CFR Part 1001) regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations of the Florida Lime Administrative Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) in that, as hereinafter set forth, the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this regulation relieves restriction on the handling of limes.

Order, as amended. The provisions in subparagraph (2) (ii) of paragraph (b) of § 1001.303 (Lime Order 3, as amended; 21 F. R. 5033, 5821, 6159, 7021, 9741) are hereby further amended, for the period from 12:01 a. m., e. s. t., March 1, 1957, to 12:01 a. m., e. s. t., April 1, 1957, so as to permit the handling of large fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which grade at least U. S. No. 2 Mixed Color and are of a size not smaller than 1⅝ inches in diameter: *Provided*, That, not to exceed 5 percent, by count, of the limes in any container may be smaller than 1⅝ inches in diameter. Otherwise, the provisions of the aforesaid subparagraph (2) (ii) of paragraph (b) of § 1001.303 shall remain in full force and effect.

As used herein, the term "U. S. No. 2 Mixed Color" shall have the same meaning as when used in the United States Standards for Persian (Tahiti) Limes (7CFR 51.1001 et. seq.; 18 F. R. 7107).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: February 26, 1957.

[SEAL] S. R. SMITH, *Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 141e—BACITRACIN AND BACITRACIN-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146e—CERTIFICATION OF BACITRACIN OR BACITRACIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

Correction

In F. R. Doc. 57-1320, appearing at page 1036 of the issue for Wednesday, February 20, 1957, the following changes should be made:

1. In item 1, the section number "§ 141.403" should read "§ 141e.403" and the three references in that section to "§ 141.401" should read "§ 141e.401".

2. In the amendatory language of item 6, "Section 146.403" should read "Section 146e.403".

3. In item 6d, the paragraph heading should read "(d) *Requests for certification; samples.*"

4. Item 7c should read as follows:

c. Paragraph (a) (4) is amended by changing the words "bacitracin or zinc bacitracin" to read "bacitracin, zinc bacitracin, or bacitracin methylene disalicylate".

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter D—Military Reservations and National Cemeteries

PART 553—NATIONAL CEMETERIES

MISCELLANEOUS AMENDMENTS

1. Sections 553.1, 553.2, and 553.5 are revised to read as follows:

§ 553.1 *Administration, control, and supervision*—(a) *General.* The Quartermaster General, under the direction and control of the Assistant Secretary of the Army (Civil-Military Affairs), is responsible for the establishment, development, operation, maintenance, and administration of the National Cemetery System and for the formulation of plans, policies, procedures, and regulations pertaining thereto. See act of September 12, 1950 (64 Stat. 844; 24 U. S. C. 278).

(b) *United States possessions.* The commanding generals, United States Army, Alaska; United States Army, Pacific; and United States Army, Caribbean are charged with the immediate supervision and administration of national cemeteries within their respective areas. These commanders are responsible, under regulations and policies established by The Quartermaster General, for the following functions:

(1) Operation, maintenance, repairs and utilities, including repair of motor vehicles.

(2) Procurement of supplies and equipment (except permanent headstones and grave markers, motor vehicles, and grave decorating flags).

(3) Periodic inspection of national cemetery installations (including annual general inspections).

(4) Employment and administration of personnel.

(5) Property accountability.

(6) Preparation and submission to The Quartermaster General, Attn: Memorial Division, of budgetary data for national cemetery activities and administration of funds made available therefor.

(c) *Federal jurisdiction.* Where the State legislature has given the consent of the State to the purchase of the land which now comprises the national cemetery, the jurisdiction and power of legislation of the United States over national cemeteries will, in all courts and places, be held to be the same as is granted by Article 1, Section 8, Constitution of the United States. See act of July 1, 1870 (16 Stat. 188; 24 U. S. C. 287).

§ 553.2 *Donations*—(a) *Conditional gifts.* The Secretary of the Army is authorized in his discretion to accept, receive, hold, administer, and expend any gift, devise, or bequest of property, real or personal, made on condition that it be used for the benefit of or in connection with, the establishment, operation, maintenance, or administration of any cemetery under the jurisdiction of the Department of the Army. All such proffers of donations or gifts for national cemeteries will be referred to The Quartermaster General, Attn: Memorial Division, for appropriate action.

(b) *Unconditional gifts.* All proffers of donations or gifts which are unconditional will be referred to The Quartermaster General, Attn: Memorial Division, for appropriate action, together with a report setting forth the material facts and the recommendations of the superintendent and supervising commander.

(c) *Policy.* Department of the Army policy is that all proffered donations or gifts may be accepted from legitimate societies and organizations or reputable individuals for beautifying national cemeteries, subject to the following additional provisions:

(1) The name of the Department of the Army is not associated in any manner by the society, organization, or individual with the solicitation of the donation.

(2) Delivery is made to the cemetery, or to such other point designated by the Department of the Army, without expense to the Government.

(3) Installation, placing, or planting is in keeping with the planned development of the cemetery and the donor agrees to the use thereof at any place within the cemetery.

(4) Donor is not permitted to affix to the items donated nor to place in the cemetery or elsewhere on Department of the Army property any commemorative tablet or plaque.

(d) *Tributes to Unknown Soldier.* Approval of drawings, sketches, or plans for and authority for acceptance of plaques, trophies, and other tributes offered for presentation to The Unknown Soldier, Arlington National Cemetery, is the responsibility of The Quartermaster General. Such approval and acceptance are subject to the following restrictions:

(1) Presentation must be from an organization which is nonpartisan and purely patriotic in purpose.

(2) Plaque, trophy, or other tribute will show that it is presented to The Unknown Soldier.

(3) Dimensions of any object approved for acceptance will not occupy an area in the display case greater than 36 square inches.

(4) The design of and inscription on the plaque must be consistent with the sacred purpose and nature of this shrine to The Unknown Soldier.

(5) Only one plaque may be presented by an organization. Separate plaques from subordinate elements of an organization will not be approved.

(6) Requests, accompanied by sketch or plan and description, replica or model of the proposed plaque, must be submitted to The Quartermaster General, Attn: Memorial Division.

§ 553.5 *Interments and disinterments*—(a) *Who may be interred*—(1) *General.* The act of May 14, 1948 (62 Stat. 234; 24 U. S. C. 281) authorizes burial in a national cemetery under such regulations as the Secretary of the Army may prescribe for:

(i) Any member or former member of the Armed Forces of the United States whose last service terminated honorably, by death or otherwise;

(ii) Any citizen of the United States who, during any war in which the United States has been or may hereafter be engaged, served in the armed forces of any government allied with the United States during such war, and whose last service terminated honorably, by death or otherwise;

(iii) The wife, husband, widow, widower, minor child and, in the discretion of the Secretary of the Army, unmarried adult child of any of the persons enumerated in subdivisions (i) and (ii) of this subparagraph;

(iv) Persons who were members of the Cabinet of the President of the United States at any time between April 6, 1917 and November 11, 1918.

(2) *Members of Armed Forces of the United States.* Any member or former member of the Armed Forces of the United States whose last service terminated honorably, by death or otherwise, is entitled to burial in a national cemetery (see 24 U. S. C. 281). The Armed Forces include the Army, Navy, Air Force, Marine Corps, and the Coast Guard.

(3) *National Guard.* Members of the National Guard who have been called or drafted into Federal service as provided by the act of August 10, 1956 (70a Stat. 199; 32 U. S. C. 3500 and 32 U. S. C. 3501) are eligible for burial in a national cemetery.

(4) *Members or former members of reserve components of the Armed Forces.* Members or former members of the reserve components who have rendered service on active duty, other than active duty merely for training purposes, are eligible provided their last active service terminated honorably. Membership alone in a reserve component does not constitute service within the meaning of the act of May 14, 1948 (62 Stat. 234; 24 U. S. C. 281).

(5) *Commissioned officers, Coast and Geodetic Survey.* Commissioned officers, United States Coast and Geodetic Survey, who die during and subsequent to the service specified in the following categories and whose last service terminated honorably are eligible for interment in national cemeteries regardless of time of death:

(i) Commissioned officers assigned to areas of immediate military hazard described in the act of December 3, 1942 (56 Stat. 1038; 33 U. S. C. 855a), as amended.

(ii) Commissioned officers serving in the Philippine Islands on December 7, 1941.

(iii) Commissioned officers actually transferred to the Department of the Army or the Department of the Navy under the provisions of the act of May 22, 1917 (40 Stat. 87; 33 U. S. C. 855).

(6) *Public Health Service.* (i) Interment in national cemeteries of the remains of commissioned officers of the United States Public Health Service who were detailed for duty with the Army or Navy during World War I pursuant to the act of July 1, 1902 (32 Stat. 712, 713), as amended, and Executive Order 2571, April 3, 1917, is authorized. See act of April 30, 1956 (46 U. S. C. 654; 70 Stat. 124).

(ii) By virtue of authority granted by section 216, act of July 1, 1944 (58 Stat. 690; 42 U. S. C. 217), Executive Order 9575, June 21, 1945, superseded by Executive Order 10349, April 26, 1952, and as amended by Executive Order 10356, May 29, 1952, Executive Order 10362, June 14, 1952, and Executive Order 10367, June 30, 1952, established the Public Health Service as a military service for the period of World War II and consecutive periods thereafter. Accordingly, all officers of the commissioned corps of the Public Health Service who served at any time during the period December 8, 1941 to, and including, July 3, 1952 and whose services terminated honorably are entitled to burial in national cemeteries regardless of when death occurs.

(7) *Citizens of the United States serving in the armed forces of other allied governments.* Any citizen of the United States who, during any war in which the United States has been or may hereafter be engaged, served in the armed forces of any government allied with the United States during such war, and whose last service terminated honorably, by death or otherwise, is entitled to burial in a national cemetery. Persons to be eligible under this authority must have been citizens of the United States at the time of entering the service of such armed forces and at the time of death. See 24 U. S. C. 281.

(8) *Members of families of service or former service personnel.* (i) The following members of families of personnel listed in subparagraphs (2) through (7) of this paragraph are authorized interment in national cemeteries, provided the remains of such persons may, in the discretion of the Secretary of the Army, be removed from a national cemetery proper and interred in the post section of a national cemetery or in a post cemetery if, upon death, the related member of the armed forces of the United States or allied government is not buried in the same or adjoining gravesite:

(a) *Spouses, widows, and widowers.* (1) The spouses, widows, and widowers of eligible service or former service personnel may be buried in the same grave or in an adjoining (side-by-side) grave if space is available.

(2) Should the death of the non-service-connected spouse occur first, interment may be made upon the execution of a written agreement by the service or former service-connected spouse that he or she will be interred eventually in the same grave or in an adjoining (side-by-side) grave.

(3) When the interment of the non-service-connected widow (widower) is desired, either in the same grave with the service-connected spouse or in an adjoining gravesite which has been reserved, the next of kin or duly authorized representative will be required to submit a written statement that the widow (widower) of the service-connected spouse already buried in the national cemetery has not remarried and is still the legal widow (widower) of the service-connected spouse.

(4) Widows or widowers of members of the Armed Forces of the United States lost or buried at sea or officially determined to be permanently absent in a status of missing or missing in action may be buried in the national cemetery of their choice if space is available.

(5) Widows or widowers of members of a group burial interred in a national cemetery may be buried in an adjoining, adjacent, or neighboring grave in the same cemetery.

(6) Divorce of a non-service-connected spouse or remarriage subsequent to interment of the service-connected spouse renders such non-service-connected spouse ineligible for burial in a national cemetery.

(b) *Children.* (1) Minor and, at the discretion of the Secretary of the Army, unmarried adult children ((b) (2) of this subdivision) of any member or former member of the Armed Forces of the United States may be buried in the same grave in which a parent has been or will be interred if space is available therein. Should the death of the child occur prior to that of either of the parents, interment may be made upon the execution of a written agreement by the service-connected parent that he or she will be buried eventually in the same or an adjoining (side-by-side) grave; such agreement to be executed with the understanding that all available space in the occupied grave (space determination will be based upon first burial at depth of 7 feet) must be used for any future family interments, including that of the service-connected parent, before the adjoining grave may be so used. Interment of additional eligible children may be made, prior to the death of the service-connected parent, provided not more than two side-by-side gravesites are used and that adequate space is reserved therein for burial of the service-connected parent.

(2) In the application of this part, the term "unmarried adult children" will be interpreted to include widows, widowers, divorcees, and unmarried persons 21 years of age or over and will be restricted to those who were in fact, up to the time of death, dependent for support upon the service-connected parent or surviving spouse because of physical or mental condition. Should the death of both parents occur prior to that of an unmarried adult child, the latter may be interred in the same grave in which a parent has been interred, provided such adult child was incapable of self-support up to the time of death because of physical or mental condition. The interment of "unmarried adult children" will be made at the discretion of the Secretary of the Army and request for burial of all such persons will be referred to The Quartermaster General, Attn: Memorial Division, for approval. No interment of such cases will be made without prior authorization of The Quartermaster General. A statement of the attending physician must be submitted attesting to the nature of the condition, and the period of time such child was so afflicted or the period for which said physician attended the child for such disability.

(3) The term "child" includes stepchild and adopted child. The term "parent" includes stepparent and parent through adoption. Each case pertaining to the eligibility of such children for burial in a national cemetery will be referred to The Quartermaster General, Attn: Memorial Division, for approval prior to interment. Such cases will include a full statement of pertinent facts to enable The Quartermaster General to make a decision.

(9) *Members of the Cabinet.* Persons who were members of the Cabinet of the President of the United States at any time during the period between April 6, 1917 and November 11, 1918 may be buried in any national cemetery, provided interment is without cost to the United States. See act of May 14, 1948 (62 Stat. 234; 24 U. S. C. 281).

(10) *Confederate veterans.* (i) Veterans who served in the Confederate armies during the Civil War are in certain circumstances entitled to burial in three national cemeteries: Arlington, Virginia; Springfield, Missouri; and Little Rock, Arkansas. See act of August 24, 1912 (37 Stat. 440; 24 U. S. C. 282); act of March 3, 1911 (36 Stat. 1077); act of February 7, 1913 (37 Stat. 663); and act of March 26, 1938 (52 Stat. 117).

(ii) Interments in the Confederate sections at Arlington, Springfield, and Little Rock are restricted to officers and enlisted men who served honorably in the Army or Navy of the Confederate States and their wives or widows under the same regulations and restrictions that govern interments in national cemeteries, except that where an honorable discharge or written parole cannot be produced or the alleged service cannot be verified from the official records, an affidavit of one or more reliable witnesses as to the service of the decedent, when duly attested before an officer authorized to administer oaths, may be accepted as satisfactory proof of such service. Where it becomes necessary to file an affidavit as to honorable service, any request for interment in Springfield must be favorably indorsed by the proper officer or representative of Campbell Camp 488, United Confederate Veterans, Springfield, Missouri.

(b) *Nonburial of persons convicted of certain crimes.* (1) A person otherwise eligible for burial in a national cemetery who is convicted of a crime which results in loss of United States nationality or who is convicted in a Federal, State, or United States military court of a crime, the maximum penalty for which, in the jurisdiction in which convicted, is death or which equals or exceeds 15 years' imprisonment, will not be buried in a national cemetery, except that any person who, subsequent to such conviction serves in the Armed Forces of the United States and whose last service therein is terminated honorably by death or otherwise, may be buried in a national cemetery.

(2) Persons excluded from burial in a national cemetery under the provisions of subparagraph (1) of this paragraph, may be buried in such other military burial ground as the Quartermaster General may select, but no military ceremony will be performed at such burial.

(c) *Utilization and reservation of gravesites.* (1) Not more than a total of two adjoining (side-by-side) gravesites will be used and reserved for the instant and eventual interment of the persons involved in the spouse and parent-child relationship (paragraph (a) (8) of this section), viz: service-connected person, spouse (widow or widower), and children of the service-connected person.

(2) When a service-connected person is interred, an adjoining gravesite may be reserved for the eventual interment of the nonservice-connected spouse, provided space is available and a written request for the gravesite reservation is received. When request for a gravesite reservation is received and an adjoining gravesite is not available, option will be given for:

(i) Interment in the same gravesite with the service-connected spouse.

(ii) Removal at private expense of the remains of the service-connected spouse to a location where two adjoining gravesite locations are available.

(3) No gravesites will be assigned in advance of their requirements for burial purposes. Reservation of a gravesite for the widow of a nonrecoverable member of the Armed Forces of the United States (lost or buried at sea or officially determined to be permanently absent in a status of missing or missing in action) is not authorized. Space in such cases will be assigned as needed.

(4) If it is not possible to make reservation of an adjoining gravesite for the surviving spouse of a member of a group burial, the reservation of an adjacent or neighboring gravesite is authorized.

(5) The Quartermaster General will communicate periodically with surviving nonservice-connected spouses having reservations for the purpose of determining whether it is desired that the reservation remain in force. If it is not possible to obtain a request for continuation of the reservation, such reservation is subject to cancellation. Cancellation of an adjoining gravesite reservation will not preclude burial of the survivor under one of the options shown in subparagraph (2) of this paragraph.

(d) *Burial sections.* (1) Layout plans for burial sections in all national cemeteries will be prepared by The Quartermaster General. Sizes of gravesites will conform to dimensions designated on layout plans prepared by The Quartermaster General.

(2) Burials in unused gravesites in existing established sections of national cemeteries will be in accordance with policies that were in effect for the different categories of decedents at the time the specific section within the cemetery was established.

(3) In all new sections to be developed and in all new cemeteries to be established, interments will be made without distinction as to race and rank. Group interments in new sections will be made in the same section with individual interments. No new separate sections will be established exclusively for group interments.

(4) As the need arises for the use of new sections for burials, such cases will be forwarded to The Quartermaster General, Attn: Memorial Division, for approval. Plans and recommendations for resolving the situation will accompany the request for final decision.

(5) In existing national cemeteries no new post sections will be established and existing post sections will not be expanded. No post sections will be established in new national cemeteries.

(e) *Disinterments.* (1) Interments of eligible remains in national cemeteries are considered to be permanent and final and disinterments will not be permitted except upon approval of The Quartermaster General. Disinterments and removal of remains from a national cemetery will be approved only when next of kin (includes the person who directed the initial interment if still living) give their consent and establish cogent reasons for the disinterment, or in recognition of a court order directing the disinterment.

(2) All requests for authority to disinter remains will be submitted to the Quartermaster General, Attn: Memorial Division, and must state the reason for desiring the disinterment and be accompanied by the following documents:

(i) Notarized affidavits by all close living relatives of the deceased, stating that they interpose no objection to the proposed disinterment. "Close relatives" are defined as widow (widower), parents, adult brothers and sisters, and adult children and will include the person who directed the initial interment, if living.

(ii) A sworn statement, by a person having knowledge thereof, that those who supplied such affidavits comprise all the living close relatives of the deceased.

(3) In lieu of the documents required in subparagraph (2) of this paragraph, an order of a court of competent jurisdiction will be considered.

(4) Any disinterment that may be authorized under this paragraph must be accomplished without expense to the government.

2. In § 553.6 (b), revise subparagraphs (1), (7), (8), and (9) and revoke subparagraph (10), and in § 553.6 (c), add subparagraph (11), as follows:

§ 553.6 *Headstones and monuments.*
• • •

(b) *Inscription on Government headstones.* (1) The inscription on Government headstones furnished for individual graves of members or former members of the Armed Forces (except decedents referred to in subparagraphs (2) and (3) of this paragraph) normally will consist of a religious emblem, name of decedent, State requested by next of kin at time of interment or the State listed as residence, grade, organization (or component if applicable), the war or wars in which service was rendered (if any), the complete dates of birth and death, and also may include any approved decorations. Normally, the highest grade held by decedent and the organization (or component) in which such grade was held will be used unless next of kin desires a particular organization in which a decedent may have served in a lower grade. In the latter case, the organization desired and the highest Federally recognized grade held by decedent in that organization (or component) will be used. "World War II" may be inscribed on the grave markers of all members of the United States Armed Forces who lost their lives while serving in such forces outside the continental United States during the period September 3, 1939 to December 6, 1941, inclusive, and on the grave markers of those who were members of the United States Armed Forces during the period December 7, 1941 to December 31, 1946, inclusive. The word "Korea" may be placed on Government headstones and markers for the graves of those members and former members of the United States Armed Forces who have served within the area or areas of military operation in the Korean Theater between June 27, 1950 and July 27, 1954. Except in cases where replacement headstones are necessary, the inclusion of war service as part of the inscription will be neither retroactive nor effective as to headstones furnished previously.

• • • • • • •

(7) Where a headstone or monument has been erected to an individual interred in a national cemetery and the next of kin desires to inscribe thereon the name and appropriate data pertaining to a deceased spouse, parent, son, daughter, brother, or sister whose remains have not been recovered and who would have been eligible on their own status for burial in a national cemetery by reason of honorable military service in the Armed Forces, either of the United States or of any government allied with the United States, during time of war, approval may be given for cutting such inscription, at no expense to the Government, on the headstone or monument.

(8) Inscriptions on headstones marking graves containing group burials will consist of the names of decedents (in alphabetical order), grade, branch of service, and date of death. Names of decedents will be placed to read from left to right when necessary to use more than one column of names.

(9) The alphabetical section letter and grave number will be incised on the reverse side, near the top of the upright headstone. The alphabetical section letter and grave number on flat granite markers and flat marble markers (furnished as replacements) will be incised on the front (face) of the stone in the upper right corner. The alphabetical section letter and grave number of specially designed stones for group burials will be incised on the front (face) of the stone in the lower right corner.

(10) [Revoked.]

(c) *Private monuments, memorials, and commemorative tablets.* • • •

(11) The act of August 27, 1954 (68 Stat. 880), as amended, authorizes the Secretary of the Interior and the Secretary of the Army to set aside, when available, suitable plots in the national cemeteries under their jurisdiction to honor the memory of members of the Armed Forces missing in action or who died or were killed while serving in such Forces, and whose remains have not been identified, have been buried at sea, or have been determined to be nonrecoverable and, under regulations to be jointly prescribed by them, permit the erection of appropriate markers thereon in honor of any such member or group of members. Requests for authority to erect such markers in national cemeteries under the jurisdiction of the Department of the Army will be submitted to The Quartermaster General, Attn: Memorial Division, for consideration and approval. The cost of such markers and the erection thereof must be made from other than Government funds since the Act of August 27, 1954, as amended, does not provide for the appropriation of funds for this purpose.

[AR 290-5, December 26, 1956] (R. S. 161; 5 U. S. C. 22. Interpret or apply R. S. 4870, as amended, 19 Stat. 99, as amended, 52 Stat. 1233, 62 Stat. 234, 1216; 24 U. S. C. 271, 271a, 278, 279b, 281)

[SEAL] HERBERT M. JONES,
Major General, U. S. Army,

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

JAMAICA BAY AND CONNECTING WATERWAYS, N. Y.; INDIAN RIVER, FLA.

1. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.175 (c) governing the operation of the Long Island Railroad bridge across Broad Channel, Jamaica Bay, New York, is hereby revoked, the bridge having been replaced by a fixed bridge, as follows:

§ 203.175 *Jamaica Bay and connecting waterways, New York.* • • •

(c) *Long Island Railroad bridge across Broad Channel at Broad Channel Station.* [Revoked.]

[Regs., Feb. 8, 1957, ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

2. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.436 (a) governing the operation of bridges over Indian River at Melbourne, Eau Gallie and Cocoa, Florida, is hereby amended to provide morning and afternoon closed periods of one hour duration, respectively, in lieu of the present half-hour periods, to relieve congestion of highway traffic, as follows:

§ 203.436 *Indian River, Fla.; State Road Department of Florida bridges at Cocoa, Eau Gallie and Melbourne.* (a) Except as provided in paragraphs (b) and (c) of this section the owner of or agency controlling these bridges shall not be required to open the drawspans between the hours of 6:45 a. m. and 7:45 a. m., and 4:30 p. m. and 5:30 p. m., Monday through Friday of each week.

[Regs., Feb. 8, 1957, ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

[SEAL] HERBERT M. JONES,
Major General, U. S. Army,
The Adjutant General.

TITLE 46—SHIPPING

Chapter II—Federal Maritime Board, Maritime Administration, Department of Commerce

Subchapter G—Emergency Operations

[Gen. Order 75 (Revised)]

PART 308—WAR RISK INSURANCE

General Order 75 and all supplements and amendments thereto are hereby revised to read as follows:

Title XII of the Merchant Marine Act, 1936, as amended, 46 U. S. C. 1281-1294 (Public Law 763, 81st Cong., 64 Stat. 773; Public Law 209, 84th Cong., 69 Stat. 440; Public Law 958, 84th Cong., 70 Stat. 984) authorizes the Secretary of Commerce, with the approval of the President, to provide insurance against loss or damage by war risks whenever it appears to the Secretary that such insurance adequate for the needs of the water-borne commerce of the United States cannot be obtained on reasonable terms and conditions from companies authorized to do an insurance business in a State of the United States. The President, on October 9, 1950, gave the required approval and on December 21, 1950, the Secretary made a finding that, as of any outbreak of war between any of the four great powers (France, Great Britain and/or any of the British Commonwealth of Nations, Union of Soviet Socialist Republics, the United States of America) insurance adequate for the needs of the water-borne commerce of the United States cannot be obtained on reasonable terms and conditions from companies authorized to do an insurance business in a State of the United States.

The Secretary of Commerce delegated authority to the Maritime Administrator to perform the functions vested in the Secretary of Commerce by title XII of the Merchant Marine Act, 1936, as amended, Public Law 763—81st Congress, except the authority "to find that insurance adequate to the needs of the water-borne commerce of the United States cannot be obtained on reasonable terms and conditions in companies authorized to do an insurance business in a State of the United States" which was reserved to the Secretary of Commerce. (Section 6.01, subsection 2, paragraph (3) of Department Order No. 117 (Amended), published as section 5 (a) (2) (iii) in the FEDERAL REGISTER September 15, 1953, 18 F. R. 5518, 5519.)

The Maritime Administrator is prepared to provide war risk insurance specified in sections 1203 (a), (d), (e) and (f) of Public Law 763, 81st Congress for the interim period between the time commercial insurance, subject to the "Automatic Termination Clauses", is automatically terminated through the operation of such clauses and the time a full wartime insurance program is placed in effect. The following rules and regulations for the underwriting of such interim insurance are promulgated:

Subpart A—General

Sec.
308.1 Eligibility of a vessel and its owner for insurance.
308.2 Change in status of a vessel after interim binders have been issued.
308.3 Applications for insurance and payment of binding fees.
308.4 Period of interim binders if insurance thereunder does not attach.
308.5 Time of attachment of insurance.
308.6 Premiums and payment thereof.
308.7 War risk insurance underwriting agency agreement.

Subpart B—War Risk Hull Insurance

308.100 Amounts of insurance for which application may be made.
308.101 Form of application.
308.102 Issuance of interim binder; its terms and conditions.
308.103 Sums which will be insured under interim binder.
308.104 Additional war risk hull insurance.
308.105 Reporting casualties and filing claims.
308.106 Standard form of war risk hull insurance interim binder.
308.107 Standard form of war risk hull insurance policy.

Subpart C—War Risk Protection and Indemnity Insurance

308.200 Amount of insurance for which application may be made.
308.201 Form of application.
308.202 Issuance of interim binder; its terms and conditions.
308.203 Sum which will be insured under interim binder.
308.204 Reporting casualties and filing claims.
308.205 Standard form of war risk protection and indemnity insurance interim binder.
308.206 Standard form of war risk protection and indemnity insurance policy.

Subpart D—Second Seamen's War Risk Insurance

308.300 Amounts of insurance for which application may be made.
308.301 Form of application.
308.302 Issuance of interim binder; its terms and conditions.
308.303 Sums which will be insured under interim binder.
308.304 Reporting casualties and filing claims.
308.305 Standard form of Second Seamen's war risk interim binder.
308.306 Standard form of Second Seamen's War Risk Policy (1955).

Subpart E—War Risk Builder's Risk Insurance

308.400 Eligibility of a vessel for insurance.
308.401 Periods during which a vessel under construction may be insured.
308.402 Amounts for which a vessel will be insured.
308.403 Application for insurance.
308.404 Form of application.
308.405 Issuance of policies; their terms and conditions.
308.406 Premiums and the payment thereof.
308.407 Right of Maritime Administrator to change rate of premium.
308.408 Standard form of War Risk Builder's Risk Insurance policy.
308.409 Reporting casualties and filing claims.

Subpart F—War Risk Cargo Insurance

I—INTRODUCTION

308.500 Authority.
308.501 Cargoes on which coverage is available.
308.502 Additional insurance.
308.503 Rate schedules.
308.504 Definition of territories and possessions.

II—OPEN POLICY WAR RISK CARGO INSURANCE

Sec.
308.505 General.
308.506 Application for an open cargo policy.
308.507 Security for payment of premiums.
308.508 Issuance of an open cargo policy.
308.509 Collateral deposit fund.
308.510 Surety bond.
308.511 Cancellation of open cargo policy.
308.512 Declaration of shipments under open cargo policy.
308.513 Payment of premiums and fees.
308.514 Return premium.
308.515 Payment in event of loss.
308.516 Failure to comply with Clause 21.
308.517 Open cargo policy, Form MA-300.
308.518 Standard optional endorsement No. 1, Form MA-300-A.
308.519 Standard optional endorsement No. 2, Form MA-300-B.
308.520 Standard optional endorsement No. 3, Form MA-300-C.
308.521 Application for open cargo policy, Form MA-301.
308.522 Collateral deposit fund, letter of transmittal, Form MA-302.
308.523 Application for revision of open cargo policy, Form MA-303.
308.524 Application for cancellation of open cargo policy, Form MA-304.
308.525 Application for decrease in amount of cash collateral fund, Form MA-305.
308.526 Certificate for repayment of decrease of collateral deposit fund, Form MA-306.
308.527 Application for return premium, Form MA-307.
308.528 Surety bond A, Form MA-308.
308.529 Surety bond B, Form MA-309.
308.530 Letter requesting increase or decrease in amount of surety bond, Form MA-310.
308.531 Endorsement of surety bond increasing or decreasing amount of coverage, Form MA-311.
308.532 Release of surety bond, Form MA-312.
308.533 Closing report, Form MA-313.
308.534 Certificate to be attached to closing report, Form MA-313-A.
308.535 Certificate to be attached to final closing report, Form MA-313-B.
308.536 Declaration where failure to comply with Clause 21 was inadvertent, Form MA-314.
308.537 Effective date of endorsement.

III—FACULTATIVE WAR RISK CARGO INSURANCE

308.538 General.
308.539 Application for a facultative cargo policy.
308.540 Premiums.
308.541 Issuance of a facultative policy.
308.542 Warranty re thirty-day shipments.
308.543 Cancellation.
308.544 Facultative binder, Form MA-315.
308.545 Facultative cargo policy, Form MA-316.
308.546 Standard optional endorsement No. 1-A, Form MA-316-A.
308.547 Application for return premium, Form MA-317.

IV—GENERAL

308.548 Standard form of underwriting agency agreement for cargo, Form MA-318.
308.549 Application for appointment of cargo Underwriting Agent, Form MA-319.
308.550 Certificate, Form MA-320.
308.551 War Risk insurance clearing agency agreement for cargo.
308.552 Effective date.

AUTHORITY: §§ 308.1 to 308.552 issued under sec. 204, 49 Stat. 1987, as amended, sec. 1209, 64 Stat. 775; 46 U. S. C. 1114, 1289.

SUBPART A—GENERAL

§ 308.1 *Eligibility of a vessel and its owner for insurance.* (a) A vessel is eligible for interim insurance if it is:

(1) An American vessel as defined in section 1201 (a), Public Law 763, 81st Congress; or

(2) A foreign-flag vessel:

(i) Owned by a citizen or citizens of the United States as defined in section 1201 (d), Public Law 763, 81st Congress; or

(ii) Owned by a foreign corporation, the majority of the stock of which is owned by a citizen or citizens of the United States as defined in section 1201 (d), Public Law 763, 81st Congress or under long-term charter to such a citizen or citizens; and

(a) Regularly loading and/or discharging cargo and/or passengers at a port or ports in the continental United States or its territories or possessions, or

(b) In a service on a term (not voyage) basis for the sole account of the United States or any department or agency thereof, or

(c) In a service which, with respect to the vessel to be insured, is determined by the Maritime Administrator to be in the interest of the national defense or the national economy of the United States.

(b) Other foreign-flag vessels will be insured at the sole discretion of the Maritime Administrator but only when engaged in services found by him to be in the interest of the national defense or the national economy of the United States.

§ 308.2 *Change in status of a vessel after interim binders have been issued.* In the event of change in flag or service of a vessel from an eligible status to a status requiring a finding as to eligibility after any interim binders set forth in §§ 308.106, 308.205, and 308.305 have been issued, interim binders covering such a vessel shall cease to be effective unless a statement as required by § 308.3 is submitted and a finding is made that the vessel is eligible for insurance as provided therein before such change occurs. In the event of the sale, demise charter, requisition, confiscation or total loss of a vessel, or any other change in the status thereof, which, by the terms of a binder causes same to terminate, prompt notice shall be given in writing to the underwriting agent that issued the binder.

§ 308.3 *Applications for insurance and payment of binding fees.* Separate applications, in duplicate, shall be filed for war risk hull insurance, war risk protection and indemnity insurance, and Second Seamen's war risk insurance for each vessel to be covered by such insurance. Applications for insurance on a vessel not in category as described in § 308.1 (a) (1), (2) (i), (2) (ii) (a) or (2) (ii) (b) shall be accompanied by a signed statement, in quadruplicate, setting forth the dates of the applications, the forms of insurance applied for, the name of the vessel, its flag, the name of the owner or charterer, the service in which the vessel is engaged and the reason such service should be considered to be in the interest of the national defense or the national economy of the United States, which statement shall be deemed to be a part of each application for insurance filed with respect to the vessel. Applications shall be made to the American War Risk Agency, 99 John Street, New York 38, N. Y., underwriting agent for the Maritime Administrator, in the forms set forth in §§ 308.101, 308.201, and 308.301. Applications and the accompanying statements, if any, shall be signed by the owner or charterer of the vessel unless he has filed with the above Underwriting Agent a written designation of a broker or brokers to act for him, in which case the applications may be signed by the designated broker or brokers. A check payable to the order of "Maritime Adm.—Commerce" for the total amount of all binding fees payable by each applicant shall accompany the applications. Binding fees are not returnable unless applications are rejected.

§ 308.4 *Period of interim binders if insurance thereunder does not attach.* All interim binders shall automatically expire at Midnight September 7, 1957, GMT, unless insurance thereunder has attached prior to that date, or such binders have been extended.

§ 308.5 *Time of attachment of insurance.* The war risk insurance to be provided under this part shall attach at such date and hour as the applicant shall designate, but not earlier than the date and hour commercial war risk insurance terminates by reason of the operation of the "forty-eight hour automatic termination clause", whether or not the vessel was covered by such commercial insurance: *Provided*, That if the designated time of attachment does not follow immediately upon the termination of commercial war risk insurance which covers the vessel until moored in port the owner shall warrant that the vessel is in port and in good safety at the time of the attachment of the risk.

§ 308.6 *Premiums and payment thereof.* Promptly upon the happening of the event causing the "Automatic Termination Clauses" of any war risk policies to become operative, the rates of premium for insurance under the interim binders will be fixed and the premiums shall be payable within ten days after receipt of notice of the amounts thereof by the assured. If premiums fixed for any interim binders are not paid within that period, such interim binders shall be null and void and of no effect and insurance thereunder shall not have attached unless the Maritime Administrator agrees otherwise. Premiums shall be paid to the underwriting agent that issued the binders by check payable to the order of "Maritime Adm.—Commerce". In the event that it is subsequently determined that insurance under interim binders did not attach, premiums paid will be refunded by the Maritime Administrator.

§ 308.7 *War risk insurance underwriting agency agreement.* The following is the standard form of underwriting agency agreement which will be executed by the Maritime Administrator and domestic insurance companies, or groups of domestic insurance companies authorized to do a marine insurance business in any States of the United States, appointing such companies or groups of companies as Underwriting Agents to issue binders and policies covering hull, protection and indemnity, and Second Seamen's war risk insurance under Subparts B, C, and D of this part:

Form MA-355 (3-56)

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE

MARITIME ADMINISTRATION

UNDERWRITING AGENCY AGREEMENT

This Agreement, made and entered into this ____ day of _____, 195__, by and between the United States of America (herein called the "United States"), acting by the Secretary of Commerce (herein called the "Secretary"), represented by the Maritime Administrator (herein called the "Administrator"), and _____ (herein called the "Underwriting Agent"), having an office for the transaction of business at _____, an association of domestic insurance companies (herein called the "Participating Members"), each of which is authorized to do a marine insurance business in a State of the United States.

WITNESSETH

Whereas, pursuant to title XII of the Merchant Marine Act, 1936, as amended, Public Law 763—81st Congress (herein called the "act"), the Secretary is authorized under certain circumstances to provide marine insurance and reinsurance against loss or damage by the risks of war, and to employ domestic companies or groups of domestic companies authorized to do a marine insurance business in any State of the United States to act as his Underwriting Agent; and

Whereas, the Secretary has delegated authority to the Administrator to perform the functions vested in the Secretary by title XII of the act, except the authority "to find that insurance adequate to the needs of the water-borne commerce of the United States cannot be obtained on reasonable terms and conditions in companies authorized to do an insurance business in a State of the United States" which was reserved to the Secretary. (Section 6.01, subsection 2, paragraph (3) of Department Order No. 117 (Amended), published as section 5 (a) (2) (iii) in the FEDERAL REGISTER September 15, 1953, 18 F. R. 5518, 5519); and

Whereas, the Administrator has determined to employ the Underwriting Agent as an underwriting agent in providing war risk insurance as set forth in paragraphs (a), (c), (d), (e), and (f) of section 1203 of the act upon the terms and conditions herein set forth:

Now, therefore, in consideration of the premises and of the mutual covenants and agreements, and upon the terms and conditions herein set forth, the parties hereto agree as follows:

1. *Appointment of agent.* The Administrator hereby authorizes the Underwriting Agent, as an agent acting on behalf of the Administrator and not as an independent contractor, to utilize its offices and facilities to make available the insurance which the Secretary is authorized to provide pursuant to paragraphs (a), (c), (d), (e), and (f) of section 1203 of the act and to perform the functions hereinafter provided for, upon the terms and conditions hereinafter set forth and in accordance with the rules, regulations and instructions which will be issued from time to time to the Underwriting Agent by the Administrator. The Underwriting Agent hereby agrees to utilize its offices and facilities to make such insurance available, as agent for the Administrator, and to perform the functions hereinafter provided for to the best of its ability. The Underwriting Agent may act through its home office, branch offices or agencies which are authorized to write insurance on its behalf.

2. *Duties of agent.* The duties of the Underwriting Agent shall be as follows:

(a) *Receive applications and issue binders and policies.* The Underwriting Agent shall receive applications for insurance, subject to the rates and conditions specified by the Administrator upon forms prescribed by the Administrator. After determining that the applications have been submitted in complete and proper form and are accompanied by remittances in the amount of the premiums required for the insurance applied for, the Underwriting Agent shall countersign binders or policies of insurance, or both binders and policies of insurance, subject to the rules, rates, terms and conditions specified by the Administrator on forms prescribed by the Administrator. The insurer under such policies shall be the United States.

(b) *Keep records.* The Underwriting Agent shall keep a full and complete record of all applications, binders, and policies, and shall also record all premiums, charges or deposits required by the terms of the binders and policies, so that a record may be available at all times to the Administrator, both as to all applications received and all binders and policies issued, and as to all payments made by the assured in connection with such binders and policies.

(c) *Receive money and reports.* The Underwriting Agent shall receive checks made payable to the order of the Maritime Adm.—Commerce for the premiums and charges involved, which checks shall be deposited by the Underwriting Agent in the Federal Reserve Bank nearest to its office, or in such other bank as may be authorized by the Administrator to receive such deposits. The Underwriting Agent shall receive from the bank in which the deposits are made receipts therefor in such number as may be prescribed in instructions to the Underwriting Agent and handle the receipts so received in accordance with such instructions.

(d) *Report monthly.* The Underwriting Agent shall prepare a monthly report, in summary form, of all applications received, and binders and policies issued or cancelled by the Underwriting Agent on a standard form approved by the Administrator, and transmit them, together with receipts for deposits made as above provided, to the Administrator.

(e) *Other reports.* The Underwriting Agent shall prepare and transmit such other reports as may be required by the Administrator.

(f) *Process claims for return premiums.* The Underwriting Agent shall receive from holders of policies issued by such Underwriting Agent any claims for return premiums on a standard form prescribed by the Administrator and shall certify thereon, if such is the fact, that the amounts with respect to which such return is claimed were previously paid and that based upon the statements included in such application by the assured the return premium applied for is payable in accordance with the regulations of the Administrator. Such applications and certifications shall be transmitted promptly to the Administrator.

(g) *Process claims for losses.* The Underwriting Agent shall receive reports of losses on vessels and disbursements (insured pursuant to paragraphs (a) and (c), section 1203 of the act), assemble all pertinent documents and facts relating thereto required to determine the validity of the claims, including the amounts thereof, and submit the same to the Administrator with its recommendation as to payment.

(h) *Help establish advisory committee.* The Underwriting Agent shall, if requested by the Administrator, cooperate with the Administrator to establish and maintain an advisory underwriting committee to consult with and advise the Administrator in connection with specific underwriting problems, subject to the rules, regulations and instructions of the Administrator, and to establish and maintain such other advisory committees as may be deemed necessary from time to time to safeguard the interests of the Administrator, including a loss committee to act as a recipient for information concerning losses and to pass upon any recommendations made by the Underwriting Agent as to losses and payments of claims arising therefrom in excess of an amount to be fixed by the Administrator.

3. *Compensation*—(a) *Fair and reasonable.* The Underwriting Agent shall receive for its services such amount as the Administrator and the Underwriting Agent may, from time to time, agree to be fair and reasonable compensation. In addition to such fair and reasonable compensation, the Underwriting Agent shall receive reimbursement for out-of-pocket expenditures reasonably incurred, meaning payments to persons not regularly employed by the Underwriting Agent but excluding payments to attorneys unless such employment has been authorized by the Administrator: *Provided, however*, That all such expenditures shall be subject to the review of the Administrator, and further provided that, except as authorized by section 1209 (d) of the act, such expenditures shall not include any fee or other consideration paid to an insurance broker or any person acting in a similar intermediary capacity for services by virtue of his participation in arranging any of such insurance nor include any payment on account of solicitation for or stimulation of such insurance.

(b) *Paid monthly.* A statement of the compensation due to the Underwriting Agent (including reimbursement for out-of-pocket expenses as herein provided) shall be submitted by the Underwriting Agent to the Administrator monthly or at such other intervals as the Administrator may direct, with an appropriate voucher, and the amount of such compensation, if approved, shall be promptly paid to the Underwriting Agent.

(4) *Standard of performance.* In the discharge of its duties and obligations pursuant to this Agreement, the Underwriting Agent shall conform to a standard of performance and accuracy reasonably to be expected of an insurance company in the administration of its own business and consistent with the highest degree of good faith. It is agreed, however, that the Underwriting Agent shall not be responsible for errors or omissions of agents or employees in whose selection and supervision it has exercised reasonable care, provided, however, that the Underwriting Agent, in any such case, shall have conformed to the standards of performance required hereunder, and provided further, that the Underwriting Agent assumes full and complete responsibility for the disposition of any funds received by it or its agents or employees under and pursuant to this Agreement. The exercise of reasonable care in the selection of agents and employees by the Underwriting Agent shall be deemed to include a determination by the Underwriting Agent that the agents or employees so selected are experienced in the transaction of such phases of the marine insurance business as may be delegated to such agents or employees by the Underwriting Agent.

5. *Writing insurance for own account.* It is understood that the Participating Members of the Association constituting the Underwriting Agent are or may be engaged in writing for their own account war risk insurance, as well as other types of insurance, for the benefit of holders of policies issued by the Underwriting Agent hereunder and of other parties; and it is agreed that such insurance may be written notwithstanding the activities of the Underwriting Agent hereunder on behalf of the Administrator, pursuant to this Agreement.

6. *Books and records*—(a) *Maintained subject to audit.* The Underwriting Agent shall keep books, records and accounts covering the operations and activities under this Agreement which shall be the property of the United States represented by the Administrator and shall be kept separate from those relating to other business of the Underwriting Agent or of the Participating Members thereof, in accordance with regulations made from time to time by the Administrator, and shall at all times be subject to audit and inspection by the Administrator.

(b) *Comptroller General may examine.* The Comptroller General of the United States or any of his duly authorized representatives shall have access to and the right to examine any pertinent books, documents, papers and records of the Underwriting Agent or of the Participating Members thereof in the performance of and involving transactions related to this Agreement.

7. *Act only as agent.* The Underwriting Agent shall act only in the capacity of agent for the Administrator as principal, in the performance of the functions provided for hereunder. The Underwriting Agent shall have no authority other than as provided in this Agreement and in the rules, regulations and instructions issued to it by the Administrator under and pursuant to this Agreement. The Underwriting Agent may accompany its signature in all binders and policies countersigned by it hereunder with a statement that, in countersigning such binders and policies, it acts solely under the powers conveyed to it by the Administrator and that it does not thereby warrant its authority to accept applications for insurance or its authority to countersign, nor the authority of the Administrator to issue such binders and policies.

8. *Special circumstances*—(a) *Reimbursement of taxes and fees.* In the event that the Underwriting Agent or any Participating Member or Members thereof, after giving notice to the Administrator, shall be compelled to pay to the United States, its territories or possessions, or to any State of the United States or political subdivision thereof, or to any foreign country or political subdivision thereof, any tax (excepting income taxes of every nature) or fee or interest or penalty relating thereto claimed to be due by reason of the business transacted pursuant to this Agreement and which would not have been payable except for the activities of the Underwriting Agent or any Member or Members thereof hereunder, the Administrator shall reimburse the Underwriting Agent and any Participating Member or Members therefor and for any special expenses necessarily incurred in connection therewith.

(b) *Indemnification.* If any legal suit or proceeding (whether or not based on negligence) is brought against the Underwriting Agent or any Participating Member or Members thereof on account of anything done or not done, by the Underwriting Agent or any Participating Member or Members thereof or the Administrator, in connection with the issuance or non-issuance or cancellation of insurance or the acceptance or denial of applications for binders or policies of insurance on behalf of the Administrator or the payment or non-payment of claims for loss or return premium arising thereunder (including, without in any way limiting the foregoing, anything done or not done pursuant to any rules, regulations or instructions of the Administrator or anything done or not done in conflict with or because of any limitation on the powers of the Administrator), the Administrator shall, upon due notice and at the expense of the United States, defend any such proceeding. If, in or as a result of any such legal suit or proceeding, the Underwriting Agent or any Participating Member or Members thereof be compelled or required to make any payment or incur any expense, the Administrator shall reimburse

the Underwriting Agent or any Participating Member or Members thereof for the amount thereof; provided always that the Administrator shall not be obligated to make any such reimbursement unless, in connection with the action complained of, the Underwriting Agent shall have complied with the standard of performance required thereunder. In any of the foregoing cases, the Underwriting Agent shall render to the Administrator such reasonable cooperation and assistance as the Administrator may require.

9. *Effective date, amendment, termination.* This Agreement shall become effective as of the date of its execution by the Administrator and shall continue in force until terminated. This Agreement may be terminated, modified or amended at any time by mutual written consent. Once this Agreement becomes effective, it shall continue in force until terminated by mutual written consent or by either party, giving at least thirty (30) days' written notice by registered mail to the other party, stating the effective date and time on which this Agreement shall terminate. Such termination shall not affect the obligations of the parties hereto with respect to any binders or policies of insurance issued or expenditures incurred prior to the effective date of such termination.

10. *No commission or contingent fee.* The Underwriting Agent warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Underwriting Agent for the purpose of securing business. For breach or violation of this warranty the Administrator shall have the right to annul this contract without liability or in his discretion to deduct from the contract price or consideration the full amount of such commission, percentage, brokerage, or contingent fee.

11. *No discrimination.* In connection with the performance of work under this contract, the Underwriting Agent agrees not to discriminate against any employee or applicant for employment because of race, color, creed, or national origin; and further agrees to insert the foregoing provision in all subcontracts hereunder except subcontracts for standard commercial supplies or for raw materials.

12. *No member or delegate.* No Member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this contract, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

13. *Renegotiation.* This contract shall be subject to any act of the Congress, whether heretofore or hereafter enacted and to the extent indicated therein, providing for the renegotiation of said contract and shall be deemed to contain all of the provisions required by any such act without subsequent amendment of this contract specifically incorporating such provisions.

The contractor (which term as used in this sentence means the party contracting to perform the work or furnish the materials required by this contract) shall insert the provisions of this article in each subcontract and purchase order made or issued in carrying out the contract.

Nothing contained in this clause shall impose any renegotiation obligation with respect to this contract or any subcontract hereunder which is not imposed by an act of the Congress, heretofore or hereafter enacted.

14. *Participating Members*—(a) *Indebted to United States.* The Participating Members of the association constituting the Underwriting Agent, severally but not jointly and limited each to its participation therein, shall be indebted to the United States for such amounts as the Secretary is entitled to recover from the Underwriting Agent in accordance with the foregoing provisions and, in the event of failure to pay on demand, the Secretary may bring an action or actions in any court in the United States to recover such amount or amounts from the Participating Members, severally but not jointly, on behalf of the United States.

(b) *Change of shares.* Without cancelling this Agreement, the Participating Members of the association constituting the Underwriting Agent may, upon not less than ten (10) days' prior written notice to the Administrator, change their share of participation by agreement among themselves, including the termination of the interests of one Participating Member and the assumption of its share by one or more of the other Participating Members or by the admission of other eligible domestic insurance companies to membership in the association. Any such change of apportionment or termination of participation shall not relieve any Participating Member of its obligations in respect to matters which occurred prior to any change or termination of its interest. Unless the Underwriting Agent is notified in writing by the Administrator, within ten (10) days after receipt of notice from the Underwriting Agent, that the proposed change in participation or termination or assumption is disapproved, such change shall be understood to be acceptable to the Administrator.

In witness whereof, the parties hereto have duly executed this Agreement in quadruplicate as of the day and year first above written.

SUBPART B—WAR RISK HULL INSURANCE

§ 308.100 *Amounts of insurance for which application may be made.* An applicant for war risk hull insurance shall state the amount of insurance desired but any payment for damage to or the total or constructive total loss of the vessel will be made as provided in § 308.103.

§ 308.101 *Form of application.* Applications submitted shall be in strict accordance with the following form:

Form MA–183 (Revised 8–56)

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE

MARITIME ADMINISTRATION

APPLICATION FOR WAR RISK HULL INSURANCE

Application is made for War Risk Hull Insurance pursuant to Public Law 763, 81st Congress and in accordance with all provisions of law and subject to all limitations thereof:

Assured _____
Address
Owner _____
Address
Mortgagee, if any, _____
Address
Loss, if any, payable to _____
_____ or order.
On _____ _____
(Vessel's name) (Flag)
_____ _____
(Gross tonnage) (Date built)

Sum to be insured $_____ subject to the provisions of Public Law 958, 84th Congress, 70 Stat. 984.

To attach, in the event of outbreak of war between any of the four Great Powers (France, Great Britain and/or any of the British Commonwealth of Nations, the Union of Soviet Socialist Republics, the United States of America).

At and from 48 hours from midnight, G. m. t., of the day on which such outbreak of war occurs:

Nevertheless should the vessel:

(A) Be at sea when such outbreak of war occurs, or

(B) Being in a port when such outbreak of war occurs depart therefrom as a measure of safety in respect of an insured peril within 43 hours from midnight, G. m. t. of the day on which such outbreak of war occurs,

such insurance shall not attach until the expiry of 24 hours after midnight, G. m. t., of the day on which the vessel is moored at the next port to which the vessel proceeds.

To: Thirty (30) days from date of attachment, nevertheless should the vessel be at sea on the date of expiration the insurance shall be extended, at a rate to be fixed by the Maritime Administrator, acting for the Secretary of Commerce, until midnight, G. m. t. of the day on which the vessel is moored at the next port to which she proceeds and for twenty-four hours thereafter.

Terms and conditions: Subject to form of policy prescribed by the Maritime Administrator, acting for the Secretary of Commerce.

If application is for insurance on a foreign-flag vessel, indicate category. If in category (b) also indicate applicable subpart. Category ( ) ( ).

(a) Owned by a citizen or citizens of the United States as defined in section 1201 (d), Public Law 763, 81st Congress;

(b) Owned by a foreign corporation, the majority of the stock of which is owned by a citizen or citizens of the United States as defined in section 1201 (d), Public Law 763, 81st Congress or under long-term charter to such a citizen or citizens and

(i) Regularly loading and/or discharging cargo and/or passengers at a port or ports in the continental United States or its Territories or possessions, or

(ii) In a service on a term (not voyage) basis for the sole account of the United States or any department or agency thereof, or

(iii) In a service believed by the concerned owner, charterer, assured and applicant to be in the interest of the national defense or the national economy of the United States.

If this application is for insurance with respect to a foreign-flag vessel not in category (a), (b) (i), or (b) (ii) it shall be accompanied by the statement specified in § 308.3 of Maritime Administration General Order 75 (Part 308, Title 46, Code of Federal Regulations), which statement shall be deemed to be a part of this application.

Binding fee (not returnable unless application is rejected).

$25.00 per vessel, under 500 gross tons.
$100.00 per vessel, 500 gross tons and over.

Check payable to the order of "Maritime Adm.—Commerce" enclosed herewith.

Rate of premium—To be fixed by the Maritime Administrator, acting for the Secretary of Commerce.

(Application, in duplicate, to be submitted to the American War Risk Agency, 99 John Street, New York 38, N. Y.)

§ 308.102 *Issuance of interim binder; its terms and conditions.* Upon acceptance of an application, an interim binder in the form set forth in § 308.106 will be issued and there shall be deemed to be incorporated therein by reference, all of the terms, conditions and warranties contained in the standard war risk hull insurance policy set forth in § 308.107, to the same extent as if such policy were made a part of the binder. The binding fee shall be $25.00 per vessel under 500 gross tons and $100.00 per vessel of 500 gross tons or over.

§ 308.103 *Sums which will be insured under interim binder.* The valuation in the policy for damage to or actual or constructive total loss of the vessel insured shall be a stated valuation (exclusive of National Defense features paid for by the Government) determined by the Secretary of Commerce which shall not exceed the amount that would be payable if the vessel had been requisitioned for title under section 902 (a) at the time of the attachment of the insurance under said policy: *Provided, however,* That in the case of a construction-subsidized vessel, for the period of insurance prior to requisition for title or use, the valuation so determined shall be reduced by such proportion as the amount of construction subsidy paid with respect to the vessel bears to the entire construction cost and capital improvements thereof (excluding the cost of national defense features), and for the period of insurance after requisition for use the valuation so determined shall not exceed the amount which would be payable under section 802 in the case of requisition for title or use: *Provided further,* That the insured shall have the right within sixty days after the attachment of the insurance under said policy, or within sixty days after determination of such valuation by the Secretary of Commerce, whichever is later, to reject such valuation, and shall pay, at the rate provided for in said policy, premiums upon such asserted valuation as the insured shall specify at the time of rejection, but such asserted valuation shall not operate to the prejudice of the Government in any subsequent action on the policy. In the event of the actual or constructive total loss of the vessel, if the insured has not rejected such valuation the amount of any claim therefor which is adjusted, compromised, settled, adjudged, or paid shall not exceed such stated amount, but if the insured has so rejected such valuation, the insured shall be paid as a tentative advance only, 75 per centum of such valuation so determined by the Secretary of Commerce and shall be entitled to sue the United States in a court having jurisdiction of such claims to recover such valuation as would be equal to the just compensation which such court determines would have been payable if the vessel had been requisitioned for title under section 902 (a) at the time of the attachment of the insurance under said policy: *Provided, however,* That in the case of a construction-subsidized vessel, the valuation determined by the court as such just compensation for any period of insurance prior to actual requisition for title or use of the vessel shall be reduced by such proportion as the amount of construction subsidy paid with respect to the vessel bears to the entire construction cost and capital improvements thereof (excluding the cost of national defense features), and for any period of insurance after actual requisition for use, the valuation determined by the court shall be the amount which would have been payable under section 802 in the case of requisition for title: *And provided further,* That in the event of an election by the insured to reject the stated valuation fixed by the Secretary of Commerce and to sue in the courts, the amount of the judgment will be payable without regard to the limitations contained in the twelfth paragraph under the heading Maritime Activities in title I of the Department of Commerce and Related Agencies Appropriation Act, 1956, in the tenth paragraph under the heading Maritime Activities in title III of the Department of State, Justice, and Commerce, and the United States Information Agency Appropriation Act, 1955, in the eleventh paragraph under the heading "Maritime Activities" in title III of the Department of Justice, State, and Commerce Appropriation Act, 1954, the tenth paragraph under the heading "Operating Differential Subsidies" in title II of the Independent Offices Appropriation Act, 1953, the corresponding paragraphs of the Independent Offices Appropriation Act, 1952, and the Third Supplemental Appropriation Act, 1951, although the excess of any amounts advanced on account of just compensation over the amount of the court judgment will be required to be refunded. In the event of such court determination, premiums under the policy shall be adjusted on the basis of the valuation as finally determined and of the rate provided for in said policy.

§ 308.104 *Additional war risk hull insurance.* Owners or charterers may obtain, on an excess basis, additional war risk hull insurance in such amounts as desired and such insurance shall not inure to the benefit of the Maritime Administrator as underwriter.

§ 308.105 *Reporting casualties and filing claims.* All casualties occurring after insurance under a binder has attached shall be reported promptly to the underwriting agent that issued the binder and all claim documents shall likewise be filed with such underwriting agent, but payment of the amounts due in settlement of claims will be made by the Maritime Administrator.

§ 308.106 *Standard form of war risk hull insurance interim binder.* The following is the standard form of war risk hull insurance interim binder:

Form MA–184 (Revised 8–56)

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE

MARITIME ADMINISTRATION

WAR RISK HULL INSURANCE

INTERIM BINDER NO. WRH–

The United States of America, represented by the Maritime Administrator, acting for the Secretary of Commerce, in consideration of the binding fee and premium provided for herein, hereby insures, in accordance with applicable provisions of law and subject to all limitations thereof, particularly Public Law 763, 81st Congress, against HULL WAR RISKS only, subject to the conditions stated herein:

Assured _____
Loss, if any, payable to _____or order.
On _____ _____
(Vessel's name) (Flag)
_____ _____
(Gross tonnage) (Date built)

Sum, insured _____ dollars ($ _____) for damage to or actual or constructive total loss of the vessel, herein called the stated valuation: *Provided, however,* That in the case of a construction-subsidized vessel, for the period of insurance prior to requisition for title or use, the stated valuation shall be reduced by such proportion as the amount of construction subsidy paid with respect to the vessel bears to the entire construction cost and capital improvements thereof (excluding the cost of national defense features), and for the period of insurance after requisition for use the stated valuation shall not exceed the amount which would be payable under section 802 of the Merchant Marine Act, 1936, as amended, in the case of requisition for title or use: *Provided further,* That the assured shall have the right within sixty days after the attachment of the insurance under the policy, or within sixty days after determination of the stated valuation by the Secretary of Commerce, whichever is later, to reject the stated valuation, and shall pay, at the rate provided for in the policy, premiums upon such asserted valuation as the assured shall specify at the time of rejection, but such asserted valuation shall not operate to the prejudice of the United States in any subsequent action on the policy. In the event of the actual or constructive total loss of the vessel, if the assured has not rejected the stated valuation the amount of any claim therefor which is adjusted, compromised, settled, adjudged, or paid shall not exceed the stated valuation, but if the assured has so rejected the stated valuation, the assured shall be paid as a tentative advance only, 75 per centum of the stated valuation and shall be entitled to sue the United States in a court having jurisdiction of such claims to recover such valuation as would be equal to the just compensation which such court determines would have been payable if the vessel had been requisitioned for title under section 902 (a) at the time of the attachment of the insurance under

the policy: *Provided, however,* That in the case of a construction-subsidized vessel, the valuation determined by the court as such just compensation for any period of insurance prior to actual requisition for title or use of the vessel shall be reduced by such proportion as the amount of construction subsidy paid with respect to the vessel bears to the entire construction cost and capital improvements thereof (excluding the cost of national defense features), and for any period of insurance after actual requisition for use, the valuation determined by the court shall be the amount which would have been payable under section 802 of the Merchant Marine Act, 1936, as amended, in the case of requisition for title: *And provided further,* That in the event of an election by the assured to reject the stated valuation and to sue in the courts, the amount of the judgment will be payable without regard to the limitations contained in the twelfth paragraph under the heading Maritime Activities in title I of the Department of Commerce and Related Agencies Appropriation Act, 1956, in the tenth paragraph under the heading Maritime Activities in title III of the Department of State, Justice, and Commerce, and the United States Information Agency Appropriation Act, 1955, in the eleventh paragraph under the heading "Maritime Activities" in title III of the Department of Justice, State, and Commerce Appropriation Act, 1954, the tenth paragraph under the heading "Operating Differential Subsidies" in title II of the Independent Offices Appropriation Act, 1953, the corresponding paragraphs of the Independent Offices Appropriation Act, 1952, and the Third Supplemental Appropriation Act, 1951, although the excess of any amounts advanced on account of just compensation over the amount of the court judgment will be required to be refunded. In the event of such court determination, premiums under the policy shall be adjusted on the basis of the valuation as finally determined and of the rate provided for in the policy.

Attaching, in the event of outbreak of war between any of the four Great Powers (France, Great Britain and/or any of the British Commonwealth of Nations, the Union of Soviet Socialist Republics, the United States of America).

At and from 48 hours from midnight, G. m. t., of the day on which such outbreak of war occurs:

Nevertheless should the vessel:

(A) Be at sea when such outbreak of war occurs, or

(B) Being in a port when such outbreak of war occurs depart therefrom as a measure of safety in respect of an insured peril within 48 hours from midnight, G. m. t., of the day on which such outbreak of war occurs,

this insurance shall not attach until the expiry of 24 hours after midnight, G. m. t., of the day on which the vessel is moored at the next port to which the vessel proceeds.

To: Thirty (30) days from date of attachment, nevertheless should the vessel be at sea on the date of expiration the insurance shall be extended, at a rate to be fixed by the Maritime Administrator, acting for the Secretary of Commerce, until midnight, G. m. t. of the day on which the vessel is moored at the next port to which she proceeds and for twenty-four hours thereafter.

Assured to have privilege of deferring attachment by giving written or telegraphic notice to the Underwriting Agent prior to attachment of risk.

This binder shall automatically expire at midnight, September 7, 1957, G. m. t.

Terms and conditions: There shall be deemed to be incorporated herein all of the terms, conditions and warranties contained in the war risk hull insurance policy set forth in § 308.107 of Maritime Administration General Order 75 (Part 308, Title 46, Code of Federal Regulations) but, to the extent there is inconsistency between such policy and this binder, the terms, conditions and warranties of this binder shall prevail.

Warranted that at the date of issuance of this binder and for and during the term of any insurance attaching hereunder the vessel is (1) an American vessel as defined in section 1201 (a), Public Law 763, 81st Congress or (2) a foreign-flag vessel in the category, including the applicable sub-part of category (b), specified in the application pursuant to which this binder was issued, and if, at any time after insurance attaches under this binder, the vessel shall cease to come within either (1) or (2) above, this binder and insurance provided hereunder shall automatically terminate at the time of such change, without return of binding fee or premium, unless the Maritime Administrator agrees otherwise.

Premium—Rate to be fixed promptly after the happening of the event causing the "Automatic Termination Clauses" of any war risk policies to become operative and premium shall be payable within ten days after receipt of notice of the amount thereof by the assured. If premium is not paid within that period this binder shall be null and void and of no effect and insurance hereunder shall not have attached unless the Maritime Administrator agrees otherwise. Payment shall be made to the Underwriting Agent by check payable to the order of "Maritime Adm.—Commerce."

Privilege is granted to effect, on an excess basis, additional war risk hull insurance, which insurance shall not enure to the benefit of the Maritime Administrator as underwriter.

Claims: Casualties arising after attachment of insurance hereunder shall be reported promptly to the Underwriting Agent and all claim documents shall be likewise filed with such Underwriting Agent but payment of the amounts due in settlement of claims will be made by the Maritime Administrator.

The Underwriting Agent does not, by countersigning this binder or in any other manner, warrant its own authority, or the authority of the Maritime Administrator, acting for the Secretary of Commerce, to issue this instrument, but acts solely under the power conveyed to the Underwriting Agent by the Agreement made with the Maritime Administrator, acting for the Secretary of Commerce.

Policy No. H------

UNITED STATES OF AMERICA

Represented by the Maritime Administrator, acting for the Secretary of Commerce (sometimes hereinafter called the Underwriter), by this policy of insurance, in accordance with applicable provisions of law and subject to all limitations thereof, does make insurance and cause to be insured: ----------for account of ----------but subject to the following provisions with respect to change of ownership, etc.:

In the event of any change, voluntary or otherwise, in the ownership of the Vessel or if the Vessel be placed under new management or be chartered on a bareboat basis or requisitioned on that basis, then, unless the Underwriter agrees thereto in writing, this Policy shall thereupon become cancelled from time of such change in ownership or management, charter or requisition; provided, however, that in the case of an involuntary temporary transfer by requisition or otherwise, without the prior execution of any written agreement by the Assured, such cancellation shall take place fifteen days after such transfer; and provided further that if the Vessel has cargo on board and has already sailed from her loading port, or is at sea in ballast, such cancellation shall be suspended until arrival at final port of discharge if with cargo or at port of destination if in ballast. This insurance shall not inure to the benefit of any such charterer or transferee of the Vessel, and if a loss payable hereunder should occur between such transfer and such cancellation the Underwriter shall be subrogated to all the rights of the Assured against the transferee, by reason of such transfer, in respect of all or part of such loss as is recoverable from the transferee and in the proportion which the respective amounts insured bear to the insured value. A pro rata daily return of net premium shall be made. The foregoing provisions with respect to cancellation in the event of change in ownership or management, charter or requisition shall apply even in the case of insurance "for account of whom it may concern".

Loss, if any (excepting claims required to be paid to others under the Collision Clause), payable to ---------- or order. Sum Insured Hereunder --------- Dollars, at and from the ------ day of ---------- 19 ----, ---------- time to the ---------- day of ---------- 19----, ---------- time.

Provided, however, Should the Vessel at the expiration of this Policy be at sea, or in distress, or at a port of refuge or of call, she shall, provided previous notice be given to the Underwriter, be held covered at a pro rata monthly premium to her port of destination.

On the Vessel called the ---------- (or by whatsoever name or names the said Vessel is or shall be called).

The said Vessel, for so much as concerns the Assured, by agreement between the Assured and the Underwriter in this Policy, is and shall be valued at as follows:

Hull, tackle, apparel, passenger fittings, equipment, stores, ordnance, munitions, boats and other furniture---------- $------

Boilers, machinery, refrigerating machinery and insulation, motor generators and other electrical machinery, and everything connected therewith ---------- ------ $------

Donkey boilers, winches, cranes, windlasses and steering gear shall be deemed to be a part of the hull and not of the machinery.

Special Conditions and Warranties: Unless physically deleted by the Underwriters, the following warranty shall be paramount and shall supersede and nullify any contrary provision of the Policy:

F. C. & S. CLAUSE

Notwithstanding anything to the contrary contained in the Policy, this insurance is warranted free from any claim for loss, damage or expense caused by or resulting from capture, seizure, arrest, restraint or detainment, or the consequences thereof or of any attempt thereat, or any taking of the Vessel, by requisition or otherwise, whether in time of peace or war and whether lawful or otherwise; also from all consequences of hostilities or warlike operations (whether there be a declaration of war or not), but the foregoing shall not exclude collision, explosion or contact with any fixed or floating object (other than a mine or torpedo), stranding, heavy weather or fire unless caused directly (and independently of the nature of the voyage or service which the vessel concerned or, in the case of a collision, any other vessel involved therein, is performing) by a hostile act by or against a belligerent power, and for the purpose of this warranty "power" includes any authority maintaining naval, military or air forces in association with a power; also warranted free, whether in time of peace or war, from all loss, damage or expense caused by any weapon of war employing atomic fission or radioactive force.

Further warranted free from the consequences of civil war, revolution, rebellion, insurrection, or civil strife arising therefrom, or piracy.

If war risks are hereafter insured by endorsement on the Policy, such endorsement shall supersede the above warranty only to the extent that their terms are inconsistent and only while such war risk endorsement remains in force.

Held covered in case of any breach of warranty as to cargo, trade, locality or date of sailing, provided notice be given and any additional premium required be agreed immediately after receipt of advices of breach or proposed breach by Owners.

The Underwriter to be paid in consideration of this insurance ---------- Dollars being at the rate of ------ per cent.

In event of non-payment of premium thirty days after attachment this Policy may be cancelled by the Underwriter upon five days written notice being given the Assured. Such proportion of the premium, however, as shall have been earned up to the time of such cancellation shall be due and payable; but in the event of Total or Constructive Total Loss occurring prior to cancellation full annual premium shall be deemed earned.

To return—

------ cents percent net for each uncommenced month if it be mutually agreed to cancel this Policy. As follows for each consecutive 30 days the Vessel may be laid up in port, viz:

	Without cargo on board	With cargo on board
1. Under repair.....	—% net.	—% net.
2. Not under repair....	—% net.	—% net.

For the purpose of this clause a Vessel loading or discharging cargo shall be considered as "with cargo on board".

Provided always: (a) that in no case shall a return be allowed when the within named Vessel is lying in a roadstead or in exposed and unprotected waters.

(b) that in the event of a return for special trade, or any other reason, being recoverable, the above rates of return of premium shall be reduced accordingly.

And arrival.

In the event of the Vessel being laid up in port for a period of 30 consecutive days, a part only of which attaches to this Policy, it is hereby agreed that the laying up period, in which either the commencing or ending date of this Policy falls, shall be deemed to run from the first day on which the Vessel is laid up and that on this basis the Underwriter shall pay such proportion of the return due in respect of a full period of 30 days as the number of days attaching hereto bear to thirty.

Additional insurances as follows are permitted:

(a) *Disbursements, managers' commissions, profits or excess or increased value of hull and machinery, and/or similar interests however described, and freight (including chartered freight or anticipated freight) insured for time.* A sum not exceeding in the aggregate 25 percent of the insured value of the Vessel.

(b) *Freight or hire, under contracts for voyage.* A sum not exceeding the gross freight or hire for the current cargo passage and next succeeding cargo passage (such insurance to include, if required, a preliminary and an intermediate ballast passage) plus the charges of insurance. In the case of a voyage charter where payment is made on a time basis, the sum permitted for insurance shall be calculated on the estimated duration of the voyage, subject to the limitation of two cargo passages as laid down herein. Any sum insured under this section shall be reduced as the freight or hire is earned by the gross amount so earned.

(c) *Anticipated freight if the vessel sails in ballast and not under charter.* A sum not exceeding the anticipated gross freight on next cargo passage, such sum to be reasonably estimated on the basis of the current rate of freight at time of insurance, plus the charges of insurance. *Provided, however,* That no insurance shall be permitted under this section if any insurance is affected under section (b).

(d) *Time charter hire or charter hire for series of voyages.* A sum not exceeding 50 percent of the gross hire which is to be earned under the charter in a period not exceeding 18 months. Any sum insured under this section shall be reduced as the hire is earned under the charter by 50 percent of the gross amount so earned but where the charter is for a period exceeding 18 months the sum insured need not be reduced while it does not exceed 50 percent of the gross hire still to be earned under the charter. An insurance under this section may begin on the signing of the charter.

(e) *Premiums.* A sum not exceeding the actual premiums of all interests insured for a period not exceeding 12 months (excluding premiums insured under the foregoing sections but including, if required, the premium or estimated calls on any Protection and Indemnity or War &c. Risk insurance) reducing pro rata monthly.

(f) *Returns of premium.* A sum not exceeding the actual returns which are recoverable subject to "and arrival" under any policy of insurance.

(g) *Insurance irrespective of amount.* Against risks excluded by the F. C. & S. Clause, and risks enumerated in the American Institute War and Strikes Clauses and General Average and Salvage Disbursements.

Warranted that no insurance on any interests enumerated in the foregoing sections (a) to (f), inclusive, in excess of the amounts permitted therein and no insurance subject to P. P. I., F. I. A. or other like term, on any interests whatever excepting those enumerated in section (a), is or shall be effected to operate during the currency of this Policy by or for account of the Assured, Owners, Managers or Mortgagees. Provided always that a breach of this warranty shall not afford the Underwriter any defense to a claim by a Mortgagee who has accepted this Policy without knowledge of such breach.

Beginning the adventure upon the said Vessel, as above, and so shall continue and endure during the period aforesaid, as employment may offer, in port and at sea, in docks, and graving docks and on ways, gridirons and pontoons, at all times, in all places, and on all occasions, services and trades whatsoever and wheresoever, under steam, motor power or sail; with leave to sail or navigate with or without pilots, to go on trial trips and to assist and tow vessels or craft in distress, but if without the approval of the Underwriter the Vessel be towed, except as is customary or when in need of assistance, or undertakes towage or salvage services under a pre-arranged contract made by Owners and/or Charterers, the Assured shall notify the Underwriter immediately and pay an additional premium if required but no such premium shall be required for customary towage by the Vessel in connection with loading and discharging. With liberty to discharge, exchange and take on board goods, specie, passengers and stores, wherever the Vessel may call at or proceed to, and with liberty to carry goods, live cattle, &c., on deck or otherwise.

Touching the Adventures and Perils which the said Underwriter is contented to bear and take upon itself, they are of the Seas, Men-of-War, Fire, Lightning, Earthquake, Enemies, Pirates, Rovers, Assailing Thieves, Jettisons, Letters of Mart and Counter-Mart, Surprisals, Takings at Sea, Arrests, Restraints and Detainments of all Kings, Princes and Peoples, of what nation, condition or quality soever, Barratry of the Master and Mariners and of all other like Perils, Losses and Misfortunes that have or shall come to the Hurt, Detriment or Damage of the said Vessel, &c, or any part thereof; excepting, however, such of the foregoing Perils as may be excluded by provisions elsewhere in the Policy or by endorsement. And in case of any Loss or Misfortune, it shall be lawful and necessary for the Assured, their Factors, Servants and Assigns, to sue, labor and travel for, in, and about the Defense, Safeguard and Recovery of the said Vessel, &c, or any part thereof, without prejudice to this Insurance, to the Charges whereof the Underwriter will contribute its proportion as provided below. And it is expressly declared and agreed that no acts of the Underwriter or Assured in recovering, saving or preserving the property insured shall be considered as a waiver or acceptance of abandonment.

This insurance also specially to cover (subject to the Average Warranty) loss of or damage to the subject matter insured directly caused by the following:

Accidents in loading, discharging or handling cargo, or in bunkering;

Accidents in going on or off, or while on drydocks, graving docks, ways, gridirons or pontoons;

Explosions on shipboard or elsewhere;

Breakdown of motor generators or other electrical machinery and electrical connections thereto, bursting of boilers, breakage of shafts, or any latent defect in the machinery or hull (excluding the cost and expense of replacing or repairing the defective part);

Contact with Aircraft or with any land conveyance;

Negligence of Master, Charterers other than an Assured, Mariners, Engineers or Pilots;

Provided such loss or damage has not resulted from want of due diligence by the Assured, the Owners or Managers of the Vessel, or any of them. Masters, Mates, Engineers, Pilots or Crew not to be considered as part owners within the meaning of this clause should they hold shares in the Vessel.

In the event of accident whereby loss or damage may result in a claim under this Policy, notice shall be given in writing to the Underwriter, where practicable, prior to survey, so that it may appoint its own surveyor if it so desires. The Underwriter shall be entitled to decide the port to which a damaged Vessel shall proceed for docking or repairing (the actual additional expense of the voyage arising from compliance with the Underwriter's requirements being refunded to the Assured) and the Underwriter shall also have a right of veto in connection with the place of repair or repairing firm proposed and whenever the extent of the damage is ascertainable the Underwriter may take or may require to be taken tenders for the repair of such damage. In the event of failure to comply with the conditions of this clause

15 per cent shall be deducted from the amount of the ascertained claim.

In cases where a tender is accepted with the approval of the Underwriter, an allowance shall be made at the rate of 30 percent per annum on the insured value for each day or pro rata for part of a day from the time of the completion of the survey until the acceptance of the tender provided that it be accepted without delay after receipt of the Underwriter's approval.

No allowance shall be made for any time during which the Vessel is loading or discharging cargo or bunkering.

Due credit shall be given against the allowance as above for any amount recovered:

(a) In respect of fuel and stores and wages and maintenance of the Master, Officers and Crew or any member thereof allowed in General or Particular Average:

(b) From third parties in respect of damages for detention and/or loss of profit and/or running expenses;

for the period covered by the tender allowance or any part thereof.

Notwithstanding anything herein contained to the contrary, this policy is warranted free from Particular Average under 3 percent, or unless amounting to $4,850, but nevertheless when the Vessel shall have been stranded, sunk, on fire, or in collision with any other Ship or Vessel, the Underwriter shall pay the damage occasioned thereby, and the expense of sighting the bottom after stranding shall be paid, if reasonably incurred, even if no damage be found.

Grounding in the Panama Canal, Suez Canal or in the Manchester Ship Canal or its connections, or in the River Mersey above Rock Ferry Slip, or in the River Plate (above a line drawn from the North Basin, Buenos Aires, to the mouth of the San Pedro River) or its tributaries, or in the Danube or Demerara Rivers or on the Yenikale Bar, shall not be deemed to be a stranding.

Average payable on each valuation separately or on the whole, without deduction of thirds, new for old, whether the Average be Particular or General.

No claim shall in any case be allowed in respect of scraping or painting the Vessel's bottom.

The warranty and conditions as to Average under 3 percent or unless amounting to $4,850 to be applicable to each voyage as if separately insured, and a voyage shall commence at the Assured's election when the Vessel either begins to load cargo or sails in ballast to a loading port. Such voyage shall continue until the Vessel has made not more than three passages or not more than two passages with cargo (whichever first occurs) and extend further until the Vessel thereafter begins to load cargo or sails (whichever first occurs), but such extension shall not exceed 30 days in port. A passage shall be deemed to be from the commencement of loading at the first port or place of loading until completion of discharge at the last port or place of discharge, or, if the Vessel sails in ballast, from the port or place of departure until arrival at the first port or place thereafter other than a port or place of refuge or a port or place for bunkering only. Each period in port of 30 days in excess of 30 days between passages shall itself constitute a passage for the purposes of this clause. When the Vessel sails in ballast to effect damage repairs such sailing or passage shall be considered part of the previous passage. In calculating whether the 3 percent or $4,850 is reached, Particular Average occurring outside the period covered by this Policy may be added to Particular Average occurring within such period, providing it occur on the same voyage as above defined, but only that portion of the claim arising within the period covered by this Policy shall be recoverable hereon. A voyage shall not be so fixed that it overlaps another voyage on which a claim is made on this or the preceding or succeeding Policy. Particular Average which would be excluded by the terms of this Policy shall not be included in determining whether the 3 percent or $4,850 is reached.

No recovery for a Constructive Total Loss shall be had hereunder unless the expense of recovering and repairing the Vessel shall exceed the insured value.

In ascertaining whether the Vessel is a Constructive Total Loss the insured value shall be taken as the repaired value, and nothing in respect of the damaged or break-up value of the Vessel or wreck shall be taken into account.

In the event of Total or Constructive Total Loss, no claim to be made by the Underwriter for freight, whether notice of abandonment has been given or not.

In no case shall the Underwriter be liable for unrepaired damage in addition to a subsequent Total Loss sustained during the period covered by this Policy.

General Average, Salvage, and Special Charges payable as provided in the contract of affreightment, or failing such provision, or there be no contract of affreightment, payable in accordance with the Laws and Usages of the Port of New York. Provided always that when an adjustment according to the laws and usages of the port of destination is properly demanded by the owners of the cargo, General Average shall be paid in accordance with same.

And it is further agreed that in the event of salvage, towage or other assistance being rendered to the Vessel hereby insured by any Vessel belonging in part or in whole to the same Owners or Charterers, the value of such services (without regard to the common ownership or control of the Vessels) shall be ascertained by arbitration in the manner below provided for under the Collision Clause, and the amount so awarded so far as applicable to the interest hereby insured shall constitute a charge under this Policy.

When the contributory value of the Vessel is greater than the valuation herein the liability of the Underwriter for General Average contribution (except in respect to amount made good to the Vessel) or Salvage shall not exceed that proportion of the total contribution due from the Vessel that the amount insured hereunder bears to the contributory value; and if because of damage for which the Underwriter is liable as Particular Average the value of the Vessel has been reduced for the purpose of contribution, the amount of the Particular Average claim under this Policy shall be deducted from the amount insured hereunder and the Underwriter shall be liable only for the proportion which such net amount bears to the contributory value.

In the event of expenditure under the Sue and Labor Clause, this Policy shall pay the proportion of such expenses that the amount insured hereunder bears to the insured value of the Vessel, or that the amount insured hereunder, less loss and/or damage payable under this Policy, bears to the actual value of the salved property; whichever proportion shall be less.

If claim for total loss is admitted under this Policy and sue and labor expenses have been reasonably incurred in excess of any proceeds realized or value recovered, the amount payable under this Policy will be the proportion of such excess that the amount insured hereunder (without deduction for loss or damage) bears to the insured value or the sound value of the Vessel at the time of the accident, whichever value was greater.

And it is further agreed that if the Vessel hereby insured shall come into collision with any other Ship or Vessel and the Assured or the Charterers or the Surety in consequence of the insured Vessel being at fault shall become liable to pay and shall pay by way of damages to any other person or persons any sum or sums in respect of such collision, the Underwriter will pay the Assured, or the Charterers, or the Surety, whichever shall have paid, such proportion of such sum or sums so paid as its subscription hereto bears to the value of the Vessel hereby insured, provided always that its liability in respect to any one such collision shall not exceed its proportionate part of the value of the Vessel hereby insured. And in cases where the liability of the Vessel has been contested, or proceedings have been taken to limit liability, with the consent in writing of the Underwriter it will also pay a like proportion of the costs which the Assured or Charterers shall thereby incur, or be compelled to pay; but when both Vessels are to blame, then, unless the liability of the Owners or Charterers of one or both such Vessels becomes limited by law, claims under the Collision Clause shall be settled on the principle of Cross-Liabilities as if the Owners or Charterers of each vessel had been compelled to pay to the Owners or Charterers of the other of such Vessels such one-half or other proportion of the latter's damages as may have been properly allowed in ascertaining the balance or sum payable by or to the Assured or Charterers in consequence of such collision; and it is further agreed that the principles involved in this clause shall apply to the case where both Vessels are the property, in part or in whole, of the same Owners or Charterers, all questions of responsibility and amount of liability as between the two Vessels being left to the decision of a single Arbitrator, if the parties can agree upon a single Arbitrator, or failing such agreement, to the decision of Arbitrators, one to be appointed by the Managing Owners or Charterers of both Vessels, and one to be appointed by the Underwriter; the two Arbitrators chosen to choose a third Arbitrator before entering upon the reference, and the decision of such single, or of any two of such three Arbitrators, appointed as above, to be final and binding. Provided always that this clause shall in no case extend to any sum which the Assured, or the Charterers, or the Surety, may become liable to pay or shall pay for removal of obstructions under statutory powers, for injury to harbors, wharves, piers, stages, structures, or any other objects (excepting other Vessels and property thereon), consequent on such collision, or in respect of the cargo, baggage or engagements of the Insured Vessel, or for loss of life, or personal injury. And provided also that in the event of any claim under this clause being made by anyone other than the Owners of the Vessel hereby insured, he shall not be entitled to recover in respect of any liability to which the Owners of the Vessel as such would not be subject, nor to a greater extent than the Owners would be entitled in such event to recover.

In witness whereof, the Maritime Administrator, acting for the Secretary of Commerce, has signed this Policy but it shall not be valid unless countersigned by an authorized underwriting agent.

UNITED STATES OF AMERICA,
By *Maritime Administrator, acting for the Secretary of Commerce*

Maritime Administrator.

The Underwriting Agent does not, by countersigning this Policy or in any other manner, warrant its own authority, or the authority of the Maritime Administrator, acting for the Secretary of Commerce, to issue this instrument, but acts solely under the power conveyed to the Underwriting Agent by the Agreement made with the Maritime Administrator, acting for the Secretary of Commerce.

Authorized Underwriting Agent.

FORM MA-240-A (2-52)

UNITED STATES OF AMERICA

HULL WAR RISK AND STRIKES CLAUSES

Endorsement attached to and made part of policy No. ----------. It is agreed that this insurance covers only those risks which would be covered by the attached policy (including running down liability under the Collision Clause) in the absence of the F. C. & S. warranty contained therein but which are excluded by that warranty. This insurance is also subject, however, to the following warranties and additional clauses:

(1) The Adventures and Perils Clause shall be construed as including the risks of piracy, civil war, revolution, rebellion or insurrection or civil strife arising therefrom, floating and/or stationary mines and/or torpedoes whether derelict or not and/or military or naval aircraft and/or other engines of war including missiles from the land and weapons of war employing atomic fission or radioactive force and warlike operations and the application of sanctions under international agreements, whether before or after declaration of war and whether by a belligerent or otherwise, but excluding arrest, restraint or detainment under customs or quarantine regulations, and similar arrests, restraints or detainments not arising from actual or impending hostilities or sanctions.

(2) This insurance also covers damage to or destruction of the property insured directly caused by strikers, locked out workmen, or persons taking part in labor disturbances or riots or civil commotions or caused by persons acting maliciously, but this paragraph shall not be construed to include or cover any loss, damage or expense caused by or resulting from delay, detention or loss of use.

(3) The Franchise warranty in the attached policy is waived and average shall be payable irrespective of percentage and without deduction of new for old. The provisions of the attached policy with respect to constructive total loss shall apply only to claims arising from physical damage to the insured vessel.

(4) Warranted free of any claim for delay or demurrage and warranted not to abandon in case of capture, seizure or detention, until after condemnation of the property insured.

(5) Warranted free of any claim based upon loss of or frustration of the insured voyage or adventure caused by arrests, restraints or detainments, of kings, princes, or peoples.

(6) Warranted free from any claim arising from capture, seizure, arrest, restraint, detainment, preemption, confiscation or requisition by the Government of the United States or of the country in which the vessel is owned or registered.

(7) Should the vessel be at sea at the natural expiry of this policy, this insurance shall be extended until midnight, G. m. t., of the day on which the vessel is moored at the next port to which she proceeds and 24 hours thereafter, provided notice be given to the Underwriting Agent as soon as practicable and an additional premium paid, if required.

(8) The "Breach of Warranty" clause in the printed policy is deleted.

(9) Warranted no War Risk Insurance in excess of the amount insured herein, whether for hull, machinery, disbursements, or other similar interests however described, exists or will be placed during the currency of this insurance, except as authorized by the Maritime Administrator, acting for the Secretary of Commerce.

(10) Warranted no cancellation except by mutual consent: *Provided, however*, That if the vessel shall be requisitioned by the United States on a basis whereby the United States provides the war risk insurance, then this insurance shall terminate and pro rata daily return premium shall be paid. In no other event shall there be any return of premium.

(11) For the purpose of determining liability under this policy for General Average contribution or Salvage and sue and labor expenses, the sum insured herein, or as stated in any binder of which this policy is a part, shall be deemed to be the "insured value" and the amount payable for the total loss of the vessel shall be deemed to be the "sound value".

SUBPART C—WAR RISK PROTECTION AND INDEMNITY INSURANCE

§ 308.200 *Amount of insurance for which application may be made.* An applicant for war risk protection and indemnity insurance shall state the amount of insurance desired but such amount shall not exceed $250.00 per gross ton of the vessel.

§ 308.201 *Form of application.* Applications submitted shall be in strict accordance with the following form:

Form MA-185 (Revised 12-56)

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE

MARITIME ADMINISTRATION

APPLICATION FOR WAR RISK PROTECTION AND INDEMNITY INSURANCE

Application is made for War Risk Protection and Indemnity Insurance pursuant to Public Law 763, 81st Congress and in accordance with all provisions of law and subject to all limitations thereof:

Assured ----------
Address
Owner ----------
Address
Mortgagee, if any, ----------
Address
Loss, if any, payable to----------or order.
On---------- ----------
(Vessel's name) (Flag)
---------- ----------
(Gross tonnage) (Date built)
Sum to be insured $--------- but not exceeding $250 per gross ton of the vessel.

To attach, in the event of outbreak of war between any of the four Great Powers (France, Great Britain and/or any of the British Commonwealth of Nations, the Union of Soviet Socialist Republics, the United States of America).

At and from 48 hours from midnight, G. m. t., of the day on which such outbreak of war occurs:

Nevertheless should the vessel:

(A) Be at sea when such outbreak of war occurs, or

(B) Being in a port when such outbreak of war occurs depart therefrom as a measure of safety in respect of an insured peril within 48 hours from midnight, G. m. t., of the day on which such outbreak of war occurs,

such insurance shall not attach until the expiry of 24 hours after midnight, G. m. t., of the day on which the vessel is moored at the next port to which the vessel proceeds.

To: Thirty (30) days from date of attachment, nevertheless should the vessel be at sea on the date of expiration the insurance shall be extended, at a rate to be fixed by the Maritime Administrator, acting for the Secretary of Commerce, until Midnight, G. m. t. of the day on which the vessel is moored at the next port to which she proceeds and for twenty-four hours thereafter.

Terms and conditions: Subject to form of policy prescribed by the Maritime Administrator, acting for the Secretary of Commerce.

If application is for insurance on a foreign-flag vessel, indicate category. If in category (b) also indicate applicable subpart. Category ( ) ( ).

(a) Owned by a citizen or citizens of the United States as defined in section 1201 (d), Public Law 763, 81st Congress;

(b) Owned by a foreign corporation, the majority of the stock of which is owned by a citizen or citizens of the United States as defined in section 1201 (d), Public Law 763, 81st Congress or under long-term charter to such a citizen or citizens and

(i) Regularly loading and/or discharging cargo and/or passengers at a port or ports in the continental United States or its territories or possessions, or

(ii) In a service on a term (not voyage) basis for the sole account of the United States or any department or agency thereof, or

(iii) In a service believed by the concerned owner, charterer, assured and applicant to be in the interest of the national defense or the national economy of the United States.

If this application is for insurance with respect to a foreign-flag vessel not in category (a), (b) (i), or (b) (ii) it shall be accompanied by the statement specified in § 308.3 of Maritime Administration General Order 75 (Part 308, Title 46, Code of Federal Regulations), which statement shall be deemed to be a part of this application. Binding Fee (not returnable unless application is rejected). $25.00.

Check payable to the order of "Maritime Adm.—Commerce" enclosed herewith.

Rate of Premium: To be fixed by the Maritime Administrator, acting for the Secretary of Commerce.

(Application, in duplicate, to be submitted to the American War Risk Agency, 99 John Street, New York 38, N. Y.)

§ 308.202 *Issuance of interim binder; its terms and conditions.* Upon acceptance of an application, an interim binder in the form set forth in § 308.205 will be issued and there shall be deemed to be incorporated therein by reference all of the terms, conditions and warranties contained in the standard war risk protection and indemnity insurance policy set forth in § 308.206 to the same extent as if such policy were made a part of the binder. The binding fee shall be $25.00.

§ 308.203 *Sum which will be insured under interim binder.* The sum insured shall be the amount stated in the application, but not in excess of $250.00 per gross ton of the vessel.

§ 308.204 *Reporting casualties and filing claims.* All casualties occurring after insurance under a binder has attached shall be reported promptly to, and all claim documents filed with, the Division of Insurance, Maritime Administration, Department of Commerce, Washington 25, D. C.

§ 308.205 *Standard form of war risk protection and indemnity insurance interim binder.* The following is the standard form of war risk protection and indemnity insurance interim binder:

Form MA–186 (Revised 8–55)

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE

MARITIME ADMINISTRATION

WAR RISK PROTECTION AND INDEMNITY INSURANCE

INTERIM BINDER NO. WRP & I

The United States of America, represented by the Maritime Administrator, acting for the Secretary of Commerce, in consideration of the binding fee and premium provided for herein, hereby insures, in accordance with applicable provisions of law and subject to all limitations thereof, particularly Public Law 763, 81st Congress, against War Risk Protection and Indemnity liabilities only, subject to the conditions stated herein:

Assured _____
Loss, if any, payable to_____
or order.
On_____ _____
(Vessel's name) (Flag)
_____ _____
(Gross tonnage) (Date built)
Sum insured _____ dollars
($_____) but not exceeding $250 per gross ton of the insured vessel.

Attaching, in the event of outbreak of war between any of the four Great Powers (France, Great Britain and/or any of the British Commonwealth of Nations, the Union of Soviet Socialist Republics, the United States of America).

At and from 48 hours from midnight, G. m. t., of the day on which such outbreak of war occurs:

Nevertheless should the vessel:

(A) Be at sea when such outbreak of war occurs, or

(B) Being in a port when such outbreak of war occurs depart therefrom as a measure of safety in respect of an insured peril within 48 hours from midnight, G. m. t., of the day on which such outbreak of war occurs,

this insurance shall not attach until the expiry of 24 hours after midnight, G. m. t., of the day on which the vessel is moored at the next port to which the vessel proceeds.

To: Thirty (30) days from date of attachment, nevertheless should the vessel be at sea on the date of expiration the insurance shall be extended, at a rate to be fixed by the Maritime Administrator, acting for the Secretary of Commerce, until midnight, G. m. t. of the day on which the vessel is moored at the next port to which she proceeds and for twenty-four hours thereafter;

Assured to have privilege of deferring attachment by giving written or telegraphic notice to the Underwriting Agent prior to attachment of risk.

This binder shall automatically expire at Midnight September 7, 1957, G. m. t.

Terms and conditions—There shall be deemed to be incorporated herein all of the terms, conditions and warranties contained in the war risk protection and indemnity insurance policy set forth in § 308.206 of Maritime Administration General Order 75 (Part 308, Title 46, Code of Federal Regulations) but, to the extent there is inconsistency between such policy and this binder, the terms, conditions and warranties of this binder shall prevail.

Warranted that at the date of issuance of this binder and for and during the term of any insurance attaching hereunder the vessel is (1) an American vessel as defined in section 1201 (a), Public Law 763, 81st Congress or (2) a foreign-flag vessel in the category, including the applicable sub-part of category (b), specified in the application pursuant to which this binder was issued, and if, at any time after insurance attaches under this binder, the vessel shall cease to come within either (1) or (2) above, this binder and insurance provided hereunder shall automatically terminate at the time of such change, without return of binding fee or premium, unless the Maritime Administrator agrees otherwise.

Premium—Rate to be fixed promptly after the happening of the event causing the "Automatic Termination Clauses" of any war risk policies to become operative and premium shall be payable within ten days after receipt of notice of the amount thereof by the assured. If premium is not paid within that period this binder shall be null and void and of no effect and insurance hereunder shall not have attached unless the Maritime Administrator agrees otherwise. Payment shall be made to the Underwriting Agent by check payable to the order of "Maritime Adm.—Commerce".

Claims—Casualties arising after the attachment of insurance hereunder shall be reported promptly to the Division of Insurance, Maritime Administration, Department of Commerce, Washington 25, D. C., and all claim documents shall likewise be filed with such Division.

The Underwriting Agent does not, by countersigning this binder or in any other manner, warrant its own authority, or the authority of the Maritime Administrator, acting for the Secretary of Commerce, to issue this instrument, but acts solely under the power conveyed to the Underwriting Agent by the Agreement made with the Maritime Administrator, acting for the Secretary of Commerce.

UNITED STATES OF AMERICA,

§ 308.206 *Standard form of war risk protection and indemnity insurance policy.* The following is the standard form of war risk protection and indemnity insurance policy:

FORM MA–241 (3–52)

UNITED STATES OF AMERICA

POLICY NO. P. & I. _____

Represented by the Maritime Administrator, acting for the Secretary of Commerce (sometimes hereinafter called the Underwriter), by this policy of insurance, in accordance with applicable provisions of law and subject to all limitations thereof, and in consideration of the stipulations herein named and of _____ dollars, being premium at the rate of _____, does insure _____ hereinafter called the Assured.

Loss, if any, payable to_____
or order. In the sum of_____
dollars at and from the _____ day of _____, 19____; _____ time until the_____day of _____, 19____, _____time, against the liabilities of the Assured as hereinafter described, and subject to the terms and conditions hereinafter set forth, in respect of the vessel _____
(or by whatsoever other name or names the said vessel is or shall be called).

The Underwriter undertakes to make good to the Assured all such loss and/or damage and/or expense as the Assured shall, as owner of the vessel named herein, have become legally liable to pay and shall pay on account of the liabilities, risks, events and/or happenings herein set forth:

Loss of life, injury and illness. (1) Liability for life salvage, loss of life of, or personal injury to, or illness of, any person, not including, however, unless otherwise agreed by endorsement hereon, liability to an employee (other than a seaman) of the Assured or, in case of his death, to his beneficiaries under any compensation act. Liability hereunder shall also include burial expenses not exceeding $200, where reasonably incurred by the Assured for the burial of any seaman. The term Person as aforesaid shall include any person or, persons carried on the insured vessel.

(a) Insurance hereunder shall not cover any liability under the provisions of Public Law 267, 64th Congress, approved September 7, 1916, as amended, now known as the Federal Employees Compensation Act, or under the provisions of section 2 (c) of Public Law 17, 78th Congress, approved March 24, 1943, as amended.

(b) Insurance hereunder in connection with the handling of cargo for the insured vessel shall commence from the time of receipt by the Assured of the cargo on dock or wharf, or on craft alongside for loading, and shall continue until due delivery thereof from dock or wharf of discharge or until discharge from the insured vessel on to a craft alongside.

Repatriation expenses. (2) Liability for expenses reasonably incurred in necessarily repatriating any member of the crew or any other person employed on board the insured vessel: *Provided, however,* That the Assured shall not be entitled to recover any such expenses incurred by reason of the expiration of the shipping agreement, other than by sea perils, or by the voluntary termination of the agreement. Wages shall be recoverable hereunder only when payable under statutory obligation during unemployment due to the wreck or loss of the insured vessel.

Collision. (3) Liability for loss or damage arising from collision of the insured vessel with another ship or vessel insofar as such liability is excluded from the liabilities insured under the following four-fourths Collision Clause in the United States of America Hull Policy (MA–240): "And it is further agreed that if the Vessel hereby insured shall come into collision with any other Ship or Vessel and the Assured or the Charterers or the Surety in consequence of the insured Vessel being at fault shall become liable to pay and shall pay by way of damages to any other person or persons any sum or sums in respect of such collision, the Underwriter will pay the Assured, or the Charterers, or the Surety, whichever shall have paid, such proportion of such sum or sums so paid as its subscription hereto bears to the value of the Vessel hereby insured, provided always that its liability in respect to any one such collision shall not exceed its proportionate part of the value of the Vessel hereby insured. And in cases where the liability of the Vessel has been contested, or proceedings have been taken to limit liability, with the consent in writing of the Underwriter it will also pay a like proportion of the costs which the Assured or Charterers shall thereby incur, or be compelled to pay; but when both Vessels are to blame, then, unless the liability of the Owners or Charterers of one or both such Vessels becomes limited by law, claims under the Collision Clause shall be settled on the principle of Cross-Liabilities as if the Owners or Charterers of each Vessel had been compelled to pay to the Owners or Charterers of the other of such Vessels such one-half or other proportion of the latter's damages as may have been properly allowed in ascertaining the balance or sum payable by or to the Assured or Charterers in consequence of such collision; and it is further agreed that the principles involved in this clause shall apply to the case where both Vessels are the property, in part or in whole, of the same Owners or Charterers, all questions of responsibility and amount of liability as between the two Vessels being left to the decision of a single Arbitrator, if the parties can agree upon a single Arbitrator, or failing such agreement, to the decision of Arbitrators, one to be appointed by the Managing Owners or Charterers of both Vessels, and one to be appointed by the Underwriter; the two Arbitrators chosen to choose a third Arbitrator before entering upon the reference, and the decision of such single, or of any two of such three Arbitrators, appointed as above, to be final and binding. Provided always that this clause shall in no case extend to any sum which the Assured, or the Charterers, or the Surety, may become liable to pay or shall pay for removal of obstructions under statutory powers, for injury to harbors, wharves, piers, stages, structures, or any other objects (excepting other Vessels and property thereon), consequent on such collision, or in respect of the cargo, baggage or engagements of the Insured Vessel, or for loss of life, or personal injury. And provided also that in the event of any claim under this clause being made by anyone other than the Owners of the Vessel hereby insured, he shall not be entitled to recover in respect of any liability to which the Owners of the Vessel as such would not be subject, nor to a greater extent than the Owners would be entitled in such event to recover."

Provided, however, That insurance hereunder shall not extend to any liability, whether direct or indirect, in respect of the engagements of or the detention or loss of time of the insured vessel.

(a) Claims hereunder shall be settled on the principles of Cross-Liabilities to the same extent only as provided in the four-fourths Collision Clause above mentioned.

(b) Where both vessels are the property, in part or in whole, of the same Owners or Charterers, claims hereunder shall be settled on the basis of the principles set forth in the four-fourths Collision Clause above mentioned.

(c) Claims hereunder shall be separated among the several classes enumerated in this policy and each class shall be subject to the special conditions applicable in respect to such class.

(d) Notwithstanding the foregoing, the Underwriter shall not be liable for any claims hereunder where the various liabilities resulting from such collision, or any of them, have been compromised, settled or adjusted without the written consent of the Underwriter.

Damage caused otherwise than by collision. (4) Liability for loss of or damage to any other vessel or craft, or to property on board such other vessel or craft, caused otherwise than by collision of the insured vessel with another vessel or craft.

(a) Where such other vessel or craft or property on board such other vessel or craft belongs to the Assured, claims hereunder shall be adjusted as if it belonged to a third person; *Provided, however,* That if such vessel, craft or property be insured, the Underwriter shall be liable hereunder only insofar as the loss or damage, but for the insurance herein provided, is not or would not be recoverable by the Assured under such other insurance.

Damage to docks, buoys, etc. (5) Liability for damage to any dock, pier, jetty, bridge, harbor, breakwater, structure, beacon, buoy, lighthouse, cable or to any fixed or movable object or property whatsoever, except another vessel or craft or property on another vessel or craft or on the insured vessel unless elsewhere covered herein.

(a) Where there would be a valid claim hereunder but for the fact that the damaged property belongs to the Assured, the Underwriter shall be liable as if such damaged property belonged to another, but only for the excess over any amount recoverable under any other insurance applicable on the property.

Wreck removal. (6) Liability for costs or expenses of or incidental to the removal of the wreck of the insured vessel if legally liable therefor; *Provided, however,* That:

(a) From such costs and expenses shall be deducted the value of any salvage from or which might have been recovered from the wreck inuring, or which might have inured, to the benefit of the Assured;

(b) The Underwriter shall not be liable for any costs or expenses which would be covered by full insurance under the United States of America Hull Policy (MA–240);

(c) In the event that the wreck of the insured vessel is upon property owned, leased, rented or otherwise occupied by the Assured, the Underwriter shall be liable for any liability for removal of the wreck which would be imposed upon the Assured by law in the absence of contract if the wreck had been upon the property belonging to another, but only for the excess over any amount recoverable under any other insurance applicable thereto.

Cargo. (7) Liability for loss of or damage to or in connection with cargo or other property (except mail or parcel post), including baggage and personal effects of persons other than members of the crew, and not exceeding $100 per person, to be carried, carried or which has been carried on board the insured vessel; *Provided, however,* That no liability shall exist hereunder for:

Specie, bullion, jewelry, etc. (a) Loss, damage or expense incurred in connection with the custody, carriage or delivery of specie, bullion, precious stones, precious metals, jewelry, silks, furs, banknotes, bonds or other negotiable documents, or similar valuable property;

Refrigeration. (b) Loss, damage or expense arising out of or in connection with the care, custody, carriage or delivery of cargo requiring refrigeration, unless the spaces, apparatus, and means used for the care, custody and carriage thereof have been surveyed by a classification or other competent disinterested surveyor under working conditions before the commencement of each round voyage unless otherwise agreed and found in all respects fit, and unless the Underwriter has approved in writing the form of contract under which such cargo is accepted for transportation;

Deviation. (c) Loss, damage or expense arising from any deviation, or proposed deviation, not authorized by the contract of affreightment, known to the Assured in time to insure specifically the liability therefor, unless notice thereof is given to the Underwriter and the Underwriter agrees, in writing, that such insurance is unnecessary;

Stowage in improper spaces. (d) Loss, damage or expense arising with respect to under deck cargo stowed on deck or with respect to cargo stowed in spaces not suitable for its carriage, unless the Assured shall show that every reasonable precaution has been taken by him to prevent such improper stowage;

Misdescription of goods. (e) Loss, damage or expense arising out of or as a result of the issuance of bills of lading which, to the knowledge of the Assured, improperly described the goods or their containers as to condition or quantity;

(f) Loss, damage or expense arising from issuance of clean bills of lading for goods known to be missing, unsound or damaged;

(g) Loss, damage or expense arising from the intentional issuance of bills of lading prior to receipt of the goods described therein, or covering goods not received at all;

(h) Loss, damage or expense arising from delivery of cargo without surrender of order bills of lading;

Freight. (i) Freight on cargo short-delivered, whether or not prepaid or whether or not included in the claim and paid by the Assured: *And provided further,* That:

(j) Liability hereunder shall in no event exceed that which would be imposed by law in the absence of contract;

Protective clauses required in contract of affreightment. (k) Liability hereunder shall be limited to such as would exist if the charter party, bill of lading, or contract of affreightment contained (i) a negligence general average clause in the form hereinafter specified under paragraph (12); (ii) a clause providing that any provision of the charter party, bill of lading, or contract of affreightment to the contrary notwithstanding, the Assured and the insured vessel shall have the benefit of all limitations of and exemptions from liability accorded to the owner or chartered owner of vessels by any statute or rule of law for the time being in force; (iii) such clauses, if any, as are required by law to be stated therein; (iv) and such other protective clauses as are generally in use in the particular trade;

Carriage of Goods by Sea Act. (l) When cargo carried by the insured vessel is under a bill of lading or similar document of title subject or made subject to the Carriage of Goods by Sea Act of the United States or a law of any other country of similar import, liability hereunder shall be limited to such as is imposed by said Act or law, and if the Assured or the insured vessel assumes any greater liability or obligation, either in respect of the valuation of the cargo or in any other respect, then the minimum liabilities and obligations imposed by said Act or law, such greater liability or obligation shall not be covered hereunder;

Limit of $500 per package. (m) When cargo carried by the insured vessel is under a charter party, bill of lading, or contract of affreightment not subject or made subject to the Carriage of Goods by Sea Act of the United States or a law of any other country of similar import, liability hereunder shall be limited to such as would exist if said charter party, bill of lading, or contract of affreightment contained a clause exempting the Assured and the insured vessel from liability for losses arising from unseaworthiness provided that due diligence shall have been exercised to make the vessel seaworthy and properly manned, equipped, and supplied, and a clause limiting the Assured's liability for total loss or damage to goods shipped to $500 per package, or in case of goods not shipped in packages, per customary freight unit, and providing for pro rata adjustment on such basis for partial loss or damage. The provisions of clauses (k), (l) and (m) herein may, however, be waived or altered by the Underwriter on terms agreed in writing;

Oral contract. (n) In the event cargo is carried under an arrangement not reduced to writing, the Underwriter's liability hereunder shall be no greater than if such cargo had been carried under a charter party, bill of lading or contract of affreightment containing the clauses referred to herein;

Assured's own cargo. (o) Where cargo on board the insured vessel is the property of the Assured, such cargo shall be deemed to be carried under a contract containing the protective clauses described in clauses (k), (l) and (m) herein; and such cargo shall be deemed to be fully insured under the usual form of cargo policy, and in case of loss of or damage to such cargo the Assured shall be insured hereunder in respect of such loss or damage only to the extent that he would have been if the cargo had belonged to another, but only in the event and to the extent that the loss or damage would not be recoverable from marine insurers under a cargo policy as above specified;

Transportation on land or on another vessel or craft. (p) No liability shall exist hereunder for any loss, damage or expense in respect of cargo or other property, including baggage and personal effects of persons other than members of the crew, being transported on land or on another vessel or craft;

Cargo on dock. (q) No liability shall exist hereunder for any loss, damage or expense in respect of cargo or other property, including baggage and personal effects of persons other than members of the crew, before loading on or after discharge from the insured vessel caused by flood, tide, windstorm, earthquake, fire, explosion, heat, cold, deterioration, collapse of wharf, leaky shed, theft, or pilferage unless such loss, damage or expense is caused directly by the insured vessel, her master, officers or crew.

Fines and penalties. (8) Liability for fines and penalties for the violation of any laws of the United States, or of any State thereof, or of any foreign country, *Provided, however,* That the Underwriter shall not be liable to indemnify the Assured against any such fines or penalties resulting directly or indirectly from the failure, neglect or fault of the Assured or its managing officers to exercise the highest degree of diligence to prevent a violation of any such laws.

Mutiny, misconduct. (9) Liability for expenses incurred in resisting any unfounded claim by the master or crew or other person employed on board the insured vessel, or in prosecuting such person or persons in case of mutiny or other misconduct; not including, however, costs of successfully defending claims elsewhere protected in this policy.

Quarantine expenses. (10) Liability for extraordinary expenses, incurred in consequence of the outbreak of plague, or other disease on the insured vessel, for disinfection of the vessel or of persons on board, or for quarantine expenses, not being the ordinary expenses of loading or discharging, nor the ordinary wages or provisions of crew or passengers; *Provided, however,* That no liability shall exist hereunder if the vessel be ordered to proceed to a port where it is known that she will be subjected to quarantine.

Putting in expenses. (11) Liability for port charges incurred solely for the purpose of putting into land an injured or sick seaman, and the net loss to the Assured in respect of bunkers, insurance, stores and provisions as the result of the deviation.

Cargo's proportion G/A. (12) Liability for Cargo's proportion of General Average, including special charges, so far as the Assured cannot recover the same from any other source: *Provided, however,* That if the charter party, bill of lading or contract of affreightment does not contain the negligence general average clause quoted below, the Underwriter's liability hereunder shall be limited to such as would exist if such clause were contained therein, viz:

Negligence G/A clause. "In the event of accident, danger, damage or disaster, before or after commencement of the voyage resulting from any cause whatsoever, whether due to negligence or not, for which, or for the consequence of which, the Carrier is not responsible, by statute, contract, or otherwise, the goods, the shipper and the consignee, jointly and severally, shall contribute with the Carrier in general average to the payment of any sacrifices, losses, or expenses of a general average nature that may be made or incurred, and shall pay salvage and special charges incurred in respect of the goods. If a salving ship is owned or operated by the Carrier, salvage shall be paid for as fully and in the same manner as if such salving ship or ships belonged to strangers."

Expenses and law costs. (13) Liability for costs, charges and expenses reasonably incurred and paid by the Assured in connection with any liability insured under this policy, provided that the Assured shall not be entitled to indemnity for the cost or expense of prosecuting or defending any claim or suit unless the same shall have been incurred with the approval in writing of the Underwriter, or the Underwriter shall be satisfied that such approval could not have been obtained under the circumstances without unreasonable delay, or that the expenses were reasonably and properly incurred. The cost and expense of prosecuting any claim in which the Underwriter shall have an interest by subrogation or otherwise shall be divided between the Assured and the Underwriter in proportion to the amounts which they would have been entitled to receive respectively, if the suit should be successful.

(14) Expenses which the Assured may incur under authorization of the Underwriter in the interest of the Underwriter.

GENERAL CONDITIONS AND LIMITATIONS

Prompt notice of claim. (15) In the event of any happening which may result in loss, damage or expense for which the Underwriter may become liable, prompt notice thereof, on being known to the Assured, shall be given by the Assured to the Underwriter, but failure to give such prompt notice because of wartime emergency conditions shall not prejudice this insurance. The Underwriter shall not be liable for any claim not presented to the Underwriter with proper proofs of loss within twenty-four (24) months after payment by the Assured.

Time for suit. (16) In no event shall suit on any claim be maintainable against the Underwriter unless commenced within twenty-four (24) months after the loss, damage or expenses resulting from liabilities, risks, events, occurrences and expenditures specified under this policy shall have been paid by the Assured.

Settlement of claims. (17) The Assured shall not make any admission of liability, either before or after any occurrence, which may result in a claim for which the Underwriter may be liable. The Assured shall not interfere in any negotiations of the Underwriter for settlement of any legal proceedings in respect of any occurrences for which the Underwriter is liable under this policy: *Provided, however,* That in respect of any occurrence likely to give rise to a claim under this policy, the Assured is obligated to and shall take such steps to protect his and the Underwriter's interests as would reasonably be taken in the absence of this or similar insurance. If the Assured shall fail or refuse to settle any claim as authorised or directed by the Underwriter, the liability of the Underwriter to the Assured shall be limited to the amount for which settlement could have been made or, if the amount is unknown, to the amount which the Underwriter authorized.

Defense of claims. (18) Whenever required by the Underwriter, the Assured shall aid in securing information and evidence and in obtaining witnesses and shall cooperate with the Underwriter in the defense of any claim or suit or in the appeal from any judgment, in respect of any occurrence as hereinbefore provided.

Assumed contractual liability. (19) Unless otherwise agreed by endorsement hereon, the Underwriter's liability shall in no event exceed that which would be imposed on the Assured by law in the absence of contract: *Provided, however,* That the Assured's right of indemnity from the Underwriter shall include any loss, damage or expense covered under the provisions of this policy arising as a result of any contract for the employment of tugs where such contract is one which is substantially similar to those customarily in use or in force during the currency of this policy. The Assured's right of indemnity hereunder shall not include any liability for loss, damage or expense arising from collision between the insured vessel and another vessel or craft, other than liability consequent on such collision, (a) for removal of obstructions under statutory powers, (b) for damage to any dock, pier, jetty, bridge, harbor, breakwater, structure, beacon, buoy, lighthouse, cable or similar structures, (c) in respect of the cargo of the insured vessel and (d) for loss of life, personal injury and illness.

Assignment. (20) No claim or demand against the Underwriter shall be assigned or transferred, and no person, other than a receiver of the property or the estate of the Assured, shall acquire any right against the Underwriter without the express consent of the Underwriter: *Provided, however,* That this shall not affect the rights of any assignee under an assignment made by virtue of any governmental order or decree, in which event such assignee shall have and possess all of the rights of its predecessor in assignment.

Subrogation. (21) The Underwriter shall be subrogated to all the rights which the Assured may have against any other person or entity, in respect of any payment made under this policy, to the extent of such payment, and the Assured shall, upon the request of the Underwriter, execute all documents necessary to secure to the Underwriter such rights.

Double insurance. (22) The Underwriter shall not be liable for any loss or damage against which, but for the insurance hereunder, the Assured is or would be insured under existing insurance excepting as provided in paragraph (1) (a) hereof.

Limitation of liability. (23) If and when the Assured under this policy has any interest other than as an owner or bareboat charterer of the insured vessel, in no event shall the Underwriter be liable hereunder to any greater extent than if such Assured were the owner or bareboat charterer and were entitled to all the rights of limitation to which a shipowner is entitled.

Risks excluded. (24) Notwithstanding anything to the contrary contained in this policy, the Underwriter shall not be liable for any loss, damage, or expense sustained, directly or indirectly by reason of:

(a) Loss, damage or expense to hull, machinery, equipment or fittings of the insured vessel, including refrigerating apparatus and wireless equipment, whether or not owned by the Assured;

(b) Cancelment or breach of any charter or contract, detention of the vessel, bad debts, insolvency, fraud of agents, loss of freight, passage money, hire, demurrage, or any other loss of revenue;

(c) Any loss, damage, sacrifice, or expense which would be payable under the terms of the United States of America Hull Policy (MA-240), on hull, machinery, etc., whether or not the insured vessel is fully covered by insurance sufficient in amount to pay such loss, damage, sacrifice or expense;

(d) The insured vessel towing any other vessel or craft, unless such towage was to assist such other vessel or craft in distress to a port or place of safety: *Provided, however,* That this exception shall not apply to claims covered under paragraph (1) of this policy;

(e) For any claim for loss of life, personal injury or illness in relation to the handling of cargo where such claim arises under a contract of indemnity between the Assured and his subcontractor.

F. C. and S. Clause. (25) Notwithstanding anything to the contrary contained in this policy, the Underwriter shall not be liable for or in respect of any loss, damage or expense, sustained by reason of capture, seizure, arrest, restraint or detainment, or the consequences thereof or of any attempt thereat; or sustained in consequence of military, naval or air action by force of arms, including mines and torpedoes or other missiles or engines of war, whether of enemy or friendly origin; or sustained in consequence of placing the vessel in jeopardy as an act or measure of war taken in the actual process of a military engagement, including embarking or disembarking troops or material of war in the immediate zone of such engagement; and any such loss, damage and expense shall be excluded from this policy without regard to whether the Assured's liability therefor is based on negligence or otherwise, and whether before or after a declaration of war.

(26) Liability hereunder in respect of any one accident or occurrence is limited to the amount hereby insured.

In witness whereof, the Maritime Administrator, acting for the Secretary of Commerce, has signed this policy but it shall not be valid unless countersigned by an authorised underwriting agent.

UNITED STATES OF AMERICA,
By *Maritime Administrator, acting,*

Form MA-241-A (3-52)

UNITED STATES OF AMERICA

WAR RISK PROTECTION AND INDEMNITY CLAUSES

Endorsement attached to and made part of Policy No. P. & I -------.

(1) This insurance to cover only the liability of the Assured for those protection and indemnity risks excluded from the Marine Protection and Indemnity Policy, to which these clauses are attached, by the F. C. & S. Clause contained therein.

(2) This insurance also to cover liability of the Assured for (a) strikes, riots and civil commotions and (b) for contractual repatriation expenses of any member of the crew as a result of perils excluded by the aforesaid F. C. & S. Clause.

(3) Claims for which the Underwriter shall be liable under these clauses shall not be subject to any deduction.

(4) The liability of the Underwriter under these clauses in respect of any one accident or series of accidents arising out of the same casualty shall be limited to the sum hereby insured.

(5) In the event of loss or shipwreck of the vessel from any cause prior to the natural expiry of this policy, this insurance shall continue to cover the liability of the Assured to the crew of the insured vessel, subject to its terms and conditions and at an additional premium if so required by the Underwriter, until the crew shall be either discharged or landed at a port or place to which the owners or charterers are obliged to bring them.

(6) Should the vessel be at sea at the natural expiry of this policy, this insurance shall be extended until midnight, G. m. t., of the day on which the vessel is moored at the next port to which she proceeds and 24 hours thereafter provided notice be given to the Underwriter as soon as practicable and an additional premium paid, if required.

(7) Warranted no cancellation except by mutual consent, provided, however, that if the vessel shall be requisitioned by the United States on a basis whereby the United States provides the war risk protection and indemnity insurance, then this insurance shall terminate and pro rata daily return premium shall be paid. In no other event shall there be any return of premium.

(8) Notwithstanding any of the foregoing provisions, all liabilities covered by the Second Seamen's form of policy are excluded from this insurance.

SUBPART D—SECOND SEAMEN'S WAR RISK INSURANCE

§ 308.300 *Amounts of insurance for which application may be made.* An applicant for Second Seamen's war risk insurance shall not state the amount of insurance desired, which shall be as provided in § 308.303.

§ 308.301 *Form of application.* Applications submitted shall be in strict accordance with the following form:

Form MA-187 (Revised 12-56)

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE

MARITIME ADMINISTRATION

APPLICATION FOR SECOND SEAMEN'S WAR RISK INSURANCE

Application is made for Second Seamen's War Risk Insurance (1955) pursuant to Public Law 763, 81st Congress and in accordance with all provisions of law and subject to all limitations thereof:

Assured ----------
Address

Loss, if any, payable in accordance with applicable provisions of Second Seamen's War Risk Policy (1955).

---------- ----------
(Vessel's name) (Flag)

---------- ----------
(Gross tonnage) (Date built)

In the amount specified in the Second Seamen's War Risk Policy (1955) or as modified by shipping articles, collective bargaining agreements or other applicable employment agreements which are in effect upon the happening of the event causing the "Automatic Termination Clauses" of any war risk policies to become operative. Upon the happening of said event, the number of crew members and modified benefits payable as of that date will immediately be declared to the Underwriting Agent. Any subsequent changes will be likewise declared.

To attach, in the event of outbreak of war between any of the four Great Powers (France, Great Britain and/or any of the British Commonwealth of Nations, the Union of Soviet Socialist Republics, the United States of America).

At and from 48 hours from midnight, G. m. t., of the day on which such outbreak of war occurs:

Nevertheless should the vessel:

(A) Be at sea when such outbreak of war occurs, or

(B) Being in a port when such outbreak of war occurs depart therefrom as a measure of safety in respect of an insured peril within 48 hours from midnight, G. m. t., of the day on which such outbreak of war occurs,

such insurance shall not attach until the expiry of 24 hours after midnight, G. m. t., of the day on which the vessel is moored at the next port to which the vessel proceeds.

To: Thirty (30) days from date of attachment, nevertheless should the vessel be at sea on the date of expiration the insurance shall be extended, at a rate to be fixed by the Maritime Administrator, acting for the Secretary of Commerce, until Midnight, G. m. t. of the day on which the vessel is moored at the next port to which she proceeds and for twenty-four hours thereafter.

Terms and conditions: Subject to form of policy prescribed by the Maritime Administrator, acting for the Secretary of Commerce.

If application is for insurance on a foreign-flag vessel, indicate category. If in category (b) also indicate applicable sub-part. Category ( ) ( ).

(a) Owned by a citizen or citizens of the United States as defined in section 1201 (d), Public Law 763, 81st Congress;

(b) Owned by a foreign corporation, the majority of the stock of which is owned by a citizen or citizens of the United States as defined in section 1201 (d), Public Law 763, 81st Congress or under long-term charter to such a citizen or citizens, and

(i) Regularly loading and/or discharging cargo and/or passengers at a port or ports in the continental United States or its territories or possessions, or

(ii) In a service on a term (not voyage) basis for the sole account of the United States or any department or agency thereof, or

(iii) In a service believed by the concerned owner, charterer, assured and applicant to be in the interest of the national defense or the national economy of the United States.

If this application is for insurance with respect to a foreign-flag vessel not in category (a), (b) (i), or (b) (ii) it shall be accompanied by the statement specified in § 308.3 of Maritime Administration General Order 75 (Part 308, Title 46, Code of Federal Regulations), which statement shall be deemed to be a part of this application. Binding Fee (not returnable unless application is rejected). $75.00.

Check payable to the order of "Maritime Adm.—Commerce" enclosed herewith.

Rate of Premium: To be fixed by the Maritime Administrator, acting for the Secretary of Commerce.

(Application, in duplicate, to be submitted to the American War Risk Agency, 99 John Street, New York 38, N. Y.)

§ 308.302 *Issuance of interim binder; its terms and conditions.* Upon acceptance of an application, an interim binder in the form set forth in § 308.305 will be issued and there shall be deemed to be incorporated therein by reference all of the terms, conditions and warranties contained in the Second Seamen's War Risk Policy (1955) set forth in § 308.306 to the same extent as if such policy were made a part of the binder. The binding fee shall be $75.00.

§ 308.303 *Sums which will be insured under interim binder.* The sums insured are the amounts specified in the Second Seamen's War Risk Policy (1955) or as modified by shipping articles, collective bargaining agreements or other applicable employment agreements which are in effect upon the happening of the event causing the "Automatic Termination Clauses" of any war risk policies to become operative. Upon the happening of said event, the number of crew members and modified benefits payable as of that date shall be declared immediately to the underwriting agent that issued the binder. Any subsequent changes shall be likewise declared.

§ 308.304 *Reporting casualties and filing claims.* All casualties occurring after insurance under a binder as attached shall be reported promptly to, and all claim documents filed with, the Division of Insurance, Maritime Administration, Department of Commerce, Washington 25, D. C.

§ 308.305 ***Standard form of Second Seamen's war risk interim binder.*** **The following is the standard form of Second Seamen's war risk interim binder:**

Form MA–188 (Revised 8–55)

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE

MARITIME ADMINISTRATION

SECOND SEAMEN'S WAR RISK INSURANCE (1955)

INTERIM BINDER NO. SSWR

The United States of America, represented by the Maritime Administrator, acting for the Secretary of Commerce, in consideration of the binding fee and premium provided for herein, hereby insures, in accordance with applicable provisions of law and subject to all limitations thereof, particularly Public Law 763, 81st Congress, against Second Seamen's War Risk liabilities only, subject to the conditions stated herein:

Assured_____

Loss, if any, payable in accordance with applicable provisions of Second Seamen's War Risk Policy (1955).

_____ _____
(Vessel's name) (Flag)

_____ _____
(Gross tonnage) (Date built)

Sums insured: The amounts specified in the Second Seamen's War Risk Policy (1955) or as modified by shipping articles, collective bargaining agreements or other applicable employment agreements which are in effect upon the happening of the event causing the "Automatic Termination Clauses" of any war risk policies to become operative. Upon the happening of said event the number of crew members and modified benefits payable as of that date shall immediately be declared to the Underwriting Agent. Any subsequent changes shall be likewise declared and additional premium paid, if required.

Attaching, in the event of outbreak of war between any of the four Great Powers (France, Great Britain and/or any of the British Commonwealth of Nations, the Union of Soviet Socialist Republics, the United States of America).

At and from 48 hours from midnight, G. m. t., of the day on which such outbreak of war occurs:

Nevertheless should the vessel:

(A) Be at sea when such outbreak of war occurs, or

(B) Being in a port when such outbreak of war occurs depart therefrom as a measure of safety in respect of an insured peril within 48 hours from midnight, G. m. t., of the day on which such outbreak of war occurs,

this insurance shall not attach until the expiry of 24 hours after midnight, G. m. t., of the day on which the vessel is moored at the next port to which the vessel proceeds.

To: Thirty (30) days from date of attachment, nevertheless should the vessel be at sea on the date of expiration the insurance shall be extended, at a rate to be fixed by the Maritime Administrator, acting for the Secretary of Commerce, until Midnight, G. m. t. of the day on which the vessel is moored at the next port to which she proceeds and for twenty-four hours thereafter;

Assured to have privilege of deferring attachment by giving written or telegraphic notice to the Underwriting Agent prior to attachment of risk.

This binder shall automatically expire at Midnight, September 7, 1957, G. m. t.

Terms and conditions: There shall be deemed to be incorporated herein all of the terms, conditions and warranties contained in the Second Seamen's War Risk Policy (1955) set forth in § 308.306 of Maritime Administration General Order 75 (Part 308, Title 46, Code of Federal Regulations) but, to the extent there is inconsistency between such policy and this binder, the terms, conditions and warranties of this binder shall prevail.

Warranted that at the date of issuance of this binder and for and during the term of any insurance attaching hereunder the vessel is (1) an American vessel as defined in section 1201 (a), Public Law 763, 81st Congress or (2) a foreign-flag vessel in the category, including the applicable sub-part of category (b), specified in the application pursuant to which this binder was issued, and if, at any time after insurance attaches under this binder, the vessel shall cease to come within either (1) or (2) above, this binder and insurance provided hereunder shall automatically terminate at the time of such change, without return of binding fee or premium, unless the Maritime Administrator agrees otherwise.

Premium: Rate to be fixed promptly after the happening of the event causing the "Automatic Termination Clauses" of any war risk policies to become operative and premium shall be payable within ten days after receipt of notice of the amount thereof by the assured. If premium is not paid within that period this binder shall be null and void and of no effect and insurance hereunder shall not have attached unless the Maritime Administrator agrees otherwise. Payment shall be made to the Underwriting Agent by check payable to the order of "Maritime Adm.—Commerce".

Claims: Casualties arising after the attachment of insurance hereunder shall be reported promptly to the Division of Insurance, Maritime Administration, Department of Commerce, Washington 25, D. C., and all claim documents shall likewise be filed with such Division.

The Underwriting Agent does not, by countersigning this binder or in any other manner, warrant its own authority, or the authority of the Maritime Administrator, acting for the Secretary of Commerce, to issue this instrument, but acts solely under the power conveyed to the Underwriting Agency by the Agreement made with the Maritime Administrator, acting for the Secretary of Commerce.

UNITED STATES OF AMERICA,
By Maritime Administrator, acting for the Secretary of Commerce.

Countersigned at New York, N. Y., this ------ day of 195__.

AMERICAN WAR RISK AGENCY,
By _____
Authorized Underwriting Agent.

_____
Maritime Administrator.

Not valid unless countersigned by an authorized underwriting agent.

SECOND SEAMEN'S WAR RISK POLICY

(1955 Standard Form)

Crew Life, Disability, Loss of Effects, and Detention — No. SSWR _____ Date _____

Total number of men insured for life and injury _____ for $_____ each
Total amount insured, life or injury_____ $_____ Rate ___% Premium $_____
Total amount insured, personal effects_____ $_____ Rate ___% Premium $_____
Total amount annual wages and emergency wages_ $_____ Rate ___% Premium $_____
Total premium_____ $_____

The United States of America (herein called the "Underwriter"), represented by the Maritime Administrator (herein called "Administrator"), acting for the Secretary of Commerce, in consideration of the payment by _____ (herein, for identification purposes only, called the "Operator") of a premium of $_____, and in accordance with applicable provisions of law and subject to all limitations thereof, particularly title XII, Merchant Marine Act, 1936, as amended, insures the master, officers and crew, as hereinafter set forth, of the vessel _____ (Official No. _____), during the period described herein commencing on or about ____ against loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, and detention (including the occurrence of other situations hereinafter provided), from the perils and causes hereinafter stated, payable in case of claim in funds current in the United States in accordance with the following schedules and as hereinafter stated.

SCHEDULE 1—LOSS OF LIFE

Master, officers and crew, each ------ $5,000

The amount for which each person is covered by this schedule is the principal sum.

SCHEDULE 2—DISABILITY, INCLUDING DISMEMBERMENT AND LOSS OF FUNCTION

For disability proximately caused by the risks and perils insured against herein, and which arises within ninety days from the date of the happening of such risks and perils, and for dismemberment and loss of function caused by the risks and perils insured against herein, and which result from such a disability or otherwise occur within ninety days from the happening of such risks or perils, the Underwriter will pay to the insured the benefits set forth in the stipulations and conditions.

SCHEDULE 3—CREW EFFECTS

For loss of or damage to the personal effects of the master, officers or members of the crew proximately caused by the risks and perils insured against herein, the Underwriter will pay the amount set forth in the Stipulations and Conditions for the loss of or damage to said effects during the entire period of this policy as hereinafter set forth, and for the loss of or damage to effects proximately caused by the risks and perils insured against herein, purchased or otherwise acquired during the policy to replace effects lost or damaged by the risks and perils insured against herein, the Underwriter will pay not exceeding $50.00 for each such loss or damage.

SCHEDULE 4—DETENTION AND REPATRIATION BENEFITS

For detention of the master, officers or members of the crew during the period covered by this policy, and under other situations hereinafter provided, the Underwriter will pay benefits to the insured or for his or their account, as set forth in the stipulations and conditions.

This policy is made and accepted subject to the foregoing and to the following:

STIPULATIONS AND CONDITIONS

Art.
1. Persons insured.
2. Additional insurance.
3. Risks and perils.
4. Period of coverage.
5. Extension of period of coverage.
6. Payment for loss of life.
7. Beneficiaries of insurance for loss of life.
8. (A) Designation and change of beneficiary; (B) continuing designation.
9. Claims.
10. Time for payment of insurance for loss of life.
11. Proof of death.
12. Disability and dismemberment.
13. Physical examination.
14. Personal effects defined.
15. Amount of payment for loss of, or damage to, personal effects.
16. Death of an insured prior to payment for loss of or damage to personal effects.
17. Detention and repatriation benefits.
18. Payment constituting a discharge.
19. Nonassignability.
20. Amount permitted to be paid agents or attorneys.
21. Notice of loss and claim.
22. Limitation of suit.
23. Deviation and change of voyage.
24. "Administrator" defined.
25. Multiple claims against the United States.
26. Amendments and modifications.
27. Payment of premium and cancellation.
28. Extension.

ARTICLE 1. *Persons insured.* The persons insured by this policy are the master, officers and crew of the vessel described on the face of this policy. Except as to merchant seamen, membership in the vessel's gun crew shall not of itself constitute an individual a member of the crew of the vessel, as that phrase is used herein. Any person or persons insured under any other or similar policy, including the Second Seamen's War Risk Policy (1952), insuring against loss of life or disability (including dismemberment and loss of function) or loss of or damage to personal effects or detention (including the occurrence of other situations hereinafter provided) shall not to the extent of such prior coverage, be entitled to coverage under this policy while such other insurance is in force and effect.

ART. 2. *Additional insurance.* In the event that any person is employed as a master or officer or member of the crew of said vessel after the commencement of the voyage, the amount of the premium shall be increased proportionately, provided, however, that the failure to pay such additional premium shall not affect the additional coverage.

ART. 3. *Risks and perils.* The insurance is for loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, and detention (including the occurrence of other situations hereinafter provided) of the insured, directly and proximately caused by risks of war and warlike operations, including capture, seizure, destruction by men-of-war, sabotage, piracy, takings at sea, arrests, restraints and detainments, acts of kings, princes and peoples in the prosecution of hostilities or in the application of sanctions under international agreements, whether before or after declaration of war and whether by a belligerent or otherwise, including factions engaged in civil war, revolution, rebellion or insurrection, scuttling to prevent capture, aerial bombardment, or, attempts at, or measures taken in defense of, all of the foregoing acts, floating or stationary mines, torpedoes, whether derelict or not, collision caused by failure, in compliance with wartime regulations, of said vessel or any vessel with which she is in collision, to show the usual full peacetime navigation or anchorage lights, stranding caused by the absence of lights, buoys, or similar peacetime aids to navigation consequent upon wartime regulations, stranding caused by the failure of said vessel to employ a pilot in waters where a pilot would ordinarily be employed in peacetime, but in which the employment of a pilot is dispensed with in compliance with military, naval or other governmental orders, or with a view to avoiding imminent enemy attack (for the purposes of the foregoing, the failure to show lights, the absence of lights, buoys, etc., and the failure to employ a pilot shall be presumed to be the cause of the collision or stranding unless the contrary be proved, and stranding shall include sinking consequent upon stranding or contact with any part of the land), collision with another vessel in the same convoy or collision with any military or naval vessel, that is to say, a vessel manned by and under the control of military or naval personnel and designed to be employed primarily in armed combat service, stranding, collision or contact with any external substance (including ice, but excluding water), as a result of deliberately placing the vessel in jeopardy, in compliance with military, naval or other governmental orders in order to avoid imminent enemy attack, or as an act or measure of war taken in the actual process of embarking or disembarking troops or loading or unloading material of war.

The fact that a vessel, or any vessel with which such vessel is in collision, is carrying troops or military or other supplies, or is proceeding to or from a war base, or is manned or operated by military or naval personnel, shall not alone be sufficient to include in this policy any claim which is not included by the foregoing terms of this article.

The insurance is also for loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, and detention (including the occurrence of other situations hereinafter provided) of the insured, directly and proximately resulting from stranding, sinking, or break-up of the vessel, explosion or fire causing loss of or substantial damage to the vessel, or collision by the vessel or contact with any external substance (including ice, but excluding water), irrespective of whether the same are caused by risks of war or warlike operations or by marine risks and perils.

The word "vessel" shall include any waterborne conveyance used to transport the insured to and from the vessel on which he is employed, and shall also include any airborne conveyance used to transport the insured pursuant to instructions or permission of the Maritime Administration or its agents.

ART. 4. *Period of coverage.* The period of coverage for each person covered hereunder is

From the time such person signs the articles or enters into a contract of employment for the voyage of the aforesaid vessel, or, if already on articles for a series of voyages or period of time, from the inception of the aforesaid voyage (i. e., when the vessel is ready to begin the loading of cargo for the aforesaid voyage or to sail in ballast) or, if employed subsequent to the commencement of the voyage, from the time of such employment

Until such person shall be returned to a place within the continental United States, excluding Alaska, including any period of capture or internment,

Unless sooner terminated by desertion, discharge, accepting employment on another vessel for a purpose other than to be repatriated, or the refusal without good cause to return to the continental United States, excluding Alaska, from any place outside thereof, in any of which events the coverage under this policy shall be at an end. (The term "discharge," as used in this paragraph, does not include instances in which the insured leaves the vessel for medical or hospital treatment or for other causes deemed good and sufficient in the opinion of the Administrator.)

ART. 5. *Extension of period of coverage.* If the insured returns to the continental United States, excluding Alaska, on a vessel which touches or stays at a place or places within the continental United States, excluding Alaska, other than the place of termination of the voyage and the vessel thence proceeds to such place of termination, the period of coverage in respect to each person covered hereunder who continues to be on board such vessel is extended to the termination of the voyage.

ART. 6. *Payment for loss of life.* The amount of the payment for loss of life shall be the principal sum stated on the face of this policy, subject, however, to any deductions or additions hereinafter contained.

Payment for loss of life shall be made in a lump sum except that when—

(a) In the opinion of the Administrator conclusive proof of death is not present, or

(b) The insured at the time of designating a beneficiary or beneficiaries requests on the form provided therefor that the amount payable for the loss of life be paid in installments, or

(c) The beneficiary or beneficiaries request in writing that the payment for loss of life be made in installments.

payment for loss of life may, in the discretion of the Administrator, be made in monthly installments not exceeding twenty-four, in which event no interest is to be added or paid. By requesting payment in installments, the insured and the beneficiary or beneficiaries agree on behalf of themselves, their heirs, executors and administrators to be bound by the provisions of paragraph B, article 7 hereof, as well as all other provisions contained herein. The beneficiary or beneficiaries may at any time upon written request obtain a lump sum payment of the entire amount yet unpaid if payment is being made in installments pursuant to the written request of the beneficiary or beneficiaries. If payment has been commenced in installments and the principal sum is not yet exhausted, the Administrator, in his sole discretion and at any time may direct that payment of the balance of the principal sum be paid in a lump sum or in installments of different or varying amounts, provided, however, that all of the principal sum be paid within twenty-four months from the time that the first payment is made.

If any payments are made under article 12 hereof, the total amount of such payments shall be deducted from the amount of the principal sum payable under this policy for loss of life.

If the personal effects of an insured are lost or damaged under circumstances where payment would be due under the terms hereof to said person for such loss or damage and said person either before or after such loss or damage dies, his death being proximately caused by the risks and perils insured against herein, the amount which would have been payable for the loss of or damage to such personal effects had he survived shall be added to the principal sum hereof and shall be payable to the beneficiary of the insurance for loss of life.

ART. 7. *Beneficiaries of insurance for loss of life.* A. The insurance shall be payable only to a lawful widow or widower, child (the latter term including a posthumous child, a child legally adopted by the insured, and, if designated, a child in relation to whom the insured stood in *loco parentis*, and a step-child or acknowledged illegitimate child), parent (including a step-parent, parent by adoption and, if designated, a person who stood in the place of a parent to the insured), brother or sister (including, if

designated, step-brothers or step-sisters, half-brothers and half-sisters, and brothers and sisters by adoption), grandparents, grandchildren, and, if designated, nephews, nieces, aunts or uncles, of the insured.

(1) The insured shall have the right to designate the beneficiary or beneficiaries of the insurance, but only within the classes above provided, and shall, in the manner hereinafter described, at all times have the right to change the beneficiary or beneficiaries of such insurance without the consent of such beneficiary or beneficiaries, but only within the above classes. A person or persons so designated shall be known as the primary beneficiary or beneficiaries.

(2) The insured shall have the right also to designate any other person or persons, but only within the above classes, to whom the insurance shall be paid if the beneficiary or beneficiaries designated shall die before the insurance or any portion thereof shall be paid. A person or persons so designated shall be known as the contingent beneficiary or beneficiaries.

(3) If the insured fails to designate a beneficiary or if the beneficiary or beneficiaries, whether primary or contingent, die before the insurance or any portion thereof shall be paid, the insurance will, subject to the provisions of paragraph B hereof, be paid to the beneficiary or beneficiaries within the following classes and in the order named:

(a) If the insured shall be survived by a lawful widow or widower but without any child of him or her surviving, 100 percent to such widow or widower.

(b) If the insured shall be survived by a lawful widow or widower and a child or children of him or her surviving, 50 percent to the widow or widower and 50 percent to the child or children in equal shares.

(c) If the insured shall have no lawful widow or widower of him or her surviving but shall have a child or children of him or her surviving, 100 percent to the child or children in equal shares.

(d) If there shall be no lawful widow or widower or children of the insured of him or her surviving, 100 percent to the parent or parents of the insured in equal shares.

(e) If there shall be no lawful widow or widower, child or parent of him or her surviving, 100 percent to the brothers, sisters, grandparents and grandchildren of the insured in equal shares.

The persons in these classes shall be known as the schedule beneficiaries. As used in this subdivision (3), the term "child" includes a posthumous child and a child legally adopted by the insured, and the term "parent" includes a step-parent and a parent by adoption.

B. The right of any beneficiary to payment of the insurance, or any unpaid installment thereof, shall be conditioned upon his or her being alive to receive payment. No person shall have a vested right to any such insurance or any installment of any such insurance. No insurance shall be paid to the heir or heirs or executors or administrators of the insured or of any beneficiary.

Any insurance or any installment thereof not paid to a primary beneficiary because of his or her death shall be paid to the schedule beneficiary or beneficiaries first or next entitled to priority as hereinabove provided, unless a contingent beneficiary has been designated, in which event payment shall be made to the contingent beneficiary. Any such insurance or any installment thereof not paid to a contingent beneficiary because of his or her death shall be paid to the schedule beneficiary or beneficiaries first or next entitled to priority as hereinabove provided. If, however, the insured has designated more than one primary beneficiary or more than one contingent beneficiary and if such a primary beneficiary or contingent beneficiary dies before the insurance or an installment thereof, to which he or she may otherwise be entitled, is paid, such insurance or installment thereof shall be paid to the surviving primary or contingent beneficiary, as the case may be.

Any payments of insurance made to a person represented by the insured to be within the permitted classes of beneficiaries shall be deemed to have been properly made and to satisfy fully the obligation of the United States under this insurance policy.

ART. 8. A. *Designation and change of beneficiary.* The designation of a beneficiary or the change in a designation of beneficiary shall be in writing upon a form or forms and in a manner prescribed by the Administrator, signed by the insured, witnessed either by the Shipping Commissioner or a licensed officer of the vessel, and shall contain the name, address and relationship of the beneficiary to the insured. No designation of a beneficiary and no change of a beneficiary shall be valid unless the instrument containing the designation or change is received by the Administrator at his office in the General Accounting Office Building, 441 G Street NW., Washington 25, D. C.: *Provided, however,* That the instrument when received shall be considered as valid as of the time of its execution. Whenever it shall appear to the satisfaction of the Administrator that unusual circumstances existed preventing or substantially preventing the designation or change of beneficiary in the manner or form hereinabove set forth and that the interests of justice would be served, he may waive or disregard the failure to comply with such manner and form and recognize as valid an act intended as a designation or a change of beneficiary. The recognition as valid by the Administrator of such an act shall be conclusive and binding upon all persons and payment or payments pursuant thereto shall be a pro tanto discharge of the obligation of the United States under this policy.

B. *Continuing designation.* As to any individual insured under the Second Seamen's War Risk Policy form as amended or changed from time to time, the beneficiary or beneficiaries first designated by such insured to receive the proceeds of the insurance provided by such form shall (subject to the limitations of paragraph B, article 7 hereof), if properly designated, continue to be the beneficiary or beneficiaries of any subsequent insurance provided by such form without further designation unless and until such initial designation is effectively revoked or changed. In the event of an effective revocation unaccompanied by a new designation, the insurance proceeds shall be disposed of in accordance with the provisions of paragraph A, subdivision (3), article 7, hereof. In the event of an effective change of beneficiary or beneficiaries, the new beneficiary or beneficiaries so designated shall for all purposes, including the purposes of this paragraph, be considered as the initial designee or designees, and such designation shall continue to be effective as to all insurance provided by this form of policy until revoked or changed. Subsequent revocations and changes shall for all purposes be treated as would be the preceding revocations or changes, if any.

ART. 9. *Claims.* No claim for insurance for loss of life shall be recognized unless presented in writing to the underwriter. Any payment or payments of the insurance or the installments thereof made prior to the presentation of claim shall be conclusively deemed to have been properly made under this policy and in complete discharge of the obligation of the United States under this policy to the extent thereof.

ART. 10. *Time for payment of insurance for loss of life.* Unless extended by the provisions hereinafter contained, payment of the insurance for loss of life shall be made within ninety days after the death of the insured is established in a manner satisfactory to the Administrator, but payment may be made prior to the expiration of such ninety days at the discretion of the Administrator. The time for payment may be extended without penalty or interest for that period of time consumed by the Administrator in establishing the identity or the location of the beneficiary or beneficiaries, and should any conflicting claims for payment be presented to the Administrator, payment of the insurance may be withheld and the time for payment thereof extended without any penalty or obligation to pay interest until such claims are duly adjudicated or otherwise withdrawn, settled or compromised to the satisfaction of the Administrator.

ART. 11. *Proof of death.* The time and facts of death of any insured shall be established in a manner satisfactory to the Administrator; and his determination of the time and facts of death shall be binding and conclusive against all persons for all purposes of this policy. If, however, payment of a part of the insurance for loss of life has been made and it appears that the insured is alive, payment of the balance of the insurance for loss of life shall not be made, but the payments of insurance in whole or in part theretofore made shall not be recovered, except where such payments were induced by wilful misrepresentation or fraud either by the beneficiary or any other person. The part so paid shall, however, be a discharge to the extent thereof of any other obligation under this policy, including the obligation to pay benefits under article 17 hereof, to the insured or any other person.

ART. 12. *Disability and dismemberment—*
A. *Disability.* "Disability" as that term is used in this policy means incapacity because of injury proximately caused by the risks insured against herein which necessarily and continuously prevents the insured from performing any and every kind of duty pertaining to his occupation at the time of injury.

(1) If an insured suffers disability he shall be paid benefits at the rate of $150 a month, provided, however, that during any part of such period when the insured is hospitalized he shall be paid benefits at the rate of $100 a month, beginning with his return to the continental United States, excluding Alaska, until the Administrator determines that the disability has ceased or until a total of $5,000 is paid, whichever first occurs.

(2) If the Administrator determines at any time during the period such monthly benefits are payable that the insured has received maximum medical treatment for such disability and that such disability is, therefore, permanent in quality (loss of both hands, or both arms, or both feet, or both legs, or both eyes, or combination of any two thereof, will be conclusively presumed by the Administrator to constitute a disability permanent in quality), he shall notify the insured of such facts and the insured shall have the option of

(a) Continuing to receive such monthly benefits at the rate of $150 a month or $100 a month, as the case may be, until the aggregate of all the monthly benefits paid to him both before and after such determination total $5,000, or

(b) Receiving in a lump payment the sum of $5,000 less the total of the monthly benefits paid to him prior to such determination.

(3) In the event the insured elects after such determination to accept payments for such disability under subdivision (2) (a) hereof and if when the total of $5,000 has been paid him as therein provided, the insured claims in writing, and establishes to the satisfaction of the Administrator, that because of the same injury he is incapable of performing, for remuneration or profit, any work or engaging in any business or occupation, then he shall be paid further benefits at the rate of $150 a month or $100 a month, as the case may be, until the Administrator determines such incapacity has ceased or until a total of $2,500 is paid, whichever first occurs.

B. *Dismemberment, including loss of function.* If the Administrator determines that the insured, as a proximate result of the risks insured against herein, has suffered a dismemberment or loss of function of the type set forth below, not, however, amounting to disability which the Administrator determines to be permanent in quality, the Underwriter will pay to the insured additional benefits measured by the following percentages of the principal sum. Such benefits shall be in addition to the benefits paid under subdivision (1), paragraph A hereof, but the aggregate of such benefits for disability, dismemberment, and loss of function shall not exceed the principal sum.

(1)

Member lost:	Percent
(a) Arm	65
(b) Leg	65
(c) Hand	50
(d) Foot	50
(e) Eye	45
(f) Thumb	15
(g) First finger	10
(h) Great toe	9
(i) Second finger	5
(j) Third finger	5
(k) Toe other than great toe	2½
(l) Fourth finger	2½

(m) Loss of hearing: For complete loss of hearing of one ear, 12½ percent; for the complete loss of hearing of both ears, 50 percent.

(n) Phalanges: For loss of more than one phalange of a digit, the same as the loss of the entire digit; for loss of the first phalange one-half the loss of the entire digit.

(o) Amputated arm or leg: For an arm or leg, if amputated at or above the elbow or the knee, the same as for the loss of the arm or leg; if amputated between the elbow and the wrist or the knee and the ankle, the same as for the loss of a hand or foot.

(p) Binocular vision or per centum of vision: For loss of binocular vision or for eighty percent or more of the vision of an eye shall be the same as for loss of the eye.

(q) Two or more digits: for loss or loss of use of two or more digits, or one or more phalanges of two or more digits, or a hand or foot, may be proportioned to the loss of use of the hand or foot occasioned thereby but shall not exceed the payment for loss of a hand or foot.

(r) Total loss of use: for permanent total loss of use of a member shall be the same as for loss of the member.

(s) Partial loss or loss of use: payment for permanent partial loss or loss of use of a member may be for proportionate loss of the member or loss of use of the member.

(t) Disfigurement: proper and equitable payment for serious facial or head disfigurement, not to exceed 50 percent.

(u) Total or partial loss or loss of use of more than one member or parts of members. In any case in which there shall be a loss or loss of use of more than one member or parts of more than one member set forth in subdivision (a) to (t) both inclusive, hereof, but not amounting to permanent total disability, payment shall be made for the loss or loss of use of each such member or part thereof; however, not exceeding the principal sum, and except that where the injury affects only two or more digits of the same hand or foot, subdivision (q) hereof shall apply.

(2) The amount determined by the Administrator to be due the insured for dismemberment or loss of function shall

(a) If $750 or less, be paid the insured in a lump sum as soon as practicable.

(b) If more than $750, be paid, at the option of the insured, in a lump sum or in monthly installments of $150 or $100, as the case may be, beginning with the month next succeeding the last monthly payment made for disability pursuant to the provisions of subdivision (1), paragraph A hereof, or as soon thereafter as is practicable. The insured shall notify the Administrator in writing of the desired method of payment immediately upon receipt of the Administrator's determination that the insured is entitled to payment for dismemberment or loss of function under this paragraph. Should the Administrator not receive such written notice within thirty days, it shall be conclusively presumed that the insured desires payment in a lump sum and the Underwriter will act accordingly.

(3) If the insured elects under subdivision (2) (b) hereof to accept payment for dismemberment or loss of function in monthly installments, the number of installments due shall be increased in number by 10 percent but in no event shall the increase be less than one installment of $150 or $100, as the case may be.

C. *Injury increasing disability.* The Administrator in determining if disability, dismemberment or loss of function exists, or if found to exist, the quality thereof, will not take previous disabilities, dismemberments or losses of function into account. If, however, such previous condition was insured under this Second Seamen's War Risk Policy, the insured shall receive with respect to the two claims an aggregate sum not less than he would have been entitled to under either subdivision (2) and (3) of paragraph A or paragraph B hereof, had the injuries causing both disabilities been received at the same time.

D. Disability shall not include incapacity directly resulting from bodily or mental infirmity or disease of any kind. Nor shall benefits be paid for dismemberment or loss of function directly resulting from bodily or mental infirmity or disease of any kind.

E. If the insured elects after a determination by the Administrator that he is entitled to benefits under either subdivision (2) paragraph A or paragraph B hereof to accept payments for such disability, dismemberment, or loss of function, as the case may be, in installments, and if the insured dies from a cause not insured against herein before he has received the last installment, the remainder which he would have received under such subdivision had he survived shall be paid to the person or persons who would have received his life insurance hereunder, subject, however, to all the conditions, stipulations, and provisions contained in this policy governing the disposition and payment of the insurance for loss of life.

The right of the insured to payment of the benefits provided for herein shall be conditioned upon his or her being alive to receive payment, and benefits shall not be paid to the heirs, executors, or administrators of the insured, or of any other person.

ART. 13. *Physical examination.* The underwriter shall have the right to require an examination of the person of the insured when and so often as it may reasonably require and also the right and opportunity in case of death to make an autopsy where it is not forbidden by law.

ART. 14. *Personal effects defined.* The term "personal effects" includes personal property reasonably necessary or required for use on board the vessel as well as those articles ordinarily or customarily carried on board for the personal use, wear, comfort, or convenience of the insured, either while on board, while in a foreign port, or upon his return to the home port. Articles of apparel, whether used for ornamentation or otherwise, and articles used in the performance of duties on board, are also included. Articles carried for the purpose of business foreign to the actual duties of the insured, or for resale, are excluded.

ART. 15. *Amount of payment for loss of, or damage to, personal effects.*

A. In the event of total loss of, or damage (equivalent to total loss) to the personal effects of any insured, reimbursement for such total loss or damage shall be as follows:

(a) Licensed officer, $500;

(b) Unlicensed crew member, $300;

(c) U. S. Merchant Marine cadet or cadet officer, $300.

If an insured shall establish the loss of a sextant which he carried aboard the vessel, he shall be paid $100 extra. If the insured shall establish the loss of binoculars, which he carried aboard the vessel, he shall be paid $50 extra. A total loss shall be determined without reference to apparel actually worn by the crew member at the time of the loss or damage.

B. In the event of a partial loss of or damage to the personal effects of an insured, he shall be reimbursed for the actual value of such effects lost or damaged to the extent of such loss or damage, but in no event shall the payment for such effects lost or damaged exceed the amount set forth in paragraph A of this article 15 for which total loss or damage is payable.

ART. 16. *Death of an insured prior to payment for loss of or damage to personal effects.* Payment for loss of or damage to personal effects shall be conditioned upon the insured being alive to receive payment, and shall not be payable to his heirs, executors, administrators or assigns, except as provided in article 6 hereof.

ART. 17. *Detention and repatriation benefits.* A. If it is established to the satisfaction of the Administrator, who, for this purpose, may rely on any official information furnished him by any department or agency of the United States Government, that the insured's vessel has been destroyed or abandoned as a result of a risk or peril insured against herein and that the insured has survived such an event and is not detained (in the sense that that term is used in paragraph B, article 17 hereof), monthly benefits shall be paid as hereinafter provided in this paragraph A. Such monthly benefits shall be equal to the monthly basic wage of the insured (including special emergency wage), as shown by the shipping articles signed by the insured or, if not on articles, by the contract of employment entered into by the insured. Such monthly benefits shall be paid from the date of such destruction or abandonment of the vessel, which, for the purposes hereof, shall be the date recognized by the Administrator when the obligation to pay wages under the applicable shipping articles or contract of employment terminated, or which is otherwise fixed by the Administrator as the date of such destruction or abandonment, and shall continue until the insured arrives at a continental port of the United States.

Such monthly benefits shall be paid to the person or persons, if living, to whom the insured's wages are allotted under the applicable shipping articles. Such allottee or allottees shall receive that portion of the monthly benefits which is equal in amount to the insured's monthly wage which has been allotted, provided such latter amount does not exceed the amount of the monthly benefits, and provided further that no payment shall be made to an allottee for any fractional allotment period between the last regular allotment date and date when such monthly benefits terminate. If no such allotment has been made, or if the person to whom the insured has allotted his wages is dead or dies, or if an allotment has been made and the allottee is living but the amount of monthly benefits exceeds the amount which can be paid to such allottee, the benefits or the remainder thereof shall be held by the Administrator for the benefit of the insured until his return to the continental United States, excluding Alaska,

with the right to the Administrator, however, to pay such benefits or the remainder thereof in whole or in part to any person or persons named in subdivision (3), paragraph A, article 7 of these stipulations and conditions (for the purpose of this paragraph the words "widow" and "widower" as used in subdivision (3) shall mean "wife" and "husband" respectively), including the allottee or allottees aforementioned, and such payment when made shall be conclusively presumed to have been made for the account of the insured.

B. If it is established to the satisfaction of the Administrator, who, for this purpose may rely on any official information furnished him by any department or agency of the United States Government, that the insured is detained, either by capture by an enemy of the United States or by internment, but not otherwise, monthly benefits shall be in the same amount or amounts and shall be held or paid in the same manner and for or to the same person or persons as set forth in paragraph A, article 17 hereof. Such monthly benefits shall be paid during such period of detention beginning with the date that the insured suffered such detention as determined by the Administrator.

C. If, in the opinion of the Administrator, it is uncertain—

(1) Whether the insured survived or died as a proximate result of the occurrence of a risk or peril insured against, or

(2) Whether the insured survived or died as a proximate result of the occurrence of an event which may be a risk or peril insured against, but as to which, in the opinion of the Administrator, there is also uncertainty; or

(3) Whether the insured's vessel has been destroyed or abandoned as a proximate result of a risk or peril insured against, although it is certain, in the opinion of the Administrator, that the insured is alive, or

(4) Whether the insured is detained (in the sense that that term is used in paragraph B, article 17 hereof), although it is certain, in the opinion of the Administrator, that the insured is alive,

monthly benefits shall be paid as hereinafter provided in this paragraph C. Such monthly benefits shall be in the same amount or amounts and shall be held or paid in the same manner and for or to the same person or persons as set forth in paragraph A, article 17 hereof. Such monthly benefits shall be paid from the date, as fixed by the Administrator, the insured, if alive, was probably separated from his vessel under any of the respective situations set forth above and shall continue until—

(a) The Administrator determines that the insured is entitled to benefits as provided in paragraph A, article 17 hereof, in which event monthly benefits shall thereafter be paid as provided in paragraph A, Article 17 hereof, or

(b) The Administrator determines that the insured is entitled to benefits as provided under paragraph B, article 17 hereof, in which event monthly benefits shall thereafter be paid as provided in paragraph B, article 17 hereof, or

(c) The death of the insured is established in a manner satisfactory to the Administrator, or

(d) The issuance by the Administrator of certificate of presumptive death of the insured, whichever first occurs, in which event benefits shall cease: *Provided, however*, That if the Administrator determines that at any time after such benefits have ceased the insured is entitled to benefits or has been entitled to benefits as provided in either paragraph A or paragraph B, article 17 hereof, monthly benefits shall thereafter be paid as provided in paragraph A or paragraph B, article 17 hereof, as the case may be, with proper adjustment for the period that the insured was entitled to be paid such benefits prior to the Administrator's determination thereof.

D. If, while the insured is being paid benefits under either paragraph A or B or C, article 17 hereof, the Administrator determines that the insured was not, or is no longer, entitled to benefits under the provisions of such paragraph, then the payment of such benefits shall cease: *Provided*, That, if the Administrator determines the insured is entitled to benefits under the provisions of any other of such paragraphs, the insured shall thereafter be entitled to benefits under the provisions of such paragraph.

E. In no event shall benefits be paid under paragraphs A, B, C, or D, article 17 hereof, beyond three months after the termination of the national emergency shall have been proclaimed by the President or beyond the time that the insured shall either refuse without good cause to return to the continental United States, excluding Alaska, or accept employment on another vessel for a purpose other than to be repatriated.

F. If the insured, upon his return to the United States (excluding Alaska), shall be entitled to receive under paragraph A or B or C, article 17 hereof, benefits exceeding a sum equal to twelve months' basic wage (including special emergency wage), payment of a sum equal to twelve months' basic wage (including special emergency wage) shall be made to the insured forthwith. Any unpaid balance of such benefits shall be paid to the insured in monthly installments equivalent in amount to such monthly benefits until paid in full. In determining the amount which the insured is entitled to receive in a lump sum, as aforesaid, benefits paid to his allottees or to the persons named in subdivision (3), paragraph A, article 7 hereof, shall not be considered. Payments to an allottee or to schedule beneficiaries shall not be made after the date of arrival of the insured at a continental United States port, and all payments thereafter shall be made only to the insured: *Provided, however*, That if the insured dies after his arrival and while he is receiving monthly payments as above set forth, such monthly payments shall thereafter be paid to his allottees or to schedule beneficiaries until paid in full.

G. The right of the insured to be paid benefits or to have benefits paid on his account, under paragraphs A, B, or C, article 17 hereof, shall be conditioned upon the insured being alive during the period such benefits accrued or were paid: *Provided, however*, That benefits payable for the account of the insured to allottees or schedule beneficiaries shall always be paid in full to the date of establishment of death or presumed death of the insured as determined under paragraph C, article 17 hereof. Such benefits under no circumstances shall be paid or considered payable to heirs, executors or administrators of the insured or of any allottee or schedule beneficiary of the insured.

H. The Underwriter agrees that detention and repatriation benefits, as provided under this article 17, shall continue until the insured shall be returned to the port to which the Operator is obligated to return the insured, as shown by the shipping articles signed by the insured or, if not on articles, by the contract of employment entered into by the insured.

ART. 18. *Payment constituting a discharge.* A payment by the Administrator to the person or persons determined by him to be entitled to all or any of the proceeds of this policy shall constitute a pro tanto discharge of the obligations under this policy of the United States of America, the Department of Commerce, and the Maritime Administrator.

ART. 19. *Nonassignability.* Neither this policy nor any part thereof nor any insurance, benefits or allowances payable hereunder shall be assignable.

ART. 20. *Amount permitted to be paid agents or attorneys.* Except in the event of legal proceedings arising under or in connection with this policy, payment to any attorney, agent or any other person acting for or on behalf of an insured, beneficiary or recipient, by such insured or any beneficiary or recipient, for such assistance as may be required in the preparation of the claim, shall not exceed $25 in any one case, except that the Administrator may approve an additional amount in those cases in which he feels the nature of the services rendered warrant it. At any time during the pendency of any litigation arising under or in connection with this policy or whenever a judgment or a decree shall be rendered in an action or proceeding arising under or in connection with this policy for the payment of any insurance, benefits or allowances under this policy, the court in which such action or proceeding is pending or in which a judgment or decree has been rendered may and is requested to allow such fees for the attorney or attorneys of the person or persons who are parties to such action or proceeding or who have obtained a judgment or a decree, as it may determine to be just compensation for the services rendered. Before the payment of any insurance, benefits or allowances hereunder, or any judgment or decree, as aforesaid, the Administrator may require proof to be submitted to him in the form of an affidavit, or in any other manner which to him seems fit, by the insured, the beneficiary, the recipient, or holder of any judgment or decree, or his attorney, agent, or any other person acting for or on their behalf, or any or all of them, that the payment previously or thereafter to be made to such attorney, agent or other person does not exceed the sum herein specified or allowed by the court, as the case may be.

ART. 21. *Notice of loss and claim.* Notice of disability (including dismemberment and loss of function), and claim for payment therefor under this policy shall be given to the Administrator within ninety days after the happening of the event causing the disability (including dismemberment and loss of function), or ninety days after the insured returns to the continental United States, excluding Alaska. Notice of loss of, or damage to, personal effects and claim for payment therefor under this policy shall be given to the Administrator within ninety days after the happening of the event causing the loss, or ninety days after the insured returns to the continental United States, excluding Alaska.

Any insured who is employed on a vessel as an employee of the United States through the Office of National Shipping Authority, Maritime Administration, or successor Office shall comply with applicable rules and regulations pertaining to the filing of claims and administrative allowance or disallowance as prescribed by NSA Order No. 67 (LPR 1), 20 F. R. 2414, or as amended or revised.

ART. 22. *Limitation of suit.* No action or suit upon this policy shall be valid unless commenced within two years from the time the insurance, benefits or allowances conferred by this policy are payable, except that

(a) An action or suit by the insured may be commenced at any time within two years after he returns to the United States or the termination of the national emergency shall have been proclaimed by the President, whichever first occurs, and

(b) The time during which a person, other than the insured, is in enemy occupied territory shall be excluded from the two year period as aforesaid.

Any insured who is employed on a vessel as an employee of the United States through the Office of National Shipping Authority, Maritime Administration, or successor Office shall comply with applicable rules and regulations pertaining to the filing of claims and administrative allowance or disallowance as prescribed by NSA Order No. 67 (LPR 1), 20 F. R. 2414, or as amended or revised.

ART. 23. *Deviation and change of voyage.* This insurance shall not be affected by a deviation or change of voyage of the vessel, except that the Administrator may require the payment of an additional premium.

ART. 24. *"Administrator" defined.* Wherever the term "Administrator" is used in this policy that term shall include the person who is the Maritime Administrator at the time of the issuance of this policy and his successor or successors in office, and such other person or persons employed by the Administrator, the Maritime Administration, the Department of Commerce or the United States of America, to whom the Administrator may delegate duties or powers for the administration of the insurance. Wherever there is mention in this policy of a decision, determination or exercise of discretion by the Administrator, such terms shall include a decision, determination or exercise of discretion of a person or persons to whom the Administrator may delegate such power or powers and shall not be taken to mean that the personal act of the Administrator is required.

ART. 25. *Multiple claims against the United States.* A. It is the intent of the underwriter in the issuance of this policy to avoid providing or paying any benefit or sum of money for any loss, event or occurrence to the extent that legal liability to pay for the same loss, event or occurrence otherwise exists on the part of the United States of America, the Department of Commerce, the Maritime Administration, the Administrator, the owner of a vessel under time or bareboat charter to the Maritime Administration, the operator of a vessel owned by the Maritime Administration or under time or bareboat charter to it, or the agent of the Maritime Administration in the operation of such a vessel, and this policy shall be construed to give effect to such intent. By the acceptance of the insurance protection afforded by this policy, by the designation of any beneficiary thereunder or by otherwise acting pursuant to the terms of this policy, the insured, in behalf of himself, his personal and legal representatives, administrators, executors, heirs at law, next of kin, dependents and beneficiaries, acknowledges such intent and agrees to the conditions and provisions of this policy, including specifically those contained in this Article 25. Similarly, any beneficiary or person to whom any benefit or sum of money is paid under the provisions of this policy does, by making claim therefor or by the acceptance thereof, acknowledge such intent and agrees to the conditions and provisions of this policy, including specifically the conditions and provisions of this article 25.

B. If any final judgment or award is obtained by any person against the United States of America, the Department of Commerce, the Maritime Administration, the Administrator, the owner of a vessel under time or bareboat charter to the Maritime Administration, the operator of a vessel owned by the Maritime Administration or under time or bareboat charter to it, or the agent of the Maritime Administration in the operation of such a vessel by reason of the loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, or detention (including the occurrence of other situations hereinbefore provided) of the insured but based on a claim or cause of action other than one under this policy, and if such respective loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, or detention (including the occurrence of other situations hereinbefore provided) of such insured, either separately or combined, also constitutes or forms the basis of a claim payable under this policy, the amount which otherwise would have been payable hereunder because of such claim shall be reduced by an amount equal to the amount of such final judgment or award, unless such person, in a form and manner satisfactory to the Administrator, effectively and validly releases or discharges the United States of America, the Department of Commerce, the Maritime Administration, the Administrator, the owner of a vessel under time or bareboat charter to the Maritime Administration, the Administrator, the operator of a vessel owned by the Maritime Administration or under time or bareboat charter to it, or the agent of the Maritime Administration in the operation of such a vessel from their respective obligations under such final judgment or award to the extent of the amount of such claim payable under this policy.

C. The payment and acceptance of any benefit or sum of money under this Policy shall constitute a waiver, release, acceptance, discharge and satisfaction, to the extent of such payment, of any and all claims, causes of actions, judgments or awards against the United States of America, the Department of Commerce, the Maritime Administration, the Administrator, the owner of a vessel under time or bareboat charter to the Maritime Administration, the operator of a vessel owned by the Maritime Administration or under time or bareboat charter to it, or the agent of the Maritime Administration in the operation of such a vessel other than under this policy by arising out of the respective loss of life, disability (including dismemberment and loss of function), loss of or damage to personal effects, or detention (including the occurrence of other situations hereinbefore provided) for which such benefit or sum of money was paid and accepted under this policy.

D. This article 25 shall not apply to claims for wages, maintenance and cure where the right to such items arises under the general maritime law of the United States and not under this policy, but this article 25 shall apply to claims for wages to the extent that the insured, his allottee or any other person who is entitled to receive or has received benefits or sums of money under paragraph A of article 12 hereof.

ART. 26. *Amendments and modifications.* If the Administrator determines that the Second Seamen's War Risk Policy (1955) should be amended and modified to provide for increased hazards and risks undertaken by the masters, officers and crews of vessels of the American Merchant Marine arising from important changes or developments in emergency conditions, or if the Administrator determines that the Second Seamen's War Risk Policy (1955) should be amended and modified to correct injustices or cases of hardship arising under and by virtue of its present terms, the Administrator reserves the right to amend or modify the Second Seamen's War Risk Policy (1955), including this particular policy, in such manner and in such respects as prescribed by him. If the Administrator further determines that it is necessary and proper to make such amendments or modifications retroactive in effect in order to avoid serious inequalities, he reserves the right to make any such amendment or modification applicable to any and all cases or claims arising under the Second Seamen's War Risk Policy (1955), including this particular policy, irrespective of whether benefits have or have not been claimed or paid thereunder, in such manner and in such respects as prescribed by him.

ART. 27. *Payment of premium and cancellation.* A. The Underwriter shall have the right to change the rate of premium for this insurance at any time. Unless the revised rate of premium is accepted in writing by the Operator within fifteen days after receipt by the Operator of notice of the revised rate, this policy shall become null and void and of no effect as of midnight, e. s. t., of the day ending such fifteen-day period, unless the Operator, within such period, dispatches notice to the Maritime Administrator, by telegraph, of his refusal to accept such revised premium rate, in which event premium at the revised rate shall be payable for that portion of the fifteen-day period prior to dispatch of such notice. Upon the receipt by the Maritime Administrator of such notice of nonacceptance, the insurance provided hereunder shall terminate.

B. In the event any premium, either original or additional, which becomes due and payable under this policy, is not paid within thirty days after receipt by the Operator of notice of the amount thereof, this insurance shall become null and void and of no effect as of the commencement of the period for which the premium charge is made, unless the Maritime Administrator agrees otherwise.

C. If the vessel shall be requisitioned by the United States on a basis whereby the United States provides insurance equivalent to that provided hereby, then this insurance shall terminate and pro rata daily return premium shall be paid. In no other event shall there be any return of premium.

ART. 28. *Extension.* Should the vessel be at sea at the natural expiry of this Policy, this insurance shall be extended until midnight, Greenwich Mean Time, of the day on which the vessel is moored at the next port to which she proceeds and 24 hours thereafter, provided, notice be given to the Underwriter as soon as practicable and an additional premium paid, if required.

In witness whereof, the Maritime Administrator, acting for the Secretary of Commerce, has signed this policy but it shall not be valid unless countersigned by an authorized underwriting agent.

UNITED STATES OF AMERICA,
By: Maritime Administrator, Acting for the Secretary of Commerce.

(Maritime Administrator)

The Underwriting Agent does not, by countersigning this policy or in any other manner, warrant its own authority, or the authority of the Maritime Administrator, acting for the Secretary of Commerce, to issue this instrument, but acts solely under the power conveyed to the Underwriting Agent by the Agreement made with the Maritime Administrator, acting for the Secretary of Commerce.

(b) *Increased Benefits Endorsement.* The following is the standard form of Increased Benefits Endorsement which prescribes the areas in which increased benefits are presently applicable. The areas covered by this endorsement are subject to change.

Form MA-242 (A) (8-55)

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE

MARITIME ADMINISTRATION

INCREASED BENEFITS ENDORSEMENT

This endorsement is attached to and made a part of Second Seamen's War Risk Policy (1955) No. SSWR _____ issued to _____.

It is hereby understood and agreed that while a vessel covered by this policy is in the following described areas:

Area I. All waters within and bounded by the following lines: beginning at a point on the China Coast at latitude 23° north,

thence east to the intersection with longitude 119° east, thence north-easterly to the intersection of a point at latitude 26°15' north and longitude 121° east and thence west along the 26°15' parallel of north latitude to the China Coast;

Area II. All waters within and bounded by the following lines: beginning at a point on the China Coast at 33° north latitude, thence east to the intersection with longitude 124° east, thence north along 124° east meridian to the China Coast;

Area III. All waters within and bounded by the following lines: beginning at a point on the China Coast at 26°15' north latitude, thence east to the intersection with 121° east longitude, thence north-easterly to a point at the intersection of 30° north latitude and 124° east longitude, thence north to the intersection of 33° north latitude and 124° east longitude and thence west along the 33° parallel of north latitude to the China Coast;

Area IV. All waters within and bounded by the following lines: beginning at a point on the China Coast and 23° north latitude, thence east to 119° east longitude, then north-easterly to 30° north latitude and 124° east longitude, and from 30° north latitude and 124° east longitude southerly to Shokoto Sho, then westerly to Shichisei Seki, and then from Shichisei Seki westerly intersecting at the China Coast 23° north latitude;

And all waters within and bounded by the following lines: beginning at a point on the China Coast at 23° north latitude, thence easterly to a point 22°30' north latitude and 118° east longitude thence westerly to Gap Rock thence due west along the 21°50' line north latitude to the China Coast;

Also within a sixty (60) mile radius of the mouth of the Donnai River or Cape St. Jacques.

the benefits provided thereunder as respects loss of life, disability, dismemberment and loss of functions are increased by 100 percent and with respect to benefits for personal effects of unlicensed personnel from $300 to $500.

Upon knowledge by the insured of a vessel being in such areas, the insured shall, as soon as permissible under Government laws and regulations, furnish the Maritime Administrator with the name of such vessel and the dates of its entry into and departure from such areas.

Nothing herein contained shall vary, alter or extend any provision or condition of the policy other than as above stated.

This endorsement becomes effective with the inception of the policy to which it is attached.

Not valid unless countersigned by a duly authorized agent of the Department.

UNITED STATES OF AMERICA,
By: Maritime Administrator, Acting for the Secretary of Commerce.

(Maritime Administrator)

The Underwriting Agent does not, by countersigning this policy or in any other manner, warrant its own authority, or the authority of the Maritime Administrator, acting for the Secretary of Commerce, to issue this instrument, but acts solely under the power conveyed to the Underwriting Agent by the agreement made with the Maritime Administrator, acting for the Secretary of Commerce.

SUBPART E—WAR RISK BUILDER'S RISK INSURANCE

§ 308.400 ***Eligibility of a vessel for insurance.*** A vessel is eligible for insurance if it is an American vessel as defined in section 1201 (a) Public Law 763, 81st Congress, being constructed in a shipyard within the continental limits of the United States.

§ 308.401 ***Periods during which a vessel under construction may be insured.*** (a) *Prelaunching period.* This period is from the date and time the first material destined for inclusion as part of the vessel becomes a risk at the shipyard of the builder to the date and time the vessel first becomes water-borne after launching.

(b) *Postlaunching period.* This period is from the date and time the vessel first becomes water-borne after launching to the date and time of delivery of the vessel by the builder.

(c) *Portions of periods.* A vessel may be insured for a portion of either period as cited in paragraph (a) or paragraph (b) of this section at the sole discretion of the Maritime Administrator.

§ 308.402 ***Amounts for which a vessel will be insured.*** (a) *Pre-launching period.* The amount insured during this period will be the cost of material destined for inclusion as a part of the vessel, at risk at the shipyard of the builder plus the cost of labor, other direct charges, overhead, and profit of not exceeding 10 percent, all as determined from the builder's records.

(b) *Postlaunching period.* The amount insured during this period will be (1) an amount not in excess of the difference in amount between the total amount of war risk insurance obtainable from companies authorized to do an insurance business in a State of the United States and the contract price of the vessel plus the cost of materials and equipment furnished by the owner and not included in such contract price, or (2) an amount not in excess of the contract price of the vessel plus the cost of materials and equipment furnished by the owner and not included in the contract price: *Provided,* That no war risk insurance is obtainable from companies authorized to do an insurance business in a State of the United States.

(c) *Maximum liability.* The amount of any claim for damage to or the total or constructive total loss of the vessel adjusted, compromised, settled, adjudged or paid shall not exceed the lower of (1) the amount insured or (2) the vessel's fair and reasonable value as determined in accordance with Public Law 763, 81st Congress, and any other applicable acts of Congress: *Provided,* That the amount payable under paragraph (b) of this section shall not exceed the maximum sum which the Maritime Administrator, as underwriter, is authorized to pay under any applicable acts of Congress: *And provided further,* That in no event shall the amount of such liability to an insured owner exceed the value of the vessel as determined in accordance with section 802, Merchant Marine Act, 1936, as amended, if the vessel is being built with the aid of a construction-differential subsidy.

§ 308.403 *Application for insurance.* Application for insurance shall be made to the Chief, Division of Insurance, Maritime Administration, Department of Commerce, Washington 25, D. C. The applications shall be signed by all parties to be named as assureds, unless they have filed with the Chief, Division of Insurance, written designations of a broker or brokers to act for them, in which case the applications may be signed by such broker or brokers.

§ 308.404 *Form of application.* Applications submitted shall be in duplicate and in accordance with the following form. Separate applications shall be submitted for each of the coverages, paragraphs (a), and (b) (1) and (2) referred to in § 308.402.

Form MA-282 (12-52)

UNITED STATES OF AMERICA
DEPARTMENT OF COMMERCE
MARITIME ADMINISTRATION

Application for War Risk Builder's Risk Insurance

Application is made for War Risk Builder's Risk Insurance pursuant to Public Law 763, 81st Congress, and in accordance with all provisions of law and subject to all limitations thereof:

Assured to be ----------
Loss, if any, payable to ----------
---------- or order.

On Hull, Tackle, Apparel, Ordnance, Munitions, Artillery, Engines, Boilers, Machinery, Appurtenances, etc. (including plans, patterns, moulds, etc.). Boats and other Furniture and Fixtures and all material belonging and destined for ----------
----------,
building at ----------

Indicate whether application is for coverage (a), (b) (1) or (b) (2). Coverage -------

Coverage (a). Prelaunching Period

Amount to be insured; the valuation at risk at the shipyard of the builder during the currency of the insurance for which application is made, which shall be the cost of materials plus the cost of labor, other direct charges, overhead, and profit of not exceeding 10 percent, all as determined from the Assured's records and reported monthly.

To attach as of the date and time the first material destined for inclusion as a part of the vessel becomes at risk at the shipyard of the builder and to expire as of the date and time the vessel first becomes water-borne after launching. Both dates and times will be reported to the Underwriter as soon as known to the Assured.

Coverage (b) (1). Post-launching Period, Excess

Amount to be insured $------ on an excess of loss basis, being the excess of $------ primary war risk insurance, which it is represented is the maximum amount of war risk insurance obtainable from companies authorised to do an insurance business in a State of the United States.

The vessel is to be valued at $------, being the contract price of $------ plus $------ for materials and equipment furnished by the owner and not included in the contract price, it being understood that if no amount has been stated for such materials and equipment same will not be insured. To attach as of the date and time the vessel first becomes water-borne after launching and to expire as of the date and time of delivery of the vessel by the builder. Both dates and times will be reported to the Underwriter as soon as known to the Assured.

Coverage (b) (2). Post-launching Period, Primary

Amount to be insured $------, it being represented that no war risk insurance is obtainable from companies authorised to do an insurance business in a State of the United States.

The vessel is to be valued at $------, being the contract price of $------ plus $------ for materials and equipment furnished by the owner and not included in the contract price, it being understood that if no amount has been stated for such materials and equipment same will not be insured.

To attach as of the date and time the vessel first becomes water-borne after launching and to expire as of the date and time of delivery of the vessel by the builder. Both dates and times will be reported to the Underwriter as soon as known to the Assured.

It is further understood that the amount of any claim for damage to or the total or constructive total loss of the vessel adjusted, compromised, settled, adjudged or paid shall not exceed the lower of (a) the amount insured or (b) the vessel's fair and reasonable value as determined in accordance with Public Law 763, 81st Congress, and any other applicable Acts of Congress, provided that the amount payable under (b) hereof shall not exceed the maximum sum which the Maritime Administrator, as underwriter, is authorized to pay under any applicable Acts of Congress, and provided further that in no event shall the amount of such liability to an insured owner exceed the value of the vessel as determined in accordance with Section 802, Merchant Marine Act 1936, as amended, if the vessel is being built with the aid of a construction-differential subsidy.

Terms and conditions: Subject to form of policy prescribed by the Maritime Administrator, acting for the Secretary of Commerce.

Rates of premium to be fixed by the Maritime Administrator, acting for the Secretary of Commerce.

§ 308.405 *Issuance of policies; their terms and conditions.* Upon acceptance of an application a policy in the form set forth in § 308.408 will be issued with endorsements MA-283 (A) and MA-283 (D), or MA-283 (B) and MA-283 (D), or MA-283 (C) and MA-283 (D), as appropriate, attached.

§ 308.406 *Premiums and the payment thereof.* For the prelaunching period premium will be charged on the average value at risk during each calendar month or the daily pro rata part thereof for periods of less than one calendar month. For the post-launching period premium will be charged on the amount insured for the full period. Premiums shall be due and payable within thirty days after receipt by the assured of notice of the amount thereof and if not paid within that period the insurance shall become null and void and of no effect from the beginning of the period for which the premium charge is made unless the Maritime Administrator agrees otherwise. Payment shall be made to the Maritime Administration, Department of Commerce, Washington 25, D. C., by check payable to the order of "Maritime Adm.—Commerce."

§ 308.407 *Right of Maritime Administrator to change rate of premium.* The Maritime Administrator acting for the Secretary of Commerce shall have the right to change the rate of premium at any time, and unless the revised rate of premium is accepted in writing by the Assured within fifteen days after receipt by the Assured of notice of the revised rate the policy shall become null and void and of no effect as of midnight, standard time, at the location of the shipyard on the fifteenth day after receipt of said notice. Premium at the revised rate shall be payable for the fifteen day period during which the insurance remained in force unless the Assured, within such period, dispatches notice to the Maritime Administrator by telegraph of his refusal to accept such revised rate of premium, in which event premium at the revised rate shall be payable for that portion of the fifteen day period prior to dispatch of such notice. Upon the dispatch of such notice of non-acceptance the insurance shall ipso facto terminate.

§ 308.408 *Standard form of War Risk Builder's Risk Insurance Policy.* The following is the standard form of War Risk Builder's Risk Insurance policy.

Form MA-283 (12-52)

Policy No. WRBR ----------

UNITED STATES OF AMERICA

Represented by the Maritime Administrator, acting for the Secretary of Commerce (sometimes hereinafter called the Underwriter) by this policy of insurance, in accordance with applicable provisions of law and subject to all limitations thereof, does make insurance and cause to be insured ---------- for account of themselves to the amount of ---------- dollars for the period of time commencing the ---- day of ---------- 19---- ---------- time and ending the ---- day of ---------- 19---- ---------- time or until delivery at ---------- if delivered at an earlier date. In the event of delivery not being effected by the date last above-mentioned, this policy may be extended at additional premium to be fixed by the Maritime Administrator provided notice of the extension be given to the Maritime Administrator prior to that date. In no case shall this insurance extend beyond delivery of the vessel. Loss, if any, payable in funds current in the United States to ---------- or order.

On Hull, Tackle, Apparel, Ordnance, Munitions, Artillery, Engines, Boilers, Machinery, Appurtenances, etc. (including plans, patterns, moulds, etc.) Boats and other Furniture and Fixtures and all material belonging and destined for ---------- building at ---------- as per clauses hereinbelow specified.

The Underwriter to be paid in consideration of this insurance ---------- dollars being at the rate of ------ percent.

The said vessel, etc., including all materials and/or appliances therefor, for so much as concerns the Assured and the Underwriter, is and shall be valued at $---------- (being the contract price of $-------- and $-------- for materials and equipment furnished by the Owner and not included in the contract price), which shall be deemed the insured value of the vessel for the purposes of this insurance. If no amount is stated for materials and equipment furnished by the Owner the Underwriter shall have no liability for loss of or damage thereto.

In the event of loss, the Underwriter shall not be liable for a greater proportion thereof than the amount of this insurance bears to the insured value.

Touching the Adventures and Perils which the said Underwriter is contented to bear and take upon itself they are of the Seas, Men-of-War, Fire, Enemies, Pirates, Rovers, Thieves, Jettisons, Letters of Mart and Counter-Mart, Surprisals, Takings at Sea, Arrests, Restraints and Detainments of all Kings, Princes and Peoples, of what nation, condition or quality soever, Barratry of the Master and Mariners, and of all other like Perils, Losses and Misfortunes that have or shall come to the Hurt, Detriment or Damage of the said Vessel, &c., or any part thereof; excepting, however, such of the foregoing Perils as may be excluded by provisions elsewhere in the Policy or by endorsement. And in case of any loss or misfortune it shall be lawful for the Assured, their factors, servants and assigns, to sue, labor and travel for, in, and about the defense, safeguard and recovery of the said ship, &c., or any part thereof, without prejudice to this insurance; to the charges whereof the said Underwriter will contribute according to the rate and quantity of the sum herein assured. And it is expressly declared and agreed that no acts of the insurer or insured in recovering, saving or preserving the property insured shall be considered as a waiver or acceptance of abandonment. With leave to sail with or without pilots, to tow and be towed, and to assist vessels and/or craft in all situations and to any extent, and to go on trial trips. With liberty to discharge, exchange and take on board goods, specie, passengers, and stores, wherever the Vessel may call at or proceed to, and with liberty to carry goods, live cattle, &c., on deck or otherwise, but warranted free of any claim in respect of deck cargo. Including all risks of docking, undocking, changing docks, or moving in harbour and going on or off gridiron slipways, graving docks and/or pontoon or dry docks as often as may be done during the currency of this Policy. Unless physically deleted by the Underwriter, the following warranty shall be paramount and shall supersede and nullify any contrary provision of the Policy:

F. C. & S. CLAUSE

Notwithstanding anything to the contrary contained in the Policy, this insurance is warranted free from any claim for loss, damage or expense caused by or resulting from capture, seizure, arrest, restraint or detainment, or the consequences thereof or of any attempt thereat, or any taking of the Vessel, by requisition or otherwise, whether in time of peace or war and whether lawful or otherwise; also from all consequences of hostilities or warlike operations (whether there be a declaration of war or not), but the foregoing shall not exclude collision, explosion or contact with any fixed or floating object (other than a mine or torpedo), stranding, heavy weather or fire unless caused directly (and independently of the nature of the voyage or service which the vessel concerned or, in the case of a collision, any other vessel involved therein, is performing) by a hostile act by or against a belligerent power, and for the purpose of this warranty "power" includes any authority maintaining naval, military or air forces in association with a power; also warranted free, whether in time of peace or war, from all loss, damage or expense caused by any weapon of war employing atomic fission or radioactive force. Further warranted free from the consequences of civil war, revolution, rebellion, insurrection, or civil strife arising therefrom, or piracy.

If war risks are hereafter insured by endorsement on the Policy, such endorsement shall supersede the above warranty only to the extent that their terms are inconsistent and only while such war risk endorsement remains in force.

CLAUSES FOR BUILDERS' RISK

This Insurance is also to cover all risks, including fire, while under construction

and/or fitting out, including materials in buildings, workshops, yards and docks of the Assured, or on quays, pontoons, craft, &c., and all risk while in transit to and from the works and/or the vessel wherever she may be lying, also all risks of loss or damage through collapse of supports or ways from any cause whatever, and all risks of launching and breakage of the ways.

This Insurance is also to cover all risks of trial trips, loaded or otherwise, as often as required, and all risks whilst proceeding to and returning from the trial course but warranted that all trials shall be carried out within a distance by water of 100 nautical miles of the place of construction or held covered at a rate to be arranged.

With leave to proceed to and from any wet or dry docks, harbours, ways, cradles, and pontoons during the currency of this policy.

With leave to fire guns and torpedoes but no claim to attach hereto for loss or damage to same or to ship or machinery unless the accident results in the total loss of the Vessel. In case of failure of launch, underwriters to bear all subsequent expenses incurred in completing launch.

Average payable irrespective of percentage, and without deduction of one-third, whether the Average be particular or general.

General Average and Salvage charges as per foreign custom, payable as per foreign statement, and/or per York-Antwerp rules, if required; and in the event of Salvage, towage, or other assistance being rendered to the Vessel hereby insured by any Vessel belonging in part or in whole to the same owners, it is hereby agreed that the value of such services (without regard to the common ownership of the Vessels) shall be ascertained by arbitration in the manner hereinafter provided for under "Collision Clause," and the amount so awarded, so far as applicable to the interest hereby insured, shall constitute a charge under this policy.

In the event of deviation to be held covered at an additional premium to be hereafter arranged.

To cover while building all damage to hull, machinery, apparel, or furniture, caused by settling of the stocks, or failure or breakage of shores, blocking or staging, or of hoisting or other gear, either before or after launching and while fitting out.

It is agreed that any changes of interest in the vessel hereby insured shall terminate the insurance provided by this policy, unless the Maritime Administrator agrees otherwise. And it is expressly declared and agreed that no acts of the Underwriters or Assured, in recovering, saving, or preserving the property insured shall be considered as a waiver or acceptance of abandonment.

This Insurance also specially to cover loss of or damage to the hull or machinery, through negligence of Master, Mariners, Engineers or pilots, or through explosions, bursting of boilers, breakage of shafts, or through any latent defect in the Machinery, or Hull, or from explosions or other causes, arising either on shore or otherwise, causing loss of or injury to the property hereby insured, provided such loss or damage has not resulted from want of due diligence by the Owners of the ship or any of them, or by the Manager, and to cover all risks incidental to steam navigation, or in graving docks.

There shall be no recovery for a constructive total loss under this policy unless the expense of recovering the vessel and restoring her to the condition she was in prior to the loss would exceed her value in that condition, which value shall be determined by applying to the completed contract price, plus the cost of materials and equipment furnished by the Owner and not included in the contract price, if insured hereunder, the percentage of the vessel which was completed on the ways, while being launched or after launching as the case may be at the time of the loss; and no claim for a constructive total loss hereunder shall exceed this policy's proportion of the value so computed, plus this policy's proportion of any damage to material insured hereunder and not yet installed in the vessel, plus any salvage and special charges, and sue and labor expenses.

Nothing in this policy shall be construed to insure against or cover any loss, damage or expense in connection with docks, shipways, tools or any other property of the shipyard not intended to be incorporated in the vessel, excepting temporary supports, scaffolding and similar temporary structures the value of which is included in the contract price of the vessel; provided, nevertheless, that in case of failure of launch, underwriters shall bear all subsequent expenses incurred in completing launch.

COLLISION CLAUSE

And it is further agreed that if the Ship hereby insured shall come into collision with any other Ship or Vessel, and the Assured shall in consequence thereof become liable to pay, and shall pay by way of damages to any other person or persons any sum or sums not exceeding in respect of any one such collision the value of the Ship hereby insured, the Underwriter, will pay the Assured such proportion of such sum or sums so paid as its subscription thereto bears to the completed contract price of the Ship hereby Insured, plus the cost of materials and equipment furnished by the Owner and not included in the contract price, if insured hereunder, and in cases where the liability of the Ship has been contested with the consent, in writing, of a majority of the underwriters on the hull and/or machinery (in amount), it will also pay a like proportion of the costs thereby incurred or paid; but when both Vessels are to blame, then, unless the liability of the owners of one or both of such Vessels becomes limited by law, claims under the Collision Clause shall be settled on the principle of cross liabilities, as if the owners of such Vessels had been compelled to pay to the owners of the other of such Vessels such one-half or other proportion of the latter's damages as may have been properly allowed in ascertaining the balance or sum payable by or to the Assured in consequence of such collision. And it is further agreed that the principles involved in this clause shall apply to the case where both Vessels are the property, in part or in whole, of the same owners, all questions of responsibility and amount of liability as between the two Ships being left to the decision of a single Arbitrator, if the parties can agree upon a single Arbitrator, or failing such agreement, to the decision of Arbitrators, one to be appointed by the managing owners of both Vessels, and one to be appointed by the majority in amount of underwriters interested in each Vessel; the two Arbitrators chosen to choose a third Arbitrator before entering upon the reference. The terms of the Arbitration Act of 1889 to apply to such reference, and the decision of such single, or of any two of such three Arbitrators, appointed as above, to be final and binding.

This clause shall also extend to any sum which the Assured may become liable to pay, or shall pay for removal of obstructions under statutory powers, or for injury to harbors, wharves, piers, stages, and similar structures.

PROTECTION AND INDEMNITY CLAUSE

It is further agreed that if the Assured shall by reason of his interest in the insured Ship become liable to pay and shall pay any sum or sums in respect of any responsibility, claim, demand, damages, and/or expenses arising from or occasioned by any of the following matters or things during the currency of this policy, that is to say:

Loss of or damage to any other ship or boat or goods, merchandise, freight, or other things or interests, whatsoever on board such other ship or boat caused proximately or otherwise by the ship insured in so far as the same is not covered by the running down clause set out above. Loss of or damage to any goods, merchandise, freight or other things or interest, whatsoever other than as aforesaid whether on board the said vessel or not, which may arise from any cause whatever.

Loss of or damage to any harbor,, dock (graving or otherwise), slipway, way, gridiron, pontoon, pier, quay, jetty, stage, buoy, telegraph cable, or other fixed or movable thing whatsoever, or to any goods or property in or on the same, howsoever caused.

Any attempted or actual raising, removal or destruction of the wreck of the insured ship or the cargo thereof, or any neglect or failure to raise, remove, or destroy the same. Any sum or sums for which the Assured may become liable or incur from causes not hereinbefore specified, that are absolutely or conditionally recoverable under the printed forms of Protection and Indemnity policy commonly issued by stock insurance companies in the United States, but excluding loss of life and personal injury.

The Underwriter will pay the Assured such proportion of such sum or sums so paid, or, which may be required to indemnify the Assured for such loss, as its subscription bears to the completed contract price of the ship hereby insured, plus the cost of materials and equipment furnished by the Owner and not included in the contract price, if insured hereunder, and where the liability of the Assured has been contested with the consent in writing of a majority (in amount) of the Underwriters on the ship hereby insured, the Underwriter will also pay a like proportion of the costs which the Assured shall thereby incur or be compelled to pay.

Notwithstanding the foregoing, this policy is:

(A) Warranted free from any claim arising directly or indirectly under Workmen's Compensation or Employers Liability Acts and any other Statutory or Common Law liability in respect of accidents to any person or persons whomsoever.

(B) Warranted free of loss or damage caused by strikers, locked-out workmen or persons taking part in labor disturbances or riots or civil commotions.

(C) Warranted free of loss or damage caused by earthquake.

(D) Warranted free of any consequential damages or claims for loss through delay however caused.

(E) Warranted free from claim for loss or damage to engines, boilers and all other materials while in transport, except in the port at which the vessel is being built.

This policy shall not be vitiated by any unintentional error in description of interest or voyage, provided the same be communicated to Underwriter as soon as known to the Assured, and an additional premium paid if required.

The words "Owner" and "Assured" as used in this policy shall be interpreted to mean either "Builder" or "Owner" or both.

In witness whereof, the Maritime Administrator, acting for the Secretary of Commerce, has signed this policy, but it shall not be valid unless countersigned by or on behalf of the Chief, Division of Insurance, Maritime Administration.

Countersigned at Washington, D. C., this ------ day of 195-----.

UNITED STATES OF AMERICA,
By Maritime Administrator, acting
for the Secretary of Commerce.

Maritime Administrator.

By:

Chief, Division of Insurance.

Form MA-283 (A) (12-52)

CLAUSES FOR BUILDER'S RISK

(Pre-launching Period)

Endorsement attached to and made a part of Policy WRBR -------- issued to ----------

The terms and conditions as set forth below shall supersede and nullify the clauses of the policy insofar as such clauses are inconsistent with the clauses set forth below:

1. The amount insured hereunder shall be the valuation at risk at the shipyard of the builder during the currency of this insurance, which shall be the cost of materials plus the cost of labor, other direct charges, overhead, and profit of not exceeding 10 percent, all as determined from the Assured's records but the amount of any claim for damage to or the total or constructive total loss of the vessel adjusted, compromised, settled, adjudged or paid shall not exceed the vessel's fair and reasonable value as determined in accordance with Public Law 763, 81st Congress, and any other applicable Acts of Congress, provided that the amount payable hereunder shall not exceed the maximum sum which the Maritime Administrator, as underwriter, is authorised to pay under any applicable Acts of Congress, and provided further that in no event shall the amount of such liability to an insured owner exceed the value of the vessel as determined in accordance with section 802, Merchant Marine Act, 1936, as amended, if the vessel is being built with the aid of a construction-differential subsidy.

2. The Assured agrees to report to the Underwriter 100% of the valuation at risk and to pay premium on the amount reported.

3. The valuation at risk (as defined above) shall be reported to the Underwriter as follows:

(a) Valuation at risk at the inception of this insurance to be declared as soon as practicable.

(b) Valuation at risk as of the end of each calendar month thereafter to be declared not later than 15 days immediately following.

4. Premium shall be payable monthly at the rate of ------ percent per month. Premium for periods of less than one month shall be payable at the daily pro rata of the monthly rate. The premium for each month or part thereof shall be computed on the average of the last two successive reports. Premium shall be payable thirty days after receipt by the Assured of notice of the amount thereof and payment shall be made by check payable to the order of the "Maritime Adm.–Commerce".

5. Attaching as of the date and time the first material destined for inclusion as a part of the vessel becomes at risk at the shipyard of the builder and expiring as of the date and time the vessel first becomes water-borne after launching. Both dates and times shall be reported to the Underwriter as soon as known to the Assured.

6. The Underwriter shall have the right to change the rate of premium for this insurance at any time. Unless the revised rate of premium is accepted in writing by the Assured within fifteen days after receipt by the Assured of notice of the revised rate, this policy shall thereupon become null and void and of no effect as of Midnight, Standard Time at the location of the shipyard on the fifteenth day after receipt of said notice. Premium at the revised rate shall be payable for the fifteen-day period during which this insurance remained in force unless the Assured, within such period, dispatches notice to the Maritime Administrator, by telegraph of his refusal to accept such revised rate of premium, in which event premium at the revised rate shall be payable for that portion of the fifteen-day period prior to dispatch of such notice. Upon the dispatch of such notice of non-acceptance, the insurance provided hereunder shall ipso facto terminate.

7. Warranted that for and during the term of this policy the vessel is an American vessel as defined in Sec. 1201 (a), Public Law 763, 81st Congress, and if at any time during that term the vessel ceases to be an American vessel as defined in the Act or is requisitioned by the Government of the United States, this policy shall automatically terminate at the time of such change or requisition and daily pro-rata premium shall be payable to the date of termination.

8. In the event any premium, either original or additional, which becomes due and payable under any of the provisions of this endorsement or the policy to which it is attached is not paid within thirty days after receipt by the Assured of notice of the amount therof this insurance shall, notwithstanding any other provision for cancellation, become null and void and of no effect as of the commencement of the period for which the premium charge is made unless the Maritime Administrator agrees otherwise.

9. Warranted, no cancellation except by mutual consent except as provided in Paragraphs 6, 7 and 8 above.

Form MA-283 (B) (12-52)

CLAUSES FOR BUILDER'S RISK

(Post-launching Period—Excess)

Endorsement attached to and made a part of Policy WRBR -------- issued to ----------

The terms and conditions as set forth below shall supersede and nullify the clauses of the policy insofar as such clauses are inconsistent with the clauses set forth below:

1. The amount insured hereunder is $------, being the excess of $------ primary insurance and this insurance to pay only that part of any loss, damage or expense covered hereunder which is in excess of the amount payable under the primary insurance but the amount of any claim for damage to or the total or constructive total loss of the vessel adjusted, compromised, settled, adjudged or paid shall not exceed the lower of (a) the amount insured hereunder or (b) the vessel's fair and reasonable value as determined in accordance with Public Law 763, 81st Congress, and any other applicable Acts of Congress, provided that the amount payable under (b) hereof shall not exceed the maximum sum which the Maritime Administrator, as underwriter, is authorised to pay under any applicable Acts of Congress, and provided further that in no event shall the amount of such liability to an insured owner exceed the value of the vessel as determined in accordance with Section 802, Merchant Marine Act, 1936, as amended, if the vessel is being built with the aid of a construction-differential subsidy.

2. In the event the primary insurance is cancelled through the operation of any automatic termination clause applicable thereto, the amount insured under the policy to which this endorsement is attached shall, at an additional premium to be fixed by the Maritime Administrator, be automatically increased by the amount of the primary insurance and thereupon insurance under the policy shall become primary insurance and Paragraph 1 of this endorsement shall be deemed to be deleted herefrom and Paragraph 1 of endorsement Form MA-283(O) substituted therefor, all other terms and conditions to remain the same.

3. Whereas the value stated herein is provisional and is based upon the estimated contract price, the parties to this insurance agree that the full value of the subject matter of this insurance, to be ascertained in accordance with the completed contract, shall be the basis of this insurance. Should the value for insurance, determined as above—

(I) Exceed the value stated herein, the Assured agrees to declare to the Underwriter the amount of such excess and to pay premium thereon at the full policy rate, and the Underwriter agrees to accept its proportionate share of the increase, or

(II) Be less than the value stated herein, the sum insured by this policy shall be reduced proportionately and the Underwriter agrees to return premium, at the full policy rate, on the amount by which its line is reduced.

4. Premium shall be payable at the rate of ------ percent. In the event of cancellation of insurance hereunder by reason of early delivery of the vessel to return monthly pro-rata premium for each uncommenced month. Premium shall be payable thirty days after receipt by the Assured of notice of the amount thereof and payment shall be made by check payable to the order of the "Maritime Adm.–Commerce".

5. Attaching as of the date and time the vessel first becomes water-borne after launching and expiring as of the date and time the vessel is delivered by the builder. Both dates and times shall be reported to the Underwriter as soon as known to the Assured.

6. The Underwriter shall have the right to change the rate of premium for this insurance at any time. Unless the revised rate of premium is accepted in writing by the Assured within fifteen days after receipt by the Assured of notice of the revised rate, this policy shall thereupon become null and void and of no effect as of Midnight, Standard Time at the location of the shipyard on the fifteenth day after receipt of said notice. Premium at the revised rate shall be payable for the fifteen-day period during which this insurance remained in force unless the Assured, within such period, dispatches notice to the Maritime Administrator, by telegraph of his refusal to accept such revised premium rate, in which event premium at the revised rate shall be payable for that portion of the fifteen-day period prior to dispatch of such notice. Upon the dispatch of such notice of non-acceptance, the insurance provided hereunder shall ipso facto terminate.

7. Warranted that for and during the term of this policy the vessel is an American vessel as defined in Sec. 1201 (a), Public Law 763, 81st Congress, and if at any time during that term the vessel ceases to be an American vessel as defined in the Act or is requisitioned by the Government of the United States, this policy shall automatically terminate at the time of such change or requisition and daily pro-rata return of premium shall be made.

8. Trial trips held covered at a rate to be fixed by the Maritime Administrator.

9. In the event any premium, either original or additional, which becomes due and payable under any of the provisions of this endorsement or the policy to which it is attached is not paid within thirty days after receipt by the Assured of notice of the amount thereof this insurance shall, notwithstanding any other provision for cancellation, become null and void and of no effect as of the commencement of the period for which the premium charge is made unless the Maritime Administrator agrees otherwise.

10. Warranted, no cancellation except by mutual consent except as provided in Paragraphs 6, 7 and 9 above.

Form MA-283 (C) (12-52)

CLAUSES FOR BUILDER'S RISK

(Post-launching Period—Primary)

Endorsement attached to and made a part of Policy WRBR -------- issued to ----------

The terms and conditions as set forth below shall supersede and nullify the clauses of the policy insofar as such clauses are inconsistent with the clauses set forth below:

1. The amount insured hereunder is $------ but the amount of any claim for damage to or the total or constructive total loss of the vessel adjusted, compromised, settled, adjudged or paid shall not exceed

the lower of (a) the amount insured hereunder or (b) the vessel's fair and reasonable value as determined in accordance with Public Law 763, 81st Congress, and any other applicable Acts of Congress, provided that the amount payable under (b) hereof shall not exceed the maximum sum which the Maritime Administrator, as underwriter, is authorized to pay under any applicable Acts of Congress, and provided further that in no event shall the amount of such liability to an insured owner exceed the value of the vessel as determined in accordance with Section 802, Merchant Marine Act, 1936, as amended, if the vessel is being built with the aid of a construction-differential subsidy.

2. Whereas the value stated herein is provisional and is based upon the estimated contract price, the parties to this insurance agree that the full value of the subject matter of this insurance, to be ascertained in accordance with the completed contract, shall be the basis of this insurance.

Should the value for insurance, determined as above—

(I) Exceed the value stated herein, the Assured agrees to declare to the Underwriter the amount of such excess and to pay premium thereon at the full policy rate, and the Underwriter agrees to accept its proportionate share of the increase, or

(II) Be less than the value stated herein, the sum insured by this policy shall be reduced proportionately and the Underwriter agrees to return premium, at the full policy rate, on the amount by which its line is reduced.

3. Premium shall be payable at the rate of ------ percent. In the event of cancellation of insurance hereunder by reason of early delivery of the vessel to return monthly prorata premium for each uncommenced month. Premium shall be payable thirty days after receipt by the Assured of notice of the amount thereof and payment shall be made by check payable to the order of "Maritime Adm.—Commerce".

4. Attaching as of the date and time the vessel first becomes water-borne after launching and expiring as of the date and time the vessel is delivered by the builder. Both dates and times shall be reported to the Underwriter as soon as known to the Assured.

5. The Underwriter shall have the right to change the rate of premium for this insurance at any time. Unless the revised rate of premium is accepted in writing by the Assured within fifteen days after receipt by the Assured of notice of the revised rate, this policy shall thereupon become null and void and of no effect as of Midnight, Standard Time at the location of the shipyard on the fifteenth day after receipt of said notice. Premium at the revised rate shall be payable for the fifteen-day period during which this insurance remained in force unless the Assured, within such period, dispatches notice to the Maritime Administrator, by telegraph of his refusal to accept such revised premium rate, in which event premium at the revised rate shall be payable for that portion of the fifteen-day period prior to dispatch of such notice. Upon the dispatch of such notice of non-acceptance, the insurance provided hereunder shall ipso facto terminate.

6. Warranted that for and during the term of this policy the vessel is an American vessel as defined in section 1201 (a), Public Law 763, 81st Congress, and if at any time during that term the vessel ceases to be an American vessel as defined in the Act or is requisitioned by the Government of the United States, this policy shall automatically terminate at the time of such change or requisition and daily pro-rata return of premium shall be made.

7. Trial trips held covered at a rate to be fixed by the Maritime Administrator.

8. In the event any premium, either original or additional, which becomes due and payable under any of the provisions of this endorsement or the policy to which it is attached is not paid within thirty days after receipt by the Assured of notice of the amount thereof this insurance shall, notwithstanding any other provision for cancellation, become null and void and of no effect as of the commencement of the period for which the premium charge is made unless the Maritime Administrator agrees otherwise.

9. Warranted, no cancellation except by mutual consent except as provided in Paragraphs 5, 6 and 8 above.

Form MA-283 (D) (12-52)

UNITED STATES OF AMERICA

WAR RISK CLAUSES FOR BUILDER'S RISK

Endorsement attached to and made part of Policy WRBR ------ issued to ----------

It is agreed that this insurance covers only those risks which would be covered by the attached policy (including running down liability under the Collision Clause) in the absence of the F. C. & S. warranty contained therein but which are excluded by that warranty. This insurance is also subject, however, to the following warranties and additional clauses:

1. The Adventures and Perils Clause shall be construed as including the risks of piracy, civil war, revolution, rebellion or insurrection or civil strife arising therefrom, floating and/or stationary mines and/or torpedoes whether derelict or not and/or military or naval aircraft and/or other engines of war including missiles from the land and weapons of war employing atomic fission or radioactive force and warlike operations and the application of sanctions under international agreements, whether before or after declaration of war and whether by a belligerent or otherwise, but excluding arrest, restraint or detainment under customs or quarantine regulations, and similar arrests, restraints or detainments not arising from actual or impending hostilities or sanctions.

2. The provisions of the attached policy with respect to constructive total loss shall apply only to claims arising from physical damage to the insured vessel.

3. Warranted free from any claim for delay or demurrage and warranted not to abandon in case of capture, seizure or detention, until after condemnation of the property insured.

4. Warranted free from any claim based upon loss of or frustration of the insured voyage or adventure caused by arrests, restraints or detainments, of kings, princes, or peoples.

5. Warranted free from any claim arising from capture, seizure, arrest, restraint, detainment, preemption, confiscation or requisition by the Government of the United States.

§ 308.409 *Reporting casualties and filing claims.* Casualties shall be reported promptly to, and all claim documents filed with, the Chief, Division of Insurance, Maritime Administration, Department of Commerce, Washington 25, D. C.

SUBPART F—WAR RISK CARGO INSURANCE

I—INTRODUCTION

§ 308.500 *Authority.* The Secretary of Commerce delegated authority to the Maritime Administrator to perform the functions vested in the Secretary of Commerce by title XII of the Merchant Marine Act, 1936, as amended, Public Law 763—81st Congress, except the authority "to find that insurance adequate to the needs of the water-borne commerce of the United States cannot be obtained on reasonable terms and conditions in companies authorized to do an insurance business in a State of the United States" which was reserved to the Secretary of Commerce. (Section 6.01, subsection 2, paragraph (3) of Department Order No. 117 (Amended), published as section 5 (a) (2) (iii) in the FEDERAL REGISTER September 15, 1953, 18 F. R. 5518, 5519.)

§ 308.501 *Cargoes on which coverage is available.* When this order becomes effective as provided in § 308.551, the Maritime Administrator will be prepared to provide marine insurance against loss or damage by the risks of war under approved clauses on shipments of cargoes coming within one or more of the following categories:

(a) Shipped or to be shipped on any American vessel, as defined in section 1201 (a) of the Merchant Marine Act, 1936, as amended;

(b) Shipped or to be shipped on any foreign flag vessels owned by citizens of the United States;

(c) Owned by citizens or residents of the United States, its Territories or possessions;

(d) Imported to, or exported from, the United States, its Territories or possessions, under contracts of sale or purchase by the terms of which the risk of loss by war risks or the obligation to provide insurance against such risks is assumed by or falls upon a citizen or resident of the United States, its Territories or possessions;

(e) Sold or purchased by citizens or residents of the United States, its Territories or possessions, under contracts of sale or purchase by the terms of which the risk of loss by war risks or the obligation to provide insurance against such risks is assumed by or falls upon a citizen or resident of the United States, its Territories or possessions;

(f) Shipped between ports in the United States, or between ports in the United States and its Territories and possessions, or between ports in such Territories or possessions; and

(g) Shipped or to be shipped on any foreign flag vessels, whether or not owned by citizens of the United States, if such vessels are engaged in transportation in the water-borne commerce of the United States or in such other transportation by water or such other services as may be deemed by the Maritime Administrator to be in the interest of the national defense or the national economy of the United States, when so engaged.

Cargo war risk insurance will be written under either an open policy or a facultative policy in accordance with the provisions of this subpart.

§ 308.502 *Additional insurance.* The assured may place increased value or additional insurance in other markets beyond the amount of insurance provided by the Maritime Administrator, but such insurance must be non-participating with the Maritime Administrator's coverage, and without benefit of salvage or right of contribution.

§ 308.503 *Rate schedules.* Rate schedules published by the Maritime Administrator may be obtained from an underwriting agent. All rate schedules are subject to change by the Maritime Administrator at any time without notice. If no rate is published for a voyage on which war risk coverage is available, the Maritime Administrator will name a rate through an underwriting agent upon application.

§ 308.504 *Definition of territories and possessions.* Whenever reference is made to the territories and possessions of the United States in this subpart or in any supplement thereto or any policy of insurance issued pursuant to the provisions thereof, said territories and possessions shall be deemed to include only the Territory of Alaska, the Territory of the Hawaiian Islands, the Virgin Islands of the United States, the Commonwealth of Puerto Rico, American Samoa, Guam, Wake Island, Midway Islands, and the Panama Canal Zone.

II—OPEN POLICY WAR RISK CARGO INSURANCE

§ 308.505 *General.* The Maritime Administrator is prepared to provide an open cargo war risk insurance policy covering any cargoes described in § 308.501. The policy will be in the standard form of War Risk Open Cargo Policy, Form MA-300, prescribed in § 308.517. All policies will be issued by underwriting agents appointed by the Maritime Administrator. All underwriting agents will be domestic insurance companies authorized to do a marine insurance business in a State of the United States.

§ 308.506 *Application for an open cargo policy.* Application for an Open Cargo Policy shall be made by filing Form MA-301, prescribed in § 308.521, with an underwriting agent of the Maritime Administration. The application shall state the applicant's name and address; the person or persons to whom loss shall be payable; the nature and geographic scope of the shipments to be covered under the policy which shall not be broader than the coverage authorized in § 308.501; the requested effective date, which shall not be earlier than the date of the completion of the requirements for the issuance of the policy; and the basis of valuation to be incorporated in the policy. An applicant may specify one basis of valuation for imports and another for exports, and he may specify different bases of valuation for different commodities or voyages, provided that each basis of valuation specified by the applicant shall define the value by the use of facts which existed prior to the date of the shipment and which are readily ascertainable by either party after the safe arrival br loss of the shipment.

§ 308.507 *Security for payment of premiums.* Clause 21 of the policy requires the assured to maintain with the Maritime Administrator a collateral deposit fund or a surety bond, to secure the payment of the premiums, in an amount which shall at all times exceed the unpaid premiums on all risks which have attached under the policy. The minimum amount of the fund or of the surety bond shall be $1,000. Clause 21 also provides that, within seven (7) days from the time knowledge comes to the assured that the amount of the deposit or the surety bond is insufficient to meet the requirements of Clause 21, the assured shall deposit additional collateral or increase the surety bond in an amount not less than double the amount of such insufficiency, and for a sum which shall be a multiple of $500. If the assured fails to increase the deposit or the surety bond within the seven (7) day period, the policy automatically becomes void at the end of the seven (7) day period except as to risks which have attached prior to that date. The procedure for establishing a collateral deposit fund is prescribed in § 308.509, and the procedure for posting and maintaining a surety bond is prescribed in § 308.510. An application for the issuance of an open cargo policy shall be ineffective unless a collateral deposit fund is established and maintained, or a surety bond is posted and maintained, in accordance with the provisions of this section and §§ 308.509 and 308.510.

§ 308.508 *Issuance of an open cargo policy*—(a) *Time.* The underwriting agent will issue an Open Cargo Policy within fifteen (15) days after the completion by the applicant of the requirements set forth in §§ 308.506 and 308.507 unless the time for issuance is extended by the Maritime Administrator in writing. The underwriting agent may not make any Open Cargo Policy effective with respect to shipments attaching on a date earlier than the date when the application was completed, but he may make it effective on the date of the completion of the application or any date thereafter requested by the applicant.

(b) *Numbering.* Each Open Cargo Policy supplied to the underwriting agent by the Maritime Administrator shall be numbered by the Maritime Administration before it is supplied to the underwriting agent. No two numbers shall be the same. The underwriting agent when issuing the policy shall add at the end of the policy number the agency number assigned to that underwriting agent, and where policies are issued by more than one office of an underwriting agent the issuing office shall also be identified in the policy number. For example, policies issued by an office in New York will be designated by "NY" and policies issued in San Francisco will be designated by "SF" prefixed to the underwriting agent's agency number.

§ 308.509 *Collateral deposit fund*—(a) *Requirements.* An assured electing to use a cash collateral deposit fund pursuant to § 308.507 shall comply with the provisions of this section and Clause 21 of the Open Cargo Policy, Form MA-300, prescribed in § 308.517.

(b) *Cash or Government bonds.* To establish a collateral deposit fund the applicant shall deposit with the underwriting agent a check payable to the order of the "Maritime Adm.-Commerce" for the amount of the fund, or United States Government bonds having a par value at the time of deposit of the amount of the fund, which shall be a multiple of $500 but not less than $1,000, together with a letter of transmittal executed by the applicant on Form MA-302, prescribed in § 308.522. Upon receipt of the deposit, the underwriting agent shall assign a serial number to it and trasmit it to the Comptroller, Maritime Administration, Washington 25, D. C. It is the responsibility of the assured to make sure that this deposit fund is sufficient at all times to cover the premiums payable on all risks which have attached under the policy, so as to prevent the termination of the insurance under the provisions of Clause 21.

(c) *Overdue premiums.* Pursuant to Clause 20, if the assured fails to pay any premium when it becomes due and payable, he thereby breaches the policy and it automatically ceases to insure any shipments which would otherwise have attached after the expiration of fifteen (15) days following the due date of the premium, unless within the fifteen (15) day period the premium has been paid and the assured has otherwise complied with the requirements of the policy, including the filing of the closing report required by Clause 19 and the payment of the reinstatement fee of $25.00 required by Clause 20. If the assured fails to pay the premium within the fifteen (15) day period, the Maritime Administrator may deduct from the assured's collateral deposit fund all amounts due.

(d) *Increase in amount of collateral as required by Clause 21.* If the assured fails to deposit additional collateral in the fund within seven (7) days from the time knowledge comes to the assured that the amount of collateral is insufficient to meet the requirements of Clause 21, the policy shall be void except as to risks which have attached prior to the expiration of the seven (7) day period.

(e) *Changes in amount of collateral.* The assured may increase or decrease the amount of the collateral deposit fund by amounts of not less than $500 or multiples thereof, provided that the amount of the fund shall not be less than the amount required by Clause 21, or the required minimum of $1,000, whichever is greater. The effect of any change in the amount of the collateral deposit shall be the sole responsibility of the assured, and the permission granted by this paragraph to change the amount of collateral in the fund shall in no manner relieve the assured of the responsibility imposed by Clause 21.

(f) *Increase of collateral.* To increase the amount of the collateral on deposit in the fund, the assured shall transmit to the underwriting agent on Form MA-302, prescribed in § 308.522, a check payable to the order of the "Maritime Adm.-Commerce" or United States Government bonds having a par value at the time of deposit of not less than the amount of the requested increase. The increase shall become effective upon the date of the receipt of the application and check or bonds by the underwriting agent as shown on Form MA-302.

(g) *Decrease of collateral.* To decrease the collateral deposit fund, the assured shall file with the underwriting agent an application on Form MA-305, prescribed in § 308.525. The decrease shall become effective upon the date of the receipt of the application by the underwriting agent as shown on Form MA-305.

(h) *Refund of collateral.* Whenever the assured becomes entitled to a refund of the collateral deposit, in whole or in part, by reason of a request for a partial return of such collateral, or the cancellation of the policy and the payment in full of all premiums then or thereafter due, or the waiver by the Maritime Administrator of the requirements of maintaining the collateral deposit fund because the assured is a department or agency of the United States or is acting on behalf of such a department or agency, or the substitution of a surety bond in the place and stead of the collateral deposit fund, as provided in § 308.510 (j), the Maritime Administrator will refund to the assured the amount of the collateral deposit to which the assured is entitled; provided, however, that the repayment of such collateral shall not be made by the Maritime Administrator until the assured has filed a closing report and paid in full all premiums with respect to all shipments which had attached at the time of the receipt by the underwriting agent of the application for the refund, Form MA–305, and a certificate executed in duplicate on Form MA–306, prescribed in § 308.526, and, in the event of the substitution of a surety bond for the collateral deposit fund, the receipt by the underwriting agent of the surety bond properly executed, in accordance with § 308.510.

§ 308.510 *Surety bond*—(a) *Requirements.* An assured electing to post a surety bond pursuant to § 308.507 shall comply with the provisions of this section and Clause 21 of the Open Cargo Policy, Form MA–300, prescribed in § 308.517.

(b) *Amount of bond.* An applicant who wishes to post a surety bond shall deliver to the underwriting agent a surety bond on Form MA–308, prescribed in § 308.528, executed by the assured as principal, and by the surety, in such amount as the assured determines to be necessary to comply with Clause 21. Such amount shall be a multiple of $500 but shall not be less than $1,000. Upon receipt of the surety bond, the underwriting agent shall assign a serial number to it and transmit it to the Comptroller, Maritime Administration, Washington 25, D. C. It is the responsibility of the assured to make sure that the amount of the bond is sufficient at all times to cover the premium payable on all risks which have attached under the policy, so as to prevent the termination of the insurance under the provisions of Clause 21.

(c) *Surety.* The sufficiency of the surety executing the bond shall be subject to approval by the Maritime Administrator. The underwriting agent may accept on behalf of the Maritime Administrator a surety bond executed by a surety named on the United States Treasury Department's approved list of sureties whose bonds are acceptable to the United States Treasury Department to secure obligations due the United States, provided the bond is within the maximum amount for which the surety is so authorized to write bonds as shown by the approved list.

(d) *Overdue premiums.* Pursuant to Clause 20, if the assured fails to pay any premium when it becomes due and payable, he thereby breaches the policy and it automatically ceases to insure any shipments which would otherwise have attached after the expiration of fifteen (15) days following the due date of the premium, unless within the fifteen (15) day period the premium has been paid and the assured has otherwise complied with the requirements of the policy, including the filing of the closing report required by Clause 19 and the payment of the reinstatement fee of $25.00 required by Clause 20. If the assured fails to pay the premium within the fifteen (15) day period, all amounts due shall become a liability collectible under the surety bond and from the assured.

(e) *Increase in amount of bond as required by Clause 21.* If the assured fails to increase the amount of the surety bond within seven (7) days from the time knowledge comes to the assured that the amount of the bond is insufficient to meet the requirements of Clause 21, the policy shall be void except as to risks which have attached prior to the expiration of the seven (7) day period.

(f) *Changes in amount of bond.* The assured may increase or decrease the amount of the surety bond by amounts of not less than $500 or multiples thereof, provided that the amount of the bond shall not be less than the amount required by Clause 21, or the required minimum of $1,000, whichever is greater. The effect of any change in the amount of the bond shall be the sole responsibility of the assured, and the permission granted by this paragraph to change the amount of the bond shall in no manner relieve the assured of the responsibility imposed by Clause 21.

(g) *Increase in amount of bond.* To increase the surety bond the assured shall transmit to the underwriting agent, on Form MA–310, prescribed in § 308.530, an endorsement duly executed by the assured and the surety company on Form MA–311, prescribed in § 308.531. The increase shall become effective upon the date of the receipt of the endorsement by the underwriting agent as shown on Form MA–311.

(h) *Decrease in amount of bond.* To decrease the amount of the bond, the assured shall transmit to the underwriting agent, on Form MA–310, prescribed in § 308.530, an endorsement duly executed by the assured and the surety on Form MA–311, prescribed in § 308.531. The decrease shall become effective upon the date of the receipt of the endorsement by the underwriting agent as shown on Form MA–311, except as to shipments which on that date are known or reported to the assured to be in transit and which have attached under the policy and upon which premium has not been paid in full.

(i) *Termination of bond.* Whenever the assured becomes entitled to a termination of a surety bond by reason of the cancellation of the policy and the payment in full of all premiums then or thereafter due, or the waiver by the Maritime Administrator of the requirements of maintaining the surety bond by an assured which is a department or agency of the United States or is acting on behalf of such a department or agency, or the substitution of a collateral deposit fund in the place or stead of the surety bond, the underwriting agent shall execute a release on Form MA–312, prescribed in § 308.532. The release shall be made effective as of (1) the effective date of the cancellation of the policy when the bond is terminated for that reason, or (2) the date of the Maritime Administrator's directive waiving the requirement of a surety bond when the bond is terminated for that reason, or (3) the effective date of the establishment of a collateral deposit fund when the bond is terminated for that reason.

(j) *Substitution of bond for collateral deposit.* An assured may substitute a surety bond for a collateral deposit fund by delivering to the underwriting agent a surety bond on Form MA–309, prescribed in § 308.529, executed by the assured as principal, and by the surety, in such amount as the assured determines to be necessary to comply with Clause 21. Such amount shall be a multiple of $500, but shall not be less than $1,000. The collateral deposit fund will be refunded to the assured after the bond has been posted, in accordance with the provisions of § 308.509 (h).

§ 308.511 *Cancellation of open cargo policy.* An assured may cancel an Open Cargo Policy by delivering to the underwriting agent, at least fifteen (15) days prior to the requested date of cancellation, an application for cancellation executed by the assured on Form MA–304, prescribed in § 308.524, together with the original policy. The policy shall be cancelled as of the effective date requested in the application, which, unless otherwise agreed by the Maritime Administrator in writing, shall not be a date earlier than fifteen (15) days following the date of the receipt of the application as acknowledged by the underwriting agent on Form MA–304, with respect to all risks that have not attached prior to said effective date. Such cancellation shall not relieve the assured of the obligation to file closing reports with respect to all risks which attached prior to the effective date of the cancellation and to pay all unpaid premiums. Within four (4) months of the effective date of cancellation, unless otherwise agreed by the Maritime Administrator in writing, the assured must file a closing report in duplicate on Form MA–313, prescribed in § 308.533, of all shipments covered by the policy for which closing reports have not been previously filed. The assured shall mark this closing report "Final Closing Report on Cancellation of Policy", and file a certificate on Form MA–313–B, prescribed in § 308.535, executed by the assured in duplicate. Thereafter when all unpaid premiums have been paid, the assured will become entitled to a refund of the collateral deposit, or cancellation of the surety bond in accordance with §§ 308.509 and 308.510. If the assured has lost or mislaid the original policy and is unable to produce it for cancellation, the assured shall execute a letter of indemnity and such other documents as may be required by the Maritime Administrator.

§ 308.512 *Declaration of shipments under open cargo policy*—(a) *Closing report.* The assured must file with the underwriting agent, not later than the twenty-fifth day of each month, a closing report for all inward shipments and a closing report for all outward shipments, and pay the premium and fees, for all shipments covered during the preceding calendar month, as required by Clause 19. Each closing report shall be filed in duplicate on Form MA–313, prescribed in § 308.533, supported by a certificate executed by the assured on Form MA–313–A, prescribed in § 308.534. If the assured has no shipments to report during any calendar month, the closing report, Form MA–313, must nevertheless be filed with one or both of the following statements, depending upon their applicability, noted thereon:

(1) It is certified that no inward shipment coming within the scope of this policy arrived at destination during the preceding calendar month, and that during the preceding calendar month no knowledge has come to the assured of an inward shipment covered under the terms of the policy which will not arrive by reason of loss, frustration or other similar cause.

(2) It is certified that no outward shipment coming within the scope of this policy was made during the preceding calendar month.

Whenever a sea passage is made with respect to cargo covered under the policy by a barge or sailing vessel the assured shall note that fact upon the closing report, unless the Maritime Administrator otherwise agrees. An assured reporting for one calendar month must not include therein a report of a shipment due to be reported in the report for the next succeeding calendar month. Thus, the report of January closing shipments filed in February should not include February closings.

(b) *Inward shipments.* The closing report covering inward shipments shall include (1) all such shipments which have arrived at the port of destination during the preceding calendar month, and (2) all such shipments with respect to which inability to so arrive by reason of loss, frustration, or other similar causes has come to the knowledge of the assured during the preceding calendar month.

(c) *Outward shipments.* The closing report covering outward shipments shall include all such shipments which attached under the policy during the preceding calendar month.

(d) *Definition of inward and outward shipments.* A shipment will be classified as an inward shipment or as an outward shipment by reference to the geographical location of the assured with respect to the movement of the shipment. The address of the assured as stated in the application filed by him for the policy shall be deemed to be the assured's geographical location for the purpose of determining whether the shipment is inward or outward. To illustrate, if an assured has stated in his application that his address is in Hawaii, the assured's shipments of goods from the United States to Hawaii would be classified as inward, and his shipments from Hawaii to the United States would be classified as outward. Any shipments that cannot be classified as inward or outward under this definition shall be treated as inward shipments for the purposes of the declaration.

(e) *Supplemental closing report.* If an assured files a closing report and thereafter discovers that one or more additional shipments should have been included in the report, then, even though the assured has executed the certificate on Form MA–313–A, prescribed in § 308.534, or Form MA–313–B, prescribed in § 308.535, in connection with the closing report, the assured must nevertheless amend the closing report by filing a supplemental closing report supported by an appropriate certificate. The supplemental closing report must be accompanied by a statement in writing signed by the assured giving the reasons for the omission of such shipments from the original closing report. If the Maritime Administrator finds that the failure to file the complete closing report was either inadvertent or unintentional or arose by reason of causes beyond the control of the assured, the otherwise automatic termination of the policy by reason of a breach of the warranty embodied in Clause 20 shall be avoided pursuant to the provisions of Clause 23.

§ 308.513 *Payment of premiums and fees.* The assured must pay the premium, when his closing report is filed, for all shipments shown on his closing report for the preceding month, at the rates prescribed by the Maritime Administrator and in effect (a) on the date of the ocean bill of lading, or (b) if an ocean bill of lading was not issued, on the date of the equivalent shipping document, or (c) if no ocean bill of lading or equivalent shipping document was issued, or if such documents were undated, on the date the goods were laden on the overseas vessel, as required by Clause 19. All payments of premium or fees must be made by check or money order payable to the order of the "Maritime Adm.–Commerce".

§ 308.514 *Return premium.* No premium will be returned to the assured with respect to a shipment of goods that attached under the policy except where there was a declaration of value at variance with Clause 8, or an error in the application of a rate or in the computation of a premium, or the insured goods were short-shipped. An application for the return of a premium shall be made on Form MA–307, prescribed in § 308.527, filed in duplicate with the underwriting agent who will transmit it to the Maritime Administrator for payment.

§ 308.515 *Payment in event of loss.* All claims for losses shall be filed by the assured with the underwriting agent who issued the policy. Such claims must be supported by the customary documents required in connection with war risk insurance claims, together with appropriate declarations as required by Clause 9, and such further data as may now or hereafter be required by the Maritime Administrator.

§ 308.516 *Failure to comply with Clause 21.* (a) If the assured wilfully fails to maintain a collateral deposit fund or a surety bond in an amount sufficient to meet the requirements of Clause 21, the policy becomes void from the date the fund or bond was first insufficient, but, if the assured's failure was inadvertent, the policy may be reinstated when the assured complies with Clause 21, and shows to the satisfaction of the Maritime Administrator that his failure was inadvertent and not wilful. If the failure was in fact inadvertent, the assured shall file a declaration on Form MA–314, prescribed in § 308.536, executed in duplicate, with the underwriting agent within seven (7) days from the time knowledge comes to the assured of the insufficiency of the collateral deposit fund or surety bond unless the time for filing such declaration is extended by permission of the Maritime Administrator. If the space provided in the declaration, Form MA–314, for an explanation of the circumstances by which the assured first had knowledge that the collateral became exceeded is not sufficient, the assured should attach to the declaration a detailed statement and include the same by reference in the declaration.

(b) If any policy becomes void by reason of the failure of the assured to deposit additional collateral or increase the amount of its surety bond under the provisions of Clause 21, the Maritime Administrator reserves the right to refuse to issue another policy to such assured for a period of 90 days.

§ 308.517 *Open cargo policy, Form MA–300.* The following is the standard form of War Risk Open Cargo Policy:

Form MA–300 (7–54)

United States of America

Department of Commerce

Maritime Administration

War Risk Open Cargo Policy No. WROC ----

CLAUSE 1. *Assured.* The United States of America, represented by the Maritime Administrator, acting for the Secretary of Commerce (herein called the "Underwriter"), in consideration of the premiums as computed and agreed to be paid pursuant to Clause 19, and of the establishment and maintenance of a collateral deposit fund or the posting and maintenance of a surety bond pursuant to Clause 21, and in accordance with applicable provisions of law and subject to all limitations thereof, particularly title XII, Merchant Marine Act, 1936, as amended, Public Law 763—81st Congress (herein called the "Act"), hereby insures ---------- (herein called the "Assured"), against War Risks Only, in accordance with the terms and conditions hereinafter set forth. This policy is issued on behalf of the Underwriter by ---------- (herein called the "Underwriting Agent").

CLAUSE 2. *Loss payable.* Loss, if any, payable, in funds current in the United States of America, to the order of the Assured thirty days after satisfactory proofs of loss and proofs of interest have been filed with the Underwriting Agent.

CLAUSE 3. *Goods insured.* To attach, as provided in clauses 5 and 13, upon all shipments of lawful goods and/or merchandise

consisting principally of ---------- which come within one or more of the following categories, as required by section 1203 (b) of the Act:

(a) Shipped or to be shipped on any American vessel, as defined in section 1201 (a) of the Act;

(b) Shipped or to be shipped on any foreign flag vessel owned by citizens of the United States;

(c) Owned by citizens or residents of the United States, its Territories or possessions;

(d) Imported to, or exported from, the United States, its Territories or possessions, under contracts of sale or purchase by the terms of which the risk of loss by war risks or the obligation to provide insurance against such risks is assumed by or falls upon a citizen or resident of the United States, its Territories or possessions;

(e) Sold or purchased by citizens or residents of the United States, its Territories or possessions, under contracts of sale or purchase by the terms of which the risk of loss by war risks or the obligation to provide insurance against such risks is assumed by or falls upon a citizen or resident of the United States, its Territories or possessions;

(f) Shipped between ports in the United States, or between ports in the United States and its Territories or possessions, or between ports in such Territories or possessions; and

(g) Shipped or to be shipped on any foreign flag vessels, whether or not owned by citizens of the United States, if such vessels are engaged in transportation of waterborne commerce of the United States or in such other transportation by water or such other services as may be deemed by the Maritime Administrator to be in the interest of the national defense or the national economy of the United States, when so engaged.

CLAUSE 4. *Insurable interest.* To cover all shipments:

(a) *By assured.* Shipped or consigned to, or by, the Assured for his account and risk;

(b) *By others for assured.* Shipped or consigned to, or by, other persons for the account and at the risk of the Assured;

(c) *Sold prior to loading.* Shipped to, by, or at the direction of the Assured and sold by him prior to loading on board the overseas vessel (1) on terms requiring the Assured to provide war risk insurance to the port of discharge, or (2) with respect to which written or cabled instructions to provide war risk insurance to the port of discharge have been received by the Assured from the purchaser prior to loading of the goods on board the overseas vessel;

(d) *Sold after attachment of risk.* Shipped to, by, or at the direction of the Assured and sold by the Assured subsequent to the attachment of risk hereunder on terms requiring the Assured to provide war risk insurance to the port of discharge, subject to the condition that in the event of loss the amount collectible shall not exceed the amount which would have been collectible by the Assured if the Assured at the time of loss had retained full interest in the insured goods.

CLAUSE 5. *Attachment.* To attach, as provided in Clause 13, on all shipments made on or after ----------:

(a) Under ocean bills of lading dated on or after said date, or

(b) If ocean bills of lading are not issued, under equivalent shipping documents dated on or after said date, or

(c) If no ocean bills of lading or equivalent shipping documents are issued, or if such documents are undated, laden on overseas vessel on or after said date.

CLAUSE 6. *Conveyance.* By overseas vessels and connecting conveyances.

CLAUSE 7. *Voyages covered.* At and from ---------- to ----------.

CLAUSE 8. *Valuation.* Goods insured hereunder shall be valued at ----------.

CLAUSE 9. *Limits on amount payable for loss*—(a) *Fair market value at commencement of risk.* In the event of loss, the Assured shall file a declaration (under the penalties of perjury) stating that the amount claimed does not exceed the fair market value of the lost or damaged goods at the place and approximate time of the attachment of risk, plus the cost of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost or damaged goods.

(b) *Fair market value at port of arrival.* If it is impossible to determine the fair market value at the place and approximate time of the attachment of risk, as provided in paragraph (a) of this clause, the Assured shall file a declaration (under the penalties of perjury) stating that the amount claimed does not exceed the fair market value at the designated port of arrival on the date of the attachment of risk, plus the costs of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost or damaged goods.

(c) *Purchase price less discount.* If the lost or damaged goods were purchased by the named Assured prior to loading on board the overseas vessel, the Assured shall file a declaration (under the penalties of perjury), in lieu of the declarations provided for in paragraphs (a) and (b) of this clause, stating that the amount claimed does not exceed the actual amount paid or payable to the seller for the goods less all discounts, plus the costs of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost or damaged goods. If Standard Optional Endorsement No. 2, Form MA-300-B, has been executed, and if the lost or damaged goods were purchased by the principal named in Endorsement No. 2, the declaration provided for in this paragraph shall be signed by both the agent and the named principal.

(d) *Sales price less discounts.* If the lost or damaged goods were shipped by, to, or at the difection of the Assured and were sold by the Assured prior to loading on board the overseas vessel (1) on terms requiring the Assured to provide war risk insurance to the port of discharge, or (2) with respect to which written or cabled instructions to provide war risk insurance to the port of discharge have been received by the Assured from the purchaser prior to loading of the goods on board the overseas vessel, and which were shipped for the account and at the risk of third persons other than a branch, subsidiary or affiliate of the Assured, the named Assured shall file a declaration (under the penalties of perjury), in lieu of the declarations required by paragraphs (a), (b), or (c) of this clause, stating that the amount claimed does not exceed the actual bona fide sales price less all discounts, plus the costs of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost or damaged goods if such items are not included in the sales price. The claim shall be filed by the named Assured unless otherwise permitted in writings by the Maritime Administrator for good cause shown.

(e) *Criminal Code.* The declarations required to be filed pursuant to this clause shall be subject to the United States Criminal Code which makes it a criminal offense for any person knowingly to make a false statement or representation to, or to conceal a material fact from, any department or agency of the United States as to any matter within its jurisdiction (18 U. S. C. 1001), or to file a false, fictitious or fraudulent claim against the United States (18 U. S. C. 287).

AMERICAN INSTITUTE WAR CLAUSES

CLAUSE 10. *War risks only.* This insurance is only against the risks of capture, seizure, destruction or damage by men-of-war, piracy, takings at sea, arrests, restraints, detainments and other warlike operations and acts of kings, princes and peoples in prosecution of hostilities or in the application of sanctions under international agreements, whether before or after declaration of war and whether by a belligerent or otherwise, including factions engaged in civil war, revolution, rebellion or insurrection, or civil strife arising therefrom, and including the risks of aerial bombardment, floating or stationary mines and stray or derelict torpedoes and weapons of war employing atomic fission or radioactive force; but excluding claims for delay, deterioration and/or loss of market, and warranted not to abandon (on any ground other than physical damage to ship or cargo) until after condemnation of the property insured.

CLAUSE 11. *Arrests, restraints.* Warranted free from any claim based upon loss of, or frustration of, the insured voyage or adventure caused by arrests, restraints or detainments.

CLAUSE 12. *Commandeering.* This insurance does not cover any loss or damage caused by or resulting from any of the following causes:

(a) Commandeering, preemption, requisition or nationalization by the government (de facto or otherwise) of the country to or from which the goods are insured.

(b) Seizure or destruction under quarantine or custom regulations.

CLAUSE 13. *Period covered.* (a) The insurance against the risks enumerated in Clause 10, except the risks of floating or stationary mines and stray or derelict torpedoes, floating or submerged, referred to in Clause 13 (b) below, shall not attach to the interest hereby insured or to any part thereof—

(1) Prior to being on board an overseas vessel (for the purpose of this Clause 13 an overseas vessel shall be deemed to mean a vessel carrying the interest from one port or place to another where such voyage involves a sea passage by that vessel);

(2) After being discharged overside from an overseas vessel at the final port of discharge;

or

after the expiry of fifteen (15) days counting from midnight of the day of arrival of the overseas vessel at the final port of discharge whichever shall first occur;

(3) After expiry of fifteen (15) days from midnight of the day of arrival of the overseas vessel at an intermediate port or place to discharge the interest for on-carriage from that or any other port or place by another overseas vessel, but shall re-attach as the interest is loaded on the on-carrying overseas vessel. During the said period of fifteen (15) days the insurance remains in force whether the interest is awaiting transit or in transit between the overseas vessels.

(b) The insurance against the risks of floating or stationary mines and stray or derelict torpedoes, floating or submerged, attaches as the interest hereby insured is first loaded on lighter, craft, or vessel after leaving the warehouse at point of shipment in transit for the destination declared hereunder, and ceases to attach as the interest is finally landed from the vessel, craft or lighter prior to delivery to warehouse at such destination.

If the contract of affreightment is terminated at a port or place other than the destination named therein such port or place shall be deemed the final port of discharge for the purpose of this clause.

It is a condition of this insurance that the Assured shall act with reasonable dispatch in all circumstances within their control.

If anything contained in this policy shall be inconsistent with this Clause 13 it shall to the extent of such inconsistency be null and void.

CLAUSE 14. *Deviation.* This insurance shall not be vitiated by deviation, overcarriage, change of voyage, or by any error or unintentional omission in the description of interest, vessel or voyage, provided the same be communicated to the Underwriting Agent as soon as known to the Assured and an additional premium paid if required.

CLAUSE 15. *Sue and labor.* In case of any loss or misfortune, it shall be lawful and necessary to and for the Assured, his or their factors, servants and assigns, to sue, labor and travel for, in and about the defense, safeguard and recovery of the said goods and merchandise, or any part thereof, without prejudice to this insurance; nor shall the acts of the Assured or the Underwriter, in recovering, saving and preserving the property insured, in case of disaster, be considered a waiver or an acceptance of abandonment; and to the charges whereof, the Underwriter will contribute according to the rate and quantity of the sum hereby insured.

CLAUSE 16. *General average.* General Average and Salvage Charges payable according to United States laws and usage and/or as per York-Antwerp Rules (as prescribed in whole or in part) if in accordance with the Contract of Affreightment.

CLAUSE 17. *Collision.* No claim shall be payable hereunder which arises from collision, contact with any fixed or floating object (other than a mine or torpedo), stranding, heavy weather or fire unless caused directly (and independently of the nature of the voyage or service which the vessel concerned or, in the case of a collision, any other vessel involved therein, is performing) by a hostile act by or against a belligerent power; and for the purpose of this paragraph "power" includes any authority maintaining naval, military or air forces in association with a power.

SPECIAL CLAUSES

CLAUSE 18. *Transit interrupted.* If the ordinary course of transit of the goods hereby insured is interrupted or terminated by the shipper, consignee, or Assured or any party acting on their behalf, this insurance shall forthwith terminate.

CLAUSE 19. *Closing report.* It is warranted that not later than the 25th day of each calendar month, the Assured will file with the Underwriting Agent closing reports in the manner and form required by such regulations as may be promulgated by the Maritime Administrator from time to time of all shipments coming within the scope of this policy.

(a) As to inward shipments as defined in section 308.512 of Maritime Administration General Order No. 75 such reports must include

(1) All shipments which have arrived at port of destination during the preceding calendar month, and

(2) All shipments with respect to which inability to so arrive by reason of loss frustration or other similar cause has come to the knowledge of the Assured during the preceding calendar month, and

(b) As to outward shipments as defined in section 308.512 of Maritime Administration General Order 75 which attached under the policy during the preceding calendar month.

And will pay premium thereon at the rate prescribed by the Maritime Administrator and in effect:

(1) On the date of the ocean bill of lading, or

(2) If an ocean bill of lading was not issued, on the date of the equivalent shipping document, or

(3) If no ocean bill of lading or equivalent shipping document was issued, or if such documents were undated, on the date the goods were laden on an overseas vessel.

CLAUSE 20. *Breach of policy.* It is understood and agreed that whenever any premium is not paid when due, or any closing report is not filed as prescribed by Clause 19 hereof, the effect is such that a breach of the policy terms and conditions has been made by the Assured, and the policy automatically ceases to insure any shipment which would otherwise have attached after the expiration of fifteen (15) days following the due date of the premium or closing report, unless within the said fifteen (15) day period, the premium is paid or the closing report as required by Clause 19 hereof is filed with the Underwriting Agent, and a reinstatement fee of Twenty-five ($25) Dollars is paid by check or United States Postal Money Order payable to the Order of the "Maritime Adm.–Commerce", together with the amount of premium due, if any.

CLAUSE 21. *Collateral.* It is warranted that the Assured will at all times maintain with the Maritime Administrator a Collateral Deposit Fund or that in lieu of such Collateral Deposit Fund a Surety Bond in the form prescribed by the Maritime Administrator will be filed with the Underwriting Agent and maintained in full force and effect for the purpose of securing payment of premium hereunder. In the event that the Assured inadvertently fails to maintain such a Collateral Deposit Fund or such a Surety Bond in an amount sufficient so that at all times such amount is in excess of the unpaid premium then or thereafter payable with respect to any or all risks which have attached under the terms of the policy, it shall be a condition of this insurance that unless the Assured shall within seven (7) days from the time such insufficiency comes to the knowledge of the Assured deposit additional collateral or increase the surety bond in an amount not less than double the amount of such insufficiency and for a sum which shall be in even multiples of $500, this policy shall be void at the end of such seven (7) day period except as to risks which shall have attached prior to such voidance of this policy.

Notwithstanding the foregoing, however, if the Maritime Administrator shall determine that the failure of the Assured to maintain a sufficient Collateral Fund or Surety Bond was wilful rather than inadvertent, said policy shall be void from the date said Collateral Fund or Surety Bond was first insufficient to secure the premiums on risks which would otherwise have attached hereunder.

CLAUSE 22. *Books and records.* The Assured warrants and agrees that it will regularly keep books, records and accounts in such manner and form that all information available to the Assured as to the amounts at risk and the amounts of losses incurred and premiums due can be readily ascertained therefrom by the Maritime Administrator. The Assured, as often as may be reasonably required, shall exhibit such books, records and accounts to any person designated by the Maritime Administrator, and submit to examinations under oath by any person named by the Maritime Administrator, and subscribe the same.

CLAUSE 23. *Unintentional error.* This insurance shall not be invalidated by any error, or omission in the filing of Closing Reports which is demonstrated to the satisfaction of the Maritime Administrator to have been inadvertent or unintentional, or by any failure to report which is demonstrated to the satisfaction of the Maritime Administrator to have arisen from causes beyond the control of the Assured. The Maritime Administrator, or his representative duly authorized in writing, may waive strict compliance with any warranty or condition of this insurance to the extent that he may determine that it imposes a hardship on any claimant in good faith hereunder which would not be imposed in connection with a policy issued in accordance with commercial practice in the marine insurance business, and to the extent that he may determine that such waiver is not contrary to the provisions of title XII of the Merchant Marine Act, 1936, as amended, Public Law 763—81st Congress, under which the Policy is issued. In any determination as aforesaid the decision of the Maritime Administrator, or his duly authorized representative, shall be conclusive upon all parties thereto.

CLAUSE 24. *Goods excluded.* This policy does not cover shipments of specie, currency, securities, valuable documents, jewelry, precious stones, gold and silver and other precious metals, nor any articles transported by means of ordinary mail or air-mail or registered mail or parcel post.

CLAUSE 25. *Special coverage.* No shipment of cargo coming within the scope of this policy shall attach hereunder subsequent to the sailing of the carrying vessel from the original port of loading with respect to such cargo. Notwithstanding the foregoing provision an Assured may specially declare to his Underwriting Agent any shipment excluded from coverage by the preceding sentence, in which event insurance shall attach hereunder, if vessel and interest insured is safe in port on date of such declaration, or shall attach upon the safe arrival of vessel and interest insured at first port thereafter, warranted no known or reported loss of or damage to said vessel and interest insured at time of attachment.

CLAUSE 26. *Partial loss.* In case of partial loss by perils insured against, the proportion of loss shall be determined by a separation of the damaged portion of the insured property from the sound and by an agreed estimate (by survey) of the percentage of damage of such portion; or if such agreement is not practicable, then by public sale of such damaged portion for the account of the owner of the property, and by comparison of the amount so realized with the applicable valuation limit provided in Clause 9.

CLAUSE 27. *Labels clause.* In case of damage affecting labels, capsules or wrappers, the Underwriter, if liable therefor under the terms of this policy, shall not be liable for more than an amount sufficient to pay the cost of new labels, capsules or wrappers, and the cost of reconditioning the goods, but in no event shall the Underwriter be liable for more than the insured value of the damaged merchandise.

CLAUSE 28. *Carrier clause.* Warranted that this insurance shall not insure, directly or indirectly, to the benefit of any carrier or bailee.

CLAUSE 29. *Notice of loss.* In the event of loss which may give rise to a claim under this policy, prompt notice must be given to the Underwriting Agent.

CLAUSE 30. *Rules and regulations.* This policy is subject to all rules and regulations pertaining hereto which may now or hereafter from time to time be published in the FEDERAL REGISTER.

CLAUSE 31. *Cancellation.* This policy may be canceled at any time upon 15 days written or telegraphic notice to or by the Assured or 15 days subsequent to the publication of a notice of cancellation in the FEDERAL REGISTER or at such other date as may be mutually agreed: Provided, however, that no such cancellation shall terminate this policy with respect to any shipments which have become a risk under the terms hereof prior to the effective date of such notice.

CLAUSE 32. *Amendments.* This policy may be amended by endorsement attached hereto and executed on behalf of the United States of America, represented by the Maritime Administrator, acting for the Secretary of Commerce, by a duly authorized Underwriting Agent pursuant to prior written or telegraphic instructions from the Maritime Administrator or by publication of an amendment to the Open Cargo Policy form in the FEDERAL REGISTER. In the latter event

such amendment shall become effective upon the date of the publication of the amendment in the FEDERAL REGISTER or upon such date as may be specified therein: *Provided, however,* That no amendment which is restrictive in effect upon an Assured shall become effective prior to 48 hours after the date of such publication and no such restrictive amendment shall affect any shipments which shall have attached hereunder prior to the effective date of such amendment. In the event that the Assured is unwilling to accept any amendment to this policy, he shall have the option of terminating this policy as of the effective date of such amendment upon written or telegraphic notice to the Maritime Administrator through the Underwriting Agent prior to such effective date.

In witness whereof, the Maritime Administrator, acting for the Secretary of Commerce, has signed this policy, but this policy shall not be valid unless countersigned by an authorized Underwriting Agent.

UNITED STATES OF AMERICA,
By: Maritime Administrator, Acting for the Secretary of Commerce.

Maritime Administrator

The Underwriting Agent does not, by countersigning and issuing this Policy or in any other manner, warrant its own authority, or the authority of the Maritime Administrator, acting for the Secretary of Commerce, to issue this policy, but acts solely under the power conveyed to the Underwriting Agent by an agreement made with the Maritime Administrator, acting for the Secretary of Commerce.

Countersigned this ____ day of _____ 195__.

Address of Underwriting Agent for receiving notices of loss _____

§ 308.518 *Standard optional endorsement No. 1, Form MA–300–A.* Standard Optional Endorsement No. 1 limits the amount payable for the loss of goods to the actual bona fide pecuniary loss to the Assured, exclusive of any allowance for anticipated or accrued profit arising out of the insured venture. An Assured may elect to have his Open Cargo Policy endorsed with Standard Optional Endorsement No. 1 applicable (a) on all shipments, or (b) on all outward shipments, or (c) on all inward shipments, or (d) on named commodities except goods sold by the Assured prior to loading on board the overseas vessel and shipped for the account and at the risk of third persons other than a branch subsidiary or affiliate of the Assured. When an Assured has elected to have Standard Optional Endorsement No. 1 made applicable to certain named commodities he may not change to a different basis of valuation for those commodities until after he has given ninety (90) days written notice to the Maritime Administrator through the Underwriting Agent of his election to make the change. Application for Standard Optional Endorsement No. 1 may be made to the Underwriting Agent who is authorized to issue the endorsement without prior approval of the Maritime Administrator. The following is the Standard Form of Optional Endorsement No. 1:

Form MA–300–A (7–54)

United States of America

Department of Commerce

Maritime Administration

Standard Optional Endorsement No. 1

This endorsement is attached to and made a part of War Risk Open Cargo Policy No. WROC ____, issued to: _____. The terms and conditions as set forth below shall supersede and nullify the clauses of the policy insofar as such clauses are inconsistent with the clauses set forth below:

CLAUSE A. *Limits on amount payable for loss.* Clause 9 of the Open Cargo Policy is hereby deleted and the following substituted therefor:

CLAUSE 9. *Limits on amount payable for loss*—(a) *Actual pecuniary loss.* In the event of loss, the Assured shall file a declaration (under the penalties of perjury) stating that the amount claimed does not exceed the actual bona fide pecuniary loss to the Assured, exclusive of any allowance for anticipated or accrued profits arising out of the insured venture. If claim is filed by the Assured named herein on behalf of any other person at interest, the declaration shall include a statement that the amount collectible does not exceed the amount which would have been collectible by the Assured named herein if at the time of the loss the Assured named herein had full interest in the insured goods. If this policy is issued to an agent for account of a principal named herein, both the agent and the named principal shall be required to sign the declaration provided for in this Clause.

(b) *Sales price less discounts.* If the lost or damaged goods were shipped by, to, or at the direction of the Assured and were sold by the Assured prior to loading on board the overseas vessel (1) on terms requiring the Assured to provide war risk insurance to the port of discharge, or (2) with respect to which written or cabled instructions to provide war risk insurance to the port of discharge have been received by the Assured from the purchaser prior to loading of the goods on board the overseas vessel, and which were shipped for the account and at the risk of third persons other than a branch, subsidiary or affiliate of the Assured, the named Assured shall file a declaration (under the penalties of perjury), in lieu of the declaration required by paragraph (a) of this clause, stating that the amount claimed does not exceed the actual bona fide sales price less all discounts, plus the costs of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost or damaged goods if such items are not included in the sales price. The claim shall be filed by the named Assured unless otherwise permitted in writing by the Maritime Administrator for good cause shown.

(c) *Criminal code.* The declarations required to be filed pursuant to this Clause shall be subject to the United States Criminal Code which makes it a criminal offense for any person knowingly to make a false statement or representation to, or to conceal a material fact from, any department or agency of the United States as to any matter within its jurisdiction (18 U. S. C. 1001), or to file a false, fictitious or fraudulent claim against the United States (18 U. S. C. 287).

CLAUSE B. *Effective date.* This endorsement shall be effective on all shipments made on or after _____:

(a) Under ocean bills of lading dated on or after said date, or

(b) If ocean bills of lading are not issued, under equivalent shipping documents dated on or after said date, or

(c) If no ocean bills of lading or equivalent shipping documents are issued, or if such documents are undated, laden on overseas vessel on or after said date.

§ 308.519 *Standard optional endorsement No. 2, Form MA–300–B.* Standard Optional Endorsement No. 2 amends the policy to cover shipments made to the Assured or shipped by the Assured as agent for the account and risk of a principal. Application for Standard Optional Endorsement No. 2 may be made to the underwriting agent, who is authorized to issue the endorsement without prior approval of the Maritime Administrator. The following is the Standard Form of Optional Endorsement No. 2:

Form MA–300–B (7–54)

United States of America

Department of Commerce

Maritime Administration

Standard Optional Endorsement No. 2

This endorsement is attached to and made a part of War Risk Open Cargo Policy No. WROC _____, issued to: _____. The terms and conditions as set forth below shall supersede and nullify the clauses of the policy insofar as such clauses are inconsistent with the clauses set forth below:

CLAUSE A. *Agent for principal.* This policy covers all shipments otherwise coming within the scope of this policy but shipped to or consigned to the Assured, or shipped by the Assured, and for the account and risk of _____ (herein called the "Principal"). The Assured warrants that he is a duly authorized agent of the Principal for the purposes of the insured transaction. The Assured warrants that closing reports as provided for by the terms of this policy and by the terms of General Order 75 of the Maritime Administration and supplements thereto will be filed by him with respect to all shipments insured hereunder, and subject to all the conditions and regulations of the Maritime Administrator relating to such reports. In the event of loss, any sums payable under the terms of this policy shall be paid to the order of the Principal. In the event of loss, the Assured acting as agent for the Principal shall file the declarations called for by the terms of this policy, but if the Principal is domiciled in the United States of America, or any possessions or territories thereof as defined in Maritime Administration General Order 75, or any amendments thereto, or maintains regular office or place of business therein, the Principal shall be required to file a similar declaration. In the event of loss the amount collectible hereunder shall not exceed the amount which would have been collectible by the Principal if he were named as the Assured hereunder.

CLAUSE B. *Effective date.* This endorsement shall be effective on all shipments made on or after _____:

(a) Under ocean bills of lading dated on or after said date, or

(b) If ocean bills of lading are not issued, under equivalent shipping documents dated on or after said date, or

(c) If no ocean bills of lading or equivalent shipping documents are issued, or if such documents are undated, laden on overseas vessel on or after said date.

§ 308.520 *Standard optional endorsement No. 3, Form MA–300–C.* Standard Optional Endorsement No. 3 amends the policy to include shipments of diamonds for industrial purposes, or rubies or sapphires, natural or synthetic, used for instruments or watch jewels imported to the Continental United States (excluding Alaska). Application for Standard Optional Endorsement No. 3 may be made to the Underwriting Agent who shall transmit it to the Maritime Administrator for approval or disapproval of the issuance of the endorsement. The following is the Standard Form of Optional Endorsement No. 3:

Form MA–300–C (7–54)

United States of America

Department of Commerce

Maritime Administration

Standard Optional Endorsement No. 3

This endorsement is attached to and made a part of War Risk Open Cargo Policy No. WROC ____, issued to: _____. The terms and conditions as set forth below shall supersede and nullify the clauses of the policy insofar as such clauses are inconsistent with the clauses set forth below:

CLAUSE A. *Precious stones.* Shipments of _____, to the Continental United States (excluding Alaska) are hereby covered, subject to all the terms and conditions of this policy not in conflict herewith. It is warranted by the Assured that the Underwriter shall not be liable for more than two hundred fifty thousand ($250,000) dollars in any event by loss or damage in respect to shipments by any one vessel under the terms of this endorsement. It is further warranted by the Assured that no shipments will attach hereunder until a qualified officer of the overseas vessel has receipted for the goods covered by this endorsement by acknowledging deposit of the same in the safe or strong room of the carrying vessel.

CLAUSE B. *Effective date.* This endorsement shall be effective on all shipments made on or after _____:

(a) Under ocean bills of lading dated on or after said date, or

(b) If ocean bills of lading are not issued, under equivalent shipping documents dated on or after said date, or

(c) If no ocean bills of lading or equivalent shipping documents are issued, or if such documents are undated, laden on overseas vessels on or after said date.

§ 308.521 *Application for open cargo policy, Form MA–301.* The following is the standard form of application for a War Risk Open Cargo Policy:

Form MA–301 (7–54)

United States of America

Department of Commerce

Maritime Administration

Application for War Risk Open Cargo Policy

Application is made for a War Risk Open Cargo Policy of insurance in the standard form prescribed in section 308.517 of General Order 75 of the Maritime Administration, pursuant to title XII, Merchant Marine Act, 1936, as amended, Public Law 763—81st Congress, and in accordance with all provisions of law and subject to all limitations thereof:

1. *Assured.* Assured to be: _____ (Name)

_____ (Number) _____ (Street) _____ (City) _____ (Zone)

_____ (County) _____ (State)

2. *Loss payable.* Loss, if any, to be payable in funds current in the United States of America to the order of the Assured.

3. *Goods insured.* Insurance to cover all shipments of lawful goods or merchandise consisting principally of _____ which come within one or more of the following categories, as required by section 1203 (b) of the Merchant Marine Act, 1936, as amended:

(a) Shipped or to be shipped on any American vessel, as defined in section 1201 (a) of the Act;

(b) Shipped or to be shipped on any foreign flag vessel owned by citizens of the United States;

(c) Owned by citizens or residents of the United States, its Territories or possessions;

(d) Imported to, or exported from, the United States, its Territories or possessions, under contracts of sale or purchase by the terms of which the risk of loss by war risks or the obligation to provide insurance against such risks is assumed by or falls upon a citizen or resident of the United States, its Territories or possessions;

(e) Sold or purchased by citizens or residents of the United States, its Territories or possessions, under contracts of sale or purchase by the terms of which the risk of loss by war risks or the obligation to provide insurance against such risks is assumed by or falls upon a citizen or resident of the United States, its Territories or possessions;

(f) Shipped between ports in the United States, or between ports in the United States and its Territories or possessions, or between ports in such Territories or possessions; and

(g) Shipped or to be shipped on any foreign flag vessel, whether or not owned by citizens of the United States, if such vessels are engaged in transportation of waterborne commerce of the United States or in such other transportation by water or such other services as may be deemed by the Maritime Administrator to be in the interest of the national defense or the national economy of the United States, when so engaged.

Applicant requests that Optional Endorsement No. 3 be attached to the policy. Yes ☐. No ☐. If "yes" is checked state the reasons for your request and designate the goods to be covered by the endorsement. (The endorsement will not be issued without the written approval of the Martime Administrator.)

---

4. *Insurable interest.* To cover all shipments as indicated below by a check made in the appropriate square:

(a) *By assured.* Shipped or consigned to or by, the Assured for his account and risk. Yes ☐. No ☐.

(b) *By others for assured.* Shipped or consigned to, or by, other persons for the account and at the risk of the Assured. Yes ☐. No ☐.

(c) *Sold prior to loading.* Shipped to, by, or at the direction of the Assured and sold by him prior to loading on board the overseas vessel (1) on terms requiring the Assured to provide war risk insurance to the port of discharge, or (2) with respect to which written or cabled instructions to provide war risk insurance to the port of discharge will be received by the Assured from the Purchaser prior to loading of the goods on board the overseas vessel. Yes ☐. No ☐.

(d) *Sold after attachment of risk.* Shipped to, by, or at the direction of the Assured and sold by the Assured subsequent to the attachment of risk under the policy on terms requiring the Assured to provide war risk insurance to the port of discharge, subject to the condition that in the event of loss the amount collectible shall not exceed the amount which would have been collectible by the Assured if the Assured at the time of loss had retained full interest in the insured goods. Yes ☐. No ☐.

(e) *Agent for principal.* Shipped to or consigned to the Assured, or shipped by the Assured as Agent for the Account and risk of _____ (Name)

_____ (Number) _____ (Street) _____ (City) _____ (Zone)

_____ (County) _____ (State) as Principal.

Applicant warrants that he is a duly authorized agent of the Principal for the purpose of the insured transaction, and that closing reports as provided for by Clause 19 of the policy and by the terms of General Order 75 of the Maritime Administration and amendments thereof will be filed by him with respect to all shipments insured under the policy. Applicant requests that Standard Optional Endorsement No. 2 be attached to the policy. Yes ☐. No ☐.

5. *Attachment.* To attach, as provided in Clause 13 of the standard form of policy, on all shipments made on or after _____ (which shall not be earlier than the date of the completion of the requirements for the issuance of the policy):

(a) Under ocean bills of lading dated on or after said date, or

(b) If ocean bills of lading are not issued, under equivalent shipping documents dated on or after said date, or

(c) If no ocean bills of lading or equivalent shipping documents are issued, or if such documents are undated, laden on overseas vessel on or after said date.

6. *Conveyance.* By overseas vessels and connection conveyances.

7. *Voyages covered.* At and from _____ to _____

8. *Valuation.* Goods insured under the policy shall be valued at _____. Applicant requests that Standard Optional Endorsement No. 1 be attached to the policy. Yes ☐. No ☐.

9. *Rates of premium.* The rates of premium shall be determined by the Maritime Administrator.

10. *Security for payment of premium.* This application is accompanied by (strike out inapplicable provisions):

(a) Letter of transmittal for a Collateral Deposit Fund with check or United States Government Bonds for $_____.

(b) Surety Bond A, executed by the applicant as principal and _____ (surety company) as surety for $_____.

Dated: _____, 195__

(Applicant)

By: _____

(Title)

This application must be accompanied by either (a) letter of transmittal for a Collateral Deposit Fund with accompanying check, or United States Government Bonds, or (b) Surety. Bond A executed by the Assured as Principal and by the Surety, complying in either case with all applicable provisions of Maritime Administration General Order 75, and supplements thereto.

§ 308.522 *Collateral deposit fund, letter of transmittal, Form MA–302.* The following is the standard form of letter of transmittal for use in establishing a collateral deposit fund:

Form MA–302 (7–54)

§ 308.528 *Surety bond A, Form MA–308.* The following is the Standard Form of Surety Bond A to be used by an Assured who elects to post a surety bond as security for payment of the premiums pursuant to Clause 21 of the policy:

Form MA–308 (7–54)

Surety Bond A

War Risk Open Cargo Policy No. WROC ----

Know all men by these presents, That we ---------- of ----------, as Principal, and ---------- of ----------, as Surety, are held and firmly bound unto the United States of America in the sum of ------ Dollars ($------), to the payment of which we hereby jointly and severally bind ourselves, our heirs, executors, administrators, successors and assigns.

The condition of this obligation is such that whereas ----------, Principal, under application dated ---------- has applied for the issuance of a War Risk Open Cargo Policy by the Maritime Administrator acting for the Secretary of Commerce of the United States of America, and

Whereas, the Maritime Administrator has agreed to accept this bond as a guarantee of the payment of all premiums due and payable under the terms and conditions of the Open Cargo Policy when issued, or endorsements thereto or modifications thereof, whether or not consented to by the Surety.

Now, therefore, if the Principal shall well and truly pay unto the Maritime Administrator acting for the Secretary of Commerce of the United States of America the premiums due under the Policy at the times and in the manner provided therefor in the Policy, then this obligation is to be void; otherwise to remain in full force and effect;

This bond is executed by the Surety, upon the following conditions:

1. If the Principal shall fail to file with the Underwriting Agent of the Maritime Administrator on or before the 25th day of each month during which this bond is in effect, a certified closing report as required by the policy showing the values of all shipments covered under the policy during the preceding calendar month and concurrently therewith pay to the Underwriting Agent the premiums called for by the closing report, then the Underwriting Agent shall so notify the Surety as soon as practicable and, in such event the Surety shall not be liable for any premiums accruing on risks attaching under the Policy subsequent to the date of such notice.

2. This bond may be terminated by either the Principal or the Surety at any time upon fifteen (15) days written or telegraphic notice to the Maritime Administrator, Washington 25, D. C., but such termination shall not affect the liability of the Principal and the Surety hereunder for premiums on risks attaching under the Policy on or prior to expiration of said fifteen (15) days period.

In witness whereof, the above-bounden parties have executed this instrument under their several seals this ---- day of ----------, 195--, the name and corporate seal of each corporate party being hereto affixed and these presents duly signed by its undersigned representative, pursuant to authority of its governing body.

(He) (she) is the Assured named in the Open Cargo Policy No. WROC ---- and is familiar with all matters pertaining thereto.

1. That on the ____ day of ---------- 195--, the Assured first had knowledge that the amount of collateral deposited pursuant to the terms of said policy was exceeded by the amount of premium due thereunder; that the amount of collateral deposited pursuant to the terms of said policy on that date was $------; that at the date when the collateral became exceeded by the amount of unpaid premium the collateral was for an amount of $------, and the unpaid premium amounted to $------.

2. That under the following circumstances the Assured became aware for the first time that said collateral was insufficient (explain in detail the manner in which the collateral became exceeded): ----------

3. That to the best of the Assured's information and belief the following shipments were made after the date when the collateral first became exceeded and the Assured honestly and in good faith intended said shipments to be covered under the War Risk Open Cargo Policy No. ----------

4. This declaration is furnished by the Assured in order to comply with the provisions of Clause 21 of War Risk Open Cargo Policy and is made by the Undersigned and is furnished by the Assured with full knowledge that the Maritime Administrator will rely on the statements contained therein and is submitted for the purpose of inducing the Maritime Administrator to rely thereon.

Date: ----------

NOTE: The United States Criminal Code makes it a criminal offense for any person knowingly to make a false statement or representation to, or to conceal a material fact from, any department or agency of the United States as to any matter within its jurisdiction (18 U. S. C. 1001), or to file a false, fictitious or fraudulent claim against the United States (18 U. S. C. 287).

§ 308.537 *Effective date of endorsement.* Every endorsement to an Open Cargo Policy shall be made effective upon a future date to be specified in the endorsement. No endorsement may be made retroactive, unless specially authorized by the Maritime Administrator in writing. Each endorsement shall contain a provision in substantially the following form:

Effective date. This endorsement shall be effective on all shipments made on or after ----------:

(a) Under ocean bills of lading dated on or after said date, or

(b) If ocean bills of lading are not issued, under equivalent shipping documents dated on or after said date, or

(c) If no ocean bills of lading or equivalent shipping documents are issued, or if such documents are undated, laden on overseas vessel on or after said date.

*Strike out inapplicable part.

III—FACULTATIVE WAR RISK CARGO INSURANCE

§ 308.538 *General.* The Maritime Administrator is prepared to provide facultative war risk insurance policies covering any cargoes described in § 308.501 which are designated by an applicant prior to the attachment of risks, if the applicant does not have an Open Cargo Policy issued by the Maritime Administrator, or if he has a shipment which is not covered by his Open Cargo Policy. However, a person with regular shipments is urged to avail himself of the advantages of the automatic coverage of an Open Cargo Policy. The Maritime Administrator reserves the right to decline to quote rates or bind insurance on shipments of cargo that could be covered by an Open Cargo Policy unless the applicant can show to the satisfaction of the Maritime Administrator that the risk is not one of a series of similar risks forming part of a continual flow of business for the applicant. The policy will be in the standard form of War Risk Facultative Cargo Policy, Form MA–316, prescribed in § 308.545. All policies will be issued by Underwriting Agents appointed by the Maritime Administrator. All Underwriting Agents will be domestic insurance companies authorized to do a marine insurance business in a State of the United States.

§ 308.539 *Application for a facultative cargo policy*—(a) *Preliminary request.* Application for a Facultative Cargo Policy shall be made by filing a preliminary request in writing (including telegram) with an Underwriting Agent of the Maritime Administration, setting forth the following information:

(1) The name and address of the applicant;

(2) The amount of insurance requested;

(3) The commodity and quantity to be insured;

(4) The voyage to be covered;

(5) The name of the vessel upon which the cargo will be shipped, if known, the name of the steamship line, if known, and the date of shipment, if the applicant is submitting the request to bind war risk in writing; for security reasons, if the applicant is submitting the order to bind war risk insurance by telegram, neither the name of the vessel nor the name of the steamship line nor the anticipated date of sailing, should be mentioned. Mentioning such information in a telegram may result in a denial of insurance to the applicant. Any envelope transmitting a letter containing such information should be marked "confidential."

(b) *Binder.* Before the insurance can be bound, the applicant must provide the Underwriting Agent with a properly prepared binder on Form MA–315 prescribed in § 308.544. The binder must be submitted in duplicate, accompanied by check or Money Order payable to the order of the "Maritime Adm.–Commerce" for the full amount of the premium computed on the amount to be insured at the rate set by the Maritime Administrator. Any application for facultative cargo war risk insurance received by an Underwriting Agent later than 4 p. m. (Local War Time) shall be considered the next day's business.

(c) *Optional loss limits clause.* Clause 9 of the standard form of facultative cargo policy, Form MA–316, prescribed in § 308.545, limits the amount payable for loss to (1) the fair market value at the place and approximate time of the attachment of risk, plus the cost of marine insurance, transportation and expenses incident thereto, and war risk insurance with respect to the lost or damaged goods, or (2) if it is impossible to determine the fair market value at place and time of attachment of risk, the fair market value at the designated port of arrival on the date of the attachment of the risk, plus the cost of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost or damaged goods, or (3) if the goods had been purchased prior to loading, the actual amount paid or payable to the seller for the goods less all discounts, plus the cost of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost or damaged goods. In lieu of these loss limits, the Assured by so specifying in his application, and the binder may have attached to the policy when issued Standard Optional Endorsement No. 1–A, Form 316, prescribed in § 308.546, which limits the amount payable for loss to the actual bona fide pecuniary loss to the Assured, exclusive of any allowance for anticipated or accrued profits arising out of the insured venture.

§ 308.540 *Premiums*—(a) *Rates.* Rate Schedules for war risk facultative cargo insurance will be published by the Maritime Administrator from time to time, and may be obtained from an Underwriting Agent. All Rate Schedules are subject to change by the Maritime Administrator without notice. If no rate is published for a voyage on which war risk facultative cargo insurance is available, the Maritime Administrator will name a rate through an Underwriting Agent upon application. Whenever an applicant for war risk facultative cargo insurance receives a definite rate quotation and desires to bind insurance at the quoted rate, an order to bind the insurance in accordance with the procedure set forth in this subpart should be submitted within two business days following the day of quotation accompanied by check or Money Order payable to the order of "Maritime Adm.—Commerce" for the full amount of the premium thereon computed on the amount to be insured at the rate set by the Maritime Administrator, or the quotation will expire. Each cargo war risk insurance policy provided by the Maritime Administrator will be subject to a minimum premium of $----------.

(b) *Return premium.* Where goods are short-shipped the amount of insurance may be reduced by an amount computed by applying to the original amount of insurance the proportion which the quantity of merchandise short-shipped (i. e., bales, barrels, tons, and other designations of quantity) bears to the total quantity of merchandise originally

declared for insurance. Where more than one class of merchandise is insured under one policy (e. g., fuel, oil and gasoline) the reduced amount of insurance must be computed separately on each item. Where the amount of insurance is reduced, the Maritime Administrator will give consideration to requests for proportionate returns of premium. An application for the return of a premium must be submitted to the Underwriting Agent in quadruplicate on Form MA–317, prescribed in § 308.547.

§ 308.541 *Issuance of a facultative policy*—(a) *Binder.* The Underwriting Agent is authorized to issue a facultative policy in Form MA–316, prescribed in § 308.545, when there has been presented to him a properly prepared binder on Form MA–315, prescribed in § 308.544, together with the payment of the premium as required, and such policy shall be issued as soon as possible after the binder form has been presented to the Underwriting Agent. Prior to the issuance of the policy, the Underwriting Agent is authorized to accept the risk on behalf of the Maritime Administrator by signing the binder. The Maritime Administrator will provide each Underwriting Agent with a supply of facultative policies which shall not be valid until countersigned by the Underwriting Agent. The Underwriting Agent shall keep a permanent record of all such policies and the Assured to whom the policy is issued.

(b) *Numbering.* Each Facultative Cargo Policy supplied to the Underwriting Agent by the Maritime Administrator shall be numbered by the Maritime Administration before it is supplied to the Underwriting Agent. No two numbers shall be the same. The Underwriting Agent when issuing the policy shall add at the end of the Policy number the agency number assigned to that Underwriting Agent, and where policies are issued by more than one office of an Underwriting Agent the issuing office shall also be identified in the policy number. For example, the policies issued by an office in New York will be designated "NY" and policies issued in San Francisco will be designated by "SF" prefixed to the Underwriting Agent's agency number.

§ 308.542 *Warranty re thirty-day shipments.* If, after an effective binding of war risk insurance on a shipment of cargo, the assured believes that it will be impossible to comply with the warranty requiring the goods to be shipped and in transit within thirty days from the effective date of binding, such an assured may apply to the Maritime Administrator, through the Underwriting Agent, to modify the warranty. If the Maritime Administrator is satisfied that an extension of time within which the goods are warranted to be shipped and in transit should be granted, he will do so, but additional premium may be charged in the discretion of the Maritime Administrator.

§ 308.543 *Cancellation.* Facultative war risk insurance is not subject to cancellation by the Assured unless the goods are not shipped within thirty days following the effective date of binding, and then only if the policy is returned for cancellation.

§ 308.544 *Facultative binder, Form MA–315.* The following is the standard form of War Risk Facultative Cargo Binder, which must be filled in by the applicant and submitted, in duplicate, to an Underwriting Agent before the insurance can be bound:

Form MA–315 (7–54)

In consideration of a premium as above, the United States of America, represented by the Maritime Administrator, acting for the Secretary of Commerce, insures, in accordance with applicable provisions of law, and the terms and provisions of the standard form of War Risk Facultative Cargo Policy, Form MA–316, prescribed in section 308.545 of Maritime Administration General Order 75, published in the FEDERAL REGISTER on ----------, 195--, (-- F. R. --): ----------
(Assured)

Upon lawful goods or merchandise consisting of ---------- which come within one or more of the following categories, as required by section 1203 (b) of the Merchant Marine Act, 1936, as amended, Public Law 763—81st Congress (herein called the "Act"):

(a) Shipped or to be shipped on any American vessel as defined in section 1201 (a) of the act;

(b) Shipped or to be shipped on any foreign flag vessel owned by citizens of the United States;

(c) Owned by citizens or residents of the United States, its Territories or possessions;

(d) Imported to, or exported from the United States, its Territories or possessions, under contracts of sale or purchase by the terms of which the risk of loss by war risks or the obligation to provide insurance against such risks is assumed by or falls upon a citizen or resident of the United States, its Territories or possessions;

(e) Sold or purchased by citizens or residents of the United States, its Territories or possessions, under contracts of sale or purchase by the terms of which the risk of loss by war risks or the obligation to provide insurance against such risks is assumed by or falls upon a citizen or resident of the United States, its Territories or possessions;

(f) Shipped between ports in the United States, or between ports in the United States and its Territories or possessions, or between ports in such Territories or possessions; and

(g) Shipped or to be shipped on any foreign flag vessels, whether or not owned by citizens of the United States, if such vessels are engaged in transportation of water-borne commerce of the United States or in such other transportation by water or such other services as may be deemed by the Maritime Administrator to be in the interest of the National defense or the national economy of the United States, when so engaged;

In the sum of ------ Dollars. Per the vessel called the ----
(If vessel not known, specify steamship line, if known)
---------- Voyage from ---------- to port of ----------. Warranted goods shipped and in transit on or before thirty (30) days from effective date of the binding of this risk.

Standard Optional Endorsement No. 1–A (is) (is not) desired.

Any loss payable hereunder shall be payable in funds current in the United States to the order of the Assured upon surrender of this Binder and Policy (if issued) thirty (30) days after full proofs of loss and proofs of interest have been filed with the Underwriting Agent of the Maritime Administrator, acting for the Secretary of Commerce, by whom this binder was issued.

It is (known) (anticipated) that the goods described herein (have been) (will be) shipped from ---------- on ----------.
(For Marks, Numbers, other Identification and Special Conditions.)

(Assured)

By: ----------

Receipt of $---------- covering insurance premium under above binder is hereby acknowledged:

Accepted on behalf of the Maritime Administrator, acting for the Secretary of Commerce of the United States of America.

(Underwriting Agent)

By: ----------

Underwriting Agent's Agency Number ----

The Underwriting Agent does not, by signing this binder or in any other manner, warrant its own authority, or the authority of the Maritime Administrator, acting for the Secretary of Commerce, to issue this binder, but acts solely under the power conveyed to the Underwriting Agent by an agreement made with the Maritime Administrator, acting for the Secretary of Commerce.

NOTE: Binder forms must be printed, typewritten, or mimeographed and submitted in duplicate to the Underwriting Agent, who will retain one copy.

§ 308.545 *Facultative cargo policy, Form MA–316.* The following is the standard form of War Risk Facultative Cargo Policy:

Form MA–316 (7–54)

United States of America

Department of Commerce

Maritime Administration

War Risk Facultative Cargo Policy No. WRFC ----

Amount insured $-------. Date -------.
Rate ------%.
Premium $-------.

CLAUSE 1. *Assured.* The United States of America, represented by the Maritime Administrator, acting for the Secretary of Commerce (herein called the "Underwriter"), in consideration of the premiums as shown above, and in accordance with applicable provisions of law and subject to all limitations thereof, particularly title XII, Merchant Marine Act, 1936, as amended, Public Law 763—81st Congress (herein called the "Act"), hereby insures ---------- (herein called the "Assured") against WAR RISKS ONLY, in accordance with the terms and conditions hereinafter set forth. This policy is issued on behalf of the Underwriter by ---------- (herein called the "Underwriting Agent").

CLAUSE 2. *Loss payable.* Loss, if any, payable, in funds current in the United States of America, to the order of the Assured upon surrender of this Policy, thirty days after satisfactory proofs of loss and proofs of interest have been filed with the Underwriting Agent.

CLAUSE 3. *Goods insured.* To attach, as provided in Clauses 5 and 13, upon lawful goods or merchandise consisting of ---------- which come within one or more of the following categories, as required by section 1203 (b) of the Act:

(a) Shipped or to be shipped on any American vessel, as defined in section 1201 (a) of the Act;

(b) Shipped or to be shipped on any foreign flag vessel owned by citizens of the United States;

(c) Owned by citizens or residents of the United States, its Territories or possessions;

(d) Imported to, or exported from, the United States, its Territories or possessions, under contracts of sale or purchase by the terms of which the risk of loss by war risks or the obligation to provide insurance against such risks is assumed by or falls upon a citizen or resident of the United States, its Territories or possessions;

(e) Sold or purchased by citizens or residents of the United States, its Territories or possessions, under contracts of sale or purchase by the terms of which the risk of loss by war risks or the obligation to provide insurance against such risks is assumed by or falls upon a citizen or resident of the United States, its Territories or possessions;

(f) Shipped between ports in the United States, or between ports in the United States and its Territories or possessions, or between ports in such Territories or possessions; and

(g) Shipped or to be shipped on any foreign flag vessels, whether or not owned by citizens of the United States, if such vessels are engaged in transportation of waterborne commerce of the United States or in such other transportation by water or such other services as may be deemed by the Maritime Administrator to be in the interest of the national defense or the national economy of the United States, when so engaged.

CLAUSE 4. *Insurable interest.* To cover shipments:

(a) *By assured.* Shipped or consigned to, or by, the Assured for his account and risk;

(b) *By others for Assured.* Shipped or consigned to, or by, other persons for the account and at the risk of the Assured;

(c) *Sold prior to loading.* Shipped to, by, or at the direction of the Assured and sold by him prior to loading on board the overseas vessel (1) on terms requiring the Assured to provide war risk insurance to the port of discharge, or (2) with respect to which written or cabled instructions to provide war risk insurance to the port of discharge have been received by the Assured from the purchaser prior to loading of the goods on board the overseas vessel;

(d) *Sold after attachment of risk.* Shipped to, by, or at the direction of the Assured and sold by the Assured subsequent to the attachment of risk hereunder on terms requiring the Assured to provide war risk insurance to the port of discharge, subject to the condition that in the event of loss the amount collectible shall not exceed the amount which would have been collectible by the Assured if the Assured at the time of loss had retained full interest in the insured goods.

CLAUSE 5. *Attachment.* To attach, as provided in Clause 13, on shipments made on or before ----------, and warranted that goods will be shipped and in transit on or before said date. Warranted that the goods insured hereunder have not become waterborne on overseas vessel prior to the date of this insurance, or if waterborne are in good safety in port at day and hour of attachment of risk. Any shipment of cargo excluded from coverage by application of this warranty will automatically attach hereunder as of the time of the arrival of the vessel and interest insured at the next intermediate port in good safety.

CLAUSE 6. *Conveyance.* By overseas vessels and connecting conveyances.

CLAUSE 7. *Voyage covered.* At and from ---------- to ----------.

CLAUSE 8. *Valuation.* Goods insured hereunder shall be valued at ----------.

CLAUSE 9. *Limits on amount payable for loss*—(a) *Fair market value at commencement of risk.* In the event of loss, the Assured shall file a declaration (under the penalties of perjury) stating that the amount claimed does not exceed the fair market value of the lost or damaged goods at the place and approximate time of the attachment of risk, plus the cost of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost or damaged goods.

(b) *Fair market value at port of arrival.* If it is impossible to determine the fair market value at the place and approximate time of the attachment of risk, as provided in paragraph (a) of this clause, the Assured shall file a declaration (under the penalties of perjury) stating that the amount claimed does not exceed the fair market value at the designated port of arrival on the date of the attachment of risk, plus the costs of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost or damaged goods.

(c) *Purchase price less discount.* If the lost or damaged goods were purchased by the named Assured prior to loading on board the overseas vessel, the Assured shall file a declaration (under the penalties of perjury), in lieu of the declarations provided for in paragraphs (a) and (b) of this clause, stating that the amount claimed does not exceed the actual amount paid or payable to the seller for the goods less all discounts, and plus the costs of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost or damaged goods. If the lost or damaged goods were purchased by a principal for whom the Assured is Agent, the declaration provided for in this paragraph shall be signed by both the agent and the principal.

(d) *Sales price less discounts.* If the lost or damaged goods were shipped by, to, or at the direction of the Assured and were sold by the Assured prior to loading on board the overseas vessel (1) on terms requiring the Assured to provide war risk insurance to the port of discharge, or (2) with respect to which written or cabled instructions to provide war risk insurance to the port of discharge have been received by the Assured from the purchaser prior to loading of the goods on board the overseas vessel, and which were shipped for the account and at the risk of third persons other than a branch, subsidiary or affiliate of the Assured, the named Assured shall file a declaration (under the penalties of perjury) in lieu of the declaration required by paragraphs (a), (b) or (c) of this clause, stating that the amount claimed does not exceed the actual bona fide sales price less all discounts, plus the costs of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost or damaged goods if such items are not included in the sales price. The claim shall be filed by the named Assured unless otherwise permitted in writing by the Maritime Administrator for good cause shown.

(e) *Criminal Code.* The declaration required to be filed pursuant to this clause shall be subject to the United States Criminal Code which makes it a criminal offense for any person knowingly to make a false statement or representation to, or to conceal a material fact from, any department or agency of the United States as to any matter within its jurisdiction (18 U. S. C. 1001), or to file a false, fictitious or fraudulent claim against the United States (18 U. S. C. 287).

AMERICAN INSTITUTE WAR CLAUSES

CLAUSE 10. *War risks only.* This insurance is only against the risks of capture, seizure, destruction or damage by men-of-war, piracy, takings at sea, arrests, restraints, detainments and other war-like operations and acts of kings, princes and peoples in prosecution of hostilities or in the application of sanctions under international agreements, whether before or after declaration of war and whether by a belligerent or otherwise, including factions engaged in civil war, revolution, rebellion or insurrection, or civil strife arising therefrom, and including the risks of aerial bombardment, floating or stationary mines and stray or derelict torpedoes and weapons of war employing atomic fission or radioactive force, but excluding claims for delay, deterioration and/or loss of market, and warranted not to abandon (on any ground other than physical damage to ship or cargo) until after condemnation of the property insured.

CLAUSE 11. *Arrests, restraints.* Warranted free from any claim based upon loss of, or frustration of, the insured voyage or adventure caused by arrests, restraints or detainments.

CLAUSE 12. *Commandeering.* This insurance does not cover any loss or damage caused by or resulting from any of the following causes:

(a) Commandeering, preemption, requisition or nationalization by government (de facto or otherwise) of the country to or from which the goods are insured.

(b) Seizure or destruction under quarantine or customs regulations.

CLAUSE 13. *Period covered.* (a) The insurance against the risks enumerated in Clause 10, except the risks of floating or stationary mines and stray or derelict torpedoes, floating or submerged, referred to in Clause 13 (b) below, shall not attach to the interest hereby insured or to any part thereof—

(1) Prior to being on board an overseas Vessel (for the purpose of this Clause 13 an overseas Vessel shall be deemed to mean a Vessel carrying the interest from one port or place to another where such voyage involves a sea passage by that Vessel);

(2) After being discharged overside from an overseas vessel at the final port of discharge,

or

after the expiry of fifteen (15) days counting from midnight of the day of arrival of the overseas vessel at the final port of discharge whichever shall first occur;

(3) After expiry of fifteen (15) days from midnight of the day of arrival of the overseas vessel at an intermediate port or place to discharge the interest for on-carriage from that or any other port or place by another overseas vessel, but shall re-attach as the interest is loaded on the on-carrying overseas vessel. During the said period of fifteen (15) days the insurance remains in force whether the interest is awaiting transit or in transit between the overseas vessels.

(b) The insurance against the risks of floating or stationary mines and stray or derelict torpedoes, floating or submerged, attaches as the interest hereby insured is first loaded on lighter, craft or vessel after leaving the warehouse at point of shipment in transit for the destination declared hereunder, and ceases to attach as the interest is finally landed from the vessel, craft or lighter prior to delivery to warehouse at such destination.

If the contract of affreightment is terminated at a port or place other than the destination named therein such port or place shall be deemed the final port of discharge for the purpose of this Clause.

It is a condition of this insurance that the Assured shall act with reasonable dispatch in all circumstances within their control.

If anything contained in this policy shall be inconsistent with this Clause 13 it shall to the extent of such inconsistency be null and void.

CLAUSE 14. *Deviation.* This insurance shall not be vitiated by deviation, overcarriage, change of voyage, or by any error or unintentional omission in the description

of interest, vessel or voyage, provided the same be communicated to the Underwriting Agent as soon as known to the Assured and an additional premium paid if required.

CLAUSE 15. *Sue and labor.* In case of any loss or misfortune, it shall be lawful and necessary to and for the Assured, his or their factors, servants and assigns, to sue, labor and travel for, in and about the defense, safeguard and recovery of the said goods and merchandise, or any part thereof, without prejudice to this insurance; nor shall the acts of the Assured or the Underwriter, in recovering, saving and preserving the property insured, in case of disaster, be considered a waiver or an acceptance of abandonment; and to the charges whereof, the Underwriter will contribute according to the rate and quantity of the sum hereby insured.

CLAUSE 16. *General average.* General Average and Salvage Charges payable according to United States laws and usage and/or as per Foreign Statement and/or as per York-Antwerp Rules (as prescribed in whole or in part) if in accordance with the Contract of Affreightment.

CLAUSE 17. *Collision.* No claim shall be payable hereunder which arises from collision, contact with any fixed or floating object (other than a mine or torpedo), stranding, heavy weather or fire unless caused directly (and independently of the nature of the voyage or service which the vessel concerned or, in the case of a collision, any other vessel involved therein, is performing) by a hostile act by or against a belligerent power; and for the purpose of this paragraph "power" includes any authority maintaining naval, military or air forces in association with a power.

SPECIAL CLAUSES

CLAUSE 18. *Transit interrupted.* If the ordinary course of transit of the goods hereby insured is interrupted or terminated by the shipper, consignees, or Assured or any party acting on their behalf, this insurance shall forthwith terminate unless otherwise specially agreed by the Maritime Administrator.

CLAUSE 19. *Unintentional error.* This insurance shall not be invalidated by any error, or omission which is demonstrated to the satisfaction of the Maritime Administrator to have been inadvertent or unintentional. The Maritime Administrator or his representative duly authorized in writing, may waive strict compliance with any warranty or condition of this insurance to the extent that he may determine that it imposes a hardship on any claimant in good faith hereunder which would not be imposed in connection with a policy issued in accordance with commercial practice in the marine insurance business, and to the extent that he may determine that such waiver is not contrary to the provisions of title XII of the Merchant Marine Act, 1936, as amended, Public Law 763—81st Congress, under which the Policy is issued. In any determination as aforesaid the decision of the Maritime Administrator, or his duly authorized representative, shall be conclusive upon all parties thereto.

CLAUSE 20. *Goods excluded.* This policy does not cover shipments of specie, currency, securities, valuable documents, jewelry, precious stones, gold and silver and other precious metals, nor any articles transported by means of ordinary mail or air-mail or registered mail or parcel post.

CLAUSE 21. *Return premium.* No premium will in any case be returned to the Assured except in the event of an error made in the application of a rate or in the computation of a premium, or except in the event the insured goods are not shipped or are short-shipped; notwithstanding the foregoing, whenever goods have been over-insured by reason of an error or otherwise, and such fact is discovered and the material facts and circumstances are presented immediately after discovery of the over-insurance and prior to the time when the overseas vessel reaches the destination port in safety, to the Underwriting Agent, then the Maritime Administrator will give consideration to an application for a return premium and if in his sole discretion the Maritime Administrator is satisfied that the Assured acted in good faith and that the instance is one in which in commercial practice a return premium would be made the Maritime Administrator will grant the appropriate return premium.

CLAUSE 22. *Partial loss.* In case of partial loss by perils insured against, the proportion of loss shall be determined by a separation of the damaged portion of the insured property from the sound and by an agreed estimate (by survey) of the percentage of damage of such portion: or if such agreement is not practicable, then by public sale of such damaged portion for the account of the owner of the property, and by comparison of the amount so realized with the applicable valuation limit provided in Clause 9.

CLAUSE 23. *Labels clause.* In case of damage affecting labels, capsules or wrappers, the Underwriter, if liable therefor under the terms of this policy, shall not be liable for more than an amount sufficient to pay the cost of new labels, capsules or wrappers, and the cost of reconditioning the goods, but in no event shall the Underwriter be liable for more than the insured value of the damaged merchandise.

CLAUSE 24. *Carrier clause.* Warranted that this insurance shall not inure, directly or indirectly, to the benefit of any carrier or bailee.

CLAUSE 25. *Notice of loss.* In the event of loss which may give rise to a claim under the policy, prompt notice must be given to the Underwriting Agent.

CLAUSE 26. *Rules and regulations.* This policy is subject to all rules and regulations pertaining hereto which may now or hereafter from time to time be published in the FEDERAL REGISTER.

CLAUSE 27. *Cancellation.* This policy may not be cancelled by the Assured unless the goods are not shipped within thirty (30) days following the effective date of binding and then only if the policy is returned to the Underwriting Agent for cancellation.

CLAUSE 28. *Amendments.* This policy may be amended by the binder or by endorsement attached hereto and executed on behalf of the United States of America, represented by the Maritime Administrator, acting for the Secretary of Commerce, by a duly authorized Underwriting Agent pursuant to prior written or telegraphic instructions from the Maritime Administrator.

In witness whereof, the Maritime Administrator, acting for the Secretary of Commerce, has signed this policy, but this policy shall not be valid unless countersigned by an authorized Underwriting Agent.

§ 308.546 *Standard optional endorsement No. 1–A, Form MA–316–A.* Standard Optional Endorsement No. 1–A limits the amount payable for the loss of goods to the actual bona fide pecuniary loss to the Assured, exclusive of any allowance for anticipated or accrued profit arising out of the insured venture. (Similar provisions for Open Cargo Policies are contained in Standard Optional Endorsement No. 1, Form MA–300–A, prescribed in § 308.518.) Application for Standard Optional Endorsement No. 1–A must be made to the Underwriting Agent at the time application is made for the policy. The Underwriting Agent is authorized to issue the endorsement without prior approval of the Maritime Administrator. The following is the Standard Form of Optional Endorsement No. 1–A:

Form MA–316–A (7–54)

Department of Commerce

Maritime Administration

Standard Optional Endorsement No. 1–A

This endorsement is attached to and made a part of War Risk Facultative Cargo Policy No. WRFC ____, issued to _____. The terms and conditions as set forth below shall supersede and nullify the clauses of the policy insofar as such clauses are inconsistent with the clauses set forth below:

CLAUSE A. *Limits on amount payable for loss.* Clause 9 of the Facultative Cargo Policy is hereby deleted and the following substituted therefor:

CLAUSE 9. *Limits on amount payable for loss*—(a) *Actual pecuniary loss.* In the event of loss, the Assured shall file a declaration (under the penalties of perjury) stating that the amount claimed does not exceed the actual bona fide pecuniary loss to the Assured, exclusive of any allowance for anticipated or accrued profit arising out of the insured venture. If claim is filed by the Assured named herein on behalf of any other person at interest, the declaration shall include a statement that the amount collectible does not exceed the amount which would have been collectible by the Assured named herein if at the time of the loss the Assured named herein had full interest in the insured goods. If this policy is issued to an agent for account of a principal named herein, both the agent and the named principal shall be required to sign the declaration.

(b) *Sales price less discount.* In the event of the loss of goods shipped by, to, or at the direction of the Assured and which were sold by the Assured prior to loading on board the overseas vessel (1) on terms requiring the Assured to provide war risk insurance to the port of discharge, or (2) with respect to which written or cabled instructions to provide war risk insurance to the port of discharge have been received by the Assured from the purchaser prior to loading of the goods on board the overseas vessel, and which were shipped for the account and at the risk of third persons other than a branch, subsidiary or affiliate of the Assured, the named Assured shall file a declaration (under the penalties of perjury), in lieu of the declaration, required by paragraph (a) of this Clause, stating that the amount claimed does not exceed the actual bona fide sales price less all discounts, plus the costs of marine insurance, transportation and expenses incidental thereto, and war risk insurance with respect to the lost goods if such items are not included in the sales price. The claim shall be filed by the named Assured unless otherwise permitted in writing by the Maritime Administrator for good cause shown.

(c) *Criminal code.* The declarations required to be filed pursuant to this Clause shall be subject to the United States Criminal Code which makes it a criminal offense for any person knowingly to make a false statement or representation to, or to conceal a material fact from, any department or agency of the United States as to any matter within its jurisdiction (18 U. S. C. 1001), or to file a false, fictitious or fraudulent claim against the United States (18 U. S. C. 287).

§ 308.547 *Application for return premium, Form MA–317.* An application for the return of premium must be filed in duplicate with the Underwriting Agent in the following form:

IV—GENERAL

§ 308.548 *Standard form of underwriting agency agreement for cargo; Form MA–318.* The following is the standard form of underwriting agency agreement which will be executed by the Maritime Administrator and domestic insurance companies authorized to do a marine insurance business in any State of the United States, appointing such companies as Underwriting Agents to issue war risk cargo policies in accordance with the provision of the agreement and this subpart:

Form MA–318 (7–54)

United States of America

Department of Commerce

Maritime Administration

Underwriting Agency Agreement for Cargo

This Agreement, made and entered into this ____ day of _____, 195__, by and between the United States of America (herein called the "United States"), acting by the Secretary of Commerce (herein called the "Secretary"), represented by the Maritime Administrator (herein called the "Administrator"), and _____ a corporation organized and existing under the laws of _____ and duly authorized to do a marine insurance business in a State of the United States, having an office for the transaction of business at _____ (herein called the "Underwriting Agent").

Witnesseth:

Whereas, pursuant to title XII of the Merchant Marine Act, 1936, as amended, Public Law 763—81st Congress (herein called the "Act"), the Secretary is authorized under certain circumstances to provide marine insurance and reinsurance against loss or damage by the risks of war, and to employ domestic companies or groups of domestic companies authorized to do a marine insurance business in any State of the United States to act as his Underwriting Agent; and

Whereas, the Secretary has delegated authority to the Administrator to perform the functions vested in the Secretary by title XII of the Act, except the authority "to find that insurance adequate to the needs of the waterborne commerce of the United States cannot be obtained on reasonable terms and conditions in companies authorized to do an insurance business in a State of the United States" which was reserved to the Secretary. (Section 6.01, subsection 2, paragraph (3) of Department Order No. 117 (Amended), published as section 5 (a) (2) (iii) in the FEDERAL REGISTER September 15, 1953, 18 F. R. 5518, 5519); and

Whereas, the Administrator has determined to employ the Underwriting Agent as an underwriting agent in providing war risk cargo insurance as set forth in section 1203 (b) of the Act upon the terms and conditions herein set forth:

Now, therefore, in consideration of the premises and of the mutual covenants and agreements, and upon the terms and conditions herein set forth, the parties hereto agree as follows:

1. *Appointment of agent.* The Administrator hereby authorizes the Underwriting Agent, as an agent acting on behalf of the Administrator and not as an independent contractor, to utilize its offices and facilities to make available the insurance which the Secretary is authorized to provide pursuant to Section 1203 (b) of the Act and to perform the functions hereinafter provided for, upon the terms and conditions hereinafter set forth and in accordance with the rules, regulations and instructions which will be issued from time to time to the Underwriting Agent by the Administrator directly or through any clearing agency appointed by the Administrator. The Underwriting Agent hereby agrees to utilize its offices and facilities to make such insurance available, as agent for the Administrator, and to perform the functions hereinafter provided for to the best of its ability. The Underwriting Agent may act through its home office, branch offices or agencies which are authorized to write insurance on its behalf.

2. *Duties of agent.* The duties of the Underwriting Agent shall be as follows:

(a) *Receive applications and issue binders and policies.* The Underwriting Agent shall receive applications for insurance, covering the class or classes of property and subject to the rates and conditions specified by the Administrator upon forms prescribed by the Administrator. After determining that the applications have been submitted in complete and proper form and are accompanied by remittances in the amount of the premiums required for the insurance applied for, the Underwriting Agent shall countersign binders or policies of insurance, or both binders and policies of insurance, subject to the rules, rates, terms and conditions specified by the Administrator on forms prescribed by the Administrator. The insurer under such policies shall be the United States.

(b) *Keep records.* The Underwriting Agent shall keep a full and complete record of all applications, binders, and policies, and shall also record all premiums, charges, collateral deposit funds and surety bonds required by the terms of the binders and policies, so that a record may be available at all times to the Administrator, both as to all applications received and all binders and policies issued, and as to all collateral deposit funds or surety bonds provided by the assured in connection with such binders and policies.

(c) *Receive money and reports.* The Underwriting Agent shall accept monthly Closing Reports from each open cargo policyholder for transmission to the Administrator or to a clearing agency if one is designated by the Administrator. The Underwriting Agent shall also receive checks drawn to the order of "Maritime Adm.—Commerce" for the premiums and charges involved, which checks shall be deposited by the Underwriting Agent in the Federal Reserve Bank nearest to its office, or in such other bank as may be authorized by the Administrator to receive such deposits. The Underwriting Agent shall receive from the bank in which the deposits are made receipts therefor in such number as may be prescribed in instructions to the Underwriting Agent and handle the receipts so received in accordance with such instructions.

(d) *Report monthly.* The Underwriting Agent shall prepare a monthly report, in summary form, of all Closing Reports and binders and policies issued on standard forms to be approved by the Administrator and transmit them, together with supporting Closing Reports received from Open Cargo policyholders and receipts for deposits made as above provided, to the Administrator or to a clearing agency if one is designated by the Administrator.

(e) *Other reports.* The Underwriting Agent shall prepare and transmit such other reports as may be required by the Administrator.

(f) *Process claims for return premiums.* The Underwriting Agent shall receive from holders of policies issued by such Underwriting Agent any claims for return premiums on a standard form prescribed by the Administrator and shall certify thereon, if such is the fact, that the amounts with respect to which such return is claimed were previously paid and were included in closing reports submitted to the Administrator and that based upon the statements included in such application by the assured the return premium applied for is payable in accordance with the regulations of the Administrator. Such applications and certifications shall be transmitted promptly to the Administrator or to a clearing agency if one is designated by the Administrator.

(g) *Process claims for losses.* The Underwriting Agent shall receive reports of losses, prepare adjustments and vouchers, and other data, required by the Administrator, and submit the same with its recommendation as to whether claims are in order for settlement to the Administrator or to a clearing agency if one is designated by the Administrator.

(h) *Help establish advisory committee.* The Underwriting Agent shall, if requested by the Administrator, cooperate with the Administrator and other Underwriting Agents acting in a similar capacity to establish and maintain an advisory underwriting committee to consult with and advise the Administrator in connection with specific underwriting problems, subject to the rules, regulations and instructions of the Administrator, and to establish and maintain such other advisory committees as may be deemed necessary from time to time to safeguard the interests of the Administrator including a loss committee to act as a recipient for information concerning losses and to pass upon any recommendations made by the Underwriting Agent as to losses and payments of claims arising therefrom.

(i) *Cooperate with clearing agency.* The Underwriting Agent shall if requested by the Administrator cooperate with any clearing agency designated by the Administrator to act on behalf of the Administrator in coordinating and facilitating the issuance of insurance pursuant to Section 1203 (b) of the Act in accordance with terms and conditions agreed upon between the clearing agency and the Administrator and in accordance with the rules, regulations and instructions issued by the Administrator to the clearing agency.

3. *Compensation.* Subject to paragraph 9 of this Agreement:

(a) *Fair and reasonable.* The Underwriting Agent shall receive for its services such amount as the Administrator and the Underwriting Agent may, from time to time, agree to be fair and reasonable compensation. In addition to such fair and reasonable compensation, the Underwriting Agent shall receive reimbursement for out-of-pocket expenditures reasonably incurred, meaning payments to persons not regularly employed by the Underwriting Agent but excluding payments to attorneys unless such employment has been authorized by the Administrator, provided, however, that all such expenditures shall be subject to the review of the Administrator, and further provided that, except as authorized by Section 1209 (d) of the Act, such expenditures shall not include any fee or other consideration paid to an insurance broker or any person acting in a similar intermediary capacity for services by virtue of his participation in arranging any of such insurance nor include any payment on account of solicitation for or stimulation of such insurance.

(b) *Paid monthly.* A statement of the compensation due to the Underwriting Agent (including reimbursement for out-of-pocket expenses as herein provided) shall be submitted by the Underwriting Agent to the Administrator monthly or at such other intervals as the Administrator may direct, with an appropriate voucher, and the amount of such compensation, if approved, shall be promptly paid to the Underwriting Agent.

4. *Standard of performance.* In the discharge of its duties and obligations pursuant to this Agreement, the Underwriting Agent shall conform to a standard of performance and accuracy reasonably to be expected of an insurance company in the administration of its own business and consistent with the highest degree of good faith. It is agreed, however, that the Underwriting Agent shall not be responsible for errors or omissions of agents or employees in whose selection and supervision it has exercised reasonable care, provided, however, that the Underwriting Agent, in any such case, shall have conformed to the standards of performance required hereunder, and provided further, that the Underwriting Agent assumes full and complete responsibility for the disposition of any funds received by it or its agents or employees under and pursuant to this Agreement. The exercise of reasonable care in the selection of agents and employees by the Underwriting Agent shall be deemed to include a determination by the Underwriting Agent that the agents or employees so selected are experienced in the transaction of such phases of the marine insurance business as may be delegated to such agents or employees by the Underwriting Agent.

5. *Writing insurance for own account.* It is understood that the Underwriting Agent is or may be engaged in writing for its own account war risk insurance, as well as other types of insurance, for the benefit of holders of policies issued by it hereunder and of other parties; and it is agreed that such insurance may be written notwithstanding the activities of the Underwriting Agent hereunder on behalf of the Administrator, pursuant to this Agreement.

6. *Books and records.*

(a) *Maintained subject to audit.* The Underwriting Agent shall keep books, records and accounts covering the operations and activities under this Agreement which shall be the property of the United States represented by the Administrator and shall be kept separate from those relating to other business of the Underwriting Agent, in accordance with regulations made from time to time by the Administrator, and shall at all time be subject to audit and inspection by the Administrator.

(b) *Comptroller General may examine.* The Comptroller General of the United States or any of his duly authorized representatives shall have access to and the right to examine any pertinent books, documents, papers and records of the Underwriting Agent in the performance of and involving transactions related to this Agreement.

7. *Acts only as agent.* The Underwriting Agent shall act only in the capacity of agent for the Administrator as principal, in the performance of the functions provided for hereunder. The Underwriting Agent shall have no authority other than as provided in this Agreement and in the rules, regulations and instructions issued to it by the Administrator under and pursuant to this Agreement, directly or through any clearing agency appointed by the Administrator. The Underwriting Agent may accompany its signature in all policies countersigned by it hereunder with a statement that, in countersigning such policies, it acts solely under the powers conveyed to it by the Administrator and that it does not thereby warrant its authority to accept applications for insurance or its authority to countersign, nor the authority of the Administrator to issue such policies.

8. *Special circumstances.*

(a) *Reimbursement of taxes and fees.* In the event that the Underwriting Agent, after giving notice to the Administrator, shall be compelled to pay to the United States, its territories or possessions, or to any state of the United States or political subdivision thereof, or to any foreign country or political subdivision thereof, any tax (excepting incomes taxes of every nature) or fee or interest or penalty relating thereto claimed to be due by reason of the business transacted pursuant to this Agreement and which would not have been payable except for the activities of the Underwriting Agent hereunder, the Administrator shall reimburse the Underwriting Agent therefor and for any special expenses necessarily incurred in connection therewith.

(b) *Indemnification.* If any legal suit or proceeding (whether or not based on negligence) is brought against the Underwriting Agent on account of anything done or not done, by the Underwriting Agent, the Administrator or any clearing agency appointed by him, in connection with the issuance or non-issuance of insurance on behalf of the Administrator or the payment or non-payment of claims arising thereunder (including, without in any way limiting the foregoing, anything done or not done pursuant to any rules, regulations, or instructions of the Administrator or anything done or not done in conflict with or because of any limitation on the powers of the Administrator), the Administrator shall, upon due notice and at the expense of the United States, defend any such proceeding. If, in or as a result of any such legal suit or proceeding, the Underwriting Agent be compelled or required to make any payment or incur any expense, the Administrator shall reimburse the Underwriting Agent for the amount thereof; provided always that the Administrator shall not be obligated to make any such reimbursement unless, in connection with the action complained of, the Underwriting Agent shall have complied with the standard of performance required hereunder. In any of the foregoing cases, the Underwriting Agent shall render to the Administrator such reasonable cooperation and assistance as the Administrator may require.

9. *Effective date, amendment, termination.* This Agreement shall become effective as and when the Secretary finds that war risk cargo insurance adequate for the needs of the water-borne commerce of the United States cannot be obtained on reasonable terms and conditions from companies authorized to do an insurance business in a State of the United States. The Underwriting Agent shall not be entitled to receive any compensation or to be reimbursed for any expenditures, as otherwise authorized by paragraph 3 of this Agreement, for services rendered or expenditures incurred prior to the effective date of this Agreement. This Agreement may be terminated, modified or amended at any time by mutual written consent. Once this Agreement becomes effective, it shall continue in force until terminated by mutual written consent or by either party, giving at least thirty (30) days' written notice by registered mail to the other party, stating the effective date and time on which this Agreement shall terminate. Such termination shall not affect the obligations of the parties hereto with respect to any binders or policies of insurance issued or expenditures incurred prior to the effective date of such termination.

10. *No commission or contingent fee.* The Underwriting Agent warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Underwriting Agent for the purpose of securing business. For breach or violation of this warranty the Administrator shall have the right to annul this contract without liability or in his discretion to deduct from the contract price or consideration the full amount of such commission, percentage, brokerage, or contingent fee.

11. *No discrimination.* In connection with the performance of work under this contract, the Underwriting Agent agrees not to discriminate against any employee or applicant for employment because of race, color, creed, or national origin; and further agrees to insert the foregoing provision in all subcontracts hereunder except subcontracts for standard commercial supplies or for raw materials.

12. *No member delegate.* No Member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this contract, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

13. *Renegotiation.* This contract shall be subject to any act of the Congress, whether heretofore or hereafter enacted and to the extent indicated therein, providing for the renegotiation of said contract and shall be deemed to contain all of the provisions required by any such act without subsequent amendment of this contract specifically incorporating such provisions.

The contractor (which term as used in this sentence means the party contracting to perform the work or furnish the materials required by this contract) shall insert the provisions of this article in each subcontract and purchase order made or issued in carrying out the contract.

Nothing contained in this clause shall impose any renegotiation obligation with respect to this contract or any subcontract hereunder which is not imposed by an act of the Congress, heretofore or hereafter enacted.

In witness whereof, the parties hereto have duly executed this Agreement in quadruplicate as of the day and year first above written.

§ 308.549 *Application for appointment of Cargo Underwriting Agent, Form MA–319.* Any domestic insurance company authorized to do a marine insurance business in any State of the United States may apply for appointment as a Cargo Underwriting Agent by sending a letter in the following form to the Maritime Administrator:

Form MA–319 (7–54)

Application for Appointment of Cargo Underwriting Agent

MARITIME ADMINISTRATOR,
Washington 25, D. C.

DEAR SIR:

The undersigned, an insurance company duly admitted to transact the business of marine insurance in the following State or States of the United States, hereby applies for appointment as Underwriting Agent of the Maritime Administrator, to execute and issue binders and open and facultative war risk cargo insurance policies on behalf of the United States of America, represented by the Maritime Administrator, acting for the Secretary of Commerce, and to perform other functions and duties, as are more specifically set forth in the standard form of underwriting agency agreement prescribed by the Maritime Administrator and printed in the FEDERAL REGISTER of the United States on the ---------. In connection with this application, we are transmitting herewith three executed counterparts of an underwriting agency agreement in such standard form.

Dated: ----------

(Applicant)

§ 308.550 *Certificate, Form MA–320—(a) When used.* Wherever any provision of this subpart or any amendment thereto, requires the Assured to make a declaration or certification under the penalties of perjury and the form of the declaration or certificate is not prescribed, the Assured may execute a certificate on Form MA–320–A, prescribed in paragraph (b) of this section if the Assured is an individual, or on Form MA–320–B, prescribed in paragraph (c) of this section if the Assured is a partnership, or on Form MA–320–C, prescribed in paragraph (d) of this section if the Assured is a corporation.

(b) *Individual, Form MA–320–A.* If the Assured is an individual, a certificate in the following form may be used:

Form MA–320–A (7–54)

Certificate

I, individually, under the penalties provided by the Criminal Code of the United States, Title 18, U. S. C., Sections 287 and 1001, certify that the statements hereinabove contained and in any accompanying schedules or reports, have been examined by me and to the best of my knowledge and belief they are true, correct and complete, and are made in good faith for the purpose of inducing the United States of America acting by and through the Maritime Administrator to rely thereon.

(Assured)

(c) *Partnership, Form MA–320–B.* If the Assured is a partnership, a certificate in the following form may be used:

Form MA–320–B (7–54)

Certificate

I, individually, and on behalf of the named policyholder, a partnership for whom I declare I have the power to make this certificate, under the penalties provided by the Criminal Code of the United States, Title 18, U. S. C., Sections 287 and 1001, certify that the statements hereinabove contained and in any accompanying schedules or reports, have been examined by me and to the best of my knowledge and belief they are true, correct and complete, and are made in good faith for the purpose of inducing the United States of America acting by and through the Maritime Administrator to rely thereon.

(Title)

(d) *Corporation, Form MA–320–C.* If the Assured is a corporation, a certificate in the following form may be used:

Form MA–320–C (7–54)

Certificate

I, individually, and on behalf of the named policyholder, a corporation, for whom I declare I have the power to make this certificate, under the penalties provided by the Criminal Code of the United States, Title 18, U. S. C., Sections 287 and 1001, certify that the statements hereinabove contained and in any accompanying schedules or reports, have been examined by me and to the best of my knowledge and belief they are true, correct and complete, and are made in good faith for the purpose of inducing the United States of America, acting by and through the Maritime Administrator, to rely thereon.

(Title)

§ 308.551 *War Risk insurance clearing agency agreement for cargo.* The following is the standard form of clearing agency agreement which will be executed by the Maritime Administrator and domestic insurance companies, or groups of domestic insurance companies authorized to do a marine insurance business in any State of the United States, appointing such companies or groups of companies as clearing agents:

Form MA–321 (3–56)

UNITED STATES OF AMERICA

DEPARTMENT OF COMMERCE

MARITIME ADMINISTRATION

CLEARING AGENCY AGREEMENT FOR CARGO

This Agreement, made and entered into this ------ day of 195--, by and between the United States of America (herein called the "United States"), acting by the Secretary of Commerce (herein called the "Secretary"), represented by the Maritime Administrator (herein called the "Administrator"), and ----------, (herein

called the "Clearing Agent"), having an office for the transaction of business at ----------, ----------, an association of domestic insurance companies (herein called the "Participating Members"), each of which is authorized to do a marine insurance business in a State of the United States,

WITNESSETH

Whereas, pursuant to title XII of the Merchant Marine Act, 1936, as amended, Public Law 763—81st Congress (herein called the "Act"), the Secretary is authorized under certain circumstances to provide marine insurance and reinsurance against loss or damage by the risks of war, and to employ domestic companies or groups of domestic companies authorized to do a marine insurance business in any State of the United States to act as his underwriting agent; and

Whereas, the Secretary has delegated authority to the Administrator to perform the functions vested in the Secretary by title XII of the act, except the authority "to find that insurance adequate to the needs of the water-borne commerce of the United States cannot be obtained on reasonable terms and conditions in companies authorized to do an insurance business in a State of the United States" which was reserved to the Secretary, Section 6.01, subsection 2, paragraph (3) of Department Order No. 117 (amended), published as section 5 (a) (2) (iii) in the FEDERAL REGISTER September 15, 1953, 18 F. R. 5518, 5519; and

Whereas, the Administrator is prepared, under the authority of section 1209 (d) of the act, to enter into Underwriting Agency Agreements with each of the Participating Members and with other Domestic Companies authorized to do an insurance business in any State of the United States and having facilities similar to the Participating Members (hereinafter collectively called the "Underwriting Agents"), for the purpose of performing certain functions on behalf of the Administrator, including the receipt of applications and countersignature of policies, in connection with the issuance of insurance pursuant to section 1203 (b) of the act; and

Whereas, the Administrator has determined to utilize the services and facilities of ----------, to act as clearing agent to coordinate the issuance of cargo war risk insurance and facilitate the administration of the cargo war risk program by the Administrator;

Now, therefore, in consideration of the premises and of the mutual covenants and agreements, and upon the terms and conditions hereinafter set forth, the parties hereto agree as follows:

1. *Appointment of Agent.* The Administrator hereby authorizes the Clearing Agent, as an agent acting on behalf of the Administrator and not as an independent contractor, to utilize its offices and facilities in cooperation with the Underwriting Agents for the purpose of coordinating and facilitating the issuance of cargo war risk insurance pursuant to section 1203 (b) of the act and to perform the functions hereinafter provided for, upon the terms and conditions hereinafter set forth and in accordance with the rules, regulations and instructions which will be issued from time to time by the Administrator to the Clearing Agent. The Clearing Agent hereby agrees to utilize its offices and facilities and to perform the functions hereinafter provided for to the best of its ability on behalf of the Administrator. The Clearing Agent may act through and use the facilities of the ---------- and such other agents as may be approved by the Administrator, to the extent it deems necessary in the performance of its duties hereunder.

2. *Duties of Agent.* The duties of the Clearing Agent shall be as follows:

(a) The Clearing Agent, when and as instructed by the Administrator, shall promptly transmit to the Underwriting Agents all applicable rules, regulations, instructions and information which it receives from the Administrator in connection with the program of insurance authorized by section 1203 (b) of the act. The Clearing Agent shall promptly transmit to the Administrator any notice, demand, request or report submitted to it by the Underwriting Agents for transmission to the Administrator, in accordance with this Agreement and the Underwriting Agency Agreements.

(b) The Clearing Agent, when and as required by the Administrator, shall receive reports from the Underwriting Agents, setting forth in summary form, all applications received, policies issued, invalidated, cancelled, reduced or extended, premiums collected and returned and such other information as the Administrator may from time to time request. The Clearing Agent shall prepare and submit to the Administrator, at such regular intervals as the Administrator may direct, a report on a form approved by the Administrator, combining and summarizing the information which shall have been reported to it by the Underwriting Agents as aforesaid and including such other information as may be reasonably required by the Administrator. The Clearing Agent shall from time to time prepare and submit to the Administrator such other reports and information relating to its activities hereunder as the Administrator may from time to time reasonably request.

(c) The Clearing Agent shall receive from the Underwriting Agents reports and claims of losses submitted to said Agents together with the pertinent documents and recommendations relating thereto which the Underwriting Agents shall have prepared and assembled. The Clearing Agent shall promptly transmit all such reports, documents and recommendations to the Administrator, together with any additional information relating to such claims which the Administrator may reasonably require in determining their eligibility for settlement and payment.

(d) The Clearing Agent shall receive from the Underwriting Agents claims submitted to said Agents for return of all or part of premiums previously collected under policies, if any, providing for return premiums, together with the required certifications of said Agents in connection with such claims. The Clearing Agent shall promptly transmit said claims and certifications to the Administrator, together with any further information which the Administrator may reasonably require in connection therewith.

(e) The Clearing Agent shall maintain a complete, separate system of books of records and accounts covering its operations and activities under this Agreement, including a record of all statements, vouchers and other information received by it from the Underwriting Agents. These books of records and accounts shall be the property of the Administrator. They shall be kept available by the Clearing Agent at all times for audit and inspection by duly authorized representatives of the Administrator and by the Comptroller General of the United States or their duly authorized representatives during the period of this Agreement and up to thirty-six (36) months after its termination and thereafter until final settlement of any outstanding claims against the Administrator by holders of policies issued by the Underwriting Agents.

(f) The Clearing Agent shall receive such periodic statements and vouchers of compensation and other payments claimed by the Underwriting Agents as the Underwriting Agents may be required to submit pursuant to the Underwriting Agency Agreements. The Clearing Agent shall consolidate such statements and vouchers into a single monthly statement of compensation claimed by the Underwriting Agents as of the last day of the month covered by such consolidated statement and shall certify thereon that the amounts set forth therein truly and correctly reflect the statements and vouchers received from the Underwriting Agents. The Clearing Agent shall then submit such consolidated statement to the Administrator, who upon his approval thereof, shall promptly forward to the Clearing Agent his check payable to the order of the Clearing Agent in the total amount of such statement as approved by the Administrator. The Clearing Agent shall thereupon make payments to the order of the individual Underwriting Agents in the respective amounts set forth in the statement as approved by the Administrator.

3. *Compensation*—(a) *Fair and reasonable.* The Clearing Agent shall receive for its services such amount as the Administrator and the Clearing Agent may, from time to time, agree to be fair and reasonable compensation. In addition to such fair and reasonable compensation, the Clearing Agent shall receive reimbursement for out-of-pocket expenditures reasonably incurred, meaning payments to persons not regularly employed by the Clearing Agent but excluding payments to attorneys unless such employment has been authorized by the Administrator, provided, however, that all such expenditures shall be subject to the review of the Administrator, and further provided that, except as authorized by section 1209 (d) of the act, such expenditures shall not include any fee or other consideration paid to an insurance broker or any person acting in a similar intermediary capacity for services by virtue of his participation in arranging any of such insurance nor include any payment on account of solicitation for or stimulation of such insurance.

(b) *Paid monthly.* A statement of the compensation due to the Clearing Agent (including reimbursement for out-of-pocket expenses as herein provided) shall be submitted by the Clearing Agent to the Administrator monthly or at such other intervals as the Administrator may direct, with an appropriate voucher, and the amount of such compensation, if approved, shall be promptly paid to the Clearing Agent.

4. *Standard of performance.* In the discharge of its duties and obligations pursuant to this Agreement, the Clearing Agent shall conform to a standard of performance and accuracy reasonably to be expected of an insurance company in the administration of its own business and consistent with the highest degree of good faith. It is agreed, however, that the Clearing Agent shall not be responsible for errors or omissions of agents or employees in whose selection and supervision it has exercised reasonable care, provided, however, that the Clearing Agent, in any such case, shall have conformed to the standards of performance required hereunder, and provided further, that the Clearing Agent assumes full and complete responsibility for the disposition of any funds received by it or its agents or employees under and pursuant to this Agreement. The exercise of reasonable care in the selection of agents and employees by the Clearing Agent shall be deemed to include a determination by the Clearing Agent that the agents or employees so selected are experienced in the transaction of such phases of the marine insurance business as may be delegated to such agents or employees by the Clearing Agent.

5. *Writing insurance for own account.* It is understood that the Participating Members of the Association constituting the Clearing Agent are or may be engaged in writing for their own account war risk insurance, as well as other types of insurance, for the benefit of holders of policies issued by the Clearing Agent hereunder and of other parties; and it is agreed that such insurance may be written notwithstanding the activities of the Clearing Agent hereunder on behalf of the Administrator, pursuant to this Agreement.

6. *Books and records*—(a) *Maintained subject to audit.* The Clearing Agent shall keep books, records and accounts covering the operations and activities under this Agreement which shall be the property of the United States represented by the Administrator and shall be kept separate from those relating to other business of the Clearing Agent or of the Participating Members thereof, in accordance with regulations made from time to time by the Administrator, and shall at all times be subject to audit and inspection by the Administrator.

(b) *Comptroller General may examine.* The Comptroller General of the United States or any of his duly authorized representatives shall have access to and the right to examine any pertinent books, documents, papers and records of the Clearing Agent or of the Participating Members thereof in the performance of and involving transactions related to this Agreement.

7. *Act only as agent.* The Clearing Agent shall act only in the capacity of agent for the Administrator as principal, in the performance of the functions provided for hereunder. The Clearing Agent shall have no authority other than as provided in this Agreement and in the rules, regulations and instructions issued to it by the Administrator under and pursuant to this Agreement.

8. *Special circumstances*—(a) *Reimbursement of taxes and fees.* In the event that the Clearing Agent or any Participating Member or Members thereof, after giving notice to the Administrator, shall be compelled to pay to the United States, its territories or possessions, or to any State of the United States or political subdivision thereof, or to any foreign country or political subdivision thereof, any tax (excepting income taxes of every nature) or fee or interest or penalty relating thereto claimed to be due by reason of the business transacted pursuant to this Agreement and which would not have been payable except for the activities of the Clearing Agent hereunder, the Administrator shall reimburse the Clearing Agent and any Participating Member or Members therefor and for any special expenses necessarily incurred in connection therewith.

(b) *Indemnification.* If any legal suit or proceeding (whether or not based on negligence) is brought against the Clearing Agent or any Participating Member or Members thereof on account of anything done or not done, by the Clearing Agent or any Participating Member or Members thereof or the Administrator, in connection with the issuance or non-issuance or cancellation of insurance on behalf of the Administrator or the payment or non-payment of claims for loss or return premiums arising thereunder (including, without in any way limiting the foregoing, anything done or not done pursuant to any rules, regulations, or instructions of the Administrator or anything done or not done in conflict with or because of any limitation on the powers of the Administrator), the Administrator shall, upon due notice and at the expense of the United States, defend any such proceeding. If, in or as a result of any such legal suit or proceeding, the Clearing Agent or any Participating Member or Members thereof be compelled or required to make any payment or incur any expense, the Administrator shall reimburse the Clearing Agent or any Participating Member or Members thereof for the amount thereof; provided always that the Administrator shall not be obligated to make any such reimbursement unless, in connection with the action complained of, the Clearing Agent shall have complied with the standard of performance required thereunder. In any of the foregoing cases, the Clearing Agent shall render to the Administrator such reasonable cooperation and assistance as the Administrator may require.

9. *Effective date, amendment, termination.* This Agreement shall become effective as of the date of its execution by the Administrator and shall continue in force until terminated. This Agreement may be terminated, modified or amended at any time by mutual written consent. Once this Agreement becomes effective, it shall continue in force until terminated by mutual written consent or by either party, giving at least thirty (30) days' written notice by registered mail to the other party, stating the effective date and time on which this Agreement shall terminate. Such termination shall not affect the obligations of the parties hereto with respect to any binders or policies of insurance issued or expenditures incurred prior to the effective date of such termination.

10. *No commission or contingent fee.* The Clearing Agent warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Clearing Agent for the purpose of securing business. For breach or violation of this warranty the Administrator shall have the right to annul this contract without liability or in his discretion to deduct from the contract price or consideration the full amount of such commission, percentage, brokerage, or contingent fee.

11. *No discrimination.* In connection with the performance of work under this contract, the Clearing Agent agrees not to discriminate against any employee or applicant for employment because of race, color, creed, or national origin; and further agrees to insert the foregoing provision in all subcontracts hereunder except subcontracts for standard commercial supplies or for raw materials.

12. *No member or delegate.* No Member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this contract, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

13. *Renegotiation.* This contract shall be subject to any act of the Congress, whether heretofore or hereafter enacted and to the extent indicated therein, providing for the renegotiation of said contract and shall be deemed to contain all of the provisions required by any such act without subsequent amendment of this contract specifically incorporating such provisions.

The contractor (which term as used in this sentence means the party contracting to perform the work or furnish the materials required by this contract) shall insert the provisions of this article in each subcontract and purchase order made or issued in carrying out the contract.

Nothing contained in this clause shall impose any renegotiation obligation with respect to this contract or any subcontract hereunder which is not imposed by an act of the Congress, heretofore or hereafter enacted.

14. *Participating Members*—(a) *Indebted to United States.* The Participating Members of the association constituting the Clearing Agent, severally but not jointly and limited each to its participation therein, shall be indebted to the United States for such amounts as the Secretary is entitled to recover from the Clearing Agent in accordance with the foregoing provisions and, in the event of failure to pay on demand, the Secretary may bring an action or actions in any court in the United States to recover such amount or amounts from the Participating Members, severally but not jointly, on behalf of the United States.

(b) *Change of shares.* Without cancelling this Agreement, the Participating Members of the association constituting the Clearing Agent may, upon not less than ten (10) days' prior written notice to the Administrator, change their share of participation by agreement among themselves, including the termination of the interests of one Participating Member and the assumption of its share by one or more of the other Participating Members or by the admission of other eligible domestic insurance companies to membership in the association. Any such change of apportionment or termination of participation shall not relieve any Participating Member of its obligations in respect to matters which occurred prior to any change or termination of its interest. Unless the Clearing Agent is notified in writing by the Administrator, within ten (10) days after receipt of notice from the Clearing Agent, that the proposed change in participation or termination or assumption is disapproved, such change shall be understood to be acceptable to the Administrator.

In witness whereof, the parties hereto have duly executed this Agreement in quadruplicate as of the day and year first above written.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter A—Alaska

PART 3—OPERATION OF U. S. M. S. "NORTH STAR" BETWEEN SEATTLE, WASH., AND STATIONS OF THE BUREAU OF INDIAN AFFAIRS AND OTHER GOVERNMENT AGENCIES, ALASKA

There was published in the FEDERAL REGISTER of October 25, 1956 (21 F. R. 8192) notice of intention to revise 25 CFR Part 3 dealing with the operation of the U. S. M. S. "North Star."

All interested persons were given opportunity to submit views, data and arguments within thirty days from the date of such publication. The views, data and arguments received have been considered and the regulations as proposed are adopted as set forth below with the following change: Section 3.9, *Preferential passengers* is amended to include "Public Health Service personnel traveling in behalf of the Indian health program, and their families."

FRED G. AANDAHL,
Acting Secretary of the Interior.

FEBRUARY 19, 1957.

Sec.
3.1 Responsibility for operation.
3.2 Transportation of freight for Federal agencies and others.
3.3 Employment of natives.
3.4 Prohibition of trade with natives.
3.5 Passenger rates.
3.6 Private passengers.
3.7 Transportation of children.
3.8 Transportation of Federal employees and their families and natives.
3.9 Preferential passengers.

AUTHORITY: §§ 3.1 to 3.9 issued under R. S. 161; 5 U. S. C. 22.

§ 3.1 *Responsibility for operation.* (a) The Administrative Officer and Special Representative of the Area Director, Juneau Area Office, Bureau of Indian Affairs, with offices in Seattle, Washington, has responsibility for the operation of the ship for the Department of the Interior, Bureau of Indian Affairs, including repair, upkeep, payment of bills and employment of personnel.

(b) Itineraries for each voyage shall be made by the Administrative Officer and Special Representative in consultation with the Area Director of the Bureau of Indian Affairs, Juneau, Alaska. Preference is to be accorded to the work of the Bureau of Indian Affairs. The Area Director is vested with authority to direct the use of the ship to perform special services which may arise and to act in any emergency.

§ 3.2 *Transportation of freight for Federal agencies and others.* (a) All agencies of the Federal Government, including activities of the Bureau of Indian Affairs, Alaskan Natives, cooperatives of Alaskan Natives, business enterprises owned and operated by Alaskan Natives and Federal employees shall be charged for freight, lighterage and longshoring and other terminal charges in accordance with tariff rates and terminal charges established by the Commissioner of Indian Affairs.

(b) Baggage and other personal property of passengers that cannot be readily accommodated in the passengers' staterooms will be manifested as freight and charged for at the established rates.

(c) Commercial freight may be carried between points where adequate service is not provided by commercial vessels. Commercial freight, when carried, shall be prepaid at the same tariff rates established under paragraph (a) of this section.

(d) All freight accepted must be properly manifested, giving the name and address of the consignor and the consignee, and a description of the goods, including gross weight.

(e) Freight will be accepted only on condition that the United States will not be held responsible for any loss, damage or non-delivery.

§ 3.3 *Employment of Natives.* Natives shall be employed on the "North Star" to fill all positions for which they are qualified.

§ 3.4 *Prohibition of trade with Natives.* Officers and members of the crew on the vessel are prohibited from engaging in trade with the Natives.

§ 3.5 *Passenger rates.* Rates for transportation of passengers shall be established by the Commissioner and shall be the same for all passengers, except as provided in § 3.7. Rates shall be on file for public inspection at the Bureau of Indian Affairs offices in Seattle, Washington and Juneau, Alaska.

§ 3.6 *Private passengers.* No private passengers (except Federal employees and their families and Natives of Alaska) shall be transported on the "North Star" between points where adequate services are provided by commercial vessels. Where such commercial vessels are not available, and where accommodations can be furnished on the "North Star" without detriment to Government business, private travelers may be transported at the rates established pursuant to § 3.5.

§ 3.7 *Transportation of children.* The rates established for the transportation of children shall be subject to the following rules:

(a) No charge shall be made for transportation of children under two years of age.

(b) Children who have reached their second birthday, but not their twelfth birthday shall be transported at half the rate established pursuant to § 3.5 for all other passengers.

§ 3.8 *Transportation of Federal employees and their families and Natives.* (a) All agencies of the Federal Government will be billed at the rates established pursuant to § 3.5 for each employee traveling on official business.

(b) When not in official travel status, Federal employees and families of Federal employees will be transported at the rates established pursuant to § 3.5.

(c) Natives of Alaska, who are not indigent, will be charged the same rates as all other passengers.

§ 3.9 *Preferential passengers.* In the booking of passage on the ship, preference shall be given to employees of the Bureau of Indian Affairs and their families, to Natives of Alaska, and to Public Health Service personnel traveling in behalf of the Indian health program, and their families.

[19 CFR Part 16]

CONVERSION OF CURRENCY

NOTICE OF PROPOSED DESIGNATION OF THE PHILIPPINE ISLANDS AS A QUARTERLY RATE COUNTRY

Notice is hereby given that pursuant to section 522 (c) (1) (B) of the Tariff Act of 1930, as amended by the Customs Simplification Act of 1956 (31 U. S. C. 372 (c) (1) (B)), it is proposed to designate the Philippine Islands as a country whose currency shall be subject to conversion for customs purposes in accordance with the applicable law and regulations at the rate first certified by the Federal Reserve Bank of New York for a day within the quarter beginning April 1, 1956, and each quarter thereafter by amending the list of countries set forth at the end of paragraph (d) of § 16.4 of the Customs Regulations by adding thereto the "Philippine Islands" effective commencing with April 1, 1957.

This notice is published pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003). Data, views, or arguments with respect to the proposed designation of the Philippine Islands may be addressed to the Commissioner of Customs, Bureau of Customs, Washington 25, D. C., in writing. To insure consideration of such communications they must be received in the Bureau of Customs not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: February 26, 1957.

[7 CFR Part 927]

MILK IN NEW YORK METROPOLITAN MILK MARKETING AREA

CLASSIFICATION AND ACCOUNTING RULES AND REGULATIONS; NOTICE OF PUBLIC MEETING FOR CONSIDERATION OF PROPOSED AMENDMENT TO RULES AND REGULATIONS

Pursuant to provisions of § 927.36 of the order, as amended (7 CFR Part 927), regulating the handling of milk in the New York metropolitan milk marketing area, and of the Administrative Procedure Act (5 U. S. C. 1001 et seq.), notice is hereby given of a public meeting to be held on March 4, 1957, at 10 a. m., e. s. t., at the Office of the Market Administrator, 205 East Forty-second Street, New York, New York, for consideration of proposed rules and regulations heretofore issued (7 CFR § 927.101 et seq.) pursuant to said order. Interested persons will be afforded an opportunity to participate in the meeting through the submission of written data, views or arguments or to present the same orally. Copies of the said rules and regulations as heretofore issued and of the proposed amendments to be considered at this public meeting may be procured from the Market Administrator.

The proposed amendment to be considered at said public meeting is as follows: By Grandview Dairy, Inc. and Queens Farms Dairy, Inc.

1. Amend § 927.108 as follows:

§ 927.108 *Cultured or flavored milk drink.* "Cultured or flavored milk drink" means a flavored or cultured beverage containing milk or skim milk but not more than 15 percent butterfat, or the mixture from such product is made at any plant. This definition includes but is not limited to the products properly known as buttermilk, chocolate milk, chocolate drink, egg nog and yogurt.

2. Amend § 927.122 as follows:

§ 927.122 *Homogenized mixture.* "Homogenized mixture" means a product which results from homogenizing a mixture containing milk solids, moisture, and sugar (or other sweetening agent) or other ingredients. It shall contain not less than 5.0 percent sugar (or other sweetening agent) or other ingredients, and not less than 5.0 percent moisture. This definition shall be deemed to exclude any product which is included under § 927.108.

Issued at New York, N. Y., this 25th day of February 1957.

[SEAL] C. J. BLANFORD,
Market Administrator.

[Docket Nos. AO-71-A-32; AO-284]

HANDLING OF MILK IN NEW YORK METROPOLITAN MARKETING AREA AND IN NORTHERN NEW JERSEY

SUPPLEMENTAL NOTICE OF HEARING

The original notice of hearing in this proceeding was issued on May 18, 1956 (21 F. R. 3527) and supplemental notices of hearing were issued on May 29, 1956 (21 F. R. 3799) and on August 29, 1956 (21 F. R. 6680) on a proposed marketing agreement and order regulating the handling of milk in Northern New Jersey and on proposed amendments to the tentative marketing agreement and to the order as amended regulating the handling of milk in the New York metropolitan milk marketing area, including proposals designed to provide coordinated regulation of the handling of all milk proposed to be subject to regulation.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C. et seq.) and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR Part 900), notice is given that the notices heretofore issued are hereby amended to include consideration of whether, on the basis of the entire record in this proceeding, a single marketing agreement and order regulating the handling of milk for a marketing area consisting of all the territory in the States of New York and New Jersey for which regulation has been proposed should be issued and would better effectuate the purposes of the act than two or more separate marketing agreements and orders for such territory. Evidence also will be received (1) with respect to specific terms and provisions of such a single marketing agreement and order and (2) as to whether such a single marketing agreement and order, if issued, should be issued in the form of a new marketing agreement and order or by amending Order No. 27.

It has been proposed by certain producer organizations that the terms and provisions of such a single marketing agreement and order be those presently contained in Order No. 27 except for revision of the definition of marketing area and other appropriate modifications, and except that such terms and provisions should be changed in the following respects:

1. *Pool plant provisions.* (a) Permanent pool plant status shall be limited to those plants which are presently designated under Order No. 27, or are historically related to the Northern New Jersey market, and such status shall be permanently lost if such designation is cancelled either by request of the handler or for failure to meet the requirements with respect to sanitary operation and supplying the market during a shortage. Any other plants would be pool plants only on the basis of supplying fluid milk to the marketing area. Provision shall be made, however, for a handler to replace a plant with permanent status which is closed.

(b) Handlers may request that permanent pool plant designations be withdrawn only in the months immediately prior to the flush season. Order No. 27 presently permits withdrawal of designation by the handler only during and immediately after the flush season.

(c) Provisions for being a pool plant on the basis of supplying fluid milk to the market shall require that any plant in the pool on this basis during April, May or June shall also be a pool plant in any of the nine months of the ensuing period of July through March in which such plant utilized not less than 60 percent of its receipts from producers as fluid milk either inside or outside the marketing area (Class I-A and Class I-B combined).

(d) With respect to pricing provisions for out-of-market milk designed to discourage its being dumped into the pool,

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter A—Alaska

PART 3—OPERATION OF U. S. M. S. "NORTH STAR" BETWEEN SEATTLE, WASH., AND STATIONS OF THE BUREAU OF INDIAN AFFAIRS AND OTHER GOVERNMENT AGENCIES, ALASKA

There was published in the FEDERAL REGISTER of October 25, 1956 (21 F. R. 8192) notice of intention to revise 25 CFR Part 3 dealing with the operation of the U. S. M. S. "North Star."

All interested persons were given opportunity to submit views, data and arguments within thirty days from the date of such publication. The views, data and arguments received have been considered and the regulations as proposed are adopted as set forth below with the following change: Section 3.9, *Preferential passengers* is amended to include "Public Health Service personnel traveling in behalf of the Indian health program, and their families."

FRED G. AANDAHL,
Acting Secretary of the Interior.

FEBRUARY 19, 1957.

Sec.
3.1 Responsibility for operation.
3.2 Transportation of freight for Federal agencies and others.
3.3 Employment of natives.
3.4 Prohibition of trade with natives.
3.5 Passenger rates.
3.6 Private passengers.
3.7 Transportation of children.
3.8 Transportation of Federal employees and their families and natives.
3.9 Preferential passengers.

AUTHORITY: §§ 3.1 to 3.9 issued under R. S. 161; 5 U. S. C. 22.

§ 3.1 *Responsibility for operation.* (a) The Administrative Officer and Special Representative of the Area Director, Juneau Area Office, Bureau of Indian Affairs, with offices in Seattle, Washington, has responsibility for the operation of the ship for the Department of the Interior, Bureau of Indian Affairs, including repair, upkeep, payment of bills and employment of personnel.

(b) Itineraries for each voyage shall be made by the Administrative Officer and Special Representative in consultation with the Area Director of the Bureau of Indian Affairs, Juneau, Alaska. Preference is to be accorded to the work of the Bureau of Indian Affairs. The Area Director is vested with authority to direct the use of the ship to perform special services which may arise and to act in any emergency.

§ 3.2 *Transportation of freight for Federal agencies and others.* (a) All agencies of the Federal Government, including activities of the Bureau of Indian Affairs, Alaskan Natives, cooperatives of Alaskan Natives, business enterprises owned and operated by Alaskan Natives and Federal employees shall be charged for freight, lighterage and longshoring and other terminal charges in accordance with tariff rates and terminal charges established by the Commissioner of Indian Affairs.

(b) Baggage and other personal property of passengers that cannot be readily accommodated in the passengers' staterooms will be manifested as freight and charged for at the established rates.

(c) Commercial freight may be carried between points where adequate service is not provided by commercial vessels. Commercial freight, when carried, shall be prepaid at the same tariff rates established under paragraph (a) of this section.

(d) All freight accepted must be properly manifested, giving the name and address of the consignor and the consignee, and a description of the goods, including gross weight.

(e) Freight will be accepted only on condition that the United States will not be held responsible for any loss, damage or non-delivery.

§ 3.3 *Employment of Natives.* Natives shall be employed on the "North Star" to fill all positions for which they are qualified.

§ 3.4 *Prohibition of trade with Natives.* Officers and members of the crew on the vessel are prohibited from engaging in trade with the Natives.

§ 3.5 *Passenger rates.* Rates for transportation of passengers shall be established by the Commissioner and shall be the same for all passengers, except as provided in § 3.7. Rates shall be on file for public inspection at the Bureau of Indian Affairs offices in Seattle, Washington and Juneau, Alaska.

§ 3.6 *Private passengers.* No private passengers (except Federal employees and their families and Natives of Alaska) shall be transported on the "North Star" between points where adequate services are provided by commercial vessels. Where such commercial vessels are not available, and where accommodations can be furnished on the "North Star" without detriment to Government business, private travelers may be transported at the rates established pursuant to § 3.5.

§ 3.7 *Transportation of children.* The rates established for the transportation of children shall be subject to the following rules:

(a) No charge shall be made for transportation of children under two years of age.

(b) Children who have reached their second birthday, but not their twelfth birthday shall be transported at half the rate established pursuant to § 3.5 for all other passengers.

§ 3.8 *Transportation of Federal employees and their families and Natives.*

(a) All agencies of the Federal Government will be billed at the rates established pursuant to § 3.5 for each employee traveling on official business.

(b) When not in official travel status, Federal employees and families of Federal employees will be transported at the rates established pursuant to § 3.5.

(c) Natives of Alaska, who are not indigent, will be charged the same rates as all other passengers.

§ 3.9 *Preferential passengers.* In the booking of passage on the ship, preference shall be given to employees of the Bureau of Indian Affairs and their families, to Natives of Alaska, and to Public Health Service personnel traveling in behalf of the Indian health program, and their families.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 16]

CONVERSION OF CURRENCY

NOTICE OF PROPOSED DESIGNATION OF THE PHILIPPINE ISLANDS AS A QUARTERLY RATE COUNTRY

Notice is hereby given that pursuant to section 522 (c) (1) (B) of the Tariff Act of 1930, as amended by the Customs Simplification Act of 1956 (31 U. S. C. 372 (c) (1) (B)), it is proposed to designate the Philippine Islands as a country whose currency shall be subject to conversion for customs purposes in accordance with the applicable law and regulations at the rate first certified by the Federal Reserve Bank of New York for a day within the quarter beginning April 1, 1956, and each quarter thereafter by amending the list of countries set forth at the end of paragraph (d) of § 16.4 of the Customs Regulations by adding thereto the "Philippine Islands" effective commencing with April 1, 1957.

This notice is published pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003). Data, views, or arguments with respect to the proposed designation of the Philippine Islands may be addressed to the Commissioner of Customs, Bureau of Customs, Washington 25, D. C., in writing. To insure consideration of such communications they must be received in the Bureau of Customs not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER. No hearing will be held.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: February 26, 1957.

Agricultural Marketing Service

[7 CFR Part 927]

MILK IN NEW YORK METROPOLITAN MILK MARKETING AREA

CLASSIFICATION AND ACCOUNTING RULES AND REGULATIONS; NOTICE OF PUBLIC MEETING FOR CONSIDERATION OF PROPOSED AMENDMENT TO RULES AND REGULATIONS

Pursuant to provisions of § 927.36 of the order, as amended (7 CFR Part 927), regulating the handling of milk in the New York metropolitan milk marketing area, and of the Administrative Procedure Act (5 U. S. C. 1001 et seq.), notice is hereby given of a public meeting to be held on March 4, 1957, at 10 a. m., e. s. t., at the Office of the Market Administrator, 205 East Forty-second Street, New York, New York, for consideration of proposed rules and regulations heretofore issued (7 CFR § 927.101 et seq.) pursuant to said order. Interested persons will be afforded an opportunity to participate in the meeting through the submission of written data, views or arguments or to present the same orally. Copies of the said rules and regulations as heretofore issued and of the proposed amendments to be considered at this public meeting may be procured from the Market Administrator.

The proposed amendment to be considered at said public meeting is as follows: By Grandview Dairy, Inc. and Queens Farms Dairy, Inc.

1. Amend § 927.108 as follows:

§ 927.108 *Cultured or flavored milk drink.* "Cultured or flavored milk drink" means a flavored or cultured beverage containing milk or skim milk but not more than 15 percent butterfat, or the mixture from such product is made at any plant. This definition includes but is not limited to the products properly known as buttermilk, chocolate milk, chocolate drink, egg nog and yogurt.

2. Amend § 927.122 as follows:

§ 927.122 *Homogenized mixture.* "Homogenized mixture" means a product which results from homogenizing a mixture containing milk solids, moisture, and sugar (or other sweetening agent) or other ingredients. It shall contain not less than 5.0 percent sugar (or other sweetening agent) or other ingredients, and not less than 5.0 percent moisture. This definition shall be deemed to exclude any product which is included under § 927.108.

Issued at New York, N. Y., this 25th day of February 1957.

[SEAL] C. J. BLANFORD,
Market Administrator.

[7 CFR Parts 927, 990]

[Docket Nos. AO-71-A-32; AO-284]

HANDLING OF MILK IN NEW YORK METROPOLITAN MARKETING AREA AND IN NORTHERN NEW JERSEY

SUPPLEMENTAL NOTICE OF HEARING

The original notice of hearing in this proceeding was issued on May 18, 1956 (21 F. R. 3527) and supplemental notices of hearing were issued on May 29, 1956 (21 F. R. 3799) and on August 29, 1956 (21 F. R. 6680) on a proposed marketing agreement and order regulating the handling of milk in Northern New Jersey and on proposed amendments to the tentative marketing agreement and to the order as amended regulating the handling of milk in the New York metropolitan milk marketing area, including proposals designed to provide coordinated regulation of the handling of all milk proposed to be subject to regulation.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, (7 U. S. C. et seq.) and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR Part 900), notice is given that the notices heretofore issued are hereby amended to include consideration of whether, on the basis of the entire record in this proceeding, a single marketing agreement and order regulating the handling of milk for a marketing area consisting of all the territory in the States of New York and New Jersey for which regulation has been proposed should be issued and would better effectuate the purposes of the act than two or more separate marketing agreements and orders for such territory. Evidence also will be received (1) with respect to specific terms and provisions of such a single marketing agreement and order and (2) as to whether such a single marketing agreement and order, if issued, should be issued in the form of a new marketing agreement and order or by amending Order No. 27.

It has been proposed by certain producer organizations that the terms and provisions of such a single marketing agreement and order be those presently contained in Order No. 27 except for revision of the definition of marketing area and other appropriate modifications, and except that such terms and provisions should be changed in the following respects:

1. *Pool plant provisions.* (a) Permanent pool plant status shall be limited to those plants which are presently designated under Order No. 27, or are historically related to the Northern New Jersey market, and such status shall be permanently lost if such designation is cancelled either by request of the handler or for failure to meet the requirements with respect to sanitary operation and supplying the market during a shortage. Any other plants would be pool plants only on the basis of supplying fluid milk to the marketing area. Provision shall be made, however, for a handler to replace a plant with permanent status which is closed.

(b) Handlers may request that permanent pool plant designations be withdrawn only in the months immediately prior to the flush season. Order No. 27 presently permits withdrawal of designation by the handler only during and immediately after the flush season.

(c) Provisions for being a pool plant on the basis of supplying fluid milk to the market shall require that any plant in the pool on this basis during April, May or June shall also be a pool plant in any of the nine months of the ensuing period of July through March in which such plant utilized not less than 60 percent of its receipts from producers as fluid milk either inside or outside the marketing area (Class I-A and Class I-B combined).

(d) With respect to pricing provisions for out-of-market milk designed to discourage its being dumped into the pool,

it is proposed that the price for such milk be the Class I–A price plus 10 percent during months (July through December) when other markets have historically called on the New York pool for supplemental supplies.

(These proposals are made with the belief that other proposals, particularly for zone differentials and a base rating plan, will be effective in maintaining a tight pool.)

2. *Direct delivery differential.* A provision for direct differential shall be included and shall be in conformity with the following points:

(a) It shall be paid by the handler rather than out of the pool.

(b) It shall recognize the inherent differences between (1) Metropolitan New York and New Jersey where alternatives to direct delivery receipts are receipts from country plants, and (2) Upstate New York where country plant milk does not constitute a reasonable alternative to direct delivery milk.

(c) It shall recognize the savings in cost of handling milk through one plant rather than two.

(d) It shall recognize the savings in the fixed part of the cost of transporting milk from a country plant to a pasteurizing plant (the variable part being reflected in transportation differentials).

(e) It shall recognize the differences in costs of receiving milk by farm tank pickup and by can delivery.

3. *Base rating plan.* The base rating plan shall be designed more equitably to compensate producers who produce milk in a seasonal pattern more nearly in line with fluid requirements, rather than to limit total production. Accordingly, the proposed base rating plan is one under which:

(a) A new base for each producer is calculated annually on the basis of deliveries to a regulated plant during the months of July through November.

(b) Payment is to be made on established bases during March, April, May, and June following the base forming months.

(c) The price paid for excess milk shall be equivalent to the weighted average price of Class III milk, including butter and cheese.

4. *Transportation differentials.* An arc of basing points shall be established which shall be approximately 15 miles from Columbus Circle in New York and shall include within the arc a large part of the densely populated New York-New Jersey metropolitan area. Under this provision parts of Westchester County will no longer be in the 1–10 mile zone. Plants located in New Jersey will be zoned on the basis of distance to one of the points in New Jersey.

Concerning the rate of transportation differentials, the following is proposed:

(a) Differentials paid by handlers shall directly reflect variable transportation costs for milk of 1.4 cents for each 10 miles. This rate will apply in all zones for Class I–A and I–B milk. The differentials set forth in Order No. 27 shall apply for Class II and Class III milk.

(b) Differentials applied to producer payments for base milk shall be those paid for Class I–A and I–B milk. There shall be no transportation differential applied to producer payments for excess milk. During months when payments are not being made in accordance with the base rating plan, the differentials for plants beyond the 201–210 mile zone shall be such that the decline in price due to the transportation adjustment shall be half way between the present decline and the proposed decline for Class I–A milk.

5. *Special location differential.* A special location differential payable on base milk in those months when payment is made on the basis of established bases, and on all milk in other months shall be included which meets the conditions set forth below:

(a) The amount of differential should decline as the percentage utilization of milk in fluid classes increased, and the differential would increase as the percentage utilization in fluid classes declined.

(b) The rates should decline as the established mileage zones increased, and should taper off to about the 111–120 mile zone beyond which no differential would be paid.

(c) The specific rates shall be as set forth in the following table:

PERCENTAGE UTILIZATION IN CLASS I

Mileage zone	Under 45	45 to 50	50 to 55	55 to 60	60 to 65	65 to 70	70 to 75	75 to 80	Over 80
	8	7	6	5	4	3	2	1	0
1–50	0.64	0.56	0.48	0.40	0.32	0.24	0.16	0.08	0
51–60	.58	.49	.42	.35	.28	.21	.14	.07	0
61–70	.48	.42	.36	.30	.24	.18	.12	.06	0
71–80	.40	.35	.30	.25	.20	.15	.10	.05	0
81–90	.32	.28	.24	.20	.16	.12	.08	.04	0
91–100	.24	.21	.18	.15	.12	.09	.06	.03	0
101–110	.16	.14	.12	.10	.08	.06	.04	.02	0
111–120	.08	.07	.06	.05	.04	.03	.02	.01	0

The entire State of New Jersey shall be considered to be in the 1–50 mile zone.

Dutchess and Columbia Counties, and the eastern halves of Ulster and Greene Counties shall be considered to be in the 81–90 mile zone.

(d) The rates shall be reduced proportionately as receipts of milk qualified for location differentials increase in relation to fluid utilization in the pool.

(e) The zones for location differential purposes shall be based on the location of the farm rather than the plant at which such milk is received.

6. *Cooperative payments.* A provision for cooperative payments for a nearby cooperative shall be in accordance with the following:

(a) Such payments shall be justified independently, and the basis for payments now provided for under Order No. 27 should not be relied upon.

(b) Provision for such payments shall be made in a manner which would not weaken the basis for cooperative payment provisions under Order No. 27.

(c) Provisions shall be made to insure that the specified services will be performed.

(d) This type of payment shall be paid to one cooperative only.

7. *Relating to peripheral milk.* Provisions of Order No. 27 now applicable under which plants become subject to regulation on the basis of fluid sales in the marketing area, and provisions for compensatory payments shall apply except that:

(a) Plants outside the marketing area with a quantity of route sales in the marketing area insufficient to subject the plant to full regulation, but with not less than 60 percent of its receipts from farmers utilized in fluid form (Class I–A and I–B combined), shall have the option of (1) being a pool plant for the month (thus becoming subject to full regulation), or (2) making compensatory payments (at the full rate presently provided under Order No. 27 on fluid sales in the marketing area).

(b) Route sales outside the marketing area from a pool plant shall be priced at the Class I–A level rather than at any higher Class I–B price which might be established for out-of-area sales in connection with proposals under point 2 above.

The above proposals have not received the approval of the Secretary of Agriculture.

Copies of this supplemental notice of hearing may be procured from the Market Administrator, 205 East 42d Street, New York 17, New York, or from the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: February 26, 1957, Washington, D. C.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 57–1581; Filed, Feb. 27, 1957; 9:33 a. m.]

[7 CFR Part 944]

[Docket No. AO–105–A11]

HANDLING OF MILK IN QUAD CITIES MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the act and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900) notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to a proposed marketing agreement and a proposed order amending the order, as amended, regulating the handling of milk in the Quad Cities marketing area. Interested parties may file written exceptions to the decision with the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed marketing agreement and order was formulated, was conducted at Rock Island, Illinois, on June 11–13, 1956, pursuant to notice thereof which was issued on May 15, 1956 (21 F. R. 3291).

The material issues relate to:

(1) Expansion of the marketing area;

(2) Qualifications for attaining pool plant status;

(3) Modification of the producer definition;

(4) Level of the Class I price;

(5) Class II and Class III milk; classification and pricing;

(6) Reduction of the Class I butterfat differential;

(7) The application of location differentials on class prices and in paying producers;

(8) Payments on unpriced milk disposed of in the marketing area from a nonpool plant;

(9) Discontinuing the requirement for making payment on milk distributed in the marketing area by a handler subject to another Federal order;

(10) Allocation of producer milk moved to a nonpool plant for custom bottling;

(11) Utilizing a base and excess plan or a "Louisville plan" for distributing returns to producers;

(12) Requiring a handler making payment to a producer of more than the uniform price to make such payments uniformly to all producers; and

(13) Miscellaneous administrative and conforming changes.

Findings and conclusions. The following findings and conclusions on the material issues are based upon the evidence in the record of hearing:

1. The marketing area as defined in the order should not be changed at this time.

As now set forth in the order the marketing area contains (1) in Iowa: the cities of Davenport, Bettendorf, Clinton, and Commanche, the townships of Davenport, Rockingham, and Pleasant Valley in Scott County, and part of Commanche township (in addition to the city of Commanche) in Clinton County; and (2) in Illinois: the cities of Rock Island, Moline, East Moline, and Silvis, and the Rock Island County townships of South Moline, Moline, Black Hawk, Coal Valley, Hampton, and South Rock Island.

Proposals made by the major producer associations in the market would expand the marketing area to include all the territory within (1) the Iowa counties of Clinton, Scott, Jackson, and Muscatine; and (2) the Illinois counties of Rock Island, Mercer, Carroll, Whiteside, and Lee.

At the hearing, producer organizations abandoned their proposals. However, various handler representatives testified that the area should be enlarged to include the suburban communities adjacent to the various cities in the market and much of the expanse of territory between Clinton and the Quad Cities. In support of their position, handlers cited the population increase in recent years in the suburban communities, the desirability of having a more contiguous marketing area and the fact that no additional handlers would be regulated by the expansion which they proposed.

Testimony in support of enlarging the marketing area was general in nature. Although there might be some justification for enlarging the area, the specific data and relevant statistics which are needed in order to take action on such a proposal were not presented at the hearing. Moreover, while handlers claimed that expansion of the area would not result in the extension of regulation to any handler not now regulated, neither did they show what benefits, if any, would accrue by enlarging the Quad Cities marketing area at this time.

2. The order should be revised to prescribe standards based on association with the market for qualifying a plant as a pool plant. As now provided in the order a pool plant is (a) any plant from which Grade A milk is disposed of on a route or through a plant store in the marketing area, (b) a plant which is owned and operated by a cooperative association and which is located in the marketing area, and (c) a plant which "regularly" disposes of Grade A milk to a pool plant from which milk is distributed in the marketing area.

The basis for determining which plants shall be pool plants under the Quad Cities order, and thereby fully subject to regulation, should be clearly set forth in the order and apply uniformly to all plants, wherever located. Pool plant status should not be determined solely on an occasional shipment of milk to the market, or on approval by a specified health authority. Such a method for determining which plants shall be subject to regulation would not provide a workable basis for administering the order in conjunction with the other provisions recommended in the decision.

Since a marketwide pool, such as is contained in the Quad Cities order, results in payment to all producers on an average utilization for the market, individual handlers are relieved of any responsibility for maintaining a high Class I utilization in order to support their pay rates to producers. Whatever utilization of milk a handler may have, his rate of payment to producers will be the same as that of all other handlers in the market. Thus, it is possible that status with respect to the pool may become a determining factor in guiding a handler's operation.

The scope of pooling or the rules for distributing the returns from Class I sales under the order must be such that the differentials over manufacturing milk values paid by users of Class I milk will serve the purpose for which they are intended. Class I milk prices of the order represent a level which exceeds the value of the milk for manufacturing uses by stated amounts. This premium, or differential, over the manufactured milk price is essential as an incentive to producers for producing milk of the quality and volume required by the market. Extra costs are involved in meeting the sanitary requirements relative to the maintenance of a dairy herd for the production of Grade A milk and in providing milk during the fall and winter months when feed and housing costs are high. Extra costs are involved also on farms since milk for fluid use must be handled through sanitary utensils and facilities, refrigerated and marketed promptly.

The extra costs thus involved for Grade A or fluid milk producers must be borne by that share of the milk which is marketed as Class I milk. Excess or "surplus" milk, although an essential part of a fluid milk business, cannot be expected to return more to producers than a manufactured milk value. The only outlet for reserve milk not needed for fluid use is in the form of manufactured products. Such products must be marketed in competition with similar products made throughout the country.

Since the production of high quality milk involves extra expenses, it is important that the amount of milk produced under Grade A inspection be no more than the minimum necessary to provide the market with an adequate and dependable supply of quality milk. To encourage more than enough production of such milk would represent an economic waste, since the expenditures involved in producing Grade A milk not an essential part of the market supply would result in no extra value to consumers.

One of the primary problems in a marketwide pool is to establish rules which will provide for the sharing of Class I sales (Class I differentials) among the producers who are an essential and regular part of the milk supply for the marketing area.

Class I prices must first be set as nearly as possible at the minimum levels which will encourage the necessary amount of milk production and the resulting returns should be distributed in such a way as to assure the market of the maximum dependable supply of quality milk which can be obtained at these prices. In order to do this, provision is made that equalization of market sales should be only to plants meeting reasonable performance standards with respect to supplying their producer milk to the market.

Performance standards should apply uniformly to all plants. Any plant, regardless of its location, should have equal opportunity to comply with the standards and thereby to participate in the marketwide pool and have its producers share in the Class I sales of the market. Any producer who meets the necessary health department requirements should be permitted, under the order, to sell his milk to plants meeting the standards of qualification. Whether or not plants and producers choose to supply the Quad Cities market will depend on the economic circumstances with which they are confronted, such as prices, transportation costs, and alternative outlets.

Performance standards should be such that any plant which has as its major function the supplying of milk to the market would pool its sales and share in the marketwide equalization. On the other hand, plants only casually, or incidentally, associated with the market should not be subject to complete regulation, nor should they be permitted or

required to equalize their sales with all handlers in the market. If a milk plant were to be permitted to share on a pro rata basis the Class I utilization of the entire market without being genuinely associated with the market, then the premiums or differentials paid by users of Class I milk would be dissipated without accomplishing their intended purpose. If a plant were to be qualified and fully regulated merely by making a token shipment of milk or cream into the market for sale as Class I milk, then any milk plant which found itself in a position where it was selling a smaller share of its milk in Class I than the average for all regulated handlers might make such shipment and receive equalization payments from the pool. The only qualification such a plant would be required to meet would be compliance with the necessary health department standards.

The mere circumstance of having obtained health department approval, plus the token shipment of milk, is not sufficient justification for equalizing the sales of such plant with the market. There are many plants having milk of suitable quality for sale in the marketing area which are in no way, or are only incidentally, associated with the market. Different health authorities have jurisdiction in various parts of the marketing area. In the absence of performance standards, approval by any one of these authorities or reciprocal acceptance of permits by them would entitle a plant to participate in the equalization pool. A health officer gives his approval to a plant in terms of sanitary consideration. There is no reason to think that he would make his determination of approval only on the economic bases contemplated by the Agricultural Marketing Agreement Act of 1937. Consequently, the standards appropriate to the act for determining pool plant qualification must be set out in the order.

Since reserve milk is an essential part of any fluid milk business there will always be some excess milk in the plants of handlers supplying other markets. This will be particularly true in the months of flush production. Plants selling primarily to other markets, or plants shipping milk on an opportunity basis to any market where supplies happen to be short, do not represent sources of milk on which the Quad Cities market may depend. If such plants were allowed to sell a token quantity of milk in the marketing area and pool their surplus whenever Class I outlets were not available to them, the result would be that such handlers could gain an advantage in paying producers through receipt of equalization payments from the Quad Cities pool.

The Quad Cities market, however, would gain no advantage from the payment of equalization to such a handler. Such a distribution of equalization payments would, in fact, reduce the blend price to producers regularly supplying the market, thereby having an adverse effect on the milk supplies upon which the market depends. This could result in the need for higher Class I prices than would otherwise be required to supply the market adequately.

Performance standards must be flexible enough to allow a plant which is primarily associated with the market to maintain its association with the pool under the changing conditions which occur from year to year, and yet not permit the distribution of equalization payments to plants not part of the essential supply. The performance standards herein provided are such that these objectives should be accomplished.

Because of the difference in marketing practices and in demands for supply of milk from distributing plants as related to supply plants, two sets of performance standards have been provided. A "distributing plant" under the order would be defined as a plant in which milk is processed or packaged and from which any fluid milk product (as hereinafter defined) is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) located in the marketing area. "Supply plant" would be defined to mean a plant (except a distributing plant) from which milk, skim milk or cream which is acceptable to the appropriate health authority for distribution in the marketing area under a Grade A label is shipped during the month to a distributing plant which is qualified as a pool plant.

In order to qualify as a pool plant, a distributing plant should be required to distribute at least 15 percent of its milk from producers and other plants during the month as Class I milk on retail or wholesale routes to outlets in the marketing area.

A distributing plant having more than 85 percent of its business outside the marketing area or in other outlets should not be considered as essentially associated with the market. It is not considered advisable to bring such a plant under full regulation because of the minor share of its business which is in the marketing area. Full regulation in such case would not be necessary to accomplish the purposes of the order, and might well place such plant at a competitive disadvantage in relation to its competitors in supplying the unregulated market.

Such a minimum is necessary also to avoid the possibility that a plant otherwise not associated with the market might qualify itself for equalization payments to its own advantage, and to the disadvantage of the market, by means of minor sales in the marketing area.

It is contemplated that only plants primarily engaged in route distributions of fluid milk products should be qualified as pool plants under this definition. In order to preserve this distinction, a further condition is placed on distributing plants that their total distribution of Class I milk on routes to wholesale or retail outlets, both inside and outside the marketing area, must amount during the month to at least 35 percent of their receipts of milk from dairy farmers and from other plants. Any plant which does not qualify on this basis should be deemed to be primarily a supply plant and its status under the pool should be judged by the standards applied to such plants.

The various plants handling milk for fluid distribution in the marketing area dispose of their milk in such a way as to exceed by a considerable margin the minimum performance standards necessary to qualify as pool plants. There may from time to time be plants supplying milk to the marketing area which would not qualify for pool status. Such plants would be subject to payments hereinafter discussed if they are not fully subject to regulation.

The performance standards for supply plants to qualify for pool plant status should reflect the fact that currently the quantity of milk produced for the Quad Cities market is adequate on an annual basis for the needs of the market. At times, especially during the months of seasonally high production, distributors in the market have not needed all of the milk available from producers in order to keep their Class I outlets fully supplied. In order to assure that all the producers' milk which is pooled with the market will be available for Class I, supply plant standards should be set at levels which require that the milk will be available. However, if conditions in the market should change so that the percentage standards herein recommended are not necessary to assure the availability of such producer milk for Class I sales, the recommended standards should be subject to further review.

Under present circumstances it is concluded that in order to qualify for pool plant status a supply plant should ship to distributing plants at least 35 percent of its receipts of milk from dairy farmers in any month in the form of supplemental supplies of fluid milk products, as hereinafter defined. A supply plant from which a proportionately lesser quantity of milk is disposed of in this manner should not, under the present conditions in the Quad Cities market, be considered as primarily associated with the regulated market.

It is recognized that the demand for milk from supply plants may vary seasonally and will be greatest during the season of low production. For sustained periods during the months of flush production supplies of milk received at plants located in or near the marketing area may be sufficient to supply the Class I outlets. During this part of the year, it would be more economical to leave the most distant milk in the country for manufacture, and use local supplies for Class I use. The performance provisions should not force milk to be transported to distributing plants in the summertime in order to maintain the eligibility of supply plants to pool.

To avoid this, provision should be made whereby a supply plant may maintain pool plant status throughout the year if it supplies a substantial portion of its producer milk to distributing plants during the months when milk production tends to be lowest. The proposed standards require that a supply plant provide distributing plants with milk to the extent of 50 percent of its producer milk receipts during the period of September through November to maintain automatic pool status for the months of March through June.

Any distributing plant or supply plant which does not meet the standards for a pool plant should be required to file reports and submit to audits by the market administrator to verify the status of such plant.

A finding is made elsewhere in this decision (Issue No. 9) that when milk distributed in the marketing area is from plants which dispose of a major portion of their receipts in another regulated area and which are fully subject to the classification, pricing and pooling provisions of another Federal milk marketing order, it is not necessary to extend full regulation under this order to such plants. To do so would subject such plants to duplicate regulation. However, in order that the market administrator may be fully apprised of the continuing status of such a plant, the operator thereof should, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator.

A proposal at the hearing would define as a "reload point" a location at which milk received at producers' farms in a tank truck is transferred to another truck for delivery to a milk plant and would give the status of a plant location to the reload point. Such a provision, besides being of doubtful value for the Quad Cities market, would tend to make unnecessarily complex the application of the pool plant provisions herein recommended. Accordingly, the proposal made regarding a reload point is denied.

3. Producer should be defined as any person, except a producer-handler, who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority, which milk is (a) received at a pool plant or (b) diverted from a pool plant to a nonpool plant for the account of either the operator of the pool plant or a cooperative association (1) any day during the months of April through June, and (2) on not more than one-half the days on which milk was delivered from a farm during any of the other months.

As now provided in the order, to qualify as a producer a dairy farmer must ship to a pool plant and have the approval of the health authority of a municipality in the marketing area or meet the requirements for "Illinois Grade A". Once a person has qualified as a producer his production may be diverted from a pool plant to a nonpool plant at any time during the year and for any period of time. In effect, it is now possible for a dairy farmer to be a producer under the order even though his milk is delivered continuously to a nonpool plant.

Findings are made elsewhere in this decision justifying the establishment of pool plant qualifications based on standards of association with the market and for requiring compensatory payments on unpriced milk received at a pool plant or distributed in the marketing area from a nonpool plant. Accordingly, the producer definition in the order should be revised so as to complement these other provisions.

Whether a farmer qualifies as a producer under the order is based on whether the plant to which he ships is qualified as a pool plant. Under the pool plant definition herein proposed, a plant's qualification as a pool plant is determined on the basis of a minimum specified percentage of the milk received at such plant being distributed as Class I in the marketing area or, in the case of a supply plant, on the basis of a minimum specified percentage of its milk receipts having been shipped to a distributing plant which is a pool plant. If a handler were permitted to divert producer milk in any month and for any length of time to a nonpool plant as now permitted in the order, it would be extremely difficult, if not impossible, to effectuate properly the intent of the pool plant provisions and the provisions relative to payments on unpriced milk.

When producer milk is not needed in the market for Class I purposes the movement of such milk to nonpool plants for manufacturing purposes should be facilitated. Allowing for unlimited diversion only during those months when reserve supplies of milk are heaviest will contribute to this end. Unlimited diversion is neither necessary nor desirable during the months of the year when milk of producers regularly associated with the market is needed to supply the Class I needs of the market. It is necessary, however, to provide for limited diversion during such months to enable handlers to divert producer milk on such occasions as week-ends or holidays when milk is not needed in the market for Class I purposes.

Provision should be made so that milk of producers regularly received at a pool plant may be diverted for the account of a handler to a nonpool plant any day during the months of flush production and with respect to not more than one-half of the days on which milk was delivered from a farm during any of the other months and still retain producer status under the order. As heretofore provided in the order, diverted milk shall be deemed to have been received at the plant from which it was diverted.

Several of the proposals made at the hearing would require that only those dairy farmers who are under the inspection of specified health authorities would be eligible to qualify as producers under the order. One such proposal would revise the present provision of the order so that a shipper under "Illinois Grade A" inspection could not qualify as a producer. Another proposal would revise the scope of the producer definition to include dairy farmers meeting the standards for Grade A of the State of Iowa Health Department. The limitations that would be imposed by designating specified health jurisdictions which shall have the authority to determine which milk shall be subject to regulation under the Quad Cities order would be incompatible with the various other provisions contained in the attached order. The proposals with respect to such limitations are hereby denied.

4. The Class I price should be related directly to the Chicago order Class I price and be fixed each month at the level of the Chicago Class I price plus 20 cents.

The order currently provides that the Class I price shall be the higher of either (a) the Class II price for the preceding month plus a differential of 75 cents for May and June, 95 cents December through April, and $1.15 July through November; or (b) the Chicago order Class I price plus 20 cents.

The Chicago milkshed is one of the principal milk production areas in the United States. At various times throughout the year, especially during the months of low production, milk from this area is shipped great distances to many markets throughout the country. The Chicago order Class I price is used extensively as a recognized price quotation both locally and nationally. It is not uncommon to fix Class I prices in a market on the basis of the price in a major milk marketing area, such as Chicago, or on the basis of obtaining alternative sources of supply from such major market.

Portions of the production area for the Quad Cities and Chicago markets overlap and producers in such localities may shift from one market to the other. Likewise, handlers in the Quad Cities market compete in some localities with handlers under the Chicago order as well as with handlers regulated by other Federal milk marketing orders. In order to insure the maintenance of an adequate supply of milk for the Quad Cities market, it is necessary that an appropriate alignment of prices between markets prevail and that the level of such prices be equitable among handlers whose sales area overlap but who are regulated by different orders.

For June 1956, the Quad Cities order Class I price of $4.34 (Chicago Class I price plus 20 cents) was 59 cents above the price obtained by using the other alternative Class I formula (based on the Quad Cities Class II price for the preceding months). In March 1956, the most recent month for which the Class I price was that based on the Class II price, it was 9 cents above the formula which uses the Chicago Class I price. In the 54 months from January 1952 through June 1956, the Chicago Class I price plus 20 cents averaged $4.31 and was used in 44 months as the Quad Cities order Class I price. The alternative formula based on the Quad Cities order Class II price averaged $4.21 and was used in 10 months as the Class I price.

The Class II price under the Quad Cities order, which is based on the prices paid by local manufacturing plants for ungraded milk, is a measure of the value of milk for manufacturing locally. The Chicago order, on the other hand, does not use the prices paid by these local manufacturing plants to arrive at its Class I price, but uses instead a "basic formula price" which reflects the value of milk for manufacturing purposes nationally. Such a basic formula price is utilized widely in determining Class I

prices in many of the other Federal order markets. As such, it may be expected to be a most appropriate determinant for use in establishing the Class I price each month in the Quad Cities market, especially since handlers in this market must compete in various localities with handlers whose Class I prices are fixed by other orders. Unless handlers regulated by the Quad Cities order are able to anticipate and project the prices they will be required to pay for Class I milk in relation to recognized and established price quotations used in major markets, they will be at a disadvantage with handlers from other markets in competing for Class I sales beyond the confines of the marketing area. Determining the Quad Cities order Class I price on a direct relationship with the Chicago order Class I price and deleting the provision for the alternative Class I formula which uses the prices paid by local manufacturing plants (i. e. the Class II price) will provide a more economically sound basis for determining the Quad Cities order Class I price and thereby contribute toward insuring the maintenance of orderly and stable marketing conditions.

A proposal made by producers would maintain the two alternative formulas now used in arriving at the Class I price and would fix the differential over the Class II price at $1.15 throughout the year, a rate 15 cents more annually than the order now provides. In connection with their request for discontinuing seasonal pricing, producers proposed the incorporation of a "Louisville plan" provision in the order (Issue No. 11). Such a plan provides for setting aside a portion of the payments made by handlers for producer milk received in the spring months of heavy production for distribution to producers for milk produced in the fall months.

Seasonal pricing of Class I milk is provided in the nearby Federal order markets. Quad Cities order handlers must compete with handlers under such other orders in various localities in the procurement of supplies and in the sale of Class I milk. It would be impracticable to eliminate seasonal pricing in the Quad Cities order when the other regulated nearby markets retain such seasonal pricing.

Currently, supplies of milk for the Quad Cities market in relation to its Class I needs are adequate. Producer deliveries of 101.5 million pounds of milk in the first five months of 1956 were 12 million pounds, or 14 percent, above that for the corresponding months of 1955. Class I disposition of 53.3 million pounds in the same 1956 period increased by 3 million pounds, or 6 percent, over the previous year.

Producers cited as their principal reasons for requesting a higher Class I price, (1) rising production costs, and (2) declining uniform prices resulting from larger volumes of milk being pooled. The fact of increasing supplies in relation to Class I sales in this market is adequate proof that Class I prices should not be increased at this time. Accordingly, the proposal to increase the level of the Class I price is denied.

5. Class II milk should include all the butterfat and skim milk heretofore defined as Class II and Class III milk.

As now provided in the order, Class II milk includes all skim milk and butterfat (a) used to produce evaporated milk, condensed milk, ice cream, ice cream mixes, frozen desserts, yogurt, aerated cream products, cottage cheese and any other milk product not specifically mentioned as a Class I or Class III disposition, and (b) disposed of to wholesale bakeries, candy manufacturers, or soup companies. Class III milk is skim milk and butterfat (a) used to produce butter, cheddar cheese, animal feed, casein, and non-fat dry milk solids, and (b) in shrinkage up to 2 percent of the milk received from producers and shrinkage in other source milk.

The Class II price under the order is the average of the prices paid by 7 nearby manufacturing plants (6 in Illinois and 1 in Iowa), for milk received from dairy farmers from the 16th day of the preceding month to the 15th day of the current month. The Class III price is the higher of the prices obtained from two separate formulas which use as their basis (a) the price of "Cheddars" on the Wisconsin Cheese Exchange, and (b) the 92-score Chicago butter price and the price of non-fat dry milk solids, f. o. b. manufacturing plants in the Chicago area.

The amount by which the Class II price exceeds the Class III price varies from month to month. On infrequent occasions, the Class III price has exceeded the Class II price. From 1952 through 1955 the average Class II price of $3.20 was 13 cents above that for Class III. The May 1956 Class II and Class III prices were $3.00 and $2.84, respectively.

The skim milk and butterfat components of Class II and Class III milk are priced by adjusting the announced prices, which are on a 3.5 percent butterfat basis, by their respective butterfat differentials. The Class II butterfat differential is obtained by multiplying the Chicago butter price for the month by 0.120 and that for Class III is calculated by subtracting 6 cents from Chicago butter price, and multiplying the resultant value by 0.120. The Class III butterfat differential for May 1956 was equivalent to 0.108 times the Chicago butter price.

The average difference between the Class II and Class III butterfat differentials from 1952 through 1955 was 0.8 cents per point. The spread of 0.7 cents per point between the May 1956 Class II and Class III butterfat differentials of 7.1 and 6.4 cents, respectively, is equivalent to 7 cents per pound of butterfat and 24.5 cents per hundredweight of 3.5 percent milk. Since the announced Class II price for May 1956 exceeded the Class III price by less than 24.5 cents, the skim classified in Class II was priced at a lesser rate than the skim milk in Class III—51.5 cents compared to 62.4 cents per hundredweight. For 1955 the Class II skim milk price under the order averaged 56.5 cents and that for Class III 63.7 cents.

Various proposals were made to revise the order with respect to assigning different proportionate values to the skim milk and butterfat in Class II and Class III milk. Producers proposed that a separate classification be established for skim milk utilized in the manufacture of cottage cheese and that such skim be priced 25 cents per hundredweight above the skim utilized in Class II. Another proposal would fix the price of skim milk in Class II utilizations at not less than the equivalent of the Class II price for skim milk. There were no proposals to raise the over-all level of the Class II price, but both producer and handler representatives testified that some upward adjustment should be made in the level of the Class III price.

Utilization of pooled milk in Class III is highest in the spring months of heavy production. Of the 8.2 million pounds of producer milk classified in Class III in 1955, 5.2 million pounds, or 63 percent, were thus classified in the months of April, May and June. Although Class III represented only 4 percent of the volume of milk pooled in 1955, the pounds of butterfat in Class III was 17.5 percent of the total butterfat classified.

Revising the Class III price in accordance with some of the proposals made at the hearing would result in its being higher than the Class II price much of the time. It was not established, however, that milk utilized for Class III purposes in the lower valued outlets, such as butter and cheese, could find ready markets throughout the year at a significantly increased price level.

It is recognized that some milk in excess of Class I requirements is necessary to maintain an adequate supply of fluid milk for the market on an annual basis. The price for such milk should be maintained at the highest level consistent with facilitating its movement to manufacturing outlets when it is not needed in the market for Class I purposes. The price, however, should not be so low that handlers will be encouraged to procure milk supplies solely for the purpose of converting them into manufacturing products. Moreover, the price for such excess milk should not be so unreasonably high as to impede or preclude its acceptance at the usually available outlets or so as not to be competitive with milk for manufacturing purposes from alternative sources of supply.

The utilization of skim milk for manufacturing purposes in the Quad Cities market is predominantly in the higher valued manufacturing products, such as cottage cheese. Skim milk thus utilized has heretofore been classified as Class II. As indicated above, however, producers have been receiving a lesser price for such skim than for skim utilized in the production of nonfat dry milk solids (Class III).

Health authorities in the marketing area do not require that skim milk utilized in other than Class I products be obtained from milk or milk products from approved Grade A sources. The prices received by handlers in the Quad Cities market for such products as skim milk powder is established on the basis of quotations at nationally recognized exchanges for trading. Prices thus established are not quoted on the basis of whether a manufactured milk product is made from Grade A or ungraded milk. This is also true with respect to skim milk utilized in the manufacture of cottage cheese, one of the major dispositions of skim milk in the Quad Cities market.

Handlers in the market who distribute cottage cheese over a wide geographic area compete with handlers selling cottage cheese made from ungraded milk. If the price of skim milk utilized in the manufacture of cottage cheese were raised 25 cents per hundredweight, as proposed, it could result in skim milk from ungraded sources displacing pooled skim in such outlets. Moreover, in supplying the various retail or wholesale outlets both inside and outside the marketing area, handlers utilizing pooled skim milk in the manufacture of cottage cheese would be at an economic disadvantage with competitors using ungraded skim milk in the manufacturing of cottage cheese.

The value of skim milk for manufacturing purposes in the Quad Cities area, irrespective of its source, is above the Class II value of skim milk now provided in the order. During May 1956, when the Class II value of skim milk under the order was 51.5 cents, the Kraft Food Company at one of its nearby plants was paying 90 cents per hundredweight for skim milk. While it was not established that an unlimited market for skim milk would be available at 90 cents per hundredweight, or at a similar level, evidence at the hearing indicated that the proportion of the Class II price now assigned to skim milk results in a price below the market value in the area for skim milk from graded or ungraded milk.

Since skim milk from any source may be used in the various dispositions heretofore contained in Class II or Class III, it is concluded that the price of skim milk in all such dispositions should be fixed at the same level and be classified in Class II.

In reapportioning the Class II price between the skim milk and butterfat thus classified, in conjunction with combining Class II and Class III milk into one class, it is necessary to fix a price for butterfat which will, insofar as is practicable, return the highest price obtainable to producers for such butterfat and at the same time be sufficiently competitive with butterfat from alternative sources of supply so as to maintain a ready and dependable market for excess butterfat throughout the year. This will be best effectuated by pricing butterfat in producer milk classified in Class II at 115 percent of the Chicago butter price in the months of July through March and at 110 percent of the Chicago butter price in April, May and June.

Historically, utilization of butterfat in the manufacture of butter and American type Cheddar cheese in the Quad Cities market has been greatest in the months of heavy production. During these months the lower butterfat differential herein provided (about 3 cents per pound of butterfat less than in other months and about 1.2 cents per pound of butterfat above the Class III price for butterfat now in the order) will facilitate the movement of butterfat in the reserve supplies of milk to manufacturing outlets and thereby eliminate the potentialities of unstable marketing conditions which milk without a market tends to create. In other months of the year the butterfat value of 115 percent of the Chicago butter price should be high enough so as not to give an unnatural incentive to the movement of butterfat to the manufacture of butter and Cheddar cheese at the expense of preferred outlets such as for condensed milk and frozen desserts. Moreover, at a rate of 115 percent of the Chicago butter price during the months of July through March, the cost of butterfat in the Quad Cities market will be competitive with butterfat from alternative sources of supply.

The pricing of skim milk which would be obtained in reapportionment of the Class II price between skim milk and butterfat as herein recommended would be 13 and 5 cents per hundredweight, respectively, above the Class II and Class III prices for skim milk now provided in the order. This change together with that applicable to the assignment of a lower proportionate value of the Class II price to the butterfat classified therein gives recognition to the value of skim milk and butterfat for manufacturing purposes in the Quad Cities area and will be helpful in maintaining stability in the market.

Handlers have inventories of milk and milk products at the beginning and end of each month which enter into the accounting for current receipts and utilization. It has been the practice under the Quad Cities order to classify in the lowest class (usually Class III) the differences by which the volume of butterfat and skim milk in fluid milk products at the end of the month exceed the inventory at the beginning of the month. This practice of classifying inventory variations in the lowest price class should be continued and provision therefor should be clearly set forth in the order.

The accounting procedure will be facilitated by providing that month-end inventories of all fluid milk products be classified in Class II milk, regardless of whether such products are held in bulk or in packages. Inventories of such products on hand will then be subtracted under the allocation procedure from any available Class II milk in the following month. The higher use value of any fluid milk products in inventory which are allocated to Class I milk in the following month should be reflected in returns to producers. The mechanics of the attached order provide for the reclassification of inventories on that basis.

Inventories of products designated as Class I milk on hand at a pool plant at the beginning of any month during which such plant becomes a pool plant for the first time should likewise be allocated to any available Class II utilization of the plant during the month. This will preserve the priority of assignment of current producer receipts to current Class I use.

6. The rate of the Class I butterfat differential should be changed. The differential is now computed by multiplying the average of the daily quotations for 92-score butter at Chicago for the preceding month by 0.140. As provided herein, the factor of 0.140 would be replaced by 0.125.

The Class I butterfat differential in the Quad Cities order is high in relation to the Class I butterfat differential in other markets. As an example, under the Chicago order (with which market Quad Cities handlers have overlapping supply and sales areas) handlers pay a butterfat differential on Class I milk approximating the Chicago 92-score butter price times 0.120.

The high Class I butterfat differential, it was claimed, has been one of the principal reasons for the rapid and continuing decline in the proportion of butterfat contained in the Class I disposition in the market. This decrease of butterfat in Class I utilizations is reflected in the declining fluid cream sales and in a low butterfat content of fluid milk distributed in the market.

A high butterfat differential tends to be a deterrent to increasing the butterfat content of fluid milk products distributed by Quad Cities handlers. The declining proportion of butterfat in the various products in the market is indicated by the average butterfat content of all Class I disposition of 3.75 percent in 1952, 3.63 percent in 1953, 3.60 percent in 1954, and 3.59 percent in 1955.

In the Quad Cities, as in other markets, whole milk in fluid form is the most significant item making up the Class I sales in the market. In May 1956 (the most recent month for which information was available at the hearing) 8.8 of the 10.7 million pounds of the Class I disposition was in the form of whole milk. The average test of this whole milk disposition was 3.425 percent.

The change proposed herein gives recognition to the increasing value of the non-fat solids portion of the milk for fluid purposes in relation to the butterfat portion. The lower rate of the butterfat differential should give some encouragement to the sale of higher fat milk and of cream.

7. It was proposed at the hearing that handlers be allowed a location differential with respect to milk moved from the plant at which it is received from producers to a processing plant. Some of the milk normally supplied to the marketing area is received by handlers at a distance from the plant at which the milk is processed and distributed.

The principal supply plants which are currently pool plants under the order are located at Coggon, Iowa, Mt. Carroll, Illinois, and Manlius, Illinois, and are approximately 95, 62, and 60 miles, respectively, from Rock Island, Illinois, one of the larger cities in the marketing area.

At the present time, all handlers are required to pay the same minimum class prices for milk received from producers regardless of the location of the pool plant at which the milk is received. Consequently, milk received at a supply plant and moved to a plant in the marketing area for processing and packaging may be expected to be more costly to a handler than milk received directly from producers at his processing plant in the marketing area. Likewise, producers delivering milk to supply plants

located at some distance from the marketing area are, in accordance with the present provisions of the order, paid the same uniform price as producers delivering directly to processing plants in the marketing area. On the average, producers shipping to country plants, or supply plants, are significantly closer to the plants to which they deliver than are producers shipping directly to plants in the marketing area. The hauling charges paid by producers shipping to the country plants are less than are paid by producers delivering to marketing area plants and also are below that which the country plant shippers would be required to pay to have milk delivered directly to the marketing area. In effect, therefore, supply plant producers who are farther away from the market receive a better net return for their milk than direct delivery shippers.

Periodically throughout the year, when milk is not needed in the market for fluid use, it is kept at the supply plant in the country for manufacturing purposes. This practice should be encouraged since it is economically more feasible to meet the needs of the market for fluid purposes from those farms or plants nearest the market before bringing in milk from the more distant supply plants. The value of milk to the market for fluid purposes is greater at the location of a plant in the marketing area which packages it for distribution than at a country plant in the production area from which milk must be moved to the city plant for processing and packaging. Recognition in the order, through the medium of a location differential, should be given to this difference in value.

So as to be equitable to all handlers, the minimum Class I price to be paid for producer milk should not be dependent upon the type of plant receiving the milk. However, to the extent that milk is received elsewhere from producers and brought to the marketing area by a handler, the handler has assumed a transportation cost which might otherwise be borne by producers. Accordingly, the Class I price should be adjusted downward in the case of a plant which assumes the cost of hauling milk to the marketing area.

Producers proposed that the Class I price at a pool plant be reduced 2.5 cents for each 15 miles or fraction thereof that such plant is more than 40 miles from the city hall of Rock Island, Illinois. This rate is somewhat below the actual cost of hauling milk by tank truck. Testimony at the hearing indicated a cost of 14 cents per hundredweight for hauling milk in a 35,000 pound capacity tanker the 62 miles from Mt. Carroll to Rock Island. A rate of 12 cents per hundredweight was paid for moving milk in a 21,500 pound tanker over the 60 mile route from Manlius to Rock Island. The rate charged for a haul of 60 miles by the Dairyland Transport Corporation, Springfield, Missouri, a company specializing in hauling milk and milk products in tank trucks, is 13 cents per hundredweight.

The various supply plants now associated with the Quad Cities market are in some instances located much nearer to other markets. The plant at Coggon, Iowa, for example, which is about 95 miles from Rock Island, is less than 25 miles from Cedar Rapids. It was emphasized at the hearing that the location differential should not be established at so high a rate that milk from these plants, which are now under the order, would be lost to other markets.

Producers admitted that the location differential proposed would not generally cover the full cost of bringing milk into the market. In justification of this, they stated that too large an adjustment would affect adversely returns to producers delivering to the supply plants in relation to the price in adjoining markets.

It is customary in both regulated and unregulated markets for handlers to pay producers delivering milk to country receiving stations a lesser price per hundredweight than is paid producers delivering directly to bottling plants. To the extent that this represents a lower price because of the location of the milk, such difference in value should be recognized under the order. It is concluded, therefore, that the Class I price should be reduced by 10 cents for the first 65 miles and by 1.5 cents for each additional 10 miles or fraction thereof with respect to producer milk received at a plant which is not less than 50 miles from a central place in the primary center of consumption in the marketing area. Rock Island, Illinois, is such a place in the Quad Cities marketing area.

The location differential herein recommended is economically sound and will be equitable to all handlers wherever located. The proposed rates are representative of the cost of hauling milk by an efficient means to the market.

Prices paid producers supplying plants to which location differentials apply should be reduced to reflect the lower value of such milk f. o. b. the point to which delivered.

No adjustment should be made in the Class II price because of the location of the plant to which the milk is delivered. There is little difference in the value of milk for manufactured uses associated with the location of the plant receiving the milk. This is true because of the low cost per hundredweight of milk involved in transporting manufactured products. The prices paid for ungraded milk received at various sections of the milkshed do not indicate any difference in value associated with location.

After a handler receives milk for Class II use, he should be expected to handle and dispose of the milk in the most advantageous possible manner. Prices paid producers for such milk should not be made dependent upon the method employed by the handler in disposing of such milk. To do otherwise would remove part of the incentive for keeping handling costs at a minimum. To insure that milk will not be moved unnecessarily at the expense of producers under the marketwide pool, the order should contain a provision to determine whether milk transferred between plants may receive the location differential credit. This should provide that any milk transferred be assigned to any Class II use remaining in the transferee plant after a maximum assignment of 5 percent of the direct producer receipts to Class II milk at such plant.

8. The order should provide that payments be made into the producer settlement fund with respect to milk not priced under the order which is allocated to Class I milk in a pool plant.

Receipts of milk in excess of actual Class I disposition is necessary to operate a fluid milk business. Because of seasonal fluctuations in production not matched by seasonal changes in consumption, this excess is particularly large in certain months of the year. Such excess or reserve milk is surplus to the fluid operation, and can be marketed only in manufactured form in competition with products made from ungraded milk. Thus, such reserve milk yields a considerably lower return than is necessary to sustain graded milk production for the Quad Cities market. Likewise, it yields a lower price than would be necessary to purchase graded milk on a regular basis in other supply areas and pay the cost of transportation to the marketing area.

The existence of this reserve Grade A milk, which must be marketed at a lower price, is the primary cause of the instability which may affect all fluid milk markets. If a handler is able to use milk he purchases at Class II prices for Class I use, he stands to gain advantage, but in so doing he demoralizes the Class I market price.

An important function of the order is to insure that the position of handlers paying producers a Class I price for fluid milk will not be undermined by other handlers using the market's excess or surplus producer milk for Class I use. It is equally important that the Class I market be protected from the use of seasonal or other excess milk from other markets as well as from its own surplus. If the order failed to provide such protection, a handler could curtail purchases of producer milk to his own advantage and secure low cost reserve supplies from other markets for Class I use.

Seasonal supplies are easily and cheaply acquired during the months of flush production when most markets are receiving milk greatly in excess of their current fluid needs. If adjacent milksheds dispose of seasonal surplus in each other's Class I markets, the result will soon be market chaos, particularly in the spring months. Class I prices would be demoralized and the rate of milk production for both markets on a permanent basis would be seriously impaired. Such marketing conditions would be contrary to the stated purpose of the act. It is necessary, therefore, in order to insure the effectiveness of the classified pricing program and to promote orderly marketing, that some measure be taken to remove the incentive which handlers have to acquire unpriced milk and undermine the Class I pricing structure.

One possible alternative would be to extend price regulation in accordance with order provisions to all milk plants which supply milk either directly or indirectly to the Quad Cities market. This alternative is both economically and administratively unacceptable within the framework of the order. It would open the market pool to anyone who supplied merely a token quantity of milk to a plant serving the marketing area. The objections to such distribution of pooled funds was discussed earlier in the decision in connection with the recommendations for standards of pool participation.

Such regulation would have the further disadvantage of being cumbersome, expensive, difficult to enforce, and it would interfere with the acquisition of needed supplemental milk supplies for the market. It would not be possible or desirable to limit the number of plants or area from which milk might be purchased. However, in order to bring such plants under regulation, it would be necessary to establish individually tailored transfer and allocation rules according to the various plant locations, markets and supplies. Milk would have to be accounted for in its disposition from these plants to its various destinations and uses to determine classification. Also, it would be necessary to ascertain sources of supply other than receipts directly from farmers and determine what priority should be given such supplies in the allocation of Class I milk. In the case of a plant which made an incidental shipment of milk, perhaps at the end of the month, or in the case of such items as storage cream, additional complications would be involved. Earlier inventories as well as sales would have to be ascertained and classified. Classification might depend upon transactions made in the past concerning which adequate records were not kept. Producer prices would be fixed for milk already purchased and sold. Required record keeping and auditing problems would be greatly multiplied with such regulation.

It is concluded that it is not feasible to price all milk which may enter the market and that provision is necessary in the order which will insure against the displacement of producer milk by such unpriced milk for the purpose of cost advantage. There is no choice as to what type of provision can be used for this purpose. The only alternative available under the order is to levy a charge against unpriced milk used in Class I to whatever extent is necessary to remove the advantage there may be in using such milk instead of priced milk from producers.

Several problems are involved in formulating the provisions for any charge or payment designed to bring about the removal of the advantage of using unregulated milk. The rate of payment for this purpose must not be so low that it will permit a handler to have temporary or permanent advantage through sale of unpriced milk as Class I in the marketing area. It should not be so high that it will penalize suppliers of unpriced milk who offer milk needed by the market and who are not in a position of gaining an unfair advantage by such sale of milk. The payment must be provided for in a manner which is administratively feasible and which does not bring about unjustified administrative inconvenience or expense.

One method of setting the rate of payment would be to ascertain the actual cost to the regulated handler of milk which he purchases from unregulated plants and charge as a compensation payment any amount by which the Class I price exceeded the cost of the unregulated milk used in Class I. Such a scheme is not sound from the standpoint of administrative feasibility and it would not necessarily remove the advantage in using unregulated milk even though it were feasible. Rates at which milk sales are billed may not represent actual cost to the purchaser. In the case of a firm which owns or controls pool plants under the proposed order as well as unregulated plants, the rate of payment from one plant to another, if any were made, would have little or no significance.

If such a provision were to be adopted, the billing rate might be deliberately set in each instance at a level which would avoid any payments without regard to the value of the milk. Thus, the intended effect of this provision might be circumvented by merely adjusting the bookkeeping procedure.

A handler having no unregulated plants would no doubt find it possible to arrange a billing price on purchased milk which would avoid any compensatory payments. If a handler had the choice of paying money to the marketwide pool or to a person from whom he was buying milk, he would probably choose the latter. A kick-back arrangement or offsetting purchase and sale might readily be arranged, perhaps through a third party. Since the billing price for milk would be self-serving figure for both parties to the transaction, it would be virtually impossible to ascertain that it represented the true cost to the purchaser.

If the stated purchase price were a true cost, it would still not fulfill the purpose of removing the advantage to unregulated milk to base compensation payments on the difference between such price and the Class I price. Sales of priced milk between regulated handlers ordinarily take place at the class price plus a handling charge. This handling charge varies according to circumstances, but represents a payment to the receiver of the milk to offset his purchasing and receiving costs, such as dumping, weighing, testing, and cooling the milk, paying producers, and other costs of doing business. The cost of receiving the milk in bulk form is somewhat less than receiving it from producers. Thus, in order to remove the advantage to unregulated milk, it would be necessary to provide that the cost of bulk unregulated milk be somewhat more than the Class I price. It would be exceedingly difficult to determine what this rate should be, particularly in the case of products such as condensed skim milk and cream, where the allocation of additional processing costs among more than one end product is involved. This scheme for removing the advantage in using unregulated milk is rejected for these reasons.

Another suggested method is to determine the price actually paid dairy farmers by the unregulated milk dealer who first received the milk, and base the compensation payment thereon. This method has several shortcomings. The various payment plans which are used in paying farmers for milk would make the determination of pay rates to individual farmers an exceedingly difficult task. For example, unregulated milk dealers may use varying rates of butterfat differentials, different types of base rating plans, or payments based on volume of deliveries. Various devices such as these for paying farmers often make it impossible to determine actual rate of payment per hundredweight of milk. In this case as with bulk milk purchases stated prices are often illusory. The cost of the milk itself may be modified by unrealistic charges for various items of supplies and services. A milk dealer affected by such a provision might increase his producer price and increase hauling rates an offsetting amount. Whatever payment plan an unregulated milk dealer may use is a matter of his own choice and it can be changed readily. Pricing or paying arrangements he may have with farmers are not subject to regulation. Calculation of compensation payments according to this suggestion would give any affected dealer special incentive to resort to these special payment plans suggested here or others he might devise for purposes of evading payments.

The further problem of establishing the rate of payment to be required would in itself preclude use of the actual cost of the milk purchased from farmers by unregulated handlers as a basis for calculating the payment to be required. If a payment were to be required on the unregulated milk based on the difference between prices paid farmers and some other price, the unregulated handler could avoid payments by increasing his prices to farmers. This would give an unregulated handler the advantage over regulated handlers in that a regulated handler has no choice as to what he is required to pay producers nor how this money is to be distributed. Likewise, it would enable unregulated suppliers to dispose of Class I milk in the marketing area with no obligation to equalize such sales with other suppliers of the market.

Even though the rate of payment to producers for all milk might be known, it would still be impossible to ascertain the rate of payment on that portion of the milk disposed of in the marketing area. Since milk marketed outside the marketing area would represent most of the total supply in the unregulated plant, it would be necessary to determine payment for milk marketed to the various outlets. When handlers have both surplus as well as Class I milk in their plants, it is not realistic to assume that the purchase price for milk for each use is the same.

It has been suggested that in order to overcome this objection the plant of the unregulated handler be subject to audit and that the rate of compensation payment be based on the difference between the average utilization value at order prices in the unregulated plant and the average rate of payment to producers.

This method would not remove the entire advantage of selling surplus milk as Class I in the marketing area. This method has not only the disadvantages associated with other schemes which assume the determination of actual pay rates to producers, but it would involve, in the case of the Quad Cities market, an extremely complicated and administratively impractical system of accounting and determination in such plants. The unregulated plants which are potential sources of supply of supplemental milk and milk products are numerous and widely scattered. Determination of utilization value in these plants would involve the same complications and administrative expense and difficulties as discussed earlier which would be involved in complete regulation of such plants. To make the detailed accounting necessary to establish classification, such unregulated dealers would need to maintain the same detailed records as wholly regulated handlers.

An alternative method for determining the rate of compensation payments would be to base the rate of payment on the difference between blend prices prevailing in an area and the Class I price. This method has been suggested because it is assumed that unregulated handlers will be forced by competition to pay farmers approximately average blend prices. While this approach eliminates the need for attempting to determine actual pay rates, it could not be used without modification and still prevent the displacement of regulated milk with surplus milk from other markets at all times throughout the year. Unregulated plants, as well as regulated plants, may have some surplus milk at all times and particularly during the seasons of flush production. As a result, prices paid farmers are, in fact, blend prices made up of returns from the sale of milk in Class I outlets, as well as sales to the surplus market. If an unregulated plant were in a position to sell its surplus milk for Class I use in the marketing area and maintain its regular Class I outlets, it would have a competitive advantage over regulated handlers who found it necessary to dispose of part of their milk as surplus.

None of these suggestions presents an acceptable approach to the problem of compensation payments to be applied to other source milk allocated to Class I in pool plants. It is necessary, therefore, to resort to a different procedure. The only sound method of dealing with this problem is one based on a recognition of the economics involved as they affect producers and handlers. This approach resolves itself primarily into a question of market values of milk.

Fully regulated handlers under the order seeking to purchase unregulated milk will naturally resort to the lowest cost source from which suitable milk is available. In fixing the rate of compensation payment, it is necessary, therefore, to determine what the lowest cost source may be and to base the payment on the difference between the cost of such milk and the cost of milk priced under the order for similar use. Milk supplies are larger in spring and summer than in fall and winter, and because of relatively constant sales of fluid milk, the excess increased production must be marketed largely as manufactured products. This outlet represents the opportunity cost of the surplus milk since it is the highest price at which the milk can otherwise be sold. It is this opportunity cost or value of such milk which would be effective in determining the price at which the unregulated plant would sell such milk.

Since considerable volumes of Grade A milk must be disposed of as surplus by various unregulated plants from which the Quad Cities market may obtain milk, it is evident that handlers under the order could obtain such milk at prices reflecting its value as surplus milk. In short, the actual value of seasonal or reserve milk is not the blend price paid to dairy farmers but rather the price which can be obtained for it in the market when disposed of as surplus milk.

Therefore, for the months of December through June, during which period surplus milk may be available in substantial volumes to the Quad Cities market from nonpool sources, the compensation payment on the receipts of other source fluid milk products which are allocated to Class I milk should be based on the difference between the minimum price of producer milk used for surplus and the applicable Class I price under the Quad Cities order. The Class II price established by the order is a fair and economic measure of the value of milk in surplus uses in the Quad Cities area.

During the months of July through November the milk supplies for the Quad Cities market tend to be shorter than in other months of the year. It is not likely that other source fluid milk products will be available to the market at surplus prices. The compensation payment during these months should be the difference between the marketing area uniform price to producers and the Class I price adjusted to the location of the plant from which such fluid milk products are supplied. The relationship between the supply of milk and the demand for milk in the Quad Cities market during the July through November period tends to fluctuate from year to year according to marketing conditions. These conditions will generally prevail also in surrounding markets which are potential sources of supply for unpriced milk. Thus, the rate of compensation payment based on the difference between Class I and uniform prices will adjust itself automatically in these months according to the changes in the demand for and the price of outside supplies. If supplies of producer milk are relatively plentiful, unpriced milk can be expected to be cheaper. Therefore, in order to equalize costs of milk the rate of compensation payment should be somewhat higher. On the other hand, as milk supplies in the area tend to be shorter, it is to be expected that the cost of unregulated milk will increase. Under these circumstances, the rate of compensation payment will be correspondingly less.

In some instances there will be no and in all cases insignificant transportation charges per hundredweight experienced by handlers on other source milk used in the form of concentrated milk products under the skim milk equivalent basis of accounting provided for in the order. For this reason, other source milk from such products should be considered to be from a source at the location of the pool plant where it is used. In other words, the compensation payment on such other source milk derived from concentrated products, such as condensed milk or nonfat dry milk solids, which is allocated to Class I milk will be equal to the difference between the market area Class I price and the corresponding uniform blend price or Class II price, as the case may be. By following this procedure, other source milk derived from Grade A manufactured products which may be made from producer milk in handlers' plants or purchased from outside sources will be subject to identical reclassification charges. This will remove to the greatest extent that it is administratively possible, any advantage there may be utilizing the products from unregulated sources for producer milk.

By choosing a rate of compensation payment which reflects the cost of the cheapest other source milk which may be expected to be available to regulated handlers, any advantage to one handler relative to the others in obtaining such cheap milk and substituting it for producer milk in Class I, is removed insofar as is administratively possible. No handler is given the clear opportunity to gain an unfair advantage over his competitors which otherwise would exist. However, if other source milk is to be purchased, the incentive for purchasing the cheapest of such milk remains, because the lower the price which a handler pays for other source milk, the lower will be his total cost of purchasing such milk. This follows from the fact that the measure of the compensation payment is an objective one and does not depend upon the particular price which the handler paid for the other source milk.

As indicated elsewhere in this decision, the process of marketwide pooling creates special incentive for milk to come into the market to gain certain advantages. Such milk would not be associated with the market in the absence of regulation.

The act requires that prices fixed under the order for milk purchased from producers or associations of producers be uniform as to all handlers, subject only to usual adjustments, such as those for butterfat content and location of the milk. The only prices fixed under the order are those for producer milk, and it is hereby determined that they are uniform as required by the act. Class prices for pool milk under the order are for raw milk as received from farmers, f. o. b. the loading platform at the plant where first received.

In calculating the payments on other source milk the Class I price must relate to and be fixed as of the point where the milk is received from farmers at the first receiving plant, so as to be properly comparable with the minimum Class I price for producer milk at the level of marketing. No allowance should be made for subsequent handling costs and profits in this farm level comparison between producer and other source milk because such costs and profits attach at stages of marketing subsequent to the basing point to which minimum Class I prices for producer milk refer. They are in no way regulated by the order with respect to producer milk. Neither the act nor the proposed order contemplates, authorizes or provides for the regulation of subsequent handling charges or profits or the establishment of uniform resale prices between handlers, whether the milk be from producers or other sources.

The compensation payments herein provided are not only incidental, but necessary to sustain the classification and pricing of milk according to its use in the market. The rates of payment specified are those which are necessary and appropriate to accomplish this purpose.

The rate of payment recommended will tend to remove the competitive advantage for unpriced milk, and will avoid displacement of producer milk for reasons of cost. However, if experience proves that milk is available to handlers in the future at prices different than those now indicated, or that such payments otherwise interfere with the purposes of the order, then it will be necessary to reconsider the rate of compensation payment on the basis of that experience.

In addition to that other source milk which would enter the marketing area through pool plants, some nonpool milk may be distributed within the marketing area from nonpool plants. It would not be possible to stabilize the market under the classified pricing program if distribution in the marketing area of unpriced milk from nonpool plants without compensation payments were allowed. Such milk should be classified and priced the same as unpriced milk distributed through any other channels.

Handlers distributing such unpriced milk in the marketing area from nonpool distributing plants have the same opportunity to buy milk at the opportunity cost level as do the operators of pool plants who purchase other source milk. Such milk may be purchased and distributed in the marketing area. In addition, however, the operator of the nonpool plant in all probability has surplus milk in his own plant which he would want to dispose of on any basis which would yield a higher return than the surplus value. It would be particularly easy to dispose of such milk for Class I use in the marketing area by supplying contract business such as hospitals and defense establishments. With surplus outlets as the alternative, and no compensation payments to make, the nonpool handlers would have considerable incentive or margin to underbid the seller of priced milk for such sales. A nonpool plant might also use such price advantage in selling his surplus milk to Class I outlets for the purpose of establishing a regular trade on retail or wholesale routes to homes and stores in the marketing area. The nonpool plant might sell up to 15 percent of its milk into the marketing area as Class I without becoming subject to regulation. To allow a nonpool plant to use its surplus milk in this manner for establishing a regular trade in the marketing area without compensation payments would mean that such plant would have a marked competitive advantage over regulated handlers selling priced milk. Such conditions could readily lead to disorderly marketing conditions.

It is considered inappropriate also to subject a plant to full regulation if only a small share of its milk is sold in the marketing area. Such regulation might place a plant of this kind at a distinct disadvantage in relation to its unregulated competition. In some cases, a nonpool plant may be disposing of a larger share of its milk as Class I than the average utilization for the market. In such cases, the compensation payments herein provided might cost the handler less than the equalization payments such plant would pay into the marketwide pool if fully regulated as a pool plant. In these instances, the sale of small quantities of milk in the marketing area would be more likely to take place under the compensation payment provisions herein provided than if full regulation were extended to all plants.

The rate of compensation payment provided for nonpool plants making distribution directly in the marketing area, therefore, should be the same as that for pool plants which obtain and use unpriced milk in Class I. Moreover, the administrative feasibility of any other method of levying compensation payments is substantially the same as that described in the case of unpriced milk distributed in the marketing area by pool plants.

Any funds collected in the form of compensatory payments should be added to the producer-settlement fund. It is the purpose of the order to insure that a sufficient and dependable supply of quality milk be available for Class I needs of the market. To the extent that Class I sales are displaced through the disposition of surplus milk from unpriced sources, producers stand to lose income from the sale of milk to the market which they are expected to supply. This loss of income would mean that the prices contemplated under the order would not be realized by producers. As a result, production might suffer, in which case consumers would stand to lose because of the disappearance of milk supplies from the regular and dependable sources which have provided milk to the market on a year-round basis. Otherwise, Class I prices would have to be increased to offset the loss of income to producers. There is no alternative source of dependable milk supplies which would cost consumers less over a period of time than the milk supplied by the regular producers. Thus, there is justification in terms of overall benefit to the market for returning to producers the difference between the value of such milk at its opportunity cost, which would otherwise be its value to the seller, and the Class I price. There is no alternative disposition of funds from compensation payments under the authority of the act other than that herein provided.

It is necessary that the order specify the handler who is obligated to make the compensation payments. If the unpriced milk is distributed in the marketing area from a nonpool plant, the operator of such plant should make the payment. In the case of supplemental milk received at pool plants from unpriced sources, either the buying or selling plant might be assessed. From the standpoint of the economics involved, it would make no difference, since the amount of payment would be the same in both cases.

From the standpoint of administration and enforcement, it would be much easier and simpler for the regulated plant to make the payment. The market administrator has regular dealings with the pool plant handler. Such handler would be expected to know and understand the terms and provisions of the order. He is the handler who assumes the responsibility for distributing the milk in the regulated market. Whether or not a compensation payment would be required would depend upon the application of the allocation provisions of the order to the pool plant of the receiving handler.

The seller, on the other hand, would not be aware until later whether a compensation payment would be required, and might not even know at the time of the sale, particularly if the sale took place through a broker, whether or not his milk would be moved to a regulated market for disposition. If enforcement proceedings were to be required, it would be more convenient and logical to bring the case to court in the area of the regulated market where the problem arose.

The compensation payments herein provided will not prohibit the marketing of milk nor limit the marketing of milk products from any production area of the United States. The rate of payment required would be uniform for all plants similarly situated with respect to their location in relation to the marketing area.

The quantity of milk and milk products which may be sold in any regulated market is dependent at least to some extent upon the price fixed under the order for the particular class of utilization. Such influence should not be construed, however, as a limitation of the type precluded under the act. No price can be fixed without influencing, to some extent, the quantity of milk and milk products which may be sold from either regulated or unregulated sources. No quantitative limitations are imposed in the proposed order on the amounts of unpriced milk which may be disposed of in the marketing area nor does it prohibit such use or any other use of unpriced nonpool milk or milk products. The compensation payment herewith provided will not discriminate against producers by areas, but will provide for equalization of competitive prices by type of transaction with respect to regulated and unregulated milk.

The payment will not deprive suppliers of unpriced milk of a high priced market which they would otherwise enjoy. The alternative sale value of the unpriced milk is recognized, and this value is returned to these sources when sale is made to the Quad Cities market. If marketing facilities and outlets are such that it is

advantageous for nonpool plants to dispose of their surplus milk in the Quad Cities Class I market, under the provisions of the attached order, they may be expected to and undoubtedly will do so, and the returns they receive should be the full surplus value for such milk.

The compensation payment herewith provided has as its primary purpose the elimination of economic incentives for handlers to use unpriced milk to displace minimum priced milk in Class I sales. The rate of payment found to be appropriate for this purpose is one which recognizes general competitive conditions in the purchase and sale of regulated and unregulated milk. It is recognized, however, that general competitive conditions do not prevail in all cases. Each handler is situated differently and each individual transaction is made under different circumstances. It is not possible, however, to adjust prices or payments to individual circumstances or transactions. Such an individual approach would not be administratively or economically feasible. Compensatory payments must therefore be applied at a definite and specified rate applicable to all handlers similary situated. No single rate of payment can be determined, however, which would result in complete equality of cost to all handlers. Consequently, instances will undoubtedly arise which will appear to indicate that the objectives of the compensatory payments are not being achieved in particular cases. In some cases, the payments required may seam harsh.

It is necessary in seeking an overall solution to problems of this nature to adopt provisions which will be reasonable and as liberal as possible, and at the same time will still guarantee the integrity of regulation. To provide inadequate payments would leave the door open to practices which would render the program ineffective. Commerce in milk is entirely at the option of handlers. They are free to complete only those transactions which are most favorable to themselves. Order provisions must recognize this fact. They must recognize, also, that the varying conditions under which milk transactions occur give rise to great complexity and some doubtful circumstances. Where marginal problems arise, they must be resolved in favor of maintaining the integrity under the order, otherwise the advantage may go to unregulated milk with consequent disadvantage to the handlers and producers of regulated milk.

9. The requirement for a compensatory payment on Class I milk disposed on a route in the marketing area by a handler regulated under another Federal order should be discontinued. The payment on such milk is now required when the Class I price under this order is above that of the other Federal order and is made to the producer-settlement fund at the rate of the difference between this order's Class I price and the Class I price under the other Federal order.

In proposing that this provision be deleted from the order proponents contended that if milk is properly priced under the provisions of a Federal order, the addition of transportation costs from the supplying market to the other market equalizes the cost to a point where the receiving handler pays a price that is at least equal to that paid for locally produced milk.

The provision for compensatory payments on other Federal order milk distributed in the marketing area is not needed under current marketing conditions in the Quad Cities market. Provisions, herein recommended, regarding pool plant qualifications and compensatory payments on unpriced milk disposed of in the marketing area, adequately provide an equitable basis for pricing milk at plants regularly associated with the market and those which may make irregular shipments to, or be only incidentally associated with, the market by reason of having a relatively negligible portion of their distribution business in the marketing area.

There is no indication that the relationship of the level of the Class I prices between that in the Quad Cities and other nearby Federally regulated markets is such as to offer handlers under the other orders either an unnatural incentive for the distribution of milk in the Quad Cities market or an advantage over Quad Cities order handlers on such distribution.

In establishing Class I prices in the Quad Cities order consideration is given to the Class I prices in other Federal order markets. This is necessary since Quad Cities handlers compete in various communities outside the marketing area with such handlers. To continue the provision for assessing handlers under other Federal orders for milk sold in the Quad Cities market could give Quad Cities order handlers a significant price advantage over such competitors, which competitors are required to pay prices comparable to that under the Quad Cities order by the orders which regulate them.

10. A proposal was made at the hearing which would permit producer milk to move from a pool plant to a nonpool plant to be packaged and then be returned to the pool plant without, in effect, being considered as having been handled at the nonpool plant.

The purpose of the proposal, described by proponents as custom-bottling, is to allow such handling of milk without its being considered as a receipt of other source milk from a nonpool plant. It was argued that some pool plants in the market are not large enough to support the expensive machines which are needed to package milk in the various sized paper containers and it would be more practicable for them to obtain such packaged milk from nearby nonpool plants.

There is no problem in the market at the present time which the provision to accommodate custom-bottling at a nonpool plant is proposed to remedy. No milk is now being custom-bottled at a nonpool plant for the account of a pool plant under the Quad Cities order. It was not indicated that the proponent handler or any other pool plant operator contemplates such an arrangement in the near future.

Elsewheres in this decision provision is made for discontinuance of the compensatory payment charge on Class I milk disposed on a route in the marketing area by a handler regulated by another Federal order. Also, the provision herein proposed relative to payments on unpriced milk received at a pool plant would not be applicable to milk classified and priced as Class I milk under another Federal milk marketing order.

If there should be any need for a Quad Cities order handler to have milk packaged outside the marketing area, availability of plants under other orders, which are relatively nearby, affords ample opportunity to meet this need. At such plants it would not be impracticable, within the framework of the attached proposed order, to custom-bottle for handlers regulated by the Quad Cities order.

As indicated at the hearing, the custom-bottling proposal was not addressed to any existing market problem and is, admittedly, directed at liberalizing the provisions of the order for situations which may arise in the future. Accordingly, the data submitted at the hearing in connection with the proposal were speculative and, necessarily, incomplete.

In view of the above stated considerations, the proposal to modify the provisions of the order with respect to the movement of milk to an unregulated plant for custom-bottling is hereby denied.

11. The proposal to provide for a base and excess plan for distributing returns to producers was abandoned at the hearing. Instead, producers proposed a fall incentive payment plan (sometimes referred to as "Louisville plan") for distributing returns to producers. As proposed, the Market Administrator would withhold a specified percentage of the value of pooled milk during the spring months of heavy production for distribution to producers during the fall months of low production.

In connection with their proposal for the fall incentive payment plan, producers proposed that the Class I price, which is now adjusted seasonably by varying the Class I differential monthly be superseded by a Class I price which would be fixed throughout the year at the level obtained by using the seasonally higher Class I differential now in the order. Elsewhere in this decision provision is made for continuing to adjust the Class I price seasonally. Since the fall incentive payment plan, as proposed, is predicated on replacing the seasonally adjusted Class I price with a constant Class I differential throughout the year, it would not be practicable to give consideration to providing for a fall incentive payment plan at this time. Accordingly, the proposal to provide for such a plan within the framework of the order is hereby denied.

12. Producers proposed that a handler making payment to a producer at more than the uniform price should make such an additional payment uniformly to all producers.

The Quad Cities order fixes minimum prices which handlers shall pay for milk received from producers. In some instances, handlers pay producers premiums for milk received on bulk tank pickup routes and for milk sold as a special milk such as Guernsey or kosher milk. The order does not in any way restrict producers from bargaining with handlers for such premiums or for any other premiums above order prices.

It was not shown what benefit, if any, would acrue to the market by specifying in the order the conditions under which or the manner in which premiums should be paid to producers. Moreover, there was no evidence that there are currently any abuses of the order which would be corrected by the proposal. Accordingly, the proposal is hereby denied.

13. The entire order should be redrafted to incorporate therein conforming and clarifying changes made necessary by the amendments recommended in this decision.

(a) In connection with the proposed changes designating which persons would be subject to regulation and application of order provisions to them, new or revised definitions are provided in the attached order, including those for: "fluid milk product", "producer milk", "other source milk", "nonpool plant", "handler", and "Chicago butter price". The definitions for "producer", "pool plant", distributing plant", and "supply plant" are discussed elsewhere in this decision.

"Fluid milk product" would mean milk, skim milk, buttermilk, milk drinks (plain or flavored) cream or any mixture in fluid form of skim milk and cream (except aerated cream products, yogurt, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers). The items defined as fluid milk products pursuant to this definition are those products which when disposed of by handlers are considered as Class I milk.

"Producer milk" would mean only that skim milk and butterfat contained in milk received at a pool plant directly from producers or diverted from a pool plant to a nonpool plant in accordance with the conditions prescribed in a producer definition (Issue No. 3).

"Other source milk" would be defined as all skim milk and butterfat contained in fluid milk products utilized by the handler in his operations except milk received from producers, fluid milk products received from other plants, and inventory at the beginning of the month. Thus, other source milk would represent skim milk and butterfat which may not be subject to the pricing provisions of this order. It would include all milk products from plants other than pool plants and all manufactured dairy products from any source which are reprocessed or converted into another product during the month. It would include those manufactured products from a plant's own production which are made and are reprocessed or converted into another product during the same or a later month.

"Nonpool plant" would mean any milk manufacturing, processing, or bottling plant other than a pool plant.

"Handler" would be defined as any person in his capacity as the operator of one or more distributing or supply plants. The definition would also include a cooperative association in its capacity as the operator of a pool plant or with respect to milk from producers diverted for its account from a pool plant to a nonpool plant.

"Chicago butter price" would represent the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery butter at Chicago as reported during the month by the Department.

(b) Reference in the order with respect to the accounting and classification of "emergency milk" should be deleted. In the attached proposed order provision is made in a comprehensive manner for the accounting and classification of all unpriced milk, including that heretofore defined as emergency milk. In view of this, no useful purpose would be served by continuing any reference in the order to emergency milk.

(c) As now provided in the order, a handler receiving milk from producers who are members of a cooperative association which operates a pool plant is required to make payment to the cooperative for such milk at the applicable class prices, and the classification of such milk is deemed to be the same as all other producer milk at the handler's plant. A cooperative association which does not operate a pool plant and which is authorized to collect for its members' milk may collect for producer milk delivered to a pool plant at the uniform price value of such milk.

In connection with the provision for compensatory payments on unpriced milk, which is recommended in this decision, it is determined that the handler of such unpriced milk shall be responsible for remitting such payments to the market administrator. With regard to the provisions herein recommended for basing pool plant status on standards of association with the market, it is possible for a plant to qualify as a pool plant in one month and not in another. In a month when such plant did not qualify as a pool plant, the operator of such plant would be subject to a compensatory payment on the unpriced milk which was delivered in the marketing area from his plant.

It would not be administratively feasible for the market administrator to bill a cooperative association for a compensatory payment charge on unpriced milk due the producer-settlement fund from a handler because it supplies such handler with producer milk. Neither would it be feasible under the Quad Cities order to have a cooperative association collect at the class prices for milk delivered by its producer members to a pool plant, participate in the producer-settlement fund for such milk, and have the operator of the pool plant deal separately with the producer-settlement fund with respect to payments due on unpriced milk. A handler, whose plant did not qualify as a pool plant in any month because of a minimum specified percentage of its receipts from dairy farmers not having been distributed in the marketing area, would be required to make payment directly to the producer-settlement fund on the quantity of Class I milk distributed in the marketing area. This would be required whether or not he customarily paid a cooperative association for milk received from dairy farmers. If the plant of such handler became a pool plant in some months, it would be more practicable and administratively more feasible to have him participate in the producer-settlement fund directly instead of through a cooperative association. It is the operator of a plant who is primarily responsible for any payments on unpriced milk or on other milk which may be due the producer-settlement fund.

In the interest of orderly marketing, it is desirable that a cooperative association be free to market and collect for the milk of its members to the fullest extent that it is so authorized by its members. The effectiveness of a cooperative under the Quad Cities order in marketing the milk of its members would not be impeded whether payment to such cooperative by a handler is at the uniform price or at the class prices in the order.

In view of the considerations stated above, it is concluded that the best interest of the market would be served by holding a handler responsible for dealing with the producer-settlement fund with respect to all milk received at his plant directly from producers and from other sources.

Rulings on proposed findings and conclusions. Briefs were filed which contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendments. Every point covered by the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in the recommended decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and com-

mercial activity specified in a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order, amending the order, as amended. The following order regulating the handling of milk in the Quad Cities marketing area is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the proposed amended order.

DEFINITIONS

§ 944.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

§ 944.2 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States or any other officer or employee of the United States authorized to exercise the powers or to perform the duties of the said Secretary of Agriculture.

§ 944.3 *Department.* "Department" means the United States Department of Agriculture or any other Federal agency authorized to perform the price reporting functions of the United States Department of Agriculture.

§ 944.4 *Person.* "Person" means any individual, partnership, corporation, association, or other business unit.

§ 944.5 *Cooperative association.* "Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

§ 944.6 *Quad Cities marketing area.* "Quad Cities marketing area", hereinafter called the "marketing area", means the territory lying within the boundaries of the corporate limits of the City of Clinton, Iowa, and that part of Camanche Township, including the City of Camanche, lying east of sections 2, 11, 14, 23, 26, and 35 all in Clinton County, Iowa; the territory lying within the corporate limits of the cities of Davenport and Bettendorf, Iowa; and Rock Island, Moline, East Moline and Silvis, Illinois; together with the territory lying within the following townships: Davenport, Rockingham, and Pleasant Valley in Scott County, Iowa; and South Moline, Moline, Blackhawk, Coal Valley, Hampton, and South Rock Island in Rock Island County, Illinois.

§ 944.7 *Producer.* "Producer" means any person, except a producer-handler, who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, which milk is (a) received at a pool plant, or (b) diverted from a pool plant to a nonpool plant for the account of either the operator of the pool plant or a cooperative association (1) any day during the months of April through June, and (2) on not more than one-half the days on which milk was delivered from a farm during any of the months of July through March: *Provided*, That milk diverted pursuant to this section shall be deemed to have been received at the location of the plant from which diverted.

§ 944.8 *Distributing plant.* "Distributing plant" means a plant which is approved by an appropriate health authority for the processing or packaging of Grade A milk from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) located in the marketing area.

§ 944.9 *Supply plant.* "Supply plant" means a plant from which milk, skim milk or cream which is acceptable to the appropriate health authority for distribution in the marketing area under a Grade A label is shipping during the month to a pool plant qualified pursuant to § 944.10 (a).

§ 944.10 *Pool plant.* "Pool plant" means:

(a) A distributing plant from which a volume of Class I milk equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) and not less than 15 percent of such receipts are so disposed of to such outlets in the marketing area.

(b) A supply plant from which the volume of fluid milk products shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided*, That if such shipments are not less than 50 percent of the receipts of Grade A milk at such plant during the immediately preceding period of September through November, such plant may, upon written application to the market administrator on or before March 1 of any year, be designated as a pool plant for the months of March through June of such year.

(c) A plant which is owned and operated by a cooperative association and which is located in the marketing area.

§ 944.11 *Nonpool plant.* "Nonpool plant" means any milk manufacturing, processing or bottling plant other than a pool plant.

§ 944.12 *Handler.* "Handler" means:

(a) Any person in his capacity as the operator of one or more distributing or supply plants.

(b) A cooperative association which is the operator of a pool plant pursuant to § 944.10 (c).

(c) Any cooperative association with respect to the milk from producers diverted by the association for the account of such association from a pool plant to a nonpool plant.

§ 944.13 *Producer-handler.* "Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers.

§ 944.14 *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk (a) received at the pool plant directly from producers, or (b) diverted from a pool plant to a nonpool plant in accordance with the conditions set forth in § 944.7.

§ 944.15 *Fluid milk product.* "Fluid milk product" means milk, skim milk, buttermilk, milk drinks (plain or flavored), cream or any mixture in fluid form of skim milk and cream (except aerated cream products, yogurt, ice cream mix, evaporated or condensed milk, and sterilized products packaged in hermetically sealed containers).

§ 944.16 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in:

(a) Receipts during the month in the form of fluid milk products except (1) fluid milk products received from pool plants, (2) producer milk, or (3) inventory at the beginning of the month; and

(b) Products other than fluid milk products from any source (including those produced at the plant) which are reprocessed or converted to another product in the plant during the month.

§ 944.17 *Chicago butter price.* "Chicago butter price" means the simple average as computed by the market administrator of the daily wholesale selling prices (using the midpoint of any range as one price) per pound of 92-score bulk creamery buttery at Chicago as reported during the month by the Department.

MARKETING ADMINISTRATOR

§ 944.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 944.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 944.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including but not limited to the following:

(a) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount, and with reasonable surety thereon, covering each employee who handles funds entrusted to the market administrator;

(d) Pay out of the funds provided by § 944.87: (1) the cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 944.88, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties.

(e) Keep such books and records as will clearly reflect the transactions provided for in this part, and upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate the name of any person who within 10 days after the date upon which he is required to perform such acts, has not made reports pursuant to §§ 944.30 and 944.31, or payments pursuant to §§ 944.80, 944.84, 944.86, 944.87, and 944.88;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler or person upon whose utilization the classification of skim milk or butterfat for such handler depends, or by such investigation as the market administrator deems necessary;

(i) Prepare and disseminate to the public such statistics and such information as he deems advisable and as do not reveal confidential information;

(j) Publicly announce on or before:

(1) The 5th day of each month, the minimum price for Class I milk pursuant to § 944.50 (a) and the Class I butterfat differential, pursuant to § 944.51 (a) both for the current month; and the minimum price for Class II milk, pursuant to § 944.50 (b), and the Class II butterfat differential, pursuant to § 944.51 (b) both for the preceding month; and

(2) The 10th day after the end of each month the uniform price pursuant to § 944.71 and the producer butterfat differential pursuant to § 944.81; and

(k) On or before the 10th day after the end of each month, report to each cooperative association, which so requests the percentage of the milk caused to be delivered by the cooperative association or its members to the pool plant(s) of each handler during the month, which was utilized in each class. For the purpose of this report, the milk so delivered shall be allocated to each class for each handler in the same ratio as all producer milk received by such handler during the month.

REPORTS, RECORDS AND FACILITIES

§ 944.30 *Reports of receipts and utilization.* On or before the 7th day after the end of each month, each handler, except a producer-handler, shall report for such month to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in receipts of producer milk;

(b) The quantities of skim milk and butterfat contained in fluid milk products received from other pool plants;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) The quantities of skim milk and butterfat contained in producer milk diverted to nonpool plants pursuant to § 944.7;

(e) Inventories of fluid milk products on hand at the beginning and end of the month;

(f) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area; and

(g) Such other information with respect to his utilization of butterfat and skim milk as the market administrator may prescribe.

§ 944.31 *Other reports.* Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe.

§ 944.32 *Records and facilities.* Each handler shall maintain and make available to the market administrator or to his representative during the usual hours of business such accounts and records of his operations, together with such facilities as are necessary for the market administrator to verify or establish the correct data with respect to:

(a) The receipt and utilization of all skim milk and butterfat handled in any form during the month;

(b) The weights and butterfat and other content of all milk, skim milk, cream and other milk products handled during the month;

(c) The pounds of skim milk and butterfat contained in or represented by all milk products on hand at the beginning and end of each month; and

(d) Payments to producers and cooperative associations.

§ 944.33 *Retention of records.* All books and records required under this subpart to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if, within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case, the market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

CLASSIFICATION

§ 944.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat which are required to be reported pursuant to § 944.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 944.41 through 944.46.

§ 944.41 *Classes of utilization.* Subject to the conditions set forth in § 944.44 the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk (including concentrated and reconstituted skim milk) and butterfat (1) disposed of in the form of a fluid milk product (except as provided in paragraph (b) (2) of this section), and (2) not accounted for as Class II milk;

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat (1) used to produce any product other than a fluid milk product; (2) disposed of to wholesale bakeries, candy manufacturers, soup companies, or for livestock feed; (3) contained in inventory of fluid milk prducts on hand at the end of the month; (4) in shrinkage allocated to receipts of producer milk (except milk diverted to a nonpool plant pursuant to § 944.7) but not in excess of 2 percent of such receipts of skim milk and butterfat, respectively; and (5) in shrinkage of other source milk.

§ 944.42 *Shrinkage.* The market administrator shall allocate shrinkage over a handler's receipts as follows:

(a) Compute the total shrinkage of skim milk and butterfat for each handler; and

(b) Prorate the resulting amounts between the receipts of skim milk and butterfat contained in producer milk and in other source milk.

§ 944.43 *Responsibility of handlers and reclassification of milk.* (a) All skim milk and butterfat shall be Class I milk unless the handler who first receives such skim milk or butterfat can prove to the market administrator that such skim milk or butterfat should be classified otherwise.

(b) Any skim milk or butterfat shall be reclassified if verification by the market administrator discloses that the original classification was incorrect.

§ 944.44 *Transfers.* Skim milk or butterfat disposed of each month from a pool plant shall be classified:

(a) As Class I milk, if transferred in the form of a fluid milk product to the pool plant of another handler, except a producer-handler, unless utilization as Class II milk is claimed by both handlers

in their reports submitted for the month to the market administrator pursuant to § 944.30: *Provided*, That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 944.46 and any additional amounts of such skim milk or butterfat shall be classified as Class I milk: *And provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I utilization to the producer milk of both handlers;

(b) As Class I milk, if transferred to a producer-handler in the form of a fluid milk product; and

(c) As Class I milk, if transferred or diverted in the form of a fluid milk product in bulk to a nonpool plant unless:

(1) The transferring or diverting handler claims classification in Class II milk in a written statement submitted to the market administrator by the operators of both the pool plant and the nonpool plant on or before the 7th day after the end of the month within which such transaction occurred;

(2) The operator of such nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for the purpose of verification; and

(3) An equivalent amount of skim milk and butterfat had been used at the nonpool plant during the month in the indicated utilization.

§ 944.45 *Computation of the skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and for other obvious errors the reports of receipts and utilization for the pool plant(s) of each handler and shall compute the pounds of butterfat and skim milk in Class I milk and Class II milk for such handlers: *Provided*, That if any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk disposed of in such product shall be considered to be an amount equivalent to the nonfat milk solids contained in such products, plus all of the water reasonably associated with such solids in the form of whole milk.

§ 944.46 *Allocation of skim milk and butterfat classified.* After making the computations pursuant to § 944.45 the market administrator shall determine the classification of producer milk received at the pool plant(s) of each handler each month as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 944.41 (b) (4);

(2) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products which were not subject to the Class I pricing provisions of an order issued pursuant to the act;

(3) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk in other source milk other than that received in the form of fluid milk products;

(4) Subtract from the remaining pounds of skim milk in Class II milk an amount equal to such remainder, or the product obtained by multiplying the pounds of skim milk in producer milk by 0.05, whichever is less;

(5) Subtract from the remaining pounds of skim milk in each class in series beginning with Class II milk, the pounds of skim milk in other source milk received in the form of fluid milk products which are subject to the Class I pricing provisions of another order issued pursuant to the act;

(6) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (4) of this paragraph;

(7) Subtract from the remaining pounds of skim milk in each class the skim milk in fluid milk products received from the pool plants of other handlers according to the classification of such products as determined pursuant to § 944.44 (a);

(8) Subtract from the remaining pounds of skim milk in each class, in series beginning with Class II milk, the pounds of skim milk contained in inventory of fluid milk products on hand at the beginning of the month;

(9) Add to the pounds of skim milk remaining in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph and if the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II. Any amount of excess so subtracted shall be called "overage".

(b) Butterfat shall be allocated in accordance with the same procedure prescribed for skim milk in paragraph (a) of this section.

(c) Determine the weighted average butterfat content of producer milk remaining in each class computed pursuant to paragraphs (a) and (b) of this section.

MINIMUM PRICES

§ 944.50 *Class prices.* Subject to the provisions of §§ 944.51 and 944.52 the class prices per hundredweight for the month shall be as follows:

(a) *Class I milk price.* The Class I milk price shall be the price for Class I milk established under Federal Order No. 41, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, plus 20 cents.

(b) *Class II milk price.* The Class II milk price shall be the average of the basic or field prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the period from the 16th day of the preceding month through the 15th day of the current month at the following plants or places for which prices have been reported to the market administrator or to the Department:

Present Operator and Plant Location
Amboy Milk Products Co., Amboy, Ill.
Borden Co., Dixon, Ill.
Borden Co., Sterling, Ill.
Carnation Co., Morrison, Ill.
Carnation Co., Oregon, Ill.
Carnation Co., Waverly, Iowa.
United Milk Products Co., Argo Fay, Ill.

§ 944.51 *Butterfat differentials to handlers.* For milk containing more or less than 3.5 percent butterfat, the class prices for the month calculated pursuant to § 944.50 shall be increased or decreased, respectively, for each one-tenth percent butterfat at the appropriate rate, rounded to the nearest one-tenth cent, determined as follows:

(a) *Class I price.* Multiply the Chicago butter price for the preceding month by 0.125.

(b) *Class II price.* Multiply the Chicago butter price for the current month by 0.110 for the months of April, May, and June, and by 0.115 for all other months.

§ 944.52 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 50 miles or more from the City Hall, Rock Island, Illinois, by the shortest hard surfaced highway distance, as determined by the market administrator, and which is classified as Class I milk, the price specified in § 944.50 (a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the Rock Island City Hall (miles):	*Rate per hundredweight (cents)*
50 but less than 65	10.0
For each additional 10 miles or fraction thereof additional	1.5

Provided, That for the purpose of calculating the location differential adjustment applicable pursuant to this section, fluid milk products which are transferred between pool plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 944.46 (a) (5) and the comparable steps in (b) for such plant, such assignment to transferor plants to be made in sequence according to the location differential applicable to each plant, beginning with the plant having the largest differential.

§ 944.53 *Use of equivalent prices.* If for any reason a price quotation required by this order for computing class prices or for other purposes is not available in the manner described, the market administrator shall use a price determined by the Secretary to be equivalent to the price which is required.

APPLICATION OF PROVISIONS

§ 944.60 *Producer-handler.* Sections 944.40 through 944.46, 944.50 through 944.52, 944.70, 944.71, and 944.80 through 944.88, shall not apply to a producer-handler.

§ 944.61 *Plants subject to other Federal orders.* The provisions of this part shall not apply to a distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant is qualified as a pool plant pursuant to § 944.10 and a greater volume of fluid milk products is disposed of from such plant to retail or wholesale outlets and to pool plants in the Quad Cities marketing area than in the marketing area regulated pursuant to such other order: *Provided*, That the operator of a distributing plant or a supply plant which is exempt from the provisions of this order pursuant to this section shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to § 944.30) and allow verification of such reports by the market administrator.

§ 944.62 *Handlers operating nonpool plants.* None of the provisions from §§ 944.44 through 944.52, inclusive, or from §§ 944.70 through 944.85, inclusive, shall apply in the case of a handler in his capacity as the operator of a nonpool plant, except that such handler shall, on or before the 13th day after the end of each month pay to the market administrator for deposit into the producer-settlement fund an amount calculated by multiplying the total hundredweight of butterfat and skim milk disposed of as Class I milk from such plant to retail or wholesale outlets (including sales by vendors and plant stores) in the marketing area during the month, by the rate determined pursuant to § 944.63.

§ 944.63 *Rate of payment on unpriced milk.* The rate of payment per hundredweight to be made by handlers on unpriced other source milk allocated to Class I milk shall be any plus amount calculated as follows:

(a) During the months of December through June, subtract from the Class I price adjusted by the Class I butterfat and location differentials applicable at a pool plant of the same location as the nonpool plant supplying such other source milk, the Class II price adjusted by the Class II butterfat differential; and

(b) During the months of July through November subtract from the Class I price f. o. b. such nonpool plant the uniform price to producers adjusted by the Class I butterfat differential.

DETERMINATION OF UNIFORM PRICE

§ 944.70 *Computation of value of milk for each handler.* The value of producer milk received during each month by each handler shall be a sum of money computed by the market administrator as follows:

(a) Multiply the pounds of milk in each class by the applicable class price and add together the resulting amounts;

(b) Add the amounts computed by multiplying the pounds of overage deducted from each class pursuant to § 944.46 (a) (9) and the corresponding step of (b) by the applicable class prices;

(c) Add the amount obtained in multiplying the difference between the Class II price for the preceding month and the Class I price for the current month by the hundredweight of producer milk classified in Class II less shrinkage during the preceding month, or the hundredweight of milk subtracted from Class I pursuant to § 944.46 (a) (8) and the corresponding step of (b), whichever is less; and

(d) Add an amount calculated by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 944.46 (a) (2) and (3) and the corresponding step of (b) by the rate of payment on unpriced milk determined pursuant to § 944.63 at the nearest nonpool plant(s) from which an equivalent amount of other source skim milk or butterfat was received: *Provided*, That if the source of any such fluid milk product received at a pool plant is not clearly established, such product shall be considered to have been received from a source at the location of the pool plant where it is classified.

§ 944.71 *Computation of uniform price.* For each of the months the market administrator shall compute a uniform price for producer milk of 3.5 percent butterfat content f. o. b. pool plants located within 50 miles of the City Hall of Rock Island, Illinois, as follows:

(a) Combine into one total the values computed pursuant to § 944.70 for all handlers who made the reports prescribed in § 944.30 for such month, except those in default of payments required pursuant to § 944.84 for the preceding month;

(b) Add or subtract for each one-tenth percent that the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is less or more, respectively, than 3.5 percent, an amount computed by multiplying such differences by the butterfat differential to producers, and multiplying the result by the total hundredweight of producer milk;

(c) Add an amount equal to the sum of the location differential deductions to be made pursuant to § 944.82;

(d) Add an amount equal to one-half of the unobligated cash balance in the producer-settlement fund;

(e) Divide the resulting amount by the total hundredweight of producer milk included in these computations; and

(f) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (e) of this section. The resulting figure shall be the uniform price for producer milk.

PAYMENT FOR MILK

§ 944.80 *Time and method of payment for producer milk.* Each handler shall make payment as follows:

(a) On or before the 15th day after the end of each month during which the milk was received, to each producer for milk received from him and for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, at not less than the uniform price computed in accordance with § 944.71, subject to the butterfat differential computed pursuant to § 944.81 and less location differential deductions pursuant to § 944.82.

(b) On or before the 12th day after the end of each month during which the milk was received, to a cooperative association for milk which it caused to be delivered to such handler from producers, if such cooperative association is authorized to collect such payments for its member producers and exercises such authority, an amount equal to the sum of the individual payments otherwise payable to such producers.

§ 944.81 *Butterfat differentials to producers.* The applicable uniform prices to be paid each producer pursuant to § 944.80 shall be increased or decreased for each one-tenth of one percent which the butterfat content of his milk is above or below 3.5 percent, respectively, at the rate determined by multiplying the total pounds of butterfat in the producer milk allocated to Class I and Class II milk during the month pursuant to § 944.46 by the respective butterfat differential for each class, dividing the sum of such values by the total pounds of such butterfat, and rounding the resultant figure to the nearest one-tenth of a cent.

§ 944.82 *Location differentials to producers.* In making payment pursuant to § 944.80 the uniform price pursuant to § 944.71 for milk which is received from producers at a pool plant located 50 miles or more from the City Hall, Rock Island, Illinois, by the shortest hard-surfaced highway distance as determined by the market administrator shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the Rock Island City Hall (miles):	*Rate per hundredweight (cents)*
50 but less than 65	10.0
For each additional 10 miles or fraction thereof an additional	1.5

§ 944.83 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 944.62, 944.84 and 944.86, and out of which he shall make all payments to handlers pursuant to §§ 944.85 and 944.86.

§ 944.84 *Payments to the producer-settlement fund.* On or before the 13th day after the end of each month, each handler shall pay to the market administrator the amount by which the value of milk for such handler pursuant to § 944.70 for such month exceeds the obligation pursuant to § 944.80 of such handler to producers for milk received during the month.

§ 944.85 *Payments out of the producer-settlement fund.* On or before the 15th day after the end of each month the market administrator shall pay to

each handler the amount by which the obligation, pursuant to § 944.80, of such handler, to producers for milk received during the month exceeds the value of milk for such handler computed pursuant to § 944.70: *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. A handler who has not received the balance of such payments from the market administrator shall not be considered in violation of § 944.80 if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund.

§ 944.86 *Adjustment of accounts.* Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due; and payment thereof shall be made on or before the next date for making payment set forth in the provisions under which such error occurred.

§ 944.87 *Expense of administration.* As his pro rata share of the expense of the administration of the order, each handler shall pay to the market administrator, on or before the 15th day after the end of each month 3 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to butterfat and skim milk contained in (a) producer milk (b) other source milk at a pool plant which is allocated to Class I milk pursuant to § 944.46, and (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the act.

§ 944.88 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 944.80, shall deduct 6 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all milk received by such handler from such producer (except such handler's own farm production), during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of milk received by handlers from such producers during the month and to provide such producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

§ 944.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this subpart for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before August 1, 1949, under section 8c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this subpart shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this subpart, to make available to the market administrator or his representatives all books and records required by this subpart to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this subpart to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this subpart shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files pursuant to section 8c (15) (A) of the act, a petition claiming such money.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 944.90 *Effective time.* The provisions of this subpart, or any amendment to this subpart, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 944.91 *Suspension or termination.* The Secretary shall, whenever he finds this subpart, or any provision hereof, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this subpart or any such provision of this subpart.

§ 944.92 *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this subpart, there are any obligations hereunder the final accrual or ascertainment of which require further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

§ 944.93 *Liquidation.* Upon the suspension or termination of the provisions of this subpart, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all accounts, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 944.100 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this subpart.

§ 944.101 *Separability of provisions.* If any provision of this subpart or its application to any person or circumstance, is held invalid, the application of such provision, and of the remaining provisions of this subpart, to other persons or circumstances shall not be affected thereby.

Issued at Washington, D. C., this 25th day of February 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[Docket No. AO-170-A10]

HANDLING OF MILK IN SOUTH BEND-LA PORTE, INDIANA, MARKETING AREA

NOTICE OF EXTENSION OF TIME FOR FILING EXCEPTIONS TO RECOMMENDED DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND AMENDED ORDER

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to a proposed amended order and marketing agreement regulating the handling of milk in the South Bend-La Porte, Indiana, marketing area, which was issued February 6, 1957 (22 F. R. 844), is hereby extended to March 1, 1957.

Dated: February 21, 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[7 CFR Part 1014]

[AO-287]

TOMATOES GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937 as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreement and marketing orders (7 CFR Part 900), a public hearing was held at Edinburg, Texas on September 24–27, 1956, pursuant to notice thereof which was published in the FEDERAL REGISTER (21 F. R. 6612), upon proposed Marketing Agreement No. 124 and Order No. 114, regulating the handling of tomatoes grown in the Lower Rio Grande Valley in Texas.

On the basis of the evidence introduced at the aforesaid hearing and record thereof, the Acting Deputy Administrator, Agricultural Marketing Service on January 11, 1957, filed with the Hearing Clerk, United States Department of Agriculture the recommended decision in this proceeding. The notice of the filing of such recommended decision affording opportunity to file written exception thereto was published January 16, 1957, in the FEDERAL REGISTER (22 F. R. 301, 452).

Rulings. Within the period provided therefor, exceptions were filed by Sid L. Hardin, Attorney at Law, Edinburg, Texas, in behalf of 213 persons and firms, referred to as opponents, protesting the adoption of a marketing agreement and order program for tomatoes grown in the Lower Rio Grande Valley in Texas. The exceptions except generally to the entire recommended decision of the Acting Deputy Administrator for reasons of economic principles, and excepts specifically to certain findings and conclusions on the basis that they are not supported by evidence in the record. Each point covered in the exceptions filed by the attorney for the opponents was given careful consideration in conjunction with the evidence pertaining thereto in arriving at the findings and conclusions set forth herein.

Two such exceptions question the supporting evidence with respect to the findings and conclusions that the shipment of cull tomatoes has become a common practice since the prohibition of the movement of such quality was discontinued, and that, small sizes of tomatoes in a particular grade are discounted in price from the larger sizes of that particular grade. Testimony at the hearing by proponents (See, for instance, H. R., pp. 906–101, 118–130, and 769–772), also opponents (See, for instance, H. R., pp. 618, 623, and 666–667), establishes a basis for the finding that the shipment of culls has become a common practice. An opponent witness testified (H. R., p. 666) that he shipped one truckload of culls per day during the shipping season to the Washington Market in San Antonio.

Testimony by proponents with respect to prices received (see, for instance, H. R., pp. 132–133, and 506–508) refutes the exception that smaller sizes of tomatoes sell for the same prices as the larger sizes of the same grade. According to such testimony prices varied by grades and by sizes within the grades. Also, the daily market news reports (Exhibit No. 6) substantiate the fact that prices for smaller sizes of tomatoes are lower than for the larger sizes.

Exception was also taken to the finding and conclusion that Dallas and Houston do not readily accept the better grades of tomatoes. Testimony adduced at the hearing (see, for instance, H. R., p. 120) substantiates this finding. Also, an opponent witness testified that he did not sell many U. S. No. 1 or U. S. No. 2 tomatoes in Dallas because the receiver told him he could buy tomatoes cheaper and he also testified that he knew two or three big truckers haul culls to Dallas (see H. R., p. 618).

A number of points raised by the attorney for the opponents are beyond the proper scope of exceptions, but are in the nature of arguments or views. Such arguments and views do not refer to specific findings and conclusions of the recommended decision.

The remainder of the exceptions filed by the attorney for the opponents, are at variance with the findings and conclusions decided upon herein, and they are hereby overruled.

Material issues. The material issues presented on the record of the hearing are as follows:

(1) The existence of the right to exercise Federal jurisdiction;

(2) The need for the proposed regulatory program to effectuate the declared purposes of the act;

(3) The definition of the commodity and determination of the production area to be affected by the marketing agreement and order;

(4) The identity of the persons and transactions to be regulated; and

(5) The specific terms and provisions of the marketing agreement and order including:

(a) Definitions of terms used therein which are necessary and incidental to attain the declared objectives of the act, and including all those set forth in the notice of hearing, among which are those applicable to the following additional terms and provisions:

(b) The establishment, maintenance, composition, powers, duties, and operation of a committee, which shall be the administrative agency for assisting the Secretary in administration of the program;

(c) The authority to incur expenses and to levy assessments on shipments;

(d) The authority for the establishment of tomato marketing research and development projects;

(e) The method for limiting the handling of tomatoes grown in the production area;

(f) The methods for establishing minimum standards of quality and maturity;

(g) The methods for authorizing special regulations applicable to the handling of tomatoes for specified purposes or to specified outlets under special regulations that are modifications of, or amendments to, grade, size, and quality regulations;

(h) The necessity for inspection and certification of shipments;

(i) The relaxation of regulation in hardship cases and the methods and procedures applicable thereto;

(j) The procedure for establishing reporting requirements upon handlers;

(k) The requirements of compliance with all provisions of the marketing agreement and order and with regulations issued pursuant thereto; and

(l) Additional terms and conditions as set forth in §§ 1014.82 through 1014.95 and published in the FEDERAL REGISTER (21 F. R. 6612) on September 1, 1956, which are common to marketing agreements and orders.

Findings and conclusions. The findings and conclusions on the aforementioned material issues, all of which are based on the evidence introduced at the hearing and record thereof, are as follows:

(1) All tomatoes grown in Cameron, Hidalgo, Starr or Willacy Counties in Texas (customarily referred to as the Lower Rio Grande Valley or more commonly the Lower Valley) which are handled between such production area and any point outside thereof are either in interstate or foreign commerce or directly burden, obstruct, or affect such commerce. The bulk of the Lower Valley tomatoes moves to markets outside of Texas or to markets located in the larger cities in Texas. Such tomatoes are transported by rail and truck principally to Central States, the Northeastern States, and to the Pacific Northwest. Shipments are also made to other parts of the country in lesser quantities, and many shipments are also destined for Canada. There are numerous markets in Texas which receive large quantities

of tomatoes grown in the Lower Valley as well as tomatoes from other areas outside Texas. San Antonio, Houston, and Dallas are the principal tomato markets in Texas. However, smaller quantities are sold in other Texas markets such as Austin, Fort Worth, Corpus Christi, and Amarillo. At the same time Lower Valley tomatoes are being sold and shipped, tomatoes from other producing areas are also being sold in and shipped to the same markets, both in Texas and outside thereof, receiving Lower Valley tomatoes.

Tomatoes grown in the production area compete principally with tomatoes grown in Florida and Mexico. They also compete to some extent with tomatoes grown in other producing areas in Texas, California, and other southern producing areas, such as Alabama and Georgia, since the shipping season for Lower Valley tomatoes overlaps the shipping seasons of such areas. Tomatoes produced in these competing areas compete in the same markets as tomatoes produced in the production area.

Many shipments destined originally for Texas markets are shipped in interstate commerce from such markets. It was testified at the hearing that tomatoes are sold to repackers located in Texas cities and, after ripening and repacking, are oftentimes resold in adjoining States. It was also testified that a large repacker in San Antonio also has a repacking plant in Denver, Colorado. The shipper selling tomatoes to this repacker does not know whether such tomatoes will be transported to San Antonio or Denver. Testimony also shows that tomatoes sold to repackers in Oklahoma are often sold to Texas retailers and are consumed in Texas.

Many rail shipments from the production area are consigned by the shipper to junction points in Texas such as Houston. Before the car reaches the junction point, it is sold and diverted from the junction point to a buyer located in a terminal market, usually outside of Texas.

Any handling of tomatoes grown in the Lower Valley exerts a direct influence upon all handling of tomatoes. The volume of tomatoes from a given producing area, irrespective of whether it is the Lower Valley, Florida, or Mexico, received in a terminal market will have an effect on prices received for other tomatoes offered for sale in that market. Tomato handlers, of course, try to obtain the highest possible return for their commodity. If such handlers expect to stay in business they must keep well informed on market conditions and information, in both out-of-state and Texas markets, and both buyers and sellers use modern means of communications to maintain this close association with market conditions so they can quickly take advantage of a high market.

Texas markets offer shipper opportunities for making sales the same as markets outside of the State. Two handlers who testified at the hearing stated that 30 to 40 percent of their total sales were in Texas markets. Such sales, if advantageous to the shipper, are as eagerly accepted as other advantageous sales, whether made at shipping point or in the consuming markets such as Boston, New York, or Chicago. The tomato market consists in major part of offering, quoting, bargaining, buying or selling tomatoes. Factors influencing this market are numerous. Such factors include the supply of, and demand for, tomatoes in the production area and in competing areas; the available and potential supplies in the production area and in competing areas; the quality of such supplies; the prices quoted by shippers and receivers; and a great variety of other factors which enter into the meeting of minds between buyers and sellers necessary to consummate a sale.

Such factors are considered by the seller at shipping point and the buyer in the terminal market, because factors influencing prices of tomatoes in the production area are soon reflected on prices paid in terminal markets. In turn, factors influencing prices paid in the terminals are soon reflected in prices received at shipping point. An example given at the hearing was that if Cameron County received a hard rain and Hidalgo County did not, buyers would shift to Hidalgo County points and prices there would probably increase because buyers would be bidding higher in order to obtain the available supplies. It was also testified that if a terminal market such as Houston or Dallas is glutted with culls or low quality tomatoes, prices received for good quality tomatoes are reduced so the receivers can compete pricewise with the poorer quality tomatoes. Another example of the intricate, interlocked, and dependent nature of the tomato market involves factors influencing prices in a competing shipping area. If Florida or Mexico suffers from a freeze which materially reduces the supply available for shipment from such area, prices in terminal markets receiving Florida or Mexican tomatoes react quickly. This in turn is reflected in prices received at shipping points in the production area.

The practice of diverting shipments from Houston or other junction points in Texas is also a result of the intricate nature of tomato marketing. If prices are favorable at the junction point the shipment will be sold on such market. However, if another market appears more favorable to the shipper he will have the car diverted to the second market. Because of this practice of diverting rail shipments, the shipper does not always know at the time of shipment where such shipment will be sold. Truck shipments can also be diverted, but such diversion is usually done at the discretion of the trucker rather than the shipper. If a trucker has purchased tomatoes in the production area, he usually heads for a market within Texas or a nearby State. If conditions are unfavorable at such market he oftentimes moves on to the next market. It is impossible to determine in most cases when tomatoes are sold to a trucker whether such tomatoes will be marketed within Texas or an out-of-state market.

The factors influencing the sale and movement of tomatoes make up the market for tomatoes. The interdependence of the markets both within and outside the State directly burdens, obstructs and affects interstate commerce. The factors making up the market for tomatoes constitute commerce which is so inextricably intermingled that all sale and movement of such tomatoes are either in the current of interstate or foreign commerce or directly burden, obstruct, or affect such commerce and therefore all such movement and sale of tomatoes grown in the production area should be subject to the authority of the act and of the marketing agreement and order which may be issued pursuant thereto.

(2) Lower Valley Texas tomato farmers have received less than parity prices for their early spring crop tomatoes during six of the ten seasons, 1945–46 through 1954–55. They received an average price for early spring crop tomatoes in three of these ten seasons which was in excess of parity, and during one season, 1948–49, they received the equivalent of parity prices. The relationship of prices received by the farmers for Lower Texas Valley tomatoes has been less favorable during the six year period 1950–55 than during the previous four years. During the latter period, season average farm prices for the early spring crop ranged from 75 percent to 112 percent of parity with prices received by farmers being below parity in all but one of the six seasons. In three of these latter seasons the prices received by farmers averaged less than 80 percent of parity.

For the eleven season period 1945–46 through 1955–56 prices to Lower Valley Texas tomato farmers for the late fall crop was below parity in five of the eleven seasons and above parity during the others. During the 1955 fall crop, prices averaged 80 percent of parity and the previous year the average was 87 percent of parity. The previous season, 1953–54, prices were 112 percent of parity, but during the 1952–53 late fall season, Lower Valley Texas tomatoes returned 66 percent of parity to farmers.

Prices to Lower Valley Texas tomato farmers have prevailed at levels below parity during most seasons despite the organized effort of tomato growers, handlers, and public officials to promote better marketing practices that will protect the growers' interests.

In addition to the facts hereby found that prices to Lower Valley Texas tomato farmers have been below parity for the the early spring season during most of the past ten years and for the late fall season during a significant portion of such seasons, it is also found to be a fact that prices for such tomatoes fluctuate widely within seasons. Furthermore prices vary widely for different grades and sizes of such tomatoes. Prices of such tomatoes are affected not only by the total volume of tomatoes available for market at any time but also by the grade, size and quality of such tomatoes being marketed at any given time.

Market reports show that the price of Texas tomatoes fluctuates throughout the season in terminal markets, also at f. o. b. shipping points and such prices in turn are reflected to the prices paid farmers. These facts are substantiated by the expert testimony of growers and shippers in the record. During the 1956 season the price of U. S. No. 1 quality, 6 x 6 and larger, ranged higher than the prices of 6 x 7 same quality. Also prices of size 7 x 7's of the same quality in general were lower than for the two larger sizes. The price of U. S. No. 2, 6 x 6 and larger was in general about one-half the price of the same size of the No. 1 quality while the price of size 6 x 7 was generally less than one-half the price of the same size No. 1 quality and less than one-half the price of U. S. No. 1, 6 x 6's and larger. In general, the same relationships applied between grade and sizes for grower prices with size 6 x 6 and larger No. 1 quality returning higher prices to growers than size 6 x 7 No. 1 quality and considerably higher than size 7 x 7 No. 1 quality. In the same manner, prices of 6 x 6 and larger, U. S. No. 2 grade returned approximately one-half the price of the U. S. No. 1 quality for the same size, while size 6 x 7 No. 2 quality returned less than size 6 x 6 No. 2 quality and returned less than half the price for size 6 x 6 and larger U. S. No. 1. Similar price relationships hold for the 1955 season, as well as for the 1954 and for the 1953 season. During mid-May of the 1955 season, when f. o. b. prices of size 6 x 6 U. S. No. 1 quality ranged from $3.25 to $3.50 per 30 pound lug for mature green tomatoes the price to growers was 2 to 3½ cents per pound. Later in the season when prices were $2.75 to $3.50 f. o. b. per 30-pound lug, 6 x 6 and larger U. S. No. 1 grade, prices to growers were 1½ to 3 cents per pound. The hearing record shows the fact that similar patterns apply to the 1954 season and for the 1953 season.

The sale of cull tomatoes, the same as the sale of better quality tomatoes, has a direct effect upon the prices paid to Lower Valley tomato farmers. Some shippers do not normally sell all cull tomatoes but when such cull tomatoes are sold the prices received are substantially lower than for either No. 1 or No. 2 quality tomatoes, oftentimes returning only a salvage price. At the same time, such cull tomatoes go into commercial markets competing directly with the sale of better quality tomatoes and the sale of such cull tomatoes at the lower prices has an adverse and a depressing effect upon prices received for the better quality tomatoes and, therefore, tends to depress the prices received by growers for their tomatoes. The record shows that one shipper built up a good trade in some markets for U. S. No. 2 tomatoes, but when shipments of cull tomatoes were not prohibited and some of such poor quality tomatoes got into the markets in which the shipper was selling No. 2's, the demand for his No. 2's fell off substantially. The shipment of cull tomatoes has become a common practice since the prohibition of the movement of such quality was discontinued. Some shippers find it difficult to meet competition from cull tomatoes as long as some other shippers are allowed to sell and transport them. The record of hearing provides substantial evidence by expert witnesses that there is no place in the market for cull tomatoes from the Lower Valley and that there should be authority in the marketing order to prevent their resale and transportation because of adverse, depressing effects on prices to farmers for better grades of tomatoes.

It is also found that there is a need for a marketing agreement and order to help the industry develop orderly marketing practices that will tend to prevent abuses from overweight of containers as well as from lack of uniform sizing of tomatoes within different packs. Provision for placing competition on an even basis with respect to size among shippers is a need that will tend to promote orderly marketing of Lower Valley Texas tomatoes and will help to improve prices to farmers.

The record shows that tomato farmers and shippers in the Lower Valley of Texas have no other means of helping to promote and improve marketing conditions for their tomato crop. The need for a marketing agreement and order to assist them in promoting better marketing conditions and in increasing the prices paid to Lower Valley tomato growers for their crop is substantially shown on the basis of the record.

(3) The term "tomatoes" as used in the marketing agreement and order identifies the agricultural commodity referred to therein and distinguishes it from other agricultural commodities. The term "tomatoes" should be defined to mean all varieties of the edible fruit (lycopersicon esculentum) which are commonly referred to as tomatoes in the production area as well as throughout the United States. The definition of tomatoes as set forth in the marketing agreement and order establishes the identity of the agricultural commodity for which regulation is authorized, and establishes the commodity to which the handling activities related thereto are subject to the authority of the marketing agreement and order. Tomatoes therefore, should be defined in the marketing agreement and order to mean all varieties of tomatoes grown in the production area.

The term "production area" should be incorporated in the marketing agreement and order as a means of specifying the area within which tomatoes must be produced before the handling thereof is subject to regulation thereunder. Production area is defined to include all territory in the counties of Cameron, Hidalgo, Starr, and Willacy, in the State of Texas. "Production area", thus defined, contains all of the tomato producing counties in the lower Rio Grande Valley of Texas. Growing and climatic conditions are about the same in the four counties and there are no appreciable or sizeable acreages of tomatoes grown within approximately 150 miles of this area.

There may be minor variations in practices and methods of production, harvesting and marketing tomatoes between counties and within specific counties. Nevertheless, grading and quality standards for commercial sales are the same throughout the production area. The marketing seasons are the same as shown by the tabulation of shipments from the four counties. Each county within the production area has to share and compete in common markets at the same time. Undesirable grades, sizes, qualities and maturities of tomatoes have the same effect in the market on prices paid for Lower Valley tomatoes irrespective of the producing county.

The production area includes four counties which constitute a relatively small area bordered on the south by the Rio Grande River and Mexico on the east by the Gulf of Mexico, and which are separated from other tomato and vegetable producing sections in Texas by non-irrigated range land. The four counties differ from the surrounding counties in that the four counties have been developed for intensive farming of fruits and vegetable crops, including tomatoes, which are grown under irrigation. This section is commonly recognized as a separate and distinct production area by growers and handlers operating there, also by the produce trade in terminal markets and by official publications reporting tomato and other vegetable crops. The production area is so recognized as a distinct entity, commonly referred to as the "Lower Rio Grande Valley", or simply the "Lower Valley", because of the natural barriers of the Gulf, the international border, the insulation of range land, and the separate characteristics of the production and marketing problems encountered there by producers. The customary recognition of the four counties as a production area for tomatoes provides proper basis for the definition of production area.

Highway outlets leading out of the production area are limited to three major highways, two to the north and one to the west. There is no reasonable method or basis of dividing the production area into two or more areas for purposes of separate marketing agreements and orders. All territory included within the boundaries of the production area constitutes the smallest regional production area that is practical and consistent with carrying out the declared policy of the act, and the production area therefore should be defined as hereinafter set forth.

(4) The terms "handler" and "shipper" are synonymous. They should be defined to identify those persons who handle tomatoes in the manner described and set forth in the definition of "handle". The definition of handler establishes and identifies the persons who are to be subject to the regulations authorized by the marketing agreement and order. Any person who is engaged in the act or acts of handling or shipping tomatoes or who causes tomatoes to be handled or shipped is a handler. Such persons are responsible for the grade, size, quality and maturity of tomatoes delivered to transportation agencies or which are transported or sold in the current of interstate or foreign commerce, or so as directly to burden, obstruct, or affect such commerce and such persons are handlers.

Common or contract carriers transporting tomatoes which are owned by another person are performing a handling function, but such handling should not be regulated under the

marketing agreement and order because such carriers are not responsible for grade, size, quality and maturity of the tomatoes being transported, neither are they responsible for the introduction of such tomatoes in the stream of interstate commerce. Also, the sole interest of common or contract carriers in such tomatoes is to transport them for a service charge to destinations given by others. The person or persons delivering tomatoes to a common or contract carrier should be responsible for the grade, size, quality and maturity of such tomatoes. Therefore, the term "handler" or "shipper" should be defined to mean any person (except a common or contract carrier of tomatoes owned by another person) who handles tomatoes or causes tomatoes to be handled.

The term "handle" is defined in the marketing agreement and order to determine the particular transactions in the marketing of tomatoes, as defined herein, which fall within the authority for regulation under this program. "Handle" and "ship" are interchangeable and their definition should include the acts of selling and of moving, or otherwise transporting, tomatoes between the production area and any points outside thereof.

The great bulk of tomatoes grown in the production area is subjected, either in the field or more usually at packing houses, to grading and packing operations prior to moving to market. The tomatoes are picked by trained crews under the supervision of a grower or of a handler, i. e., packing house operator. After picking, the tomatoes are hauled to the platform of the packing house. Title to the tomatoes is usually transferred from the grower to the handler at this point. The handler takes the field-run tomatoes and runs them through the packing house for washing, grading, sizing, packing and loading. The handler makes sales, either direct to other handlers at shipping point, or to receivers or brokers in terminal markets in metropolitan or other areas outside the State or in the State. Also in some instances tomatoes are consigned to such markets.

The growing of tomatoes in the production area is a producer function and should be construed as an activity of the producer in his capacity as a producer. The harvesting of tomatoes, particularly when harvested by a crew employed by or under management of a packing house operator, also the sale or transportation of tomatoes to a packing house, i. e., to a recognized or registered handler within the production area, for grading and packing, although physically a part of a handling activity, should not be regulated under this program as such tomatoes have not yet been prepared for market. For the bulk of the tomatoes grown in and marketed from the proposed production area, the packing house operator is the handler or the person responsible for preparing the tomatoes for market and for transporting or selling the tomatoes, i. e., placing them in the channels of commerce. Compliance with the regulations which are authorized by the marketing agreement and order can readily be determined by such handler since it is he who determines the grades, sizes, packs and weights to be shipped. Of course, all subsequent handlers of such tomatoes in the production area should also have responsibility for the grade, size, quality and maturity of the tomatoes at the time such persons handle the tomatoes.

It is common practice for producers to sell or deliver their tomatoes to persons having facilities for packing and otherwise preparing the fruit for market, i. e., to persons who are generally recognized as tomato handlers. The producers, in such instances, properly rely on the persons preparing the tomatoes for market to see that the fruit which is thereafter shipped meets all applicable requirements for marketing. Thus, there should be excepted, in such instances, the movements of tomatoes from the fields to the places where the fruit will be prepared for market. It is necessary, however, to limit the scope of this exception in order to insure compliance with the regulations established under the program. Hence, it should be required that the facilities where the tomatoes are to be prepared for market be located within the production area. Otherwise, it would not be practicable for the committee to check effectively on the disposition of the tomatoes delivered to the packing facilities which did not meet the program requirements. Also, this exception should apply only in case the person engaged in the preparation of tomatoes for market has registered with the committee in accordance with such rules as it may, with the approval of the Secretary, prescribe. Registration would be necessary because some tomatoes are prepared for market in places located at or near tomato fields and it is necessary that the committee have knowledge of these locations for enforcement purposes. It is intended that the committee, under its rules, will register all handler-applicants whom it is reasonable to believe will conduct their packing and handling operations in accordance with the program requirements. It is also intended that all recognized handlers and other prospective handlers desiring to conduct their business in the usual or customary manner will register with the committee in order to enable them to obtain tomatoes without their having to meet program requirements at the time of deliveries by the producers or others.

There are some exceptions to the general rule, as outlined above, concerning handling activities for Lower Valley tomatoes. Some such tomatoes are graded and packed in the field where grown and are moved directly from the field to markets outside the production area by the producer or by truckers who purchase the tomatoes from the producer. Such persons would presumably not normally be registered handlers. However, each such sale or movement within the production area is a handling activity and, as such, makes the producer who sells the tomatoes a handler and subject to rules and regulations issued under the marketing agreement and order, because such actions place the tomatoes in the stream of commerce between the production area and points outside thereof. In like manner, the trucker who transports such tomatoes to market outside the production area also directly affects interstate commerce in tomatoes and, therefore, is subject to the terms and provisions of the marketing order.

It has been a practice in the production area to sell or to ship some tomatoes as they are picked in the field to repacking plants in the State of Texas but outside of the production area. This practice also constitutes "handling" on the part of the producer or seller. If the repacking plant, however, is located within the production area, then the operator of the repacking plant becomes the handler.

The sale or transportation of tomatoes within the production area for consumption within the production area should not be considered a handling activity under the marketing agreement and order. As there are no large population centers within the production area, such shipments are comparatively small and their regulation would be burdensome without any appreciable benefits. Also, the definition of the term "handle" does not include the sale at retail of tomatoes by a person in his capacity as a retailer.

With the exception of the activities which are specifically excluded from the definition of the term handle, all transportation and sales of tomatoes, from the time they are harvested until they move outside of the production area, should therefore be included within the definition of the term "handle."

(5) (a) Certain terms applying to specific individuals, agencies, legislation, concepts, or things are used throughout the marketing agreement and order. Such terms should be defined for the purpose of designating specifically their applicability in establishing the approximate limitation of their respective meanings wherever they are used.

The definition of "Secretary" should include not only the Secretary of Agriculture of the United States, but also in order to recognize the fact that it is physically impossible for him to perform personally all of the functions and duties imposed upon him by law, any other officer or employee of the United States Department of Agriculture who is, or who may hereafter be authorized to act in his stead.

The definition of "Act" provides the correct legal citation for the statute pursuant to which the proposed regulatory program is to be operative. It makes it unnecessary to refer to such citation when used thereafter in the marketing agreement and order.

The definition of "person" follows the definition of that term as set forth in the act, and will insure that it will have the same meaning as when used in the act.

"Producer" should be defined to mean any person who is engaged in a proprietary capacity in the production of tomatoes within the production area, and who is producing such tomatoes for market. A definition of the term "producer" is necessary for appropriate determinations as to eligibility to vote for, and to serve as, members or alternate members of the committee and for other reasons.

The term should be limited to those who have an ownership interest in tomatoes produced in the production area. It should not include laborers or others who perform work for a fee or for hire in producing tomatoes.

There was considerable discussion during the hearing with respect to the interpretation of the definition of producer particularly as such interpretation would apply to persons eligible to serve as committee members. The problem of determining who is a producer and who is not a producer for the purposes of the marketing agreement and order is affected by numerous credit and financial arrangements currently existing among persons connected with the growing and marketing of tomatoes within the production area.

A producer is any "person" who produces in a proprietory capacity tomatoes for market. Inasmuch as a person is defined as an individual, partnership, corporation, association, or any business unit, each such person establishes a legal entity. Each person or legal entity, whether an individual, partnership, joint venture, or corporation, so engaged in the production of tomatoes for market, should have one voice in selecting committee members and alternates in the district.

The term "producer" should be limited to those who have an ownership interest in the tomatoes which gives them title or authority to pass title to such tomatoes. The person who owns and farms land resulting in his ownership of the tomatoes produced on such land should clearly be considered as the producer of such tomatoes. The same is true with respect to the person who rents and farms land resulting in his ownership of all or a portion of the tomatoes produced thereon. Likewise a person who owns land which he does not farm but as rental for such land obtains the ownership of a portion of the tomatoes produced thereon should be regarded as a producer of that portion received as rent and the tenant on such land should be regarded as a producer of the remaining portion produced on such land. In each of the above situations where the person acquires ownership of all of the particular tomatoes such person regardless of whether he is an individual, partnership, association, corporation or other business unit should be considered as one producer and entitled to one vote. However, in cases where the ownership is divided, that is where one person obtains ownership of only a portion of the particular production and another person obtains ownership of the other portion of such production, such as a landlord-tenant relationship, each such person should be considered as a producer and entitled to one vote. However, in the case of a partnership, the partnership must vote as a unit.

The most common type of partnership appears to be the arrangement whereby one person puts up all or part of the capital and the other contributes machinery or skill, or both. Another arrangement provides that one person is responsible for selling the crop and another in growing and harvesting the tomatoes. Capital, machinery and labor may be contributed in varying degrees by each of the partners. The partnership, however, is an entity and under the definition of "producer" should have only one vote, the same as an individual or corporation. Any action with respect to such an organization regarding voting matters depends, therefore, on the partnership agreement and action by the partners pursuant thereto, irrespective of whether the partnership is composed of individuals, corporations, or combinations thereof.

Persons engaged in tomato growing operations and paid for their services on a wage or per unit of production basis should not have a producer status in the marketing agreement and order if such persons do not have title to any of the tomatoes.

"Grading" or "preparation for market" are interchangeable and means the sorting of tomatoes by hand or mechanical means, or both, so that such tomatoes are separated into grades, sizes, maturities and packs. Such classifications are determined by the handler who directs, in person or through his agent, how and in what number of classes a particular lot of tomatoes should be separated. Grading may vary from an operation performed entirely by hand in which certain tomatoes are picked out when they are being loaded at the field to a production line operation. In the latter method tomatoes are carried by mechanical conveyor through the grading operation. They are first washed and waxed. They are then carried to a series of moving belts and tables where sizes are determined and good quality, as represented by grades, sizes, and maturities, or any combination thereof, is separated from bad. It is in this operation where the tomatoes which should go to preferred price outlets are separated from those going to discounted price outlets. "Grading" or "preparation for market" is an operation which applies to all tomatoes grown in the production area even though the extent to which tomatoes are separated into market classes may vary considerably among the types of outlets.

Definitions of "grade" and "size" are incorporated in the marketing agreement and order to enable persons affected thereby to determine the basis for application of grading and size limitations to the products they handle. "Grade" and "size", the essential terms in which regulations are issued, should be defined as encompassing the meanings assigned to these terms in the official United States Standards for Fresh Tomatoes issued by the United States Department of Agriculture and to modifications or amendments of such standards and to variations of such standards by regulations under the marketing agreement and order. Regulations under the order can then incorporate such terms (grade, size and maturity) with the constant meaning assigned thereto in such standards or in such modified or amended standards. Also, such regulations can vary such terms by prescribing, for example a percentage of grade. Official inspectors are qualified to certify to the grade, size, and maturity of tomatoes grown in the production area under the terms of the aforesaid standards or modification or amendment based thereon.

"Grade" and "size" should also be defined as comprehending the equivalents of the meanings assigned these terms in the official United States Consumer Standards for Fresh Tomatoes issued by the United States Department of Agriculture and to modifications or amendments to such standards and variations of such standards by regulations under the marketing agreement and order. The United States Standards for Fresh Tomatoes are generally used for shipments of tomatoes from the production area. However, with the increase in importance of tube packing in the shipment of "pinks" from the production area the use of the United States Consumer Standards for Fresh Tomatoes may become more customary and they should be available as a basis for regulation under the marketing agreement and order.

"Pack" should be defined as a basis for distinguishing the various units in which tomatoes are prepared for market, and shipped. The term "pack" is commonly used throughout the tomato trade and refers to a combination of factors relating to grade, size, and maturity of tomatoes and frequently to quantity and type of container. For example, U. S. No. 1 grade tomatoes, 6x6's, when put in 60 pound wire bound crates may be referred to as a specific pack. U. S. No. 2, 6x7's, also may be termed as a specific pack and with additional differentiation when packed in lugs or other various types of containers. The term "pack" should mean any pack of tomatoes as set forth in the United States Standards for Fresh Tomatoes and, in addition, it should include any other packs recommended by the committee and approved by the Secretary. Since some Texas tomatoes are "jumble" packed as opposed to the "place pack," the committee should be permitted under its rules and regulations to define and establish such packs in terms of size tolerances, grades allowed, weight of contents, and maturity in their relationship to the unit being marketed, in addition to United States Standard packs as set forth in the official standards.

"Maturity" should be defined as set forth in the marketing agreement and order. Although the bulk of Texas tomatoes are marketed as "mature greens," "pink" and "vine ripened" tomatoes are assuming an important place in the market. The application of different maturity stages to any regulations recommended by the committee would permit a basis for different regulations for mature green tomatoes and for those with a greater degree of maturity. Mature green tomatoes are considered by many handlers as more firm and less susceptible to bruising, growth cracks, and other injury or defects, than are tomatoes shipped as "pinks" or "vine-ripened" which are in later stages of maturity. Inspectors are qualified to inspect and certify for any maturity level which may be recommended by the committee.

The term "container" should be defined in the marketing agreement and

order to mean a box, bag, crate, hamper, basket, package, tube, or any other type of receptacle which may be used in the packaging, transportation, sale, shipment, or other handling of tomatoes. The definition of the term is needed to serve as a basis for differentiation among the various shipping receptacles in which tomatoes are sold or moved to market for which different regulation could be applicable.

The term "varieties" is included in the marketing agreement and order so that the committee may recognize the real differences and characteristics of different varieties and different types of tomatoes, and the differences in types of regulations which might be considered and recommended therefor. The principal variety grown at the present time for the spring deal is the Rutgers. The Grothen Globe is the leading fall crop variety. However, new varieties, such as the Weshaven and the Valiant, which differ in some respects from the aforementioned varieties, are increasing in importance. Also, there is an increase in marketing different types of tomatoes grown in the production area. For example, the "mature greens" are the most important type, but "pinks" and "stemmed" tomatoes are increasing in importance. The means set forth in the definition of varieties is appropriate for determining different varieties or types of tomatoes grown in the production area so that a basis for regulating some and not regulating others may be established.

The definition "committee" is incorporated in the marketing agreement and order to identify the administrative agency which is responsible for assisting the Secretary in the administration of the program. Such committee is authorized by the act and the definition thereof minimizes the use of words in referring to the administrative agency in the marketing agreement and order.

A definition of "fiscal period" should be incorporated in the marketing agreement and order to establish the beginning and ending of a suitable period for fiscal accounting. Such period was set forth in the notice of hearing as "beginning August 1 and ending July 31 following." However, it was testified at the hearing that the orginally proposed beginning and ending dates would not be satisfactory. While two crops of tomatoes are normally produced in the production area, i. e., a fall crop and a spring crop, the regulation of the fall crop does not appear to be likely at any time in the near future. It was also agreed that the fiscal period should begin reasonably near to the time when it is anticipated that active regulation of the commodity will commence in order to insure that collections will be made in adequate amounts to cover the costs of operations so that at the beginning of each season monthly deficits caused by operating costs can be avoided as much as possible. This undesirable result should be avoided by fixing the beginning of the fiscal period reasonably near the beginning of active regulation, which at this time would presumably be the time of the handling of the spring crop. It seemed to be generally agreed that an appropriate time for such period at the present time would be to have it begin on March 1 and end on the last day of the following February and it is concluded that such beginning and ending dates should be the ones adopted for initial use.

However, it is possible that, at some future date, it will be deemed to be desirable to regulate the fall crop. Also, it has happened in some years that shipments from the spring crop are made before March 1. Such shipments are known to have been made as soon as the early part of January. Because of the continuing desirability of starting the fiscal period as close as reasonably practicable to the beginning of active regulation, some latitude should be given for changing the beginning and ending dates to meet changed circumstances, such as those indicated in the two preceding sentences. This latitude would be afforded by the addition of an authorization in the definition for changing of the beginning and ending dates by the Secretary pursuant to the recommendation of the committee.

"District" should be defined in the marketing agreement and order as referring to each of the geographical sections or divisions of the production area either as initially established or as later reestablished in order to provide a basis for the nomination and selection of committee members for regulatory purposes. The proposed division into districts is adequate and equitable, and it provides a practical basis for the purposes for which intended.

"Export" should be defined in the marketing agreement and order as any shipment of tomatoes beyond the boundaries of the continental United States. Separate treatment for export shipments may be necessary because the requirements of certain export markets may differ from those of the domestic market and therefore different or special regulations or even no regulations may be justified with respect to such shipments. It is found from the evidence that Lower Valley tomato producers and handlers customarily consider an important distinction between such export markets as Canada and Mexico. Authority should be provided to permit different regulations for each of these markets, as well as for other markets, as circumstances may warrant. Territories and possessions of the United States should be included under the term "export" because any shipments to such markets would tend to satisfy a different type of demand than domestic shipments.

(b) The marketing agreement and order should provide for the selection by the Secretary of an administrative committee, called the Texas Valley Tomato Committee, composed of nine producer members of whom at least four should be producer-handlers. Establishment of this committee would be desirable and necessary to aid the Secretary in carrying out the declared policy of the act. The establishment of such a committee is authorized by the act. The notice of hearing provided for an administrative committee composed of nine producer members. It was testified that such a number had been generally agreed upon by the industry as being the least number of members which could represent properly all segments of the production area. Because practically all handlers of tomatoes in the Lower Valley are also producers, the proponents did not believe it was necessary to specify that a certain number of committee members should be handlers. However, evidence was introduced at the hearing to the effect that the Committee membership should include producer-handlers so that committee deliberations would be assured of the benefit of the handlers' experience in the marketing of tomatoes and their knowledge of market conditions. While the original proposal, as set forth in the notice of hearing, did not exclude producer-handlers, the evidence was such that the marketing agreement and order should specify that a certain percentage of the membership be producer-handlers to insure that such persons are named to the committee. Testimony as to the desirable number of producer-handler members related both to four and to five. Since the primary purpose of the program is to improve marketing conditions for Lower Valley tomatoes so that farmers' prices will be raised towards parity, the provision that each committee member and alternate must be a producer of such tomatoes and at least four of such members must be producer-handlers, should help to promote the objectives of the act. Inasmuch as alternates serve for their respective members in the event of the absence or disqualification of the latter, it should also be required that at least four of the nine alternate members shall be producer-handlers. This plan of representation should provide adequate and equitable representation of the tomato grower and handler interests in the Lower Valley and such producer-handler representation should help to insure comprehensive coverage of tomato marketing problems.

Each person selected as a member of the committee should be a producer or an officer, or employee of a producer, of tomatoes in the district for which selected, and should also be a resident of the production area. "Producer" is proposed to be defined as meaning any person engaged in a proprietary capacity in the production of tomatoes for market. "Person" is proposed to be defined as meaning an individual, partnership, corporation, association, or any other business unit. In addition to the qualifications for producers, producer-handler members should be persons engaged in packing and shipping tomatoes grown in the production area, or persons who are officers or employees of a producer-handler. It was testified that cooperative associations of tomato producers operate in the area by marketing tomatoes for their grower members. It is appropriate that an officer or employee of such a cooperative will be deemed to be eligible to serve as a producer-handler member or alternate member of the committee. Therefore, the requirement that a producer or producer-handler member of the committee should be a producer or producer-handler or an officer or employee of a producer or a producer-handler should not exclude any qualified individuals from serving on the committee. A person with such qualifications should be intimately acquainted with problems of producing and/or marketing tomatoes grown in the production area and each may be expected to present accurately the problems incident to production or marketing of tomatoes grown in his district. Qualifications for each alternate should obviously be the same as for the respective member for whom he may act. Such qualifications should help to assure that the interests of the group from which each is selected will be adequately represented in committee deliberation.

Each committee member and his respective alternate should serve for a one-year term of office ending as of July 31 and for any additional period needed for the selection and qualification of his successor. Such a term of office is reasonable and will allow the tomato industry to express its approval or disapproval of the committee membership at the end of any season and prior to beginning a new season. August 1 is an appropriate date for the beginning of a term of office because it is between the end of the spring growing season and the beginning of the fall growing season. In addition, no shipments of tomatoes grown in the production area are being made at that time of the year. By beginning the term of office on August 1, each new committee will be authorized to start its term between the end of an old season and the beginning of a new. Committee members and alternates should be selected for the term of office during which they are to serve and until their successors are selected and have qualified in order to insure continuity of committee operation.

Districts should be established to provide a basis for the selection of committee members. The districts as initially established were worked out by the industry and they represent the best basis which could be devised at this time for providing a fair, adequate and equitable representation on the committee.

The proposed production area comprises four counties to be divided into four districts, one for each county. These districts are logical and desirable, because county lines are well defined, and producers and handlers are familiar with such county boundaries. Each person qualified for voting can easily establish the county within which his holdings are located.

The provision for redistricting is desirable because it allows the committee to consider from time to time whether the basis for representation could be improved and how such improvement should be made. The guides, as set forth in the marketing agreement and order, which the committee should keep in mind in considering redistricting are appropriate and desirable points of reference that relate directly to the welfare of the tomato industry.

It is practical and equitable that selection of committee members and alternates should be on a geographical basis such as the districts provided for in the marketing agreement and order. Such geographical basis should be, and for purposes of initial membership has been, related to the number of producers in the production of tomatoes within the production area so that a practical basis for establishing equity has been reached.

Procedure for the election of nominees by producers and producer-handlers for membership on the committee should be prescribed in the marketing agreement and order. Such provisions will provide the Secretary with assistance by the tomato industry in selecting members and alternates for the committee. Nomination of prospective members and alternates at meetings of producers and producer-handlers in the respective districts is the customary and practical method of providing the Secretary with the names of persons whom the industry desires to serve on the committee. In order to obtain an indication of the industry's preference for membership on the initial committee, meetings of producers and producer-handlers should be sponsored by the United States Department of Agriculture or by any agency or group requested to do so by the Department. This sponsorship should provide a practical and appropriate means for the industry to express its wishes and preferences with respect to committee membership, inasmuch as no committee would be in existence to assume such responsibility at that time.

Nomination meetings for succeeding members and alternates on the committee should be called by the committee, because it is practical, proper, and appropriate that the responsibility for calling nomination meetings for succeeding members should rest with the committee as the administrative agency for program operations. The committee should also be permitted to utilize the services of other agencies, such as, but not limited to, Extension Service representatives, to assist in conducting such nomination meetings.

It is appropriate and proper that the committee should be required to hold nominations for successor members and alternates not later than June 15th of each year, since the term of office of committee members and alternates is proposed to begin as of August 1 of each year. Nomination meetings for such successor members and alternates should be held in sufficient time to assure that nominations will be forwarded to the Secretary in time for him to make his selections prior to the beginning of each new term of office.

If the committee wishes to hold nomination meetings in connection with other meetings that are conducted on tomatoes in any or all districts, it is appropriate and proper that such nomination meetings may be so held. If on the other hand, the committee wishes to hold separate nomination meetings it is a matter of judgment and responsibility which should properly fall within the judgment of committee members.

At least two nominees should be designated for each position as member and each position as alternate, so that the Secretary will have a choice in making his selections. It is appropriate, and the marketing agreement and order should provide, that producers and producer-shippers voting at such industry meetings may ballot for nominees to indicate the ranking of their choice for each position to be filled. Nomination lists should be supplied to the Secretary not later than July 15, of each year, so that the Secretary may have sufficient time in which to select committee members prior to the beginning of the succeeding term of office.

Only producers and producer-handlers should participate in nominating members and alternates for the committee, because they are the persons who will be concerned with program operations and the persons whom the program will be designed to benefit.

If a person produces tomatoes in more than one district, such person should select the district in which he wishes to cast his vote for nominees on the committee. Any other procedure would give such persons a greater voice than other producers in the nomination of committee members.

Each producer or producer-handler participating in the industry meetings for the election of nominees to the committee should be limited to one vote on behalf of himself, his agents, subsidiaries, affiliates, or representatives. Voting on any other basis would not provide for equitable representation, because it would give producers and producer-handlers with interests in more than one district a greater voice in the election of nominees than such persons operating in only one district. The limitation of each producer's or producer-handler's right to cast one vote on behalf of himself should be construed to mean that one vote may be cast for each position which is to be filled. For example, if there are three members to be nominated from a district and three alternates to be nominated from such district, then each grower should be privileged to cast one vote for each member position and one vote for each alternate position. Such votes should be cast only in the district in which a producer or producer-shipper elects to vote. Each producer or producer-shipper presumably is interested in nominating well qualified prospective members and their interest is to be expressed in the district where they consider their major interest exists. It is presumed also that such producers and producer-handlers are dependent on tomatoes for an important part of their income. It is only fair that each grower should have the same voice in electing each person who will represent his district on the committee.

It is also desirable and necessary that the Secretary should be authorized to fill committee vacancies without regard to nominations if the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs. This provision is intended to insure continuity in case the industry fails to forward nominations to the Secretary in time for the selection to be made. The Secretary should have recourse to such means of filling vacancies in order to maintain continuity of administrative agency operation and to insure that all portions in the production area are equitably represented in the conduct of committee

business. In order that there will be an administrative agency at all times to administer the marketing agreement and order, the Secretary should be authorized to select committee members and alternates without regard to nominations if for any reason nominations are not submitted to him in conformance with the prescribed procedure. Such selection should be on the basis of the representation provided in the marketing agreement and order so that the composition of the committee will continue as prescribed.

Each person selected by the Secretary as a committee member or alternate should qualify by filing with the Secretary written acceptance of his willingness and intention to serve in such capacity. Such requirement is necessary so that the Secretary will have definite knowledge as to whether or not the position has been filled. In order to prevent excessive delay in obtaining full membership on the committee such acceptance should be filed within 10 days after notification of appointment.

An alternate member should be authorized to act in the place and stead of the member for whom he is an alternate in such member's temporary absence. An alternate should be authorized to act in a member's absence when such absence is due to death, removal, resignation, or the disqualification of the member. Alternates acting in the place and stead of members should continue to act in such capacity until the successor for the member has been selected and has qualified. This would assure continuity of the marketing agreement and order operations, prevent the committee from being without sufficient members to carry on its business, and assure adequate representation from all districts at committee meetings.

At least six of the nine members of the committee should be necessary to constitute a quorum. This would require a two-thirds majority of the committee membership and should provide ample representation from each district. Six concurring votes should also be necessary to pass any committee action at an assembled meeting. Two-thirds majority of the committee membership for a quorum and for approval of any committee action is deemed reasonable and provides a basis for adequately reflecting industry thinking in marketing problems. At assembled meetings all votes should be cast in person so the participating members will have the benefit of the discussion when casting their votes, and also to encourage members to attend assembled meetings.

The committee should have the authority to hold meetings by telephone, telegraph, or other means of communication because marketing conditions affecting tomatoes often change rapidly and it may be necessary for the committee to take speedy action which would be delayed by calling an assembled meeting. Any vote cast at such a meeting should be confirmed promptly in writing in order to provide a written record of the votes so cast. In addition any action taken as a result of a vote at an unassembled meeting should be unanimous, because members will not have the opportunity for discussion at such meetings. If a question should be so controversial that there is not unanimity of opinion, an assembled meeting should be held so the matter can be fully discussed.

Committee members and alternates should be reimbursed for necessary expenses incurred in the performance of services to the committee. Such expenses will necessarily be incurred in attending meetings in connection with the marketing agreement and order, or in performing duties for the committee outside the committee meetings. Such expenses might include travel, meals, hotel accommodations, and similar expenses. In other words, they should include actual expenses reasonably necessary to be incurred in the performance of duties in connection with the marketing agreement and order, but should not include per diem reimbursement for time involved.

The committee should be given those specific powers which are set forth in section 8c (7) (C) of the act. Such powers are authorized to be granted by the enabling statutory authority and they are necessary for an agency of the character set forth in the marketing agreement and order to function properly.

The committee's proposed duties, as set forth in the marketing agreement and order, are necessary for the discharge of its responsibilities. The duties established for the committee are generally similar to those specified for administrative agencies under other programs of this character. It is intended that any activities undertaken by members or alternates of the committee will be necessary for the committee to carry out its responsibilities as prescribed in the marketing agreement and order. It should be recognized that these specified duties are not necessarily all inclusive in that it may develop that there are other duties which are incidental to and not inconsistant with the terms and conditions of the marketing agreement and order and which the committee may also need to perform.

(c) The committee should be authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each fiscal period for the maintenance and functioning of such committee and for such other purposes as the Secretary may determine to be appropriate pursuant to the provisions of the marketing agreement and order. Expenses so incurred should be shared by handlers on the basis of the ratio of each handler's total shipments under regulation to the total shipments under regulation by all handlers during a specified fiscal period. Tomatoes grown in the Lower Valley involve two separate crops. In addition to the principal late spring crop, a fall crop is grown which the industry may not wish to regulate during some seasons. In this connection, it was testified that the fall crop has, for various reasons, been diminishing in importance during recent seasons and, at the present time, represents a comparatively small percentage of the total production. It is obvious that, in any season when the fall crop is not regulated, the producers and handlers of that crop would not share in the benefits of the proposed program and that, in such circumstances, it would be inequitable to require the tomatoes from such crop to bear any part of the program expenses. On the other hand, during any fiscal period when the fall crop is regulated, the tomatoes from that crop should bear their proportionate part of the program expenses. It is believed that the indicated objectives for the proration of program expenses could be equitably achieved by imposing assessments only on tomatoes which are shipped under regulation. Under such a method, the fall crop would be assessed only in the event it was regulated. The basis for determination of the ratio of shipments by individual handlers subject to assessments should be based upon the total shipments of regulated tomatoes by first handlers thereof.

The committee should be required to prepare a budget at the beginning of each fiscal period, and as often as may be necessary thereafter, showing estimates of income and expenditures necessary for the administration of the marketing agreement and order for such a period. Each such budget should be presented to the Secretary with an analysis of its components and explanation thereof. It is desirable that the committee should recommend to the Secretary the rate of assessment designed to bring in during each fiscal period or period of regulation sufficient income to cover expenses incurred by the committee.

The funds to cover the expenses of the committee should be obtained by levying assessments on handlers. The act specifically authorizes the Secretary to approve the incurring of such expenses by administrative agencies such as the Texas Valley Tomato Committee and the statute also requires that each marketing agreement and order issued pursuant to the act should contain provisions requiring each handler to pay his pro rata share of the necessary expenses. Moreover, in order to assure continuance of the committee, the payment of assessments by handlers should be permitted to be required irrespective of whether particular provisions of the marketing agreement are suspended, or become inoperative.

Each handler should pay the committee upon demand his pro rata share of such reasonable expenses which the Secretary finds will be necessary by the committee in each fiscal period. As indicated above, such pro rata share of expenses in the present situation should be equal to the ratio between the total quantity of tomatoes under regulation handled by him as the first handler thereof during the period of regulation and the total quantity of tomatoes under regulation handled by all handlers during the same period. It is necessary that the responsibility for the payment of the assessment on each lot of tomatoes be fixed and it is logical, proper, and equitable to impose such liability on the first handler of such tomatoes. In most instances the first handler and the applicant for inspection are the same person. However, in the event the first handler fails to apply for and obtain inspection, this does not in any way cancel his obligation with respect to the payment of assessments.

Assessment rates should be recommended by the committee and applied by the Secretary to a specific unit of shipment. For example assessment rates may apply to carlot shipments or they may be applied to a crate, lug, or to any other unit of shipment commonly used in the marketing of tomatoes grown in the production area. However, such assessments for a fiscal period should be applied on a uniform rate basis.

At any time during, or subsequent to, a given fiscal period the committee should be authorized to recommend the approval of an amended budget and the fixing of an increased rate of assessment to balance necessary committee expenses and revenues. Upon the basis of such recommendations, or other available information, the Secretary should be authorized to approve amended budgets, and if he finds that the then current rate of assessment is insufficient to cover committee administration of the marketing agreement and order, he should be authorized to increase the rate of assessment. The marketing agreement and order should authorize the application of such increased rate of assessment to all tomatoes previously handled by first handlers during the specified period so as to avoid inequities among handlers.

Funds received by the committee pursuant to the levying of assessments should be used solely for the purpose of administration of the marketing agreement and order, including appropriate research and development projects. The committee should be required to maintain books and records clearly reflecting the true up-to-date operations of its affairs so that its administration may be subject to inspection at any time by appropriate parties. Each member and each alternate as well as employees, agents, and other persons working for, or on behalf of, the committee should be required to account for all receipts and disbursements, funds, property, or records for which they are responsible and the Secretary should have the authority at any time to ask for such accounting. Whenever any person ceases to be a member of the committee he should be required to account for all receipts, disbursements, funds, property, books, records, and other committee assets for which he is responsible. Such person should also be prepared to execute assignments or such other instruments which may be appropriate to vest in his successor or agency or person designated by the Secretary the right to all such property and all claims vested in such person.

Any committee member, however, or any personnel responsible for committee funds or assets should be covered by an appropriate fidelity bond. Such requirement is a common sound business practice that should be followed by the committee and should be required of all persons handling committee funds.

If the committee should recommend that the operations of the marketing agreement and order should be suspended or if no regulation should be in effect for a part or all of the marketing season the committee should be authorized to recommend as a practical measure that one or more of its members or any other person should be designated by the Secretary to act as a trustee or trustees during such period. This would provide a practical method whereby the the committee's business affairs could be taken care of during periods of relative inactivity with a minimum of difficulty and expense to the industry and to the Secretary.

The committee should provide periodic reports on its fiscal operations. It is expected that audit reports shall be requested by the Secretary at appropriate times such as at the end of each marketing season or at such other times as might be necessary to maintain appropriate supervision and control of the committee's affairs. Handlers should be entitled to a proportionate refund of the excess assessments which remain at the end of a fiscal period or at the end of such other period as may be deemed appropriate by reason of suspension or termination. Such refund should be credited to each such handler against the operations of the following fiscal period unless he should demand payment thereof in which event such proportionate refund shall be paid to him.

If and when the committee is required to wind up its affairs upon termination of a marketing agreement and order authorizing such agency, considerable expense is involved in the liquidation process. It is appropriate, therefore, that if funds, which are in excess of those necessary for payment of expenditures during such period, remain at the end of a fiscal period. Some of such funds should be carried over into subsequent fiscal periods as a reserve for possible liquidation. Such reserve should be maintained for the purpose of helping to cover the expenses of final liquidation in the event that the marketing agreement and order are terminated. It is not anticipated that any such reserve will be accumulated in an amount in excess of what might be the reasonable cost of such liquidation action.

Any funds remaining after liquidation has been effected should be refunded to handlers on a pro rata basis. In some cases, however, individual handlers' accounts may be so small it would be impractical because of the costs involved to make such refunds. The committee should be permitted to use funds of such insignificant nature for purposes of liquidation.

(d) The establishment or provision for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of tomatoes was authorized by amendments to the act in Public Law 690 known as the Agricultural Act of 1954, enacted by the 83d Congress. Such authorization should be included in the marketing agreement and order.

Research projects with respect to market development, transportation, handling methods, containers, and studies on the relative merits of different stages of maturity at which tomatoes are marketed could be of considerable value to the committee, with respect to the recommendation of regulations, and to the industry in general. It was testified at the hearing that the tomato industry in the Lower Rio Grande Valley could improve its methods with respect to grading, packing, shipping, and harvesting, so that the product offered to the consumer will receive better acceptance and thereby increase returns to tomato growers.

As the industry and the committee become more aware of the value of and need for marketing research and development, other projects will undoubtedly be initiated which may not be apparent early in committee operations. Therefore, the committee should have the authority to recommend the establishment of such projects which are in the best interests of tomato marketing, and which will assist, improve, and promote the marketing, distribution, and consumption of Lower Rio Grande Valley tomatoes. The committee should be authorized to engage in or contract for such projects, spend funds for such purpose, and consult and cooperate with other agencies with regard to their establishment. All such projects should receive prior approval by the Secretary in order to insure that such projects properly come within the purview of the indicated statutory authority.

(e) The declared policy of the act is to establish and maintain such orderly marketing conditions for tomatoes, among other commodities, as will tend to establish parity prices for such tomatoes. The regulation of the handling of tomatoes by grade, size, quality, or maturity as proposed to be authorized in the marketing agreement and order should provide a means of carrying out such policy and is one of the methods authorized by the act (in section 8c (6)) for achieving that objective.

The proposed marketing agreement and order outline certain procedures and methods for the development and institution of marketing policies relating to grade, size, quality, or maturity regulations. Such procedures and methods should provide a practical basis for the committee to obtain appropriate and adequate information relating to tomato marketing problems. A marketing policy is essential each season to provide an overall plan or policy for the committee and the industry with respect to the marketing of tomatoes grown in the area during the marketing season. A marketing policy should indicate to all producers and handlers the general outlook or plan the committee intends to follow in recommending regulations with respect to tomatoes covered by the marketing agreement and order. It would also provide information to handlers so that they may make adequate preparations with respect to anticipated regulations.

In order that the Secretary may carry out effectively his responsibilities in connection with the proposed marketing agreement and order the committee should prepare and submit to the Department of Agriculture a report on each proposed marketing policy statement or

amendments thereof, relating to the marketing of tomatoes during each season. The initial marketing policy offered each season by the committee should be prepared and submitted to the Secretary prior to, or simultaneous with its initial recommendations for regulations. This should help to give all interested parties maximum notice of probable regulations. Reports on marketing policy and regulations recommended should be submitted to the Secretary and presented to the industry by the committee.

The factors set forth in the marketing agreement and order which the committee should take into consideration in developing its marketing policy are those commonly and usually taken into account by the industry in its day-to-day evaluation of the market outlook with respect to tomatoes. They are adequate and proper for the intended purposes. Limitation of the handling of poorer grades, off-qualities, and less desirable sizes and maturities of tomatoes grown in the production area should tend to increase prices of more desirable grades, qualities, sizes and maturities and thereby increase returns to producers of such tomatoes. The standards for fresh tomatoes issued by the United States Department of Agriculture would provide a common and acceptable means of determining grades, sizes, qualities, and maturities of tomatoes handled under the marketing agreement and order. Such standards are widely used throughout the area and both producers and shipping point handlers, as well as buyers, are generally acquainted with such standards and commonly use them in their market transactions. Authority should be provided for limiting the grade, size, or quality of tomatoes which may be placed in any given pack or container. Tomatoes affected by numerous serious defects may be of such low market quality that they do not qualify as any established grade under the United States Standards for Fresh Tomatoes. Such low grade tomatoes are officially referred to as "unclassified" and in trade parlance as "culls". Some tomatoes, although qualifying for an official United States grade may be of lower quality than the U. S. No. 1 or better grade, and sell at substantial discount from No. 1 or better grade. Similarly, certain smaller sizes, such as 6 x 7 and 7 x 7, sell at discounts from larger sizes, such as 6 x 6 and larger. The discounted grades and sizes are commonly referred to in the Lower Valley tomato trade as the poorer stock. The limitation of the handling by restricting movement of poorer grades, off-qualities, and less desirable sizes of tomatoes will help to improve orderly marketing conditions for such tomatoes by enhancing the long run demand for, and the competitive position of, tomatoes grown in the production area.

The orderly marketing of tomatoes grown in the production area will be promoted and farmers' returns will tend to be increased toward parity by authorizing regulation of the handling of particular grades, sizes, qualities, or packs of tomatoes differently for different varieties, differently for different stages of maturity, differently for different portions of the production area, differently for different containers, differently for different purposes for which modification or suspension of regulations may be applied, or differently for any combination of these groups during any period.

The hearing record shows that certain markets in Texas, Dallas and Houston in particular, do not readily accept the better grades of tomatoes because of the culls which were commonly sold on such markets. When culls appear in appreciable quantity on such markets terminal market receivers resist buying No. 1 or No. 2 grade tomatoes except at cull prices. Because of these experiences most shippers do not try to sell better grades in these Texas markets.

Farmers' prices for the better grades of tomatoes were much greater than for the poorer grades. The hearing record shows that, in an example offered by a competent witness, farmers received only 42 percent of the U. S. No. 1 price for U. S. No. 2 grades of the same sizes. Returns from culls were so low that they were used for overall operation of the organization. Another shipper testified that last season, according to his records, U. S. No. 2 tomatoes usually returned about 50 percent of the U. S. No. 1 price for tomatoes of the same sizes. Culls were sold at the packing house and usually returned less than five percent of the U. S. No. 1 prices for all sizes, and less than ten percent of the U. S. No. 2 prices.

The marketing agreement and order should include authority for regulating differently for different sizes of tomatoes. Evidence shows there is a variance in the Valley with respect to sizing at the present time. Some shippers, for example, will include some 6x6 size tomatoes in 6x7 packs in order to gain a slight competitive advantage over other shippers. The competing shippers then adopt the same practice or include even larger sizes. This results in a confused market which works to the disadvantage of the tomato industry in the Valley and reduces farmers' tomato prices. A receiver does not know exactly what sizes he will receive especially if he is buying from more than one shipper. This confusion has a depressing effect on the market which is in turn reflected on prices received by growers. Such practices affect growers' prices to a greater extent when growers are selling to shippers on a pack-out basis. For example, a grower receives a lower 6 x 7 price for the proportions of higher priced 6 x 6 tomatoes put into a pack marked and sold as 6 x 7 pack. The record shows that uniform sizing, if required under the marketing agreement and order, should help to restore confidence on the part of buyers with respect to sizes ordered and received, should tend to stabilize the market for particular sizes, and should eliminate the price-depressing factors which adversely affect growers' prices, thereby promoting more orderly marketing and tending to increase farmers' prices toward parity.

Demand for different varieties of tomatoes establishes price preferences for different grades or sizes or both of such varieties. For example, evidence shows the demand for "pink" and for "stemmed" tomatoes differed from the demand for mature greens. Stemmed tomatoes will return more per pound than mature greens and in some cases are generally of poorer quality, when judged by existing United States Standards, then the mature greens, in that they have more exterior defects. New varieties are being tried in the production area particularly with respect to the production of pink or stemmed tomatoes which may require differences in the application of regulations with respect thereto. There are also difference in varieties now grown in the production area. The Grothen Globe is a good example. This variety differs from other varieties, particularly the Rutgers, because it sometimes runs into difficulty in making grade because of shape. The authority to limit the grade and size of Lower Valley tomatoes differently for different varieties or types should include the authority for distinguishing between types of tomatoes as they are marketed. Such various types may include tomatoes with stems on, as distinguished from stemless tomatoes. The difference in market acceptability of such tomatoes, as well as differences involved in physical handling and packing, provides a factual basis for market distinctions which should be recognized in the marketing agreement and order.

Different regulations in terms of different stages of maturity will enable the committee to adjust its recomendations to meet different marketing problems. With the increasing importance of the "packing house pink or vine-ripened deals," repacking operations within the area may increase, which would necessitate consideration by the committee. The preference in Texas markets for more mature fruit than is ordinarily moved to out-of-state outlets is another factual basis for inclusion of this type of authority in the marketing agreement and order.

Unusual weather conditions may arise during the crop year in one portion of the crop area as compared with other portions of such area. This possibility is particularly true with respect to such natural phenomena as hail, wind, and rain storms. Hazards of this nature are obviously beyond the control or reasonable expectation of growers in such localities. Because of these circumstances and to provide equity among producers and handlers as far as regulations under the marketing agreement and order are concerned, authority should be provided for the committee to consider such differences and make appropriate recommendations in that regard and for the Secretary to issue different regulations to accommodate any such differences in the crop arising out of actions beyond human control. Any differences in regulations within the production area should be limited to taking care of natural disasters, as above indicated, and appropriate consideration should be given in recommending or issuing any such regulations to the administrative problems that would be involved. Such authority should provide for regulating in any or all portions of the production area or differently for different portions of the production area.

It is contemplated however, that any such relaxation will still require that the tomatoes shipped be the best quality available.

The marketing agreement and order should authorize the regulation of packs and should also authorize different regulations for specific packs. The standard packs, as specified in the United States Standards for Fresh Tomatoes, have been in common use by the Lower Valley tomato industry for years. However, in recent seasons there has been a trend toward "jumble" packs, which are packs without any particular arrangement of individual fruit. The need may arise whereby the committee would desire to establish the kind of packs in which the handling thereof may be permitted. It is presumed that the establishment and definition of such packs, to be set forth in rules and regulations, will spell out the grade and ranges of sizes permitted to be handled in conjunction with specified containers. Certain combinations of grade, size, and containers (which factors constitute packs) should be kept out of specified market channels when so recommended by the committee and limited by order of the Secretary, because of the adverse effect such packs have upon returns received by farmers for the tomatoes. For example, certain grades, sizes, qualities or maturities of tomatoes in certain containers should be withheld from certain outlets because such packs would reach destination in condition tending to demoralize the prices for tomatoes in superior packs and conditions. The committee should be empowered to recommend both maximum and minimum sizes and minimum grades with respect to the handling of certain packs. The marketing agreement and order should authorize different regulations for different packs so that this part of the marketing agreement and order program may help to assist the industry in furthering present merchandising approaches when deemed sound by the committee and when justified by marketing conditions.

The marketing agreement and order should permit regulations differently for different types of containers. The establishment of such regulation is authorized by virtue of an amendment to the act of Public Law 690, known as the Agricultural Act of 1954, enacted by the 83rd Congress. Principal types and sizes of containers in current use for the handling of tomatoes within the production area are the 60-pound wire bound crate, and the 30-pound lug. Other types of containers, such as a 20-pound fiber board box, are used to a lesser extent. A small volume of individual consumer size cartons or tubes containing 3 or 4 tomatoes, which in turn are packed in a master carton, are also being shipped from the production area. Should the use of certain of these containers when moved into commercial market channels be deemed by the committee, with the approval of the Secretary, as having an adverse affect upon returns to growers thereof, then the Secretary should have the power to fix the size, weight, capacity, dimensions or pack of the containers which may be used in the packaging, transportation, sale, shipment, or other handling of such tomatoes. For similar reasons, the committee should be permitted to recommend different regulations for different containers. The committee may determine that certain types of containers should be prohibited if the fruit contained in them is subjected to excessive damage. This would be especially important in the case of shipments of vine ripened tomatoes to interstate markets. The hearing record shows that returns to producers of tomatoes should be more favorable under conditions where the number of containers used is held at the lowest practical minimum. Accordingly, the committee may determine that the standardization of containers would be in the best interests of the industry. Therefore, the provisions relating to container regulations should be included in the marketing agreement and order as set forth.

The marketing agreement and order should authorize different regulations during any period so that the committee and the Secretary may take into account different supply and demand conditions as they may arise and become apparent.

(f) The committee should be authorized to recommend and the Secretary to establish such minimum standards of quality and maturity and such grading and inspection requirements during any and all periods when tomato prices are above parity as will be in the public interest. Some tomatoes are of such low quality that they do not give consumer satisfaction at any time because of the large amount of waste and time consumed in preparing them. Consumers do not receive proper value for their expenditures for such low quality tomatoes as culls, even when prices are above parity. It is not in the public interest either of the producers, handlers, or of consumers to permit shipments of such poor quality. The shipment of immature or over-ripe tomatoes also tends to disrupt general market conditions for the commodity and the discounted prices received for such immature or over-ripe tomatoes adversely affects grower prices. The marketing agreement and order should authorize the establishment of such minimum standards of quality and maturity as will be in the public interest. It is also necessary that such authority should include grading and inspection requirements so that such minimum standards of quality and maturity may be determined whenever such regulations are in effect.

The committee should have the authority to recommend to the Secretary the establishment of minimum quantities below which handling will be free from regulation. Most shipments of Lower Valley tomatoes are made in carlots or in trucklots. However, some small quantities are moved outside of the production area. Such small quantities constitute only a minor percentage of the total production. Some of these small shipments, such as gifts, are sold to accomodate friends. Problems of inspecting such small lots, or other problems in complying with inspection regulations on such small lots, may make it uneconomical, undesirable, and impracticable to require that such small shipments comply with all the regulations required of the larger commercial shipments. The administrative difficulties in checking upon such shipments to see that they are inspected, or that assessments are paid on them, may be such that it would be impractical for the committee to attempt to do so. However, such shipments should not be allowed to contain culls or other discounted grades and sizes to depress the market on the bulk of commercial sales. It might be necessary to permit the maintenance of one or more regulatory requirements on such minimum quantities while relaxing other regulations applicable to them. It is contemplated, of course, that any such relaxations of regulations would be applied uniformly.

(g) The Secretary, upon the basis of recommendations and information submitted by the committee or other available information, should be authorized to modify, suspend, or terminate grade, size, or quality regulations with respect to the handling of tomatoes for purposes other than disposition in normal domestic fresh markets. The committee should be well qualified because of experience and knowledge of individual members to recommend such modifications, suspensions or terminations as will be in the best interests of the Texas tomato industry, and which will tend to effectuate the declared policies of the act, and the marketing agreement and order. Tomatoes moving to, or sold in, certain outlets such as those specified in § 1014.54 of the marketing agreement and order are usually handled in a different manner. Such outlets usually accept different grades, sizes, qualities, maturities, packs, containers, or different prices are returned, or combinations of such considerations may apply. The marketing agreement and order should provide authority for the committee to give appropriate consideration to the handling of tomatoes for such purposes so that full opportunity may be taken under the program to improve orderly marketing conditions for tomatoes, thereby tending to increase total returns to tomato growers in the production area.

Some export markets accept certain grades, and particularly some sizes, which normally are discounted in some domestic markets. Provision should be made for the modification, suspension, or termination of regulations which may be applied to shipments for export so that this demand can be met when it is in the best interests of growers' returns to do so. For example, many small size tomatoes are exported to Canada. Occasional small shipments of low grades or unclassified tomatoes are made to Mexico. Prohibiting the exportation of such tomatoes would not increase sales of larger size or better quality tomatoes to these two countries. It has been the custom of most Canadian markets to prefer small sizes. The Mexican market for poor quality tomatoes from the production area is small and confined to border cities in Mexico. Differences in levels of consumer income among these outlets and differences in trading customs influence the nature of demand for tomatoes in these export outlets, so that authority for recognizing such differences should be included in the proposed

program. Therefore, the proposed marketing agreement and order should provide authority for regulating exports to Canada differently from domestic shipments, also exports to Mexico, or to any other export outlet, differently than domestic or any other export outlets.

The committee and the Secretary should have authority to give special consideration to tomatoes for relief or for charitable purposes. Such shipments are intended for special outlets and usually the shipments are by way of donation or due to some special consideration between the shippers and receivers. Occasional shipments are made from the production area to orphans' homes, hospitals, or similar facilities, and the committee should have the authority to waive some of the requirements in regard to such shipments.

The marketing agreement and order should provide that special consideration be given to the handling of tomatoes going to canning plants or other processing outlets. Shipments of tomatoes to be processed at canning plants are specifically exempted from regulation by the act. However, the committee should have the authority to require handlers making such shipments to give proper evidence that the shipments are going to the canning plant and the tomatoes are actually diverted into that outlet. No other regulation or restriction is implied on tomatoes for canning or processing. Such authority is necessary because occasional shipments of tomatoes from the production area are made to canning plants in Arkansas and other nearby States. It was testified at the hearing that the repacking of tomatoes should not be included under the term processing and that such repacking should not be given the same consideration as shipments made to canneries.

The State Agricultural College, through its Weslaco station which is located within the production area, is conducting various studies with respect to the production and marketing of tomatoes such as the acceptability of varieties, maturities, containers, and market preferences. Many of these studies are conducted with the cooperation of local shippers. Shipments are controlled since they are made under the direction of the station. However, shippers furnish the labor and packing facilities and oftentimes the tomatoes being shipped. The ultimate goal of such studies is to increase returns to the industry by reducing expenses and increasing consumer acceptance. The committee should have the authority to recommend the modification, suspension, or termination of regulations which might interfere with the successful completion of such studies.

The committee should be empowered to provide special treatment through modification, suspension, or terminations of regulations applicable to other special purposes which may develop in the future, and for other purposes which later may be specified by the committee with the approval of the Secretary.

It is appropriate and necessary that the Secretary of Agriculture notify the committee of any regulations or any modifications, suspensions, or terminations of regulations so that the committee will be informed of such actions. It is also proper that the committee after having received from the Secretary notification of regulation should relay such information on to handlers and producers within the production area. If the marketing agreement and order program is to be successful, growers and handlers must be informed of actions taken pursuant to the program.

The authority for modifying, suspending, or terminating, grade, size, quality, assessment, or inspection regulations, should be accompanied by the additional administrative authority for the committee to recommend and the Secretary to prescribe adequate safeguards to prevent shipments for such purposes from entering market channels contrary to the provisions of such special regulations. The authority for establishment of safeguards should include such limitations or appropriate qualifications on shipments which are necessary and incidental to the proper and efficient administration of the marketing agreement and order. Such safeguards may include, but should not necessarily be limited to, inspection, so that the committee may have an accurate record of the grades, sizes, and qualities of tomatoes shipped to special outlets; application to make such special shipments; requirements for the payment of assessments in connection with such shipments; reports by handlers with respect to the number of such shipments and the amounts of tomatoes shipped; and assurances by purchasers and handlers that the tomatoes are to be used for the purposes designated.

In order to maintain appropriate identification of shipments of tomatoes to special outlets, safeguards authorized in the marketing agreement and order may provide for the issuance of Certificates of Privilege to handlers of such tomatoes and, in addition, may require that such handlers obtain such certificates on all shipments made by them to such special outlets. Certificates of Privilege may be issued by the committee as an indication of the authority for the handler to make such shipments and as a means of identifying specific shipments. The certificates should be issued in accordance with rules and regulations established by the Secretary on the basis of committee recommendations or other available information so that the issuance thereof may be handled in an orderly and efficient manner which can be made known to all handlers. The committee should be authorized to deny or rescind Certificates of Privilege when necessary to prevent abuse of the privileges conferred by such certificates. The committee should have authority to rescind or deny certificates when it finds upon satisfactory evidence that handlers to whom Certificates of Privilege have been issued handled tomatoes contrary to the provisions of the certificates previously issued to them. If the committee rescinds or denies a Certificate of Privilege to any handler, such action should be in terms of a specified period of time. Any handler who might have a Certificate of Privilege rescinded should have the right of appeal to the committee for reconsideration.

The Secretary should have the right to modify, change, alter, or rescind any safeguards prescribed, or any Certificates of Privilege issued by the committee in order that the Secretary may retain all rights necessary to carry out the declared policy of the act. The Secretary should give prompt notice to the committee of any action taken by him in connection therewith, and the committee should promptly notify all persons affected by any such action.

The committee should maintain records with respect to safeguards and to Certificates of Privilege, and should submit reports thereon to the Secretary when requested, in order to supply pertinent information requisite for him to discharge his duties under the act and the marketing agreement and order. Such reports should include the number of applications received, the number granted and denied, the quantity of tomatoes handled under such certificates, the purposes for which issued, and any other information that might be requested.

(h) Inspection and certification of tomatoes grown in the production area is a common and usual practice for the purpose of determining officially the grade, size, quality and maturity of such tomatoes. The Federal Inspection Service is available throughout the entire production area and its inspectors are well qualified to certify upon the basis of the United States Standards for Fresh Tomatoes or the United States Consumer Standards for Fresh Tomatoes. Tomato growers and handlers throughout the production area are acquainted with such service and with the inspection offered on shipments of tomatoes.

Provision should be made in the marketing agreement and order for inspection by the Federal Inspection Service, or such other inspection service as the Secretary may approve, of tomatoes grown in the production area and handled during any period in which such handling of tomatoes is regulated under the program. Such inspection requirements should apply to all tomatoes handled under regulations issued under the marketing agreement and order except when any such handling is relieved from inspection requirements pursuant to § 1014.53 or § 1014.54 of the marketing agreement and order. Inspection establishes a means whereby the handler, the buyer, the committee, the Secretary, and other interested parties may determine whether such tomatoes handled subject to regulations comply with the requirements of any particular grade, size, quality and maturity regulation in effect under the marketing agreement and order. Effective regulation of the handling of tomatoes grown in the production area requires that the grade, size, quality and maturity of each sale or shipment of such tomatoes should be authoritatively established. The provisions for inspection and the certificates which are issued pursuant to inspection offer an appropriate and practical means of establishing and identifying the grade, size, quality and maturity of tomatoes

handled pursuant to the terms and conditions of the marketing agreement and order.

Provision should be made in the marketing agreement and order for authority to inspect tomatoes not only by personnel of the Federal Inspection Service, but also by personnel of such other inspection service as the Secretary may designate so that sufficient flexibility for successful operation can be provided through appropriate inspection if Federal inspection is not available. In order to assure that production area tomatoes will not be shipped without inspection in the event the Federal Inspection Service is not available to furnish the service, the Secretary should be authorized to designate an appropriate inspection service to perform the inspection. Thus, there should always be an authoritative means of establishing the grade, size, quality and maturity of tomato shipments.

The requirement that no handler shall handle tomatoes unless each lot of tomatoes is inspected by an authorized inspection service approved under the marketing agreement and order is reasonable and necessary for the proper administration of the program. Such requirement should apply to all tomatoes handled except for those tomatoes which may be relieved of inspection requirements pursuant to § 1014.53 or § 1014.54 or both.

The marking of tomato containers with a number or other appropriate symbol to indicate they are part of a lot which has been inspected is a current practice among many Lower Valley tomato handlers. This marking or identification assists handlers in determining if such tomatoes have been inspected. Authority for making such marking a regulatory requirement, if the committee recommends and the Secretary approves, should be included in the proposed marketing agreement and order as a reasonable and necessary provision incidental to administration of the program.

Responsibility for obtaining inspection should fall primarily on the handler who first handles such tomatoes after they have been prepared for market since such person usually is responsible for the particular grade, size, quality and maturity to be shipped. Identification and certification of such tomatoes are essential to proper administration of the marketing agreement and order to determine whether such shipment accords with the grade, size, quality and maturity requirements issued under such order. The handler who first handles such tomatoes is required to obtain inspection and subsequent handlers may not handle tomatoes unless a properly issued inspection certificate valid under the terms of the marketing agreement and order applies to such shipment. Each handler must bear the responsibility for determining that each of his shipments is inspected. Such requirement is necessary so that the committee can obtain evidence in the form of inspection certificates which it needs to carry its appropriate functions in determining if specific shipments have been inspected and if they otherwise meet requirements of regulations issued pursuant to the marketing agreement and order.

Whenever any shipments of tomatoes subject to the terms and provisions of the marketing agreement and order have been prepared for market and inspected but are later dumped from the containers in which they were inspected, such tomatoes lose their identity insofar as the original inspection certificate is concerned and such inspection certificate no longer applies. If any such lot of tomatoes is thereafter repacked, such tomatoes, even though they may have been previously inspected in other containers, must meet regulations issued under the marketing agreement and order. Since the original certificate is no longer valid such tomatoes must be reinspected before they are shipped because it is not possible to determine whether the tomatoes which are being shipped meet the grade, size, or other regulatory requirements of the marketing agreement and order unless they are so inspected and certified. In this way handlers and the committee will be assured that such shipments comply with such regulations. The committee with the approval of the Secretary may provide for the exemption of such inspection requirements on regraded, resorted, or repacked tomatoes in circumstances where it appears reasonably certain that such tomatoes meet the applicable regulations after regrading, resorting and repacking.

The committee with the approval of the Secretary should be authorized to determine the length of time inspection certificates are valid insofar as requirements of the marketing agreement and order are concerned. Such requirement is appropriate and necessary especially with respect to lot inspections which may be administratively desirable to accommodate handlers and truckers because tomatoes are an extremely perishable commodity. It is not feasible and practical for the committee to recognize inspection certificates which may have been issued days previously, since the tomatoes so inspected could have since deteriorated and no longer comply with requirements in effect at the time the final shipment is made.

Copies of inspection certificates issued pursuant to the requirements of the marketing agreement and order should be supplied to the committee promptly by the appropriate inspection service so that such committee may properly discharge its administrative responsibilities under the program.

The committee should have the authority to recommend, and the Secretary to require, that any tomatoes transported by motor vehicle be accompanied by a copy of the inspection certificate issued thereon, which certificate shall be surrendered to such authority as may be designated. A large quantity of the tomatoes grown in the production area are trucked from the production area to market. By requiring the operators of such vehicles to surrender copies of inspection certificates applicable to their shipments upon demand to such authority as may be designated, evidence will be readily available that such shipments meet or comply with the requirements of the marketing agreement and order. The evidence indicates that such a requirement is not necessary with respect to other types of shipments, such as by railroad.

(i) Certain hazards are encountered in the production of tomatoes grown in the production area which are beyond the control or reasonable expectation of the producer of such tomatoes. Because of these circumstances, and to provide equity among producers and handlers insofar as any regulations under the marketing agreement and order are concerned, the committee should be given authority to issue exemption certificates to producer applicants to permit such applicants to sell their equitable proportion of all shipments from the production area. It is contemplated, however, that such an exemption will require the approved applicant to sell his best quality tomatoes.

The committee, by reason of its knowledge of the conditions and problems applicable to the production of tomatoes in the production area and the information which it will have available in each case, should be well qualified to judge each applicant's case in a fair and equitable manner and to fix the quantity of exempted tomatoes which each such applicant may sell.

The provisions contained in the notice of hearing relevant to the procedure to be followed in issuing exemption certificates, in investigating exemption claims, in appealing exemption claim determinations, and in recording and reporting exemption claim determinations to the Secretary are necessary to the orderly and equitable operation of the marketing agreement and order and they should, therefore, be incorporated in the agreement and order.

Provision should be made for the Secretary to modify, change, alter, or rescind any procedure established by the committee for granting of exemptions and of exemptions granted pursuant to each procedure. This is desirable to guard against inequities in the granting of exemptions and to preclude the issuance of exemption certificates in unjustifiable cases.

(j) The committee should have authority, with the approval of the Secretary, to require that handlers submit to it such reports and information as are needed to perform its functions. It is difficult to anticipate every type of report, or kind of information, which the committee may need in administering the program, but it should have the authority, subject to the approval of the Secretary, to request reports and information if needed, of the type set forth in the marketing agreement and order. The standards to be followed by the committee in requesting handlers to furnish reports should be along the lines set forth in § 1014.80 of the agreement and order and such reports should be those necessary for operation of the committee in carrying out the terms and conditions of the marketing agreement and order. Reports furnished to the committee should be submitted in such manner and

at such times as may be designated by it. Such reporting procedures should accord with the need and requirements of the committee which are essential to administration of the marketing order, because changing conditions may warrant changes in the forms and methods of reporting. The Secretary should retain the right to approve, and also to modify, change, or rescind, any requests by the committee for information in order to protect handlers from unreasonable requests for reports.

Permissive use of the specified reporting requirements, and verifications of such reports and records by the committee will provide a means for it to check on compliance with and operation of the marketing agreement and order.

Since it is possible that a question might arise with respect to compliance with the marketing agreement and order, each handler should maintain complete records of his handling and disposition of tomatoes for not less than two years subsequent to the termination of each crop year.

Any and all reports and records submitted for committee use by handlers should remain under appropriate protective classifications and be disclosed to none other than persons authorized by the Secretary.

(k) Except as provided in the marketing agreement and order, no handler should be permitted to handle tomatoes, the handling of which is prohibited pursuant to the marketing agreement and order, and no handler should be permitted to handle tomatoes except in conformity with the marketing agreement and order. If the program is to be effective, no handler should be permitted to evade its provisions since such action on the part of one handler, although possibly of small impact on the industry measured by the proportion of tomatoes handled by him, would be demoralizing to other handlers and would tend to impair operation of the program.

(l) The provisions of §§ 1014.82 through 1014.92, as published in the FEDERAL REGISTER of September 1, 1956 (21 F. R. 6612), and as hereinafter set forth, are common to marketing agreements and orders now operating. The provisions of §§ 1014.93 through 1014.95, as hereinafter set forth, are also included in other marketing agreements now operating. Each of such sections sets forth certain rights, obligations, privileges, or procedures which are necessary and appropriate for the effective operation of the marketing agreement and order. These provisions are incidental to, and not inconsistent with, section 8c (6) and (7) of the act, and are necessary to effectuate the other provisions of the marketing agreement and order and to effectuate the declared policy of the act. The substance of such provisions, therefore, should be included in the marketing agreement and order.

General findings. Upon the basis of evidence introduced in the hearing and the record thereof it is found that:

(1) The marketing agreement and order as hereinafter set forth, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act with respect to tomatoes produced in the production area, by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as prices to the producers thereof, parity prices and by protecting the interest of the consumer (i) by approaching the level of prices which it is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such tomatoes above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such tomatoes as will be in the public interest;

(2) The said marketing agreement and order authorizes regulation of the handling of tomatoes grown in the production area in the same manner as, and is applicable only to, persons in the respective classes of industrial and commercial activity specified in a proposed marketing agreement and order upon which the hearing has been held;

(3) The said marketing agreement and order are limited in their application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act; and the issuance of several marketing agreements and orders applicable to any subdivision of the production area would not effectively carry out the declared policy of the act;

(4) The said marketing agreement and order prescribes, so far as practicable, such different terms, applicable to different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of tomatoes grown in the production area; and

(5) All handling of tomatoes, as defined in the said marketing agreement and order, is in the current of interstate or foreign commerce, or directly burdens, obstructs or affects such commerce.

The marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively "Marketing Agreement Regulating the Handling of Tomatoes Grown in the Lower Rio Grande Valley in Texas" and "Order Regulating the Handling of Tomatoes Grown in the Lower Rio Grande Valley of Texas" which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. The aforesaid marketing agreement and the aforesaid order shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

It is hereby ordered, That all of this decision except the attached agreement be published in the FEDERAL REGISTER. The regulatory provision of the said marketing agreement and order are identical with those contained in the annexed order which will be published with this decision.

Dated: February 21, 1957.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] *Regulating the Handling of Tomatoes Grown in the Lower Rio Grande Valley of Texas*

Sec.

1014.90 Personal liability.
1014.91 Separability.
1014.92 Amendments.

AUTHORITY: §§ 1014.0 to 1014.92 issued pursuant to sec. 5, 48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047.

§ 1014.0 *Findings and determinations.* (a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31 as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Edinburg, Texas, on September 24–27, 1956, upon a proposed marketing agreement and a proposed marketing order regulating the handling of tomatoes grown in the Lower Rio Grande Valley in Texas (Cameron, Hidalgo, Starr, and Willacy Counties). Upon the basis of the evidence introduced at such hearing and the record thereof it is found that:

(1) This order, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act with respect to tomatoes produced in the production area by establishing and maintaining such orderly marketing conditions therefor as will tend to establish, as the prices to the producers thereof, parity prices, and by protecting the interests of the consumer (i) by approaching the level of prices which is declared in the act to be the policy of Congress to establish by a gradual correction of the current level of prices at as rapid a rate as the Secretary deems to be in the public interest and feasible in view of the current consumptive demand in domestic and foreign markets, and (ii) by authorizing no action which has for its purpose the maintenance of prices to producers of such tomatoes above the parity level, and (iii) by authorizing the establishment and maintenance of such minimum standards of quality and maturity, and such grading and inspection requirements as may be incidental thereto, as will tend to effectuate such orderly marketing of such tomatoes as will be in the public interest;

(2) This order authorizes regulation of the handling of tomatoes grown in the production area in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activities as specified in, a proposed marketing agreement and order upon which a hearing has been held;

(3) This order is limited in its application to the smallest regional production area which is practicable consistently with carrying out the declared policy of the act; and the issuance of several orders applicable to different subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) This order prescribes, so far as practicable, such different terms applicable to the different parts of the production area, as are necessary to give due recognition to the differences in the production and marketing of tomatoes grown in the production area; and

(5) All handling of tomatoes, as defined in this order, is in the current of interstate or foreign commerce, or directly burdens, obstructs, or affects such commerce.

Order relative to handling. It is, therefore, ordered that, on and after the effective time hereof the handling of tomatoes grown in the Lower Rio Grande Valley in Texas shall be in conformity to and in compliance with the terms and conditions of this order; and such terms and conditions are as follows:

DEFINITIONS

§ 1014.1 *Secretary.* "Secretary" means the Secretary of Agriculture of the United States, or any officer or employee of the Department to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 1014.2 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

§ 1014.3 *Person.* "Person" means an individual, partnership, corporation, association, or any other business unit.

§ 1014.4 *Production area.* "Production area" means all territory in the counties of Cameron, Hidalgo, Starr, and Willacy in the State of Texas.

§ 1014.5 *Tomatoes.* "Tomatoes" means all varieties of the edible fruit (lycopersicon esculentum) commonly known as tomatoes and grown within the production area.

§ 1014.6 *Handler.* "Handler" is synonymous with "shipper" and means any person (except a common or contract carrier of tomatoes owned by another person) who handles tomatoes or causes tomatoes to be handled.

§ 1014.7 *Handle.* "Handle" or "ship" means to transport, sell, or in any other way to place tomatoes in the current of commerce between the production area and any point outside thereof: *Provided,* That such terms will not include the transportation, sale, or delivery of tomatoes by a producer to a handler who is registered as such with the committee.

§ 1014.8 *Producer.* "Producer" means any person engaged in a proprietary capacity in the production of tomatoes for market.

§ 1014.9 *Grading.* "Grading" is synonymous with "preparation for market" and means the sorting or separation of tomatoes into grades, sizes, maturities, and packs for market purposes.

§ 1014.10 *Grade and size.* "Grade" means any one of the established grades of tomatoes and "size" means any one of the established sizes of tomatoes as defined and set forth in U. S. Standards for Fresh Tomatoes (§§ 51.1855 to 51.1876 of this title) or U. S. Consumer Standards for Fresh Tomatoes (§§ 51.1900 to 51.1913 of this title), both issued by the United States Department of Agriculture, or amendments thereto, or modifications thereof, or variations based thereon, recommended by the committee and approved by the Secretary.

§ 1014.11 *Pack.* "Pack" means any of the packs of tomatoes as defined and set forth in the United States Standards for Fresh Tomatoes issued by the United States Department of Agriculture (§§ 51.1855 to 51.1876 of this title), or any pack of tomatoes recommended by the committee and approved by the Secretary.

§ 1014.12 *Maturity.* "Maturity" means various degrees of ripeness for tomatoes as established by the committee with approval of the Secretary.

§ 1014.13 *Container.* "Container" means a box, bag, crate, hamper, basket, package, tube, or any other type of unit used in the packaging, transportation, sale, shipment, or handling of tomatoes.

§ 1014.14 *Varieties.* "Varieties" means and includes all classifications, subdivisions, or types of tomatoes according to those definitive characteristics now or hereafter recognized by the United States Department of Agriculture or recommended by the committee, and approved by the Secretary.

§ 1014.15 *Committee.* "Committee" means the Texas Valley Tomato Committee, established pursuant to § 1014.22.

§ 1014.16 *Fiscal period.* "Fiscal period" means the annual period beginning March 1, and ending on the last day of February of the following year, or such annual beginning and ending dates as may be approved by the Secretary pursuant to recommendations of the committee.

§ 1014.17 *District.* "District" means each of the geographic divisions of the production area initially established pursuant to § 1014.24 or as reestablished pursuant to § 1014.25.

§ 1014.18 *Export.* "Export" means shipment of tomatoes beyond the boundaries of continental United States.

COMMITTEE

§ 1014.22 *Establishment and membership.* (a) The Texas Valley Tomato Committee, consisting of 9 producer members, of whom at least 4 shall be producer-handlers, is hereby established. For each member of the committee there shall be an alternate. At least 4 of the alternate members shall also be producer-handlers.

(b) Each person selected as a committee member or alternate shall be an individual who is a producer, or an officer or an employee of a producer, in the district for which selected and a resident of the production area. An officer or employee of a cooperative association of tomato producers which markets

the tomato production of its members shall be eligible to serve on the committee as a producer-handler member or alternate. In addition the producer-handler representatives shall be handlers in the production area.

§ 1014.23 *Term of office.* (a) The term of office of committee members and their respective alternates shall be for one year and shall begin as of August 1 and end as of July 31.

(b) Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof beginning on the date on which they qualify during such term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 1014.24 *Districts.* For the purpose of determining the basis for selecting committee members the following districts of the production area are hereby initially established:

District No. 1. The County of Cameron in the State of Texas;

District No. 2. The County of Hidalgo in the State of Texas;

District No. 3. The County of Starr in the State of Texas; and

District No. 4. The County of Willacy in the State of Texas.

§ 1014.25 *Redistricting.* The committee may recommend, and pursuant thereto, the Secretary may approve, the reapportionment of members among districts, and the reestablishment of districts within the production area. In recommending any such changes, the committee shall give consideration to: (a) Shifts in tomato acreage within districts and within the production area during recent years; (b) the importance of new production in its relation to existing districts; (c) the equitable relationship of committee membership and districts; (d) economies to result for producers in promoting efficient administration due to redistricting or reapportionment of members within districts; and (e) other relevant factors. No change in districting or in apportionment of members within districts may become effective less than 30 days prior to the date on which terms of office begin each year and no recommendations for such redistricting or reapportionment may be made less than six months prior to such date.

§ 1014.26 *Selection.* The Secretary shall select initially three members and their respective alternates from District 1; four members and their respective alternates from District 2; one member and his alternate from District 3; and one member and his alternate from District 4.

§ 1014.27 *Nomination.* The Secretary may select the members of the committee and alternates from nominations which may be made in the following manner:

(a) A meeting or meetings of producers and producer-handlers shall be held in each district to nominate members and alternates for the committee. For nominations to the initial committee, the meetings may be sponsored by the United States Department of Agriculture or by any agency or group requested to do so by such department. For nominations for succeeding members and alternates on the committee, the committee shall hold such meetings or cause them to be held prior to June 15 of each year, after the effective date of this subpart;

(b) At each such meeting at least one nominee shall be designated for each position as member and for each position as alternate member on the committee.

(c) Nominations for committee members and alternates, shall be supplied to the Secretary in such manner and form as he may prescribe, not later than July 15, of each year;

(d) Only producers and producer-handlers may participate in designating nominees for members and alternates on the committee. In the event a person is engaged in producing tomatoes in more than one district, such person shall elect the district within which he may participate as aforesaid in designating nominees; and

(e) Regardless of the number of districts in which a person produces tomatoes, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for committee members and alternates. An eligible voter's privilege of casting only one vote as aforesaid shall be construed to permit a voter to cast one vote for each position to be filled in the respective district in which he elects to vote.

§ 1014.28 *Failure to nominate.* If nominations are not made within the time and in the manner specified in § 1014.27, the Secretary may, without regard to nominations, select the committee members and alternates, which selection shall be on the basis of the representation provided for in §§ 1014.24 through 1014.26 inclusive.

§ 1014.29 *Acceptance.* Any person selected as a committee member or alternate shall qualify by filing a written acceptance with the Secretary within ten days after being notified of such selection.

§ 1014.30 *Vacancies.* To fill committee vacancies, the Secretary may select such members or alternates from unselected nominees on the current nominee list from the district involved, or from nominations made in the manner specified in § 1014.27. If the name of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, such vacancy may be filled without regard to nominations, which selection shall be made on the basis of the representation provided for in §§ 1014.24 through 1014.26, inclusive.

§ 1014.31 *Alternate members.* An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member's absence, or when designated to do so by the member for whom he is an alternate. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified.

§ 1014.32 *Procedure.* (a) Six members of the committee shall be necessary to constitute a quorum and six concurring votes shall be required to pass any motion or approve any committee action. At assembled meetings all votes shall be cast in person.

(b) The committee may meet by telephone, telegraph, or other means of communication and any vote cast at such a meeting shall be promptly confirmed in writing: *Provided*, That at any unassembled meeting unanimous vote of all committee members will be required to approve any action.

§ 1014.33 *Expenses and compensation.* Committee members and alternates may be reimbursed for expenses necessarily incurred by them in the performance of duties and in the exercise of powers under this part.

§ 1014.34 *Powers.* The committee shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this part;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and

(d) To recommend to the Secretary amendments to this part.

§ 1014.35 *Duties.* It shall be, among other things, the duty of the committee:

(a) As soon as practicable after the beginning of each term of office, to meet and organize, to select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(b) To act as intermediary between the Secretary and any producer or handler;

(c) To furnish to the Secretary such available information as he may request;

(d) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(e) To investigate from time to time and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to tomatoes;

(f) To prepare a marketing policy;

(g) To recommend marketing regulations to the Secretary;

(h) To recommend rules and procedures for, and to make determinations in connection with, issuance of certificates of privilege or exemptions, or both;

(i) To investigate an applicant's claim for exemptions;

(j) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books and records shall be subject to examination at any time by the Secretary or his authorized agent or representative. Minutes of each committee meeting shall be reported promptly to the Secretary;

(k) At the beginning of each fiscal period, to prepare a budget of its expenses for such fiscal period, together with a report thereon;

(l) To cause the books of the committee to be audited by a competent accountant at least once each fiscal period, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part. A copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers; and

(m) To consult, cooperate, and exchange information with other marketing agreement committees and other individuals or agencies in connection with all proper committee activities and objectives under this part.

EXPENSES AND ASSESSMENTS

§ 1014.40 *Expenses.* The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses upon the basis of a fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of tomatoes under regulation handled by him as the first handler thereof during a fiscal period and the total quantity of tomatoes under regulation handled by all handlers as first handlers thereof during such fiscal period.

§ 1014.41 *Budget.* As soon as practicable after the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 1014.42 *Assessments.* (a) The funds to cover the committee's expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who first handles tomatoes, which are regulated under this part, shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of the committee's expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee's recommendations and other available information. Such rates may be applied to specified containers used in the production area.

(c) At any time during, or subsequent to, a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all tomatoes which were regulated under this part and which were handled by the first handler thereof during such fiscal period.

(d) The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

§ 1014.43 *Accounting.* (a) All funds received by the committee pursuant to the provisions of this subpart shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. An appropriate fidelity bond shall be required for all committee members or personnel responsible for receipt, custody, or disposition of committee funds. Whenever any person ceases to be a member of the committee or alternate, he shall account to his successor, the committee, or to the person designated by the Secretary, for all receipts, disbursements, funds and property (including but not being limited to books and other records) pertaining to the committee's activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, committee, or designated person, the right to all of such property and funds and all claims vested in such person.

(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect and, if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

§ 1014.44 *Refunds.* At the end of each fiscal period, monies arising from the excess of assessments collected over expenses shall be accounted for as follows:

(a) Each handler entitled to a proportionate refund of such excess assessments at the end of a fiscal period shall be credited with such refund against the operations of the following fiscal period unless he demands payment thereof, in which event such proportionate refund shall be paid to him; except

(b) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that some of the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve for possible liquidation. Upon approval by the Secretary, such reserve may be used upon termination of this order to liquidate the affairs of the committee: *Provided*, That upon termination of this part any monies in the reserve for liquidation which are not required to defray the necessary expenses of committee liquidation shall be returned upon a pro rata basis to all persons from whom such funds were collected.

RESEARCH AND DEVELOPMENT

§ 1014.48 *Research and development.* The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of tomatoes. The expenses of such projects shall be paid from funds collected pursuant to § 1014.42.

REGULATION

§ 1014.50 *Marketing policy.* Prior to or at the same time as initial recommendations are made pursuant to § 1014.51, the committee shall submit to the Secretary a report setting forth the marketing policy it deems desirable for the industry to follow in shipping tomatoes from the production area during the ensuing season. Additional reports shall be submitted from time to time if it is deemed advisable by the committee to adopt a new marketing policy because of changes in the demand and supply situation with respect to tomatoes. The committee shall publicly announce the submission of each such marketing policy report and copies thereof shall be available at the committee's office for inspection by any producer or any handler. In determining each such marketing policy the committee shall give due consideration to the following:

(a) Market prices of tomatoes, including prices by grades, sizes, and quality in different packs, and such prices by foreign competing areas;

(b) Supply of tomatoes, by grade, size, and quality in the production area, and in other production areas, including foreign competing production areas;

(c) Trend and level of consumer income;

(d) Marketing conditions affecting tomato prices; and

(e) Other relevant factors.

§ 1014.51 *Recommendations for regulations.* The committee, upon complying with the requirements of § 1014.50, may recommend regulations to the Secretary whenever it finds that such regulations as are provided for in this subpart will tend to effectuate the declared policy of the act.

§ 1014.52 *Issuance of regulations.* (a) The Secretary shall limit by regulation the handling of tomatoes whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act.

(b) Such regulation may:

(1) Limit, in any or all portions of the production area, the handling of particular grades, sizes, qualities, or packs of any or all varieties of tomatoes during any period; or

(2) Limit the handling of particular grades, sizes, qualities, or packs of tomatoes differently, for different varieties, for different stages of maturity, for different portions of the production area, for different containers, for different purposes specified in § 1014.54, or any combination of the foregoing, during any period; or

(3) Limit the shipment of tomatoes by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity; or

(4) Fix the size, weight, capacity, dimensions, or pack of the container or containers which may be used in the packaging, transportation, sale, shipment, or other handling of tomatoes.

§ 1014.53 *Minimum quantities.* The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, minimum quantities below which handling will be free from regulations issued or effective pursuant to §§ 1014.42, 1014.52, 1014.54, or 1014.60, or any combination thereof.

§ 1014.54 *Handling for special purposes.* Upon the basis of recommendations and information submitted by the committee, or other available information, the Secretary, whenever he finds that it will tend to effectuate the declared policy of the act, shall modify, suspend, or terminate regulations issued pursuant to §§ 1014.42, 1014.52, 1014.53, or 1014.60, or any combination thereof, in order to facilitate shipments of tomatoes for the following purposes:

(a) For export;

(b) For relief or for charity;

(c) For processing;

(d) For experimental projects; or

(e) For other purposes which may be specified.

§ 1014.55 *Notification of regulation.* The Secretary shall notify the committee of any regulations issued or of any modification, suspension, or termination thereof. The committee shall give reasonable notice thereof to handlers.

§ 1014.56 *Safeguards.* (a) The committee, with the approval of the Secretary, may prescribe adequate safeguards to prevent tomatoes handled pursuant to §§ 1014.53 or 1014.54 from entering channels of trade for other than the specific purpose authorized therefor, and rules governing the issuance and the contents of Certificates of Privilege, if such certificates are prescribed as safeguards by the committee. Such safeguards may include requirements that:

(1) Handlers shall file applications with the committee to handle tomatoes pursuant to §§ 1014.53 and 1014.54; or

(2) Handlers shall obtain inspection provided by § 1014.60, or pay the assessment levied pursuant to § 1014.42, or both, in connection with shipments made under § 1014.54.

(3) Handlers shall obtain Certificates of Privilege from the committee for handling of tomatoes affected or to be affected under the provisions of §§ 1014.53 and 1014.54.

(b) The committee may rescind or deny Certificates of Privilege to any handler if proof is obtained that tomatoes handled by him for the purposes stated in §§ 1014.53 and 1014.54 were handled contrary to the provisions of this part.

(c) The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of tomatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of tomatoes handled under duly issued certificates, and such other information as may be requested.

INSPECTION

§ 1014.60 *Inspection and certification.* (a) During any period in which handling of tomatoes is regulated pursuant to this subpart no handler shall handle tomatoes unless such tomatoes have been inspected by an authorized representative of the Federal Inspection Service, or such other inspection service as the Secretary shall designate, and are covered by a valid inspection certificate, except when relieved from such requirements pursuant to §§ 1014.53, or 1014.54, or both. Handlers may be required, upon recommendation of the committee and approval of the Secretary, to mark or indicate on the containers that the tomatoes therein have been inspected.

(b) Regrading, resorting, or repacking any lot of tomatoes shall invalidate any prior inspection certificates insofar as the requirements of this section are concerned. No handler shall handle tomatoes after they have been regraded, resorted, repacked, or in any other way further prepared for market, unless each lot of such tomatoes is inspected by an authorized representative of the Federal Inspection Service, or such other inspection service as the Secretary shall designate: *Provided,* That the committee, with approval of the Secretary, may provide for waiving inspection requirements on any tomatoes in circumstances where it appears reasonably certain that, after regrading, resorting, or repacking, such tomatoes meet the applicable quality and other standards then in effect.

(c) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(d) When tomatoes are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

(e) The committee may recommend and the Secretary may require that any tomatoes transported by motor vehicle shall be accompanied by a copy of the inspection certificate issued thereon, which certificate shall be surrendered to such authority as may be designated.

EXEMPTIONS

§ 1014.70 *Procedure.* The committee may adopt, with approval of the Secretary, the procedures pursuant to which certificates of exemption will be issued to producers or handlers.

§ 1014.71 *Granting exemptions.* The committee shall issue certificates of exemption to any producer who applies for such exemption and furnishes adequate evidence to the committee, that by reason of a regulation issued pursuant to § 1014.52 he will be prevented from handling as large a proportion of his production as the average proportion of production handled during the entire season, or such portion thereof as may be determined by the committee, by all producers in said applicant's immediate production area and that the grade, size, or quality of the applicant's tomatoes have been adversely affected by acts beyond the applicant's control and beyond reasonable expectation. Each certificate shall permit the producer to handle the amount of tomatoes specified thereon. Such certificate shall be transferred with such tomatoes at time of transportation or sale.

§ 1014.72 *Investigation.* The committee shall be permitted at any time to make a thorough investigation of any producer's claim pertaining to exemptions.

§ 1014.73 *Appeal.* If any applicant for exemption certificates is dissatisfied with the determination by the committee with respect to his application, said applicant may file an appeal with the committee. Such an appeal must be taken promptly after the determination by the committee from which the appeal is taken. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal. The committee shall thereupon reconsider the application, examine all available evidence, and make a final determination concerning the application. The committee shall notify the appellant of the final determination, and shall furnish the Secretary with a copy of the appeal and a statement of considerations involved in making the final determination.

§ 1014.74 *Records.* (a) The committee shall maintain a record of all applications submitted for exemption certificates, a record of all exemption certificates issued and denied, the quantity of tomatoes covered by such exemption certificates, a record of the amount of tomatoes handled under exemption certificates, a record of appeals for reconsideration of applications, and such other information as may be requested by the Secretary. Periodic reports on such records shall be compiled and issued by the committee upon request of the Secretary.

(b) The Secretary shall have the right to modify, change, alter, or rescind any procedure and any exemptions granted pursuant to §§ 1014.70, 1014.71, 1014.72, or 1014.73, or any combination thereof.

REPORTS

§ 1014.80 *Reports.* Upon the request of the committee, made with approval of the Secretary, each handler shall furnish to the committee in such manner and at such time as it may prescribe, reports and other information as may be necessary for the committee to perform its duties under this part. In this connection:

(a) Such reports may include, but are not necessarily limited to, the following: (1) The quantities of tomatoes received by a handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such tomatoes; and (4) identification of the inspection certificates and the exemption certificates, if any, pursuant to which the tomatoes were handled, together with the destination of each exempted disposition and of all tomatoes handled pursuant to §§ 1014.53 and 1014.54.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers is authorized, subject to prohibition of disclosure of individual handlers' identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the tomatoes received and disposed of by such handler as may be necessary to verify the reports he submits to the committee pursuant to this section.

MISCELLANEOUS PROVISIONS

§ 1014.81 *Compliance.* Except as provided in this subpart, no handler shall handle tomatoes, the handling of which has been prohibited by the Secretary in accordance with provisions of this subpart, or the rules and regulations thereunder, and no handler shall handle tomatoes except in conformity to the provisions of this subpart.

§ 1014.82 *Right of the Secretary.* The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 1014.83 *Effective time.* The provisions of this subpart, or any amendment thereto, shall become effective at such time as the Secretary may declare and shall continue in force until terminated in one of the ways specified in this subpart.

§ 1014.84 *Termination.* (a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers, who during a representative period, have been engaged in the production of tomatoes for market: *Provided,* That such majority has, during such representative period, produced for market more than fifty percent of the volume of such tomatoes produced for market.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 1014.85 *Proceedings after termination.* (a) Upon the termination of the provisions of this subpart the then functioning members of the committee shall continue as joint trustees for the purpose of liquidating the affairs of the committee of all the funds and property then in the possession of or under control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 1014.86 *Effect of termination or amendment.* Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendments to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulations issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violations.

§ 1014.87 *Duration of immunities.* The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 1014.88 *Agents.* The Secretary may, by designation in writing, name any person, including any officer or employee of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 1014.89 *Derogation.* Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 1014.90 *Personal liability.* No member or alternate of the committee nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, agent, or employee, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 1014.91 *Separability.* If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 1014.92 *Amendments.* Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

Order Directing That a Referendum Be Conducted Among Producers; Designating Agent To Conduct Such Referendum; and Determination of a Representative Period

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), it is hereby directed that a referendum be conducted among producers who during the period March 1, 1956, to March 1, 1957 (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged in the Lower Rio Grande Valley in Texas (Cameron, Hidalgo, Starr, and Willacy Counties), in the production of tomatoes for market to determine whether such producers approve or favor the issuance of an order regulating the handling of tomatoes grown therein; and said order is annexed to the decision of the Secretary of Agriculture filed simultaneously herewith.

The procedure applicable to the referendum shall be the "Procedure for the Conduct of Referenda Among Producers in Connection with Marketing Orders (Except Those Applicable to Milk and Its

Products) to Become Effective Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (15 F. R. 5176).

E. H. Bixby and E. E. Gallahue, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated as agents of the Secretary of Agriculture to conduct said referendum jointly or severally.

Copies of the text of the aforesaid annexed order may be examined in the office of the Hearing Clerk, Room 112, Administration Building, United States Department of Agriculture, Washington 25, D. C., and at those places within the production area (i. e., the Counties of Cameron, Hidalgo, Starr and Willacy in the State of Texas) announced by the referendum agents.

Ballots to be cast in the referendum and copies of the text of said order may be obtained from any referendum agent and any appointee hereunder.

INTERSTATE COMMERCE COMMISSION

[49 CFR Part 211]

[No. MC-C-2078]

USE OF RELOCATED, RENUMBERED, AND ALTERNATE HIGHWAYS, DEVIATION FROM AUTHORIZED ROUTES, AVOIDANCE OF SPECIFIED POINTS OR GATEWAYS, SERVICE AT MILITARY INSTALLATIONS, AND DEADHEADING OF EMPTY VEHICLES BY MOTOR COMMON AND CONTRACT CARRIERS SUBJECT TO INTERSTATE COMMERCE ACT; DEVIATION RULES

NOTICE OF PROPOSED RULE MAKING

FEBRUARY 11, 1957.

Pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003) notice is hereby given that effective April 15, 1957, unless otherwise ordered in the interim, the above-entitled rules and regulations promulgated by the Commission's order of June 28, 1955, will be revised to read as indicated and set forth in the attached order which is hereby referred to and made a part hereof.

No oral hearing is contemplated but anyone wishing to do so may by the submission of written data, views, or arguments make representations:

(1) For or against the proposed rules or any of them, or

(2) For or against the retention of any rules whatsoever which allow any deviations merely upon the filing of notice with only implied or informal approval.

The original and 14 copies of any such representations shall be filed with the Commission on or before April 1, 1957.

Notice hereof to the general public shall be given by depositing a copy in the Office of the Secretary of the Commission, for public inspection and by filing a copy with the Director, Division of the Federal Register.

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 11th day of February A. D. 1957.

Short title. This order may be referred to and cited as the Commission's Revised Deviation Order of 1957.

The above subject coming on for further consideration, and

It appearing that by order dated June 28, 1955, effective August 12, 1956, the Commission, Division 5, adopted rules and regulations governing deviations by motor carriers holding authority from this Commission from authorized regular routes, or required gateways, and in other instances, and the deadheading of empty vehicles incidental to authorized transportation in interstate or foreign commerce;

And it further appearing that revision of such rules is desirable in the interest of clarification and to enhance their value, and make their application more definite and certain; and good cause therefor appearing:

It is ordered, That the said rules be, and they are hereby revised by deleting the entire context of Part 211, and substituting in lieu thereof the following:

§ 211.1 *Deviations by motor carriers subject to the Interstate Commerce Act from authorized regular routes, or required gateways, and in other instances*—(a) *Applicability of rules.* Subject to all other rules and regulations of the Commission applicable to specific situations or operations, such as the Commission's Regulations Governing the Transportation of Explosives and Other Dangerous Articles (§ 197.1 (d) of this chapter), none of which other rules or regulations is superseded by this part, the rules and regulations in this part are hereby found to be just and reasonable and adopted and made applicable so far as pertinent to the operations within the United States under authority of certificates and permits issued by this Commission, of all motor carriers, except motor carriers of passengers when operating in New York City, N. Y., Rockland, Westchester, and Nassau Counties, N. Y., Fairfield County, Conn., and Passaic, Bergen, Essex, Hudson, Union, Somerset, Middlesex and Monmouth Counties, N. J.

(b) *Definitions.* As used in this part, the following words and terms shall be construed to have meanings as follows:

(1) *Designated highway.* A highway identified for record purposes by a number, letter, or name such as a turnpike, thruway, expressway, freeway, or as an "unnumbered county or state road", or in some other like manner.

(2) *Redesignated highway.* A highway to which there has been assigned a new designation, either number, letter, name, or other identifying reference, in lieu of a designation previously assigned thereto.

(3) *Relocated highway.* A highway which has been constructed in a new location in lieu of an existing highway or a segment or segments thereof, and which is intended to replace such existing highway or a segment or segments thereof for public use.

(4) *Regular service route.* A designated highway or series of highways over which a motor carrier is specifically authorized to operate with provision in the carrier's certificate or permit for service at terminal, intermediate, or off-route points as specified therein, as distinguished from an alternate route as defined in subparagraph (5) of this paragraph. Such regular service route may be described as a single route in a carrier's authority or as two or more routes which are combined by joinder at a common service point or points.

(5) *Alternate route.* A designated highway or series of highways lying wholly within the United States over which a motor carrier may operate in the interest of economy or convenience or to avoid congested areas, dangerous grades, sharp curves, or other hazards on an authorized regular service route, deviating from a point on such authorized regular service route and returning at some other point on the same regular service route.

(6) *By-pass route.* A route designated by proper authority for the general purpose of avoiding traffic congestion in a heavily populated area or areas.

(7) *Detour route.* The highway or highways designated by proper authority for public use while the highway or highways normally used between specified points is, or are, temporarily closed or restricted, as by reduced weight limits, or for repairs or reconstruction, or for any other reason.

(8) *Deviation route.* Any of the facilities used by a motor carrier under authority of this part in lieu of its authorized service route.

(9) *Point of deviation.* The point where a regular-route motor carrier using, or proposing to use, an alternate route, as defined in subparagraph (5) of this paragraph, or other deviation route, under authority of this part, departs from, or proposes to depart from its specifically authorized regular service route.

(10) *Point of return.* The point where a regular-route carrier using, or proposing to use, an alternate route, as defined in subparagraph (5) of this paragraph, or other deviation route, under authority of this part, returns to, or proposes to return to, its specifically authorized regular service route.

(11) *Deadheading empty vehicle.* The movement of empty vehicles from a point where cargo has been delivered back to the carrier's terminal or to another authorized point of service.

(12) *Service point.* A point authorized to be served by a carrier as distinguished from one through which such carrier may operate but without performing any service.

(c) *Authority for deviations by motor carriers from operating authorities in described circumstances.* Subject to the special rules, requirements, and conditions governing particular situations hereinafter stated, and subject also, when reference is made thereto, to the general conditions and requirements set forth in paragraph (d) of this section, motor carriers holding operating authority from this Commission except certain motor carriers of passengers as provided in paragraph (a) of this section, are hereby authorized, in the circumstances hereinafter described, to deviate from

their specifically authorized regular service routes, to avoid operations through specific points or gateways, and otherwise to depart from their specific authority, in the circumstances and to the extent hereinafter stated without obtaining other prior specific authority therefor:

(1) *Redesignated highways.* Where a carrier is authorized to operate over a specified highway and thereafter that highway or a segment thereof without relocation is redesignated, the carrier shall so advise the Commission, by letter, giving sufficient information regarding the old and the new designation, the points between which the highway designation has been changed, and the place or places where such highway is referred to in the carrier's authority, to facilitate appropriate changes in the records of the Commission. The new designation of the highway will be shown in the carrier's certificate or permit when the Commission has occasion to reissue it.

(2) *Relocated highway and abandonment of old highway.* Where a carrier is authorized to operate over a specified highway and thereafter that highway or a segment or segments thereof are relocated, and where the old highway or any segment thereof is no longer maintained for use by the general public, the carrier may operate over such relocated highway or relocated segment or segments under its authority without notice to the Commission of such change, and in so doing may serve as intermediate or off-route points, on, or from, the new highway those points previously authorized to be served as intermediate or off-route points on or from the old highway, provided there is no other change in the service previously rendered in connection with operations over the old highway.

(3) *Relocated highway and maintenance of old highway under new designation.* (i) Where a carrier is authorized to operate over, and to serve points on, a specified highway and thereafter that highway or a segment or segments thereof are relocated but the old highway is maintained for use by the general public under a new designation, the carrier shall not without first obtaining specific authority from the Commission, transfer its operations to the relocated highway or relocated segments thereof but must continue to operate over the old highway and advise the Commission of the change in the designation thereof furnishing the same information as required in connection with subparagraph (1) of this paragraph. The new designation of the highway will be shown in the carrier's certificate or permit when the Commission has occasion to reissue it.

(ii) Where a carrier is authorized to operate over a specified highway but is not authorized to serve any point on such highway and thereafter such highway or a segment or segments thereof are relocated, but the old highway is maintained for use by the public under a new designation, the carrier may, if it so desires, use as its operating route only the new or relocated highway, provided it promptly advises the Commission of such change giving descriptions of the old and the new highways between the points involved and the other information required by subparagraph (1) of this paragraph.

(4) *Highways and streets within commercial zones.* When, pursuant to the order in Ex Parte No. MC 37, Commercial Zones and Terminal Areas dated February 11, 1952, as revised July 9, 1952, a motor carrier of property has the right to serve all points in the commercial zone of a municipality, or all points in a defined territory adjacent to an unincorporated community, by virtue of its holding of authority to serve the municipality or the unincorporated community, the carrier in serving places within such municipality or its commercial zone or within the unincorporated community or authorized territory adjacent thereto may use any highway or street located therein, without notice to the Commission.

(5) *By-pass routes.* Where a by-pass route has been designated to be used for the purpose of avoiding a congested area or areas, a carrier having an authorized route through such area or areas, which desires to use such by-pass route as an alternate route may do so regardless of the comparative length of such route (compare subparagraph (8) (ii) of this paragraph) but subject to the general conditions and requirements set forth in paragraph (d) of this section.

(6) *Bridges, tunnels, and ferries.* Where a new bridge or tunnel has been constructed to replace an old bridge or a ferry, to avoid circuity, or to eliminate a hazardous curve or grade, a regular-route carrier having authority to use the old facility and desiring to use in lieu thereof such new bridge or tunnel and the approaches thereto, may do so, subject to the Commission's Safety Regulations and subject also to the general conditions and requirements set forth in paragraph (d) of this section.

(7) *Detour routes.* When a federal, state, county, or other government official, in the exercise of his powers, temporarily prohibits the use by a carrier of an authorized service route or a segment or segments thereof, or when opperations over a carrier's authorized service route or a segment or segments thereof are temporarily obstructed or rendered unsafe by any cause over which a carrier has no control, or when a highway or a segment thereof which comprises all or any portion of the carrier's authorized regular service route is by appropriate authority made subject to weight or other restrictions which temporarily prevent the operation of the equipment regularly and normally used by the carrier over that route, and when, because of any one or more of the foregoing, a detour route has been officially designated by proper authority for public use in lieu of the closed, obstructed, unsafe, or restricted highway, the carrier may use such officially designated detour route in lieu of the temporarily closed, obstructed, unsafe, or restricted highway, provided (i) that no service is rendered at any point the carrier is not specifically authorized to serve, (ii) that, so far as suitable detour routes are available, the carrier continues to furnish reasonable and adequate service at all points it is authorized to serve, and (iii) that, if use of the detour route will continue for more than 30 days and if the distance over the detour route is less than 90 percent of the distance over the authorized service route, a statement shall be obtained from the governmental authority exercising control over the highways involved and filed by the carrier with the Commission together with a notice in writing of its intent to use such detour route under authority of this subparagraph, which statement shall show (*a*) the nature of the condition which prevents operations over the authorized route, (*b*) the period of time it is anticipated that the service route will not be usable and (*c*) proper identification of the official detour route. Where a detour route is used under the provisions of this subparagraph, the carrier shall discontinue operations over such route and resume operations over its authorized service route immediately upon removal of the condition which necessitated use of the detour route.

(8) *Alternate routes for operating convenience only.* Where a motor carrier is authorized to operate over a regular service route and there is wholly within the United States another highway which extends in the same general direction as such regular service route and affords a reasonably direct and practicable route between any two points on such regular service route, it may, subject to the general conditions and requirements set forth in paragraph (d) of this section, use such other highway as an alternate route for operating convenience only with no service at any intermediate point thereon, and with no service at the termini except as otherwise authorized, in the manner and to the extent, as follows:

(i) *Superhighways as alternate routes.* Where a motor carrier is authorized to operate over a regular service route and there is extending in the same general direction as such service route, and wholly within the United States a so-called superhighway, turnpike, thruway, freeway, or expressway, which is substantially the same in purpose, design, and construction as such highways as the Pennsylvania Turnpike, the New Jersey Turnpike, the Turner (Oklahoma) Turnpike, the West Virginia Turnpike, and the New York Thruway, such superhighway, turnpike, thruway, freeway, or expressway and such additional highways as it may be necessary to use in traveling by the shortest practicable route between the carrier's authorized regular service route and the superhighway, turnpike, thruway, freeway, or expressway may be used as an alternate route between two points on the carrier's regular service route regardless of the distance between the point of deviation and the point of return, and regardless of whether or not such alternate route crosses or intersects any other specifically authorized service or alternate route of the carrier at any place intermediate to the points of deviation and return: *Provided*, That use of the alternate route will not materially change the competitive situation between such carrier and any other.

(ii) *Highways other than superhighways.* Where a motor carrier is authorized to operate over a regular service route and there is extending in the same general direction as such service route and wholly within the United States another highway which is not a so-called superhighway, turnpike, thruway, freeway, or expressway, the carrier may use such other highway as an alternate route for operating convenience only provided that the distance over such alternate route between the points of deviation and return is not less than 90 percent of the distance over the authorized regular service route between the same points and provided further, that the alternate route proposed does not duplicate, or involve operations over any part of any authorized service route described in the carrier's certificate or permit and does not cross or otherwise intersect any authorized service route of the carrier or pass through any authorized off-route point or any part of the commercial zone of any authorized point either off-route or other, except at the points of deviation and return.

For the purpose of this subparagraph:

(*a*) The crossing of another route by overpass or underpass also shall be deemed to be a crossing or an intersection.

(*b*) The prohibition against the inclusion in any alternate route proposed to be used thereunder of any part of any authorized service route of the carrier shall not be deemed to prohibit the inclusion in an alternate route used under this subparagraph of a segment of a specifically authorized alternate route provided the distance over the alternate route used under this subparagraph is computed from point of deviation from a service route to the point of return to the same service route including the embraced segment of the specifically authorized alternate route.

(*c*) The prohibition against the crossing by any alternate route used under this subparagraph of any authorized service route shall not be deemed to prohibit the crossing of a specifically authorized alternate route.

(9) *Deadheading empty vehicles.* A motor carrier may deadhead empty vehicles over any highway which will accomplish a reasonably direct and practicable return of the equipment to a terminal of the carrier or to one of its authorized service points.

(10) *Deviation from regular service route in the transportation of U. S. Mail.* Subject to the general conditions and requirements set forth in paragraph (d) of this paragraph, common and contract carriers of property holding authority to operate over regular routes may, without obtaining prior authority therefor, deviate from their authorized service routes for the purpose of delivering or picking up U. S. Mail, under contract with the Post Office Department, at points within 10 airline miles of authorized service routes and in the course of such deviation, may transport authorized commodities in the same vehicle with mail, provided that no commodity other than mail may be picked up, delivered, or interchanged with another carrier, at any point not specifically authorized.

(11) *Deviations by motor carriers of explosives and other dangerous articles.* Subject to the general conditions and requirements set forth in paragraph (d) of this section:

(i) A regular-route motor carrier of explosives or other dangerous articles in order to avoid streetcar tracks, tunnels, viaducts, dangerous crossings, or places where persons are assembled, may use any practicable route lying wholly within the United States provided that the distance over the route used between the point of deviation and the point of return is not less than 90 percent of the distance over the service route between those points, or if it is less than 90 percent provided the deviation route used is at all points within 10 miles of the authorized place which is bypassed.

(ii) Common carriers of explosives and other dangerous articles operating over either regular or irregular routes, or both, may in the interest of safety interchange shipments or equipment or combine routes or operating rights at any place within ten miles of any point where interchange or joinder is permissible under the existing authorities of the carrier or carriers involved.

(12) *Service at military installations.* (i) If there exists an entrance or gate to a military installation which is within the limits of the authority held by a motor carrier and the carrier with the consent and approval of the officer in charge is openly, lawfully, and regularly (as distinguished from surrepticiously, sporadically, or infrequently) using such entrance or gate in the rendition to or from the installation of (*a*) a general transportation service or (*b*) a specialized or limited service, and if such entrance or gate is by appropriate authority closed, or restricted against particular traffic, or if for some other reason beyond its control, the carrier is unable to continue to use that entrance or gate for the same purpose as in the immediate past it may, subject to the general conditions and requirements set forth in paragraph (d) of this section, use other entrances or gates in continuing to serve the installation in the same manner and in the rendition of the same type of service as was theretofore preformed through the closed or restricted entrance or gate: *Provided*, That in so doing the carrier does not travel more than 20 highway miles over public highways outside the scope of its authority.

(ii) This subparagraph shall not be construed by any carrier as authority for the rendition, through an entrance or gate which is located outside the limits of its authority, of any service which was in fact discontinued prior to the closing or restriction of the authorized gate or entrance, or any service essentially different from that rendered through the gate or entrance located within the limits of its authority immediately prior to the closing or restriction thereof.

(d) *General conditions and requirements.* Where reference is made thereto in any of the foregoing special rules governing particular situations, the following general conditions and requirements shall be applicable and shall be complied with as a condition to the grant of authority herein for the particular deviation:

(1) Any proposed deviation under this part, except one over an alternate route under paragraph (c) (8) of this section, may be instituted by a carrier without prior notice to the Commission.

(2) If a deviation proposed under this part, other than one under paragarph (c) (8) of this section, is to continue for not more than 30 days no notice to the Commission concerning it is required.

(3) If any deviation, other than one over an alternate route under paragraph (c) (8) of this section, is to continue for more than 30 days the carrier shall, not later than one day after the deviation operations are begun, give notice thereof to the Commission and others in the manner provided in subparagraph (5) of this paragraph giving the information therein required.

(4) When an alternate-route deviation under paragraph (c) (8) of this section is proposed the carrier shall give prior notice thereof to the Commission and to others in the manner provided in subparagraph (5) of this paragraph. A summary of such notice will be prepared by the Commission and published in the FEDERAL REGISTER and such deviation shall not under any circumstances be commenced until the elapse of 30 days after the date of such publication and if a protest against any such proposed deviation is filed within such 30-day period the proposed deviation shall not be commenced until the Commission has considered and overruled the protest and found that the proposed deviation meets the requirements of, and is permissible, under this part.

(5) If notice of a deviation proposed under this part is required by either subparagraph (3) or subparagraph (4) of this paragraph, it shall in the case of an irregular-route operation specify the point or points involved, describe the nature of the deviation, and give such other information as may be necessary to establish that the deviation is in fact authorized by this part, and in the case of a regular-route operation it shall contain:

(i) A complete description by highway designations of the carrier's authorized service route between the point of deviation and the point of return;

(ii) A complete description by highway designations of its proposed deviation route between the point of deviation and the point of return;

(iii) A complete description by highway designations of all segments of other specifically authorized service and alternate routes of the carrier adjacent either to the authorized service route from which deviation is to be made or to the proposed deviation route; and

(iv) Where the deviation is subject to a comparative distance limitation, the distance (actual mileage) over any proposed deviation route and also over the authorized regular service route between the points of deviation and return shall be stated. Such distances shall be computed not from municipal or commercial zone limits but from actual junction points of the carrier's specifically authorized service route and the proposed deviation route, whether such junction points be within or without city limits, and shall include that portion of any specifically authorized alternate route which is embraced in any proposed alternate deviation route.

(6) The notice described in subparagraph (5) of this paragraph shall be accompanied by a map on which there shall be shown so much as may be practicable of the information required by that subparagraph and in the case of an alternate-route deviation under paragraph (c) (8) (i) or (ii) of this section, such map must clearly show in different colors the routes involved, including in each instance the official highway designations of the authorized regular service route from which deviation is proposed and other service routes of the carrier, if any, in the area, also the highway designations of the proposed deviation route and other specifically authorized alternate routes, if any, in the area, and the distances (actual mileage) between the points of deviation and return (the actual junctions) over the regular service route from which deviation is proposed and over the deviation route.

(7) The notice of an alternate-route deviation required by subparagraph (4) of this paragraph shall also contain a statement to the effect that the carrier filing it will continue to furnish reasonable and adequate service from and to all authorized points on its regular service route; that it will not serve any intermediate point or points on such deviation route; and that deviation from its authorized regular service route as proposed will not enable it to render a materially different service than that rendered over its regular service route or enable it to engage in transportation between any points between which operation is not practicable over its regular service route because of the circuity or otherwise.

(8) The notice of any deviation required by subparagraph (3) or (4) of this paragraph shall also contain a statement indicating that a copy thereof, accompanied by a map showing the information indicated above, has been served by mail or in person on the following, listed by names and addresses in each instance:

(i) All carriers which, after diligent inquiry, have been found to be competitive with the carrier's proposed operation over the deviation route.

(ii) The State board or official which has jurisdiction over motor carrier regulation in each State in or through which the proposed operations over the deviation route will be conducted.

(iii) The District Director or Directors of the Interstate Commerce Commission for the district in which the carrier is domiciled and for each district in or through which the proposed operations over the deviation route will be conducted.

(9) *Failure to give notice or defective notice.* Where a notice of a deviation or proposed deviation is required by subparagraph (3) or (4) of this paragraph and such notice is not timely filed and served on competing carriers and others as required by subparagraph (8) of this paragraph, any deviation operation begun prior to the actual filing and service of notice is unauthorized and where a notice though filed is defective for want of required information or insufficient service on competing carriers, or for any other reason, it shall be subject to rejection and if rejected any deviation operation covered thereby which has been begun shall immediately be discontinued and shall not be resumed until a sufficient notice has been filed, and served on interested parties as required by subparagraph (8) of this paragraph, and the carrier has been notified by the Commission that the operation may be resumed.

(10) The right to operate over a deviation route which is subject to these general conditions and requirements shall continue only so long as the carrier is performing, when required by this part, reasonable and adequate service over specifically authorized routes, and only so long as the conditions set forth in this rule are observed.

(e) *Protests and replies thereto.* Any person who considers that he is or will be adversely affected by a deviation described or proposed in any notice filed under paragraph (d) of this section, may file at any time a protest against such deviation. Such protest may be in the form of letter but shall contain a recital of facts and information showing protestant's interest and supporting his opinion that the facts and circumstances upon which the right to deviate depends are nonexistent, or have been incorrectly described, or that the carrier filing the deviation notice has not met the applicable conditions and requirements, and shall show that a copy thereof has been furnished to the carrier filing the notice. If such a protest is filed, the carrier which has filed the deviation notice may reply thereto within 20 days, after which the Commission will give due consideration to all facts of record or otherwise available to it in the particular case, including the notice and protest, and will make a determination in accordance therewith.

(f) *Commission may forbid deviation.* The Commission may forbid the commencement of operations over any deviation route under this part, or require discontinuance of such operations already commenced, whenever in its opinion such deviation results in inadequate service over specifically authorized routes, or is unreasonable, undesirable, or otherwise repugnant to the public interest, or is not in harmony with the general purpose and intent of this part.

§ 211.2 *Prior filings.* Motor carriers lawfully utilizing any deviation route or facility or facilities referred to herein pursuant to a prior notice heretofore filed in accordance with the provisions of any prior order heretofore entered under this part shall not be required to file any further notice with the Commission concerning the use of such route, facility, or facilities.

It is further ordered, That this order shall be effective on April 15, 1957, unless otherwise ordered in the interim, and that the revised rules and regulations, herein established shall continue in effect until the further order of the Commission.

Notice of this order shall be given to motor carriers and to the general public by depositing a copy thereof in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy thereof with the Director, Division of Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies 49 Stat. 552, as amended; 553, as amended; 49 U. S. C. 308, 309)

By the Commission, Division 1.

[SEAL] HAROLD D. McCOY, *Secretary.*

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Bureau of Public Roads has filed an application, Serial No. Anchorage 033526, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws including the mining laws, but excluding the mineral leasing laws. The applicant desires the land for an Administrative Site.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

EUREKA AREA

From a point beginning at Bureau of Land Management corner Monument S 2926 C–1 on the line of the West Boundary of the Eureka Lodge property;

Thence S. 28° 47' 00" E. 102.4 to the centerline of the Glenn Highway;

Thence along the centerline of the Glenn Highway N. 60° 59' 00" E. 3,624.3 feet;

Thence along the centerline of the Glenn Highway N. 33° 02' 00" E. 2,263.1 feet to Corner No. 1, which is a point on the centerline of the Glenn Highway and the true Point of Beginning;

Thence by metes and bounds:

N. 56° 58' 00" W. 350 feet to corner No. 2;
N. 33° 02' 00" E. 700 feet to corner No. 3;
S. 56° 58' 00" E. 350 feet to corner No. 4 which is a point on the centerline of the Glenn Highway;
S. 33° 02' 00" W. 700 feet along the centerline of said highway to corner No. 1 and the Point of Beginning.

Containing 5.624 acres, more or less.

L. T. MAIN,
Acting Operations Supervisor.

ALASKA

SMALL TRACT CLASSIFICATION ORDERS NO. 1 TO 112, INCLUSIVE; GENERAL AMENDMENT

FEBRUARY 19, 1957.

By virtue of the authority contained in the act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a) as amended and pursuant to the authority delegated to me by Bureau Order No. 541, dated April 21, 1954 (19 F. R. 2473) as amended, it is ordered as follows:

1. All competitive Small Tract Classification Order and Amendments issued between February 17, 1948 and July 18, 1956 by the Area Administrator, Area 4, and more recently by the Operations Supervisor, Bureau of Land Management, as follows are hereby amended where applicable to specify that annual rentals for recreation and residence sites shall be 1/20th of the appraised price of the tract with a minimum of $10.00 per tract per year.

Small Tract Classification Orders involved:

1–6, inclusive;
8–17, inclusive;
18 as corrected;
19 and amendment No. 1;
20–27, inclusive;
28, correction and amendments 1 and 2;
29 and amendment No. 1;
30–32, inclusive;
33, as amended;
34–37, inclusive;
38 and amendment No. 1;
39–47, inclusive;
48 as corrected;
49;
50 and amendment No. 1;
51;
53–60, inclusive;
61 and amendment No. 1;
62;
63 and amendment No. 1;
64;
65 as corrected;
66 as corrected;
67–69, inclusive;
70 and amendment No. 1 and 2;
71, as corrected;
72–73, inclusive;
74 and amendment No. 1;
75–76, inclusive;
77 and amendment No. 1;
78–85, inclusive;
86 and amendment No. 1 and 2;
87–112, inclusive.

2. The order shall take effect immediately.

L. T. MAIN,
Acting Operations Supervisor.

The above tracts aggregate 28,716.04 acres.

The minerals in the above-described lands were wholly or partly reserved by the grantors or by prior grantors, and any person acquiring any of these lands must accept title subject to such reservations. Information as to any mineral rights reconveyed to the United States is of record in the Land Office, 312 Federal Building, Salt Lake City, Utah.

The tracts described are widely scattered parcels and are desert or semi-desert in character.

No application for these lands will be allowed under the homestead, desert land, small tract, or any other nonmineral public land law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any existing valid rights and the requirements of applicable law, the lands described above are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws and applications and offers under the mineral leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, presented prior to 10:00 a. m. on March 27, 1957, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on June 26, 1957, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral leasing laws, presented prior to 10:00 a. m. on June 26, 1957, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The land will be open to location under the United States mining laws, beginning 10:00 a. m. on June 26, 1957, providing locatable minerals have been reconveyed to the United States.

Persons claiming veteran's preference rights under paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Post Office Box 777, Salt Lake City, Utah.

VAL B. RICHMAN,
State Supervisor.

MONTANA

ORDER PROVIDING FOR THE OPENING OF PUBLIC LANDS

FEBRUARY 19, 1957.

In an exchange of lands made under the provisions of the act of March 20, 1922 (42 Stat. 465), as amended by the act of February 28, 1925 (43 Stat. 1090), the following described lands have been reconveyed to the United States:

MONTANA PRINCIPAL MERIDIAN

A tract of land comprising 75.23 acres, more or less, situated in the SW¼NW¼, N½SW¼, NW¼SE¼, Sec. 12, T. 9 S., R. 4 E., more particularly described by metes and bounds as follows: Beginning at a point on the west line of said Section 12, 10 chains north of the west ¼ corner thereof, thence S. 62° 26' E., 42.00 chains, thence S. 70° 00' E., 7.25 chains, thence S. 46° 00' E., 2.50 chains, thence S. 38° 00' E., 8.00 chains more or less to the south line of the NW¼SE¼, thence East along the south line of the NW¼SE¼ 9.15 chains more or less to the southeast corner thereof, thence North along the east line of the NW¼SE¼ 20.00 chains more or less to the northeast corner thereof, thence West along the north line of the NW¼SE¼ and the NE¼SW¼ 40.00 chains more or less to the northwest corner of the NE¼SW¼, thence North along the east line of the SW¼NW¼ 20.00 chains more or less to the northeast corner thereof, thence West along the north line of the SW¼NW¼ 20.00 chains more or less to the west line of Section 12, thence South along the west line of Sec. 12, 10.00 chains more or less to the place of beginning.

The area described totals 75.23 acres of public land.

Upon application of this order in the FEDERAL REGISTER, the land described shall be subject to operation of the public land laws relating to National Forests.

The land is within the exterior limits of the Gallatin National Forest, and is therefore not subject to the provisions of the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended, granting preference rights to veterans of World War II or the Korean conflict and others.

Inquiries relating to these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, 1245 North 29th Street, Billings, Montana.

THEO E. ANHDER,
Manager, Land Office.

[Montana 024468]

MONTANA

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LAND

FEBRUARY 21, 1957.

A plat of survey of the land described below will be officially filed in the Land Office at Billings, Montana, effective at 10:00 a. m. on March 29, 1957.

MONTANA PRINCIPAL MERIDIAN

T. 27 N., R. 56 E.
Sec. 3, Lot 14.

Area surveyed: 33.30 acres.
Plat of survey accepted April 6, 1955.

The above described land was formed by accretion along the Missouri River fronting Lot 10, Sec. 3, T. 27 N., R. 56 E., P. M., Montana. The land is level with deep sandy loam and supports a scattered growth of brush and willows. The land is suitable for the production of native forage plants or for limited crop production. The acreage of the area suitable for crop production is not adequate for an economic farming unit unless used in connection with other adjoining or nearby lands.

No application for these lands will be allowed under the homestead, desert land, small tract, or any other nonmineral public land law, unless the lands have already been classified as valuable, or suitable for such type of application, or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any existing valid rights and the requirements of applicable law, the lands described above are hereby opened to filing of applications and selections in accordance with the following:

Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

1. Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

2. All valid applications under the homestead, desert land, and small tract laws by qualified veterans of World War II or of the Korean conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on March 29, 1957, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on June 28, 1957, will be governed by the time of filing.

3. All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs "1" and "2" above, presented prior to 10:00 a. m. on June 28, 1957, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

Persons claiming veteran's preference rights under paragraph "2" above must enclose with their applications proper evidence of military or naval service, preferably a complete photo-copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference or equitable claims, must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning these lands shall be addressed to the Manager, Land Office, Bureau of Land Management, 1245 North 29th Street, Billings, Montana.

THEO E. ANHDER,
Manager, Land Office.

[Group 299]

ARIZONA

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

FEBRUARY 18, 1957.

Notice is given that the plat of survey accepted October 31, 1956, of T. 8 S., R. 31 E., G. & S. R. B. & M., Arizona, including lands hereinafter described, will be officially filed in the Land Office at Phoenix, Arizona, effective at 10:00 a. m. on the 35th day after the date of this notice:

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 8 S., R. 31 E.,
Sec. 32, All.

Within the above-described area are 480 acres of public land.

Available data indicates this land to be rolling, with rocky soil.

Subject to valid existing rights, the State's title attached to the NE¼, Sec. 32, T. 8 S., R. 31 E. upon the acceptance of the plat of survey.

No application for the NW¼, and S½, Sec. 32, T. 8 S., R. 31 E. may be allowed under the homestead, small tract, desert land, or any other non-mineral public land laws, unless the land has already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified. At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on March 26, 1957 will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on June 25, 1957, will be governed by the time of filing.

All valid applications and selections under the non-mineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on June 25, 1957, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

Persons claiming veterans' preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, U. S. Land Office, Bureau of Land Management, Phoenix, Arizona.

THOS. F. BRITT,
Manager.

[F. R. Doc. 57–1500; Filed, Feb. 27, 1957; 8:51 a. m.]

OREGON

ORDER PROVIDING FOR OPENING OF PUBLIC LAND

FEBRUARY 14, 1957.

Pursuant to Determination DA–401 Oregon, of the Federal Power Commission and in accordance with Order No. 541, section 2.5, of the Director, Bureau of Land Management, approved April 21, 1954 (19 F. R. 2473), it is ordered as follows:

1. The lands hereinafter described, so far as they are withdrawn and reserved for power purposes in Power Site Classification No. 276 of September 5, 1933, are hereby restored to disposition under the public land laws, subject to the provisions of section 24, of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818), as amended.

WILLAMETTE MERIDIAN, OREGON

T. 1 N., R. 9 E.,
Sec. 1, Lot 7.

43.50 acres.

2. The public land is located near the West Fork of Hood River within one and one-half miles of Dee, Oregon. The lands are on a fairly steep hillside unsuited for cultivation. The vegetative cover consists of a stand of Douglas fir trees, and underbrush. The land is well-suited for the production of timber and adjoins the Mt. Hood National Forest.

3. No application will be allowed under homestead, desert land, small tract, or other nonmineral public land laws, unless the lands have already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

4. The lands described shall be subject to application by the State of Oregon for a period of 90 days from the date of this order for right-of-way for public highways or as a source of material for construction and maintenance of such highways in accordance with and subject to provisions of section 24, of the Federal Power Act, as amended.

5. Subject to any existing valid rights and the requirements of applicable laws, the lands described in Paragraph 1 are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the homestead, desert land, and small tract laws by qualified veterans of World War II or the Korean conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on March 25, 1957, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on June 25, 1957, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on June 27, 1957, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been opened to location and entry under the United States Mining Laws pursuant to the act of August 11, 1955 (69 Stat. 683; 30 U. S. C. 621), and to applications and offers under the mineral leasing laws.

6. Persons claiming veteran's preference rights under paragraph a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

7. Inquiries concerning the above lands shall be addressed to the Manager, Land Office, Bureau of Land Management, 1001 N. E. Lloyd Boulevard, P. O. Box 3861, Portland 8, Oregon.

VIRGIL T. HEATH,
State Supervisor.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

KENTUCKY

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2 (a)), as amended, it has been determined that in the following counties in the State of Kentucky, a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

KENTUCKY

Bell	Lee
Breathitt	Leslie
Clay	Letcher
Floyd	Martin
Harlan	Owsley
Johnson	Perry
Knott	Pike
Knox	Whitley

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named counties after December 31, 1957, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 25th day of February 1957.

[SEAL] TRUE D. MORSE,
Acting Secretary.

FEDERAL POWER COMMISSION

[Docket No. G-12037]

OHIO OIL CO.

ORDER SUSPENDING PROPOSED CHANGE IN RATES

FEBRUARY 21, 1957.

The Ohio Oil Company (Ohio Oil) on January 25, 1957, tendered for filing a proposed change in its presently effective rate schedule for sales subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change, undated.
Purchaser: United Gas Pipe Line Company.
Rate schedule designation: Supplement No. 4 to Ohio Oil's FPC Gas Rate Schedule No. 15.
Effective date: [1] February 25, 1957.

In support of the proposed increase, Ohio Oil states that the contract was entered into after arm's-length negotiations with consideration given to the volume of gas to be delivered during the contract term, the current and future demanded prices for similar gas, the cost of finding and replacing the gas sold with new gas and the long term commitment.

The increased rate and charge proposed in the aforesaid filing has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's rules and regulations (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed change in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until July 25, 1957, and until such further time as it is made effective in the manner presented by the Natural Gas Act.

(B) Neither the supplement hereby suspended nor the rate schedule sought to be altered shall be changed until this proceeding has been disposed of, or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested state commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

By the Commission.[2]

[SEAL] JOSEPH H. GUTRIDE,
Secretary.

[F. R. Doc. 57-1505; Filed, Feb. 27, 1957; 8:52 a. m.]

[Docket No. G-12045]

OHIO OIL CO. ET AL.

ORDER SUSPENDING PROPOSED CHANGE IN RATES

FEBRUARY 21, 1957.

The Ohio Oil Company et al., (Ohio Oil) on January 29, 1957, tendered for filing a proposed change in its presently effective rate schedule for sales subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate and charge, is contained in the following designated filing:

Description: Notice of Change undated.
Purchaser: Louisiana Nevada Transit Company.
Rate schedule designation: Supplement No. 3 to Ohio Oil's FPC Gas Rate Schedule No. 18.
Effective date: [1] March 1, 1957.

In support of the proposed increase, Ohio Oil cites the contract provision providing for redetermination of the rate every three years based on the weighted average price paid for gas in northern Louisiana during the one-year period preceding the particular three-year period and states that the proposed rate results from such redetermination as of October 26, 1954. Ohio Oil also lists six rate increases in northern Louisiana accepted by the Commission.

The increased rate and charge proposed in the aforesaid filing has not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's rules and regulations (18 CFR Ch. I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until August 1, 1957, and until such further time as it is made effective in the manner presented by the Natural Gas Act.

(B) Neither the supplement hereby suspended nor the rate schedule sought to be altered shall be changed until this proceeding has been disposed of, or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3530]

PITTSBURGH RAILWAYS CO.

NOTICE OF FILING OF APPLICATION REGARDING PROPOSED ISSUE AND SALE OF PURCHASE MONEY BOND

FEBRUARY 21, 1957.

Notice is hereby given that Pittsburgh Railways Company ("Pittsburgh"), a non-utility subsidiary of Standard Gas and Electric Company, a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935 ("act"). Applicant designates section 6 (b) of the act as applicable to the proposed transaction.

All interested persons are referred to the application on file in the office of the Commission for a statement of the transaction therein proposed, which is summarized as follows:

Pittsburgh proposes to issue a 15-year purchase money bond in the principal amount of $280,000 and bearing interest at the rate of 4½ percent per annum. The unpaid balance of the bond may be anticipated, without penalty, on any quarter annual payment date. The bond will be issued to Navarro Corporation, a contractor doing business in Pittsburgh, Pennsylvania, as part payment for a garage building being constructed by said contractor and needed by Pittsburgh for storage, servicing and maintenance of its buses and said bond will be secured by a mortgage on said property. Competitive bidding was observed in awarding the construction contract.

The application states that there are no fees or commissions payable on account of the issuance of said bond or mortgage. There are, however, Federal Internal Revenue Documentary Stamps required in the amount of $308 and Pittsburgh has agreed to pay all of the realty transfer taxes involved in the transaction and certain expenses, including attorneys fees, incurred by Navarro Corporation in connection with the transaction estimated not to exceed $12,000. Estimates of said expenses incurred by Navarro Corporation and of the fees and expenses of all counsel, including the fees and expenses of counsel for Navarro, in connection with this transaction will be filed by amendment.

Subject to certain conditions, the Pennsylvania Public Utilities Commission has registered the Securities Certificate of Pittsburgh relating to the issuance of said bond and mortgage.

Notice is further given that any interested person may, not later than March 12, 1957, request in writing that a hearing be held in respect of such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert, or he may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the Commission may grant the application as amended or as it may be further amended, pursuant to the provisions of Rule U-23 promulgated under the act, or the Commission may grant exemption from its rules as provided by Rules U-20 (a) and U-100 thereof, or take such action as may be deemed appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 57-1510; Filed, Feb. 27, 1957; 8:54 a. m.]

[File No. 70-3558]

CENTRAL VERMONT PUBLIC SERVICE CORP.

NOTICE OF FILING OF APPLICATION REGARDING PROPOSED ACQUISITION OF COMMON STOCK OF NEWLY ORGANIZED SUBSIDIARY

FEBRUARY 21, 1957.

Notice is hereby given that Central Vermont Public Service Corporation ("Central Vermont"), an exempt public utility holding-operating company, has filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), an application, regarding a proposal to acquire 1,730 shares (86.50 percent) of the initial issue of the $100 par value common stock of Vermont Electric Power Company, Inc. ("Vepco"), a newly organized electric transmission company. Applicant has designated sections 9 (a) (2) and 10 of the act as applicable to the proposed acquisition.

All interested persons are referred to the application on file at the office of this Commission for a statement of the transactions therein proposed and the reasons therefor, which are summarized as follows:

The State of Vermont, acting through the Public Service Commission of Vermont, has entered into a contract, dated January 25, 1956, with the Power Authority of the State of New York for the purchase of up to 100,000 kw of firm power to be produced by the St. Lawrence River Project ("St. Lawrence Power"), and to be delivered at three points on the New York-Vermont State line.

Approximately 55 percent to 60 percent of the present power requirements of the State of Vermont is produced by generating facilities located within the State. The remainder is purchased from outside sources, a large part of which is purchased from New England Power Company, a subsidiary of New England Electric System, a registered holding company. It is the purpose of the State of Vermont, acting through the Public Service Commission, to distribute the purchased St. Lawrence power equitably among all of the electric distribution companies and agencies operating in the State. To do so will require the construction of new and heavier transmission facilities, to be superimposed upon and supplemented by existing facilities. The cost of such new facilities is presently estimated at between $10,000,000 and $15,000,000, which it is presently contemplated will be financed on a basis of 5 percent minimum and a 15 percent maximum of equity capital.

Central Vermont, Green Mountain Power Corporation ("Green Mountain") and Citizens Utilities Company ("Citizens"), propose, subject to the right of other electric companies who so desire to participate in the ownership thereof, to utilize Vepco, a newly organized company, to construct, own and operate the new transmission facilities, and to enter into a contract with the State of Vermont, acting through the Public Service Commission, to transmit within Vermont the St. Lawrence power from the New York-Vermont State line to the points of delivery to the various electric distribution companies and agencies within Vermont, in accordance with allocations thereof by the Public Service Commission of Vermont.

Initially, Vepco proposes to issue and sell 2,000 shares of its $100 par value common stock to provide funds to enable it to complete engineering studies initiated by Central Vermont and the other participating utilities, to negotiate the transmission contract with the State of Vermont, to conduct negotiations with respect to the financing of Vepco and the sale of debt securities thereof, and the acquisition of materials and supplies requisite for the construction of the new transmission facilities. Of the 2,000 shares to be issued by Vepco, 1,730 shares (86.50 percent), including 7 of the 10 organization shares to be issued to the directors of Vepco are to be acquired by Central Vermont, 178 shares (8.90 percent) by Green Mountain, and 89 shares (4.45 percent) by Citizens.

Central Vermont proposes to enter into a contract with Green Mountain, Citizens and Vepco, which will provide for the purchase by Central Vermont, Green Mountain and Citizens of additional common stock of Vepco in the same proportions as the initial purchase, subject to the provisions permitting other electric distributing companies to participate in the ownership of Vepco. Any such acquisition of additional common stock by Central Vermont will be the subject of a further application and the approval of this Commission.

The application states that no State or Federal commission, other than this Commission, has jurisdiction over the proposed acquisition of Vepco stock by Central Vermont. It is also stated that the Public Service Commission of Vermont has jurisdiction over the proposed issue and sale of common stock by Vepco, and that an order of that Commission is to be filed herein.

The fees and expenses to be incurred by Central Vermont in connection with the proposed acquisition are estimated at $750 including legal fees and expenses of $500.

Notice is further given that any interested person may, not later than March 13, 1957, request that a hearing be held in respect of the application, stating his interest, the reasons for such request, and the issues of fact or law which he desires to controvert, or he may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the application, as filed or as it may be amended, may be granted, as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its Rules, as provided in Rules U-20 (a) and U-100 thereof, or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 57-1508; Filed, Feb. 27, 1957; 8:53 a. m.]

[File No. 70-3563]

PENNSYLVANIA POWER CO. AND OHIO EDISON CO.

NOTICE OF PROPOSED ISSUE AND SALE OF COMMON STOCK BY SUBSIDIARY AND ACQUISITION THEREOF BY HOLDING COMPANY

FEBRUARY 21, 1957.

Notice is hereby given that Ohio Edison Company ("Ohio"), a registered holding company and a public-utility company, and its subsidiary Pennsylvania Power Company ("Pennsylvania"), a public-utility company all of whose outstanding common stock is owned by Ohio, have filed with this Commission a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (b), 9 (a), 10, and 12 (f) of the act and rule U-43 thereunder as applicable to the proposed transactions, which are summarized as follows:

Pennsylvania proposes to issue and sell, and Ohio proposes to buy, 70,000 shares of Pennsylvania's authorized and unissued Common Stock (par value $30 per share) for a cash consideration of $2,100,000.

Pennsylvania will apply the proceeds of such sale to construction expenditures or in reimbursement of its treasury therefor. Pennsylvania's 1957 construction expenditures are estimated at $13,000,000, and its cash requirements will also make necessary its issue and sale during 1957 of approximately $7,000,000 principal amount of First Mortgage Bonds, to be made the subject of a later filing.

It is stated that the only other regulatory commission having jurisdiction in the premises is the Pennsylvania Public Utility Commission, the regulatory commission of the State in which Pennsylvania is organized and operating; that such State commission has jurisdiction over the issue and sale of Common Stock by Pennsylvania, and that a copy of its order with respect thereto will be filed by amendment.

The fees and expenses to be incurred in the matter will be paid by Pennsylvania, as follows:

Federal original issue tax	$2,310
State excise tax on increase of stated capital	4,200
Legal fees, Winthrop, Stimson, Putnam & Roberts	1,000
Miscellaneous	200
Total	7,710

Notice is further given that any interested person may, not later than March 11, 1957 at 5:30 p. m., request the Commission in writing that a hearing be held on such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided by Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 57-1511; Filed, Feb. 27, 1957; 8:54 a. m.]

[File No. 1-3679]

KROY OILS, LTD.

ORDER SUMMARILY SUSPENDING TRADING

FEBRUARY 21, 1957.

In the matter of trading on the American Stock Exchange in the 20 cent par value Capital Stock of Kroy Oils Limited, File No. 1-3679.

I. The 20 cent par value Capital Stock of Kroy Oils Limited, an Alberta corporation (hereinafter called "registrant"), is listed and registered on the American Stock Exchange, a national securities exchange (hereinafter called the "exchange").

II. The Commission on November 2, 1956, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act") to determine at a hearing to be held on November 20, 1956, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the Capital Stock of registrant on the exchange for failure to comply with section 13 of the act and the rules and regulations adopted thereunder, in that the Commission has reason to believe that a current report for the month of May 1956, on Form 8-K, filed by registrant with the Commission was false and misleading in certain respects set forth in said order. On February 12, 1957, the Commission issued its order summarily suspending trading of said securities on the exchange pursuant to section 19 (a) (4) of the act for the reasons set forth in said order to prevent fraudulent, deceptive or manipulative acts or practices for a period of ten days from February 13, 1957, to February 22, 1957, inclusive.

III. On November 7, 1956, counsel representing registrant requested a postponement of the hearing under section 19 (a) (2) of the act in order to enable him to prepare for the hearing. Pursuant to this request, the Commission on November 7, 1956, issued its order postponing the date of said hearing to November 26, 1956. Said hearing has commenced but has not yet been concluded by Commission order or decision.

IV. The Commission has reason to believe that the false report filed by registrant as alleged in the order and notice of hearing referred to in paragraph II and the relationship between registrant and Great Sweet Grass Oils Limited, also subject to an order issued concurrently herewith under section 19 (a) (4) of the act, and also subject to an order and notice of hearing under section 19 (a) (2) of the act, which hearing has been consolidated with the hearing referred to in paragraph III, are such as to cause widespread confusion and uncertainty in the market for registrant's shares. Under the circumstances recited in this order, the Commission is of the opinion that it would be impossible for the investing public to reach an informed judgment at this time as to the value of registrant's securities or for trading in such securities to be conducted in an orderly and equitable manner.

V. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the act and the Commission's Rule X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the act that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a

period of ten days from February 23, 1957, to March 4, 1957, inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 57-1512; Filed, Feb. 27, 1957; 8:54 a. m.]

[File No. 1-3827]

GREAT SWEET GRASS OILS, LTD.

ORDER SUMMARILY SUSPENDING TRADING

FEBRUARY 21, 1957.

In the matter of trading on the American Stock Exchange in the $1.00 par value Capital Stock of Great Sweet Grass Oils Limited, File No. 1-3827.

I. The $1.00 par value Capital Stock of Great Sweet Grass Oils Limited (hereinafter called "registrant") is listed and registered on the American Stock Exchange, a national securities exchange (hereinafter called "the exchange").

II. The Commission on October 19, 1956, issued its order and notice of hearing under section 19 (a) (2) of the Securities Exchange Act of 1934 (hereinafter called "the act"), and on October 24, 1956, issued its amended order and notice of hearing under the act to determine at a hearing to be held November 13, 1956, whether it is necessary or appropriate for the protection of investors to suspend for a period not exceeding twelve months, or to withdraw, the registration of the Capital Stock of registrant on the exchange for failure to comply with section 13 of the act and the rules and regulations thereunder, in that the Commission had reason to believe that the reports filed by registrant on Form 8-K and Form 10-K were false and misleading in certain respects set forth in said orders. On October 31, 1956, the Commission issued its second amended order and notice of hearing under section 19 (a) (2) of the act restating the allegations in the original and amended orders and including allegations that the Commission had reason to believe that the registrant's current report on Form 8-K for the month of December, 1955, and amendments thereto, and that registrant's annual report on Form 10-K for its fiscal year ended December 31, 1955, and amendments thereto, were false and misleading in additional respects set forth in said order. On November 16, 1956, the Commission issued its third amended order and notice of hearing under section 19 (a) (2) of the act restating the allegations in the original and amended orders and including allegations that the Commission had reason to believe that the registrant's current report on Form 8-K for the month of August, 1955, was false and misleading in certain respects set forth in said order, and that the Form 8-K report for the month of December, 1955, and the Form 10-K report for the fiscal year ended December 31, 1955 were false and misleading in additional respects set forth in said order. On February 12, 1957, the Commission issued its order summarily suspending trading pursuant to section 19 (a) (4) of the act in said securities on the exchange for the reasons set forth in said order to prevent fraudulent, deceptive and manipulative acts or practices from February 13, 1957, to February 22, 1957, inclusive.

III. On November 7, 1956, counsel representing registrant requested a postponement of the hearing under section 19 (a) (2) of the act in order to enable him to prepare for the hearing. Pursuant to this request, the Commission on November 7, 1956, issued its order postponing the date of said hearing to November 26, 1956. Said hearing has commenced but has not yet been concluded by Commission order or decision.

IV. The Commission has reason to believe that the false reports filed by registrant as alleged in the orders and notices of hearing referred to in paragraph II and the relationship between registrant and Kroy Oils Limited, also subject to an order issued concurrently herewith under section 19 (a) (4) of the act, and also subject to an order and notice of hearing under section 19 (a) (2) of the act, which hearing has been consolidated with the hearing referred to in paragraph III, are such as to cause widespread confusion and uncertainty in the market for registrant's shares. Under the circumstances recited in this order, the Commission is of the opinion that it would be impossible for the investing public to reach an informed judgment at this time as to the value of registrant's securities or for trading in such securities to be conducted in an orderly and equitable manner.

V. The Commission being of the opinion that the public interest requires the summary suspension of trading in such security on the exchange and that such action is necessary and appropriate for the protection of investors; and

The Commission being of the opinion that such suspension is necessary in order to prevent fraudulent, deceptive, or manipulative acts or practices, with the result that it will be unlawful under section 15 (c) (2) of the act and the Commission's Rule X-15C2-2 thereunder for any broker or dealer to make use of the mails or of any means or instrumentality of interstate commerce to effect any transaction in, or to induce or attempt to induce the purchase or sale of, such security otherwise than on a national securities exchange.

It is ordered, Pursuant to section 19 (a) (4) of the act that trading in said securities on the American Stock Exchange be summarily suspended in order to prevent fraudulent, deceptive, or manipulative acts or practices for a period of ten days from February 23, 1957, to March 4, 1957, inclusive.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

Negotiation, procurement by:
Types of contracts 1806
Use of negotiation 1806
Supplemental provisions:
Administrative procedures:
Distribution of contracts 1841
Information releases by contractors 1841
Department procurement policy, profit and fee considerations 1841
Small business policy and procedure:
Functions to be performed by Small Business Specialists in Department's Small Business Program 1842
Records pertaining to small business to be maintained by procuring activities and field purchasing offices 1842
Reserve forces:
Ready Reserve, active duty in national emergency; purpose, applicability, policy, Defense Department regulation 426
Reserve Officers' Training Corps:
Classification of ROTC units; senior divisions, military colleges 1745
Discharge or release from ROTC program 1745
Security purposes, employment restrictions for; procurement regulations respecting labor 1840

ATOMIC ENERGY COMMISSION:
Authority, delegation of, from General Services Administrator to Chairman; disposal of Slick Rock Housing Project, Slick Rock, San Miguel County, Colorado 2139
Construction, exportation, etc., of utilization facilities, licensing of. *See* Utilization facilities.
Patents declared affected with public interest, procedures. *See* Rules of practice.
Property in communities under ownership and management of commission, disposal of; delegation of authority from General Services Administrator respecting disposal of Slick Rock Housing Project, Slick Rock, San Miguel County, Colorado 2139
Radiation, standards for protection against 549
Exceptions to requirements, and additional requirements 549
General provisions 549
Permissible doses, levels, and concentrations 549
Appendix A, permissible weekly dosage 553
Appendix B, permissible concentration of air and water above natural background 553
Appendix C, microcuries of listed materials 554
Precautionary procedures 549
Records, reports, and notification by licensees 549
Waste disposal 549
Reactors:
Construction, exportation, etc.; licenses, permits, etc. *See* Utilization facilities.
Spent reactor fuels; chemical processing services of AEC 1591
Records, public; inclusions 2005
Rules of practice, procedures on declaring patents affected with public interest and licensing of patents; definition of "patent owner," petition for amendment 524
Seal, official 1744
Source material, control of; Schedule III, general licenses for transferring or acquisition of source material, exemption of certain AEC contractors 1318
Uranium program, domestic; prospecting permits and mining leases on lands administered by Federal agencies not authorized to lease lands 1327
Utilization facilities:
Construction and/or operation of utilization facilities; licenses and permits for various companies for reactors and critical experiment facilities at specified locations:
AMG Atomics, Inc.; Plainsboro Township, N. J. 618
Aerojet-General Corp.; Azusa, Calif. 937, 1616, 1974

ATOMIC ENERGY COMMISSION—Continued Page

Utilization facilities—Continued
Construction and/or operation of utilization facilities; licenses and permits for various companies for reactors and critical experiment facilities at specified locations—Continued
Aerojet-General Nucleonics; San Ramon, Calif. 742, 1104, 1320, 1321, 1974, 2018
Exhibit of reactor in Philadelphia, Pa., and subsequent disposition 798, 1321, 1974
Transfer of title to facility to Aerojet-General Corp., Azusa, Calif 937, 1616, 1974
Armour Research Foundation of Illinois Institute of Technology; Chicago, Ill 191
Atomics International, North American Aviation, Inc.; Vanowen Facility, Canoga Park, Calif 772
Babcock & Wilcox Co.; Lynchburg, Va. 989, 1419, 2018
Daystrom Nuclear Division of Daystrom, Inc.; Princeton, N. J 191
Lockheed Aircraft Corp.; Palo Alto, Calif 1104, 1872
North Carolina State College; Raleigh, N. C. 1053, 1616
Ordnance Materials Research Office; Watertown Arsenal, Watertown, Mass 618
Union Carbide Nuclear Co., division of Union Carbide Corp.; Sterling Forest, Orange County, N. Y 1321
University of Buffalo; campus, Buffalo, N. Y 1974
Westinghouse Electric Corp.; Westmoreland County, Pa 153
Export licenses for reactors; applications, permits, etc.:
ACF Industries, Inc., for export to Comitato Nazionale per le Ricerche Nucleari, Italy 270
AMF Atomics, Inc.:
Land Bayern, Federal Republic of Germany, for Laboratorium fuer Techniche Physik de Technichen Hochschule Muenchen 1104, 1893
Ministry of Education, Netherlands, for International Exhibition "Het Atoom", Amsterdam 246, 744
Babcock & Wilcox Co.:
Conselho Nacional de Pesquisas do Brasil, for operation by University of Sao Paulo 128, 618
Society for Utilization of Nuclear Energy in Shipbuilding & Navigation, Inc., Hamburg, Germany 989
Foster Wheeler Corp.; Danish Atomic Energy Commission, Copenhagen, Denmark 798, 1795
Loretz & Co.; Danish Atomic Energy Commission, Copenhagen, Denmark 798, 1794
Work experience program for scientific and engineering employees of private firms and institutions engaging in peaceful applications of atomic energy 2139

Insured banks, reports of. *See* Federal Deposit Insurance Corporation.

BOARDS. *See* Committees and boards.

BONDS, SURETY, for certain officers and employees; invitations for bids. *See specific agencies.*

BONDS, UNITED STATES SAVINGS; regulations respecting. *See* Treasury Department.

BONNEVILLE POWER ADMINISTRATION:
Marketing of surplus electric power and energy generated at specific sources; designation of Administration as marketing agency 1090

BOY SCOUTS, Scouters, and officials of Boy Scouts; issuance of passports to, for 1957 World Jamboree 1550

BRIDGE REGULATIONS. *See* Engineers, Corps of.

BRUSSELS UNIVERSAL AND INTERNATIONAL EXHIBITION, 1958, United States participation in; allocation of certain funds for purposes of, and waiver of certain laws in connection with (Letters of August 21, 1956, December 27, 1956) 103

BUSINESS AND DEFENSE SERVICES ADMINISTRATION: Page
Appointments without compensation and statements of financial interests under Defense Production Act 293, 461, 772, 937, 1044, 1045, 1154, 1346, 1578, 2092
Defense materials system. *See* Priorities system operation.
Priorities system operation:
See also Priority orders.
Basic rules of priorities system (BDSA Reg. 2); notice of acceptance or rejection of DX rated orders and of delayed shipment of certain DO rated orders (Direction 8) 474
Defense materials system:
Basic rules of defense materials system (DMS Reg. 1):
Identification of certain authorized controlled material orders (Direction 10) 475
List A of items not subject to ratings 300
Construction under defense materials system (DMS Reg. 2); identification of certain authorized controlled material orders (Direction 4) 475
Priority orders:
Aluminum (M–5A), opening of order books 32
Copper and copper-base alloys (M–11A), Schedule A, set-aside percentages 1038
Machines and machinery; metalworking machines, delivery of (M–41, Direction 1) 2127
Scarce and critical materials; control of general distribution in civilian market, Schedule A (BDSA Notice 1):
Argon 1972
Titanium sponge and titanium metal (ingot and mill products) 1972

BYRD, REAR ADMIRAL RICHARD E., death of; flag of United States ordered flown at half-staff as mark of respect (Executive Order 10702) 1629

C

CANAL ZONE GOVERNMENT:
Panama Canal, operation and navigation of; arriving and departing vessels, merchant ship anchorages, Pacific entrance 720
Sanitation, health and quarantine; practice of healing art, exemption from licensure of medical interns and residents-in-training in any branch of United States Government 1949

CHILD LABOR REGULATIONS. *See* Labor Department.

CITATIONS, for outstanding performance. *See* Medals, decorations.

CIVIL AERONAUTICS ADMINISTRATION:
Air navigation:
Air traffic control. *See* Air traffic control.
Altitude minimums, for instrument flight. *See* Instrument flight rules.
Civil airways, designation of. *See* Civil airways.
Control areas and zones on civil airways, designation of. *See* Control areas, control zones, etc.
Instrument approach procedure. *See* Instrument flight rules.
Reporting points, on civil airways. *See* Control areas, control zones, and reporting points.
Restricted areas. *See* Restricted areas.
Air traffic control; high density air traffic zones and airports, designation of 2042
Aircraft:
Certificates and certification. *See* Certificates and certification.
Materials, parts, processes, and appliances; specifications. *See* Technical standard orders.
Airports:
Instrument approach procedures. *See* Instrument flight rules.
National Airport, Washington. *See* Washington National Airport.
Surplus airport property, disposal of; release of airport property from restrictions of surplus property instruments of disposal, authority delegation to Regional Administrators respecting facilities (electric, water, gas, heating, sewerage, aircraft fuel, etc) 1599
Altitudes, instrument. *See* Instrument flight rules.

CIVIL AERONAUTICS ADMINISTRATION—Con. Page
Approach procedures, instrument. *See* Instrument flight rules.
Authority, delegations of:
See also Organization.
From Administrator to Regional Administrators; compliance with airport operation agreements respecting release of facilities (electric, water, gas, heating, sewerage, aircraft fuel, etc.) from terms and conditions of surplus property instruments of disposal 1616
Certificates and certification; certification procedures, with respect to airmen, air agency, medical certificates, etc.:
Definition; "Designated medical examiner" 1779
Denial of airman, aircraft, air carrier, air navigation, or air agency certificates; revocation 864
Issuance of certificates:
General provision; physical examination by designated medical examiner 1779
Medical certificates, third-class 1779
Civil airways, designation of; alterations:
Colored civil airways (amber, blue, green, red) 345, 925, 1801
VOR civil airways; domestic 345, 926, 1802
Communications; CAA communications stations, fees for Class "B" messages transmitted on New York-London radio-teletypewriter circuit 2042
Control areas, control zones, and reporting points, designation of; alterations:
Control areas:
Colored civil airways (amber, blue, green, red) 929, 1803
Extension of control areas 346, 929, 999, 1326, 1803
VOR civil airway control areas; domestic 930
Control zones:
Additional control zones 347, 930, 1803
Five-mile radius zones 930
Reporting points:
Colored civil airways (amber, blue, green, red) 347, 930, 1803
VOR reporting points; domestic 347, 930, 1803
Instrument flight rules:
Altitudes; minimum en route IFR altitudes, particular routes and intersections:
Colored civil airways (amber, blue, green, red) 424, 947, 1718
Direct routes, United States 425, 948, 1718
VOR civil airways 425, 948, 1718
Instrument approach procedures, standard (including ceiling and visibility minimums for take-off and landing at particular airports); alterations:
Automatic direction finding procedures 139, 257, 1633, 1671, 1983, 2098
Instrument landing system procedures 142, 214, 258, 473, 702, 1031, 1635, 1672, 1985, 2100
Radar procedures 260, 704, 1035, 1637, 1674, 2102
Radio range procedures:
Low frequency range procedure 138, 212, 256, 698, 1028, 1083, 1632, 1670, 1981, 2098
Very high frequency omnirange procedures 140, 213, 257, 472, 699, 700, 1030, 1034, 1084, 1634, 1671, 1984, 2099.
Organization and functions:
Delegation of authority; Civil Aeronautics Administrator, administration and enforcement of Transportation Orders 2108
Field offices, functions and locations of:
Airport District Offices, changes in addresses of:
Region 2, Atlanta, Ga 678, 713
Region 3, Kansas City, Mo 678, 713
Region 4:
Los Angeles, Calif., serving southern California area 678, 713
Oakland, Calif., International Terminal Building, Metropolitan Oakland International Airport, to serve Northern California area, Fresno and north 678, 713
Aviation Safety District Offices. *See* Flight Operations and Airworthiness District Offices.
Flight Operations and Airworthiness District Offices; functions, locations, and specialties 989
Functions:
Administrator, Office of; Research and Development Coordinator, deletion 2018
Program Offices; International Cooperation Office 2017

CIVIL AERONAUTICS ADMINISTRATION—Con. Page
Organization and functions—Continued
Functions—Continued
Staff Offices; Planning and Development Office 2018
Organization of Civil Aeronautics Administration:
Administrator, Office of; Research and Development Coordinator, deletion 2018
Staff Offices; Program Planning Office changed to Planning and Development Office 2018
Restricted areas over Army, Navy, and Air Force installations in various States; alterations:
Alaska 2041
Florida 1115
Idaho 697
Kentucky 718
Louisiana 1328, 1378, 2042
Maine 1887
New Hampshire 1887
Ohio 1547
Oregon 697
Virginia 1887
Technical standard orders for aircraft materials, parts, processes, and appliances; minimum performance standards:
Position light flashers (aircarrier aircraft), TSO–C18c; proposed rule making 1990
Position lights, aircraft, TSO–C30b 1027
Propeller, feathering hose assemblies (rubber and wire braid construction), TSO–C42 717
Radio receiving equipment:
Airborne receiving and direction finding equipment operating within the radio-frequency range of 200–416 kilocycles (for air carrier aircraft), TSO–C41 110
Marker receiving equipment, TSO–C35a 109
VOR receiving equipment operating within radio frequency range 108–118 megacycles (for air carrier aircraft), TSO–C40 110
Seats and berths, aircraft, TSO–C25a, TSO–C39 109
Washington National Airport; demonstrations 372

CIVIL AERONAUTICS BOARD:
Accidents and missing aircraft:
Accident inquiries, rules of practice in; conduct of inquiry, etc 1026
Investigation of accidents occurring at or near certain cities, etc.:
Rikers Island, N. Y 1528
Sunland, Calif 1577
Tulsa, Okla 1054
Air carriers:
Accidents; investigations, inquiries, etc. *See* Accidents.
Classification and exemption of certain air carriers. *See* Economic regulations.
Foreign. *See* Foreign aircraft.
Irregular. *See* Irregular air carrier and off-route rules.
Operation rules. *See* Operation rules.
Scheduled. *See* Scheduled air carriers.
Air traffic rules:
Definitions; flight test 782
General flight rules (GFR):
Careless or reckless operation; note, lack of vigilance by pilot 781
Flight test, certain prohibitions respecting 782
Effective dates 1115
Flight test areas; approval of, duration and renewal of approval, traffic rules for, etc 1277
Operation on and in vicinity of an airport; high density air traffic zone, communication requirements 814
Instrument flight rules (IFR); cruising altitudes 2095, 2097
Visual flight rules (VFR):
Ceiling and distance from clouds; within control zones 814
Cruising altitudes; high altitude quadrantal rules 2095, 2097
Visibility, within control zones:
Flight visibility 815
Ground visibility 815
Aircraft:
Accidents and missing aircraft. *See* Accidents.
Airworthiness. *See* Airworthiness.
Operation rules. *See* Operation rules.

CIVIL AERONAUTICS BOARD—Continued Page

Airmen; certificates and ratings. *See* Certificates and ratings.
Airplane airworthiness. *See* Airworthiness.
Airworthiness requirements for various types of aircraft:
  Airplane airworthiness:
    Acrobatic categories. *See* Normal, utility, and acrobatic categories.
    Normal, utility, and acrobatic categories:
      Design and construction; control systems, trimming controls.
        Independence of bungee trim system for primary control system 135
        Trim device indications 1025
      Equipment:
        Electrical systems and equipment installation, generator capacity 1025
        Functional and installational requirements; radio equipment and installation performance 135
        Lights:
          Facilitation of experiments with exterior lighting systems (SR–392B) 1272
          Position and anti-collision light requirements 1272
          Position light system installation 1025
        Radio equipment installations 135, 497
      Flight requirements; weight range and center of balance, weight and balance limitations for flight tests 1025
    Transport categories:
      Design and construction, emergency provisions; emergency evacuation 1546, 1931
        Ditching emergency exits 1547
        Emergency exit access 1547
        Emergency exit arrangement; landplane emergency exits, other than exits located over wings 1547
        Flight crew emergency exits 1546
        Passenger emergency exits:
          Number required 1547
          Type and location 1546
        Width of main aisle; airplanes having maximum passenger seating capacity of 19 or less 1547
      Equipment:
        Instrument, installation; flight recorders, proposed rule making 2087
        Lights:
          Facilitation of experiments with exterior lighting systems (SR–392B) 1272
          Position and anti-collision light requirements 1273
  Rotorcraft airworthiness:
    Normal category, equipment; lights:
      Facilitation of experiments with exterior lighting systems (SR–392B) 1272
      Position and anti-collision light requirements 1274
    Transport categories, equipment; lights:
      Facilitation of experiments with exterior lighting systems (SR–392B) 1272
      Position and anti-collision light requirements 1275
Certificates and ratings; airmen:
  Dispatcher, aircraft, certificates; airman identification card requirements, revocation 236
  Engineer, flight, certificates:
    Certification rules 2041
    Requirements for certificate 2039
  Flight instructor certificates. *See* Pilot and flight instructor certificates.
  Lighter-than-air pilot certificates; airman identification card requirements, revocation 236
  Mechanic and repairman certificates; airman identification card requirements, revocation 236
  Pilot and flight instructor certificates; extension of mandatory compliance date 1114
  Repairman certificates. *See* Mechanic and repairman certificates.
Certification, identification, and marking of aircraft and related products; replacement and modification parts, fabrication inspection system 657
Economic proceedings. *See* Procedural regulations.

CIVIL AERONAUTICS BOARD—Continued Page

Economic regulations; classification and exemption of indirect air carriers, proposed rule making:
  Conditions on exemption, air freight forwarders; prohibition on using agents of direct air carriers 2087, 2089
  Definitions; joint loading 2087, 2089
  Exemptions:
    Air freight forwarders; joint loading 2087, 2089
    Cooperative shippers associations; joint loading 2087, 2089
  Records, air freight forwarder, retention of; records required to be kept by joint loading forwarders 2087, 2089
Equipment; maintenance, repair, and alteration. *See* Maintenance, repair and alteration.
Explosives and other dangerous articles, exempted articles; special authority, application for authorization to deviate from certain provisions, reference to appendix A, deletion 1025
Foreign aircraft within United States:
  Airworthiness certificate from country of origin; restriction on maximum weights for categories of use 183
  Authorization of navigation of foreign civil aircraft; airworthiness and registration certificates, restrictions on maximum weights for categories of use 183
  Operation of foreign air carriers within United States; airworthiness certificate from country of origin, restriction on maximum weights for categories of use 183
Functions. *See* Organization and functions.
Hearings, investigations, etc.:
  Accidents, investigation of. *See* Accidents.
  Companies and cases, list of, *see list at end of this agency.*
Identification, and marking of aircraft and related products. *See* Certification.
Irregular air carrier and off-route rules:
  Aircraft requirements; listing of large aircraft, use of Form ACA–1014, Operations Specifications 1025
  Equipment:
    Basic required instruments and equipment for aircraft; flight recorders, proposed rule making 2087
    Lights; facilitation of experiments with exterior lighting systems (SR–392B) 1272
  Flight crew requirements, recent flight experience for pilots; use of aircraft simulators in training program and proficiency checks 888
  Military services, air carriers under contract to; authority of Administrator to permit deviation from certain provisions of civil air regulations by (SR–419) 423
  Reports; daily mechanical and mechanical interruption summary reports, proposed rule making 1613
Maintenance, repair, and alteration of airframes, powerplants, propellers, and appliances:
  Applicability of part 1631
  Definition; certificated aircraft 1631
  Performance rules; standards of performance, general:
    Fabric coverings; reinforcement or replacement of conventional fabric covering with glass cloth 600
  Propellers:
    Overhaul of propellers; aluminum propellers and blades, etc 601
    Repair of propellers:
      Metal propellers and blades 601
      Wood or composition propellers and blades 601
    Radio systems 601
  Wood aircraft structures; materials, glues and gluing 600
Persons authorized to approve maintenance, repairs, and alterations:
  Contacting CAA representative, when replacing fabric covering with metal or impregnated glass cloth 600
  Maintenance, minor repairs and minor alterations 1631
Persons authorized to perform maintenance, preventive maintenance, repairs, and alterations 1631

CIVIL AERONAUTICS BOARD—Continued Page

Operation rules, for various types of aircraft:
  See also Foreign aircraft; Irregular air carriers; *and* Scheduled air carriers.
  Air traffic rules. *See* Air traffic rules.
  General operation rules:
    Aircraft requirements, airworthiness certification of foreign aircraft operated in United States 181
    Equipment; lights:
      Facilitation of experiments with exterior lighting systems (SR–392–B) 1272
      Position and anti-collision light requirements 1276
    Pilots; private and commercial pilot privileges and limitations:
      Instrument flight limitations 814
      Recent flight experience; instrument flight, insertion of "or in weather conditions less than the minimum prescribed for flight under visual flight rules" 814
Organization and functions; determinations incident to routine management functions 2018
Procedural regulations:
  Accidents, aircraft; rules of practice in accident inquiries, conduct of inquiry, etc 1026
  Economic proceedings, rules of practice in; subpoenas of witnesses, motions to modify or quash subpoenas 1061
Records, retention of, air freight forwarders; records to be kept by joint loading forwarders 2087, 2089
Rotorcraft airworthiness. *See* Airworthiness.
Scheduled air carriers:
  Interstate air carrier certification and operation rules:
    Airmen; flight crew member and dispatcher qualifications, pilot check:
      Elimination of requirement for actual or simulated gross take-off weight in recurring proficiency check with one engine inoperative; proposed rule making 522
      Training program and proficiency check; use of aircraft simulator 885
    Instruments and equipment:
      Flight recorders, proposed rule making 2087
      Lights:
        Facilitation of experiments with exterior lighting systems (SR–392B) 1272
        Position and anti-collision light requirements 1276
    Reports; daily mechanical and mechanical interruption summary reports, proposed rule making 1613
Operations outside continental limits of United States, certification and operation rules:
  Aircraft requirements; instruments and equipment:
    Flight recorders, proposed rule making 2087
    Lights; facilitation of experiments with exterior lighting systems (SR–392B) 1272
  Airman rules, pilot; periodic flight check and instructions:
    Elimination of requirement for actual or simulated gross take-off weight in recurring proficiency check with one engine inoperative; proposed rule making 522
    Training program and proficiency checks; use of aircraft simulators 888
  Reports; daily mechanical and mechanical interruption summary reports, proposed rule making 1613

Hearings, etc.:

Aerovias Nacionales de Colombia, S. A 1968, 2017
Air Jordan control by Transocean Air Lines 1617
Air Services, Inc 902, 1096
Airfreight rate case; minimum rates for airfreight forwarders 1528, 2056, 2090
Baggage; free baggage allowances, and excess baggage charges 617, 1155
Barnett Aircargo, Inc 420
Barnett International Airfreight Corp 420
Barnett International Forwarders, Inc 420
Barnett Packers, Inc 420

FEDERAL COMMUNICATIONS COMMISSION—Con. Page

Interlocking directorates of telephone and telegraph companies, applications to hold, under section 212 of act; revision 1748
International agreements, etc., relating to radio in which United States participates:
Frequencies, North America; assignment of frequencies to broadcasting stations in accordance with NARB agreement. *See* North American Regional Broadcasting Agreement.
Laws, international treaties, agreements and arrangements relating to radio (corrected to March 1, 1957) 1548
Land transportation radio services:
Automobile emergency radio service; frequencies available for base and mobile stations, use of frequencies 35.70 mc and 35.98 mc, proposed rule making 354
CONELRAD plan of station operation in case of attack; radio all clear 2009
Motor carrier radio service:
Frequencies available for base and mobile stations; common or contract carriers of property operating in urban areas 499
Limitations on installation and use 500
Railroad radio service:
Eligibility:
Non-profit organization or association furnishing radiocommunication service to railroad common carriers 1297
Railroad common carriers and railroad express companies 1297
Frequencies available for base and mobile stations; use of, for necessary communications in connection with railroad operation or maintenance, and certain motor vehicle operation 1297
Laws, treaties, etc., international. *See* International agreements.
Manufacturing activities, radio service for. *See under* Industrial radio service.
Maritime radio services:
Land stations, coastal:
See also Alaska.
Telephony, use by public coast stations:
Changes in frequency assignments of coast, ship, and aircraft stations within 4000–18,000 kc band; Mississippi River and connecting inland waters (except Great Lakes), use of certain frequencies 498
Hearing respecting continued use of frequencies 6240 kc and 6455 kc 498, 697
Frequencies assignable:
Assignment and use of specific carrier frequencies subject to express limitations; Mississippi River and connecting inland waters (except Great Lakes):
Frequencies 4372.4 and 8205.5 kc, use of; continuation in effect of provisions respecting 498
Frequencies 6240 kc and 6455 kc, deletion of provisions respecting use of; effective date postponed 498
List of specific authorized carrier frequencies; deletion of 6240 and 6455 kc from list, effective date postponed 498
Frequencies below 30 mc, availability of, carrier frequencies assignable for working purposes to Class II stations transmitting alternately; additions, deletions, amendments, etc., in listed areas:
Chicago, Pittsburgh, Louisville, etc., area, frequencies 6240 and 6455 kc, deletion; effective date postponed 498
Mobile, Alabama area, availability of certain Mississippi River system frequencies for use in; proposed amendment withdrawn and proceedings terminated 1783
Shipboard stations:
Applications:
Exemption from radio equipment and operator requirements, application procedure; Part III of Communications Act added 185
Inspection, application for:
Periodical inspection, application on Form 812, procedure 185

Revision of chapter 162
FEDERAL PERSONNEL. *See* Government employees.

FEDERAL POWER COMMISSION:
Authority, delegation of, by Commission to Secretary, or Acting Secretary, to notify independent producers of natural gas of acceptance of statements and rate filings for temporary service pending determination of application for certificate of public convenience and necessity 12
Certificates of public convenience and necessity, applications for:
By various companies. *See* Hearings, *at end of this agency.*
Temporary service by independent producers of natural gas pending determination of application for certificate; authority of Secretary or Acting Secretary to accept statements and rate filings for immediate institution of temporary service 12
Federal Power Act, regulations under:
Accounts:
Forms respecting. *See* Forms.
Uniform system of accounts, for Class A and Class B public utilities and licensees:
Income accounts; utility operating income:
Credits to operations arising from taxes on income deferred in prior years, proposed 933
Provision for deferred taxes on income, proposed 933
Reserve for deferred taxes on income in connection with accelerated amortization, liberalized depreciation, etc., proposed 931
Annual charges, to State and municipal licensees; reduction by 65 percent for certain administrative charges for years 1953, 1954, 1955, and 1956 740
Continuance of proceedings respecting, including hearing regarding charges for subsequent years 740
Forms, approved; annual report, Form No. 1, electric utilities and licensees (Classes A and B), addition of schedule Reserve for Deferred Taxes on Income, proposed 931
Hearings respecting various matters. *See list at end of this agency.*
Lands, withdrawal of, for purposes of power development, etc.:
Project No. 2105 (former projects 616, 1352, 2108), Belden Project, Mount Diablo Meridian, Calif., lands within Plumas National Forest 799
Project No. 2192, Consolidated Water Power Co., Biron Hydro-Electric Project, Fourth Principal Meridian, Wis 271
Natural Gas Act, regulations under:
Rate schedules and tariffs, compliance by natural gas producers and gatherers with certificate and rate requirements, number of copies to be filed 1329
Uniform system of accounts; proposed rule making:
Income accounts, utility income:
Credits to operations arising from taxes on income deferred in prior years 268, 1320
Provision for deferred taxes on income 268, 1320
Reserves for deferred taxes on income; accelerated amortization, liberalized depreciation, and other purposes 267, 1320
Projects, withdrawal of lands for. *See* Lands.
Rate schedules and tariffs:
Filing, approval, suspension, etc. *See list at end of this agency.*
Regulations under Natural Gas Act. *See* Natural Gas Act.
Hearings, etc.; respecting applications for certificates of public convenience and necessity, rate schedules and tariffs, etc.:

  - Prune juice; water extract of dried prunes, notice of hearing 835
- Imports:
  - Milk and cream; regulations under Federal Import Milk Act. *See* Milk and cream.
  - Tea; regulations under Tea Importation Act. *See* Tea.
- Insulin. *See* Drugs.
- Mastitis in dairy animals, drugs used for; proposed warning statement on drugs intended for intramammary infusion 429
- Milk and cream, imports; regulations for enforcement of Federal Import Milk Act, pasteurization, equipment and methods, record keeping requirements respecting 891

FOOD AND DRUG ADMINISTRATION—Continued Page

- New drugs. *See* Drugs.
- Organization and responsibilities 1051
- Oysters. *See* Sea food.
- Penicillin (antibiotic drugs). *See* Drugs.
- Pessaries, for intracervical and intrauterine use; statement of policy 864
- Pesticide chemicals; specific tolerances for residues on raw agricultural food commodities:
  - Aldrin, proposed 789
  - DDT 1000
  - Diphenyl, proposed 87, 1680
  - Ethylene oxide 931
    - Proposed rule making 1590
  - Hydrogen cyanide 1980
  - Inorganic bromides resulting from fumigation:
    - With ethylene dibromide, proposed 87, 1450
    - With methyl bromide, proposed 643
  - Maneb 88, 1842
  - Monuron 786
  - O,O-diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl)—phosphorothioate, proposed 1889
  - 1,1-dichloro-2,2-*bis*(*p*-ethylphenyl) ethane 348
  - Sodium *o*-phenylphenate 1889
  - Sodium 2,2-dichloropropionate 32, 349, 637, 1888
  - 2,3-dichloro-1,4-naphthoquinone, proposed 1450
- Sea food:
  - Definitions and standards of identity; canned tuna 892, 979, 1429
  - Inspection; record keeping requirements respecting processing:
    - Oysters, canned 891
    - Shrimp, processed 891
  - Shrimp. *See* Sea food.
- Statements of general policy or interpretation; pessaries for intracervical and intrauterine use 864
- Tea, imports; regulations for enforcement of Tea Importation Act, tea standards, 1957–58 1037
- Tuna. *See* Sea food.

FOREIGN AID, regulations respecting. *See* International Cooperation Administration.

FOREIGN ASSETS CONTROL DIVISION. *See* Treasury Department.

FOREIGN CLAIMS SETTLEMENT COMMISSION:
- Receipt, administration and payment of claims:
  - Under International Claims Settlement Act of 1949, as amended; procedure for determination of claims, notice, waiting period, etc 475
  - Under War Claims Act of 1949, as amended; basis of hearings 476
- Rules of practice; subpoenas, depositions, and oaths, time of act, enlargement of specified period 475

FOREIGN COMMERCE BUREAU:
- British Token Import Plan:
  - Commodities subject to Plan; whiskey, deletion 159
  - Introduction, Plan year 1957 159
- Export control:
  - Amendments or alterations of licenses 276, 1584
  - Appeals to Appeal Board. *See main heading* Commerce Department.
  - Denial or suspension of export privilege, orders affecting various persons or firms. *See* Suspension of license privilege, *below*.
  - Export clearance and destination control:
    - Authentication of declarations 274
    - Destination control 274
    - General export clearance requirements, exportations by mail 785
    - Presentation of shipper's export declaration 273
  - General orders, extension of validity period of certain export licenses 1025
  - Licenses:
    - General licenses:
      - General license GHK, shipments of certain commodities to Hong Kong 783
      - General license GHS, goods exported to Hong Kong as trade samples; deletion 783
      - General license GLV, shipments of limited value 782
      - General license GRO:
        - Non-Positive List commodities, shipments of 273
        - Surplus agricultural commodities and manufactures 782

Mineral lands and minerals:
Alaska. *See* Alaska.
Asphalt leases 372
Coal lands, entry and location of source material upon 1294
Lands opened to mineral entry:
Alaska:
Fairbanks Meridian (PLO 1392) 1068
Palmer area 1890
Arizona, Gila and Salt River Meridian 1992
California:
Lands restored from power site classification No. 183 766
Lands restored from various power site withdrawals, Mt. Diablo, Humboldt, and San Bernardino Meridians 225
Deletion of order 935
San Benito County, south of Hollister (PLO 1397) 1843
Colorado:
Certain small tracts in central and western areas 1870
Montrose and San Miguel Counties (PLO 1398) 1989
Idaho:
Bingham, Cassia, Clark, Jefferson, Lincoln, and Twin Falls Counties, certain lands in 2016
Dubois, west of 1642
Kuna, east of 246
Mountain Home Reclamation Project, lands restored from 269
Owyhee County, northeast of Bruneau 1871
Power site reserve No. 565, lands restored from; cancellation 226
Salmon, islands near 1451
Spencer, certain lands south of 1450
Minnesota:
Balsam, Bass, Deer, and Emily Lakes, islands in 2051
Diamond Lake and St. Croix River, islands in 2051
Nevada:
Churchill County, near Fallon 523
Mount Diablo Meridian 427
Newlands Reclamation Project, lands restored from 767
Pumpernickel Valley near Golconda 765
New Mexico, lands within power site reserve No. 759 (PLO 1393) 1432
Utah, Salt Lake Meridian 1070, 1260
Wyoming, Sweetwater County 269
Oil and gas leases, noncompetitive; availability of lands to further lease offers where lease term has expired, proposed rule making 1588
Phosphate Reserve No. 16, Florida, addition of certain lands in Leon County to Apalachicola National Forest; proposed withdrawal 2052
Uranium prospecting permits and mining leases on lands administered by Federal agencies not authorized to lease lands; administration by Atomic Energy Commission with assistance of Bureau 1327

LAND MANAGEMENT BUREAU—Continued Page
National forests, lands in:
Alaska; Tongass National Forest, lands excluded from, restored for purchase as homesites (PLO 1388) 1002
Arizona:
Coconino National Forest:
Filing of plat of survey 479, 1992
Navajo Tribe, construction site; proposed withdrawal 505
Recreation areas (PLO 1390) 1003
Gila National Forest:
Administrative sites; prior departmental orders revoked in part (PLO 1393) 1431, 2045
Recreation area (PLO 1390) 1003
Prescott National Forest:
Filing of plat of survey 479, 1992
Lynx Public Recreation Area; proposed withdrawal 1642
Tusayan National Forest, filing of plat of survey 479, 1992
Colorado:
Pike National Forest, Pikes Peak Summit Recreation Area; proposed withdrawal 2138
Roosevelt National Forest, picnic grounds, camp sites, recreation areas, etc.; proposed withdrawal 1728
Routt National Forest, recreation areas, campgrounds, administrative site (PLO 1381) 400
Uncompahgre National Forest, picnic grounds and recreation areas (PLO 1378) 240

PARALLEL TABLES OF STATUTORY AUTHORITIES AND RULES

Following is a list of current additions to the Parallel Tables of Statutory Authorities and Rules appearing in Title 2 of the Code of Federal Regulations. These additions are made as a result of the rules published in the FEDERAL REGISTER during January–March 1957. In order to determine the FEDERAL REGISTER page numbers of the CFR titles and parts involved, users should consult the Codification Guide.

It should be noted that recent legislation not yet assigned within the U. S. Code is carried by public law number at the end of the list.

PART 331—POLICIES AND AUTHORITIES

AVERAGE VALUES OF FARMS; IOWA

On February 14, 1957, for the purposes of Title I of the Bankhead-Jones Farm Tenant Act, as amended, average values of efficient family-type farm-management units for the counties identified below were determined to be as herein set forth. The average values heretofore established for said counties, which appear in the tabulations of average values under § 331.17, Chapter III, Title 6 of the Code of Federal Regulations, are hereby superseded by the average values set forth below for said counties.

IOWA

County	*Average value*	*County*	*Average value*
Adair	$29,000	Jefferson	$30,000
Adams	27,000	Johnson	33,000
Allamakee	25,000	Jones	31,000
Appanoose	25,000	Keokuk	30,000

Subchapter D—Regulations Under Soil Bank Act

[Amdt. 4]

PART 485—SOIL BANK

SUBPART—ACREAGE RESERVE PROGRAM

AGREEMENT

The regulations governing the 1957 acreage reserve part of the Soil Bank Program, 21 F. R. 10449, 22 F. R. 494, 971, 973 and 989, are hereby further amended as provided herein.

Section 485.216 is amended by inserting "(a)" immediately after the heading and by adding a new paragraph (b) at the end thereof reading as follows:

(b) If the amount of compensation shown in an agreement filed on Form CSS–800 (crops other than winter wheat) is incorrect as the result of an error, other than a mistake of judgment in determining the productivity of land, a new agreement shall be entered into showing the correct amount and compensation will be paid accordingly: *Provided*, That a downward adjustment shall not be made if the error is discovered after the producer has acted in reliance on the agreement, provided the producer filed the agreement in good faith without knowledge that the amount was erroneous, and the error was not obvious on the face of the agreement or so substantial as to put the producer on notice that an error had been made and the producer did not otherwise have good reason to know of the error, but in no case shall the rate of compensation per acre for tobacco exceed the applicable maximum rate per acre specified in § 485.217 (a) (2).

(Sec. 124, Pub. Law 540, 84th Cong.)

Issued at Washington, D. C., this 27th day of February 1957.

[SEAL] TRUE D. MORSE,
Acting Secretary.

TITLE 42—PUBLIC HEALTH

Chapter I—Public Health Service, Department of Health, Education, and Welfare

PART 72—INTERSTATE QUARANTINE

SUBPART J—DRINKING WATER STANDARDS

MISCELLANEOUS AMENDMENTS

Notice of proposed rule making having been published in the FEDERAL REGISTER on October 23, 1956 (21 F. R. 8110) and consideration having been given to all relevant matters presented, the amendments to this subpart set forth below are hereby adopted to become effective on publication in the FEDERAL REGISTER. Postponement of effective date has been found unnecessary in the issuance of this amendment which permits the use of the membrane filter procedure in the examination of water and makes minor changes in the procedures.

1. Section 72.201 (g) is amended to read as follows:

(g) "The coliform group of bacteria" includes all organisms considered in the coliform group as set forth in the Standard Methods for the Examination of Water, Sewage and Industrial Wastes, 10th Edition (1955), prepared and published jointly by the American Public Health Association, American Water Works Association and Federation of Sewage and Industrial Wastes Associations. The procedures [5] set for the determination of bacteria of this group shall be those specified therein for:

(1) The completed test; or

(2) The confirmed test when the liquid confirmatory medium brilliant green bile lactose broth, 2 percent, is used, providing the formation of gas in any amount in this medium during 48 hours of incubation at 35° C. is considered to constitute a positive confirmed test; or

(3) The confirmed test (alternate procedure) when streaking one or more plates of Endo Agar or Eosin Methylene Blue Agar from presumptive positive tubes of Lactose Broth or Lauryl Tryptose Broth. The incubation period for the selected medium shall be 24 hours ±2 hours at 35° C ±0.5°. Some of the colonies on the surface of the selected medium shall be separated by at least 0.5 cm. from one another. A confirmed test is positive when typical nucleated colonies with or without a metallic sheen are present. Any atypical opaque, unnucleated pink colonies are doubtful and the completed test procedure must be applied. If only negative colonies are present on the plate, the confirmed test may be considered negative; or

(4) The membrane filter procedure.

In the use of the Confirmed Test, or Confirmed Test (alternate procedure) it is the responsibility of the individual laboratory to establish beyond reasonable doubt by comparisons with the completed test the value of the Confirmed Test in determining the sanitary quality of water supplies examined.

2. Section 72.201 (i) is amended to read as follows:

(i) "The standard sample" for the bacteriological test shall consist of:

(1) Five (5) standard portions of either:

(i) Ten milliliters (10 ml), or

(ii) One hundred milliliters (100 ml) each.

(2) Not less than fifty milliliters (50 ml), when the membrane filter procedure is used, which shall be filtered through one or more membranes so that the total colony count (coliforms plus noncoliforms) on each filter shall not exceed 400. The use of standard samples larger than fifty milliliters will provide more information than smaller samples, but the total colony count per filter shall not in any case exceed 400.

In any disinfected supply the sample must be freed of any disinfecting agent at the time of its collection.[4]

3. Section 72.203 (b) is amended by revising the language immediately preceding subparagraph (1) as follows:

(b) *Application.* Subparagraphs (1) and (2) of this paragraph shall govern when ten milliliter (10 ml) portions are used, subparagraphs (3) and (4) of this paragraph when one hundred milliliter (100 ml) portions are used and subparagraphs (6) and (7) of this paragraph when the membrane filter procedure is used.[6]

4. Section 72.203 (b) is further amended by addirg at the end thereof the following new subparagraphs (6) and (7):

(6) The arithmetic mean density of all standard samples examined per month by the membrane filter procedure shall not exceed one per one hundred milliliters (1.0/100 ml).

(7) Utilizing the membrane filter procedure, greater than the average number of coliform colonies will occasionally be found in a single standard sample. This shall be permissible: *Provided*, The numbers of coliform colonies per standard sample are not greater than: three (3) per fifty milliliters (50 ml), four (4) per one hundred milliliters (100 ml), seven (7) per 200 milliliters (200 ml), thirteen (13) per five hundred milliliters (500 ml), or twenty-two (22) per one thousand milliters (1,000 ml) in:

(i) Any two (2) consecutive standard samples.

[4] In freeing samples of chlorine or chloramines, the procedures given in the Standards Method for the Examination of Water, Sewage and Industrial Wastes, 10th Edition (1955), shall be followed.

[5] This reference shall apply to all details of technique in the bacteriological examination, including the selection and preparation of apparatus and media, the collection and handling of samples, and the intervals and conditions of storage allowable between collection and examination of the water sample.

[6] It is to be understood that in the examination of any water supply the series of samples for any month must conform to both of the requirements of either subparagraphs (1) and (2), (3) and (4) or (6) and (7) of this paragraph, respectively.

(ii) More than five (5) percent of the standard samples when twenty (20) or more samples have been examined per month.

(iii) One (1) standard sample when less than twenty (20) samples have been examined per month.

Provided further, That when one standard sample shows a larger number of colonies than are permissible under subparagraph (7) of this paragraph daily samples from the same sampling point shall be collected and examined until the results obtained from at least two consecutive samples show the water to be of satisfactory quality.*

5. Footnote 8 to § 72.204 (a) and footnote 9 to § 72.204 (c) are renumbered as footnotes 9 and 10 respectively.

(Sec. 215, 58 Stat. 690; 42 U. S. C. 216. Interpret or apply sec. 361, 58 Stat. 703, 42 U. S. C. 264)

Dated: February 15, 1957.

[SEAL] L. E. BURNEY,
Surgeon General.

Approved: February 21, 1957.

M. B. FOLSOM,
Secretary.

PART 43—GENERAL OPERATION RULES

SPECIAL CIVIL AIR REGULATION; FACILITATION OF EXPERIMENTS WITH EXTERIOR LIGHTING SYSTEMS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 25th day of February 1957.

Special Civil Air Regulation No. SR-392A adopted June 29, 1955, permits air carriers, subject to the approval of the Administrator, to install and use experimentally, on a limited number of their airplanes, exterior lighting systems which do not conform to the specifications contained in Part 4b of the Civil Air Regulations. The purpose of SR-392A was to permit experimentation on large airplanes while retaining their standard airworthiness certification. Prior to that time such experimentation was conducted either on Government-owned aircraft or on private aircraft limited in operations to the conditions of an experimental certificate.

SR-392A does not extend the permission for experimentation with exterior lights to non-air-carrier aircraft because at the time of its adoption only air carrier operators indicated interest in this activity. Recently, however, new experimental developments in anti-collision light systems have aroused the interest of private and corporate operators to the extent that some of the operators apparently wish to install the new systems on their aircraft for purposes of experimentation. The Board sees no valid reason why operators other than air carriers should not be permitted to participate, if they wish, in experiments intended to improve the effectiveness of aircraft exterior lighting, provided that the number of such aircraft is reasonably limited.

Since future experimentation is to be conducted more widely and by private individuals, the Board believes that conditions should be imposed which will assure that the experimental exterior lights are in fact installed for purposes of bona fide experimentation and that the results of such experimentation become available to the Government and to all other interested persons.

Interested persons have been afforded an opportunity to participate in the making of this regulation (21 F. R. 3388), and due consideration has been given to all relevant matter presented. Since this regulation imposes no additional burden on any person, it may be made effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby makes and promulgates the following Special Civil Air Regulation, effective February 25, 1957.

Contrary provisions of the Civil Air Regulations notwithstanding, experimental exterior lighting equipment which does not comply with the relevant specifications contained in the Civil Air Regulations may, subject to the approval of the Administrator, be installed and used on aircraft for the purpose of experimentation intended to improve exterior lighting for a period not to exceed six months: *Provided*, That:

(1) The Administrator may grant approval for additional periods if he finds that the experiments can be reasonably expected to contribute to improvements in exterior lighting;

(2) Not more than 15 aircraft possessing a U. S. certificate of airworthiness may have installed at any one time experimental exterior lighting equipment of one basic type;

(3) The Administrator shall prescribe such conditions and limitations as may be necessary to insure safety and avoid confusion in air navigation;

(4) The person engaged in the operation of the aircraft shall disclose publicly the deviations of the exterior lighting from the relevant specifications contained in the Civil Air Regulations at times and in a manner prescribed by the Administrator; and

(5) Upon application for approval to conduct experimentation with exterior lighting, the applicant shall advise the Administrator of the specific purpose of the experiments to be conducted; and at the conclusion of the approved period of experimentation, he shall advise the Administrator of the detailed results thereof.

This regulation supersedes Special Civil Air Regulation No. SR-392A and shall terminate February 25, 1962, unless sooner superseded or rescinded.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

Effective: February 25, 1957.

Adopted: February 25, 1957.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 57-1572; Filed, Feb. 28, 1957; 8:52 a. m.]

[Civil Air Regs., Amdt. 3-1]

PART 3—AIRPLANE AIRWORTHINESS: NORMAL, UTILITY, AND ACROBATIC CATEGORIES

POSITION AND ANTI-COLLISION LIGHT REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 25th day of February 1957.

The currently effective provisions of Part 3 of the Civil Air Regulations prescribe certain installational requirements for an exterior lighting system consisting of three conventional position lights. Experience with the use of anti-collision lights on large airplanes has shown that a significant increase in the conspicuity of aircraft can be attained with such lights during night operations. Although such lights are not required on small airplanes by the currently effective provisions of the operating parts of the Civil Air Regulations, many owners and operators of such airplanes have elected to install anti-collision lights. In the approval of such installations, the Administrator had made applicable the requirements in § 4b.637 of Part 4b of the Civil Air Regulations in view of the fact that there were no specifications in this part.

Recent studies, with respect to the use of anti-collision lights on all types of aircraft, have indicated the need for broadening the specification in § 4b.637 to permit the use of newly developed lights. As a result of these studies, new specifications for anti-collision lights were developed and are being added to Part 3 by this amendment. These specifications are the same as those being incorporated by a concurrent amendment into Part 4b of the Civil Air Regulations. No differentiation is made between the standards in Part 3 and Part 4b in view of the Board's belief that equal conspicuity should be required for all future airplanes.

The continuing increase in air traffic density and the advent of airplanes capable of appreciably higher speeds than heretofore attained emphasize the need for increased conspicuity for newly designed small airplanes. Therefore, concurrently with this amendment, Part 43 of the Civil Air Regulations is being amended to require the use of anti-collision lights on all small airplanes for which application for type certification is made on or after the effective date of this amendment. Such lights will be required to comply with the anti-collision light specifications included in this amendment.

It is not anticipated that this amendment will affect the basis of approval used in the past by the Administrator with respect to the installation of anti-collision lights on small airplanes for which the application for type certification was made prior to the effective date of this amendment. Anti-collision lights which cannot comply with the aforementioned policy of the Administrator may be installed on such older airplanes on a voluntary basis if compliance can be shown with the new specifications in this amendment.

Another change being made by this amendment is the deletion of the specifications for the position light system flasher. This deletion is made in view of the belief that when position lights are used with anti-collision lights, steady lights provide important direction and attitude information whereas flashing lights contribute very little to increased conspicuity or to information on direction and attitude.

It is considered that these new requirements set forth necessary and sufficient conditions for anti-collision light systems to provide a reasonable level of safety. However, since these requirements entail more conditions than have been required in the past, experience with them on individual airplanes might indicate the need for future revisions, particularly with respect to light intensities and coverage. Further, as current research and development programs progress, the question of color of the light might need re-evaluaiton. The Board will consider any necessary changes as might be indicated by future developments.

Interested persons have been afforded an opportunity to participate in the making of this amendment (21 F. R. 3388), and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 3 of the Civil Air Regulations (14 CFR Part 3, as amended) effective April 1, 1957.

1. By amending § 3.700 (a) to read as follows:

§ 3.700 *Position light system installation*—(a) *General.* The provisions of §§ 3.700 through 3.703 shall be applicable to the position light system as a whole. The position light system shall include the items specified in paragraphs (b) through (e) of this section.

2. By amending § 3.700 by deleting paragraph (e) and redesignating paragraph (f) as paragraph (e).

3. By adding a new heading and a new § 3.705 to read as follows:

ANTI-COLLISION LIGHT SYSTEM

§ 3.705 *Anti-collision light system.* An airplane to be eligible for night operation shall have installed an anti-collision light system. Such system shall consist of one or more approved anti-collision lights so located that the emitted light will not be detrimental to the crew's vision and will not detract from the conspicuity of the position lights. The system shall comply with the provisions of paragraphs (a) through (d) of this section.

(a) *Field of coverage.* The system shall consist of such lights as will afford coverage of all vital areas around the airplane with due consideration to the physical configuration and the flight characteristics of the airplane. In any case, the field of coverage shall extend in all directions within 30° above and 30° below the horizontal plane of the airplane, except that a solid angle or angles of obstructed visibility totaling not more than .03 steradians shall be permissible within a solid angle equal to .15 steradians centered about the longitudinal axis in the rearward direction.

(b) *Flashing characteristics.* The arrangement of the system, i. e., number of light sources, beam width, speed of rotation, etc., shall be such as to give an effective flash frequency of not less than 40 and not more than 100 cycles per minute. The effective flash frequency shall be the frequency at which the airplane's complete anti-collision light system is observed from a distance, and shall apply to all sectors of light including the overlaps which might exist when the system consists of more than one light source. In overlaps, flash frequencies higher than 100 cycles per minute shall be permissible, except that they shall not be higher than 180 cycles per minute.

(c) *Color.* The color of the anti-collision lights shall be aviation red in accordance with the specifications of § 3.703 (a).

(d) *Light intensity.* The minimum light intensities in all vertical planes, measured with the red filter and expressed in terms of "effective" intensities, shall be in accordance with Figure 3-18. The following relation shall be assumed:

$$I_e = \frac{\int_{t_1}^{t_2} I(t)\,dt}{0.2 + (t_2 - t_1)};$$

where:

I_e = effective intensity (candles),
$I(t)$ = instantaneous intensity as a function of time,
$t_2 - t_1$ = flash time interval (seconds).

NOTE: Normally, the maximum value of effective intensity is obtained when t_2 and t_1 are so chosen that the effective intensity is equal to the instantaneous intensity at t_2 and t_1.

Angle above or below horizontal plane	Effective intensity (candles)
0° to 5°	100
5° to 10°	60
10° to 20°	20
20° to 30°	10

FIGURE 3-18—Minimum effective intensities for anti-collision lights.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

Effective: April 1, 1957.

Adopted: February 25, 1957.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

[F. R. Doc. 57-1573; Filed, Feb. 28, 1957; 8:52 a. m.]

[Civil Air Regs., Amdt. 4b-4]

PART 4b—AIRPLANE AIRWORTHINESS; TRANSPORT CATEGORIES

POSITION AND ANTI-COLLISION LIGHT REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washintgon, D. C., on the 25th day of February 1957.

The continuing increase in air traffic density and the advent of airplanes capable of appreciably higher speeds than heretofore attained demand further improvement in the exterior lighting of aircraft. The presently effective regulations in Part 4b of the Civil Air Regulations prescribe certain specifications for anti-collision lights and, in addition, require the installation of a position light flasher and prescribe certain specifications for position lights.

The presently effective specifications for anti-collision lights contained in § 4b.637 were established a few years ago. They were based upon conclusions reached from experimentation and studies conducted by both industry and government. The use on a relatively large number of aircraft of lights conforming to these specifications has revealed the need for further modification. Furthermore, during the past year or so experimentation has led to the development of condenser-discharge type lights which appear to have certain advantageous features. The inherent characteristics of such lights, however, do not permit compliance with certain of the specifications presently contained in § 4b.637. The Board considers that both incandescent and condenser-discharge lights have sufficient advantages to permit their use, provided that the design features essential in an effective anti-collision light system are incorporated. Accordingly, § 4b.637 is being amended to include new specifications which establish in more detail the essential features of an anti-collision light and which at the same time are sufficiently broad to permit the use of new lights currently under development.

Experience with anti-collision lights has shown that the relatively high intensity of these lights may have a deleterious effect on the visibility of the position lights, particularly if the latter are flashing. Apparently the flashing of wing and tail position lights, the fuselage lights, and the anti-collision lights is conducive to confusion as regards the direction of flight. Tests have shown that with the presently used system the clearest indication is obtained when, in addition to the flashing anti-collision light, the lighting system is limited to

* When this occurs and when waters of unknown quality are being examined, additional filtrations should be made on volumes ranging downward from the size of the standard sample.

two wing lights and a white tail light, and when these three position lights are on steady. In view of the foregoing, the provisions of § 4b.632 which require fuselage lights, red tail light, and the flasher are being deleted. Concurrently with this amendment, Part 40 of the Civil Air Regulations is being amended to delete the provision for flashing position lights.

These new specifications for anti-collision and position lights will be applicable to all transport category airplanes for which application for type certification is made after the effective date of this amendment. However, the new lighting system may be installed on current airplanes on a voluntary basis.

It is considered that these new requirements set forth necessary and sufficient conditions for anti-collision light systems to provide a reasonable level of safety. However, since these requirements entail more conditions than have been required in the past, experience with them on individual airplanes might indicate the need for future revisions, particularly with respect to light intensities and coverage. Further, as current research and development programs progress, the question of color of the light might need re-evaluation. The Board will consider any necessary changes as might be indicated by future developments.

Interested persons have been afforded an opportunity to participate in the making of this amendment (21 F. R. 3388), and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 4b of the Civil Air Regulations (14 CFR Part 4b, as amended) effective April 1, 1957.

1. By amending § 4b.632 (a) by deleting the paragraph reference "(f)" and inserting in lieu thereof the paragraph reference "(d)".

2. By amending § 4b.632 by deleting paragraphs (d) and (e) and redesignating paragraph (f) as paragraph (d).

3. By amending § 4b.632 (c) to read as follows:

§ 4b.632 *Position light system installation.* * * *

(c) *Rear position light.* The rear position light shall consist of a white light mounted on the airplane as far aft as practicable. The light shall be of an approved type.

4. By amending § 4b.634 by deleting paragraph (c).

5. By amending Figure 4b–18 by deleting the last line from all columns.

6. By amending Figure 4b–20 by deleting the words "or rear red" from the 5th and 6th titles of the first column.

7. By amending § 4b.637 to read as follows:

§ 4b.637 *Anti-collision light system.* An anti-collision light system shall be installed which shall consist of one or more approved anti-collision lights so located that the emitted light will not be detrimental to the crew's vision and will not detract from the conspicuity of the position lights. The system shall comply with the provisions of paragraphs (a) through (d) of this section.

(a) *Field of coverage.* The system shall consist of such lights as will afford coverage of all vital areas around the airplane with due consideration to the physical configuration and the flight characteristics of the airplane. In any case, the field of coverage shall extend in all directions within 30° above and 30° below the horizontal plane of the airplane, except that a solid angle or angles of obstructed visibility totaling not more than 0.03 steradians shall be permissible within a solid angle equal to 0.15 steradians centered about the longitudinal axis in the rearward direction.

(b) *Flashing characteristics.* The arrangement of the system, i. e., number of light sources, beam width, speed of rotation, etc., shall be such as to give an effective flash frequency of not less than 40 and not more than 100 cycles per minute. The effective flash frequency shall be the frequency at which the airplane's complete anti-collision light system is observed from a distance, and shall apply to all sectors of light including the overlaps which might exist when the system consists of more than one light source. In overlaps, flash frequencies higher than 100 cycles per minute shall be permissible, except that they shall not be higher than 180 cycles per minute.

(c) *Color.* The color of the anti-collision lights shall be aviation red in accordance with the specifications of § 4b.635 (a).

(d) *Light intensity.* The minimum light intensities in all vertical planes, measured with the red filter and expressed in terms of "effective" intensities, shall be in accordance with Figure 4b–27. The following relation shall be assumed:

$$I_e=\frac{\int_{t_1}^{t_2} I(t)\,dt}{0.2+(t_2-t_1)};$$

where:

I_e = effective intensity (candles).
$I(t)$ = instantaneous intensity as a function of time.
t_2-t_1 = flash time interval (seconds).

NOTE: Normally, the maximum value of effective intensity is obtained when t_2 and t_1 are so chosen that the effective intensity is equal to the instantaneous intensity at t_2 and t_1.

Angle above or below horizontal plane	Effective intensity (candles)
0° to 5°	100
5° to 10°	60
10° to 20°	20
20° to 30°	10

FIGURE 4b–27—Minimum effective intensities for anti-collision lights.

[Civil Air Regs., Amdt. 6–1]

PART 6—ROTORCRAFT AIRWORTHINESS; NORMAL CATEGORY

POSITION AND ANTI-COLLISION LIGHT REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 25th day of February 1957.

The currently effective provisions of Part 6 of the Civil Air Regulations prescribe certain installational requirements for an exterior lighting system consisting of the three conventional position lights. Experience with the use of anti-collision lights on large airplanes has shown that a significant increase in the conspicuity of aircraft can be attained with such lights during night operations. Although such lights are not required on small rotorcraft by the currently effective provisions of the operating parts of the Civil Air Regulations, many owners and operators of such rotorcraft have elected to install anti-collision lights. In the approval of such installations, the Administrator had made applicable the requirements in § 4b.637 of Part 4b of the Civil Air Regulations in view of the fact that there were no specifications in this part.

Recent studies, with respect to the use of anti-collision lights on all types of aircraft, have indicated the need for broadening the specification in § 4b.637 to permit the use of newly developed lights. As a result of these studies, new specifications for anti-collision lights were developed and are being added to Part 6 by this amendment. These specifications are the same as those being incorporated by a concurrent amendment into Part 7 of the Civil Air Regulations. No differentiation is made between the standards in Part 6 and Part 7 in view of the Board's belief that equal conspicuity should be required for all future aircraft.

The continuing increase in air traffic density and the advent of airplanes capable of appreciably higher speeds than heretofore attained emphasize the need for increased conspicuity for newly designed small airplanes. Therefore, concurrently with this amendment, Part 43 of the Civil Air Regulations is being amended to require the use of anti-collision lights on all small rotorcraft for which application for type certification is made on or after the effective date of this amendment. Such lights will be required to comply with the anti-collision light specifications included in this amendment. These specifications will afford coverage of all vital areas around the rotorcraft with due consideration to the physical configuration and flight characteristics of the rotorcraft.

It is not anticipated that this amendment will affect the basis of approval used in the past by the Administrator with respect to the installation of anti-collision lights on small rotorcraft for which the application for type certification was made prior to the effective date of this amendment. Anti-collision lights which cannot comply with the aforementioned policy of the Administrator may be installed on such older rotorcraft on a voluntary basis if compliance can be shown with the new specifications in this amendment.

Another change being made by this amendment is the deletion of the specifications for the position light system flasher. This deletion is made in view of the belief that when position lights are used with anti-collision lights, steady lights provide important direction and attitude information whereas flashing lights contribute very little to increased conspicuity or to information on direction and attitude.

It is considered that these new requirements set forth necessary and sufficient conditions for anti-collision light systems to provide a reasonable level of safety. However, since these requirements entail more conditions than have been required in the past, experience with them on individual rotorcraft might indicate the need for future revisions, particularly with respect to light intensities and coverage. Further, as current research and development programs progress, the question of color of the light might need re-evaluation. The Board will consider any necessary changes as might be indicated by future developments.

Interested persons have been afforded an opportunity to participate in the making of this amendment (21 F. R. 3388), and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 6 of the Civil Air Regulations (14 CFR Part 6, as amended) effective April 1, 1957.

1. By amending § 6.632 (a) to read as follows:

§ 6.632 *Position light system installation*—(a) *General.* The provisions of §§ 6.632 through 6.635 shall be applicable to the position light system as a whole. The position light system shall include the items specified in paragraphs (b) through (e) of this section.

2. By amending § 6.632 by deleting paragraph (e) and redesignating paragraph (f) as paragraph (e).

3. By adding a new § 6.637 to read as follows:

§ 6.637 *Anti-collision light system.* An airplane to be eligible for night operation shall have installed an anti-collision light system. Such system shall consist of one or more approved anti-collision lights so located that the emitted light will not be detrimental to the crew's vision and will not detract from the conspicuity of the position lights. The system shall comply with the provisions of paragraphs (a) through (d) of this section.

(a) *Field of coverage.* The system shall consist of such lights as will afford coverage of all vital areas around the rotorcraft with due consideration to the physical configuration and flight characteristics of the rotorcraft. In any case, the field of coverage shall extend in all directions within 30° above and 30° below the horizontal plane of the rotorcraft, except that a solid angle or angles of obstructed visibility totaling not more than 0.03 steradians shall be permissible.

(b) *Flashing characteristics.* The arrangement of the system, i. e., number of light sources, beam width, speed of rotation, etc., shall be such as to give an effective flash frequency of not less than 40 and not more than 100 cycles per minute. The effective flash frequency shall be the frequency at which the rotorcraft's complete anti-collision light system is observed from a distance, and shall apply to all sectors of light including the overlaps which might exist when the system consists of more than one light source. In overlaps, flash frequencies higher than 100 cycles per minute shall be permissible, except that they shall not be higher than 180 cycles per minute.

(c) *Color.* The color of the anti-collision lights shall be aviation red in accordance with § 6.635 (a).

(d) *Light intensity.* The minimum light intensities in all vertical planes, measured with the red filter and expressed in terms of "effective" intensities, shall be in accordance with Figure 6–4. The following relation shall be assumed;

$$I_e=\frac{\int_{t_1}^{t_2} I(t)\,dt}{0.2+(t_2-t_1)};$$

where:

I_e = effective intensity (candles),
$I(t)$ = instantaneous intensity as a function of time,
t_2-t_1 = flash time interval (seconds).

NOTE: Normally, the maximum value of effective intensity is obtained when t_2 and t_1 are so chosen that the effective intensity is equal to the instantaneous intensity at t_2 and t_1.

Angle above or below horizontal plane	Effective intensity (candles)
0° to 5°	100
5° to 10°	60
10° to 20°	20
20° to 30°	10

FIGURE 6–4—Minimum effective intensities for anti-collision lights.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

Effective: April 1, 1957.

Adopted: February 25, 1957.

[Civil Air Regs., Amdt. 7–1]

PART 7—ROTORCRAFT AIRWORTHINESS; TRANSPORT CATEGORIES

POSITION AND ANTI-COLLISION LIGHT REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 25th day of February 1957.

The continuing increase in air traffic density and the advent of airplanes capable of appreciably higher speeds than heretofore attained demand further improvement in the exterior lighting of aircraft. The presently effective regulations in Part 7 of the Civil Air Regulations require an approved anti-collision light and, in addition, require the installation of a flasher unit in the position light system.

The presently effective specifications for anti-collision lights were established a few years ago. They were based upon conclusions reached from experimentation and studies conducted by both industry and government. The use on a relatively large number of aircraft of lights conforming to these specifications has revealed the need for further modification. Furthermore, during the past year or so experimentation has led to the development of condenser-discharge type lights which appear to have certain advantageous features. The inherent characteristics of such lights, however, do not permit compliance with certain of the present specifications. The Board considers that both incandescent and condenser-discharge lights have sufficient advantages to permit their use, provided that the design features essential in an effective anti-collision light system are incorporated. Accordingly, § 7.637 is being amended to include new specifications which establish in more detail the essential features of an anti-collision light and which at the same time are sufficiently broad to permit the use of new lights currently under development. These specifications will afford coverage of all vital areas around the rotorcraft with due consideration to the physical configuration and flight characteristics of the rotorcraft.

Experience with anti-collision lights has shown that the relatively high intensity of these lights may have a deleterious effect on the visibility of the position lights, particularly if the latter are flashing. Apparently the flashing of forward and rear position lights, the fuselage lights, and the anti-collision lights is conducive to confusion as regards the direction of flight. Tests have shown that with the presently used system the clearest indication is obtained when, in addition to the flashing anti-collision light, the lighting system is limited to two forward lights and a white rear light, and when these three position lights are on steady. In view of the foregoing, the provisions of § 7.632 which require fuselage lights, red tail light, and the flasher are being deleted. Concurrently with this amendment, Part 40 of the Civil Air Regulations is being amended to delete the provision for flashing position lights.

These new specifications for anti-collision and position lights will be applicable to all transport category rotorcraft for which application for type certification is made after the effective date of this amendment. However, the new lighting system may be installed on current rotorcraft on a voluntary basis.

It is considered that these new requirements set forth necessary and sufficient conditions for anti-collision light systems to provide a reasonable level of safety. However, since these require-

ments entail more conditions than have been required in the past, experience with them on individual rotorcraft might indicate the need for future revisions, particularly with respect to light intensities and coverage. Further, as current research and development programs progress, the question of color of the light might need re-evaluation. The Board will consider any necessary changes as might be indicated by future developments.

Interested persons have been afforded an opportunity to participate in the making of this amendment (21 F. R. 3388), and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 7 of the Civil Air Regulations (14 CFR Part 7, as amended) effective April 1, 1957.

1. By amending § 7.632 (a) by deleting the paragraph reference "(f)" and inserting in lieu thereof the paragraph reference "(d)".

2. By amending § 7.632 by deleting paragraphs (d) and (e) and redesignating paragraph (f) as paragraph (d).

3. By amending § 7.632 (c) to read as follows:

§ 7.632 *Position light system installation.* * * *

(c) *Rear position light.* The rear position light shall consist of a white light mounted on the rotorcraft as far aft as practicable. The light shall be of an approved type.

4. By amending § 7.634 by deleting paragraph (c).

5. By amending Figure 7–1 by deleting the last line from all columns.

6. By amending § 7.637 to read as follows:

§ 7.637 *Anti-collision light system.* An anti-collision light system shall be installed which shall consist of one or more approved anti-collision lights so located that the emitted light will not be detrimental to the crew's vision and will not detract from the conspicuity of the position lights. The system shall comply with the provisions of paragraphs (a) through (d) of this section.

(a) *Field of coverage.* The system shall consist of such lights as will afford coverage of all vital areas around the rotorcraft with due consideration to the physical configuration and the flight characteristics of the rotorcraft. In any case, the field of coverage shall extend in all directions within 30° above and 30° below the horizontal plane of the rotorcraft, except that a solid angle or angles of obstructed visibility totaling not more than 0.03 steradians shall be permissible.

(b) *Flashing characteristics.* The arrangement of the system, i. e., number of light sources, beam width, speed of rotation, etc., shall be such as to give an effective flash frequency of not less than 40 and not more than 100 cycles per minute. The effective flash frequency shall be the frequency at which the rotorcraft's complete anti-collision light system is observed from a distance, and shall apply to all sectors of light including the overlaps which might exist when the system consists of more than one light source. In overlaps, flash frequencies higher than 100 cycles per minute shall be permissible, except that they shall not be higher than 180 cycles per minute.

(c) *Color.* The color of the anti-collision lights shall be aviation red in accordance with § 7.635 (a).

(d) *Light intensity.* The minimum light intensities in all vertical planes, measured with the red filter and expressed in terms of "effective" intensities, shall be in accordance with Figure 7–4. The following relation shall be assumed:

$$I_e = \frac{\int_{t_1}^{t_2} I(t)\,dt}{0.2 + (t_2 - t_1)};$$

where:

I_e = effective intensity (candles),
$I(t)$ = instantaneous intensity as a function of time,
$t_2 - t_1$ = flash time interval (seconds).

NOTE: Normally, the maximum value of effective intensity is obtained when t_2 and t_1 are so chosen that the effective intensity is equal to the instantaneous intensity at t_2 and t_1.

Angle below or above horizontal plane	Effective intensity (candles)
0° to 5°	100
5° to 10°	60
10° to 20°	20
20° to 30°	10

FIGURE 7–4—Minimum effective intensities for anti-collision lights.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

Effective: April 1, 1957.

Adopted: February 25, 1957.

By the Civil Aeronautics Board.

[Civil Air Regs., Amdt. 40–3]

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

POSITION AND ANTI-COLLISION LIGHT REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 25th day of February 1957.

The continuing increase in air traffic density and the advent of aircraft capable of appreciably higher speeds than heretofore attained demand further improvement in the exterior lighting of aircraft. Recent studies with respect to exterior aircraft lighting indicate a need for the establishment of new specifications in the certification parts of the Civil Air Regulations for anti-collision lights.

Since the anti-collision light is a flashing light and in addition has the added advantage of more concentrated intensities which offer conspicuity at a greater distance, the Board believes that flashing position lights will no longer contribute noticeably to the conspicuity of aircraft. It is believed, however, that with the use of the anti-collision lights now required on all air carrier aircraft it becomes important for the position lights to retain their direction and attitude indicating features and this can best be accomplished by maintaining the position lights steady rather than flashing.

Interested persons have been afforded an opportunity to participate in the making of this amendment (21 F. R. 3388), and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) effective April 1, 1957.

1. By amending § 40.200 (a) to read as follows:

§ 40.200 *Instruments and equipment for operations at night.* * * *

(a) Position lights;

2. By amending § 40.200 (b) by deleting the following: "After May 31, 1956,".

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 57–1577; Filed, Feb. 28, 1957; 8:53 a. m.]

[Civil Air Regs., Amdt. 43–5]

PART 43—GENERAL OPERATION RULES

POSITION AND ANTI-COLLISION LIGHT REQUIREMENTS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 25th day of February 1957.

The continuing increase in air traffic density and the advent of aircraft capable of appreciably higher speeds than heretofore attained demand further improvement in the exterior lighting of aircraft. Experience with the use of anti-collision lights on large airplanes has shown that a significant increase in the conspicuity of aircraft can be attained with such lights during night operations. The currently effective provisions of Part 43 of the Civil Air Regulations require the installation of an approved anti-collision light only on large aircraft operated at night.

When the Board promulgated regulations requiring anti-collision lights on large aircraft, it indicated that additional study was being given to the possibility of requiring generally similar types of lights for small aircraft. This amendment, which requires anti-collision lights for the night operation of newly certificated small aircraft, reflects the initial results of such additional study by the Board. Experience gained under this amendment along with results of continued studies should provide a basis for possible regulatory action in the future with respect to requiring anti-collision lights on all small aircraft.

In view of the foregoing, and since there are no requirements in the operating parts of the regulations to require small aircraft to install anti-collision lights, the Board is amending § 43.30 (b) (3) to require their use on all small aircraft for which such lights are required in conjunction with their certification, i. e. all small aircraft for which application for type certification is made after the effective date of this amendment.

Since there are no specifications for anti-collision lights in Parts 3 and 6 of the Civil Air Regulations, amendments to these parts are being promulgated concurrently to provide a basis of approval for such lights as are required by this amendment. Aircraft not affected by this amendment may continue to use or install existing approved anti-collision lights or, optionally, may install anti-collision lights conforming with the new specifications in Parts 3 and 6.

Interested persons have been afforded an opportunity to participate in the making of this amendment (21 F. R. 3388), and due consideration has been given to all relevant matter presented.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 43 of the Civil Air Regulations (14 CFR Part 43, as amended) effective April 1, 1957.

By amending § 43.30 (b) (3) to read as follows:

§ 43.30 *Instruments and equipment for NC powered aircraft or powered aircraft with standard airworthiness certificates.* * * *

(b) *Contact flight rules (night).* * * *

(3) An approved anti-collision light system for aircraft having a maximum certificated weight of more than 12,500 pounds and for all aircraft which are required to have anti-collision light systems installed by the terms of their airworthiness certificate; except that, in the event of failure of any light of such system, the aircraft may continue flight to the next stop where repairs or replacements can be made without undue delay.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 603, 52 Stat. 1007, 1009, as amended; 49 U. S. C. 551, 553)

Effective: April 1, 1957.

Adopted: February 25, 1957.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN, *Secretary.*

[F. R. Doc. 57–1578; Filed, Feb. 28, 1957; 8:54 a. m.]

[Supp. 22]

PART 60—AIR TRAFFIC RULES

FLIGHT TEST AREAS

This supplement is promulgated to implement new § 60.24 of the Civil Air Regulations adopted by the Civil Aeronautics Board, effective February 20, 1957, and published in 22 F. R. 781–782, February 8, 1957. Under the provisions of this regulation, the Administrator of Civil Aeronautics is authorized to designate or approve flight test areas and adopt necessary air traffic rules governing flight test operations within such flight test areas. This supplement provides for the method of making application to the Administrator of Civil Aeronautics for approval of flight test areas and provides traffic rules for operation of aircraft being flight tested in designated flight test areas.

Because of existing conditions requiring immediate action with respect to safety in air commerce, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and is therefore not required.

The following rules and policies are hereby adopted:

§ 60.24–1 *Approval of flight test areas (CAA policies which apply to § 60.24).* Flight test areas will be approved only over open water or sparsely populated areas where the conduct of tests will be a minimum hazard to persons or property. In approving a flight test area, consideration will be given to such factors as the type of flying, air speeds, altitudes involved, the amount of traffic being operated in the area and any other factors essential to safety.

§ 60.24–2 *Application for approval of flight test area (CAA policies which apply to § 60.24).* Any person may apply for approval of a test area by making application in triplicate by letter addressed to the local district office. The application is to contain the following information:

(a) Aeronautical chart showing geographical boundaries of the area to be used (latitude, longitude, highways, railroads, or similar landmarks, readily discernible from operating altitudes).

(b) Hours during which operations are to be conducted.

(c) Conditions for operating: VFR, ceiling, visibility, altitudes, etc.

§ 60.24–3 *Duration and renewal of test area approval (CAA policies which apply to § 60.24).* (a) Approval of a flight test area will be given for a period of 24 months subject to earlier cancellation where the Administrator finds that changed conditions would not justify original approval. Cancellation will be effective upon receipt of written notice from the Administrator or his representatives.

(b) Approval of a flight test area may be renewed by making application in the form prescribed in § 60.24–2. The renewal request need contain only changes made in the original application. Items unchanged should be incorporated by reference.

§ 60.24–4 *Traffic rules for flight test areas designated by the Administrator (CAA rules which apply to § 60.24).* No person shall flight test an aircraft within an area designated[1] by the Administrator for such purposes except in accordance with the following:

(a) *Filing of flight plan.* A flight plan shall be filed with Air Traffic Control and shall contain at least the following information:

(1) Aircraft identification and type.
(2) Proposed departure time.
(3) Estimated duration of flight.
(4) Altitude or altitudes to be used within the test area.
(5) Proposed time of entry and egress from test area.

(b) *Filing of position reports.* IFR flights (in addition to those reports normally required of IFR operations within controlled airspace), and VFR flights with a functioning two-way radio, shall report actual time of entry and egress of the test area.

(c) *Deviation from flight plan.* No person shall deviate from the provisions of his flight plan unless Air Traffic Control is advised in advance.

NOTE: In addition to special traffic rules or procedures prescribed for operations within approved or designated flight test areas, the provisions of CAR 60 are applicable.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

These rules and policies shall become effective March 1, 1957.

[SEAL] S. A. KEMP, *Acting Administrator of Civil Aeronautics.*

[F. R. Doc. 57–1583; Filed, Feb. 28, 1957; 8:56 a. m.]

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 237]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, RADAR, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is cancelled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

[1] Designated flight test areas are those areas, other than approved flight test areas, which are designated after appropriate hearings are conducted through the Airspace Subcommittee of the Air Coordinating Committee, and may be used by any person in accordance with the rules set forth herein.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums				Notes
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots	
					65 knots or less	More than 65 knots		
West Point Intersection	POU-LFR (final)	Direct	2,200	T-dn C-dn A-dn	300–1 600–1½ 800–2	---------- ---------- ----------	---------- ---------- ----------	Procedure turn E side S course*, 208° outbound, 028° inbound, 2,700′ within 10 miles. Not authorized beyond 10 miles. Minimum altitude over facility on final approach course, 2,200′. Course and distance, facility to airport, 002–4.7. If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 4.7 miles, climb to 3,000′ on N course within 20 miles. *Shuttle to 3,000′ on N course within 20 miles. AIR CARRIER NOTE: Use of airport restricted to 65 K or less, 2-engine or less aircraft.

Poughkeepsie, N. Y.; Dutchess County Airport, elevation 166′; facility SBRAZ, identification POU; Procedure No. 1, Amendment No. 8, effective date, Mar. 23, 1957; supersedes Amendment No. 7, dated Aug. 6, 1955

Intersection SW course AUS LFR and N course SRO LFR.	SRO-LFR	Direct	3,000	T-dn C-dn S-dn-17	300–1 500–1 400–1	300–1 500–1 400–1	200–½ 500–1½ 400–1	Procedure turn W side N course, 351° outbound, 171° inbound, 2,000′ within 10 miles. Minimum altitude over facility on final approach course, 1,500′. Course and distance, facility to airport, 167—3.6. If visual contact not established upon descent to authorized landing minimums or if landing not accomplished within 3.6 miles, make right climbing turn, reporting over SRO LFR at 2,000′. Hold at 2,000′ on N course. SRO LFR within 10 miles.

2. The automatic direction finding procedures prescribed in § 609.8 are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums				Notes

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, RADAR, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is cancelled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums				Notes
From—	To—	Course and distance	Minimum altitude (feet)	Condition	2-engine or less		More than 2-engine, more than 65 knots	
					65 knots or less	More than 65 knots		
New York, N. Y.; International Airport, elevation 12'; facility SMRA, identification IDL; Procedure No. 2, Amendment No. 1, effective date, Dec. 8, 1956; supersedes Amendment Original, dated Feb. 1, 1954 PROCEDURE TO BE CANCELLED CONCURRENT WITH THE DECOMMISSIONING OF THE ELMONT FAN MARKER, APPROXIMATELY MARCH 30, 1957.								

2. The automatic direction finding procedures prescribed in § 609.8 are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, RADAR, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is cancelled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses and radials are magnetic. Elevations and altitudes are in feet MSL. Ceilings are in feet above airport elevation. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles.

If an instrument approach procedure of the above type is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitudes shall correspond with those established for en route operation in the particular area or as set forth below.

Transition				Ceiling and visibility minimums			Notes

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 27—COTTON CLASSIFICATION UNDER COTTON FUTURES LEGISLATION

MISCELLANEOUS AMENDMENTS

On February 5, 1957, a notice of proposed rule making was published in the FEDERAL REGISTER (22 F. R. 724) regarding the proposed amendment of §§ 27.14, 27.28, 27.38, 27.39, 27.62, 27.69, 27.70, 27.80, 27.82, 27.85, and 27.86, of the regulations in 7 CFR Part 27, as amended, relating to cotton classification, pursuant to authority contained in section 4863 of the Internal Revenue Code of 1954 (68A Stat. 582; 26 U. S. C. 4863).

After consideration of all relevant matters presented pursuant to the notice, said regulations are amended, as hereinafter stated, effective April 1, 1957, pursuant to authority contained in section 4863 of the Internal Revenue Code cited above.

The primary purposes of the amendments are to (1) provide that effective April 1, 1957, all samples classed by the Agricultural Marketing Service for cotton futures purposes shall become the property of the Government, and (2) adjust the fees charged for classification and Micronaire determination of samples.

The amendments are as follows:

1. Section 27.14 is amended to read:

§ 27.14 *Filing of classification and Micronaire determination requests.* Requests for classification shall be filed with the chairman of the board of cotton examiners through the exchange inspection agency at the point where the cotton is sampled and shall be transmitted to the chairman by the exchange inspection agency in accordance with procedure approved by the Administrator or his representative. If there is no board of cotton examiners at the point where the cotton is sampled, requests shall be filed through a supervisor of cotton inspection or the exchange inspection agency at such point, or at some other place designated in particular cases by the Administrator. Requests for classification shall be filed within 30 days after sampling and before classification of the samples. The applicant may file a request for a review of classification as part of the request for classification. The applicant may file a request for Micronaire determination as part of the request for classification or may file a request for such determination, in a form prescribed by the Service within 7 business days following the date of the first certification of the cotton involved, provided this service has not been previously performed on such cotton, and the request is made prior to delivery of the cotton on a section 4863 contract. Requests for Micronaire determinations may also be filed as provided in §§ 27.62 and 27.63.

2. Section 27.28 is amended to read:

§ 27.28 *Disposition of samples.* Samples representing bales for classification or Micronaire determination, which come into the custody of the Department of Agriculture on or after April 1, 1957, shall become the property of the Department after classification or Micronaire determination and shall be disposed of in accordance with the property regulations of the Department. Samples in the custody of the Department of Agriculture on March 31, 1957, representing bales which are covered by outstanding cotton class certificates issued pursuant to this subpart, will be retained by the Department until the certificates are surrendered for cancellation and will then be made available to the persons who surrender the certificates for cancellation.

3. Section 27.39 is amended to read:

§ 27.39 *Issuance of certificates.* Except as otherwise provided in this paragraph as soon as practicable after the classification of cotton has been completed by a board of cotton examiners the board shall issue a cotton class certificate showing the results of such classification. Each certificate shall bear the date of its issuance and the name of the chairman of the board that classified the cotton. The certificate shall show the identification of the cotton according to the information in the possession of the board, the classification of the cotton according to its grade and length of staple and such other facts as the Administrator may require. As soon as practicable after the Micronaire determination of cotton has been completed by an authorized employee of the Cotton Division, upon request under this subpart, the results of such determination will be certified by the board of cotton examiners or by the Appeal Board of Review Examiners on the classification certificate for the cotton, with the date of issuance of the Micronaire determination, the name of the certifying officer, and such other facts as the Administrator may require. When a request is made for a review of classification and a Micronaire determination, at the same time as the request for initial classification, the board of cotton examiners shall notify the Appeal Board of Review Examiners of the results of the classification and the latter will review the classification and make the Micronaire determination, and notify the Board of Cotton Examiners of the results. The latter will issue a cotton class certificate over the signature of the chairman of the Appeal Board of Review Examiners, showing the results of the review classification (but not the initial classification), the Micronaire determination, the date of issuance of the certificate, and such other facts as the Administrator may require. The certificate of classification and Micronaire determination may be placed directly upon the warehouse receipt covering the cotton involved. The board of cotton examiners or the Appeal Board of Review Examiners may authorize an officer of the Service located at another point to certify the results of any classification or Micronaire determination upon the basis of information furnished by such board, notwithstanding any other provisions of this section.

4. Section 27.62 is amended to read:

§ 27.62 *Conditions for review of classification and for incidental Micronaire determination for original applicant.* The person for whom the classification of cotton has been or is to be performed under this subpart may have a review of such classification by filing a written application therefor before the delivery of such cotton on a section 4863 contract and not later than the expiration of the seventh business day following the date of the first certification of the cotton involved. Such written application may be made at the same time as the request for initial classification. The written application may also include a request for Micronaire determination of the cotton if this service has not been previously performed.

5. Section 27.69 is amended to read:

§ 27.69 *Classification review; notations on certificate.* When a review of classification is made after the issuance of a cotton class certificate, the results of the review classification, the date of issuance of the review classification results, and the signature of the chairman of the Appeal Board of Review Examiners shall be entered on the cotton class certificate. Thereupon the certificate shall be returned to the person who requested the review.

6. Sections 27.70, 27.82, and 27.86 are deleted in their entirety.

7. Section 27.80 is amended to read:

§ 27.80 *Fees; classification and Micronaire determination.* For the initial classification, review of classification, Micronaire determination, and certification of cotton pursuant to this subpart, whether such cotton be tenderable or not, the person requesting these services shall pay fees as follows: (a) If the same request covers initial classification, review of classification, and Micronaire determination, and only the review of classification and Micronaire determination results are to be certified on cotton class certificates covering the cotton involved, the entire fee shall be 60 cents per bale; or (b) under all other conditions the fee for initial classification and certification shall be 25 cents per bale, the fee for review of classification and certification shall be 50 cents per bale, and the fee for Micronaire determination and certification shall be 25 cents per bale.

8. Section 27.85 is amended by deleting the words "or § 27.82."

The foregoing amendments shall become effective April 1, 1957.

(Sec. 4863, 68A Stat. 582; 26 U. S. C. 4863)

Done at Washington, D. C., this 26th day of February 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator,
Agricultural Marketing Service.

[F. R. Doc. 57-1569; Filed, Feb. 28, 1957; 8:52 a. m.]

PART 58—GRADING AND INSPECTION, MINIMUM SPECIFICATIONS FOR APPROVED PLANTS AND STANDARDS FOR GRADES OF DAIRY PRODUCTS

FEES FOR LABORATORY ANALYSES

A notice of proposed amendment to the regulations governing the grading and inspection of dairy products (7 CFR Part 58) was published in the FEDERAL REGISTER on February 5, 1957 (22 F. R. 725) and afforded interested persons the opportunity to submit written data, views or arguments in connection therewith. The amendment hereinafter promulgated is pursuant to authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.). The amendment provides under § 58.45 *Fees for laboratory analyses*, for a slight reduction in fees for certain laboratory tests and sets forth specific fees for certain additional laboratory tests not now included in the regulations.

After consideration of all relevant material presented and the notice of rule making, the amendment hereafter set forth is hereby promulgated to become effective April 1, 1957.

The amendment is as follows:

Change § 58.45 *Fees for laboratory analyses*, as follows:

In paragraph (a) *Dry milk, dry whey*, change one item as follows:

Moisture	1.50

Add the following item:

Bacteriological direct count	1.50

In paragraph (b) *Evaporated milk*, change one item as follows:

Fat	2.00

In paragraph (c) *Sweetened condensed milk*, change one item as follows:

Fat	2.00

In paragraph (d) *Natural cheese*, change to read as follows:

Moisture	2.00
Moisture in duplicate	3.00
Moisture in duplicate and fat (dry basis) complete	5.00
Fat (dry basis) single sample	4.00
Fat (dry basis) for each additional sample in the same shipment	3.00

In paragraph (e) *Process cheese*, change to read as follows:

Moisture	2.00
Moisture and fat (dry basis) complete	4.00

In paragraph (f) *Butter oil (milk fat)*, change one item as follows:

Fat	2.00

In paragraph (g) *Butter*, change to read as follows:

Salt	.50
Moisture	1.50
Fat	2.00
Complete Kohman analysis, single sample	3.50
Complete Kohman analysis (for each additional sample in same shipment	2.50

Add the following items to paragraph (h) *Bacteriological analyses and other specified determinations with respect to individual tests for one factor:*

Phosphatase test	1.00
Storch test	1.00

Include a new paragraph (i) *Ice cream* with items as follows:

Fat	2.00
Total solids	1.50
Bacteriological plate count	1.50
Coliform (presumptive)	1.50
Net weight	.50

Include a new paragraph (j) *Fluid milk* with items as follows:

Fat (Babcock)	1.00
Milk solids not fat	1.50
Bacteriological plate count	1.50
Bacteriological direct count	1.50
Cryoscope test for added water	1.50
Coliform (presumptive)	1.50

(60 Stat. 1090; 7 U. S. C. 1624)

Done at Washington, D. C. this 26th day of February 1957.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[F. R. Doc. 57-1570; Filed, Feb. 28, 1957; 8:52 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6226]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

ACCOUNTING PERIODS AND METHODS OF ACCOUNTING

On October 12, 1956, notice of proposed rule making with respect to regulations under subchapter E, part I (relating to accounting periods), of the Internal Revenue Code of 1954, was published in the FEDERAL REGISTER (21 F. R. 7798). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the regulations as so published are hereby adopted as set forth below, subject to the following changes:

PARAGRAPH 1. Section 1.441–1 (b) (3) is revised.

PAR. 2. The first sentence in § 1.441–2 (a) is revised by deleting "section 441 (c)" and inserting in lieu thereof "section 441 (f)".

PAR. 3. The second sentence in § 1.441–2 (b) (1) is revised by inserting the phrase "to the computation of tax" following the word "apply".

PAR. 4. Section 1.441–2 (c) (3) (iii) is revised by deleting the words "last occurs" and inserting in lieu thereof the word "falls".

PAR. 5. The third sentence in § 1.441–2 (c) (5) is revised by inserting the words "is not a separate taxable year but" following the words "such short period".

PAR. 6. Section 1.441–2 (d) is revised.

PAR. 7. The fourth sentence in § 1.442–1 (a) (1) is revised.

PAR. 8. Section 1.442–1 (b) is revised.

PAR. 9. Section 1.442–1 (c) (2) (i) is revised.

PAR. 10. Section 1.442–1 (c) (2) (iv) is revised.

PAR. 11. A new subparagraph (v) is inserted in paragraph (c) of § 1.442–1, after subdivision (iv) of subparagraph (2) of that paragraph.

PAR. 12. Section 1.442–1 (d) is revised.

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

Approved: February 26, 1957.

DAN THROOP SMITH,
Deputy to the Secretary.

The regulations set forth below are hereby prescribed under sections 441, 442, and 443 of the Internal Revenue Code of 1954. Except as otherwise stated in the regulations, the rules are applicable for taxable years beginning after December 31, 1953, and ending after August 16, 1954:

Sec.
1.441 Statutory provisions; period for computation of taxable income.
1.441–1 Period for computation of taxable income.
1.441–2 Election of year consisting of 52–53 weeks.
1.442 Statutory provisions; change of annual accounting period.
1.442–1 Change of annual accounting period.
1.443 Statutory provisions; returns for a period of less than 12 months.
1.443–1 Returns for periods of less than 12 months.

AUTHORITY: §§ 1.441 to 1.443–1 issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805.

ACCOUNTING PERIODS AND METHODS OF ACCOUNTING

ACCOUNTING PERIODS

§ 1.441 *Statutory provisions; period for computation of taxable income.*

SEC. 441. *Period for computation of taxable income*—(a) *Computation of taxable income.* Taxable income shall be computed on the basis of the taxpayer's taxable year.

(b) *Taxable year.* For purposes of this subtitle, the term "taxable year" means—

(1) The taxpayer's annual accounting period, if it is a calendar year or a fiscal year;

(2) The calendar year, if subsection (g) applies; or

(3) The period for which the return is made, if a return is made for a period of less than 12 months.

(c) *Annual accounting period.* For purposes of this subtitle, the term "annual accounting period" means the annual period on the basis of which the taxpayer regularly computes his income in keeping his books.

(d) *Calendar year.* For purposes of this subtitle, the term "calendar year" means a period of 12 months ending on December 31.

(e) *Fiscal year.* For purposes of this subtitle, the term "fiscal year" means a period of 12 months ending on the last day of any month other than December. In the case of any taxpayer who has made the election provided by subsection (f), the term means the annual period (varying from 52 to 53 weeks) so elected.

(f) *Election of year consisting of 52–53 weeks*—(1) *General rule.* A taxpayer who, in keeping his books, regularly computes his income on the basis of an annual period which varies from 52 to 53 weeks and ends always on the same day of the week and ends always—

(A) On whatever date such same day of the week last occurs in a calendar month, or

(B) On whatever date such same day of the week falls which is nearest to the last day of a calendar month,

may (in accordance with the regulations prescribed under paragraph (3)) elect to

compute his taxable income for purposes of this subtitle on the basis of such annual period. This paragraph shall apply to taxable years ending after the date of the enactment of this title.

(2) *Special rules for 52–53-week year*—(A) *Effective dates.* In any case in which the effective date or the applicability of any provision of this title is expressed in terms of taxable years beginning or ending with reference to a specified date which is the first or last day of a month, a taxable year described in paragraph (1) shall (except for purposes of the computation under section 21) be treated—

(i) As beginning with the first day of the calendar month beginning nearest to the first day of such taxable year, or

(ii) As ending with the last day of the calendar month ending nearest to the last day of such taxable year,

as the case may be.

(B) *Change in accounting period.* In the case of a change from or to a taxable year described in paragraph (1)—

(i) If such change results in a short period (within the meaning of section 443) of 359 days or more, or of less than 7 days, section 443 (b) (relating to alternative tax computation) shall not apply;

(ii) If such change results in a short period of less than 7 days, such short period shall, for purposes of this subtitle, be added to and deemed a part of the following taxable year; and

(iii) If such change results in a short period to which subsection (b) of section 443 applies, the taxable income for such short period shall be placed on an annual basis for purposes of such subsection by multiplying such income by 365 and dividing the result by the number of days in the short period, and the tax shall be the same part of the tax computed on the annual basis as the number of days in the short period is of 365 days.

(3) *Regulations.* The Secretary or his delegate shall prescribe such regulations as he deems necessary for the application of this subsection.

(g) *No books kept; no accounting period.* Except as provided in section 443 (relating to returns for periods of less than 12 months), the taxpayer's taxable year shall be the calendar year if—

(1) The taxpayer keeps no books;

(2) The taxpayer does not have an annual accounting period; or

(3) The taxpayer has an annual accounting period, but such period does not qualify as a fiscal year.

§ 1.441–1 *Period for computation of taxable income*—(a) *Computation of taxable income.* Taxable income shall be computed and a return shall be made for a period known as the "taxable year." For rules relating to methods of accounting, the taxable year for which items of gross income are included and deductions are taken, inventories, and adjustments, see sections 446 to 482, inclusive, and the regulations thereunder.

(b) *Taxable year.* (1) The term "taxable year" means—

(i) The taxpayer's annual accounting period, if it is a calendar year or a fiscal year;

(ii) The calendar year, if section 441 (g) (relating to taxpayers who keep no books or have no accounting period) applies; or

(iii) The period for which the return is made, if the return is made under section 443 for a period of less than 12 months, referred to as a "short period."

(2) A taxable year may not cover a period of more than 12 calendar months except in the case of a 52–53-week taxable year. See § 1.441–2.

(3) A new taxpayer in his first return may adopt any taxable year which meets the requirements of section 441 and this section without obtaining prior approval. The first taxable year of a new taxpayer must be adopted on or before the time prescribed by law (not including extensions) for the filing of the return for such taxable year. However, for rules applicable to the adoption of a taxable year by a partnership, see § 1.442–1 (b) (2), section 706 (b), and § 1.706–1 (b). For rules applicable to the taxable year of a member of an affiliated group which makes a consolidated return, see §§ 1.1502–14 and 1.442–1 (d).

(4) After a taxpayer has adopted a calendar or a fiscal year, he must use it in computing his taxable income and making his returns for all subsequent years unless prior approval is obtained from the Commissioner to make a change or unless a change is otherwise permitted under the internal revenue laws or regulations. See section 442 and § 1.442–1. For rules applicable to changes in taxable years of partners and partnerships, see also section 706 (b) and § 1.706–1 (b).

(c) *Annual accounting period.* The term "annual accounting period" means the annual period (calendar year or fiscal year) on the basis of which the taxpayer regularly computes his income in keeping his books.

(d) *Calendar year.* The term "calendar year" means a period of 12 months ending on December 31. A taxpayer who has not established a fiscal year must make his return on the basis of a calendar year.

(e) *Fiscal year.* (1) The term "fiscal year" means—

(i) A period of 12 months ending on the last day of any month other than December, or

(ii) The 52–53-week annual accounting period, if such period has been elected by the taxpayer.

(2) A fiscal year will be recognized only if it is established as the annual accounting period of the taxpayer and only if the books of the taxpayer are kept in accordance with such fiscal year.

(f) *Election of year consisting of 52–53 weeks.* For rules relating to the 52–53-week taxable year, see § 1.441–2.

(g) *No books kept; no accounting period.* Except in the case of a short period under section 443, the taxpayer's taxable year shall be the calendar year if—

(1) The taxpayer keeps no books;

(2) The taxpayer does not have an annual accounting period (as defined in section 441 (c) and paragraph (c) of this section); or

(3) The taxpayer has an annual accounting period, but such period does not qualify as a fiscal year (as defined in section 441 (e) and paragraph (e) of this section).

For the purposes of subparagraph (1) of this paragraph, the keeping of books does not require that records be bound. Records which are sufficient to reflect income adequately and clearly on the basis of an annual accounting period will be regarded as the keeping of books. A taxpayer whose taxable year is required to be a calendar year under section 441 (g) and this paragraph may not adopt a fiscal year without obtaining prior approval from the Commissioner since such adoption is treated as a change of annual accounting period. See section 442 and § 1.442–1 (a) (2).

§ 1.441–2 *Election of year consisting of 52–53 weeks*—(a) *General rule.* Section 441 (f) provides, in general, that a taxpayer may elect to compute his taxable income on the basis of a fiscal year which—

(1) Varies from 52 to 53 weeks.

(2) Ends always on the same day of the week, and

(3) Ends always on—

(i) Whatever date this same day of the week last occurs in a calendar month, or

(ii) Whatever date this same day of the week falls which is nearest to the last day of the calendar month.

For example, if the taxpayer elects a taxable year ending always on the last Saturday in November, then for the year 1956, the taxable year would end on November 24, 1956. On the other hand, if the taxpayer had elected a taxable year ending always on the Saturday nearest to the end of November, then for the year 1956, the taxable year would end on December 1, 1956. Thus, in the case of a taxable year described in (3) (i), the year will always end within the month and may end on the last day of the month, or as many as six days before the end of the month. In the case of a taxable year described in (3) (ii), the year may end on the last day of the month, or as many as three days before or three days after the last day of the month.

(b) *Application of effective dates.* (1) For the purpose of determining the effective date for the applicability of any provision of this title which is expressed in terms of taxable years beginning or ending with reference to the first or last day of a specified calendar month, including the time for filing returns and other documents, paying tax, or performing other acts, a 52–53-week taxable year is deemed to begin on the first day of the calendar month beginning nearest to the first day of the 52–53-week taxable year, and is deemed to end or close on the last day of the calendar month ending nearest to the last day of the 52–53-week taxable year, as the case may be. The preceding sentence does not apply to the computation of the tax if subparagraph (2) of this paragraph, relating to the computation under section 21 of the effect of changes in rates of tax during a taxable year, applies. The provisions of this subparagraph may be illustrated by the following examples:

Example (1). Assume that an income tax provision is applicable to taxable years beginning on or after January 1, 1957. For that purpose, a 52–53-week taxable year beginning on any day within the period December 26, 1956, to January 4, 1957, inclusive, shall be treated as beginning on January 1, 1957.

Example (2). Assume that an income tax provision requires that a return must be filed on or before the 15th day of the third month following the close of the taxable year. For that purpose, a 52–53-week taxable year ending on any day during the period May 25 to June 3, inclusive, shall be treated as ending on May 31, the last day of the month ending nearest to the last day of the taxable year, and the return, therefore, must be made on or before August 15.

(2) If a change in the rate of tax is effective during a 52–53-week taxable year (other than on the first day of such year as determined under subparagraph (1) of this paragraph), the tax for the 52–53-week taxable year shall be computed in accordance with section 21, relating to effect of changes, and the regulations thereunder. For the purpose of the computation under section 21, the determination of the number of days in the period before the change, and in the period on and after the change, is to be made without regard to the provisions of subparagraph (1) of this paragraph. The provisions of this subparagraph may be illustrated by the following examples:

Example (1). Assume a change in the rate of tax is effective for taxable years beginning after June 30, 1956. For a 52–53-week taxable year beginning on Wednesday, November 2, 1955, the tax must be computed on the basis of the old rates for the actual number of days, from November 2, 1955, to June 30, 1956, inclusive, and on the basis of the new rates for the actual number of days from July 1, 1956, to Tuesday, October 30, 1956, inclusive.

Example (2). Assume a change in the rate of tax for taxable years beginning after June 30. For this purpose, a 52–53-week taxable year beginning on any of the days from June 25 to July 4, inclusive, is treated as beginning on July 1. Therefore, no computation under section 21 will be required for such year because of the change in rate.

(c) *Adoption of or change to or from 52–53-week taxable year.* (1) A new taxpayer may adopt the 52–53-week taxable year for his first taxable year if he keeps his books and computes his income on that basis, or if he conforms his books accordingly in closing them. The taxpayer must thereafter keep his books and report his income on the basis of the 52–53-week taxable year so adopted unless prior approval for a change is obtained from the Commissioner. See subparagraph (4) of this paragraph. The taxpayer shall file with his return for his first taxable year a statement containing the information required in subparagraph (3) of this paragraph. A newly-formed partnership may adopt a 52–53-week taxable year without the permission of the Commissioner only if such a year ends either with reference to the same month in which the taxable years of all its principal partners end or with reference to the month of December. See § 1.706–1 (b) (1).

(2) A taxpayer, including a partnership, may change to a 52–53-week taxable year without the permission of the Commissioner if the 52–53-week taxable year ends with reference to the end of the same calendar month as that in which the former taxable year ended, and if the taxpayer keeps his books and computes his income for the year of change on the basis of such 52–53-week taxable year, or if he conforms his books accordingly in closing them. The taxpayer must continue to keep his books and compute his income on the basis of such 52–53-week taxable year unless prior approval for a change is obtained. See subparagraph (4) of this paragraph. The taxpayer shall indicate his election to change to such 52–53-week taxable year by a statement filed with his return for the first taxable year for which the election is made. This statement shall contain the information required in subparagraph (3) of this paragraph.

(3) The statement referred to in subparagraphs (1) and (2) of this paragraph shall contain the following information:

(i) The calendar month with reference to which the new 52–53-week taxable year ends;

(ii) The day of the week on which the 52–53-week taxable year always will end; and

(iii) Whether the 52–53-week taxable year will always end on (*a*) the date on which such day of the week falls in the calendar month, or (*b*) on the date on which such day of the week last occurs which is nearest to the last day of such calendar month.

(4) Where a taxpayer wishes to change to a 52–53-week taxable year and, in addition, wishes to change the month with reference to which the taxable year ends, or where a taxpayer wishes to change from a 52–53-week taxable year, he must obtain prior approval from the Commissioner, as provided in section 442 and § 1.442–1.

(5) If a change from or to a 52–53-week taxable year results in a short period (within the meaning of section 443) of 359 days or more, or six days or less, the tax computation under section 443 (b) shall not apply. If the short period is 359 days or more, it shall be treated as a full taxable year. If the short period is six days or less, such short period is not a separate taxable year but shall be added to and deemed a part of the following taxable year. (In the case of a change from or to a 52–53-week taxable year not involving a change of the month with reference to which the taxable year ends, the tax computation under section 443 (b) does not apply since the short period will always be 359 days or more, or six days or less.) In the case of a short period which is more than six days, but less than 359 days, taxable income for the short period shall be placed on an annual basis for the purpose of section 443 (b) by multiplying such income by 365 and dividing the result by the number of days in the short period. In such case, the tax for the short period shall be the same part of the tax computed on such income placed on an annual basis as the number of days in the short period is of 365 days (unless section 443 (b) (2) and § 1.443–1 (b) (2), relating to the alternative tax computation, apply). For adjustment in deduction for personal exemption, see section 443 (c) and § 1.443–1 (b) (1) (v).

(6) The provisions of subparagraph (5) are illustrated by the following examples:

Example (1). A taxpayer having a fiscal year ending April 30 elects for years beginning after April 30, 1955, a 52–53-week taxable year ending on the last Saturday in April. This election involves a short period of 364 days, from May 1, 1955, to April 28, 1956, inclusive. Since this short period is 359 days or more, it is not placed on an annual basis and is treated as a full taxable year.

Example (2). Assume the same conditions as in example (1), except that the taxpayer elects for years beginning after April 30, 1955, a taxable year ending on the Tuesday nearest to April 30. This election involves a short period of three days, from May 1 to May 3, 1955. Since this short period is less than seven days, tax is not separately computed for it. This short period is added to and deemed part of the following 52-week taxable year which would otherwise begin on May 4, 1955, and end on May 1, 1956. Thus, that taxable year is deemed to begin on May 1, 1955, and end on May 1, 1956.

(d) *Computation of taxable income.* The principles of section 451, relating to the taxable year for inclusion of items of gross income, and section 461, relating to the taxable year for taking deductions, are generally applicable to 52–53-week taxable years. Thus, items of income and deductions are determined on the basis of a 52–53-week taxable year, except that such items may be determined as though the 52–53-week taxable year were a taxable year consisting of 12 calendar months if such practice is consistently followed by the taxpayer and if income is clearly reflected thereby. In the case of depreciation, unless some other practice is consistently followed, the allowance shall be determined as though the 52–53-week year were a taxable year consisting of 12 calendar months. Amortization deductions for the taxable year shall be determined as though the 52–53-week year were a taxable year consisting of 12 calendar months.

(e) *Taxable years beginning before January 1, 1954, and ending after August 16, 1954.* Pursuant to section 7851 (a) (1) (C), the regulations prescribed in this section relating to taxable years consisting of 52–53 weeks, shall also apply to taxable years beginning before January 1, 1954, and ending after August 16, 1954, which years are subject to the Internal Revenue Code of 1939.

§ 1.442 *Statutory provisions; change of annual accounting period.*

SEC. 442. *Change of annual accounting period.* If a taxpayer changes his annual accounting period, the new accounting period shall become the taxpayer's taxable year only if the change is approved by the Secretary or his delegate. For purposes of this subtitle, if a taxpayer to whom section 441 (g) applies adopts an annual accounting period (as defined in section 441 (c)) other than a calendar year, the taxpayer shall be treated as having changed his annual accounting period.

§ 1.442–1 (a) *Change of annual accounting period*—(1) *In general.* If a taxpayer wishes to change his annual accounting period (as defined in section 441 (c)) and adopt a new taxable year (as defined in section 441 (b)), he must obtain prior approval from the Commissioner by application, as provided in paragraph (b) of this section, or the change must be authorized under the Income Tax Regulations. A new taxpayer who adopts an annual accounting period as provided in section 441 and

§§ 1.441–1 or 1.441–2 need not secure the permission of the Commissioner under section 442 and this section. However, see subparagraph (2) of this paragraph. For adoption of and changes to or from a 52–53-week taxable year, see section 441 (f) and § 1.441–2; for adoption of and changes in the taxable years of partners and partnerships, see paragraph (b) (2) of this section, section 706 (b) and § 1.706–1 (b); for special rules relating to certain corporations, subsidiary corporations, and newly married couples, see paragraphs (c), (d), and (e), respectively, of this section.

(2) *Taxpayers to whom section 441 (g) applies.* Section 441 (g) provides that if a taxpayer keeps no books, does not have an annual accounting period, or has an accounting period which does not meet the requirements for a fiscal year, his taxable year shall be the calendar year. If section 441 (g) applies to a taxpayer, the adoption of a fiscal year will be treated as a change in his annual accounting period under section 442. Therefore, such fiscal year can become the taxpayer's taxable year only with the approval of the Commissioner. Approval of any such change will be denied unless the taxpayer agrees in his application to establish and maintain accurate records of his taxable income for the short period involved in the change and for the fiscal year proposed. The keeping of records which adequately and clearly reflect income for the taxable year constitutes the keeping of books within the meaning of section 441 (g) and § 1.441–1 (g).

(b) *Prior approval of the Commissioner*—(1) *In general.* In order to secure prior approval of a change of a taxpayer's annual accounting period, the taxpayer must file an application on Form 1128 with the Commissioner of Internal Revenue, Washington 25, D. C., on or before the last day of the month following the close of the short period for which a return is required to effect the change of accounting period. In general, a change of annual accounting period will be approved where the taxpayer establishes a substantial business purpose for making the change. In determining whether a taxpayer has established a substantial business purpose for making the change, consideration will be given to all the facts and circumstances relating to the change, including the tax consequences resulting therefrom. If the effect of the change is to defer a substantial portion of the taxpayer's income, or to shift a substantial portion of deductions, from one-year to another so as to reduce substantially the tax liability of the taxpayer, the change will ordinarily not be approved. Further, approval will ordinarily be denied if the effect of the change is to cause a similar deferral or shifting in the case of another taxpayer, such as a partner, beneficiary, etc., so as to reduce substantially such other taxpayer's tax liability. In addition, a change will ordinarily not be approved if the short period resulting from the change is one in which there is a net operating loss. Among the non-tax factors that will be considered in determining whether a substantial business purpose has been established is the effect of the change on the taxpayer's annual cycle of business activity. However, even though a substantial business purpose is not established, the Commissioner in appropriate cases may permit a husband and wife to change his or her taxable year in order to secure the benefits of section 2 (relating to tax in case of joint return). See paragraph (e) of this section for special rule for newly married couples.

(2) *Partnerships and partners.* (i) A newly-formed partnership may adopt a taxable year which is the same as the taxable year of all its principal partners (or is the same taxable year to which its principal partners who do not have such taxable year concurrently change) without securing prior approval from the Commissioner. If all its principal partners are not on the same taxable year, a newly-formed partnership may adopt a calendar year without securing prior approval from the Commissioner. If a newly-formed partnership wishes to adopt a taxable year that does not qualify under the preceding two sentences, the adoption of such year requires the prior approval of the Commissioner in accordance with section 706 (b) (1) and § 1.706–1 (b). An existing partnership may change its taxable year without securing prior approval from the Commissioner if all its principal partners have the same taxable year to which the partnership changes, or if all its principal partners who do not have such a taxable year concurrently change to such taxable year. In any other case, an existing partnership may not change its taxable year unless it secures the prior approval of the Commissioner in accordance with paragraph (b) (1) of this section and section 706 (b) (1) and § 1.706–1 (b).

(ii) A partner may change his taxable year only if he secures the prior approval of the Commissioner in accordance with paragraph (b) (1) of this section.

(c) *Special rule for certain corporations.* (1) A corporation may change its annual accounting period without the prior approval of the Commissioner if all the conditions in subparagraph (2) of this paragraph are met, and if the corporation files a statement with the district director of internal revenue with whom the returns of the corporation are filed at or before the time (including extensions) for filing the return for the short period required by such change. This statement shall indicate that the corporation is changing its annual accounting period under § 1.442–1 (c) and shall contain information indicating that all of the conditions in subparagraph (2) of this paragraph have been met.

(2) The provisions of this paragraph do not apply unless all of the following conditions are met:

(i) The corporation has not changed its annual accounting period at any time within the ten calendar years ending with the calendar year which includes the beginning of the short period required to effect the change of annual accounting period;

(ii) The short period required to effect the change of annual accounting period is not a taxable year in which the corporation has a net operating loss as defined in section 172;

(iii) The taxable income of the corporation for the short period required to effect the change of annual accounting period is, if placed on an annual basis (see § 1.443–1 (b) (1) (i) and (ii)), 80 percent or more of the taxable income of the corporation for the taxable year immediately preceding such short period; and

(iv) If a corporation had a special status (described in the following sentence) either for the short period or for the taxable year immediately preceding such short period, it must have the same special status for both the short period and such taxable year. For the purpose of the preceding sentence, special status includes only: a personal holding company, a foreign personal holding company, a corporation which is an exempt organization, a foreign corporation not engaged in trade or business within the United States, a Western Hemisphere trade corporation, and a China Trade Act corporation.

(3) If the Commissioner finds upon examination of the returns that the corporation, because of subsequent adjustments in establishing tax liability, did not in fact meet all the conditions in subparagraph (2) of this paragraph, the statement filed under subparagraph (1) of this paragraph shall be considered as a timely application for permission to change the corporation's annual accounting period to the taxable year indicated in the statement.

(d) *Special rule for change of annual accounting period by subsidiary corporation.* A subsidiary corporation which is required to change its annual accounting period under § 1.1502–14, relating to the accounting period of an affiliated group which files a consolidated income tax return, may do so by filing Form 1128 with the district director with whom the consolidated return is filed. Such form shall be filed in accordance with that section. See also §§ 1.1502–13 (h) and 1.1502–32.

(e) *Special rule for newly married couples.* (1) A newly married husband or wife may change his or her annual accounting period in order to adopt the annual accounting period of the other spouse so that a joint return may be filed for the first or second taxable year of such spouse ending after the date of marriage, provided that the newly married husband or wife adopting the annual accounting period of the other spouse files a return for the short period required by such change on or before the 15th day of the 4th month following the close of such short period. See section 443 and the regulations thereunder. (If the due date for any such short-period return occurs before the date of marriage, the first taxable year of the other spouse ending after the date of marriage cannot be adopted under this paragraph.) The short-period return shall contain a statement that it is filed under authority of § 1.442–1 (e). For a change of annual accounting period by a husband or wife which does not qualify under this subparagraph, see paragraph (b) of this section.

(2) The provisions of this paragraph may be illustrated by the following example:

Example. H & W marry on September 25, 1956. H is on a fiscal year ending June 30, and W is on a calendar year. H wishes to change to a calendar year in order to file joint returns with W. W's first taxable year after marriage ends on December 31, 1956. H may not change to a calendar year for 1956 since, under § 1.442–1 (e), he would have had to file a return for the short period from July 1 to December 31, 1955, by April 15, 1956. Since the date of marriage occurred subsequent to this due date, the return could not be filed under § 1.442–1 (e). Therefore, H cannot change to a calendar year for 1956. However, H may change to a calendar year for 1957 by filing a return under § 1.442–1 (e) by April 15, 1957, for the short period from July 1 to December 31, 1956. If H files such a return, H and W may file a joint return for calendar year 1957 (which is W's second taxable year ending after the date of marriage).

(f) *Effective date.* The provisions of this section (other than paragraph (e) thereof) are effective for any change of annual accounting period where the last day of the short period to effect the change ends on or after the date the regulations under section 442 are published in the FEDERAL REGISTER.

§ 1.443 *Statutory provisions; returns for a period of less than 12 months.*

SEC. 443 *Returns for a period of less than 12 months*—(a) *Returns for short period.* A return for a period of less than 12 months (referred to in this section as "short period") shall be made under any of the following circumstances:

(1) *Change of annual accounting period.* When the taxpayer, with the approval of the Secretary or his delegate, changes his annual accounting period. In such a case, the return shall be made for the short period beginning on the day after the close of the former taxable year and ending at the close of the day before the day designated as the first day of the new taxable year.

(2) *Taxpayer not in existence for entire taxable year.* When the taxpayer is in existence during only part of what would otherwise be his taxable year.

(3) *Termination of taxable year for jeopardy.* When the Secretary or his delegate terminates the taxpayer's taxable year under section 6851 (relating to tax in jeopardy).

(b) *Computation of tax on change of annual accounting period*—(1) *General rule.* If a return is made under paragraph (1) of subsection (a), the taxable income for the short period shall be placed on an annual basis by multiplying such income by 12 and dividing the result by the number of months in the short period. The tax shall be the same part of the tax computed on the annual basis as the number of months in the short period is of 12 months.

(2) *Exception*—(A) *Computation based on 12-month period.* If the taxpayer applies for the benefits of this paragraph and establishes the amount of his taxable income for the 12-month period described in subparagraph (B), computed as if that period were a taxable year and under the law applicable to that year, then the tax for the short period, computed under paragraph (1), shall be reduced to the greater of the following:

(i) An amount which bears the same ratio to the tax computed on the taxable income for the 12-month period as the taxable income computed on the basis of the short period bears to the taxable income for the 12-month period; or

(ii) The tax computed on the taxable income for the short period without placing the taxable income on an annual basis.

The taxpayer (other than a taxpayer to whom subparagraph (B) (ii) applies) shall compute the tax and file his return without the application of this paragraph.

(B) *12-month period.* The 12-month period referred to in subparagraph (A) shall be—

(i) The period of 12 months beginning on the first day of the short period, or

(ii) The period of 12 months ending at the close of the last day of the short period, if at the end of the 12 months referred to in clause (i) the taxpayer is not in existence or (if a corporation) has theretofore disposed of substantially all of its assets.

(C) *Application for benefits.* Application for the benefits of this paragraph shall be made in such manner and at such time as the regulations prescribed under subparagraph (D) may require; except that the time so prescribed shall not be later than the time (including extensions) for filing the return for the first taxable year which ends on or after the day which is 12 months after the first day of the short period. Such application, in case the return was filed without regard to this paragraph, shall be considered a claim for credit or refund with respect to the amount by which the tax is reduced under this paragraph.

(D) *Regulations.* The Secretary or his delegate shall prescribe such regulations as he deems necessary for the application of this paragraph.

(c) *Adjustment in deduction for personal exemption.* In the case of a taxpayer other than a corporation, if a return is made for a short period by reason of subsection (a) (1) and if the tax is not computed under subsection (b) (2), then the exemptions allowed as a deduction under section 151 (and any deduction in lieu thereof) shall be reduced to amounts which bear the same ratio to the full exemptions as the number of months in the short period bears to 12.

(d) *Cross references.* For inapplicability of subsection (b) in computing—

(1) Accumulated earnings tax, see section 536.

(2) Personal holding company tax, see section 546.

(3) Undistributed foreign personal holding-company income, see section 557.

(4) The taxable income of a regulated investment company, see section 852 (b) (2) (E).

§ 1.443–1 *Returns for periods of less than 12 months*—(a) *Returns for short period.* A return for a short period, that is, for a taxable year consisting of a period of less than 12 months, shall be made under any of the following circumstances:

(1) *Change of annual accounting period.* In the case of a change in the annual accounting period of a taxpayer, a separate return must be filed for the short period of less than 12 months beginning with the day following the close of the old taxable year and ending with the day preceding the first day of the new taxable year. However, such a return is not required for a short period of six days or less, or 359 days or more, resulting from a change from or to a 52–53-week taxable year. See section 441 (f) and § 1.441–2. The computation of the tax for a short period required to effect a change of annual accounting period is described in paragraph (b) of this section. In general, a return for a short period resulting from a change of annual accounting period shall be filed and the tax paid within the time prescribed for filing a return for a taxable year of 12 months ending on the last day of the short period. For a subsidiary corporation required to change its annual accounting period under § 1.1502–14, see §§ 1.1502–13, 1.1502–32, and 1.442–1 (d).

(2) *Taxpayer not in existence for entire taxable year.* If a taxpayer is not in existence for the entire taxable year, a return is required for the short period during which the taxpayer was in existence. For example, a corporation organized on August 1 and adopting the calendar year as its annual accounting period is required to file a return for the short period from August 1 to December 31, and returns for each calendar year thereafter. Similarly, a dissolving corporation which files its returns for the calendar year is required to file a return for the short period from January 1 to the date it goes out of existence. Income for the short period is not required to be annualized if the taxpayer is not in existence for the entire taxable year, and, in the case of a taxpayer other than a corporation, the deduction under section 151 for personal exemptions (or deductions in lieu thereof) need not be reduced under section 443 (c). In general, the requirements with respect to the filing of returns and the payment of tax for a short period where the taxpayer has not been in existence for the entire taxable year are the same as for the filing of a return and the payment of tax for a taxable year of 12 months ending on the last day of the short period. Although the return of a decedent is a return for the short period beginning with the first day of his last taxable year and ending with the date of his death, the filing of a return and the payment of tax for a decedent may be made as though the decedent had lived throughout his last taxable year.

(3) *Termination of taxable year for jeopardy.* A return must be filed for a short period resulting from the termination by the Commissioner of a taxpayer's taxable year for jeopardy. See section 6851 and the regulations thereunder.

(b) *Computation of tax for short period on change of annual accounting period*—(1) *General rule.* (i) If a return is made for a short period resulting from a change of annual accounting period, the taxable income for the short period shall be placed on an annual basis by multiplying such income by 12 and dividing the result by the number of months in the short period. Unless section 443 (b) (2) and subparagraph (2) of this paragraph apply, the tax for the short period shall be the same part of the tax computed on the annual basis as the number of months in the short period is of 12 months.

(ii) If a return is made for a short period of more than 6 days, but less than 359 days, resulting from a change from or to a 52–53-week taxable year, the taxable income for the short period shall be annualized and the tax computed on a daily basis, as provided in section 441 (f) (2) (B) (iii) and § 1.441–2 (c) (5).

(iii) For method of computation of income for a short period in the case of a subsidiary corporation required to change its annual accounting period to conform to that of its parent, see §§ 1.1502–32 and 1.1502–14.

(iv) An individual taxpayer making a return for a short period resulting from a change of annual accounting period is not allowed to take the standard deduction provided in section 141 in computing his taxable income for the short period. See section 142 (b) (3).

(v) In computing the taxable income of a taxpayer other than a corporation for a short period (which income is to be annualized in order to determine the tax under section 443 (b) (1)) the personal exemptions allowed individuals under section 151 (and any deductions allowed other taxpayers in lieu thereof, such as the deduction under section 642 (b)) shall be reduced to an amount which bears the same ratio to the full amount of the exemptions as the number of months in the short period bears to 12. In the case of the taxable income for a short period resulting from a change from or to a 52–53-week taxable year to which section 441 (f) (2) (B) (iii) applies, the computation required by the preceding sentence shall be made on a daily basis, that is, the deduction for personal exemptions (or any deduction in lieu thereof) shall be reduced to an amount which bears the same ratio to the full deduction as the number of days in the short period bears to 365.

(vi) If the amount of a credit against the tax (for example, the credits allowable under sections 34 and 35 for dividends received and for partially tax-exempt interest, respectively) is dependent upon the amount of any item of income or deduction, such credit shall be computed upon the amount of the item annualized separately in accordance with the foregoing rules. The credit so computed shall be treated as a credit against the tax computed on the basis of the annualized taxable income. In any case in which a limitation on the amount of a credit is based upon taxable income, taxable income shall mean the taxable income computed on the annualized basis.

(vii) The provisions of this subparagraph may be illustrated by the following examples:

Example (1). A taxpayer with one dependent who has been granted permission under section 442 to change his annual accounting period files a return for the short period of 10 months ending October 31, 1956. He has income and deductions as follows:

Income	
Interest income	$10,000.00
Partially tax-exempt interest with respect to which a credit is allowable under section 35	500.00
Dividends to which sections 34 and 116 are applicable	750.00
	11,250.00
Deductions	
Real estate taxes	200.00
2 personal exemptions at $600 on an annual basis	1,200.00
The tax for the 10-month period is computed as follows:	
Total income as above	$11,250.00
Less:	
Exclusion for dividends received	$50.00
2 personal exemptions ($1,200×10/12)	1,000.00
Real estate taxes	200.00
	1,250.00
Taxable income for 10-month period before annualizing	10,000.00
Taxable income annualized (10,000×12/10)	12,000.00
Tax on $12,000 before credits	3,400.00
Deduct credits:	
Dividends received for 10-month period	$750.00
Less: Excluded portion	50.00
Included in gross income	700.00
Dividend income annualized ($700×12/10)	840.00
Credit (4 percent of $840)	$33.60
Partially tax-exempt interest included in gross income for 10-month period	500.00
Partially tax-exempt interest (annualized) ($500×12/10)	600.00
Credit (3 percent of $600)	18.00
	51.60
Tax on $12,000 (after credits)	3,348.40
Tax for 10-month period ($3,348.40×10/12)	2,790.33

Example (2). The X Corporation makes a return for the one-month period ending September 30, 1956, because of a change in annual accounting period permitted under section 442. Income and expenses for the short period are as follows:

Gross operating income	$126,000
Business expenses	130,000
Net loss from operations	(4,000)
Dividends received from taxable domestic corporations	$30,000
Gross income for short period before annualizing	26,000
Dividends received deduction (85 percent of $30,000, but not in excess of 85 percent of $26,000)	22,100
Taxable income for short period before annualizing	3,900
Taxable income annualized ($3,900×12)	$46,800
Tax on annual basis:	
$46,800 at 52 percent	$24,336
Less surtax exemption	5,500
	18,836
Tax for 1-month period ($18,836×1/12)	1,570

Example (3). The Y Corporation makes a return for the six-month period ending June 30, 1957, because of a change in annual accounting period permitted under section 442. Income for the short period is as follows:

Taxable income exclusive of net long-term capital gain	$40,000
Net long-term capital gain	10,000
Taxable income for short period before annualizing	50,000
Taxable income annualized ($50,000×12/6)	100,000
Regular tax computation	
Taxable income annualized	100,000
Tax on annual basis:	
$100,000 at 52 percent	$52,000
Less surtax exemption	5,500
	46,500
Tax for 6-month period ($46,500×6/12)	23,250
Alternative tax computation	
Taxable income annualized	100,000
Less annualized capital gain ($10,000×12/6)	20,000
Annualized taxable income subject to partial tax	80,000
Partial tax on annual basis	
$80,000 at 52 percent	$41,600
Less surtax exemption	5,500
	36,100
25 percent of annualized capital gain ($20,000)	5,000
Alternative tax on annual basis	41,100
Alternative tax for 6-month period ($41,100×6/12)	20,550

Since the alternative tax of $20,550 is less than the tax computed in the regular manner ($23,250), the corporation's tax for the 6-month short period is $20,550.

(2) *Exception: computation based on 12-month period.* (i) A taxpayer whose tax would otherwise be computed under section 443 (b) (1) (or section 441 (f) (2) (B) (iii) in the case of certain changes from or to a 52–53-week taxable year) for the short period resulting from a change of annual accounting period may apply to the district director to have his tax computed under the provisions of section 443 (b) (2) and this subparagraph. If such application is made, as provided in subdivision (v) of this subparagraph, and if the taxpayer establishes the amount of his taxable income for the 12-month period described in subdivision (ii) of this subparagraph, then the tax for the short period shall be the greater of the following—

(*a*) An amount which bears the same ratio to the tax computed on the taxable income which the taxpayer has established for the 12-month period as the taxable income computed on the basis of the short period bears to the taxable income for such 12-month period; or

(*b*) The tax computed on the taxable income for the short period without placing the taxable income on an annual basis.

However, if the tax computed under section 443 (b) (2) and this subparagraph is not less than the tax for the short period computed under section 443 (b) (1) (or section 441 (f) (2) (B) (iii) in the case of certain changes from or to a 52–53-week taxable year), then section 443 (b) (2) and this subparagraph do not apply.

(ii) The term "12-month period" referred to in subdivision (i) of this subparagraph means the 12-month period beginning on the first day of the short period. However, if the taxpayer is not in existence at the end of such 12-month period, or if the taxpayer is a corporation which has disposed of substantially all of its assets before the end of such 12-month period, the term "12-month period" means the 12-month period ending at the close of the last day of the short period. For the purposes of the preceding sentence, a corporation which has ceased business and distributed so much of the assets used in its business that it cannot resume its customary operations with the remaining assets, will be considered to have disposed of substantially all of its assets. In the case of a change from a 52–53-week taxable year, the term "12-month period" means the period of 52 or 53 weeks (depending on the taxpayer's 52–53-week taxable year) beginning on the first day of the short period.

(iii) (*a*) The taxable income for the 12-month period is computed under the same provisions of law as are applicable to the short period and is computed as if the 12-month period were an actual annual accounting period of the taxpayer. All items which fall in such 12-month period must be included even if they are extraordinary in amount or of an unusual nature. If the taxpayer is a member of a partnership, his taxable income for the 12-month period shall include his distributive share of partnership income for any taxable year of the partnership ending within or with such 12-month period, but no amount shall be included with respect to a taxable year of the partnership ending before or after such 12-month period. If any other item partially applicable to such 12-month period can be determined only at the end of a taxable year which includes only part of the 12-month period, the taxpayer, subject to review by the Commissioner, shall apportion such item to the 12-month period in such manner as will most clearly reflect income for the 12-month period.

(*b*) In the case of a taxpayer permitted or required to use inventories, the cost of goods sold during a part of the 12-month period included in a taxable year shall be considered, unless a more exact determination is available, as such part of the cost of goods sold during the entire taxable year as the gross receipts from sales for such part of the 12-month period is of the gross receipts from sales for the entire taxable year. For example, the 12-month period of a corporation engaged in the sale of merchandise, which has a short period from January 1, 1956, to September 30, 1956, is the calendar year 1956. The three-month period, October 1, 1956, to December 31, 1956, is part of the taxpayer's taxable year ending September 30, 1957. The cost of goods sold during the three-month period, October 1, 1956, to December 31, 1956, is such part of the cost of goods sold during the entire fiscal year ending September 30, 1957, as the gross receipts from sales for such three-month period are of the gross receipts from sales for the entire fiscal year.

(*c*) The Commissioner may, in granting permission to a taxpayer to change his annual accounting period, require, as a condition to permitting the change, that the taxpayer must take a closing inventory upon the last day of the 12-month period if he wishes to obtain the benefits of section 443 (b) (2). Such closing inventory will be used only for the purposes of section 443 (b) (2), and the taxpayer will not be required to use such inventory in computing the taxable income for the taxable year in which such inventory is taken.

(iv) The provisions of this subparagraph may be illustrated by the following examples:

Example (1). The taxpayer in example (1) under paragraph (b) (1) establishes his taxable income for the 12-month period from January 1, 1956, to December 31, 1956. The taxpayer has a short period of 10 months, from January 1, 1956, to October 31, 1956. The taxpayer files an application in accordance with subdivision (v) of this subparagraph to compute his tax under section 443 (b) (2). The taxpayer's income and deductions for the 12-month period, as so established, follow:

Income	
Interest income	$11,000
Partially tax-exempt interest with respect to which a credit is allowable under section 35	600
Dividends to which sections 34 and 116 are applicable	850
	12,450
Deductions	
Real estate taxes	200
2 personal exemptions at $600	1,200
Tax computation for short period under section 443 (b) (2) (A) (i)	
Total income as above	12,450
Less:	
Exclusion for dividends received	$50
Personal exemptions	1,200
Deduction for taxes	200
	1,450
Taxable income for 12-month period	11,000
Tax before credits	3,020
Credit for partially tax-exempt interest (3 percent of $600)	$18
Credit for dividends received (4 percent of ($850−50))	32
	50
Tax under section 443 (b) (2) (A) (i) for 12-month period	2,970
Taxable income for 10-month short period from example (1) of paragraph (b) (1) before annualizing	10,000
Tax for short period under section 443 (b) (2) (A) (i) ($2,970×$10,000 (taxable income for short period)/$11,000 (taxable income for 12-month period))	2,700
Tax computation for short period under section 443 (b) (2) (A) (ii)	
Total income for 10-month short period	$11,250
Less:	
Exclusion for dividends received	$50
2 personal exemptions	1,200
Real estate taxes	200
	1,450
Taxable income for short period without annualizing and without proration of personal exemptions	9,800
Tax before credits	2,572
Less credits:	
Partially tax-exempt interest (3 percent of $500)	$15
Dividends received (4 percent of ($750−50))	28
	43
Tax for short period under section 443 (b) (2) (A) (ii)	2,529

The tax of $2,700 computed under section 443 (b) (2) (A) (i) is greater than the tax of $2,529, computed under section 443 (b) (2) (A) (ii), and is, therefore, the tax under section 443 (b) (2). Since the tax of $2,700 (computed under section 443 (b) (2)) is less than the tax of $2,790.33 (computed under section 443 (b) (1)) on the annualized income of the short period (see example (1) of paragraph (b) (1)), the taxpayer's tax for the 10-month short period is $2,700.

Example (2). Assume the same facts as in example (1) of this subdivision, except that, during the month of November 1956, the taxpayer suffered a casualty loss of $5,000. The tax computation for the short period under section 443 (b) (2) would be as follows:

Tax computation for short period under section 443 (b) (2) (A) (i)	
Taxable income for 12-month period from example (1)	$11,000
Less: Casualty loss	5,000
Taxable income for 12-month period	6,000
Tax before credits	$1,360
Credits from example (1)	50
Tax under section 443 (b) (2) (A) (i) for 12-month period	1,310
Tax for short period ($1,310×$10,000/$6,000) under section 443 (b) (2) (A) (i)	2,183
Tax computation for short period under section 443 (b) (2) (A) (ii)	
Total income for the short period	$11,250
Less:	
Exclusion for dividends received	$50
2 personal exemptions	1,200
Real estate taxes	200
	1,450
Taxable income for short period without annualizing and without proration of personal exemptions	9,800
Tax before credits	2,572
Less credits:	
Partially tax-exempt interest (3 percent of $500)	$15
Dividends received (4 percent of $750 −50))	28
	43
Tax for short period under section 443 (b) (2) (A) (ii)	2,529

The tax of $2,529, computed under section 443 (b) (2) (A) (ii) is greater than the tax

of $2,183 computed under section 443 (b) (2) (A) (i) and is, therefore, the tax under section 443 (b) (2). Since this tax is less than the tax of $2,790.33, computed under section 443 (b) (1) (see example (1) of paragraph (b) (1)), the taxpayer's tax for the 10-month short period is $2,529.

(v) (a) A taxpayer who wishes to compute his tax for a short period resulting from a change of annual accounting period under section 443 (b) (2) must make an application therefor. Except as provided in subdivision (b), the taxpayer shall first file his return for the short period and compute his tax under section 443 (b) (1). The application for the benefits of section 443 (b) (2) shall subsequently be made in the form of a claim for credit or refund. The claim shall set forth the computation of the taxable income and the tax thereon for the 12-month period and must be filed not later than the time (including extensions) prescribed for filing the return for the taxpayer's first taxable year which ends on or after the day which is 12 months after the beginning of the short period. For example, assume that a taxpayer changes his annual accounting period from the calendar year to a fiscal year ending September 30, and files a return for the short period from January 1, 1956, to September 30, 1956. His application for the benefits of section 443 (b) (2) must be filed not later than the time prescribed for filing his return for his first taxable year which ends on or after the last day of December 1956, the twelfth month after the beginning of the short period. Thus, the taxpayer must file his application not later than the time prescribed for filing the return for his fiscal year ending September 30, 1957. If he obtains an extension of time for filing the return for such fiscal year, he may file his application during the period of such extension. If the district director determines that the taxpayer has established the amount of his taxable income for the 12-month period, any excess of the tax paid for the short period over the tax computed under section 443 (b) (2) will be credited or refunded to the taxpayer in the same manner as in the case of an overpayment.

(b) If at the time the return for the short period is filed, the taxpayer is able to determine that the 12-month period ending with the close of the short period (see section 443 (b) (2) (B) (ii) and subparagraph (2) (ii) of this paragraph) will be used in the computations under section 443 (b) (2), then the tax on the return for the short period may be determined under the provisions of section 443 (b) (2). In such case, a return covering the 12-month period shall be attached to the return for the short period as a part thereof, and the return and attachment will then be considered as an application for the benefits of section 443 (b) (2).

(c) *Adjustment in deduction for personal exemption.* For adjustment in the deduction for personal exemptions in computing the tax for a short period resulting from a change of annual accounting period under section 443 (b) (1) (or under section 441 (f) (2) (B) (iii) in the case of certain changes from or to a 52-53-week taxable year), see paragraph (b) (1) (v) of this section.

(d) *Cross references.* For inapplicability of section 443 (b) and paragraph (b) of this section in computing—

(1) Accumulated earnings tax, see section 536 and the regulations thereunder;

(2) Personal holding company tax, see section 546 and the regulations thereunder;

(3) Undistributed foreign personal holding company income, see section 557 and the regulations thereunder; and

(4) The taxable income of a regulated investment company, see section 882 (b) (2) (E) and the regulations thereunder.

TITLE 32—NATIONAL DEFENSE

Chapter XIV—The Renegotiation Board

Subchapter B—Renegotiation Board Regulations Under the 1951 Act

PART 1453—MANDATORY EXEMPTIONS FROM RENEGOTIATION

EXEMPTION OF COMMON CARRIERS BY WATER

Section 1453.3 (d) (2) *Fiscal years ending on or after December 31, 1953,* is amended by deleting, in subdivision (i) thereof, the words "January 1, 1956", and inserting in lieu thereof the words "January 1, 1957".

(Sec. 109, 65 Stat. 22; 50 U. S. C. App. 1219)

Dated: February 26, 1957.

THOMAS COGGESHALL,
Chairman.

[F. R. Doc. 57-1568; Filed, Feb. 28, 1957; 8:52 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Subchapter L—Mineral Lands

[Circular 1970]

PART 185—GENERAL MINING REGULATIONS

ENTRY AND LOCATION OF SOURCE MATERIAL UPON PUBLIC LANDS OF THE UNITED STATES CLASSIFIED OR KNOWN TO BE VALUABLE FOR COAL

On pages 7454 to 7456, inclusive, of the FEDERAL REGISTER for September 28, 1956 there was published a notice of proposed regulations to implement the act of August 11, 1955 (69 Stat. 679; 30 U. S. C. 521-531). Interested persons were allowed 30 days in which to submit written comments, suggestions or objections with respect to the proposed regulations. No comments, suggestions or objections to the proposed regulations have been received. Therefore, the proposed regulations are hereby adopted without change, except that the sections have been renumbered 185.140 to 185.152, inclusive, and the cross references to these sections have been renumbered accordingly.

FRED G. AANDAHL,
Acting Secretary of the Interior.

FEBRUARY 21, 1957.

Part 185 is amended by adding thereto the following sections.

ENTRY AND LOCATION OF SOURCE MATERIAL UPON PUBLIC LANDS VALUABLE FOR COAL

Sec.
185.140 Purpose and authority.
185.141 Public lands known or classified as coal land, containing source material opened to location; exception.
185.142 Copy of Notice of Location to be filed in appropriate County Recorder's office, Land Office, and posted on the claim.
185.143 Claimant to report annually to Mining Supervisor, Geological Survey.
185.144 Mineral patents subject to recording and payment requirements to contain reservation of leasable minerals.
185.145 Mineral patents not to include lignite; exception.
185.146 Lodes do not include extralateral rights.
185.147 Source material not in leasing minerals, right to remove lignite, filing of description.
185.148 Entryman or owner or an assignee thereof of lands patented with coal reservation entitled to exclusive right to locate source material; exception.
185.149 Holder of coal lease entitled to exclusive right to locate source material; exception.
185.150 Definitions.
185.151 Expiration of act; exception.
185.152 Appeals.

AUTHORITY: §§ 185.140 to 185.152 issued under R. S. 2478, sec. 8, 69 Stat. 679; 48 U. S. C. 1201, 30 U. S. C. 541g.

§ 185.140 *Purpose and authority.* The act of August 11, 1955 (69 Stat. 679) was enacted:

To provide for entry and location, on discovery of a valuable source material, upon public lands of the United States, classified as or known to be valuable for coal, and for other purposes.

The regulations in this part are intended to implement those parts of the act which require action by the Department of the Interior.

§ 185.141 *Public lands known or classified as coal land, containing source material opened to location; exception.* The act in section 1 provides in part as follows:

That, subject to the conditions and provisions of this act and to any valid intervening rights acquired under the laws of the United States, public lands of the United States classified as or known to be valuable for coal subject to disposition under the mineral leasing laws and which are open to location and entry subject to the conditions and provisions of the act of August 13, 1954 (68 Stat. 708), unless embraced within a coal prospecting permit or lease, shall also be open to location and entry under the mining laws of the United States upon the discovery of a valuable source material occurring within any seam, bed, or deposit of lignite in such lands.

§ 185.142 *Copy of Notice of Location to be filed in appropriate County Recorder's office, Land Office, and posted on the claim.* (a) The act in section 1 provides in part as follows:

• • • a copy of the notice of any mining location made for source material occurring in any such bed, seam, or deposit, shall be filed for record in the land office of the Bureau of Land Management for the State in which the claim is situated within ninety days after the date of its location.

(b) The act in section 2 provides as to mining claims located prior to May 25, 1955:

That the locator or locators of such a mining claim shall, not later than one hundred and eighty days from and after the date of this Act, post on the claim and file for record in the office where the notice or certificate of location is of record, an amended notice of the mining location stating that such amended notice is filed pursuant to the provisions of this Act and for the purpose of obtaining the benefits thereof; and that a copy of said amended notice is, within the said one-hundred-and-eighty-day period, filed in the land office of the Bureau of Land Management for the State in which the mining location is situated • • •[1]

(c) The act in section 3 provides in part as follows:

• • • upon filing in the land office designated in section 1 hereof, an adequate description of his claim or claims containing such lignite.

(d) Any location notice filed under the above-quoted sections should clearly state that the claim was located for uranium or other source material contained in a bed, seam, or deposit of lignite pursuant to the act of August 11, 1955 (69 Stat. 679). The notice should describe the lands included therein by subdivision, section, township and range, if covered by a public land survey, for a placer claim, and if unsurveyed, or if the location is a lode claim, by a metes and bounds description tied to a corner of the public land survey, or to a mineral monument.

§ 185.143 *Claimant to report annually to Mining Supervisor, Geological Survey.* (a) The act in section 1 provides in part as follows:

That the claimant to any such mining location shall report annually to the Mining Supervisor of the Geological Survey the amount of lignite mined or stripped in the recovery of such valuable source material during each calendar year and tender payment to him of 10 cents per ton thereon • • • subject to the recording and payment requirements • • •

(b) Payments shall be by check, draft or money order, payable to the United States Geological Survey, accompanied by a report of the tons of lignite mined or stripped, whether disposed of or not, in recovering the source material as defined in § 185.147. Each report should show the name of the claim, identify the location, the calendar year for which payment is made and address of claimant. A suggested form of report as shown in Appendix A to the regulations in this part may be used for this purpose.

(c) Tonnage reports and remittances for claims in Montana, North Dakota, South Dakota, and Northern Wyoming should be sent to the Regional Mining Supervisor, U. S. Geological Survey, Billings, Montana. As to claims in other states, the address of the Regional Mining Supervisor may be obtained from the Director, U. S. Geological Survey, Washington 25, D. C.

[1] In this connection, the Land Office for North Dakota and South Dakota is located at Billings, Montana; that for Nebraska at Cheyenne, Wyoming; and that for Arkansas, Florida, Louisiana, and Mississippi, at Washington 25, D. C.

§ 185.144 *Mineral patents subject to recording and payment requirements to contain reservation of leasable minerals.* (a) The act in section 1 provides in part as follows:

Any mineral patents issued hereunder shall be made subject to the recording and payment requirements of this section and shall contain a reservation to the United States of all Leasing Act minerals owned by the United States other than lignite containing valuable source material and lignite necessary to be stripped or mined in the recovery of such material.

(b) Under this section, all debts due the United States on account of coal mined under the location must be paid, before a patent will issue.

§ 185.145 *Mineral patents not to include lignite; exception.* (a) The act in section 1 provides in part as follows:

Mining claims located and mineral patents issued under the provisions of this Act shall not include rights to lignite not containing valuable source material except to the extent it may be necessary to mine or strip such lignite in order to mine the source material • • •

(b) The reservation of leasing act minerals including lignite that do not contain valuable source material which will be inserted in every patent issued under the act, will be subject to the right of the patentee to remove such lignite when necessary to mine source material subject to the provisions of the act.

§ 185.146 *Lodes do not include extralateral rights.* (a) The act in section 1 provides in part as follows:

• • • lode claims, shall not include extralateral rights.

(b) The act in section 2 provides in part as follows:

That no extralateral rights shall attach to any mining location validated under this section.

(c) The right of all locators under the act are therefore limited to the extraction of unreserved minerals within the exterior boundaries of the claim extended vertically downward.

§ 185.147 *Source material not in leasing minerals, right to remove lignite, filing of description.* (a) The act in section 3 provides in part as follows:

SEC. 3. Subject to the provisos of section 2 of this Act, any mining location made under the mining laws of the United States, including the Act of August 13, 1954, on lands of the character described in section 1 of this Act, except locations made for lands within the exterior boundaries of a prior coal prospecting permit or lease, if based upon a discovery of valuable source material in deposits other than deposits of Leasing Act minerals, shall include the right to mine, remove, and dispose of lignite containing valuable source material and lignite necessary to be stripped or mined in the recovery of source material contained in lignite, subject to the reporting and payment requirements of section 1 of this Act, and subject to the provisions of the Atomic Energy Act of 1954, upon filing in the land office designated in section 1 hereof, an adequate description of his claim or claims containing such lignite.

(b) For description under this section, see § 185.142 (d).

(c) The act in section 3 also provides in part as follows:

That nothing in this section shall be construed to limit or restrict the rights acquired by virtue of a mining claim heretofore or hereafter located, under the 1872 mining act, as amended, or to impose any additional obligation with respect to mining and removal of source material which does not occur within any seam, bed, or deposit of lignite.

(d) Under these provisions, as to locations which were made under the act of August 13, 1954, at a time when the land was known to contain lignite and was not then in a coal permit or lease, or application for permit or lease, the locator would have a right to mine the lignite containing source material and to mine other lignite only after he had complied with the reporting and payment provisions of section 1 of the act with respect thereto. The owner of such a location, who chooses not to comply with these payment and reporting requirements, may mine and remove any mining law minerals in the location, except such minerals contained in lignite, under authority of the act of August 13, 1954. If such a locator damages or destroys any lignite in connection with his mining operations his liability therefor to the United States will be determined under applicable laws. A location made solely under the 1872 Mining Act would not be subject to the provisions of either the August 13, 1954 Act, or of this act, but unless made upon land not then known to contain lignite it would be invalid.

§ 185.148 *Entryman or owner or an assignee thereof of lands patented with coal reservation entitled to exclusive right to locate source material; exception.* (a) The act in section 4 provides as follows:

The entryman or owner of any land or the assignee of rights therein, including lands granted to States, with respect to which the coal deposits have been reserved to the United States pursuant to the provisions of the act of March 3, 1909 (35 Stat. 844), or the act of June 22, 1910 (36 Stat. 583), excepting lands embraced within a coal prospecting permit or lease, upon the discovery of valuable source material in lignite situated within such entered, granted, or patented lands, who, except for the reservation of coal to the United States would have the right to mine and remove such source material, shall have the exclusive right to mine, remove, and dispose of lignite containing such source material and lignite necessary to be stripped or mined in the recovery of such material, subject to the reporting and payment requirements of section 1 of this act, and subject to the provisions of the Atomic Energy Act of 1954, upon filing in the land office designated in section 1 hereof, an adequate description sufficient to identify the land containing such lignite.

(b) The description under this section should be by the legal subdivision of the public land survey which contains the deposits.

§ 185.149 *Holder of coal lease entitled to exclusive right to locate source mate-*

rial; exception. (a) The act in section 5 provides as follows:

The holder of coal leases issued under the provisions of the mineral leasing laws, including the Act of August 7, 1947 (61 Stat. 913), prior to the date of this Act, or thereafter if based upon a prospecting permit issued prior to that date, upon the discovery during the term of such lease of valuable source material in any bed or deposit of lignite situated within the leased lands, shall have the exclusive right to locate such source material under the provisions of this Act but the mining and disposal of such source material shall be subect to the operating provisions of the lease and to the provisions of the Atomic Energy Act of 1954: *Provided*, That the provisions of this section shall not apply to coal prospecting permits or leases on lands embraced within entered, granted, or patented lands described in section 4 of this Act.[2]

(b) The coal lessee for lands not entered, granted, or patented, who desires to obtain the benefits of this section must make a mining location and comply with the act and these regulations with respect thereto, and must also comply with the operating regulations (30 CFR Part 211).

§ 185.150 *Definitions.* (a) The act in section 6 provides in part as follows:

• • • "lignite" shall mean coal classified as ASTM designation: D 388-38, according to the standards established in the American Society for Testing Materials on Coal and Coke under standard specifications for Classification of coals by Rank, contained in public-land deposits considered as valuable under the coal-land classification standards established by the Secretary of the Interior and prescribed in section 30, Code of Federal Regulations, part 201; and "source material" shall mean uranium, thorium, or any other material which is determined by the Atomic Energy Commission pursuant to the provisions of section 61 of the Atomic Energy Act of 1954 to be source material.

(b) The act applies only to deposits of coal coming within the definition set out in the above quotation from the act, and other types of coal deposits are not subject to location under the act, even though found to contain source material.

§ 185.151 *Expiration of act; exception.* (a) The act in section 10 provides as follows:

Twenty years after the effective date of this act, all lands subject to the provisions of section 1 shall be withdrawn from all forms of entry under this act. All claims made pursuant to the provisions of this act shall expire at that time, except for (1) claims for which patent has already been issued, and (2) claims on which application for patent has already been made and on which patent is subsequently issued: *Provided*, That, if the President shall so provide by Executive Order, the provisions of this section shall not become effective until thirty years after the effective date of this act.

(b) Under this section, no location will be recognized on and after a date 20 years after the date of the act or the expiration of any extension of such period by the President, unless prior to that date an application for a patent has been filed and no patent will issue for any such claim in the absence of evidence of full compliance with the law made prior to that date.

§ 185.152 *Appeals.* A party aggrieved by any official action taken pursuant to this part may appeal from the decision of any subordinate official to the Director of the Bureau of Land Management, and from the Director's decision to the Secretary of the Interior pursuant to the rules of practice (Part 221 of this chapter).

APPENDIX A

Name of Claim
BLM Serial No.
Located in Sec. __, T. __, R.
County
State

REGIONAL MINING SUPERVISOR,
U. S. Geological Survey,
Billings, Montana.

Enclosed is check (draft or money order) payable to the United States Geological Survey for lignite mined or stripped under the above mining claim during the year ending December 31, ____, in accordance with Public Law 357, 84th Congress.

Tons of lignite---------- ----
Payment at 10 cents per ton---- $----
Name----------
Address----------

NOTE: If section, township, and range are not known, claim should be described as shown in the certificate of location.

December 31 ____, in accordance with Public Law 357, 84th Congress.

Tons of lignite---------- ----
Payment at 10 cents per ton---- $----
Name ----------
Address ----------

NOTE: If section, township, and range are not known, claim should be described as shown in the certificate of location.

[F. R. Doc. 57-1533; Filed, Feb. 28, 1957; 8:45 a. m.]

[2] As of August 11, 1955, there were no outstanding coal permits or leases issued under the act of August 7, 1947, in areas containing lignite as defined in the act of August 11, 1955, subject to the mining laws. Consequently, reference to the act of August 7, 1947 will not result in any mining claims being made for source material on acquired lands.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 11870; FCC 57-175]

[Rules Amdt. 16-12]

PART 16—LAND TRANSPORTATION RADIO SERVICE

RAILROAD RADIO SERVICE

In the matter of amendment of §§ 16.351 (a) and 16.352 (b) of the rules governing the Railroad Radio Service.

1. On November 13, 1956, the Commission released a notice of proposed rule making in the above-entitled matter which was published in the FEDERAL REGISTER on November 16, 1956, (21 F. R. 8952) in accordance with the provisions of section 4 (a) of the Administrative Procedure Act. The purpose of the amendments under consideration is to provide communications for the land motor vehicles of railroad common carriers engaged in the pickup, delivery or transfer between stations of property shipped, continued in, or destined for shipment by such railroad common carriers; to amend § 16.351 (a) to preclude a possible interpretation that this section includes persons other than railroad common carriers; and to delete the special protection afforded by § 16.352 (b) to the frequencies 159.57, 159.81, 160.11, 161.01, 161.31 and 161.67 Mc.

2. The period in which interested persons were afforded an opportunity to submit comments thereto has expired. Comments in support of the Commission's proposal have been filed by the Association of American Railroads, the Railway Express Agency, Inc. and the Union Pacific Railroad Company. Comments in opposition to the above-mentioned proposal have been filed by the Villiage of Richfield, Minnesota, and by the Counties of Winnebago, Brown, Oconto, Kewanee and Milwaukee in Wisconsin.

3. The gravamen of the comments objecting to the Commission's proposal is that the additional use of the frequencies involved by the primary user will make the frequencies less available for secondary users, such as the Highway Maintenance Radio Service. They contend that "in view of the great amount of interference Highway Departments are experiencing, which the Federal Communications Commission attributes to radio signals from the upper layer of the ionosphere, some extraordinary measures will be necessary to insure continuance of highway radiocommunications." They believe that "the public interest will be better served by Highway Departments having adequate radiocommunications facilities than by the convenience of a local pickup and delivery organization." For these reasons, they suggest "that the railway express service of the railroads be allocated a third priority to the frequencies involved."

4. The Commission agrees with the reply comments filed by the Railway Express Agency, Inc., that these objections are without merit since the 152-162 Mc frequencies allocated to the Railroad Radio Service are made available to the Public Safety Radio Services which includes the Highway Maintenance Radio Service, expressly on a secondary basis and subject to no interference being caused to stations in the Railroad Radio Service, either existing or future. Accordingly, the failure of a secondary user to obtain the use of a frequency may not be used as a lever to block the proposed use by a primary right user of an entire block of frequencies.

5. The objecting comments convey the impression that the frequencies allocated to the Railroad Radio Service are virtually the most important if not the sole source of frequencies on which the operation of Highway Maintenance radio stations must depend, however, such is not the case. The Highway Maintenance Radio Service has been allocated twenty frequencies in the 25-50 Mc band, fourteen of which are in the 46-47 Mc band where the long distance skip interference is much less serious than in lower portions of that band; four 157 Mc frequencies not subject to skip interference allocated primarily to the Maritime Mobile Service but available to the Public Safety Radio Services on a secondary basis; twenty frequencies in the band 453-458 Mc, allocated to the Public Safety Radio Services, are available for Highway Maintenance operations and are likewise not subject to skip interference and are suitable for a substantially increased use by stations in the Highway Maintenance Radio Service. The 157 Mc frequencies made reference to above as primarily allocated to the Maritime Service may not be available to the Village of Richfield and the counties listed above because of their proximity to navigable waters.

6. The amendment under consideration does not enlarge the scope of eligibility in the Railroad Radio Service. In fact, one of the stated purposes of the amendment is to preclude a possible interpretation that § 16.351 (a) includes persons other than railroad common carrier. Although the proposed amendments contain an implicit recognition of the fact that an express agency may be a railroad common carrier, this is consistent with the view taken by the Commission in its action on June 20, 1956 (Public Notice, June 21, 1956: Report No. 149, Non-Broadcast and General Actions) denying the application of the Railway Express Agency, Inc., wherein it was conceded that while the Railway Express Agency, Inc., might come within the scope of the eligibility requirements of the Railroad Radio Service, the proposed use of the frequencies was not provided for by existing rules. The proposed action would remedy that situation by permitting the existing primary user to use the frequencies in a manner more consistent with the requirements of persons presently eligible in the Railroad Radio Service:

7. The Village of Richfield and the counties listed herein, request a delay of thirty to sixty days in the Commission's action on the proposal. However, no compelling reasons are given for such delay nor is any explanation given as to what it would accomplish. In view of the fact that the Commission's Notice of Proposed Rule Making was released on November 13, 1956, and interested persons were given until December 19, 1956, a period of five weeks, to submit comments, the Commission is of the opinion that further delay would serve no useful purpose. The suggestion of the Village of Richfield that the Commission should review the original docket in which the frequencies were allocated to the Railroad Radio Service for the apparent purpose of reallocating such frequencies clearly goes beyond the scope of this proceeding.

8. In view of the foregoing considerations, and pursuant to authority contained in section 4 (i) and 303 of the Communications Act of 1934, as amended: *It is ordered*, That effective April 1, 1957, §§ 16.351 (a) and 16.352 (b) of Part 16 of the Commission's rules are amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: February 21, 1957.

Released: February 25, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

Amendment of Part 16, Subpart H, rules governing the Railroad Radio Service.

1. Amend subparagraphs (1) and (2) of § 16.351 (a) to read as follows:

(1) Railroad common carriers, including railroad express companies wholly owned by railroad common carriers, which are regularly engaged in the trasportation of passengers or property when such passengers or property are transported over all or part of their route by railroad.

(2) A non-profit organization or association organized for the purpose of furnishing a radiocommunication service solely to railroad common carriers who are actually engaged in the activity set forth under subparagraph (1) of this paragraph.

2. Amend § 16.352 (b) to read as follows:

(b) All frequencies in paragraph (a) of this section may also be assigned to base and mobile stations to be used for communications which are of practical necessity in connection with railroad operation or maintenance, including use in connection with the operation of land motor vehicles engaged in the pickup, delivery, or transfer between stations of property shipped, continued in, or destined for shipment by railroad common carrier; provided interference is not caused to stations authorized under the provisions of paragraph (a) of this section.

[F. R. Doc. 57-1560; Filed, Feb. 28, 1957; 8:49 a. m.]

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 9]

[Docket No. 11942; FCC 57-173]

FREQUENCY ALLOCATIONS AND AVIATION SERVICES

NOTICE OF PROPOSED RULE MAKING

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. It is proposed to amend Parts 2 and 9 of the Commission's rules, as shown below, to expand the scope of aeronautical advisory service and to make available an additional frequency. This proposal parallels recommendations contained in the October 9, 1956 report on "Operational/Special Service Communications" by the Radio Technical Commission for Aeronautics.

3. Specifically, it is proposed to amend the rules (a) to make the frequency 123.0 megacycles available for communications between private aircraft and aeronautical advisory stations at landing areas served by airdrome control stations; (b) to expand the scope of aeronautical advisory service to include transmission of communications which pertain to the efficient portal-to-portal transit of which the flight is a portion; and (c) to remove the existing restrictions against use of the frequency 122.8 megacycles by air carrier aircraft weighing less than 10,000 lbs.

4. It is anticipated that expansion of the scope of aeronautical advisory service as proposed herein, would result in a substantial increase in the volume of communications in this service. In order to obtain the most effective frequency utilization and best accomplish the intended purpose of providing communications service at landing areas for the occupants of private aircraft, it is proposed to limit the location of control and dispatch points for any aeronautical advisory station to the landing area served by the station.

5. The proposed amendment is issued under the authority of sections 303 (b), (c), (f), and (r) of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed amendments should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before April 1, 1957, written data, views, or arguments setting forth his comments. Comments in support of the proposed amendments may also be filed on or before the same date. Rebuttal comments may be filed within 10 days from the last day for filing of original comments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

7. In accordance with the provisions of § 1.764 of the Commission's rules, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: February 21, 1957.

Released: February 25, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

A. It is proposed to amend that portion of § 2.104 (a) (5) pertaining to the frequency band 122.1 Mc through 123.0 Mc to read as follows:

10	11
122.1	Private aircraft.
122.3	Do.
122.5	Do.
122.7	Do.
122.8	Aeronautical Advisory Station.
122.9	Private aircraft.
123.0	Aeronautical Advisory Station.

B. 1. Delete definition of aircarrier aircraft station from § 9.3 and substitute new definition to read as follows:

Aircarrier aircraft station. An aircraft station aboard an aircraft engaged in or essential to, transportation of passengers or cargo for hire. For the purpose of these rules an aircraft weighing less than 10,000 lbs. may be considered at the option of the applicant, as a private aircraft even though actually engaged in aircarrier operations. The election by the applicant will determine the equipment and frequencies to be employed and the regulations applicable to the aircraft radio station.

2. Delete § 9.311 and substitute a new section to read as follows:

§ 9.311 *Scope of service.* Communications by an aircraft station in the aeronautical mobile service shall be limited to the necessities of safe aircraft operation, except as otherwise specifically provided in this part. Normally, contacts with a ground station in the aviation services shall not be attempted unless the aircraft is within the area served by the station.

3. Delete paragraph (e) of § 9.331, substitute a new paragraph (e) and add a new paragraph (f) to read as follows:

(e) 122.8 megacycles, 6A3 emission: Private aircraft stations to aeronautical advisory stations and between private aircraft stations while in flight. Permissible communications are defined in § 9.1004.

(f) 123.0 megacycles, 6A3 emission: Private aircraft stations to aeronautical advisory stations only. Permissible communications are defined in § 9.1004.

4. Delete § 9.1001 and substitute a new section to read as follows:

§ 9.1001 *Special eligibility requirements.* (a) Authorization to operate an aeronautical advisory station using the frequency 122.8 Mc will be issued only to the owner or operator of a landing area not served by an airdrome control station.

(b) Authorization to operate an aeronautical advisory station using the frequency 123.0 Mc will be issued only to the owner or operator of a landing area served by an airdrome control station.

(c) Only one aeronautical advisory station will be authorized at any landing area.

(d) Control points will not be authorized at locations other than the landing area served by the station.

(e) Notwithstanding the provisions of § 9.185 (e), dispatch points shall not be established at locations other than the landing area served by the station.

5. Delete § 9.1002 and substitute a new section to read as follows:

§ 9.1002 *Frequencies available.* 122.8 and 123.0 megacycles, 6A3 emission: For communications with private aircraft stations.

6. Delete § 9.1004 with the exception of the note, and substitute a new section to read as follows:

§ 9.1004 *Scope of service.* (a) At all times when an aeronautical advisory station is in operation, non-public service shall be provided to any private aircraft station upon request and without discrimination.

(b) Aeronautical advisory stations shall not be used for air traffic control purposes.

(c) Communications on the frequency 122.8 Mc shall be limited to the necessities of safe and expeditious operation of private aircraft, pertaining to the conditions of runways, types of fuel available, wind conditions, weather information, dispatching or other necessary information; provided, however, that on a secondary basis, communications may be transmitted which pertain to the efficient portal-to-portal transit of which the flight is a portion, such as requests for ground transportation and food or lodging required during transit.

(d) Communications on the frequency 123.0 Mc shall be limited to messages which pertain to the efficient and economical use of private aircraft, insofar as such communications relate to the efficient portal-to-portal transit of which the flight is a portion, such as dispatching, requests for ground transportation and food or lodging required during transit. The frequency 123.0 Mc is not available for civil defense communications.

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

[7 CFR Part 814]

1957 SUGAR QUOTA FOR MAINLAND CANE SUGAR AREA

NOTICE OF HEARING ON PROPOSED ALLOTMENT

Pursuant to the authority contained in the Sugar Act of 1948, as amended (61 Stat. 922, as amended by 65 Stat. 31[illegible] 7 U. S. C. 1100, Public Law 545, 84th Cong.), and in accordance with the applicable rules of practice and procedure (21 F. R. 4251), the Secretary of Agriculture has, after due notice (21 F. R. 8088) and hearing, found that allotments of the 1957 sugar quota for the Mainland Cane Sugar Area is necessary to prevent disorderly marketing and to accord all interested persons an equitable opportunity to market sugar, and has established allotments of such quota totaling 450,000 short tons, raw value, to be in effect until allotments of the 1957 sugar quota for the Mainland Cane Sugar Area are prescribed (22 F. R. 5).

Notice is hereby given that a public hearing will be held at New Orleans, Louisiana, in the Robert E. Lee Room of the Monteleone Hotel on March 15, 1957, at 10:00 a. m., c. s. t., for the purpose of receiving evidence to enable the Secretary of Agriculture to make a fair, efficient and equitable distribution of the above-mentioned quota for the calendar year 1957 among persons who market sugar processed from sugarcane produced in the Mainland Cane Sugar Area. It will be appropriate at the hearing to present evidence on the basis of which the Secretary may affirm, modify, or change the finding which has been made with respect to necessity for allotment, and make or withhold allotment of any such quota in accordance therewith.

In addition, the subject and issues of this hearing also include (1) the manner in which consideration should be given to the statutory factors as provided in section 205 (a) of the act, and (2) provision for the transfer of allotments under circumstances of a succession of interest.

Notice also is given hereby that it will be appropriate at the hearing to present evidence on the basis of which the Secretary may revise or amend the allotment of the quota or proration thereof for the purposes of (1) giving effect to any increase, or decrease, in the quota resulting from a change in United States sugar requirements or from the proration of a deficit of another area; (2) prorating any deficit in the allotment for any allottee; and (3) substituting final actual data for estimates of such data wherever estimates are used in the formulation of an allotment of the quota.

Issued this 25th day of February 1957.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

[F. R. Doc. 57-1571; Filed, Feb. 28, 1957; 8:52 a. m.]

NOTICES

DEPARTMENT OF AGRICULTURE

Office of the Secretary

NORTH DAKOTA AND SOUTH DAKOTA

DISASTER ASSISTANCE; DESIGNATION OF AREAS FOR SPECIAL EMERGENCY LOANS

For the purpose of making emergency loans pursuant to Public Law 727, 83d Congress, as amended, it is determined that in the States of North Dakota and South Dakota there is a need for agricultural credit which cannot be met for a temporary period from commercial banks, cooperative lending agencies, the Farmers Home Administration under its regular programs, or under Public Law 38, 81st Congress (12 U. S. C. 1148a-3), as amended, or other responsible sources.

Pursuant to the authority set forth above, such loans may be made to new applicants in the States of North Dakota and South Dakota through June 30, 1957. Thereafter, such loans may be made in the above States only to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 26th day of February 1957.

[SEAL] TRUE D. MORSE, *Acting Secretary.*

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations. Special certificates authorizing the employment of student-workers as learners in school-operated industries, as provided in Part 527 (29 CFR Part 527), have been issued to the educational institutions listed hereinbelow; the effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods are indicated.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended March 1, 1956, 21 F. R. 1349).

The following learner certificates were issued for normal labor turnover purposes and, except as otherwise indicated below, not more than 10 percent of the total number of factory production workers were authorized for employment.

Carol Fashion, 48 North Eighth Street, Bangor, Pa.; effective 2-7-57 to 2-6-58; five learners (ladies blouses).

Carwood Manufacturing Co., Baldwin, Ga.; effective 2-19-57 to 2-18-58 (cotton work clothing—pants).

Carwood Manufacturing Co., Cornelia Branch, Cornelia, Ga.; effective 2-19-57 to 2-18-58 (men's work shirts and sport shirts).

Carwood Manufacturing Co., No. 1, Midland Avenue, Monroe, Ga.; effective 2-19-57 to 2-18-58 (men's and boys' work clothing).

Carwood Manufacturing Co., No. 2, Atlanta Highway, Monroe, Ga.; effective 2-19-57 to 2-18-58 (men's and boys' work clothing).

Carwood Manufacturing Co., Lavonia, Ga.; effective 2-19-57 to 2-18-58 (work pants and shirts).

Cordele Uniform Co., 621 11th Avenue, East, Cordele, Ga.; effective 2-11-57 to 2-10-58; 10 learners (men's washable service cotton apparel).

J. Freezer & Son, Inc., Radford, Va.; effective 2-18-57 to 2-17-58 (ladies shirts).

Monleigh Garment Co., Inc., Yadkinville Road, Mocksville, N. C.; effective 2-6-57 to 2-5-58 (ladies' pajamas).

Myersdale Manufacturing Co., Inc., Myersdale, Pa.; effective 2-16-57 to 2-15-58 (men's shirts).

Nash Garment Co., Inc., Nashville, N. C.; effective 2-5-57 to 2-4-58; 10 learners (children's dresses).

J. Olsher & Co., 1100 South Fourth St., Clinton, Ind.; effective 2-11-57 to 2-10-58 (boy's single pants and jackets).

Seneca Sportswear Manufacturing Co., 1234 Bryn Mawr Street, Scranton, Pa.; effective 2-8-57 to 2-7-58; 10 learners (boy's outerwear).

Southeastern Shirt Corp., 110 North Indiana Avenue, LaFollette, Tenn.; effective 2-13-57 to 2-12-58 (dress and sport shirts).

Russell Williams Co., 418-428 West Mahanoy Avenue, Mahandy City, Pa.; effective 2-9-57 to 2-8-58 (ladies' dresses).

Glove Industry Learner Regulations (29 CFR 522.60 to 522.65, as amended March 1, 1956, 21 F. R. 581).

Haynesville Manufacturing Co., Inc., Haynesville, La.; effective 2-6-57 to 8-5-57; 50 learners for expansion purposes (work gloves).

Hosiery Industry Learner Regulations (29 CFR 522.40 to 522.43, as amended March 1, 1956, 21 F. R. 629).

Athens Hosiery Mills, Inc., Athens, Tenn.; effective 2-5-57 to 2-4-58; 5 percent of factory production workers for normal labor turnover purposes (seamless).

Shoe Industry Learner Regulations (29 CFR 522.50 to 522.55, as amended March 1, 1956, 21 F. R. 1195).

Altoona Shoe Co., Inc., 201 Cayuga Avenue, Altoona, Pa.; effective 2-24-57 to 2-23-58; 10 percent of factory production workers for normal labor turnover purposes.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

The following special learner certificate was issued in Hawaii to the company hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed, are as indicated:

Royal Hawaiian Manufacturing Co., Ltd., 1166 Fort Street, Honolulu, Hawaii; effective 2-14-57 to 2-13-58; not less than 80 cents per hour for the first 320 hours and 85 cents per hour for the remaining 160 hours of the 480-hour learning period, for the occupation of sewing machine operator; authorizing the employment of 6 learners for normal labor turnover purposes (ladies' sportswear, dresses, swimsuits, etc.).

The following special learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed, are as indicated:

Elgee, Inc., Km. 3.3 65th Inf. Road, Rio Piedras, P. R.; effective 2-1-57 to 1-31-58; not less than 43 cents per hour for a maximum of 160 hours, for the occupation of stone setting; authorizing the employment of 10 learners for normal labor turnover purposes (combs, barrettes and chignon pins).

Gordonshire Knitting Mills, Inc., Cayey, P. R.; effective 1-28-57 to 1-27-58; not less than 58 cents per hour for the first 240 hours and 68 cents per hour for the remaining 240 hours of the 480-hour learning period, for the occupation of looping; not less than 58 cents per hour for the first 160 hours and 68 cents per hour for the remaining 160 hours of the 320-hour learning period, for the occupation of machine stitching; authorizing the employment of 37 learners for normal labor turnover purposes (sweaters).

Playtex Pan American, Inc., K. 48.1 State Road No. 2, Manati, P. R.; effective 1-28-57 to 7-27-57; not less than 45 cents per hour for the first 240 hours and 53 cents per hour for the remaining 240 hours of the 480-hour learning period, for the occupations of sewing machine operator, cutter and spreader; not less than 45 cents per hour for a maximum of 160 hours, for the occupations of electronic sealing operator, snap machine operator and final inspection; authorizing the employment of 110 learners for expansion purposes (dyper panty, bibs, and dress-eez).

Simmons International, Ltd., 102 Paseo de Covadonga, Puerta de Tierra, P. R.; effective 2-4-57 to 5-3-57; not less than 75 cents per hour for a maximum of 160 hours, for the occupations of mattress closing machine and tufting machine operator; authorizing the employment of one learner for normal labor turnover purposes (mattresses).

Uniforms, Inc., Cayey, P. R.; effective 2-2-57 to 5-18-57; not less than 45 cents per hour for the first 240 hours and 53 cents per hour for the remaining 240 hours of the 480-hour learning period, for the occupation of sewing machine operator; authorizing the employment of 40 learners for expansion purposes (nurses' and maids' uniforms).

Vega Alta Corp., Vega Alta, P. R.; effective 2-1-57 to 7-31-57; not less than 75 cents per hour for the first 240 hours and 88 cents per hour for the remaining 240 hours of the 480-hour learning period, for the occupations of assembly operator, bench operator, drill press operator, heat treat operator, lapping machine operator, inspection operator, punch press operator, plastic molding operator, auto screw machine and welding machine operator, straightener operator, milling machine operator, apprentice tool maker, and plating operator; authorizing the employment of 50 learners for expansion purposes (electric shavers).

Regulations Applicable to the Employment of Student-Workers (29 CFR 527.1 to 527.9, October 14, 1955, 20 F. R. 7737).

Newbury Park Academy, Newbury Park, Calif.; effective 2-4-57 to 8-31-57; 25 additional student workers to be employed in the broom industry, in the occupations of broom maker, sorter, winder, stitcher and related skilled and semi-skilled occupations; each for a learning period of 360 hours at rates of 80 cents per hour for the first 180 hours and 85 cents per hour for the remaining 180 hours (supplemental certificate).

Each learner certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be annulled or withdrawn in the manner provided in Part 528 and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REG-

ISTER pursuant to the provisions of Part 522.

Each student-worker certificate has been issued upon the employer's representation that the employment of the student-workers at subminimum rates is necessary to prevent curtailment of opportunities for employment.

Signed at Washington, D. C., this 13th day of February 1957.

MILTON BROOKE,
Authorized Representative of the Administrator.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11902; FCC 57-170]

CLASS B FM BROADCAST STATIONS

REVISED TENTATIVE ALLOCATION PLAN

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of February 1957;

The Commission having under consideration a proposal to amend the Revised Tentative Allocation Plan for Class B FM Broadcast Stations, and

It appearing, that notice of proposed rule making (FCC 57-36) setting forth the above amendment was issued by the Commission on January 11, 1957 and was duly published in the FEDERAL REGISTER (22 F. R. 322), which notice provided that interested parties might file statements or briefs with respect to the said amendment on or before February 8, 1957; and

It further appearing, that no comments were received either favoring or opposing the proposed amendment;

It further appearing, that the immediate adoption of the proposed amendment would facilitate action on an application (File No. BPH-2162) for a new FM broadcast station in Hagerstown, Maryland to operate on Channel No. 295;

It further appearing, that authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r), and 307 (b) of the Communications Act of 1934, as amended,

It is ordered, That effective immediately, the Revised Tentative Allocation Plan for Class B FM Broadcast Stations is amended as follows in respect to the following listed cities:

General Area	Channels	
	Delete	Add
Hagerstown, Md		295
Cumberland, Md	295	234
Baltimore, Md	294	

Released: February 25, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11906; FCC 57M-155]

EAST COAST RADIO CO. (WKLM)

STATEMENT AFTER PRE-HEARING CONFERENCE AND ORDER OF CONTINUANCE

In re application of Harold H. Thoms, Meredith S. Thoms and Matilann S. Thoms, d/b as East Coast Radio Co. (WKLM), Wilmington, North Carolina, Docket No. 11906, File No. BMP-7252; for modification of construction permit.

A pre-hearing conference was held in the above-entitled proceeding on February 25, 1957. Looking toward expeditious disposition of the matter all participants agreed that the following timetable should govern future procedure:

March 25, 1957—Exchange of Exhibits.
April 4, 1957—Hearing.

Accordingly, it is ordered, This 25th day of February 1957, that the date now scheduled for hearing, March 28, 1957, is extended to April 4, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 57-1563; Filed, Feb. 28, 1957; 8:51 a. m.]

[Docket Nos. 11940, 11941; FCC 57-163]

SARKES TARZIAN, INC., AND GEORGE A. BROWN, JR.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Sarkes Tarzian, Inc., Bowling Green, Kentucky, Docket No. 11940, File No. BPCT-2114; George A. Brown, Jr., Bowling Green, Kentucky, Docket No. 11941, File No. BPCT-2131; for construction permits for new television stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C. on the 20th day of February 1957;

The Commission having under consideration the above-captioned applications, each requesting a construction permit for a new television broadcast station to operate on Channel 13 in Bowling Green, Kentucky; and

It appearing, that the above-captioned applications are mutually exclusive, in that operation by more than one of the applicants would result in mutually destructive interference; and

It further appearing, that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications were mutually exclusive, of the necessity for a hearing and of all objections to their applications; and were given an opportunity to reply; and

It further appearing, that each of the applicants filed timely replies; and that upon due consideration of the above-captioned applications and the aforementioned replies, the Commission finds that each of the applicants is legally, financially, technically, and otherwise qualified to construct, own and operate a television broadcast station;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-captioned applications of Sarkes Tarzian, Inc., and George A. Brown, Jr. are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, to determine on a comparative basis which of the operations proposed in the above-captioned applications would best serve the public interest, convenience and necessity in the light of the record made with respect to the significant differences between the applications as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-captioned applications.

It is further ordered, That the issues in the above-captioned proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon a sufficient allegation of facts in support thereof, by the addition of the following issue: To determine whether the funds available to the applicants will give reasonable assurance that the proposals set forth in the application will be effectuated.

It is further ordered, That to avail themselves of the opportunity to be heard, Sarkes Tarzian, Inc. and George A. Brown, Jr., pursuant to § 1.387 of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

Released: February 25, 1957.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

MICHIGAN

NOTICE OF FILING OF PLAT OF SURVEY AND ORDER PROVIDING FOR OPENING OF PUBLIC LAND

FEBRUARY 25, 1957.

Plat of survey of Blackbird Island, described below, accepted March 23, 1956, will be officially filed in the Eastern States Land Office, Washington 25, D. C., effective at 10:00 a. m., on April 10, 1957.

MICHIGAN MERIDIAN, MICHIGAN

T. 2 N., R. 10 W.,
Sec. 6, Lot 1.

Containing 1.65 acres.

This plat represents the survey of Blackbird Island in Gun Lake which was not included in the original survey of the township which is represented on the plat approved April 24, 1827.

The island is low and wet, approximately one foot above the water level of Gun Lake, of sandy formation. There is a matted growth of alder, brush and vines on the island, but no trees. The island is principally swamp.

No application for the land may be allowed under the homestead or small tract or any other nonmineral public land laws unless the land has been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

At the hour specified on the above-mentioned effective date, the land shall become subject to application, petition, location or selection, under applicable laws, subject to valid existing rights, the provisions of existing withdrawals and the 91 day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended.

All inquiries relating to the land should be addressed to the Acting Manager, Eastern States Land Office, Bureau of Land Management, Department of the Interior, Washington 25, D. C.

H. K. SCHOLL,
Acting Manager.

Office of the Secretary

PROPERTY OF CERTAIN TRIBES, BANDS, AND COLONIES OF INDIANS IN UTAH AND OF INDIVIDUAL MEMBERS THEREOF

TERMINATION OF FEDERAL SUPERVISION

Whereas, all Federal restrictions on the property of the Shivwits, Kanosh, Koosharem and Indian Peaks Bands of the Paiute Indian Tribe, located in the State of Utah, and of individual members thereof, have been removed, and

Whereas, Congress, by section 17 (a) of the act of September 1, 1954 (Public Law 762, 83d Congress, 68 Stat. 1099, 25 U. S. C. 757), has directed the Secretary of the Interior to publish this Proclamation,

Now, therefore, I, Fred G. Aandahl, Acting Secretary of the Interior, do hereby declare that

1. The Federal trust relationship to the affairs of the Shivwits, Kanosh, Koosharem and Indian Peaks Bands of the Paiute Indian Tribe and its members has terminated.

2. Hereafter, all powers of the Secretary of the Interior or other officer of the United States to take, review, or approve any action under the Constitutions or bylaws of the Shivwits, Kanosh, Koosharem and Indian Peaks Bands of the Paiute Indian Tribe are terminated, and any powers conferred upon the tribe by such constitution which are inconsistent with the provisions of the act of September 1, 1954, supra, are terminated.

3. The corporate charters issued pursuant to the act of June 18, 1934 (48 Stat. 984), as amended, to the Kanosh Band of Paiute Indians of the Kanosh Reservation, Utah, and ratified by the band on August 15, 1943, and to the Shivwits Band of Paiute Indians of the Shivwits Reservation, Utah, and ratified by the band on August 30, 1941, are revoked.

4. All statutes of the United States which affect Indians because of their status as Indians shall no longer be applicable to the members of said Bands of the Paiute Indian Tribe, and individual members shall not be entitled to any of the services performed by the United States for the Indians because of their status as Indians.

5. All other rights, privileges, immunities and obligations of such bands, and of the members thereof, and all other powers and responsibilities of the Secretary of the Interior, remain unaffected, except as provided in said act of September 1, 1954, to which reference is hereby made for the provisions of Congress concerning the termination of Federal supervision over the affairs and property of such Indian bands and individuals.

In witness whereof, I have hereunto subscribed my name and caused the seal of the Department of the Interior to be affixed, this 21st day of February 1957.

[SEAL] FRED G. AANDAHL,
Acting Secretary of the Interior.

Federal Maritime Board

ATLANTIC (PASSENGER) CONFERENCE

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916 (39 Stat. 733, 46 U. S. C. 814):

Agreement No. 7840-29, between the member lines of the Atlantic (Passenger) Conference, modifying Annex 1 of the basic conference agreement (7840, as amended) to provide that with respect to members of the American Legion (including women's auxiliary) and their families participating in the American Legion Post-Convention Pilgrimage to Europe, September 1957, one free one-way passage, eastbound or westbound, may be given to a party conductor for each group of 25 or more one-way passengers paying full adult fares (two half-fares count as one adult fare) travelling eastbound prior to October 20, 1957, or westbound prior to December 31, 1957; and one free round-trip passage may be given to a party conductor in accordance with existing rule of the conference to such party conductors, provided the outward sailing date is before October 20, 1957 and return is prior to December 31, 1957. Such free passages are without limitation as to the number of free tickets to such party conductors by any one sailing.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: February 26, 1957.

By order of the Federal Maritime Board.

[SEAL] GEO. A. VIEHMANN,
Assistant Secretary.

[Dept. Order 109 (Revised)]

BUREAU OF PUBLIC ROADS

ORGANIZATION AND FUNCTIONS

SECTION 1. *Purpose.* This order prescribes the organization and functions of the Bureau of Public Roads.

SEC. 2. *Organization.* 01 The Bureau of Public Roads, a primary organization unit of the Department of Commerce shall be headed by a Federal Highway Administrator appointed by the President by and with the advice and consent of the Senate. The Federal Highway Administrator shall report and be responsible to the Under Secretary of Commerce for Transportation.

02 The Federal Highway Administrator shall be assisted in the operations of the Bureau by a Commissioner of Public Roads, who shall be appointed by the Secretary of Commerce.

03 The Bureau of Public Roads shall be constituted as follows:

The Federal Highway Administrator;
The Commissioner of Public Roads;
Deputy Commissioner;
Assistants to the Commissioner;
The General Counsel;
Assistant Commissioner for Engineering;
Deputy Assistant Commissioner for Engineering;
Assistant Commissioner for Operations;
Deputy Assistant Commissioner for Operations;
Assistant Commissioner for Administration;
Deputy Assistant Commissioner for Administration;
Assistant Commissioner for Research;
Deputy Assistant Commissioner for Research;
Regional Offices; and
District Offices.

04 The following officers, in the order designated, shall perform the functions of the Federal Highway Administrator in the Administrator's absences, sickness or other inability to act.

1. Commissioner of Public Roads;
2. Deputy Commissioner;
3. Assistant Commissioner for Engineering;
4. Assistant Commissioner for Operations;
5. Assistant Commissioner for Administration;
6. Assistant Commissioner for Research; and
7. General Counsel.

SEC. 3. *Delegation of authority.* 01 Pursuant to the authority vested in the Secretary of Commerce by law, the Federal Highway Administrator is hereby authorized to perform the functions vested in the Secretary of Commerce by the Federal-Aid Road Act of 1916 and the Federal Highway Act of 1921 and all acts amendatory thereof or supplementary thereto except the apportionment of Federal-aid road funds among the States and such other functions as the Secretary of Commerce may reserve by directive or administrative regulation of the Department. In addition, the Federal Highway Administrator is designated to exercise the authority of the Secretary of Commerce derived from the Defense Production Act of 1950, as amended, with respect to highway construction and maintenance, regardless of financing, including all rural and urban highways, streets, highway equipment, repair shops, bridges, tunnels, toll road facilities, and appurtenant installations.

02 The Federal Highway Administrator may redelegate any power or authority conferred upon him by this order to any official or officials of the Bureau of Public Roads as in his judgment will result in economy and efficiency in effectuating the purposes of the Federal-aid Highway Acts or the provisions of this order.

SEC. 4. *General functions.* 01 The Bureau of Public Roads shall be responsible for administering Federal legislation providing, (a) for the improvement, in cooperation with the 48 States, the District of Columbia, Hawaii, Alaska, and Puerto Rico, of roads on the Federal-aid primary, secondary, and Interstate highway systems, and the urban extensions of such systems, (b) for the survey and construction, in cooperation with the Forest Service of the Department of Agriculture, of roads on the forest highway system, (c) for the survey and construction of main roads through public lands, (d) for the survey and construction, in cooperation with the Central American Republics, of the Inter-American Highway, (e) for the construction and maintenance of highways in Alaska, and (f) other programs as authorized.

02 The Bureau of Public Roads shall function as the principal road-building agency of the Federal Government and shall cooperate with (1) the U. S. Forest Service, the National Park Service, and other Federal agencies in the construction of roads in national forests, parks, and other Federal areas; (2) the Department of State and other Federal agencies in providing assistance and advice to foreign governments in various phases of highway engineering and administration; and (3) the Secretary of Defense, and such other officials as the President may designate, in the survey, design, and construction of access roads certified as essential to the national defense.

03 The Bureau of Public Roads shall conduct a program of research on all phases of highway improvement and highway transport as a basis for the development of progressive highway engineering and administrative practices.

SEC. 5. *Functions of principal officers.* 01 The Federal Highway Administrator shall plan and promulgate the basic programs and policies of the Bureau of Public Roads and shall coordinate the implementation of the Bureau's programs.

02 The Commissioner of Public Roads shall direct and control the execution of the Bureau's programs, including field operations, in accordance with established policies of the Federal Highway Administrator and the Secretary of Commerce. He shall also prescribe basic rules and regulations for the administration of the Bureau's operations and perform such other functions as the Federal Highway Administrator may assign. The Office of the Commissioner includes the Assistants to the Commissioner who coordinate the special projects of the Bureau as may be assigned.

03 The Deputy Commissioner shall be the principal operating aide to the Commissioner and assist in the direction of operations of the Bureau and shall perform such other functions as the Commissioner may assign.

04 The General Counsel, under the general policy guidance of the General Counsel of the Department of Commerce, serves as the law officer of the Bureau and renders all legal counsel and advice to the Federal Highway Administrator, the Commissioner of Public Roads, heads of program and staff offices including Regional Offices, in all matters pertaining to the functions of the Bureau. He shall direct and supervise all legal work performed by his office.

05 The Assistant Commissioner for Engineering, who shall head the Office of Engineering, participates in the formulation and directs the execution of policy and programs relating to highway programing, design, construction and maintenance for all Federal-aid highway activities authorized under the Federal-aid Highway Acts. These programs include the review and approval of systems, programs, plans and specifications for construction and maintenance of interstate, primary, secondary and urban roads; and certified defense access roads which are constructed through the State highway departments; the review and approval of plans and specifications for bridges and tunnels; the acquisition of rights-of-way; the inspection and approval of construction and maintenance operations; the administration of projects for repair of damage to Federal-aid projects occasioned by disaster other than Civil Defense. The Assistant Commissioner for Engineering supervises the operations of the following divisions: Federal-Aid Systems, Bridges and Tunnels, Construction, Interstate Highways, Maintenance, Primary Highways, Rights of Way, Secondary Highways, and Urban Highways.
